<b>DYDDIAD Y CYFARFOD: DATE OF MEETING:</b>	28 February 2023
<b>TEITL YR ADRODDIAD: TITLE OF REPORT:</b>	Welsh Health Circulars (WHC)
<b>CYFARWYDDWR ARWEINIOL: LEAD DIRECTOR:</b>	Huw Thomas, Director of Finance Lee Davies, Director of Planning
<b>SWYDDOG ADRODD: REPORTING OFFICER:</b>	Rachel Williams, Head of Assurance and Risk

**Pwrpas yr Adroddiad (dewiswch fel yn addas)**

**Purpose of the Report (select as appropriate)**

Er Sicrwydd/For Assurance

### ADRODDIAD SCAA

#### SBAR REPORT

##### Sefyllfa / Situation

This report to the Sustainable Resources Committee (SRC) includes updates on progress in relation to the implementation of Welsh Health Circulars (WHCs), which come under the remit of SRC and its Sub-Committee structure. The Committee is requested to receive assurance from the lead Executive/Director or Supporting Officer on the management of WHCs within their area of responsibility, particularly in respect of understanding when the WHC will be delivered, any barriers to delivery, impacts of non/late delivery and assurance that the risks associated with these are being managed effectively.

##### Cefndir / Background

WHCs provide a streamlined, transparent and traceable method of communication between NHS Wales and NHS organisations relating to different areas such as estates, finance, governance, health professional letters, information governance, quality and safety, legislation, planning, performance and delivery, policy, public health, research, science, and workforce. WHCs are published on the [Welsh Government website](#).

The Board has requested that WHCs that have not been implemented by the stated timescales should be closely monitored by its Committee structure, in order to provide assurance on the compliance and delivery of the outstanding WHC, in addition to an understanding of the impacts resulting from late/non-delivery.

##### Asesiad / Assessment

The Assurance and Risk Team have been seeking updates from leads on these WHCs to determine the planned date for implementation by the Health Board where a specific date is not provided in the guidance itself. The following RAG status is now applied to WHCs:

- **Green** = completed
- **Amber** = a plan is in place and on schedule to be completed by the timescale provided by the Lead Officer

- **Red** = behind schedule to the timescale provided by the Lead officer, or a plan (with date for implementation) is not yet in place

An update from each Supporting Officer is attached at Appendix 1.

**WHCs which have not been implemented within stated timescales or where an implementation date has not been specified (Red RAG status).**

WHC Ref	Name of WHC	Date Issued	Lead Executive/ Director	Health Board Date for Completion
009-22	<a href="#">Prioritisation of COVID-19 patient episodes by NHS Wales Clinical Coding Departments</a>	04/04/2022	Director of Finance	Unknown – dependant on Welsh Government advice

Progress Update:

This WHC is currently being reviewed by Welsh Government (WG), the outcome of which will either be that it will be amended or withdrawn. Heads of Information across Wales have pushed back to WG as it is generally agreed that the prioritisation of patients in the way expected is not possible, as the clinical coding process is unable to identify COVID-19 patients until the clinical coding actually takes place. The Health Board is currently coding in excess of 95% completeness month on month. At a meeting in Summer 2022, WG's Head of Delivery and Performance agreed with these concerns. No further updates received as of January 2023.

**WHCs which have not been implemented however are in progress within stated timescales (Amber RAG status).**

WHC Ref	Name of WHC	Date Issued	Lead Executive/ Director	Health Board Date for Completion
007-15	Update on the All Wales position of the EDCIMS (Emergency Department Clinical Information Management System)  <i>No online link available</i>	30/03/2015	Director of Finance	31/03/2025

Progress Update:

EDCIMS has now passed the necessary testing phases and is available to Health Boards to implement. A further request has been submitted by the Head of Digital Programmes to Digital Health and Care Wales (DHCW) for the funding model and implementation plan for EDCIMS. Following the receipt of the funding requirements, an agile digital business case will be developed and presented to the Agile Digital Business Group for consideration, highlighting the needs of the service, ease of implementation, strategic fit, and overall affordability. Once considered by the Group, a recommendation will then be given to the SRC for approval. At the

time of the last update provided in July 2022, a bid to support the implementation of EDCIMS had been submitted to the Capital Planning Group, and the service was awaiting confirmation of the necessary funding. Given the pressures on the capital programme, funding was not expected to be approved. The expectation therefore is that planning will commence in financial year 2023/24, with implementation in the following financial year.

005-22	<a href="#">Data requirements for Value Based Health Care</a>	24/03/2022	Director of Finance	Feb-23

**Progress Update:**

An SBAR was submitted to the Information Governance Sub-Committee in April 2022 and Patient Reported Outcome Measures (PROMs) data is available in the Health Board's local Data Warehouse. National work is still underway on how the PROMs data should be consumed by DHCW from Health Boards. The service has met with DHCW, and data transfer methods have been agreed. It is envisaged that data transfer methods will be implemented by the end of February 2023, at which point the WHC can be confirmed as closed.

**WHCs which have been completed since the last report in August 2022 (Green RAG status)**

**Argymhelliad / Recommendation**

The Committee is requested to seek assurance from the lead Executive/Director or Supporting Officer on the management of WHCs within their area of responsibility, particularly in respect of understanding when the WHC will be delivered, any barriers to delivery, impacts of non/late delivery and assurance that the risks associated with these are being managed effectively.
