|-------------------------|-------------------------------------------|
| Reference: | FOI.7601.21 |
| Subject: | COVID-19 vaccinated patients in hospitals |
| Date of Request: | 3 December 2021 |

Requested:

I wish to apply for a copy of the following data, for each individual hospital. I wish to receive figures for each 7 day period as follows:

Weeks ending Saturday 6th, 13th, 20th and 27th of November 2021.

Also, as this request may take 2 weeks to process, I would like the data for weeks ending 4th and 11th December, if they are available at that point in time.

1. Number of COVID unvaccinated in hospital.
2. Number of single COVID vaccinated in hospital.
3. Number of double COVID vaccinated in hospital.
4. Number of triple COVID vaccinated in hospital.
5. The figures for deaths from COVID for each category 1 to 4 above.
6. Those in each hospital having COVID negative PCR tests on arrival.
7. Those in each hospital having COVID positive PCR tests result on arrival.
8. Bed usage, showing % COVID patients and % all other categories.

Note: Clarification - I would like to know how many patients are actually taking up a bed because they arrived in the hospital with COVID, comparing this as a percentage, to the number taking up a bed for all other categories.

Response:

Hywel Dda University Health Board (UHB) is unable to provide you with the information requested for question 8, as it is estimated that the cost of answering your request would exceed the "appropriate limit" as stated in the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004. The "appropriate limit" represents the estimated cost of one person spending 18 hours (or 2 ½ working days) in determining whether the UHB holds the information, and locating, retrieving and extracting the information.

In order to provide you with the data requested for the bed usage percentages, the UHB would need to undertake a manual trawl of all inpatient records to identify when a patient changed from being deemed as COVID-19 positive to COVID-19 negative, to calculate the percentages required, as this information is not recorded centrally.

The UHB is therefore applying an exemption under Section 12 of the Freedom of Information Act 2000 (FoIA), which provides an exemption from a public authority's obligation to comply with a request for information where the cost of compliance is estimated to exceed the appropriate limit.

The UHB is also unable to provide you with the number of deaths from COVID-19 for each category provided at questions 1 to 4, broken down by hospital, as requested for question 5, as there is a potential risk of

identifying individuals if these details were disclosed. The UHB is therefore withholding this detail under Section 40(2) of the FoIA.

Additionally, where the figures in the table have been replaced with an asterisk (*), the UHB is unable to provide you with the exact number of patients, due to the low number of cases (5 and under), as there is a potential risk of identifying individuals if this was disclosed. The UHB has also replaced totals which could be used to calculate the redacted figure with a double asterisk (**). The UHB is therefore withholding this detail under Section 40(2) of the FoIA.

This information is protected by the Data Protection Act 2018/General Data Protection Regulations 2016 (GDPR), as its disclosure would constitute unfair and unlawful processing and would be contrary to the principles and articles 6 and 9 of the GDPR. This exemption is absolute and therefore there is no requirement to apply the public interest test.

In reaching this decision, the Data Protection Act 2018/General Data Protection Regulations 2016 defines personal data as data which relates to a living individual who can be identified solely from that data or from that data and other information which is in the possession of the data controller.

1. – 4. The UHB provides within the tables below, the number of inpatients that were unvaccinated, those that had received their first, second and third doses of the COVID-19 vaccination, by each hospital, for the weeks ending 6, 13, 20 and 27 November and the 4 and 11 December 2021.

5. Section 40 exemption applied. However, whilst operating in accordance with the Section 45 Freedom of Information Code of Practice, the UHB has a duty to provide advice and assistance and therefore the UHB provides, within the table below, the number of COVID-19 related deaths that tested positive within 28 days, by vaccination dose, for the period 31 October to 11 December 2021.

| Dose | Number of deaths |
|-------|------------------|
| None | 8 |
| One | * |
| Two | 30 |
| Three | * |
| Total | 45 |

6. & 7. The UHB provides within the tables below, the number of inpatients that had a positive and negative test as a result of their admission test or a test that was taken within 7 days of admission, by each hospital, for the weeks ending 6, 13, 20 and 27 November and the 4 and 11 December 2021.
