Footnotes

- Includes some dentists working in the Emergency Dental service and some CDS (Community Dental Service) staff working on a PDS contract.
 - A performer is a dentist named on a contract who will or might be carrying out the work agreed in the contract. This shows the number of dental performers who have any NHS activity recorded against them via FP17 claim forms at any time in the year.
 - A provider that holds a contract with a PCT/LHB and also performs NHS dentistry on the contract. This shows the number of providing performers who have any NHS activity recorded against them via FP17 claim forms at any time in the year.
- Area A hierarchical series of small areas is used here, with the smallest being the lower layer super output areas (LSOAs). These are aggregated within middle layer SOAs and then upper layer SOAs and then local authorities and Wales.
- .. As a result of changes to the collection system at NHS Business Services Authority it has not been possible to determine the working arrangements (i.e. dentist type) of dentists this year.

General description The information presented here shows NHS performers by local health board and dentist type. The tables relate to NHS dental treatment undertaken by 'high street dentists'. It does not cover private work

carried out by dentists nor dentists working in the hospital or community dental service.
Data is not comparable with previous data under the old contractual arrangements.
