

<b>Reference:</b>	FOI.12560.23
<b>Subject:</b>	Adult critical care beds
<b>Date of Request:</b>	31 August 2023

**Requested:**

1. How many Adult Level three Critical Care beds do you currently have with an invasive ventilator?
2. How many of these are currently staffed and therefore available for use (either vacant or occupied)?
3. Assuming most beds have CO2 monitoring; How many of your L3 beds have inhaled anaesthetic gas monitoring. This is in line with NICE guidelines (Jan 2022)

**Response:**

1. & 2. Hywel Dda University Health Board (UHB) confirms that it has twenty-two (22) adult Level Three (L3) critical care beds that are both funded and staffed.
3. The UHB confirms that all of its L3 critical care beds have the ability to support appropriate gas monitoring.
