Purpose of the Report (select as appropriate)

Er Sicrwydd/For Assurance

ADRODDIAD SCAA
SBAR REPORT

Sefyllfa / Situation

Hywel Dda University Health Board (HDdUHB) is a statutory member of Public Services Boards (PSBs) in Carmarthenshire, Ceredigion and Pembrokeshire. Well-being Assessments were undertaken by each PSB in 2022, which supported the development of local Well-being Plans which were widely consulted on and published in 2023.

Each PSB Well-Being Plan has four priority areas with an over-arching theme of reducing inequalities, inequity and poverty. Delivery and Task and Finish Groups have been established to support specific programmes reflected in the Plans with governance arrangement in place to the PSB.

The purpose of this report is to provide an update to the Strategic Development and Operational Delivery Committee (SDODC) of key actions developed to date against the priority areas.

Cefndir / Background

PSBs were established under the Well-being of Future Generations (Wales) Act 2015 (WFGA), with the purpose of improving the economic, social, environmental and cultural well-being of populations within their geographic areas by strengthening joint working across all public services in Wales. The effective working of PSBs is subject to overview and scrutiny by the Well-being of Future Generations Commissioner and Audit Wales, as well as by designated Local Authority overview and scrutiny committees.

The Well-being of Future Generations (Wales) Act 2015 requires each Local Authority area in Wales to establish a Public Services Board (PSB). HDdUHB is therefore a member of Carmarthenshire, Ceredigion and Pembrokeshire PSBs, and is represented on these strategic partnerships by the Executive Director of Public Health.

The WFGA places a collective well-being duty on each Board to improve the economic, social, environmental and cultural well-being of its area through its contribution to meeting seven national Well-being Goals established by Welsh Government (WG).

As part of this duty, on-going monitoring and reporting is required against the agreed objectives of each of the PSB Well-being Plans. This report summarises current actions against the priority areas of the PSB Well-Being Plans.

Regional Partnership Boards, based on Local Health Board footprints, became a legislative requirement under Part 9 of the Social Services and Well-being (Wales) Act 2014 (SSWBWA). Their core remit is to promote and drive the transformation and integration of Health and Social Care within their areas, linking with PSB partners and established Delivery Groups.

Asesiad / Assessment

West Wales Regional Partnership Board (RPB) Update

A briefing was provided to the HDdUHB Board on 4 January 2024. The RPB last met 22 January 2024 with a RPB/Ministerial Meeting taking place in the same month. The latter included discussions on Further Faster Funding, building third sector capacity and social prescribing.

- A summary of updated actions following the last meeting are detailed below: A follow-up workshop with WG will take place on 5 February 2024 to discuss the six-month Welsh Government (WG) evaluation of Regional Integrated Fund (RIF). Initial feedback from Welsh Government was positive, identifying significant improvement from the initial submissions.
- Further/Faster Funding has been signed off for 2023-2024 and awaiting confirmation of 2024-2025 allocation.
- RPB self-assessment closing date has been extended to 5 February 2024 to allow statutory partners to complete their submission. This survey is designed to gather feedback on partners' views of the work of the RPB, areas of strength, and areas requiring development. The findings will be fundamental to the future work and direction of the RPB in supporting partners.
- Date agreed for the first meeting of the newly agreed, Health and Social Care Group to identify the operation model required to administer the Regional Capital Strategy and Funding.
- The Preventions Board, a sub-group of the RPB, held a workshop in November 2023. This workshop was open to all partners, and included presentations from Welsh Government, Health Board and RPB. The aim of the workshop was to initiate discussion on identifying priorities and actions for the Preventions Board in the future. A report from the event will be considered at the next Preventions Board and then be made available on the RPB website.

PSB Well-being Plan Update

PSB Well-being Plans have agreed objectives (or themes) that reflect the findings from the Well-being Assessments and subsequent engagement exercises which took place with key stakeholders, communities and PSB partners prior to publication. All three PSBs have cross-cutting themes of reducing inequalities, inequity and poverty. These are summarised in Appendix 1, attached.

Ceredigion PSB

- Ceredigion PSB last met on 5 December 2023 and received an update from each of the three sub-groups (Lampeter Project Group, Cardigan Project Group and the Climate and Nature Delivery Group) which reflect the PSB's Well-being Objective 2: Work Together to reduce inequalities in our communities and use social and green solutions to improve physical and mental health; and 3: Work together to deliver decarbonisation initiatives within Ceredigion to protect and enhance our natural resources. The PSB received feedback from the Prioritising' Workshops that took place recently and agreed: A continued focus on place-based working for Lampeter and Cardigan Project Groups and a widening of the scope to Country level, of the previous Aberystwyth Project Group now to be known as the Climate and Nature Delivery Group.
- A decision to include the Active Travel work within the Climate and Nature Delivery Group.
- A Delivery Plan will be drafted by a Task and Finish Group to reflect the Well-being priority areas resulting from the recently held workshops - to be launched in early 2024, supported by a launch event.
- Establishment of a Co-Production Network for Wales with representation at all Delivery Groups.
- All Delivery Groups/sub-groups (and main PSB) to review Terms of Reference and membership reflecting the priority areas identified within the new Delivery Plan.

A summary of the PSB Sub-Group work to date is detailed below:

Lampeter Project Group

- The group has focused on sharing details of organisational priorities and strategies relevant to Lampeter and the surrounding area, and considered the specific themes of anti-social behaviour, food, physical and environmental well-being and social, emotional and mental health.
- Inputs on establishing Warm Hubs and the links to the Green Infrastructure Plan have been discussed.
- In 2023, the Ceredigion Local Food Partnership was established which linked work already underway within this project group.
- Reflecting the Health Board's Planning Objective 7c Social Model for Health and Wellbeing and long-term community-driven focus on prevention, Lampeter was identified as a focus area for piloting this piece of work. Actions have included the implementation of Wednesday Walks for Lampeter residents starting from Lampeter's University of Wales Trinity Saint David campus and supporting and facilitating work around the Lampeter Well-Being Centre.
- The group have considered participating in a feasibility study relating to a Youth Engagement Project and this will be developed further as part of a Group Action Plan.

Cardigan Project Group

- An initial mapping exercise of resources and groups within Cardigan was undertaken and identified that many partners have a county wide focus and opportunities exist to tailor provision at a local level. Sharing research, knowledge and experience of direct service provision partners have resulted in several joint pieces of work to include the Cardigan Baseline Study, Economic Strategy, Shared Prosperity Fund, Green Infrastructure Action Plans, Wellbeing Centre development, Mid Wales Area Statement, People and Place Plans, Resources for Change Report and the Primary Care Cluster Profile for South Ceredigion.
- Future actions include linking partners and networks via an asset- based community development approach; improving local education and skills for the benefit of young people; establishing a wellbeing centre; enhancing outdoor facilities and the use of

green space for recreation; improving health and wellbeing and adopting a preventative approach to provision within the local community; and improving economic and social outcomes within the local community - including the promotion of healthier lifestyles and improving access to local food.

- Underpinning this work is the general principle of co-production and collaboration.

Climate and Nature Delivery Group

- Initially a place-based Aberystwyth group focusing on supporting a feasibility study for the development of a district heat network located around the University campus at Penglais. This work has now been completed and the recommendations have identified the need for an enhanced funding package, with its own delivery structure to enable progression to the next stage.
- The remit of the Delivery Group has widened to a county-wide approach and to consider all climate and nature related matters as outlined in the PSB's Well-being Plan Objective 3. As with other groups, sharing of resource and knowledge has been reflected in partnership plans such as the Mid Wales Area Statement (Natural Resources Wales) and the Health Board's Decarbonisation Strategy.
- Future actions include the co-production of the Local Energy Action Plan (LEAP); completion of a Climate Change Risk and Opportunity Assessment; engagement with community groups to encourage participation and support to decarbonisation actions; encourage positive actions aimed at enhancing local nature and the natural resource; agree key commitments within the Healthy Travel Charter; and support the implementation of the Mid Wales Energy Plan.

The Community Safety Partnership (CSP) meets quarterly and reports by exception, to the PSB. The CSP have recently undertaken a Strategic Assessment, the purpose of which was to identify and examine current issues and potential future threats that may affect the County to provide a strong evidence based, intelligence led foundation to inform a Community Safety Strategy and Delivery Plan for Ceredigion. The priorities identified two categories: Crime Priorities (*Sexual Offences, Violence Against Women and Girls, Illegal Supply of Drugs and Substance Misuse, and Domestic Abuse*), and Feeling Safe Priorities (*Burglary, Online Crime, Fraud and Cold Calling, Criminal Damage, Drug and Alcohol Misuse, and Visible Police Presence*). A Delivery Plan and accompanying strategy is in the process of being put together, and these will be published online when approved.

Additionally, the Armed Forces Community Covenant Forum is under the PSB Governance structure. To date this has been referred to as a PSB Sub-Group - alongside the Children and Young Peoples Provider Forum, Poverty Sub-Group and the Refugee Resettlement Group. Ceredigion County Council facilitates a cross-sector Forum which draws its wide membership from the public, private and third sectors. The Forum exists to implement the aims of the Ceredigion armed Forces Community Covenant.

Carmarthenshire PSB

Carmarthenshire PSB met on 28 November 2023. Actions agreed within each of the objectives have been prioritised resulting in two delivery groups reflecting PSB Well-being Objective 2: Tackling Poverty and its impact; and Objective 3: Ensuring a sustainable economy and fair employment. Two groups have met and a summary of work to date is detailed below:

Making Every Contact Count (MECC) Task and Finish Group

- The aims of this group are to identify and action opportunities for PSB organisation staff to make every contact count with improved signposting and referral to support services

and to build on advice services and support for residents through the Council's Hwbs, by developing opportunities for collaboration across PSB organisations.

- The group has agreed to focus initial activity to support existing Hwb public support services by offering improved networking of information between partner organisations and exploring formal adoption of MECC.
- It was agreed that participating in Level 1 (Brief Advice) online training was a valuable tool to increase the skills and knowledge of staff in having conversations to improve individuals' health and well-being, especially those living with limiting life-long conditions or those currently awaiting hospital treatment. On-going work agreed to explore how this could be embedded within existing organisational learning and development structures. Level 2 (Brief Intervention) training was agreed as a future training objective which may link to a wider, regional approach to develop an accredited MECC training programme for all partners.

Planning for our future Workforce Task and Finish Group

- This group aims to plan for the future workforce by working collaboratively to promote job and career opportunities in the public sector.

Pembrokeshire PSB

Pembrokeshire PSB met on 28 November 2023 and the agenda focused on environment themed projects, such as biodiversity and the nature emergency, climate adaption and decarbonisation and net zero.

The PSB Well-being Plan is delivered via a Gold (the PSB Board), Silver and Bronze structure. There are three Silver Project Groups with agreed plans in place reflecting the four objectives. These identify and allocate organisational resource, monitor and measure progress, identify cross-cutting themes across project areas and lead on engagement in each project area.

These include:

- Poverty Group
- Nature, De-Carbonisation and Climate Change Group
- Pembrokeshire Strengthening Communities Group

In addition, Bronze Groups include:

- Pembrokeshire Biodiversity Partnership
- Keep Warm, Keep Well Project Group

Two of the Silver groups have met in January 2024 and a summary of work to date is detailed below:

Pembrokeshire Strengthening Communities Group

- This group has been reconstituted following workshops in November and December 2023 agreeing integration of the Community Co-ordination Recovery Group (CCRG).
- The Chair of the group has met with WG's Minister for Finance and Local Government and the group continues to engage with the Policy Team.
- Priorities for future action include continued multi-agency engagement and drafting of an Action Plan to be presented at the next PSB Board Meeting.

Poverty Group

- There is a Strategy and Action Plan in place with an agreed monitoring process to assess progress.
- Currently supporting Pembrokeshire Voluntary Service's (PAVS) Keep Warm, Keep Well Project is a priority action and a Poverty Summit has been arranged for 14 February 2024 which PSB partners have been invited to participate in.

Argymhelliad / Recommendation

The Strategic Development and Operational Delivery Committee is asked to:

- **RECEIVE ASSURANCE** that the Health Board is working effectively with Statutory Partners in order to meet the required obligations as laid out by the Well-being of Future Generations (Wales) Act 2015 and the Social Services and Wellbeing (Wales) Act 2014 and that the PSBs are implementing actions reflected in their Well-being Plans 2023-2028.

Amcanion: (rhaid cwblhau)

Objectives: (must be completed)

Committee ToR Reference: Cyfeirnod Cylch Gorchwyl y Pwyllgor:	To receive an assurance on delivery against all relevant Planning Objectives falling in the main under Strategic Objectives 4 (<i>The best health and wellbeing for our individuals, families and our communities</i>) and 5 (<i>Safe, sustainable, accessible and kind care</i>), in accordance with the Health Board's approved timescales, as set out in HDdUHB's Annual Plan. 2.2: Provide assurance that the planning cycle is being taken forward and implemented in accordance with University Health Board and Welsh Government requirements, guidance and timescales. 2.3: Provide assurance that, wherever possible, University Health Board plans are aligned with partnership plans developed with Local Authorities, Universities, Collaboratives, Alliances and other key partners, such as the Transformation Group who form part of A Regional Collaboration for Health (ARCH).
