

<b>Reference:</b>	FOI.2511.20
<b>Subject:</b>	Acute psychiatric patients
<b>Date of Request:</b>	12 February 2020

**Requested:**

- Between 2014 and 2019 (or up until the latest available figures) how many in patients (acute psychiatric patients) have been admitted to a unit more than 40 miles from their residential address?
- Please provide a year by year breakdown of these figures.

**Response:**

Hywel Dda University Health Board (UHB) does not hold the information being requested. The UHB holds every patient's registered home address and the address of their current placement. However the UHB's computer systems do not calculate the mileage between the two locations and so in order to provide the information the UHB would be required to manually create the information being requested.
