   c. Please clarify why these beds were not in service.

2. In the first week of July 2019:

   a. How many active beds were in service? If possible, please break this down by sector as delineated above.

   b. How many beds were not in service? If possible, please break this down by sector as delineated above.

   c. Please clarify why these beds were not in service.

Response:

Hywel Dda University Health Board (UHB) provides, within the table below, the total bed complement, the number of active acute beds and the number of beds not in service, across all of the UHB's hospitals, as at 1 July 2019 and 1July 2021.

Hospital	Total bed complement		Active acute beds		Acute beds not in service

Tregaron Hospital	12	12	12	12	0	0

Please note: The number of beds not in service may not be an accurate reflection, due to the system requiring manual staff input and pressure of work. The information may not have been captured within the data set.

The UHB does not record the reasons for beds not being service and therefore does not hold the information requested.
