

Advert

Located in Aberystwyth in mid west Wales, Bronglais General Hospital is one of the smallest acute District General Hospitals in the UK however this does not mean we don't offer an excellent service.

We provide a service to a wide geographic area that is enhanced by our local university student population and the many tourists that visit this beautiful area throughout the year.

The Radiology Department of Bronglais Hospital in Aberystwyth has an exciting opportunity for an ambitious radiographer to take a lead role in the operational management of the radiology department.

Duties include staff management of a section of the workforce, clinical leadership and deputising for the site radiology lead.

There may be a requirement for out of hours working although the main focus is the day to day management of the clinical staff in the general areas.

Bronglais is one of four main hospital sites in Hywel Dda Health Board and the post holder will be required to communicate with other senior staff in radiology sites across the Health Board with some occasional travel for meetings.

Aberystwyth is a friendly place to work and live and there are some exciting developments within radiology and the health board that the post holder will be expected to contribute towards.

The ability to speak Welsh is desirable for this post; English and/or Welsh speakers are equally welcome to apply.

Interviews will be held on 28/05/2021.
