

Reference:	FOI.16709.25
Subject:	Decarbonisation and emissions information
Date of Request:	28 February 2025

Requested:

I am keen to review the full plan and emissions information outlined in your organisation's Climate Action Plan.

Would it please be possible to provide me with a copy of the full plan and any related emissions data?

Response:

Hywel Dda University Health Board (UHB) has applied an exemption under Section 21 of the Freedom of Information Act 2000 (FoIA), as the information requested is accessible by another means.

The UHB has answered a similar Freedom of Information request, FOI.10154.22 - decarbonisation strategies, which is already within the public domain and is available on our disclosure log.

Further to this, the UHB's net zero reporting information and climate related disclosures are also within the public domain, reported within the UHB's Annual Report and Annual Accounts 2023-2024.

In addition, the UHB's net zero data is reported annually and is also within the public domain, reported through the UHB's Sustainable Resources Committee via the Net Zero Quantitative Report.

For ease of reference, please click on the attached links provided below, which will take you directly to the UHB's disclosure log webpage, the UHB's Annual Report and Annual Accounts 2023-2024, and the UHB's Net Zero Quantitative Report:
