SBAR REPORT

Sefyllfa / Situation

The University Health Board (UHB) Central Tracker is a high level log of all reports received from Internal Audit and external auditors, regulators and other bodies. These reports will generally include recommendations to address areas of improvement and/or gaps in controls. The tracker also includes the number of recommendations and records the current or reported status of these.

This report is presented to provide the Audit & Risk Assurance Committee (ARAC) with a current status report on progress on implementing the recommendations from audits and inspections, and to advise on work that has been undertaken and current monitoring arrangements.

Cefndir / Background

Audits and reviews play an important independent role in providing the Board with assurance on internal controls and that systems and processes are sufficiently comprehensive and operating effectively. Therefore it is essential that recommendations from audits and reviews, both internal and external, are implemented in a timely way.

All reports and inspections which are carried out across the UHB are logged onto the UHB central tracker and progress on implementing recommendations should be monitored via the Board's committee structure.

Asesiad / Assessment

UHB Central Tracker

The attached UHB Central Tracker (Appendix 1) provides the Committee with a current overview of the number of audits and reviews where there are recommendations outstanding.

Below is a synopsis of activity since the last report to ARAC. Since the 77 reports open at the last ARAC meeting, a further 13 reports have been closed with 17 new reports received by the

UHB, leaving 81 reports currently open, 42 of which have now passed their original completion date. At the last ARAC meeting 118 recommendations were overdue (i.e. the original implementation date had passed), which has increased to 123. This is primarily due to the high number of Internal Audit reports received in the last quarter.

**Two HIW reports relate to GP practices which are managed by the UHB. The assurance officer obtains updates via the Quality Manager for Primary Care, who manages progress of actions on behalf of primary care. The remaining HIW and CHC reports relate to inspections at a GP and dental practice, who are independent contractors, and are accountable for implementing any recommendations made by HIW. The UHB maintains oversight of these through the Primary Care Team.*

The following six reports are ready to be closed, pending Lead Executive approval, as all recommendations have been implemented:

- *Delivery Unit Older Persons Mental Health In-Patient Services, October 2016*
- *Internal Audit HDUHB 1819-13b Financial Ledger*
- *Internal Audit HDUHB 1819-14 Treasury Management*

No Ref	Unannounced Inspection of Greville Court Learning Disabilities - 14 Jul 16	Health Inspectorate Wales (HIW)	18/10/2016	Director of Operations	Mental Health & Learning Disabilities	Melanie Evans	Dec-16	N/K	Executive Team Performance Reviews - MH&LD	18 (includes recs from IA report) recommendations (96 actions)	1	0	17	MHLD QSESC 12/11/18- remaining outstanding action is in relation to the recommendation that the UHB ensures that DOLS are in place for the residents in the home, current DOLs Legislation does not cover people who are living in their own home, this is because it is determined that by the nature of only being in receipt of supported living and having their own tenancy they are not subject to a deprivation of their liberty. The DOLS co-ordinator is currently identifying resources so that a thorough review of the residents can be undertaken, so that the UHB can be assured that there are no deprivation practices taking place in the home. 23/11/18- Assurance officer requested revised timescale of review from reporting officer. Director of Operations informed. 07/12/18-Head of Learning Disabilities and Older Adult Mental Health advised another factor to consider is the review of the Mental Health Act in England and Wales which was published yesterday, so to clarify the delay isn't within our service but reflective of Countrywide review ongoing, MHLD QSE exception report to QSEAC 05/02/19 -In regard to Greville Court, there is an outstanding action in relation to the recommendation that the UHB ensures that Deprivation of Liberty Safeguards (DOLS) are in place for the residents in the home. Current DOLS legislation does not cover people who are living in their own home, this is because it is determined that by the nature of only being in receipt of supported living and having their own tenancy they are not subject to a deprivation of their liberty. The DOLS co-ordinator is currently identifying resources in order that a thorough review of the residents can be undertaken, therefore the Health Board can be assured that there are no deprivation practices taking place in the home. Up to date legal advice (as of December 2018) has also been sought which indicates the residents are indeed subject to a deprivation of liberty and therefore submissions to the Court of Protection will be made. 13/03/19 - emailed Service Manager Learning Disabilities for update if DOLS assessments have been undertaken. Service Manager Learning Disabilities confirmed NWSSP Solicitor transferring all relevant information from care plans, risk assessments, management plans, witness statements,etc into the court forms. Capacity assessments currently being typed up to be included into the court forms. . Once all this is in place the UHB will need to arrange finance for the applications and the solicitor will submit the applications to the CoP for consideration. 18/03/19- assurance officer requested approximate timescale for completion of this action. 25/03/19 - Service Manager Learning Disabilities confirmed All information for the eight clients now submitted to Solicitor. Seven of the eight deemed not to have capacity. All information is now sitting with Solicitor therefore Service Manager Learning Disabilities not able to give a definitive date. 16/05/19- Capacity assessments are being revised by the Consultant Psychiatrist for a more person centred approach. The service is currently chasing the Consultant and once the capacity assessments are revised the submissions will be made to the court of protection for consideration. Completion will be dependent on direction and actions required by the court and a timescale cannot currently be provided.

ARAC 21/08/18 update - 2 recs are outstanding- R1c (Audit of nutritional care pathway) and R4b (Computerised Catering information system). R1c- Full audit of the pathway, and streamlining of audits, has not taken place due to staffing pressures. Investment required for patient feedback, little data currently available. Completion date of April 2019. R4b- an All Wales IT catering solution is being developed. Subsequent to this the UHB will need to consider the Capital & Revenue implications of procuring the system from the All Wales Framework. Completion date of December 2018 is aspirational. 13/11/18- Nutrition and Hydration Task Group report to the Operational Quality Safety Experience Assurance Sub Committee confirmed 2 recs outstanding: R1c- a paper is due to be tabled at the Patient Experience sub-committee setting out the work being undertaken in relation to patient experience and audit along with recommendations for further developments to ensure robustness and adequate reach of activities. It is expected that this will provide the required evidence to meet this recommendation. R4b- Compliance will be partly determined by the pace of the AW work and then a UHB decision on whether to buy the system from the framework. Operational QSE 24/01/19 progress update - R1c- a paper was presented to the Improving Patient Experience Sub Committee meeting on 28 /11/2018 focusing on patient experience and audit activity in relation to catering and nutrition, and a proposed action plan was supported. The monitoring of the action plan will be agreed at January's NHTG meeting. R4b- pending All Wales IT Catering system being procured centrally and is being considered by the Head of Estates and Facilities. 13/03/19- Assurance officer requested update on remaining recs by 25/03/19. 28/03/19- Assurance officer sent chaser email, reporting officer on leave until 04/04/19. 09/04/19- Director of Nursing, Quality & Patient Experience confirmed rec1c completed and suggested rec 4b may be appropriate for the Strategic Log. 08/05/19- Head of Assurance and Risk emailed reporting officer to confirm recommendation 4b does not fit the strategic log, however this recommendation is waiting for an external organisation to do something for the UHB to implement this recommendation. The assurance officer will be look at the recs that are outstanding on the tracker where the UHB are reliant on external organisations in June/July 2019 and how this is managed/shown on the tracker going forward.

R6- Work is underway to transfer to the RAM5000 system which has greater functionality and utilises PDA's to capture data 'in time'. This is planned to be in place before the end of the Financial Year. The HTM Gap Analysis Paper was submitted to the Deputy CEO in January 2018 and is currently being updated to clarify current performance on HTM High Risk items and specific risk issues as a consequence of shortfall in resource provision. The revised report is due to be submitted at the end of July. R8- THE HTM Gap Analysis Paper was submitted to the Deputy CEO in January 2018 and is currently being updated to clarify current performance on HTM High Risk items and specific risk issues as a consequence of shortfall in resource provision. The revised report is due to be submitted at the end of July. There is full understanding of the age profile and anticipated retirement dates of staff. The gap in skills mix is equally clearly understood and the preferred approach to address this would be to appoint apprentices to develop the skills in-house to ensure a smooth transition. However, there is currently no flexibility within the budgets available to support these posts. This is not viable to progress within current resources. However, this will be reviewed again when the RAM500 system is implemented. 29/08/18- Assurance officer emailed reporting officer (Director of Operations cc'd) to request completion date for the outstanding recs. 18/09/18- CEIMT paper- R6 (KPIs)- The revised HTM Gap Analysis Paper is currently with the Director of Operations. Discussions are taking place to move from RAM4000 to RAM5000 due to its better functionality, however other estates-friendly systems are currently being looked at. Implementation of new system to be in place by April 2019. R8- staff/skill mix)- workforce succession planning, Workforce succession plans are being considered now as part of the IMTP process. This is expected to be finalised within the next 3-4 weeks as part of the Facilities check and challenge process. This is linked to the GAP Analysis Paper on HTM PPMs currently being considered by the Executive Team. Recommendation to be reviewed in 6 months. 27/09/18- Director of Operations agreed to extensions. 24/01/19- Assurance officer met with Estates colleagues- Rec 6 (KPI) requires extension to September 2019 to allow staff training of new system to take place. Rec 8 (staff/skill mix) Estate Operational Maintenance Workforce Modernisation and Succession Plan Update' paper is currently being drafted for IMTP. Assurance office to discuss remaining recommendations with Director of Operations. 12/03/19- Director of Operations agreed extension to September 2019 for rec 6 (KPIs) but has concerns regarding the implementation of rec 8 (staff/skill mix). 10/04/19-Head of Facilities Information & Capital Management confirmed that Director of Estates, Facilities and Capital Management has had recent discussions with Director of Operations. Service is relooking at recommendation. 02/05/19-Head of Facilities Information & Capital Management meeting with Director of Estates, Facilities and Capital Management to discuss workforce succession planning. RAM4000 upgrade needs approval for funding and was not prioritised at equipment group. 04/06/19 -Head of Facilities Information & Capital Management confirmed a draft succession planning action plan has been written and requires to be signed off Director of Estates, Facilities and Capital Management before being sent out for comment. Following comments being incorporated into the report this will be shared with Director of Operations who will decide next steps (e.g. paper to be discussed at Operations Business meeting.
175A2017	Radiology Service	Wales Audit Office	Apr-17	Director of Operations	Radiology	Amanda Evans	Mar-18	TBC	Executive Team Performance Reviews - Radiology	11	1	0	10	Acute QSESC 14/03/18- 4 recs outstanding (Two of the outstanding actions linked to implementation of RADIS which NWIS are unable to support implementation of until July 2018). 31/07/18- Update being reported to ARAC August 2018 meeting. 5 recs currently outstanding (R4- the quality of referrals, R6- increase appraisal rates for non-clinical radiology staff, R7- increase mandatory training rates, R8- establish a baseline level of demand, R11- Strengthen performance management) completion date for overall action plan is November 2019 as 2 recs dependant on NWIS (improving referrals and baseline level of demand). 21/08/18 ARAC update- Push back on RADIS implementation slot due to staff sickness to be highlighted to Board. Head of Radiology working on mandatory training and appraisal rates. 19/12/18- Update provided from reporting officer. Rec 7 and 8 remains outstanding. Rec 7 (Over the next year, increase mandatory training rates for all radiology staff to at least 85%) has revised completion date of February 2019 and Rec 8 (establish a baseline level of demand for the service so that the Health Board is in a position to better understand and quantify the challenges it faces) - Single Radis due to be implemented April 2019. 31/01/19- reporting officer confirmed rec 7- Mandatory training rates continue to improve but still fall short of 85%. Reporting officer to undertake risk assessment to include specific actions to address shortfall and increase mandatory training rates within the next 6 months (July 2019). Rec 8 (Radis) still on track to be implemented by April 2019, however this is out of the control of this service and is dependent on NWIS implementing the system. 13/02/19- Director of Operations reluctant to agree the extension of Mandatory training recommendation to July 2019 without seeing a plan of how achieving 85% training rate will be delivered in the next 6 months. Head of Radiology to provide training plan for achieving this to Director of Operations. 12/03/19- Director of Operations noted actions taken to increase training rates (currently at 80%) but wants to see improvement. 28/05/19- Head of Radiology confirmed Rec8 is now complete. Rec 7 (Mandatory training rates continue to improve but still fall short of 85%) is now unlikely to be implemented by July 2019 as Consultant Radiologists are now coming under the Head of Radiology and this is impacting on the % numbers (currently now 69.55%). Risk assessment has been undertaken (no. 694). Head of Radiology to speak to the Clinical Director of Radiology Dr Khan who line manages the Consultant Radiologists to ensure this is picked up and provide assurance officer with a revised timescale which will then need to be agreed by the Director of Operations.

In view of the target timelines contained within the report, it was agreed that this topic should be revisited later in the year. It was also agreed that the Committee's concerns regarding this report, and the proposed review, should be noted in its update report to Board. 22/06/18- Assurance officer emailed reporting officers requesting update on completion of recommendations (Rec 3&4) by 20/07/18 for ARAC August 2018 meeting. 20/07/18- Reporting officer confirmed Rec 3 has been completed while Rec 4 has an extended completion date of October 2018. Rec 4 update is as follows: Actions have been implemented to ensure appropriate attendance of all parties when Audits are undertaken. Cover arrangements are also in place. The introduction of the updated MICAD software is being facilitated by Shared Services who have recently indicated that this roll-out will not be undertaken until after Summer 2018. It is currently anticipated that this will be implemented in Sept/October 2018. 29/08/18- Assurance officer emailed reporting officer (Director of Operations cc'd) requesting update on outstanding rec. 06/09/18- Assurance officer meeting with estates colleagues next week to discuss outstanding recommendation (credits for cleaning). 18/09/18 CEIMT paper- Rec4- It was noted at the meeting that the planned implementation of the new version of MICAD software which would allow the functional area to be modified has been delayed again; this implementation includes the whole of England and Wales. December is now being discussed as the start but this has yet to be officially confirmed plus there would be staff training thereafter. In light of this it's proposed that the deadline be moved to April 2019. 28/09/18- Director of Operations agreed to extension. 11/01/19- Follow up audit currently taking place, however this does not supersede this report which will remain open until the final recommendation (Rec 4-Inconsistent Practices-credits for cleaning) is implemented. 24/01/19- Assurance officer met with Estates colleagues - Rec 4 is beyond the control of the Estates department. Last update received from Shared services provided April 2019 as implementation date for C4C upgrade, therefore currently on track but this has been delayed several times in the past year therefore further delay could be possible. 04/03/19-Head of Facilities Information & Capital Management reported no update received from shared services. 10/04/19- Head of Facilities Information & Capital Management confirmed no update from shared services. Internal Audit follow up report currently being finalised. 02/05/19- Head of Facilities Information & Capital Management confirmed no update from shared services. Director of Operations informed of delay on 30/04/19. Internal Audit follow up report does not review the outstanding recommendation 4 therefore this report is to remain open. Welsh Government have yet to make a decision regarding the C4C upgrade and other sites are looking at alternatives. 04/06/19- Head of Facilities Information & Capital Management confirmed no update from shared services.

The Assistant Director of Informatics advised that this has a long standing issue that he has been working with HR / Unions to ensure that the staff have their comfort breaks. Unfortunately, due to the nature of the work, structures etc the UHB are not able to comply with this requirement. However, when the new switchboard technology is implemented it will allow this to occur. Staff have been made fully aware of their rights, and they have opted out of the ETWD around hours and breaks etc. 11/12/18 ARAC- ARAC requested that the report be reviewed in terms of assurance rating and content, and requested that the management response be updated and resubmitted to the next meeting. 15/02/19 IGSC meeting- Rec 3 to 7 requires formal communication to be provided to all staff / managers detailing their responsibilities to ensure that due process is adhered to. The deadline for these recs range from November 2018 to February 2019, but the Informatics Business Manager has confirmed that formal communication will be sent out in due course by March 2019. 10/04/19- Assurance officer met with new Interim Informatics Business Manager, who will seek a progress updates on the oustanding recommendations. 15/04/19- update provided by Interim Informatics Business Manager. Rec 1 and 2 on track to be completed by May 2019.
