

Reference:	FOI.6634.21
Subject:	Elective bladder surgery
Date of Request:	6 August 2021

Requested:

I would like to know how many bladder repair operations, in particular an autologous sling procedure, have been carried out routinely/elective (not emergency) since March 2020 within your Health Board?

Response:

Hywel Dda University Health Board (UHB) confirms that no elective or routine bladder repair operations have been undertaken, as recorded on the UHB's Welsh Patient Administration System, during the period March 2020 to August 2021.
