

Executive Summary

	The Health Board's agreed Financial Plan is to deliver a deficit of £25m, after savings of £34.2m
Revenue	<ul style="list-style-type: none"> The Month 11 Health Board financial position is breakeven against a deficit plan of £2.1m, after utilising the required balance of WG funding for COVID-19, having offset the cost reductions recognised due to reduced operational activity levels.
Projection	<ul style="list-style-type: none"> Following confirmation of additional funding from WG in Month 6, the Health Board is forecasting to deliver the planned deficit of £25m. The Month 11 financial position was in line with forecast, reflecting that despite significant operational pressures arising from increased prevalence of COVID-19, there is limited risk of any significant increase in Workforce expenditure given the restricted supply. Further, the Health Board has identified potential slippage in respect of planned operational expenditure, which has been repurposed. £30.8m savings requirement included in the Financial Plan are not expected to deliver due to the operational focus being diverted to respond to COVID-19, and where identified schemes are not supportive of the response needed. Discussions are on-going on the implications of this on our underlying deficit. The projection includes the cost of maintaining the LTA block arrangements; as a net commissioner, the impact of this is estimated to be £15.7m compared to actual activity levels.
Savings	<ul style="list-style-type: none"> In-month delivery of £0.3m, which is slightly below plan of identified savings schemes, which is directly attributable to the COVID-19 pandemic. Green and Amber plans of £5.6m identified to Month 11, against which the forecast delivery is uncertain given the impact of the COVID-19 pandemic. At this stage, given that the pandemic will impact the remainder of the financial year, it is assumed that delivery will be adversely affected for the full year.
Next Steps	<ul style="list-style-type: none"> Analysis of underlying deficit to be completed. Determine revenue impact for FY22 of actions taken in response to COVID-19.

Executive Summary

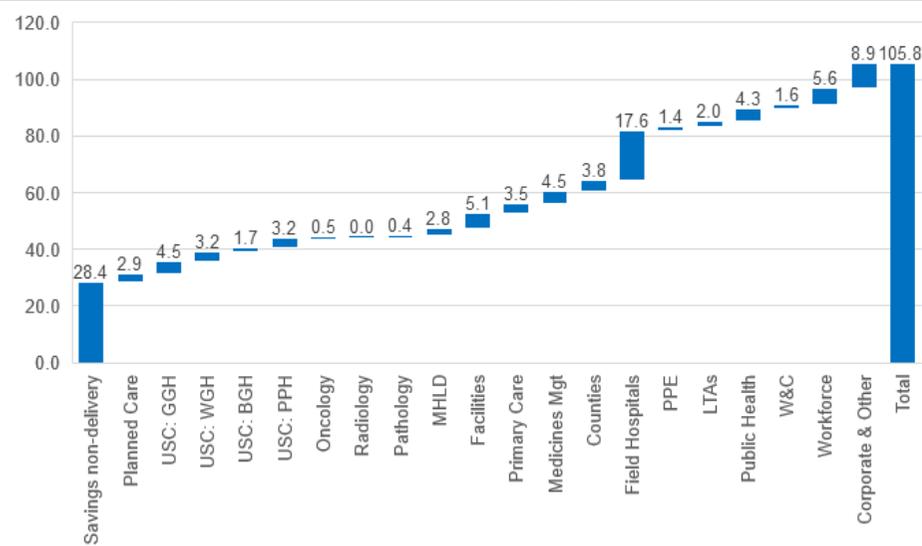

Summary of key financial targets					
<p>The Health Board's key targets are as follows:</p> <ul style="list-style-type: none"> Revenue: to contain the overspend within the Health Board's planned deficit Savings: to deliver savings plans to enable the revenue budget to be achieved Capital: to contain expenditure within the agreed limit PSPP: to pay 95% of Non-NHS invoices within 30 days of receipt of a valid invoice Cash: While there is no prescribed limit for cash held at the end of the month, WG encourages this to be minimised and a rule of thumb of 5% of monthly expenditure is used. For the Health Board, this is broadly £4.0m. 					
Key target		Annual limit	YTD limit	Actual delivery	Forecast Risk
Revenue	£'m	25.0	22.9	22.9	Low
Savings	£'m	34.2	31.5	3.0	
Capital	£'m	33.7	22.8	22.8	Low
Non-NHS PSPP	%	95.0	95.0	95.4	Low
Period end cash	£'m	4.0	4.0	4.15	Medium
<p>Following confirmation of additional funding from WG in Month 6, the Health Board is forecasting to deliver the planned deficit of £25m. The risk is considered to be Low, recognising that the Health Board has limited risk of any significant increase in Workforce expenditure given the restricted supply, and has identified potential slippage on planned operational expenditure which has been repurposed.</p> <p>Capital funding has been confirmed during March 2021 in line with the forecast expenditure.</p> <p>The Non-NHS PSPP risk is assessed as Low following the successful recovery to compliance to the end of Quarter 3.</p>					

Revenue Summary

YTD variance by Directorate (against Plan)

YTD actual by Directorate (COVID-19 only)

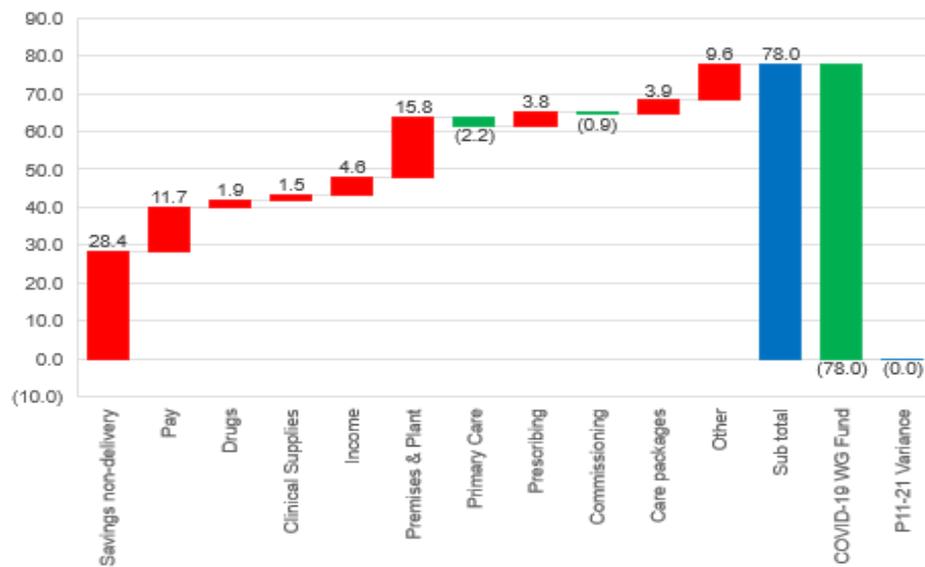

Key drivers of YTD position:

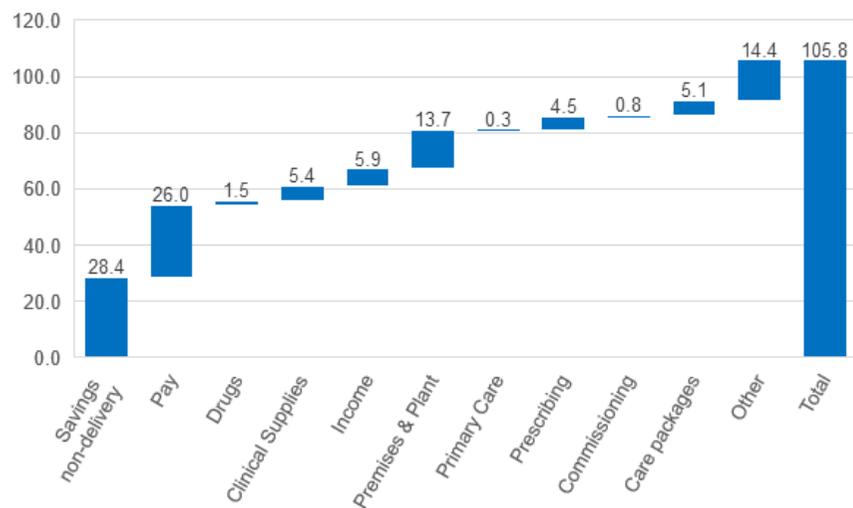

- **Savings non-delivery (£28.4m):** As a direct consequence of COVID-19, directorates have been unable to execute or identify additional savings plans as efforts are re-purposed to respond to the pandemic.
- **Planned Care (-£3.8m):** Underspend primarily driven by a reduction in non-pay expenditure due to reduced activity in elective services (particularly theatres).
- **Unscheduled Care (All sites) (£10.4m):** Increase in variable pay for Medical, Nursing and HCA staff, Medical pay enhancements, PPE expenditure (up to Month 7; from Month 8, recorded centrally) and issue of home care drugs to avoid unnecessary Hospital contacts.
- **Facilities (£4.7m):** Additional Porters and Domestics recruited in response to the pandemic. Work and maintenance carried out to adapt sites, additional laundry costs and lost revenue.
- **Medicines Management (£5.2m):** Pressures continue in Primary Care Prescribing due to continued increases in the cost per item for Category M and baseline drugs. The directorate has also been impacted by changes in NCSO drugs at various points.
- **Field Hospitals (£17.6m):** The cost of setting up, decommissioning and operating the various Field Hospitals with the Health Board's localities in response to the COVID-19 pandemic.
- **Workforce (£5.5m):** Fixed term staff recruited in response to the COVID-19 pandemic who have not yet been assigned to a directorate.
- **WG Funding (-£78.0m):** Funding has been received from WG to offset the cost of the Health Board's response to the COVID-19 pandemic.

Revenue Summary

YTD variance by Subjective (against Plan)

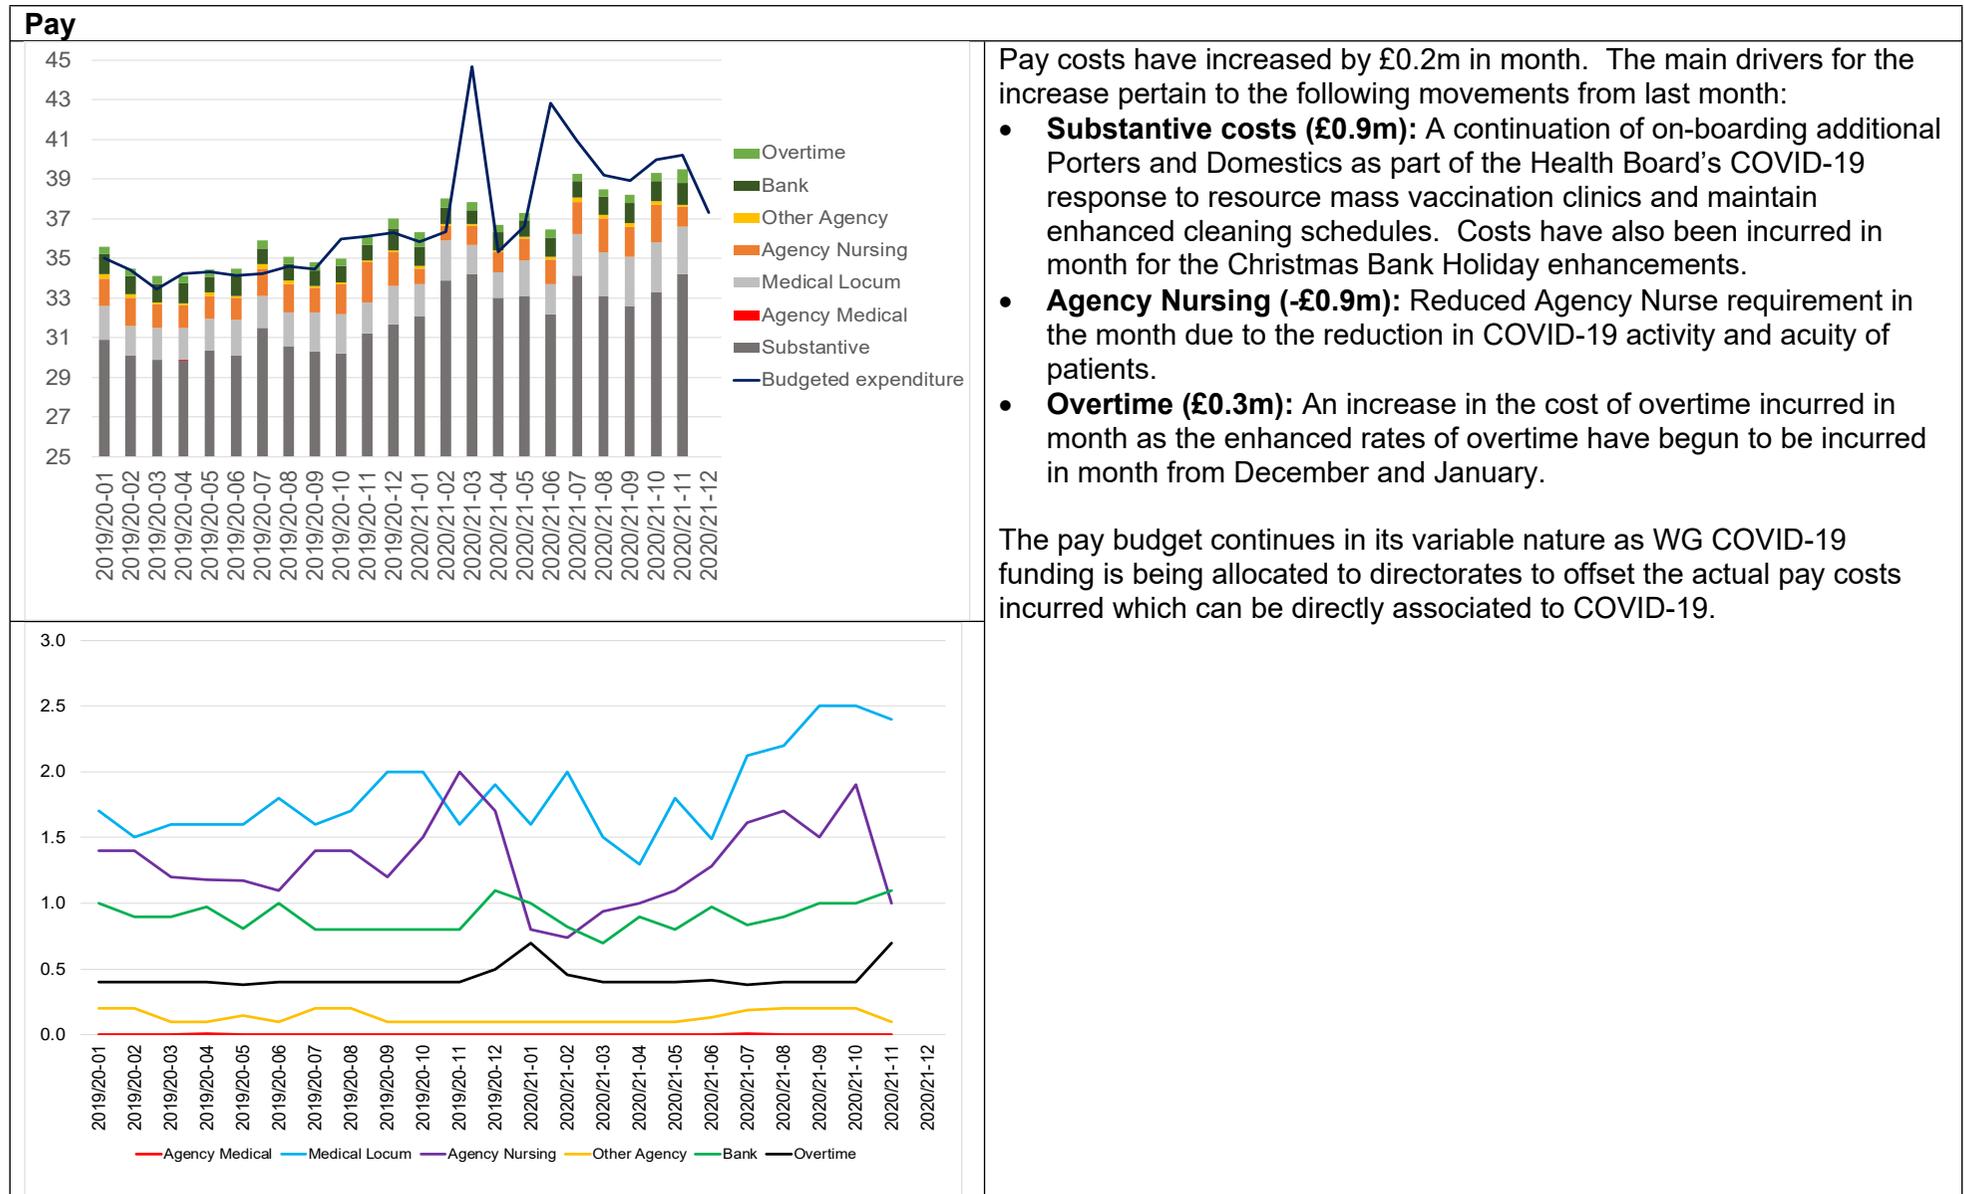

YTD actual by Subjective (COVID-19 only)

Key drivers of YTD position:

- **Savings non-delivery (£28.4m):** As a direct consequence of COVID-19, directorates have been unable to execute or identify additional savings plans as efforts are re-purposed to respond to the pandemic.
- **Pay (£11.7m):** See detailed analysis in key subjective summary slides.
- **Drugs & Clinical supplies (£3.4m):** The overspend is primarily driven by the costs of PPE expenditure, home care drugs being provided to patients (as a result of COVID-19) and Medicines Management pressures (stated above) offset by reduced activity in elective services within Planned Care and Podiatry.
- **Income (£4.6m):** Income generated from NCA activity has been impacted by the lockdown restrictions; there has also been a deterioration in income within Hospital sites due to lower patient numbers accessing commercial and hospitality facilities.
- **Premises costs (£15.8m):** Primarily driven by the cost of setting up, de-commissioning and operating the various Field Hospitals with the Health Board's localities and non pay costs associated with the enhanced cleaning schedules.
- **Primary Care (-£2.2m):** Reduced level of claims for enhanced services from GMS contractors, GOS claims from Ophthalmic contractors and Dental underperformance offset by COVID-19 vaccinations carried out by GMS Contractors.
- **Prescribing (£3.8m):** See detailed analysis in key subjective summary slides.
- **Care packages (£3.9m):** Additional costs have been incurred due to the expedited discharge of CHC Patients, COVID-19 funding for Adult Social Care and patients being placed in out of area accommodation.
- **WG Funding (-£78.0m):** Funding has been received from WG to offset the cost of the Health Board's response to the COVID-19 pandemic.

Key Subjective Summary

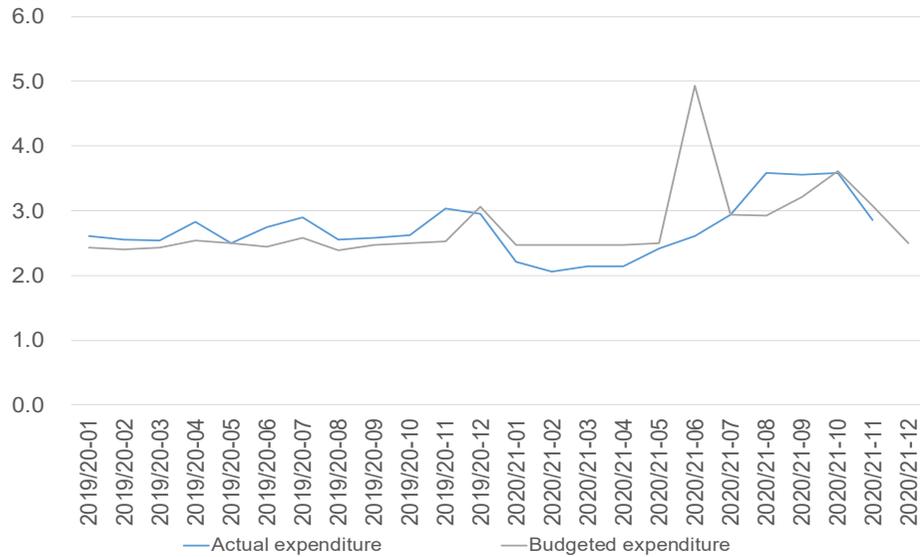

Key Subjective Summary

<p>CHC</p> <p>— Actual expenditure — Budgeted expenditure</p>	<p>Continuing Health Care expenditure has increased in month by £0.1m driven by the following:</p> <ul style="list-style-type: none"> • Client numbers (-£0.1m): there has been a net reduction in packages in-month; adjustments to Mental Health and Learning Disability packages have also taken place in-month. • Adult Social Care (£0.2m): In month expenditure in relation to the COVID-19 funded scheme recognised of £0.7m compared to last month's value of £0.5m.
<p>Secondary Care Drugs</p> <p>— Actual expenditure — Budgeted expenditure</p>	<p>Drug expenditure has decreased in-month by £0.4m due to a decrease in COVID-19 activity which has resulted in less drugs being issued in Unscheduled Care and a reduction in Haematology and Homecare drugs.</p>

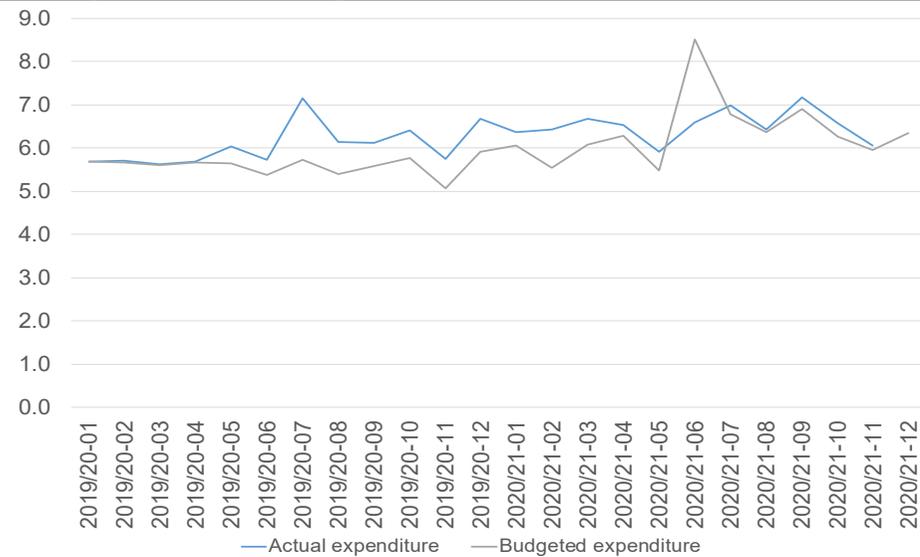

Key Subjective Summary

Clinical Supplies and Services

A decrease of £0.7m has occurred in-month as PPE expenditure further reduced. The reduction is also attributable to the on-going suspension of elective activity.

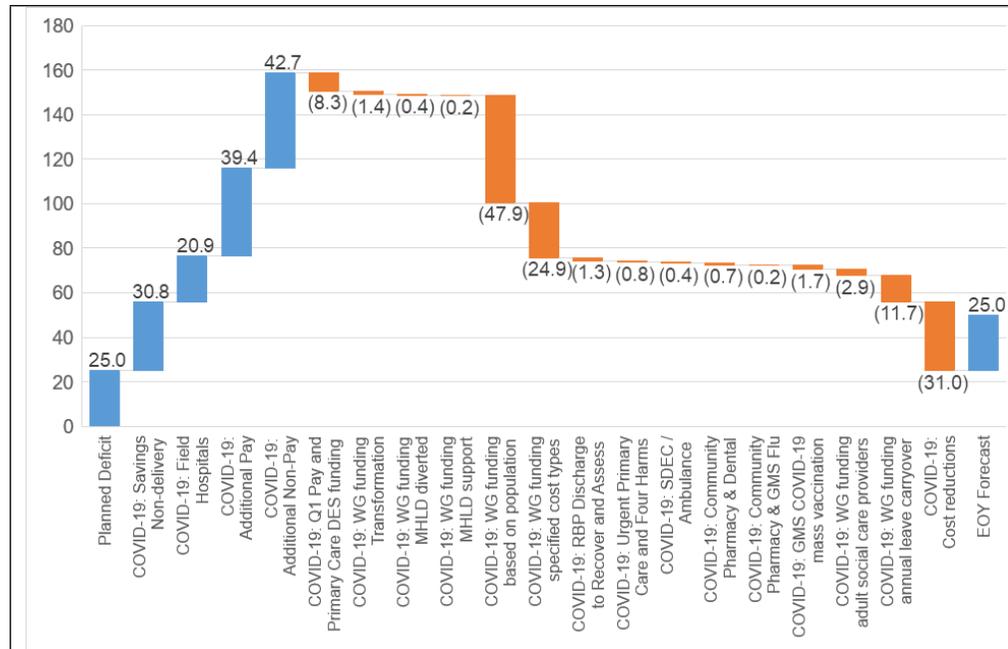

Primary Care Prescribing

Prescribing costs have decreased by £0.6m in month which is primarily due to one less prescribing day in the month compared to January.

In addition to this reduction, the latest (December) data for WP10s was significantly lower than the November data, which has been reflected in the February position.

Financial Projection

Key Assumptions

- All remaining COVID-19 related WG funding allocations are expected to be fully utilised in future months to offset the impact of COVID-19;
- Field Hospital profiling is based on local modelling as a most 'realistic' assessment;
- Field Hospital staffing has been modelled on a substantive costs basis, assuming a minimum of 50% deployed staff resource – no premium for Agency workers is included given the finite supply;
- Any increased demand modelling for staffing within Field Hospitals is assumed to be fulfilled through deployment of existing staff, predominately without the ability to backfill due to supply constraints;
- Existing Services modelling is profiled to March 2021 and assumes some level of reinstated elective services.

Assurance

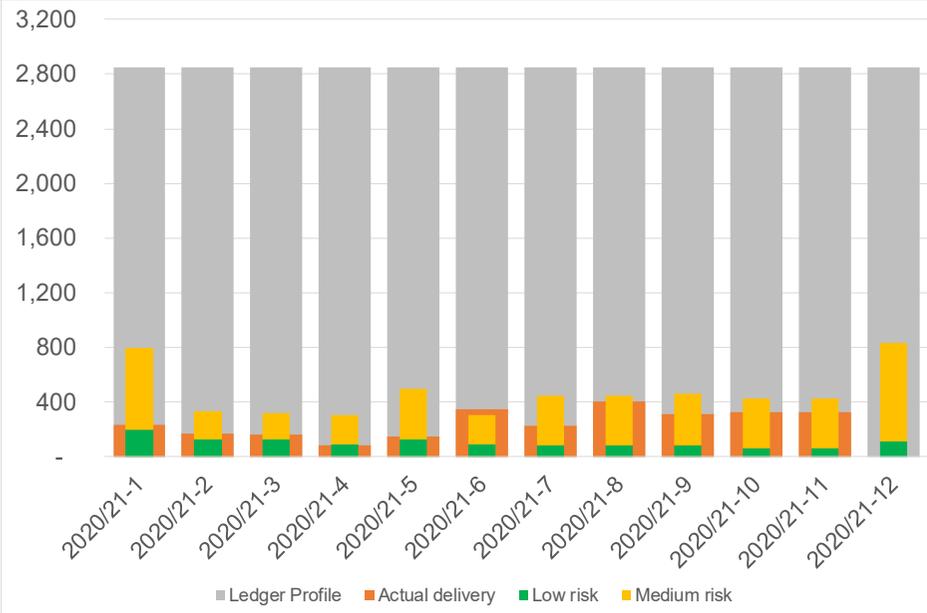

- Improved assurance methods have been established, aligning to managers across the Health Board and the Regional Partnership Board.
- Performance monitored monthly through System Engagement meetings for the highest risk Directorates.
- Following confirmation of additional funding from WG in Month 6, the Health Board is forecasting to deliver the planned deficit of £25m. The Month 11 financial position was in line with forecast, reflecting that despite significant operational pressures arising from increased prevalence of COVID-19, there is limited risk of any significant increase in Workforce expenditure given the restricted supply. Further, the Health Board has identified potential slippage in respect of planned operational expenditure, which has been repurposed.

Next Steps

- Analysis of underlying deficit to be completed.
- Determine revenue impact for FY22 of actions taken in response to COVID-19.

Savings and turnaround actions

Risk-assessed directorate savings profile, delivery and forecast

Assurance

- Green and Amber plans of £5.6m identified to Month 11, against which the forecast delivery is uncertain given the impact of the COVID-19 pandemic. At this stage, given that the pandemic will impact the remainder of the financial year, it is assumed that delivery will be adversely affected for the full year.
- In-month delivery of £0.3m, which is below plan, which is directly attributable to the COVID-19 pandemic.

Concerns

- The unprecedented circumstances mean that operational focus is diverted to the organisation's response to COVID-19, and therefore not on the delivery or identification of further savings schemes that are not supportive of the response to the pandemic. Both identified and as yet unidentified savings schemes included in the Financial Plan are therefore at risk of non-delivery.
- Discussions are on-going for additional funding to support the non-delivery of the Health Board's savings target on a recurrent basis.

Next Steps

- The focus is on delivering opportunities for FY22 on a recurrent basis. The potential for conversion of FY21 cost reductions into formal service changes has been incorporated into our Planning Framework for FY22. The opportunities were discussed with WG colleagues as part of the Financial Plan Touch Point meeting in March and will continue to be refined.

Appendix 1: Monitoring return tables

Table	Commentary
	<p>On line 14, the FYE is less than the in-year due to the impact of COVID-19 being more significant on the delivery of in-year recurring savings schemes than has been assumed on the FYE of recurring savings schemes. This is largely due to the assumption that the in-year delivery will fall into the later part of the financial year due to COVID-19; it is then assumed that next financial year would benefit from a full year's delivery.</p> <p>Directorate projections have been adjusted to ensure that there is no double-count of the projected non-delivery of savings.</p> <p>The phasing of the cost pressures has been aligned with the deficit profile in Table B – please refer to Section Table B for the basis of this calculation.</p> <p>Line 22 reports the:</p> <ul style="list-style-type: none"> • Q1 COVID-19 funding received from WG in relation to Pay, Primary Care DES and Field Hospital Set Up Costs (for Ceredigion and Pembrokeshire). As requested, the Pay funding not utilised in Month 3 of £47k has been phased into Month 4. • Month 5 Field Hospital set up costs of £3.4m is recognised in Month 5 to match the costs accrued; these figures are provisional and potentially subject to minor refinement once invoices are received from the Local Authority. Following confirmation of the 'specific' funding streams available, the balance of future set up costs has been assumed to be funded based on the current forecast. • Contact Tracing of £4.6m (following confirmation of an additional £1.3m of funding in Month 9 and offset by under-utilised funding of £2.0m passed back to WG in Month 11) is phased in line with the Month 11 TTP submission. Following confirmation of the 'specific' funding streams available in Month 6, the balance of antigen and antibody testing (£1.2m) has been assumed to be funded based on the current forecast. • Mental Health Improvement Fund for Q1 and Q2 of £0.4m is phased into Month 6. • Transformation Optimise Flow and Outcomes of £1.4m: the Health Board is working with the Regional Partnership Board to finalise plans; the YTD costs were recognised in Month 10 with the balance in Month 12 expected to be broadly in line with the allocation. • We reviewed the split of consequential losses and rent for the Month 6 return using the following methodology, this will remain the methodology for the remainder of the financial year: <ul style="list-style-type: none"> ○ Cost Per Square Foot = Annual Rental Income (what a property of that size would be worth as a commercial income); ○ Actual Cost Per Month minus Annual Rental Income ; ○ Consequential Losses = residual difference between Actual Cost Per Month - Annual Rental Income

Appendix 1: Monitoring return tables

Table	Commentary
	<ul style="list-style-type: none"> • Following confirmation of the 'specific' funding streams available, the consequential losses (£6.5m) are assumed to be funded based on the current forecast. • Following confirmation of the 'specific' funding streams available, the all Field Hospital decommissioning costs (£3.2m) are assumed to be funded based on the current forecast (reduction in Month 10 is due to confirmation from Carmarthenshire County Council that no further decommissioning costs are to be charged in respect of Llanelli and Carmarthen Leisure Centres). • Following confirmation of the 'specific' funding streams available, the PPE costs of £3.3m are assumed to be funded based on the Month 9/10 forecast. There was an increase since Month 8 due to the price increases experienced for specific PPE items in Month 6, 7, 8 and 9; this is anticipated to continue for some months as the reduction in Month 10 relates to volume. The continued reduction in Month 11 is under investigation, however the increase in Month 12 is due to NWSSP supply issues requiring the local procurement of FFP3 masks. • Following confirmation of the 'specific' funding streams available, Flu immunisations costs of £0.4m are assumed to be funded based on the current forecast. The associated costs are disclosed on Line 108 of Table B3 in total, but represent Primary Care Prescribing and Primary Care DES in Section A as shown in Appendix 1, section B3. • Mental Health Support for Voluntary Sector Service Provision (£0.2m) has been recognised. • RPB Discharge to Recover and Assess (£1.3m) is classified as COVID-19 funding and is included in line 22 and the associated costs are disclosed in Table B3 within Pay, Local Authority and equipment costs, it is currently forecast to over-spend against the funding allocation, which will be offset by other COVID-19 funding streams. • Additional WG funding of £47.9m to mitigate the impact of COVID-19 has been recognised. • Annual Leave carryover provision (£11.7m): this is included in Line 22, and associated costs disclosed in Line 52 of Table B3, within Line 10 of Table B and broken down by staff group within Table B2 (see Table B2 section for breakdown). The costs have been assumed to be accrued in Month 12 and are based on an assessment of ESR and e-rostering data split by staff group. The Q1-3 'leave taken' data has been extrapolated forward into Q4 (as forward planned leave data is very poor). An adjustment has been made to reduce balances based on an assumption that, at the point that the data was extracted, it would be incomplete in respect of annual leave taken over the Christmas period. The calculation was then adjusted to limit certain staff groups to a maximum number of days, in-line with Health Board discussions, e.g. most Admin & Clerical groups limited to 5 days. There is limited suitable data available for Medics; the assumption is that this group is expected to carryover 10 days given the capacity pressures in this cohort. The brought forward 2019-20 Annual Leave Carryover provision of £0.4m has then been netted off to ensure no duplication. It is understood that funding will be issued by WG based on the forecasts included within the Month 9 submissions, and that the Health Board will then be expected to manage any future movements within existing funding. The provision is unchanged in the Month 11 submission. • COVID-19 mass vaccination programme (£0.5m): this is included in Line 22, and the associated costs are included in the relevant lines of Section A (see Table B3 Section below) and in totality on Line 107.

Appendix 1: Monitoring return tables

Table	Commentary
	<ul style="list-style-type: none"> • Support for Adult Social Care Providers (£2.9m): this is included in Line 22, and associated costs also included in Table B3 within the CHC line. The YTD costs to Month 7 (£1.6m) have been phased into Month 7 as this is when the I&E impact and funding has been recognised. A further £0.5m was recognised in Month 10, with the balance of £0.7m phased into Month 11. • Community Pharmacy funding of £0.6m has been recognised on Line 22 of Table A in Month 10, with the remaining Primary Care funds (Dental Ventilation £49k, Community Pharmacy Flu £15k, and GMS Flu £206k, GMS Christmas opening hours DES £5k) being phased into Month 12. A further £1.5m has been recognised for payments to GPs for the GMS COVID-19 vaccination remuneration – we had previously assumed that payments were being made directly by WG, however having seen the January payments in our Month 11 GMS feeds, it appears that the payment list has been compiled by WG and given to shared services to pay through the GP system, hence impacting our I&E. We have therefore accrued an equivalent value for February into Month 11 and forecast a continuation at a higher level into Month 12 based on an increased vaccination rate. We are discussing with NWSSP some discrepancies in the payments vs. doses administered for some GP practices within the January payments, the conclusions of which we will update WG colleagues with. The expenditure is recognised within the Additional costs in Primary Care line of Table B3 (line 53). The Flu items have been disclosed on Line 108 of Table B3. • The funding for 111 (£0.8m) has been removed following the pass back of funding to WG. The funding for SDEC (£0.4m), Urgent Primary Care (£0.3m) and Four Harms (£0.5m) have been included on Line 22 of Table A. The SDEC YTD costs (£0.1m) and Month 11 costs (£0.1m) are included in Month 11 as it was not known at the time of Month 10 ledger closedown that these funds and costs should be allocated to COVID-19; an YTD classification correction has therefore been recognised in Month 11. There is a risk that the Urgent Primary Care fund will not fully deliver against financial commitments due to contracting and workforce constraints; national discussions with Primary Care colleagues are ongoing. It is anticipated that any under-spend against the Urgent Primary Care fund is likely to be recovered by WG. The costs are included in Table B3 across Pay, cleaning, discharge to assess, discharge to recover, equipment costs, M&SE consumables, Transportation and Local Authority. <p>In Month 6, the operational variation YTD in Line 26 was reclassified to Table B3, Section D, as the cost reductions are the result of lower levels of activity directly or indirectly attributable to the COVID-19 pandemic.</p> <p>The Welsh Risk Pool risk share is confirmed to be assessed as a £1.3m charge to EOY. There was £1.5m held in Reserves in line with the guidance provided during the Financial Planning process, of which the uncommitted £175k has been included in the forecast. The Month 10 position reported the YTD (being 10/12ths) cost and corresponding release of Reserves. The remaining costs and Reserve releases have been and will be recognised equally in Month 11 and 12.</p>

Appendix 1: Monitoring return tables

Table	Commentary
	The forecasting framework for the Health Board is a key objective for the Finance function in 2020/21 and this will aim to deliver forecasting by Directorate with a split between recurrent and non-recurrent items. For Month 11, it has been assumed that all cost pressures are non-recurrent given the unprecedented situation.
Table A1: Underlying Position	Table A1 has been completed based on the IMTP submission Tables for 2020/21.
Table A2: Risks	<p>Risks The forecast does not include a significant increase in 'RTT' expenditure, however this has not been included as a risk as it is highly unlikely that there will be capacity to achieve this in the current financial year, based on current levels of capacity.</p> <p>Opportunities The focus continues to be on the development of the Opportunities Framework, which is currently undergoing a review and refresh exercise to identify and progress alternative ways of working in response to COVID-19 which may result in a reduction to costs without impacting on the quality of the service.</p>
Table B: Monthly position	<p>The Health Board's in-month result, in terms of deficit, was in line with the Month 10 forecast. however, was slightly lower than the forecast in Actual terms. Key drivers in month include:</p> <ul style="list-style-type: none"> • RRL (-£1.6m): Re-phasing of the RRL. • Primary Care Contractor (£1.2m): In month recognition of COVID-19 vaccinations carried out by GMS Contractors. Also impacted in month by Optometry charges being incurred at a higher than forecast level due to additional allocation of cash payments in relation to the average payment period and an unanticipated increase in activity. • Primary Care – Drugs & Appliances (-£0.4m): December data for WP10s was significantly lower than what was included in November so the accrual for January and February have been reduced in line with this reduction. • Provider services - Pay (£0.4m): The deviation to forecast is primarily driven by the recognition of Enhanced overtime payments and Christmas Bank Holiday Enhancement payments for which the uptake was difficult to forecast. • Provider services - Non-Pay (-£1.8m): This deviation is driven by several issues impacting spend plans. Delays in re-establishing Green pathways in Elective Care have resulted in lower than forecast spend plans; reduced PPE costs; several Winter plans and COVID-19 schemes have been which are primarily made up of non-pay expenditure have been delayed into Month 12.

Appendix 1: Monitoring return tables

Table	Commentary
	<ul style="list-style-type: none"> • Secondary Care – Drugs (-£0.3m): there was a lower than anticipated requirement for homecare drugs due to the reduced levels of COVID-19 activity. Lower than forecast spend was also recognised in Non COVID-19 areas due to the delays in re-establishing Green pathways. • Healthcare: Other NHS (-£0.4m): Following discussions with WHSCC and WG colleagues, a number of allocation funding streams passed to WHSSC have been handed back to WG. • Continuing Care and Funded Nursing Care (-£0.4m): A further net reduction in client packages in month and adjustments to high cost Mental Health and Learning Disability packages have contributed to a reduced level of spend in month. <p><u>Committed Reserves & Contingencies</u> Outstanding reserves were again assessed by the Senior Finance team as part of the month end review process with the outcome documented in Table B (Sub section E). Please note for some of the material reserves, the following assumptions have been made:</p> <ul style="list-style-type: none"> • COVID-19 reserves: Both ring-fenced and general reserves for COVID-19 will be used to offset expenditure throughout the rest of the year directly attributable to the pandemic. • ICF: The balance of ICF is to be drawn down in Month 12. Replacement schemes are delivering to repurpose any slippage on original plans in-year. <p>The forecast has been calculated using Directorate projections of both the “non-COVID-19” and COVID-19 profiled positions as a basis.</p> <p><u>“Non-COVID-19” projections</u> Directorates do not forecast at a level of detail to allow the split of income and expenditure into the Table B headings. However, as the best proxy, we have taken the appropriate ‘run rate’ from Months 1 - 11 and assumed that this continues in the same proportions and applied this to the future month forecasted Actuals; we have then overlaid one-off adjustments included in the projections and classified these into the relevant Table B heading.</p> <p><u>Expenditure Profile for future months</u> The forecast recognises that significant increases in Workforce expenditure will not be possible given supply restrictions, and the Ministerial Brief confirms the existing operational plans to prioritise and deploy existing staff to the best patient outcomes possible. Therefore, the financial forecast for Pay expenditure does not include a significant increase in respect of recruitment plans or additional Agency resource. It is expected that for pay expenditure, the run rate in March will be consistent with January/February however in March there will be a step up due to recognition of the annual leave accrual in line with WG guidance.</p>

Appendix 1: Monitoring return tables

Table	Commentary																				
	<p>There is also a 'step up' of expenditure within Non-Pay of £0.5m compared to the Month 10 submission (after accounting for the reduction in Local Authority Tracing expenditure). The increase from the Month 11 expenditure level relates to a net increase in Non-Pay items in relation to COVID-19 of £3.3m (equipment costs, Field Hospital decommissioning, transformation, Local Authorities, PPE); there is also an increase in medical equipment replacement (due to timing of expenditure), minor works and health and safety works.</p> <p>Primary Care Prescribing is forecast to increase due to the national announcement of an increase in Category M reimbursement prices and WP10 costs.</p>																				
<p>Table B2: Pay and agency</p>	<p>For in-month commentary, please see the key subjective summary section.</p> <table border="1" data-bbox="831 624 1648 826"> <thead> <tr> <th></th> <th>Feb £'000</th> <th>Mar £'000</th> <th>EOY £'000</th> </tr> </thead> <tbody> <tr> <td>Total Pay B2</td> <td>40,493</td> <td>52,113</td> <td>92,606</td> </tr> <tr> <td>Overall Movement</td> <td>499</td> <td>202</td> <td>700</td> </tr> <tr> <td>COVID-19 Movement</td> <td>5</td> <td>(165)</td> <td>(160)</td> </tr> <tr> <td>Operational Movement</td> <td>493</td> <td>367</td> <td>860</td> </tr> </tbody> </table> <p><u>Movement in Pay forecast</u></p> <p>The Month 11 pay forecast has increased by £0.7m compared to Month 10. Key drivers to this are documented below:</p> <ul style="list-style-type: none"> • Nursing & Midwifery – COVID-19 (-£0.7m): Reduced Nursing expenditure than forecast in month due to deployed staff continuing to be utilised within the TTP Service where it was originally planned that these staff would return to substantive posts and be replaced by a combination of bank and temporary staff. • Estates & Ancillary – COVID-19 (£0.4m): Step up in profile based on increases in the planned on-boarding of fixed term staff for enhanced cleaning schedules and support services. • Nursing & Midwifery – Non COVID-19 (£0.5m): Increases in establishment costs due to the impact of Christmas bank holiday enhancements and overtime enhancement payments. Due to reduced COVID-19 activity, agency costs have been reduced to factor in a number of Nurses returning to their substantive roles as Green pathways begin to be re-established and also taking into account greater availability of Bank Nurses. • Additional Clinical Services – Non COVID-19 (£0.2m): Increase in establishment costs to reflect Christmas bank holiday enhancements and overtime enhancement payments. 		Feb £'000	Mar £'000	EOY £'000	Total Pay B2	40,493	52,113	92,606	Overall Movement	499	202	700	COVID-19 Movement	5	(165)	(160)	Operational Movement	493	367	860

Table B3: COVID-19	<p>Section A</p> <p>The Reporting and Forecasting Principles Paper developed internally, based on the WG guidance, has been applied consistently to identify and quantify the additionality of costs incurred in response to the COVID-19 pandemic. A draft of this document has been shared with FDU for feedback and has been shared in the Deputy Directors of Finance Forum. This Paper outlines the process henceforth in terms of the decision-making framework for Gold Strategic Group and the flow of decisions/information from that forum to inform financial forecasting. This will include a regular review of the use of Reserves funds and the use of funds where there is no committed obligation.</p> <p>The actual Month 11 costs saw an increase against forecast of £1.1m. Key drivers to this are documented below:</p> <ul style="list-style-type: none"> Nursing & Midwifery (Establishment) (-£0.4m): Reduced Nursing expenditure than forecast in month due to deployed staff continuing to be utilised within the TTP Service where it was originally planned that these staff would return to substantive posts and be replaced by a combination of bank and temporary staff. 																																												

Appendix 1: Monitoring return tables

Table	Commentary
	<ul style="list-style-type: none"> • Additional costs in Primary Care (£0.7m): Recognition of January and (estimated) February costs associated with COVID-19 vaccinations performed by GMS Contractors. • Additional costs in Private Sector (-£0.5m): COVID-19 Winter funds expenditure plans have materialised under multiple other non-pay expenditure headings within Table B3. • CHC (£1.0m): primarily additional Adult Social Care funding recognised in month where previously phased in Month 12. • Decommissioning costs (£0.6m): Partial decommissioning costs associated with the Bluestone site recognised in month which were originally planned for Month 12. • Discharge to recover/ assess (-£0.4m): Spend re-classified in month to Local Authorities. • Equipment costs (£0.8m): Clinical equipment purchases and replacement to support expedited discharge. • PPE (-£0.4m): Lower than anticipated usage of PPE within Acute sites during the month. • MHLD Transformation (-£0.5m): Anticipated spend in month re-phased into future periods. <p>In respect of the GDS contract, the YTD loss of income to the end of Month 11 is £2.5m; the projected loss for the full year is £2.737m.</p> <p>Costs as a result of lost income relate to reduced sales at Acute sites' Canteen's, shops and revenue received from commercial providers operating within Hospital sites. The projected full year loss on income is forecast to be £0.35m.</p> <p>The forecast for COVID-19 (Section A) has increased by £2.3m in Month 11 compared to what was reported in Month 10. Below are the key drivers of the movement:</p> <ul style="list-style-type: none"> • Nursing & Midwifery (Establishment) (-£0.7m): Step down in profile based on reduced expenditure observed in Month 11. • Estates & Ancillary (Temp staff) (£0.3m): Step up in profile based on increases in the planned on-boarding of fixed term staff. • Additional costs in Primary Care (£1.8m): Step up in profile of COVID vaccination spend in line with Month 11 actuals. • Additional costs in Private Sector (-£0.7m): Following discussions with WHSCC and WG colleagues, Quarter four charges in relation to Werndale Hospital anticipated to be incurred in Month 11 are now to be paid directly by WHSSC. • CHC (£0.8m): Adult Social Care expenditure recognised in Month 11. • Discharge to Recover/ Assess (-£0.7m): Expenditure re-classified to Local Authorities • Equipment costs (£2.0m): Forecasts also adjusted to recognise the Clinical equipment purchases and replacements and also the new Telehealth system purchase in Month 12 to assist with monitoring patients outside of acute settings. • PPE (-£0.6m): Step down in profile as a consequence of the in month reduction in costs for a second successive month. <p>The step up in profile in future months within Table B3 relates to:</p>

Appendix 1: Monitoring return tables

Table	Commentary																																																
	<ul style="list-style-type: none"> the majority of decommissioning costs expected to be incurred in Month 12; step up in Transformation expenditure; equipment costs; PPE due to NWSSP supply issues resulting in local procurement of FFP3 masks; increased staffing costs relating to COVID-19 (largely establishment and bank); annual leave carryover provision profiled into Month 12. <p>Section A1</p> <p>Field Hospitals represent the only significant change in capacity in response to the pandemic. Bed numbers have been reviewed based on current local demand modelling.</p> <p>The Table shows Field Hospital forecasts from a County perspective, with the corresponding bed capacity as per the revised demand model assumed for Month 11.</p> <p>A schedule of expenditure has also been included for the GMS Extended Hours DES, Flu immunisation spend and Test, Trace and Protect.</p> <p>The Flu Immunisations expenditure is included in the following lines of Section A:</p> <table border="1"> <thead> <tr> <th>Expenditure</th> <th>Table B3 Line</th> <th>YTD Month 11</th> <th>EOY</th> </tr> </thead> <tbody> <tr> <td>Primary Care DES</td> <td>Additional costs in Primary Care (line 59)</td> <td>£220k</td> <td>£441k</td> </tr> <tr> <td>Vaccinations</td> <td>Drugs (line 70)</td> <td>£51k</td> <td>£51k</td> </tr> <tr> <td>Vaccinations</td> <td>Primary Care Prescribing (line 93)</td> <td>£143k</td> <td>£143k</td> </tr> <tr> <td>Staff costs to deliver</td> <td>Establishment Nursing (line 5)</td> <td>£1k</td> <td>£1k</td> </tr> <tr> <td>Total</td> <td></td> <td>£415k</td> <td>£636k</td> </tr> </tbody> </table> <p>The costs associated with the COVID-19 Mass Vaccination programme has been factored into the forecast (both costs and income):</p> <table border="1"> <thead> <tr> <th>Expenditure</th> <th>Table B3 Line</th> <th>YTD Month 11</th> <th>EOY</th> </tr> </thead> <tbody> <tr> <td>Primary Care DES</td> <td>Additional costs in Primary Care (line 59)</td> <td>998k</td> <td>1,696k</td> </tr> <tr> <td>Staff costs to deliver</td> <td>Pay Establishment (lines 3, 4, 5, 7, 8)</td> <td>£270k</td> <td>£470k</td> </tr> <tr> <td>Equipment purchases</td> <td>Equipment (other) (line 73)</td> <td>£31k</td> <td>£31k</td> </tr> <tr> <td>Cleaning</td> <td>Cleaning (line 64)</td> <td>£3k</td> <td>£3k</td> </tr> <tr> <td>Legal costs</td> <td>Legal costs (line 79)</td> <td>£nil</td> <td>£15k</td> </tr> </tbody> </table>	Expenditure	Table B3 Line	YTD Month 11	EOY	Primary Care DES	Additional costs in Primary Care (line 59)	£220k	£441k	Vaccinations	Drugs (line 70)	£51k	£51k	Vaccinations	Primary Care Prescribing (line 93)	£143k	£143k	Staff costs to deliver	Establishment Nursing (line 5)	£1k	£1k	Total		£415k	£636k	Expenditure	Table B3 Line	YTD Month 11	EOY	Primary Care DES	Additional costs in Primary Care (line 59)	998k	1,696k	Staff costs to deliver	Pay Establishment (lines 3, 4, 5, 7, 8)	£270k	£470k	Equipment purchases	Equipment (other) (line 73)	£31k	£31k	Cleaning	Cleaning (line 64)	£3k	£3k	Legal costs	Legal costs (line 79)	£nil	£15k

	<p><u>Section B</u> The unprecedented circumstances mean that operational focus is diverted to the organisation's response to COVID-19, and therefore not on the delivery or identification of further savings schemes that are not supportive of the response to the pandemic. A review is currently in progress to identify schemes for prioritisation should the demands of COVID-19 allow.</p> <p><u>Section C</u> Cost reductions have been identified for the full year, however have been phased down as the year progresses given the expectation that a number of services will be gradually reinstated. These assumptions will continue to be refined.</p> <p><u>Section D</u> Part of a number of Reserve items has been included in the forecast to offset the impact of COVID-19 following additional scrutiny in Month 7; this will continue to be regularly reviewed and refined in line with the scrutiny of assurances provided by others as described in the main body of this report. As part of the Month 11 reporting cycle, the majority of Reserves have been issued to Directorate positions, which has resulted in the identification of further slippage to recognise in Month 11 and 12.</p> <p><u>Field Hospital figures included in Section A and separate templates</u> The Field Hospital demand model has been revised from the local model based on Rt of 1.1, being the most 'reasonable worst case scenario' to a local model which has been adjusted to reflect a more 'realistic' scenario.</p> <p>All decommissioning costs are assumed to fall into the current financial year. VAT on set-up costs has been recognised for Bluestone and Parc Y Scarlets Barn, following the latest guidance.</p> <p>The bed capacity profile has been provided by Field Hospital sites and can be observed in table B3 (Section A1) of the presentation.</p>			

Appendix 1: Monitoring return tables

Table	Commentary
Table C3: Savings Tracker	<p>The Table has been completed based on current green and amber schemes.</p> <p>Any negative values reported in the in-month Actuals column relates to a correction of previous month actuals, meaning that the YTD figure is correct.</p> <p>The date to 'go Green' for all Amber schemes has been set as 1 January 2021. All schemes with delivery forecast in-year are now assessed as Green; those schemes with £nil forecast delivery remain as Amber status. This results in 18 validation errors.</p> <p>The Risk to delivery on Amber Schemes has been set at £nil where the in-year delivery is forecast to be £nil.</p> <p>There are savings forecast to deliver in March of £0.120m where no savings have been delivered to date, primarily due to the following two schemes:</p> <ul style="list-style-type: none"> • Scheme 27: Revenue to Capital Transfer, £0.050m. This profile is due to an annual review being conducted in Month 12 of where we are our ability to capitalise any revenue spend, which has previously derived a I&E benefit to Facilities c.£50k and is currently anticipated to deliver the same. • Scheme 26: Non recurrent support non pay savings, £0.050m. This relates to a review of design income against expenditure; this is conducted in Month 11 for delivery in Month. <p><u>Areas of immediate focus:</u></p> <ul style="list-style-type: none"> • Accelerating the delivery of Healthier Mid and West Wales; significant areas of community shift already in place and Transforming Mental Health has been largely delivered. Realising benefits of this on a BAU basis. • Completing work on unpacking deficit at a locality level to address variability in activity and cost base, guiding future efforts to shift resources into community. Locality based reporting delivered in draft for overall system perspective to support better integration with planning and transformation. • Embedding and rolling out work and learning from COVID-19 response, in particular: • Performance excellence framework and approach • Digital benefits realisation • Prevention and population health • Improved procurement support • Better configuration of services as part of the recovery plan • Alignment and focus across corporate teams with operational teams • Value Based Healthcare: DrDoctor implemented and collecting PROMs in first conditions, executive education programme launched.

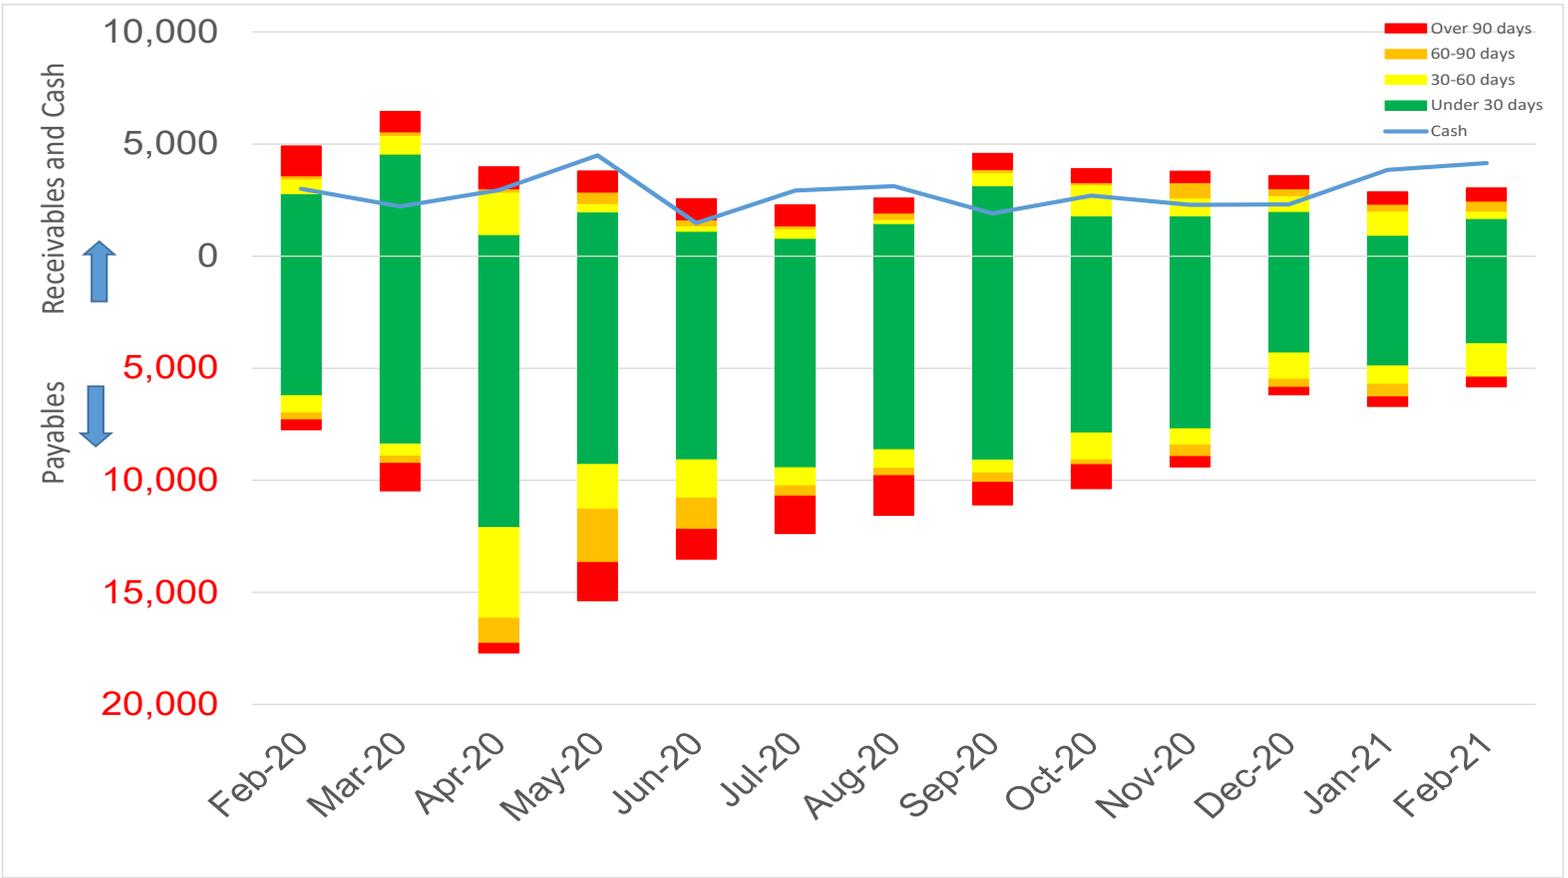

Appendix 1: Monitoring return tables

Table	Commentary
	<p>Whilst the focus of the Health Board is on identifying and implementing recurrent schemes, the current combination of Winter capacity and COVID-19 pressures being experienced operationally has diverted significant managerial resource.</p>
<p>Table D: Welsh NHS Assumptions</p>	<p>We agreed and signed all income and expenditure contracts with Welsh Health Board colleagues within the national deadline (end of March). All agreements are within expected limits and indicative finance and activity plans were detailed within each contract.</p>
<p>Table E: Resource limits</p>	<p>The Health Board's planning assumptions are that it will receive resource allocation income of £997.707m from Welsh Government in the 2020/21 financial year. This comprises of notified allocation of £987.2m and allocations pending of £10.5m.</p> <p>Pending allocations in relation to specific COVID-19 costs (Field Hospital set-up, decommissioning and consequential losses, COVID-19 mass vaccination programme and Flu Immunisations) are based on the Month 11 Directorate forecast. The pending TTP allocations relate to the revised forecast in Month 11 following discussions with Local Authority partners and the reduced forecast for the need for additional Health Board staff. The pending allocation for the COVID-19 Annual Leave Carryover provision of £11.7m is based on the Month 9 assessment; it is understood that the Health Board will be expected to manage any future movements within the assessment of the provision within existing funding.</p>

<p>The movement since the end of 2019/20 in total assets is £23m, split between non-current £13m and current £10m. The movement in non-current assets and current assets is mainly due to a decrease in the Welsh Risk Pool debtor as a result of medical negligence claims being concluded.</p> <p>The movement since the end of 2019/20 in total liabilities is £14m. This is mainly due to a decrease in provisions of £10m. This is attributable to a decrease in provision for medical negligence cases based on information provided by the Welsh Risk Pool.</p>																																																																													

Appendix 1: Monitoring return tables

Table	Commentary
<p>Table G: Cashflow</p>	 <p>The chart displays monthly cashflow data from February 2020 to February 2021. The y-axis represents the amount in pounds, ranging from 10,000 (at the top) to 20,000 (at the bottom), with 0 in the center. Positive values represent Receivables and Cash, while negative values represent Payables. The data is categorized into five age groups: Over 90 days (red), 60-90 days (orange), 30-60 days (yellow), Under 30 days (green), and Cash (blue line). The total cashflow fluctuates between approximately £2,000 and £5,000 per month, with a notable dip in April 2020.</p> <ul style="list-style-type: none"> Income collected from sources other than Welsh Government is collected through the invoicing process. It is imperative that this is collected promptly to reduce reliance on cash support from WG. Balances owed to the Health Board are £3m in Month 11. It is also important that the Health Board pays its suppliers promptly. At the end of Month 11, £5.8m was owed to suppliers, of which £3.9m are less than 30 days old.

Appendix 1: Monitoring return tables

Table	Commentary
Table I: Capital RLM	<p>An estimate of the future forecast of COVID-19 spend for 2020/21 has been reflected within the Month 11 return. If all the expenditure plans are delivered in year and no additional funding is available this will lead to a shortfall of £0.164m against the 2020/21 Capital Resource Limit.</p> <p>This is due to a review of the COVID-19 feasibility schemes, which has been undertaken by the Capital Planning and Operational Teams to understand what schemes remains deliverable by the 31st March 2021. These schemes were then prioritised along with non-COVID capital schemes. In a paper presented to the Gold Command Group the balance of the Health Board's discretionary capital programme has been allocated to fund the highest priorities. The remaining shortfall now relates to the original COVID - 19 capital schemes where WG are releasing funding based on actual costs.</p> <p>The reported capital expenditure on COVID-19 for M11 includes the equipping and oxygen costs for the Field Hospitals, but excludes the design, build and restoration costs and estimates.</p> <p>Variances between AWCP / DCP schemes plan and forecast is attributable to scheme paybacks between 2019/20 and 2020/21. Schemes where this can be seen are Women & Children's Scheme, Imaging Equipment, Bronglais MRI scheme and the Cardigan Scheme.</p> <p>Further to the above the Health Board is anticipating further funding from the sale of Cardigan Health Centre of £0.300m.</p>
Table J: Capital In Year Schemes	<p>The sale of the old Cardigan Hospital site was completed in May 2020 for £0.450m, part of the Full Business Case approval conditions was that the proceeds of the sale were to be returned to Welsh Government. The Health Board has received confirmation that these proceeds can be retained and reinvested in our Discretionary plan</p>
Table K: Capital disposals	<p>The Health Board has disposed of Cardigan Hospital in May 2020.</p>
Table M: Aged debtors	<p>One invoice is reported in Table M; Welsh Ambulance Trust for £1,706.69, payment for this invoice was received on 01/03/21.</p>
Table N: GMS	<p>The Table has been completed for Quarter 3.</p> <p>The following principles have been followed in preparing the Table:</p> <ul style="list-style-type: none"> • All expenditure has been included in the YTD and forecast columns in the tables irrespective of whether it has been classified as COVID-19 or "non-COVID-19"; • Expenditure in the GMS Table that has been categorised as COVID-19 relates to the Easter Bank Holiday Enhanced Service and amounts to £0.2m.

Appendix 1: Monitoring return tables

Table	Commentary
Table O: Dental	<p>The Table has been completed for Quarter 3.</p> <p>The following principles have been followed in preparing the Table:</p> <ul style="list-style-type: none">• All expenditure has been included in the YTD and forecast columns in the tables irrespective of whether it has been classified as COVID-19 or “non-COVID-19”;• The Table contains expenditure relating to the net loss of PCR income due to COVID-19 in the current year. This amounts to £0.5m in the YTD with a full year projected outturn of £1.1m

Appendix 2: Monitoring return reply letter

Reply Letter Action – Month 10 2020/21	Health Board Response
<p>I note that the overall total expenditure in January, of £94.245m, is broadly consistent with the forecast position (£93.961m) reported at Month 9. There are also a number of areas (including Covid-19 Programme areas) where spend matches exactly with funding. Please confirm that your position does not contain any material year to date and forecast accruals where there is a potential corresponding risk that the values may need to be reversed/reduced in the current financial year and therefore potentially impacting on the delivery of the current forecast outturn. (Action Point 10.1)</p>	<p>The potential for slippage or over-spends against allocations for the “match funded” areas of COVID-19 expenditure will be further reviewed in Month 11 to ascertain if the areas where costs are expected to manifest require changes. However, there are no material risks against the overall COVID-19 forecast expenditure vs. COVID-19 funding (with the exception of TTP below).</p> <p>We can confirm that accruals within the reported position are based on a full and appropriate evidence base and do not represent a risk to forecast delivery.</p>
<p>As per my email dated 9th February, regarding Covid-19 Tracing funding, surplus WG funding will now be recovered (adjustment must be finalised in your Month 11 submission) when there is a legitimate revision for the forecast costs. I note that forecast spend at Month 10, matches exactly the funding issued for Tracing. Please confirm that the Health Board is not proposing to pass over surplus WG funding for Tracing to any Local Authorities with the intention that they can carry forward surpluses into 21/22. (Action Point 10.2)</p>	<p>Following discussions with Local Authorities specifically on this point of challenge, Local Authority partners have confirmed that there was an intention to carry over £1.7m of Tracing funding into 2021/22. Local Authority partners are aware that this 2020/21 slippage will be passed back to Welsh Government as part of the Month 11 MMR submission, along with £0.2m of Health Tracing funds based on the continued ability to deploy existing Health Board staff to support the programme. We will raise with Local Authority partners the issue of their intended carry-over to ensure that there is clarity that this cannot be assumed on the basis the funding is for the current year only.</p>
<p>Monthly Positions (Table B) The CHC expenditure in January is c. £1.000m less than forecasted last month, with your narrative confirming that this is a consequence of an unexpected net increase in discharges due to Covid-19 restrictions in Care Homes and patients passing away. Please clarify why this impact on the spend values appears to be contained within just one month, as I note that you are not forecasting that this reduced level of monthly spend will continue into future months (February and March spend as per month 9 forecast). (Action Point 10.3)</p>	<p>Following a reduction in prevalence of COVID-19 across the Health Board and a significant amount of homes no longer being in exclusion as a result of outbreaks at their properties, it was assumed that discharges of patients from Acute beds to Care homes would materialise and thus need to a net increase in CHC and FNC clients from February.</p>
<p>Following the receipt of supplementary information provided in response to Action Point 9.4, I understand that Covid-19 and operational pay profiles are being discussed in more depth, between our colleagues Rebecca Hayes and Gary Young.</p>	<p>A separate schedule has been appended to the Month 11 submission in response to this Action Point.</p>

Appendix 2: Monitoring return reply letter

Reply Letter Action – Month 10 2020/21	Health Board Response
<p><u>Covid-19 Analysis (Table B3)</u> As mentioned earlier in this correspondence, I note that you are currently forecasting that the annual Covid-19 programme costs (e.g. PPE forecast spend equals funding) will match exactly to the corresponding funding that has been issued. Whilst it has been reiterated that the Health Board is expected to manage and deliver the planned overall deficit, it is important that the spend values are an accurate reflection of your planned outturn, for each of these programme areas. Please review this for Month 11. (Action Point 10.4)</p>	<p>This has been completed in the Month 11 submission.</p>
<p>Please ensure that the expenditure relating to the GMS (£0.206m) and Pharmacy (£0.015m) fees for the Extended Flu Programme funding are reported on Line 108 of Section A1 in future returns. (Action Point 10.5)</p>	<p>This has been corrected in the Month 11 submission.</p>
<p><u>20/21 Capital Resource Limit (Table I)</u> I note that you are currently forecasting to overspend against the reported CRL by £0.214m in Table I. I can confirm that the narrative referenced year end funding has since been approved and the remaining outstanding item/scheme detail have been shared with capital colleagues.</p>	<p>The funding shortfall due to COVID 19 spend has reduced to £164k in Month 11. A funding letter has been sent by WG in March for the balance. Once this has been allocated on our CRL we will not be forecasting an overspend at year end.</p>
<p><u>Covid-19 Analysis (Table B3)</u> Please also note that the recently issued Urgent Emergency Care funding and the All Wales Christmas Bank Holiday DES (GMS) funding, are Covid-19 related allocations ('Covid-19' was omitted from the description in error, when the allocations were issued) and therefore should be included within Line 22 of Table A with corresponding costs within Table B3. (Action Point 10.6)</p>	<p>These have been included in Line 22 of Table A with the corresponding costs in Table B3.</p>
<p>Your narrative (page 18) states that forecast Covid-19 spend (Section A) has increased by £8.0m at Month 10; however, as per Table B3 the actual increase is much lower at £1.128m. Please ensure that the values reported in the narrative are consistent with the Tables. (Action Point 10.7)</p>	<p>This was an error in the narrative in the Month 10 submission.</p>

Appendix 2: Monitoring return reply letter

Reply Letter Action – Month 10 2020/21	Health Board Response
<p>Resource Limits (Table E) Within Table E, you are reporting a DEL strategic funding requirement of £3.510m even though a higher charge value is reported in Table B (£3.527m). Please ensure non cash funding in Table E supports charges reported in Table B. (Action Point 10.8)</p>	<p>All DEL/AME allocations have now been received; Table B is reflective of those allocations.</p>
<p>SoPF (Table F) Please review the value of the NHS Wales receivables reported on Line 41 which currently reports an amount of £1.186 billion. (Action Point 10.9)</p>	<p>This was an error in the Month 10 submission.</p>
<p>Cash Flow (Table C3) Your cash flow forecast includes the anticipated receipt of Strategic (£16.000m) and Revenue Working Balances cash support (c. £1.500m). Please include any agreed anticipated Drawing Limit increases via Table E rather than only adding these anticipated amounts to the Revenue draw down line of the cash flow (i.e. Line 1), this will then remove the current reported validation error. (Action Point 10.10)</p>	<p>Adjustments have been entered on Table E to remove the validation errors.</p>
<p>Other Thank you for confirming the Non cash position at M10. Please ensure that any changes to these figures are notified to my team as they arise. The final date for making any changes to the 2020/21 Non cash values is 14 April. (Action Point 9.10)</p>	<p>Noted</p>
