

APPENDIX 1

EQUALITY INFORMATION

As both a service provider and an employer, the Health Board needs to collect and keep up to date:

- Information relating to service users and the general population
- Information relating to our staff.

We have mainly relied on Census 2011 information for the demographic profile of our communities and updates from the Office for National Statistics (Wales) available [here](#). Demographic data on the broad profile of the Hywel Dda community is available in previous Equality Reports [here](#).

It is acknowledged that “sensitive” equality monitoring information around sexual orientation, religion and belief may not be reliable and may therefore not give a complete and true picture of the county demographics.

The following info-graphic provides a broad over-view of protected characteristics across our three counties.

Further population demographics are available in each of the Public Services Board Well-being Plans within Carmarthenshire, Ceredigion and Pembrokeshire [here](#)

The Workforce Equality Report is published separately alongside this report

If we could shrink **Carmarthenshire's** population to a village of approximately 100 people, with all of the existing human ratios remaining the same, there would be:
