

Reference:	FOI.16128.24
Subject:	Electroconvulsive Therapy
Date of Request:	4 December 2024

Requested:

I would like to know if there has ever been the complication of Peripheral Nerve Palsy following the administration of Electroconvulsive Therapy (ECT) in ECT clinics run by your Trust/Health Authority.

A simple "Yes" or "No" answer is all that I require.

Response:

Hywel Dda University Health Board (UHB) can confirm that no Peripheral Nerve Palsy has been seen in any patients following Electroconvulsive Therapy (ECT) treatment.
