## Population demographics for Hywel Dda University Health Board

## The following info-graphic table provides a broad over-view of protected

 characteristics across our three counties based on results of the 2011 Census. It is based on shrinking each county's population to a village of approximately 100 people, with all of the existing human rations remaining the same, and provides an overview of protected characteristics for each county.It is acknowledged that changes in population will have occurred over time and that "sensitive" equality monitoring information around sexual orientation, religion and belief may not be reliable so may not give a complete and true picture of the county demographics. Population Demographics for the Hywel Dda region are available on the ONS website www.ons.gov.uk. Information on health and socio-economic factors across the three counties is available here http://www.wales.nhs.uk/sitesplus/922/home and here www.daffodilcymru.org.uk
