

# Charter for Families Bereaved or Harmed through Public Tragedy

In adopting this charter we are committed to ensuring that the Hywel Dda University Health Board learns the lessons from previous public Inquiries so that the perspective of the patients who have suffered harm or bereaved families is not lost.

We are committed to being an organisation which strives to:

1. In the event of a public tragedy, activate its emergency plan and deploy its resources to rescue victims, to support the bereaved and to protect the vulnerable.
2. Place the public interest above our own reputation.
3. Approach forms of public scrutiny – including public inquiries and inquests – with candour, in an open, honest and transparent way, making full disclosure of relevant documents, material and facts in a timely manner. Our objective is to assist the search for the truth. We accept that we should learn from the findings of external scrutiny and from past mistakes.
4. Avoid seeking to defend the indefensible or to dismiss or disparage those who may have suffered where we have fallen short.
5. Ensure all members of staff treat members of the public and each other with mutual respect and with courtesy. Where we fall short, we will apologise straightforwardly and genuinely.
6. Recognise that we are accountable and open to challenge. We will ensure that processes are in place to allow the public to hold us to account for the work we do and for the way in which we do it. We will not knowingly mislead the public or the media.
