

Reference:	FOI.12719.23
Subject:	Solar PV Canopy
Date of Request:	22 September 2023

Requested:

Under Freedom of Information Act, I would like to request the following information:

I notice that South Pembrokeshire Hospital is currently having a Solar PV Canopy installed by a company from West Sussex.

Please could you tell me what procurement route was used for that contract and how a business, based in the local area and long established with installing Solar PV and Electric Vehicle Charge Points, would go about being considered to apply for such contracts/work?

Response:

Hywel Dda University Health Board (UHB) confirms that its Procurement route was with the ESPO Framework Agreement for Renewable Energy Solutions (reference 2838_19). The link to the webpage has been provided below:

[Our Renewable Energy Solutions Framework \(2838\) is now live \(espo.org\)](https://espo.org)

To seek to get on the framework, please contact ESPO on 0788 006 3251 or place@espo.org
