SBAR REPORT

Sefyllfa / Situation

Section 82A of the National Health Service (Wales) Act 2006 (the 2006 Act)¹ requires each Local Health Board (LHB) to assess the pharmaceutical needs for its area and to publish a statement of its assessment and of any revised assessment. Termed a Pharmaceutical Needs Assessment (PNA), the NHS (Pharmaceutical Services) (Wales) Regulations 2020 (the 2020 Regulations) set out the minimum information that must be contained within a PNA and also outline the process that must be followed in the development of the PNA.

Cefndir / Background

In line with the NHS (Pharmaceutical Services) (Wales) Regulations 2020, Hywel Dda University Health Board (HDdUHB) developed its Pharmaceutical Needs Assessment which was published on 1 October 2021 in line with the directed timescales (Regulation 5).

Asesiad / Assessment

Where there is a service change, there is a requirement for the Health Board to consider whether the change has created a gap in service provision, and in line with Regulation 6(3) there is a requirement to publish a Supplementary Statement.

Regulation 6(3) makes provision for LHBs to issue supplementary statements. These should be issued where:

- *there has been a change to the availability of pharmaceutical services since the publication of the PNA;*
- *this change is relevant to the granting of applications referred to in Section 83 of the 2006 Act (i.e. applications to open a new pharmacy, to relocate or to provide additional services); and*

- *the LHB is satisfied that a revised PNA would be a disproportionate response or is already in the course of publishing its next PNA, and is satisfied that immediate modification of its PNA is essential in order to prevent detriment to the provision of pharmaceutical services in its area. If there are changes either to the needs for pharmaceutical services or to the availability of pharmaceutical services within the five-year cycle, and those changes are relevant to market entry applications, the LHB will need to consider whether to go through the process of revising its PNA.*

However, the LHB does not need to go through that process, if to do so would be a disproportionate response to the changes. In coming to that decision on proportionality, the LHB will need to have regard to the fact that if the changes are to needs, the LHB will not have the option of a supplementary statement, but if the changes are to the availability of 2020 Regulations: Non-statutory Guidance for LHBs 24 services, the LHB will have that option.

Supplementary statements are simply a statement of fact, and do not make any assessment on the impact of the change on the need for pharmaceutical services.

Where a LHB publishes a supplementary statement, it must notify those bodies listed in regulation 7(1) as soon as is reasonably practicable (regulation 6(4)). Once issued, the supplementary statement becomes part of the PNA and so is to be taken into consideration when determining applications submitted under regulations 15 to 20 of the 2020 Regulations.

Effectively, they are an update of what the PNA says about the availability of pharmaceutical services. They are not a vehicle for updating what the PNA says about the needs for pharmaceutical services. If a LHB is in any doubt as to whether to issue a supplementary statement or to publish a revised PNA, it should seek legal advice.

Supplementary statements must be published on the LHB's website alongside the PNA (regulation 9(1)(c)). LHBs must ensure that whoever issues the supplementary statement has the delegated authority to do so.

Since the publication of the HDdUHB PNA, two supplementary statements have been issued. The first was in June 2023 following the closure of the dispensary in Solva Surgery when it became a Health Board Managed Practice on 1 April 2023 and the dispensing rights terminated with the retirement of Dr Dhadvai. The second was in February 2024 following the closure of Superdrug, Vaughn Street, Llanelli in December 2023; both followed the Regulatory process.

Regulation 6 (1)(a) places a duty on Health Boards to publish a revised PNA within the defined five-year period. In line with the development of the Health Boards Primary and Community Services Strategic Plan it would appear to be timely to consider bringing forward the publication of a revised PNA. A defined timescale for the revision of the PNA would need to be agreed and a Task and Finish group would need to be established to have oversight of the development of a revised PNA and its associated publication.

Argymhelliad / Recommendation

The Strategic Development and Operational Delivery Committee is asked to:

- **NOTE** the Pharmaceutical Needs Assessment report.

Amcanion: (rhaid cwblhau) Objectives: (must be completed)	
Committee ToR Reference: Cyfeirnod Cylch Gorchwyl y Pwyllgor:	2.2 To receive an assurance on delivery against all relevant Planning Objectives aligned to the Committee, falling in the main under Strategic Objectives 4 (The best health and wellbeing for our individuals, families and our communities) and 5 (Safe, sustainable, accessible and kind care) (see Appendix 2), in accordance with the Board approved timescales, as set out in HDdUHB's Annual Plan.
