

<b>Reference:</b>	FOI.14969.24
<b>Subject:</b>	Patient hoists
<b>Date of Request:</b>	31 July 2024

**Requested:**

I am contacting you to try and get a rough % guide or numbers on the following, listed below.

I would like to know, roughly, how many Hospitals currently have installed Overhead Patient Hoists, otherwise known as Ceiling Track Hoists (CTH) and Portable Hoists (mobile).

**Response:**

Hywel Dda University Health Board (UHB) provides within Attachment 1, a breakdown of Ceiling Track and Mobile Hoists located in the UHB. Please note that this data does not include other hoists such as Patient Lifts (as in Radiology), Limb Support (in Theatres), Sit to Stand, Standing or Transfer Aids.
