

Reference:	FOI.12089.23
Subject:	Carers' forum event
Date of Request:	20 June 2023

Requested:

1. Cost of a CT scan to be completed in Hywel Dda Health Board
2. Prof. Phil Kloer, Deputy Chief Executive and Executive Medical Director, gave a presentation on, I believe, a study commissioned by Hywel Dda (first ever internationally) on Community Health Care by Aberystwyth University. He was very passionate on how the study's findings could benefit community health care in the future at a cost of £20 million. Would it be possible to please ask for this PowerPoint presentation please, as copies were not handed out. Or alternatively, if this is not possible, the title of the study and any relevant information, such as that discussed on that day".

Clarification

I would like all information that was presented by the Professor visually during his presentation, so if that is a review of all the literature that he presented in his presentation then I kindly ask for it. It was presented to the carers group.

I would also like access to information pertaining to the cost of a CT scan please?

Response:

1. Hywel Dda University Health Board (UHB) confirms that the fully absorbed cost of a CT scan was £164.91, for the 2021/22 financial year. The UHB does not hold a more up to date cost, as the 2022/23 figures are in the process of being finalised.
2. The UHB provides a copy, at Attachment 1, of the PowerPoint Presentation, Social Model for Health and Wellbeing, that was presented by Professor Phil Kloer, Deputy Chief Executive and Executive Medical Director, during the Carmarthenshire Carers' Forum event at Parc Y Scarlets, Llanelli on 15 December 2022.

The systematic review of literature and thematic analysis described within the presentation were discussed at the UHB's Board meeting on 26 January 2023. As this information is accessible by another means, the UHB has applied an exemption under Section 21 of the Freedom of Information Act 2000 (FoIA); this information is available in the public domain and a link to the UHB's Board meeting recording and papers has been attached below:
