Purpose of the Report (select as appropriate)

Er Sicrwydd/For Assurance

ADRODDIAD SCAA SBAR REPORT

Sefyllfa / Situation

The Finance Committee is asked to request assurance from the identified Executive Director that the corporate risks in the attached report, at Appendix 1, are being managed effectively.

Cefndir / Background

Effective risk management requires a 'monitoring and review' structure to be in place to ensure that risks are effectively identified and assessed, and that appropriate controls and responses are in place.

(Risk Management Process, ISO 31000)

The Board's Committees are responsible for the monitoring and scrutiny of corporate-level risks within their remit. As such, they are responsible for:

- Seeking assurance on the management of principal risks included in the Board Assurance Framework (BAF)/ Corporate Risk Register (CRR) and providing assurance to the Board that risks are being managed effectively, reporting areas of significant concern, for example, where risk appetite is exceeded, lack of action, etc;

- Reviewing principal and operational risks over tolerance and, where appropriate, recommending the ‘acceptance’ of risks that cannot be brought within Hywel Dda University Health Board’s (HDdUHB’s) risk appetite/ tolerance to the Board through the Committee Update Report;
- Providing annual reports to Audit and Risk Assurance Committee (ARAC) on the effectiveness of the risk management process and management of risks within their remit;
- Identifying through discussions any new/ emerging risks, and ensuring these are assessed by management;
- Signposting any risks outside their remit to the appropriate HDdUHB Committee;
- Using risk registers to inform meeting agendas.

The Executive Team has agreed the content of the CRR. These risks have been identified via a top-down and bottom-up approach.

Each risk on the CRR has been mapped to a Board-level Committee to ensure that they (risks) are being managed appropriately, taking into account gaps, planned actions and agreed tolerances, and to provide assurance regarding the management of these risks to the Board through Committee Update Reports.

The Board has delegated a proportion of its role in scrutinising assurances to its Committees in order to make the most appropriate and efficient use of expertise. Therefore, Committees should also ensure that assurance reports relating to principal risks are received and scrutinised, and an assessment made as to the level of assurance they provide. The reports should take into account the validity and reliability of each assurance in terms of source, timeliness and methodology. Robust scrutiny by its Committees will enable the Board to place greater reliance on assurances, and will provide the Board with greater confidence in the likelihood of achieving strategic objectives, as well as ensuring a sound basis for decision-making. It is the role of Committees to provide challenge where missing or inadequate assurances are identified, and escalate any gaps to the Board.

Asesiad / Assessment

The Finance Committee Terms of Reference state that it will:

- 5.3 Seek assurance on the management of principal risks within the BAF and CRR allocated to the Committee (financial risks), and provide assurance to the Board that risks are being managed effectively and report any areas of significant concern e.g. where risk appetite is exceeded, lack of timely action.
- 5.4 Recommend acceptance of risks that cannot be brought within the Health Board’s risk appetite/tolerance to the Board through the Committee Update Report.

There are 3 risks assigned to the Committee from the 30 currently identified on the CRR (attached at Appendix 1). The Executive Team are currently developing strategic objectives.

Each of these risks has been entered onto a ‘*risk on a page*’ template, which includes information relating to the strategic objective, controls, assurances, performance indicators, and action plans to address any gaps in controls and assurances.

Changes since Previous Report

Total Number of Risks	3
-----------------------	---

New risks	1	See Note 1
Increase in risk score ↑	0	
No change in risk score →	2	
Reduction in risk score ↓	0	
De-escalated/ Closed	0	

Note 1 – New Corporate Risks

Since the previous report to Finance Committee in May 2020, the following risk has been approved/ escalated on the CRR:

Risk	Risk Owner	New /Escalated	Date	Reason
Risk 956 - Risk that the Health Board will breach its Capital Resource Limit in 2020/21	Director of Finance	New	17/08/20	The scale of the pandemic and the likely impact on the Health Board is evolving. The financial impact on capital in the first quarter of 2020/21 was significant and the current feasibility work on schemes to deal with COVID -19 issues on an ongoing basis would suggest that the Health Board's capital funding streams is insufficient.

The Committee is asked not to devolve its responsibility for seeking assurances on corporate risks; however, it can reassign risks to another Board level Committee if it is agreed that it fits better within their remit.

Argymhelliad / Recommendation

The Committee is asked to seek assurance that:

- All identified controls are in place and working effectively;
- All planned actions will be implemented within stated timescales and will reduce the risk further and/ or mitigate the impact, if the risk materialises;
- The Committee is requested to challenge where assurances are inadequate.

This in turn will enable the Committee to provide the necessary assurance to the Board, through its Committee Update Report, that HDdUHB is managing these risks effectively.
