Importance: High

Good afternoon both

I just wanted to share with you an email that I've sent to colleague in the CCGs regarding this important consultation which opened earlier this week following the recent Supreme Court ruling.

As you will see, the code of practice changes are in relation to the provision of services provider, not as the employer. It's really important that we get contributions from the operational teams to feed into the health board response and I would be really grateful if you could help to promote this and disseminate to other colleagues within your senior teams.

Many thanks, Anna
