

PWYLLGOR DATBLYGU STRATEGOL A CHYFLENWI GWEITHREDOL STRATEGIC DEVELOPMENT AND OPERATIONAL DELIVERY COMMITTEE

DYDDIAD Y CYFARFOD: DATE OF MEETING:	27 June 2022
TEITL YR ADRODDIAD: TITLE OF REPORT:	Operational Risk Register
CYFARWYDDWR ARWEINIOL: LEAD DIRECTOR:	Andrew Carruthers, Director of Operations Lee Davies, Director of Strategic Development & Operational Planning
SWYDDOG ADRODD: REPORTING OFFICER:	Claire Bird, Head of Assurance and Risk

**Pwrpas yr Adroddiad (dewiswch fel yn addas)
Purpose of the Report (select as appropriate)**

Er Sicrwydd/For Assurance

ADRODDIAD SCAA SBAR REPORT

Sefyllfa / Situation

The Strategic Development and Operational Delivery Committee (SDODC) is responsible for providing assurance to the Board that risks aligned to the Committee are being identified, assessed and managed effectively.

The Committee is asked to seek assurance from Lead Officers/representatives of the Directorates that the operational risks identified in the attached reports are being managed effectively.

Cefndir / Background

Effective risk management requires a 'monitoring and review' structure to be in place, to ensure that risks are effectively identified and assessed and that appropriate controls and responses are in place.

(Risk Management Process, ISO 31000)

Operational risks must be managed within Directorates under the ownership and leadership of individual Executive Directors, who must establish local arrangements for the review of their Risk Registers, which includes the validation of the information and risk scores, and the prioritisation and identification of solutions to their risks. In addition to these local arrangements, formal monitoring and scrutiny processes are in place within Hywel Dda University Health Board (HDdUHB) to provide assurance to the Board that risks are being managed effectively.

All risks identified within the Datix Risk Module must be assigned to a formal Board Committee, Sub-Committee or Group which will be responsible for securing assurance that risks within their remit are being managed effectively.

Management Leads are asked to review risk assessments and risk actions in line with the following timescales for review:

RISK SCORE	DEFINITION	MINIMUM REVIEW FREQUENCY
15-25	Extreme	This type of risk is considered extreme and should be reviewed and progress on actions updated at least monthly.
8-12	High	This type of risk is considered high and should be reviewed and progress on actions updated at least bi-monthly.
4-6	Moderate	This type of risk is considered moderate and should be reviewed and progress on actions updated at least every six months.
1-3	Low	This type of risk is considered low risk and should be reviewed and progress on actions updated at least annually.

In monitoring the risks associated with their respective areas of activity, each Committee and Sub-Committee is responsible for:

- Scrutinising operational risks within their remit; either through receiving the Risk Registers or through Service Reports;
- Gaining assurance that risks are being appropriately managed, effective controls are in place, and planned additional controls are being implemented;
- Challenging pace of delivery of actions to mitigate risk;
- Identifying, through discussions, new and emerging risks and ensuring these are assessed by those with the relevant responsibility;
- Providing assurance to its parent Committee, or to the Board, that risks are being managed effectively and reporting risks which have exceeded tolerance through its Committee/ Sub-Committee/ Group Update Report;
- Using Risk Registers to inform meeting agendas.

It is therefore essential that the membership of these Committees and Sub-Committees includes appropriate representation from Directorates and that they are in attendance to provide assurance and to respond to queries.

Relevant discussion should be reflected in the SDODC Update Report to the Board to provide assurance on the management of significant risks. This will include risks that are not being managed within tolerance levels (see [Risk Appetite Statement](#)) and any other risks, as appropriate.

Asesiad / Assessment

The SDODC's Terms of Reference state that it will:

- Seek assurance on the management of principal risks within the Board Assurance Framework (BAF) and Corporate Risk Register (CRR) allocated to the Committee and

provide assurance to the Board that risks are being managed effectively and report any areas of significant concern e.g. where risk tolerance is exceeded, lack of timely action;

- Recommend acceptance of risks that cannot be brought within the UHB's risk appetite/tolerance to the Board through the Committee Update Report; and
- Receive assurance through Sub-Committee Update Reports and other management/task & finish group reports that risks relating to their areas are being effectively managed across the whole of the Health Board's activities (including for hosted services and through partnerships and Joint Committees as appropriate).

The two risks presented in the attached Risk Register (Appendix 1) as at 15th June 2022 have been extracted from Datix, based on the following criteria:

- The Strategic Development and Operational Delivery Committee has been selected by the Risk Lead as the 'Assuring Committee' on Datix;
- The current risk score exceeds the tolerance level, as discussed and agreed by the Board on 27th September 2018;
- Risks have been approved at Directorate level on Datix;
- Risks have not been escalated to the CRR.

Two risks have been scored against the *Business objectives/projects* 'impact' domain.

Below is a **summary** of the two risks, ranked highest to lowest by current score, which meet the criteria for submission to the Strategic Development and Operational Delivery Committee on 27th June 2022.

TOTAL NUMBER OF RISKS	2
NEW RISKS ENTERED ON DATIX	0
INCREASE IN CURRENT RISK SCORE ↑	0
NO CHANGE IN RISK SCORE ↔	2
REDUCTION IN RISK SCORE ↓	0
REMOVED RISKS	0
EXTREME (RED) RISKS (based on 'Current Risk Score')	0
HIGH (AMBER) RISKS (based on 'Current Risk Score')	2

The summary table below has been extracted from the Datix system:

Risk Ref	Date Risk Identified	Title	Directorate	Current Risk Score	Rationale for the Current Risk Score	Target Risk Score
1126	01/04/21	Women & Children Phase II Project Risk	Women and Children	8 ↔	Further monitoring of Contractors until Phase 2 completed. Contractor working had to complete the scheme no indication of them not completing, further works have been identified. Regular reviews in place. Situation remains the same as at April 22. If the risk materialised, this would have a significant	8

					implication both financially, and with a time delay in the completion of the project, which would influence the overall risk score.	
1301	01/06/21	Strategic Planning Resource and Capacity.	Strategic Development and Operational Planning	8 ↔	Additional staffing required to reduce this risk to a tolerable level.	4

The Risk Register at Appendix 1 details the responses to each risk, i.e. the Risk Action Plan.

The heatmap below has been obtained from the [Risk Performance dashboard](#). The information reflects the risk information extracted from Datix on 15th June 2022, of the 2 risks included in this report:

HYWEL DDA RISK HEAT MAP					
	LIKELIHOOD →				
IMPACT ↓	RARE 1	UNLIKELY 2	POSSIBLE 3	LIKELY 4	ALMOST CERTAIN 5
CATASTROPHIC 5					
MAJOR 4		1301 1126			
MODERATE 3					
MINOR 2					
NEGLIGIBLE 1					

The table below details when the four Directorate level risks assigned to the SDODC were last updated on Datix. Risks are required to be updated along the following timescales, dependant on their risk level:

- Extreme Risks – Monthly.
- High Risks – Bi-monthly.
- Moderate Risks – Six-monthly.
- Low Risks – Annually.

Risk numbers noted in red text in the table below denote those where a review of the risk is overdue, based on the data as at 15th June 2022.

	Risks updated in last month	Risks updated within last 1-2 months	Risks updated within last 3-6 months	Risks updated within last 6-12 months
Extreme				
High	1301		1126	
Moderate				

Low				
<u>Argymhelliad / Recommendation</u>				
SDODC is asked to:				
<ul style="list-style-type: none"> Review and scrutinise the risks included within this report to seek assurance that all relevant controls and mitigating actions are in place. Discuss whether the planned action will be implemented within stated timescales and will reduce the risk further and/ or mitigate the impact, should the risk materialise. 				
This in turn will enable the Committee to provide the necessary assurance to the Board that these risks are being managed effectively.

1301	Directorate Level Risk		Strategic Development and Operational Planning: Planning	Warrm, Daniel	Warrm, Daniel	01-Jun-21	<p>There is a risk of insufficient capacity within the existing Planning Team to deliver Health Board objectives with regard to plans.</p> <p>This is caused by the scope and extent of the planning function as being exceptionally large and a review of capacity to meet National and Board objectives is required.</p> <p>This will lead to an impact/affect on delivering objectives as agreed in the Annual Plan/IMTP; Health Board/Regional/National Planning; support for Business Cases; and being able to provide sufficient project/programme support, providing commissioning support and compliance with best practice standards.</p> <p>Risk location, Health Board wide.</p>	<p>Permanent full time band 8c and 8a.</p> <p>Temporary secondment of a member of the Transformation Programme Office (band 8a) to support the development of the 2022/25 Integrated Medium Term Plan, was in place until the draft submission to Welsh Government at the end of March 2022. Their availability is limited to support the resubmission of the Plan to Welsh Government in July 2022 due to other Health Board priorities. Significant input on the revised plan will come from the finance team and the Planned Care directorate</p> <p>We are working with other corporate team, in particular Finance and Workforce, to develop the content of the IMTP.</p>	Business objectives/projects	6	2	4	8	Agree staffing resource required for strategic and operational planning team.	Warrm, Daniel	30/06/2022	Work is continuing to understand the skills required by the Planning Team moving forward. To support this work and to understand fully the skills required, the Director of Strategic Developments and Operational Planning along with members of the Strategic Planning Team have been mapping out the planning cycle (this will also support Planning Objective 5V). In doing so, the key skills required have been identified and will be used to aid the recruitment to the Team. The process has also identified where better collaboration with existing teams and resources could be utilised to support the Planning Cycle. This is expected to be completed by the end of Q2 2022/23.	Strategic Development and Operational Delivery Committee	1	4	4	Treat	23-May-22
