

Reference:	FOI.11602.23
Subject:	Health Board's infrastructure
Date of Request:	2 May 2023

Requested:

Can you please provide an update on your Trust's Infrastructure? The six questions are in the attached spreadsheet, which I would be grateful if you could fill in.

1. For each of the specified years please provide your trust's total IT spend on infrastructure
 - 2021/22
 - 2022/23
2. What percentage of your servers are virtualised?
3. In relation to your trust's servers please provide the requested information
4. For each element detailed below, how does your organisation manage its data storage?
 - In-house data centre
 - Shared service
 - Data Storage Management
 - Other (please specify)
5. Please outline your trust's WiFi coverage for each element listed below
 - Community wide (e.g. CoIN - Community of Interest Network)
 - Enterprise wide (whole campus)
 - Main building only
 - Sections of building(s) only
 - Mobile phone signal enabled through WiFi
 - No wireless networks are used in the trust
6. For each device detailed below please provide the requested information

Clarified

- Question 3: relates to your physical servers
- Question 4:
 - In-house data centre: a large group of networked computer servers typically used by organisations for the remote storage, processing, or distribution of large amounts of data.
 - Data storage management: the process of managing data more effectively. Information may include protocols, documents, user preferences, address books, and more. Also helps organisations understand where they have data, which is a major piece of compliance.

Response:

Hywel Dda University Health Board (UHB) provides the information, within the spreadsheet provided, as requested, at Attachment 1.
