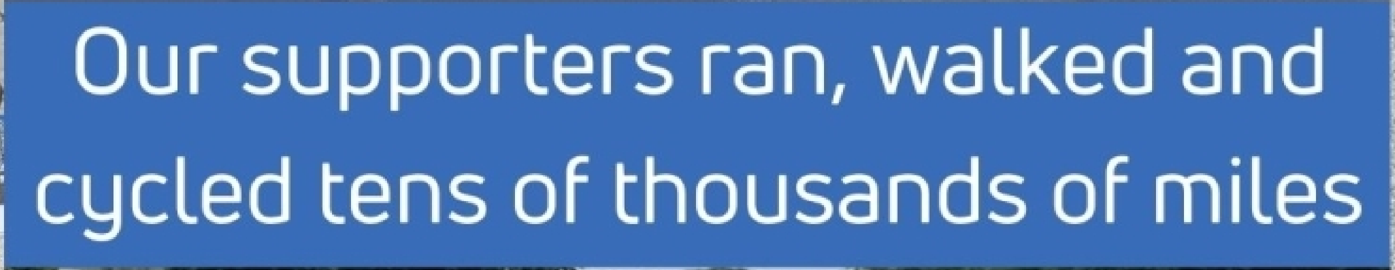
We were overwhelmed by the generous offers of help, support and gifts from our local communities

Over 2,000 items were donated to provide care packs for patients unexpectedly admitted to hospital

£96,000 was raised for our COVID-19 appeal to thank staff and volunteers for the personal sacrifices made

Our supporters ran, walked and cycled tens of thousands of miles



We saw new and unique fundraising ideas from children as young as four to those in their eighties and nineties

COVID-19 APPEAL

Supported by

NHS CHARITIES TOGETHER

Support was received from the national fundraising appeal thanks to the amazing efforts of Sir Captain Tom Moore and many others

1,000s of miles were covered during our 60 in September challenge and your perfect pooches and fabulous felines even played a part!

You supported our Christmas campaign in aid of adult mental health patients

During 2020/21 we spent £1.3 million on making things better

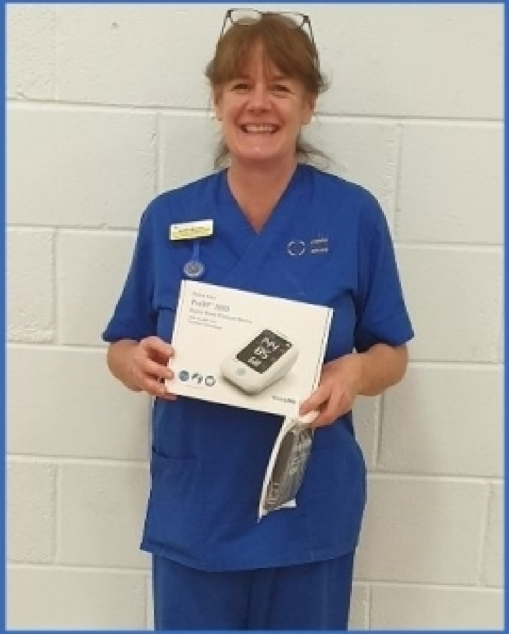
Additional patient comforts	Most up-to-date medical equipment	More welcoming surroundings
Care in our local communities	Staff welfare and wellbeing	Staff learning and development

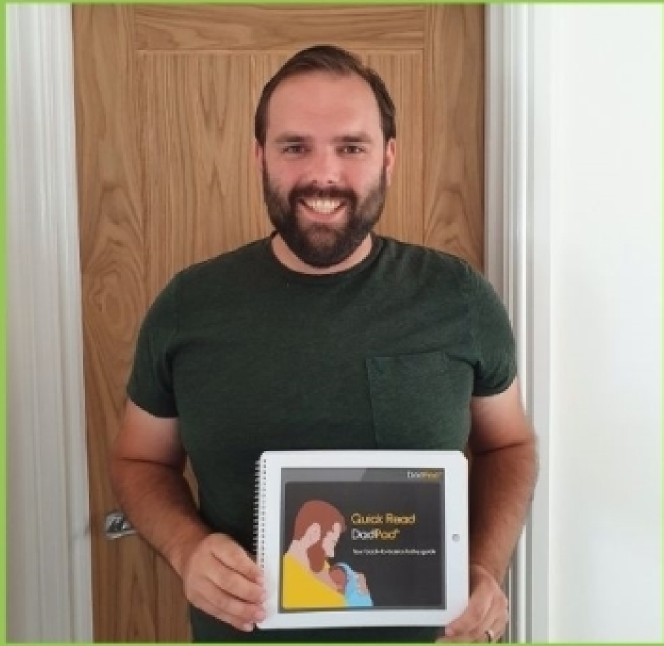
Care packs helped make our patients more comfortable during their hospital stay

Distraction items helped alleviate boredom and improve the patient experience

Electronic devices kept patients and their loved ones connected

Medical devices and equipment helped facilitate discharge and enabled patients to be cared for in their own homes





Care was delivered in new and innovative ways

Better equipped and more comfortable indoor and outdoor rest areas supported staff wellbeing

Hundreds of staff wellbeing packs provided nutrition, hydration and toiletries

We made sure our NHS staff and volunteers knew that their hard work was appreciated

and so much more………

We couldn't have done it without you

Thank you!
