

<b>Reference:</b>	FOI.10144.22
<b>Subject:</b>	Breast cancer
<b>Date of Request:</b>	28 October 2022

**Requested:**

Please could you provide an answer to the question below.

- Are 1-3 node positive breast cancer patients in your region's hospitals undergoing Oncotype testing?

A yes/no response is fine, so this query should only use a few moments of your oncology team's time.

**Response:**

Hywel Dda University Health Board (UHB) confirms that it does not routinely use Oncotype testing for node positive cases. However, the UHB did participate in the Oncotype Node Positive Trial, which concluded in March 2022, and did test node positive cases as part of the Trial.
