

19th November 2024

Acute Leadership Group	
<p>CG shared an updated Boarding Protocol, explaining emphasis given on equitable boarding and the definition of boarding including boarding at risk. Flow charts have also been added. CG asked members for their feedback of the protocol. SD thanked CG for her work on the protocol and also suggested whether a summary page with the principles would be helpful for Teams and asked members if they are happy for the protocol to be submitted to the WCDG for final approval. MW felt front door/definite discharges would need to be taken into account. Members discussed definitions and triggers with minor amendments to be made.</p>	
<p>SD queried whether Quality and Safety and any adverse impact has been reviewed. CS confirmed this has been discussed and an extra field/terminology has been requested to add to DATIX to a drop down list to document incidences/complaints with escalation status. This is being progressed.</p>	
<p>ACTION: MD/AW to discuss Criteria Led Discharge pathway in surgery <i>AW will arrange a catch up with AW.</i></p>	Closed
<p>ACTION: JCW/RTP to pick up process for prioritising flow in MHLD <i>JCW & RTP Team have now met to discuss Flow. RTP has received feedback from colleagues and will add link to policy.</i></p>	Closed
<p>ACTION: CG asked all members to forward any further comments by early-January for the final protocol to go to WCDG at the end of January 25.</p>	Clos
<p>Once approved, CG will request for the protocol to go to global consultation & to be shared to Directorate and Medical teams.</p>	Closed
