Yr hyn y bydd ein Hadroddiad Blynyddol yn ei ddweud wrthyh

Mae cyfres o ddogfennau ein Hadroddiad Blynyddol yn dweud wrthyh am eich bwrdd iechyd, y gofal yr ydym yn ei ddarparu, a'r hyn yr ydym yn ei wneud i gynllunio, cyflawni, a gwella gofal iechyd ar eich cyfer.

O ganlyniad i flwyddyn eithriadol arall, ysgrifennir adroddiadau 2021-22 yng nghyd-destun y modd yr ydym wedi parhau i ymateb i bandemig COVID-19, gan ddal ati i ddarparu gofal a gwasanaethau, yn ogystal â dechrau adfer rhag ei effaith. Mae'n cynnwys tair rhan:

Adroddiad ar berfformiad

Bydd yr adroddiad hwn yn dweud wrthyh am yr heriau yr ydym wedi'u hwynebu a'r modd yr ydym wedi mynd i'r afael â nhw, yn ogystal ag am y cyflawniadau a'r cynnydd a wnaed. Mae'n cynnwys gwybodaeth am yr ymatebion uniongyrchol a ddarparwyd i COVID-19, ynghyd â'r effeithiau ar feysydd eraill iechyd a gofal. Mae'n manylu ar y modd yr ydym wedi cyflawni o gymharu â thargedau Llywodraeth Cymru, ac ar y camau a gymerwyd gennym i wella. Mae hefyd yn disgrifio'r modd yr ydym wedi cynnal ffocws ar ddiogelwch ac ansawdd yn ystod y pandemig, ac yn ystyried yr hyn yr ydym wedi ei ddysgu a'r modd y bydd hyn yn llywio gwaith yn y dyfodol.

Adroddiad ar atebolrwydd

Mae'r adroddiad hwn yn nodi ein gofynion allweddol o ran atebolrwydd o dan Ddeddf Cwmnïau 2016 a Rheoliadau Cwmnïau a Grwpiau Mawr a Chanolig (Cyfrifon ac Adroddiadau) 2008 (fel y'u haddaswyd ar gyfer sefydliadau sector cyhoeddus). Mae'n cynnwys ein Datganiad Llywodraethu Blynyddol, sy'n rhoi gwybodaeth am y modd yr ydym yn rheoli ein hadnoddau a'n risgiau ac yn cydymffurfio â threfniadau llywodraethu.

Cyfrifon ariannol

Mae'r crynodeb o'n Datganiadau Ariannol yn manylu ar y modd yr ydym wedi gwario ein harian ac wedi cyflawni ein rhwymedigaethau o dan Ddeddf Cyllid y Gwasanaeth Iechyd Gwladol (Cymru) 2014.

Cysylltu â ni

Mae'r cyhoeddiadau, mewn print neu fformatau/ieithoedd amgen, ar gael ar gais trwy gysylltu â ni:

Croeso gan ein Cadeirydd a'n Prif Weithredwr

Er bod ein Hadroddiad Blynnyddol yn myfyrio ar flwyddyn eithriadol arall, mae hefyd yn ein galluogi i ddiolch i bob un ohonoch sydd wedi gwneud cynifer o aberthau personol i'ch cadw eich hun, eich anwyliad a'ch cymdogion yn ddiogel yn ystod y flwyddyn ddiwethaf. Hyd yn oed pan gafodd amrywiolyn COVID-19 newydd arall, Omicron, ei nodi ddechrau'r gaeaf, gwnaeth pawb ei orau glas i ymateb i'r her unwaith eto.

Diolchwn i bawb sy'n gweithio ym [Mwrdd Iechyd Prifysgol Hywel Dda](#) a chyda'r bwrdd iechyd, beth bynnag fo eich rôl, a hefyd i'n gwirfoddolwyr a'n partneriaid, am eich gwasanaeth eithriadol yn gofalu am gleifion a'n cymunedau yn wyneb y pandemig hwn.

Nodwyd ail ben-blwydd y cyfyngiadau symud cyntaf yn y DU â Diwrnod Myfyrio cenedlaethol (23 Mawrth 2022), pan fu i ni gofio am y rhai a gollodd eu bywydau i COVID-19 yn Sir Gaerfyrddin, Ceredigion a Sir Benfro ers dechrau'r pandemig. Maent hwy a'u teuluoedd yn parhau yn ein meddyliau bob amser. Buom yn myfyrio ar y straeon ysbrydoledig a rannwyd yn ein cyfres o bodlediadau staff (<https://hyweldda.libsyn.com/>), a fydd yn ein helpu i ddysgu a gwella, gan ddangos gwerth ein staff a'r hyn y maent wedi'i gyflawni mewn amgylchiadau anodd.

Cyfyngwyd ar fynediad at amrywiaeth eang o wasanaethau yn ystod y ddwy flynedd ddiwethaf, ac arweiniodd hyn at oedi o ran triniaeth a gofal yn ein bwrdd iechyd. Mae'n ddrwg iawn gennym os ydych wedi profi oedi o ran cael mynediad at eich gofal a'ch triniaeth. Yn yr adroddiad hwn, rydym yn manylu ar y ffyrdd yr ydym yn ceisio cyflwyno gwasanaethau ailgychwyn a mynd i'r afael â'r ôl-groniad o gleifion sy'n aros, a hynny trwy fentrau tebyg i'r gwasanaeth cymorth rhestrau aros, clinigau diagnostig un stop newydd, a chapasiti ychwanegol i ddarparu gofal.

Mae ein staff ledled lleoliadau gofal aciwt, sylfaenol a chymunedol wedi gweithio'n ddiflino i barhau i ddarparu gofal. Ym meysydd gofal iechyd corfforol a meddyliol, fel ei gilydd, maent wedi mynd yr ail filltir bob dydd yn wyneb pwysau a heriau na welwyd eu tebyg. Blaenoriaeth allweddol i ni yw parhau i gefnogi ein staff ar adeg pan fo nifer ohonynt wedi ymlâdd, a phan fo'r dyfodol yn ansicr.

Er gwaethaf ein sefyllfa bresennol, a llwybr anhysbys y pandemig, mae yna achos, yn ddiamau, i fod yn optimistaidd. Ar 31 Mawrth 2022, roedd 867,173 o frechlynnau wedi cael eu darparu i bobl yn y tair sir. At hynny, cynhaliwyd 700,000 o brofion PCR amser real yn ardal Hywel Dda. Nid ar chwarae bach y cyflawnwyd hyn, ac, yn ddiamau, roedd llwyddiant ein rhaglen frechu wedi newid hynt y pandemig. Mae pawb wedi mynd ati o ddifri i roi cynifer o frechlynnau â phosibl ac i ddarparu'r gwasanaeth Profi Olrhain Diogelu er mwyn diogelu ein cymunedau. Rydym yn ddiolchgar i bawb sydd wedi bod yn rhan o'r gwasanaethau hanfodol hyn.

Rydym yn cydnabod bod y cyfyngiadau ar ymweld ag ysbytai wedi bod yn anodd i gleifion a'u perthnasau. Rydym yn ddiolchgar am eich amynedd ac am ddeall bod diogelwch y rhai sydd dan ein gofal, ynghyd â diogelwch ein staff sy'n darparu gwasanaethau gofal iechyd, yn hollbwysig.

Rydym wedi canolbwyntio ar wneud popeth posibl i sicrhau ein bod yma ar eich cyfer pan fo arnoch angen gofal a gwasanaethau. 'Nawr, rhaid i ni fynd ati i addasu i'r 'normal newydd' a dechrau mynd i'r afael â'r materion sylweddol yr ydym yn eu hwynebu, yn arbennig mewn perthynas â'r ôl-groniadau digynsail ar gyfer gwasanaethau a achoswyd gan y pandemig.

Yn ddiweddar, cyflwynasom Achos Busnes ar gyfer y Rhaglen i Lywodraeth Cymru i gefnogi ein strategaeth, 'Canolbarth a Gorllewin Cymru Iachach'. Mae'r Achos Busnes yn gynllun uchelgeisiol ar gyfer buddsoddiad gwerth £1.3 biliwn mewn iechyd ledled ein hardal. Mae hyn yn rhoi gobaith i ni, ynghyd â gweledigaeth ar gyfer y dyfodol sy'n canolbwyntio ar ofal yn nes at y cartref a model cymdeithasol ar gyfer iechyd. Mae ein cynllun ar gyfer y tair blynedd nesaf (2022-25) yn ddynamig ac yn ymatebol i amgylchedd sy'n newid, tra ei fod hefyd yn parhau i roi pobl wrth wraidd yr hyn a wnawn wrth i ni weithio i adfer.

Edrychwn ymlaen at barhau i weithio'n agos gyda'n clinigwyr, ein staff, ein partneriaid a'n cymunedau i symud y gwaith hwn yn ei flaen eleni, a bydd yr argymhellion ar gyfer safle'r ysbyty newydd, ynghyd â'r goblygiadau clinigol ac ariannol, y goblygiadau ar gyfer y gweithlu, a'r manteision ariannol, yn cael eu cyflwyno i'n bwrdd ym mis Gorffennaf 2022.

Er iddi fod yn adeg heriol iawn, rydym yn cydnabod ac yn gwerthfawrogi cyflawniadau a llwyddiannau ein staff. Mae nifer o'n staff wedi ennill gwobrau neu wedi cael eu cydnabod am eu gwaith anhygoel, ac ni allem fod yn fwy balch ohonynt a'r hyn y maent yn ei gyflawni bob dydd. Adeg ysgrifennu'r adroddiad hwn, mae newyddion wedi dod i law fod gennym 11 o unigolion yn y rownd derfynol ar gyfer saith categori o wobrau yn y Gwobrau Iechyd a Gofal BAME Cenedlaethol eleni; cynhelir seremoni wobrwyo ar 9 Mehefin. Mae hwn yn gyflawniad gwych, ac mae'n dystiolaeth o ymroddiad a gwaith caled pawb dan sylw.

Trwy gydol y flwyddyn, rydym hefyd wedi croesawu datblygiadau newydd, cyffrous i'n cyfleusterau, gan gynnwys sganiwr MRI newydd o'r radd flaenaf yn cael ei osod yn Ysbyty Llwynhelyg; dwy theatr llawdriniaethau newydd yn cael eu hadeiladu yn Ysbyty'r Tywysog Philip; canolfan ymchwil glinigol newydd a ward mamolaeth gwerth miliynau o bunnau yn cael eu hagor yn Ysbyty Glangwili. At hynny, lansiwyd apêl codi arian i godi'r £500,000 sy'n weddill y mae ei angen i ddarparu uned ddydd cemotharapi bwrpasol yn Ysbyty Bronglais. Diolch i haelioni ein cymunedau, mae'r apêl wedi codi dros £73,000 adeg paratoi'r Adroddiad Blynyddol hwn.

Rydym hefyd wedi llwyddo i arwain y ffordd yng Nghymru yn achos nifer o brosiectau, megis ein gweithwyr allgymorth cymunedol yn helpu Pobl Ddu, Asiaidd ac Ethnig Leiafrifol sy'n byw yn ein hardal yn ystod pandemig COVID-19. At hynny, nyrsys yn ysbytai De Sir Benfro a Llwynhelyg oedd y cyntaf i fynd yn fyw gyda'r Cofnod Gofal Nyrsio Cymru (WNCr) digidol newydd, gan alluogi ffyrdd mwy clyfar o weithio sy'n canolbwyntio ar y claf.

Fel yr ydym wedi'i wneud yn ystod y ddwy flynedd ddiwethaf, byddwn yn parhau i wneud popeth o fewn ein gallu i gadw Canolbarth a Gorllewin Cymru mor ddiogel â phosibl rhag y coronafeirws. Yn sgil llacio'r cyfyngiadau ymhellach yn ddiweddar, ynghyd â gostyngiad yn y gwasanaeth profi cyhoeddus a'r gwasanaeth olrhain cysylltiadau, rydym yn dysgu byw gydag effaith COVID-19. Anogwn bawb i barhau â'r ymddygiadau y gwyddom y maent yn ein hamddiffyn, fel y gallwn, gyda'n gilydd, gadw Hywel Dda yn ddiogel.

Maria Battle, Cadeirydd

Amdanom ni

Mae [Bwrdd Iechyd Prifysgol Hywel Dda](#) yn cynllunio ac yn darparu gwasanaethau gofal iechyd y GIG ar gyfer pobl sy'n byw yn Sir Gaerfyrddin, Ceredigion, Sir Benfro a'r siroedd cyfagos. Mae ein 12,476 o aelodau o staff yn darparu gwasanaethau sylfaenol, cymunedol, yn yr ysbyty, iechyd meddwl ac anableddau dysgu ar gyfer chwarter tir Cymru. Rydym yn gwneud hyn mewn partneriaeth â thri awdurdod lleol a chyd-weithwyr yn y sector cyhoeddus, y sector preifat a'r trydydd sector, gan gynnwys ein gwirfoddolwyr, a hynny trwy'r canlynol:

- Pedwar prif ysbyty: Ysbyty Bronglais yn Aberystwyth; Ysbyty Glangwili yng Nghaerfyrddin; Ysbyty'r Tywysog Philip yn Llanelli; ac Ysbyty Llwynhelig yn Hwlfordd.
- Pum ysbyty cymunedol: Ysbyty Dyffryn Aman ac Ysbyty Llanymddyfri yn Sir Gaerfyrddin; Ysbyty Tregaron yng Ngheredigion; ac Ysbytai Dinbych-y-pysgod a De Sir Benfro yn Sir Benfro.
- Dwy ganolfan gofal integredig: Aberaeron ac Aberteifi yng Ngheredigion, a nifer o leoliadau cymunedol eraill, e.e. Bro Preseli, Crymych.
- 48 o bractisau cyffredinol (gyda phedwar o'r rhain yn cael eu rheoli gan y bwrdd iechyd); 53 o bractisau deintyddol (gan gynnwys pedwar practis orthodontig); 98 o fferyllfeydd cymunedol; 43 o bractisau offthalmig cyffredinol (gyda'r 43 yn darparu gwasanaethau Archwiliadau Iechyd Llygaid Cymru, a 32 yn darparu gwasanaethau golwg gwan); darparwyr gofal cartref yn unig; a chanolfannau iechyd.
- Lleoliadau niferus sy'n darparu gwasanaethau iechyd meddwl ac anableddau dysgu.
- Gwasanaethau tra arbenigol a gomisiynir gan Bwyllgor Gwasanaethau Iechyd Arbenigol Cymru.
- Gwasanaethau Cychwyn Cadarn ar y cyd ag awdurdodau lleol Sir Gaerfyrddin, Ceredigion a Sir Benfro.

Y boblogaeth a wasanaethwn

Amcanestyniad poblogaeth

Erbyn 2025, amcangyfrifir y bydd cyfanswm ein poblogaeth breswyl oddeutu 390,000 o bobl. At hynny, rydym hefyd yn darparu gofal ar gyfer nifer mawr o dwristiaid a myfyrwyr.

Y Gymraeg

Mae cyfran y boblogaeth sy'n gallu siarad Cymraeg yn 48%.

Poblogaeth sy'n heneiddio

Mae oedran cyfartalog y bobl sy'n byw yn y tair sir yn cynyddu'n gyson; mae gennym gyfran uwch o bobl hŷn na'r nifer cyfartalog ledled Cymru. Ar hyn o bryd, mae'r rhai sydd dros 65 oed yn cyfrif am chwarter poblogaeth y bwrdd iechyd. Mae'r amcanestyniadau yn awgrymu y bydd bron 125,000 o bobl dros 65 oed yn byw yn ardal Hywel Dda erbyn 2043, ac y bydd bron 22,000 o'r rheiny dros 80 oed.

Anghydraddoldebau iechyd

Mae amrywiaeth o ran ymddygiadau iach yn arwain at amrywiaeth o ran canlyniadau iechyd, ac mae lefelau amddifadedd hefyd yn effeithio ar hyn.

Patrymau clefydau sy'n newid

Rydym yn rhag-weld y bydd eiddilwch yn dod yn fwyfwy pwysig yn ardal Hywel Dda yn ystod y deng mlynedd nesaf, a rhagwelir y bydd yn cynyddu 4% y flwyddyn. Wrth i'n poblogaeth heneiddio, mae hyn yn arwain at gynnydd yn nifer y bobl yn ein hardal sydd ag un neu ragor o gyflyrau cronig. Yn 2020, dementia a chlefyd Alzheimer, ynghyd â chlefyd isgemia'r galon, oedd prif achosion marwolaeth yng Nghymru a Lloegr. Mae pandemig COVID-19 wedi cael effaith negyddol ar iechyd nifer o unigolion. Mae'r cyfyngiadau symud wedi arwain at gynnydd yn nifer y bobl sy'n profi problemau iechyd meddwl, yn enwedig gorbryder ac iselder. Yn ychwanegol at hynny, roedd angen i unigolion risg uchel ynysu am gyfnodau hir, ac mae hyn wedi arwain at ddatgyflyru ac eiddilwch cynyddol yn achos rhai o'n preswylwyr.

Tybaco

Mae bron un o bob wyth oedolyn (13%) yn ein hardal yn smygu. Mae smygu yn ffactor risg sylweddol ar gyfer nifer o glefydau a marwolaeth gynnar. Mae Gwneud i Bob Cyswllt Gyfrif (MECC) wedi cael ei ddefnyddio'n bennaf i annog newid ymddygiad mewn perthynas â smygu, pwysau, alcohol, a gweithgarwch corfforol. Fodd bynnag, rydym yn rhag-weld sgwrs ehangach yn canfod unrhyw un o nifer o ffactorau sy'n dylanwadu ar iechyd a llesiant sy'n berthnasol i bob unigolyn. Gall cynnal sgwrs fer, anfeirniadol, pan ddaw cyfle priodol, gefnogi pobl i gymryd cyfrifoldeb am eu hiechyd a'u llesiant eu hunain. Gall MECC arwain at welliannau yn iechyd pobl, a helpu pobl i ystyried eu hymddygiad iechyd a gwneud newidiadau.

Bwyd

Nid yw 4% o'r bobl yn ein hardal yn bwyta digon o ffrwythau a llysiau, ac mae dros dri o bob pum unigolyn (61%) dros bwysau neu'n ordew. Mae'r bwrdd iechyd yn defnyddio arian Cronfa Trawsnewid y Llwybr Gordewdra ar gyfer 2021-22 i fynd ati i atgyfnerthu gwasanaeth rheoli pwysau ein tîm amlddisgyblaethol arbenigol ymhellach, yn unol â safonau cenedlaethol i alluogi gwell mynediad a thegwch.

Gweithgarwch corfforol

Nid yw dros 25% o'r oedolion yn ein hardal yn gwneud digon o weithgarwch corfforol rheolaidd i fod o fudd i'w hiechyd. Mae dros chwarter ein poblogaeth yn segur.

Ynysigrwydd cymdeithasol ac unigrwydd

Dywed 15% o'n poblogaeth eu bod yn teimlo'n unig. Rydym yn darparu pwyntiau mynediad sengl ar gyfer gwybodaeth, cyngor a chymorth i'r cyhoedd, yn unol â Deddf Gwasanaethau Cymdeithasol a Llesiant (Cymru), sy'n hwyluso mynediad at gyfeiriadur o wasanaethau yn eu cymuned leol, er enghraifft DEWIS Cymru.

Cyflwyniad

Ym mis Mawrth 2020, gwnaeth Llywodraeth Cymru y penderfyniad digynsail i oedi'r Cynllun Tymor Canolig Integredig a'r broses gynllunio flynyddol er mwyn galluogi sefydliadau GIG Cymru i ganolbwyntio ar y paratoadau uniongyrchol ar gyfer pandemig COVID-19 a'r ymateb i'r pandemig hwn. Dywedodd y byddai trefniadau cynllunio arferol yn ailgychwyn ar adeg fwy priodol.

O ystyried parhad y pandemig, gofynnodd Llywodraeth Cymru am gynllun blynyddol, yn hytrach na Chynllun Tymor Canolig Integredig, ar gyfer 2021-22. Ym mis Mawrth 2021, cymeradwyodd y bwrdd ei Gynllun Adfer Blynyddol ar gyfer 2021-22, a oedd yn nodi ein blaenoriaethau ar gyfer 2021-22 i'r sefydliad ac i Lywodraeth Cymru. Cafodd y cynllun llawn ei gyflwyno i'r bwrdd ym mis Mehefin 2021 i'w gymeradwyo'n derfynol, ac, yn dilyn hynny, ei gyflwyno i Lywodraeth Cymru. Yr amcanion strategol a'r amcanion cynllunio, a gymeradwywyd gan y bwrdd ym mis Medi 2020, a oedd yn ffurfio sylfaen y cynllun, gyda'r ffocws, yn bennaf oll, ar y canlynol: y modd y mae'r bwrdd iechyd yn parhau i fynd i'r afael â phandemig COVID-19 ac yn adfer ohono; y modd y byddwn yn cefnogi staff i adfer yn dilyn heriau'r flwyddyn a aeth heibio; a'r modd y byddwn yn gosod y sylfeini i adfer ein systemau/gwasanaethau, ac yn cefnogi cymunedau i ffynnu.

Roedd ein cynllun yn cydnabod diffyg arfaethedig ym mlwyddyn ariannol 2021-22, ac ni lwyddwyd i adfer y diffyg cronol yr aed iddo hyd yma (a gafodd ei ailosod i 1 Ebrill 2020). O ganlyniad i hyn, cyflwynasom gyllideb a oedd yn torri ein dyletswydd statudol ar gyfer y cyfnod o dair blynedd. Roedd gan y bwrdd iechyd ddiffyg o £35.4 miliwn yn 2018-19, £34.9 miliwn yn 2019-20 a £24.9 miliwn yn 2020-21. Gwyddom fod angen gwneud cynlluniau ariannol a chyflawni ein strategaeth i sicrhau sefydlogrwydd a chynaliadwyedd ariannol hirdymor.

Rydym yn cydnabod yr effaith enfawr y mae COVID-19 wedi'i chael ar y broses o gynllunio, lleoli a gweithredu systemau, strwythurau a gwasanaethau. Bu'r effaith yn sylweddol ac yn ddynamig, fel ei gilydd, ac ni ellir ei thanbrizio. Mae wedi newid a datblygu'r ffordd yr ydym yn mynd ati i gynllunio, sy'n golygu bod nifer o newidiadau a nodwyd yn flaenorol ar gyfer y tymor hwy wedi cael eu rhoi ar waith yn gynt na'r disgwyl. Mae gwaith galluogi digidol yn enghraifft amlwg. Mae hyn yn golygu bod cynlluniau a thybiaethau, ynghyd â'u hamserlenni, wedi cael eu hailystyried wrth i'r bwrdd iechyd symud i gyfnod trawsnewidiol. Er gwaethaf yr heriau a'r newidiadau sylfaenol a wynebwyd yn ystod 2021-22, cafwyd cyfleoedd annisgwyl i ailosod, cyflymu a hwyluso, lle'r oedd yn briodol, er mwyn trawsnewid gwasanaethau.

Mae'r gwaith i ddatblygu ein cynllun ar gyfer 2022-25 ar y gweill, a chafodd y cynllun ei gyflwyno i Lywodraeth Cymru ym mis Mawrth 2022, yn ôl y gofyn. Mae'n debygol na fydd y bwrdd iechyd, unwaith eto, yn gallu cyflawni ei rwymedigaeth statudol i lunio cynllun sy'n gytbwys yn ariannol dros gylchred oes y cynllun.

Mae ein diffyg sylfaenol wedi gwaethygu yn ystod y ddwy flynedd ddiwethaf yn dilyn y bylchau o ran darparu arbedion rheolaidd yn 2020-21 a 2021-22.

Rydym yn ymrwymedig i fynd i'r afael â'r heriau hyn, ac rydym wrthi'n llunio cynllun craidd clir, sy'n canolbwyntio ar adferiad, a fydd yn ein galluogi i ddychwelyd i'r drefn gyda'n map ffordd ariannol. Yn achos 2022-23, daw hyn law yn llaw â sicrhau bod yr heriau economaidd

eithriadol y byddwn yn eu hwynebu y flwyddyn nesaf yn cael eu disgrifio a'u hasesu'n dda. Mae adolygiad sylweddol o'n hymateb i COVID-19 eisoes ar y gweill, a chaiff hwn ei drosglwyddo i'r normal newydd trwy ein cynlluniau.

Mae dulliau gofal iechyd seiliedig ar werth yn cael eu defnyddio ledled y sefydliad cyfan, a'n dyhead yw y gall model gweithredu targedau gael ei ddatblygu i ffocysu'r broses o ddarparu ein gwasanaethau yn y ffordd orau posibl ar gyfer ein cleifion. Bydd hyn yn ffurfio rhan gritigol o'r modd y byddwn yn mynd i'r afael â'r rhagolygon tymor canolig, ac yn cyd-fynd â'r tybiaethau cynllunio a nodir yn ein strategaeth a'n Hachos Busnes diweddar ar gyfer y Rhaglen.

Rydym yn glir o ran ein cyrchfan hirdymor – a nodir yn ein strategaeth "Canolbarth a Gorllewin Cymru Iachach" ac a atgyfnerthir yn ein Hachos Busnes ar gyfer y Rhaglen. Mae cyrraedd y cyrchfan hwnnw yn gofyn am gynnydd ar draws nifer o barthau, yr ydym wedi'u galw'n 'amcanion strategol'.

Mae'r amcanion strategol hyn yn berthnasol i'n pobl (ein staff, defnyddwyr ein gwasanaethau, a'n cymunedau) ac i'n gwasanaethau. Mae ein cynllun yn nodi'r camau gweithredu penodol, a elwir yn 'amcanion cynllunio', yr ydym yn eu cymryd i sicrhau cynnydd ym mhob un o'r parthau hyn. Fel hyn, rydym yn parhau i ganolbwyntio ar ein cyfeiriad strategol ac yn sicrhau bod ein gweithgarwch o ddydd i ddydd yn cyd-fynd yn bendant â'n cyfeiriad strategol ac yn cyfrannu ato. Rydym wedi defnyddio'r dull hwn trwy gydol y flwyddyn, ac erbyn hyn mae wedi'i sefydlu'n dda yn ein harferion busnes.

Caiff pob amcan cynllunio ei arwain gan gyfarwyddwr gweithredol a'i ddynodi i bwyllgor o'r bwrdd, a darperir adroddiadau diweddar rheolaidd y ystod pob yn ail gyfarfod o'r pwyllgor. Mae fframwaith sicrwydd ein bwrdd yn olrhain cynnydd y camau gweithredu hyn a'u heffaith ar fesurau ein canlyniadau strategol.

Mae ein dull o gynllunio 'nawr yn troi o amgylch yr amcanion strategol a chynllunio hyn, ac mae adolygiad systematig o'r amcanion cynllunio yn agwedd gritigol ar gylch cynllunio y sefydliad. Rydym wedi cynnal yr adolygiad hwn wrth i ni ddatblygu'r cynllun, ac mae nifer o'r amcanion cynllunio wedi cael eu cwblhau a'u diweddarau, ac eraill wedi cael eu hadolygu. Mae ein bwrdd yn cymeradwyo'r holl amcanion cynllunio yn ffurfiol, ac ni chânt eu newid na'u dileu heb gymeradwyaeth y bwrdd, sy'n amlygu ein didwylledd a'n hatebolrwydd i'r boblogaeth a wasanaethwn.

Mae'r broses o lunio amcanion cynllunio yn rhoi ystyriaeth i amrywiaeth o ffactorau, gan gynnwys: ein risgiau a'n perfformiad, blaenoriaethau'r Gweinidog, polisïau a deddfwriaeth Llywodraeth Cymru, a gwaith i gefnogi ein strategaeth.

Yn 2021-22, aethom ati i fanteisio ar y cyfle i adolygu strwythurau ein pwyllgorau er mwyn sicrhau eu bod yn cyd-fynd yn gynyddol â'n hamcanion strategol:

- Y Pwyllgor Datblygu Strategol a Chyflawni Gweithredol – mae hwn yn gyfrifol am geisio sicrwydd o ran cyflawni amcanion strategol 4 a 5. (4. Yr iechedd a'r llesiant gorau ar gyfer ein cymunedau; a 5. Gofal diogel, cynaliadwy, hygyrch a charedig). Y pwyllgor hwn hefyd sydd â'r cyfrifoldeb trosfwaol ar gyfer datblygu ein cynllun a sicrhau ei fod yn cael ei gyflawni.
- Y Pwyllgor Pobl, Diwylliant a Datblygu Sefydliadol – mae hwn yn cael sicrwydd ynghylch cyflawni'r amcanion cynllunio o dan amcanion strategol 1, 2, a 3. (1. Rhoi pobl wrth wraidd popeth a wnawn; 2. Cydweithio hyd eithaf ein gallu; a 3. Ymdrechu i ddarparu a datblygu gwasanaethau rhagorol).
- Y Pwyllgor Adnoddau Cynaliadwy – mae hwn yn cael sicrwydd o ran yr holl amcanion cynllunio o dan amcan strategol 6 (Defnydd cynaliadwy o adnoddau), gyda ffocws ar berfformiad ariannol a chynllunio.

Rydym yn parhau i fonitro'r gwaith o gyflawni ein Cynllun Blynyddol ar gyfer 2021-22 a mesurau canlyniadau ein bwrdd trwy bwyllgorau'r bwrdd a thrwy fframwaith sicrwydd y bwrdd. Mae fframwaith sicrwydd y bwrdd yn galluogi'r bwrdd i hoelio ei sylw ar feysydd lle ceir perfformiad gwael o ran cynnydd yn unol â chyflawni amcanion cynllunio (sef pileri craidd ein cynllun), effaith araf neu ddim effaith ar fesurau canlyniadau y cytunwyd arnynt, a risgiau sylweddol i'r gwaith o gyflawni amcanion, lle nad oes yna lawer o hyder yn y sicrwydd a ddarperir. Bydd y broses o gyflawni amcanion cynllunio hefyd yn cael ei hadolygu'n rheolaidd gan bwyllgorau. Gall y pwyllgorau hefyd nodi a rhoi gwybod am wendidau o ran y sicrwydd a roddwyd iddynt. Mae camau 'nawr yn cael eu cymryd i ddatblygu fframwaith sicrwydd y bwrdd fel bod ei ffocws yn symud o fod yn 'offeryn prosesau' tuag at lywio agendâu'r bwrdd a darparu gwybodaeth ar ganlyniadau.

Trwy gydol 2021-22, buom yn monitro ein cynnydd yn unol â mesurau fframwaith cyflawni'r GIG, gan uwchgyfeirio unrhyw bryderon i'r bwrdd neu i bwyllgor yn fisol. Aethom ati i gyfateb pob un o'r mesurau i un o'n chwe amcan strategol.

Ddiwedd mis Mawrth 2022, roedd pum amcan cynllunio wedi'u cyflawni. Roedd un ar y blaen o ran yr amserlen a 32 yn parhau ar y trywydd iawn, ac roedd 15 yn dal i fod ar ei hôl hi. Caiff adroddiadau gweithredu chwarterol hefyd eu cyflwyno trwy ein Pwyllgor Datblygu Strategol a Chyflawni Gweithredol.

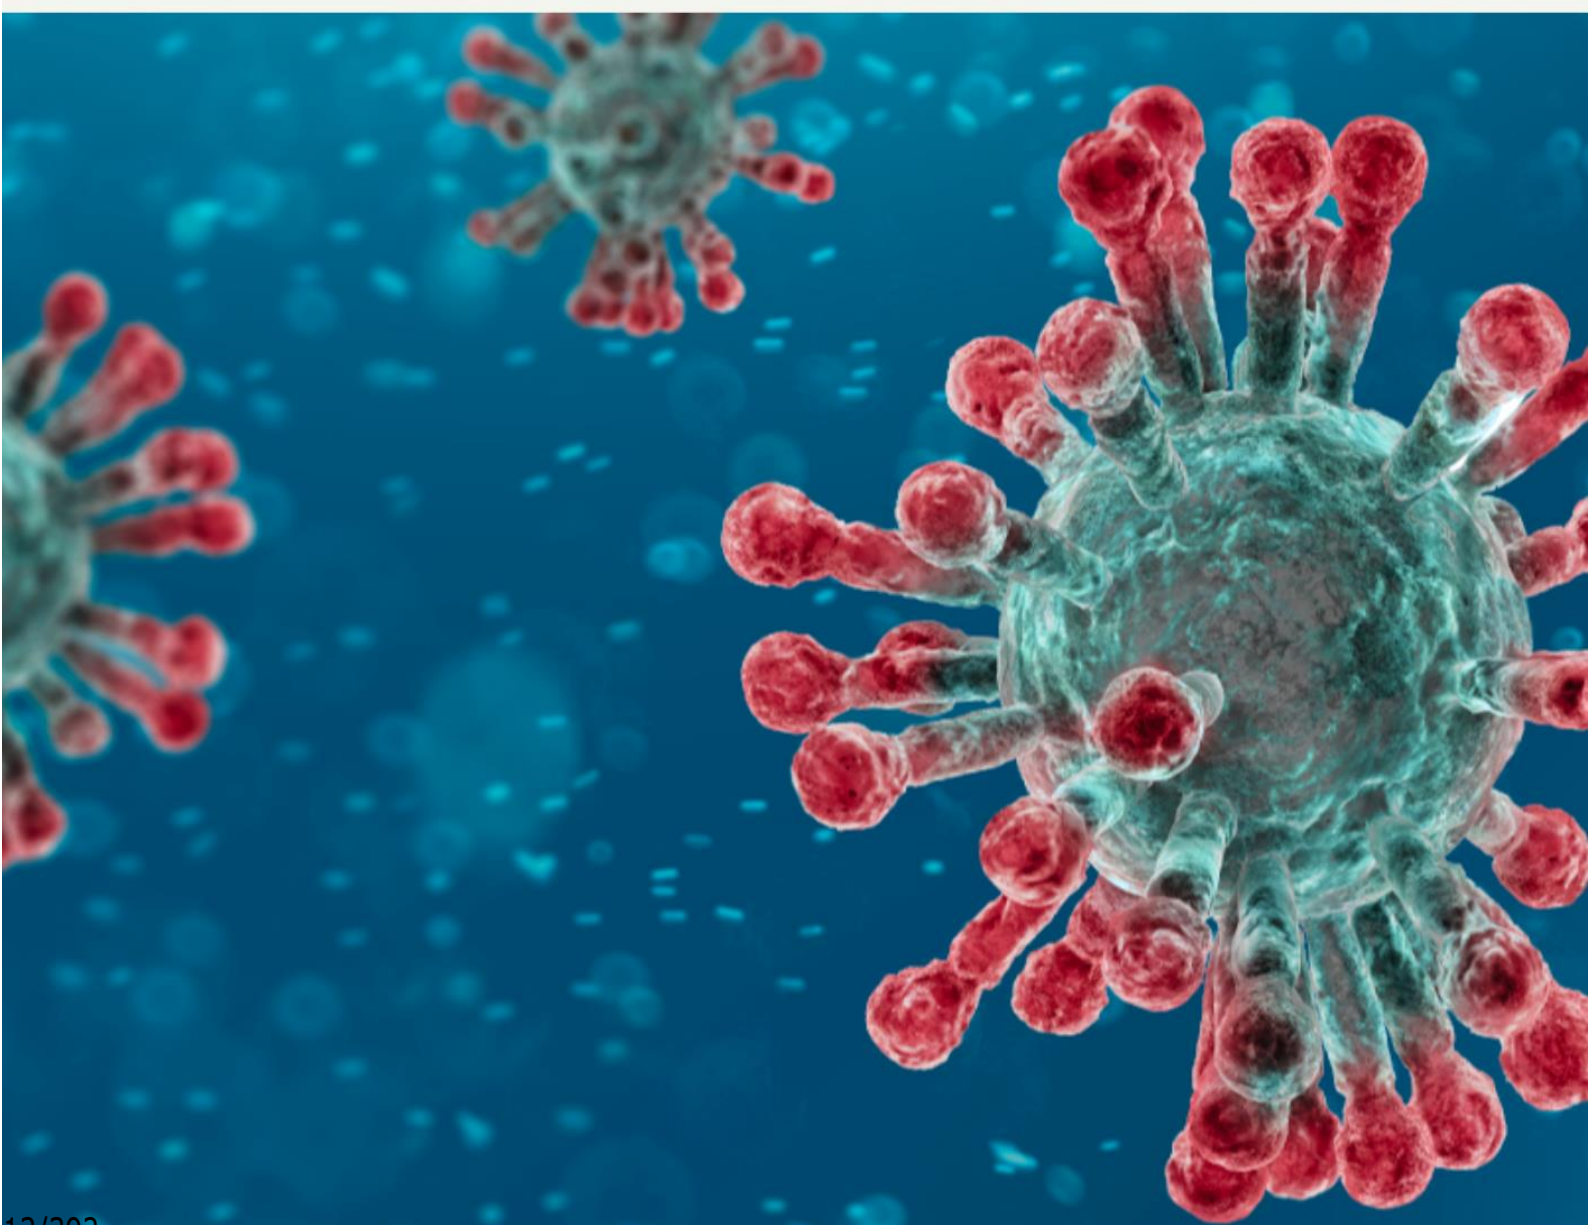

Bydd yr amcanion cynllunio nas cyflawnwyd eto yn ystod 2021-22 yn parhau i fod yn rhan o'r amcanion cynllunio a ddefnyddir i strwythuro ein cynllun ar gyfer 2022-23.

Mae Deddf Iechyd a Gofal Cymdeithasol (Ansawdd ac Ymgysylltu) (Cymru) 2020 wedi cyflwyno dau ofyniad newydd sydd i ddod i rym yn gyfreithiol ym mis Ebrill 2023:

- Nod **y Ddyletswydd Ansawdd** yw sicrhau bod gennym ffordd system gyfan o weithio i ddarparu gofal iechyd diogel, effeithiol, amserol, effeithlon a theg, sy'n canolbwyntio ar yr unigolyn, yng nghyd-destun diwylliant dysgu; a
- Nod **y Ddyletswydd Gonestrwydd** yw hyrwyddo diwylliant o ddidwylledd a gwella ansawdd y gofal yn y gwasanaeth iechyd trwy annog dysgu sefydliadol, ac felly osgoi digwyddiadau yn y dyfodol.

Bydd y gofynion newydd hyn o ran adrodd yn cael eu cipio trwy brosesau a fydd ar waith ar gyfer 2023-24. Yn y cyfamser, rhagwelwn y bydd yna weithredu anstatudol yn hydref 2022. Bydd y broses adrodd ar gyfer 2022-23 yn ddull hybrid a fydd yn galluogi i ddangosyddion adrodd ar ansawdd gael eu profi, ac i fesurau a chysyniadau naratif gael eu datblygu yn rhan o'r cam gweithredu. Yn y cyfamser, mae'r gofynion o ran adrodd ar ansawdd wedi'u hymgorffori yn yr adran ar berfformiad trwyddi draw yn yr Adroddiad Blynyddol hwn.

Effaith COVID-19 ar y modd yr ydym yn darparu gwasanaethau

Effaith COVID-19 ar y modd yr ydym yn darparu gwasanaethau

Mae COVID-19 yn parhau i gael effaith sylweddol ar ein gwasanaeth iechyd a'n cymunedau ehangach yn ystod 2021-22.

Rydym wedi ymateb a gwneud y newidiadau gofynnol i sicrhau ein bod wedi gallu cadw ein cymunedau mor ddiogel â phosibl, ac i fodloni canllawiau newydd. Mae hyn wedi golygu parhau i weithio'n agos gyda phartneriaid sy'n ymwneud ag iechyd a gofal, a hefyd gyda'r cymunedau eu hunain, a hynny ar raddfa nas gwelwyd o'r blaen.

Mae ein staff, ein partneriaid a'n cymunedau yn Sir Gaerfyrddin, Ceredigion, Sir Benfro, a'r ffiniau wedi cydweithio gydag ymrwymiad, arloesedd, a charedigrwydd.

Roedd Fframwaith Gweithredu GIG Cymru yn cydnabod yr effaith enfawr y mae COVID-19 wedi'i chael ar y GIG a gofal cymdeithasol, ynghyd â'r angen i ni wneud ein gorau i leihau niwed.

Roedd y fframwaith yn nodi pedwar math o niwed:

- Niwed o ganlyniad i COVID-19 ei hun
- Niwed o ganlyniad i'r ffaith bod y GIG a'r gwasanaethau cymdeithasol dan bwysau llethol
- Niwed o ganlyniad i leihau gweithgarwch nad yw'n ymwneud â COVID-19
- Niwed o ganlyniad i gamau gweithredu cymdeithasol ehangach/gyfyngiadau symud

Mae naratif yr Adroddiad Blynyddol hwn yn manylu ar y cydbwysedd cyson yr ydym wedi ceisio ei gynnal i ddarparu ymateb i COVID-19, i ddarparu gofal iechyd critigol yn ein hysbytai, ein gwasanaethau gofal sylfaenol a'n gwasanaethau gofal yn y gymuned, ac i leihau risg a niwed.

Isod, rydym yn crynhoi ein dull o fynd i'r afael â'r pedwar niwed, a'r risgiau a nodwyd gennym a allai effeithio ar ein gallu i ddarparu gwasanaethau hanfodol neu gyflawni yn unol â thargedau, ynghyd â rhai o'n camau lliniaru i reoli a lleihau'r risg.

Mae rhai o'r risgiau hyn yn risgiau newydd cysylltiedig â COVID-19, ac mae eraill yn risgiau a oedd yn bodoli eisoes ac sydd wedi gwaethygu o ganlyniad i COVID-19. Mae'r adran hon yn nodi ein sefyllfa a sgorau'r risgiau ar 31 Mawrth 2022. I gael rhagor o fanylion, gweler:

- Yr adran ar gynllunio a darparu gwasanaethau diogel, effeithiol ac o ansawdd ar dudalen 21 o'r ddogfen hon.
- Yr adran ar broffil y risgiau yn y bennod Datganiad Llywodraethu Blynyddol yn yr adroddiad hwn.
- [Yr adroddiad diweddarar ar y Gofrestr Risgiau Corfforaethol a baratowyd ar gyfer cyfarfod y Bwrdd ym mis Mawrth 2022.](#)

At hynny, rydym yn monitro ac yn cyhoeddi mesurau allweddol misol (yn cynnwys y rheiny sy'n berthnasol i'r pedwar niwed) fel y gallwn nodi lle yr ydym yn cyflawni'n dda a lle a sut y gallwn wneud rhagor o welliannau. [Darllenwch ein gwybodaeth am berfformiad yma.](#)

**Gofal diogel,
cynaliadwy,
hygyrch a
charedig**

Niwed o ganlyniad i COVID-19 ei hun

I leihau'r niwed uniongyrchol o ganlyniad i COVID-19 ei hun, mae'r bwrdd iechyd wedi rhoi ystod o gamau gweithredu ar waith.

- Rydym wedi sefydlu nifer o grwpiau rhanbarthol ac wedi ymgysylltu ar eu traws, gan gynnwys y Tîm Rheoli Digwyddiadau Rhanbarthol, Tîmau Rheoli Achosion, Fforwm Cydnerthedd Lleol Dyfed Powys, a'r Grŵp Cysgydylltu Strategol.
- Rydym wedi cytuno ar y cyd ar gynlluniau lleol, ac wedi'u rhoi ar waith i gefnogi'r gofynion newidiol sy'n gysylltiedig â'r rhaglen Profi, Orlhain, Diogelu, gan gynnwys trefniadau profi hyblyg mewn ymateb i achosion newydd ac ardaloedd lle mae yna lawer o achosion, hyrwyddo profion rheolaidd ar gyfer staff iechyd a gofal cymdeithasol, profi mewn cartrefi gofal, lleoliadau addysg a gweithleoedd, ac i gefnogi twristiaeth a theithwyr sy'n dychwelyd (gweler tudalennau 22, 32).
- Rydym wedi cefnogi ein cartrefi gofal a'n hysbytai gydag asesiadau a chynghor ar atal a rheoli haint, ac i atal a rheoli achosion (gweler tudalennau 45-47).
- Rydym wedi sefydlu gwasanaeth COVID-19 Hir i gefnogi'r rheiny sy'n dioddef o effeithiau hirdymor y feirws (gweler tudalen 31).
- Rydym wedi rhoi rhaglen frechu lwyddiannus ar waith, ac, ar 31 Mawrth 2022, roedd 867,173 o frechiadau COVID-19 wedi cael eu rhoi i'n preswylwyr a'n staff. Mae hon yn rhaglen barhaus sy'n seiliedig ar yr egwyddor o beidio â gadael neb ar ôl.
- Cafodd Grŵp Brechu Teg ei ffurfio gan bartneriaid o'r maes iechyd, ac yn yr awdurdodau lleol a'r trydydd sector. Nod y grŵp hwn yw darparu gwybodaeth dda i bobl y mae COVID-19 yn effeithio'n anghymesur arnynt. Mae hyn yn cynnwys pobl â nodweddion gwarchodedig, megis y rheiny o gefndiroedd ethnig lleiafrifol a phobl ag anableddau, y rheiny sydd dan anfantais economaidd-gymdeithasol ac sy'n byw mewn cymunedau lle mae yna amddifadedd uchel neu allgáu cymdeithasol, y rheiny mewn grwpiau ymylol neu grwpiau na wasanaethir yn ddigonol, megis ceiswyr lloches neu geiswyr noddfa, pobl sy'n profi digartrefedd, pobl sy'n rhan o'r system gyfiawnder, cleientiaid iechyd meddwl, a phobl o gymunedau Teithwyr nad ydynt yn cyrchu gwasanaethau gofal iechyd yn rheolaidd. Mae rhai o'r atebion a roddwyd ar waith yn cynnwys darparu gwybodaeth mewn ieithoedd a fformatau amgen, clinigau brechu pwrpasol â mynediad rhwydd i ddiwallu anghenion grwpiau amrywiol, mynediad i gyngor clinigol pwrpasol, a chyfleoedd i ofyn cwestiynau. Roedd y cerbyd brechu symudol, a roddwyd trwy garedigrwydd y gwasanaeth tân, yn darparu clinigau brechu mewn mannau a oedd yn bell yn ddaearyddol o ganolfannau brechu torfol ac ar gyfer myfyrwyr mewn addysg uwch.

Mae pob un o'r rhain wedi'u seilio ar gysylltiadau rheolaidd, cyson a chanolbwyntiedig gan staff a chysylltiadau cyhoeddus â phartneriaid ledled y rhanbarth, yn cynnwys awdurdodau lleol a sefydliadau sector cyhoeddus eraill, gofal cymdeithasol, addysg, twristiaeth, a busnesau lleol, er mwyn diogelu ein cymunedau.

- **Risg 1016 – Mae yna risg o gynyddu heintiau COVID-19 ledled y bwrdd iechyd o ganlyniad i staff ac eraill ddim yn glynwrth ganllawiau'r bwrdd iechyd a'r ddeddfwriaeth genedlaethol ar gadw pellter cymdeithasol (sgôr y risg 10: uchel)**

Rydym wedi cynnal asesiadau risg ar gadw pellter cymdeithasol sy'n amlygu ffyrdd o ganiatáu i wasanaethau gael eu hailgyflwyno ar yr un pryd â chynnal mesurau cadw pellter cymdeithasol. Rydym wedi parhau i annog staff, ymwelwyr neu gleifion i lynu wrth y canllawiau ar gadw pellter cymdeithasol.

Yn ogystal â'r mesurau mwy arferol, megis gorsafoedd hylif diheintio dwylo a'r defnydd o gyfarpar diogelu personol, gan gynnwys gorchuddion wyneb, mae rhai o'r mesurau a roddwyd ar waith gennym i leihau'r risg yn cynnwys gosod sgriniau diogelwch yn ardaloedd derbynfydd ysbytai a wardiau/clinigau; cynnal adolygiad rheolaidd o'n canllawiau ar ymweld â chleifion, gan gynnwys cyflwyno slotiau amser penodol; a pharhau i annog staff i ddefnyddio systemau TG megis Microsoft Teams i leihau'r angen i gynnal cyfarfodydd wyneb yn wyneb.

Niwed o ganlyniad i'r ffaith bod y GIG a'r gwasanaethau cymdeithasol dan bwysau llethol

Mae adran dadansoddeg y bwrdd iechyd wedi parhau i goladu, dadansoddi a chyflwyno data. Mae hyn yn cynnwys nifer achosion, gan gynnwys fesul sir, a rhagfynegi cyfraddau, derbyniadau, niferoedd yn yr ysbyty, a hyd arosiadau yn y dyfodol. Mae hyn wedi helpu i lywio ein proses gwneud penderfyniadau mewn perthynas â'r paratoadau a'r ymyriadau i ddarparu gofal mewn modd diogel ym mhob cam o'r pandemig, gan gynnwys yn ystod tonnau ac wrth ymateb i amrywiolion newydd.

Mae Fframwaith Dewisiadau y GIG wedi rhoi'r hyblygrwydd i ni ailddechrau a darparu cymaint o ofal â phosibl, ac, i'r gwrthwyneb, i ohirio rhai meysydd gofal wedi'i gynllunio pan fo angen, am resymau diogelwch. Er enghraifft, ym mis Hydref 2021, gwnaed y penderfyniad anodd i ohirio llawdriniaethau orthopedig dewisol (wedi'u cynllunio) dros dro yn Ysbyty'r Tywysog Philip, Llanelli, ac yn Ysbyty Llwynhelyg, Hwlfordd, fel y gallem ddarparu gwelyau a lleihau'r pwysau ar ein system gofal heb ei drefnu. Ym mis Ionawr, rhoddwyd nifer o fesurau ar waith i gynnal y gwasanaethau mwyaf critigol. Roedd hyn yn cynnwys llawdriniaethau cancer brys ar gyfer ein poblogaeth yn cael eu darparu'n bennaf yn Ysbyty'r Tywysog Philip, Llanelli yn unig; a chlinigau llai brys ar gyfer cleifion allanol a therapïau yn cael eu hailamserlennu.

Mae ein gwasanaethau cymunedol hefyd wedi gwneud ymdrech enfawr i ddarparu gwasanaethau mewn ffyrdd gwahanol a lleihau'r pwysau ar ofal brys a gofal heb ei drefnu. Er enghraifft, mae canolfannau gofal cymunedol wedi cael eu defnyddio i ddarparu clinigau a fyddai'n draddodiadol wedi gweithredu o ysbytai aciwt, yn ogystal â chlinigau rhithwir, fel y gellir darparu gofal yn nes at y cartref. Yn ein Cynllun Tymor Canolig Integredig, rydym yn mynegi awydd i ehangu oriau agor y canolfannau hyn ymhellach, ac i alluogi i wasanaethau ychwanegol gael eu darparu ynddynt.

Mewn partneriaeth â'n hawdurdodau lleol a gweithwyr proffesiynol perthynol i iechyd ym maes gofal sylfaenol ac eilaidd, roeddem wedi parhau i gefnogi cartrefi gofal i atal a rheoli achosion o COVID-19. Roedd hyn wedi helpu i leihau nifer y preswylwyr COVID-19 positif a dderbyniwyd yn ddiangen i'r ysbyty, gan eu galluogi i aros yn amgylchedd eu cartref.

At hynny, bu'n rhaid i ni gysoni ein strwythur staffio â'r angen mwyaf critigol ar sawl adeg yn ystod y flwyddyn, ac mae ein staff wedi bod yn eithriadol o hyblyg. Rydym yn ddiolchgar

iawn am hyn. Rydym yn cydnabod bod ein gwasanaethau yn cael eu hadeiladu ar ein staff, ac felly mae cefnogi eu llesiant yn ystod yr amseroedd heriol hyn wedi bod yn flaenoriaeth gritigol i ni. Gallwch ddarllen rhagor am y gwelliannau a wnaed gennym i wasanaethau llesiant seicolegol ein staff yn y bennod ar reoli'r gweithlu yn yr adroddiad hwn (o dudalen 84 ymlaen).

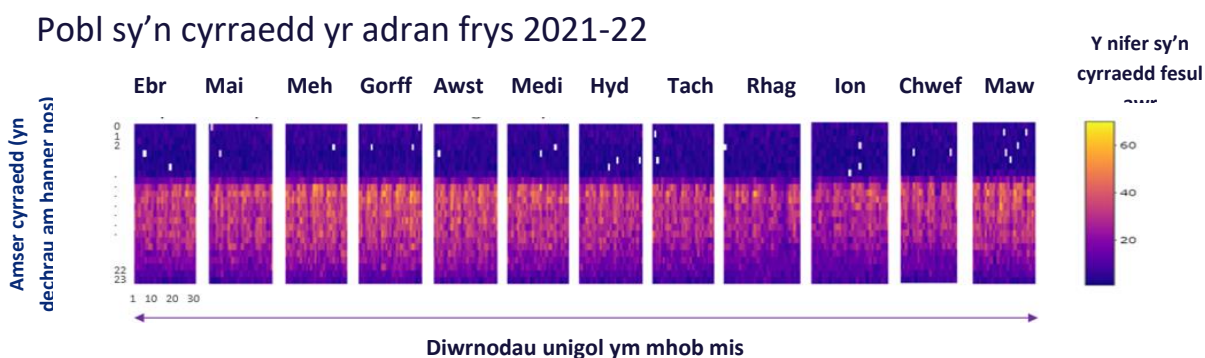

Risg 1219 – Mae yna risg na fydd yna weithlu digonol ar gael i ddarparu'r gwasanaethau gofynnol ar gyfer "Adfer" a'r ymateb parhaus i COVID-19 a heintiau anadlol eraill, fel yr amlinellir yng nghynlluniau blynyddol y bwrdd iechyd ar gyfer 2021-22 (sgôr y risg 14: eithriadol)

Achosir hyn gan amrywiolion COVID-19 newydd, a chynnydd yn nifrifoldeb a gwasgariad feirysau anadlol ymhlith y boblogaeth (mewn plant ac oedolion), a allai olygu cynnydd yn nifer yr heintiadau a'r achosion mewn cyfleusterau aciwt, cymunedol a gofal cymdeithasol. Yn ogystal â mesurau mwy arferol megis arferion amserlennu effeithlon a'r defnydd o staff cronfa a staff asiantaeth, rydym yn parhau i flaenoriaethu'r broses o recriwtio cyflogaion newydd i'r meysydd risg uchaf, a darparu trefn ymsefydlu iddynt, er mwyn cynnal darpariaeth y gwasanaethau.

Risg 1027 – Mae yna risg i'r gwaith parhaus o ddarparu gofal brys a gofal mewn argyfwng sy'n amserol ac o ansawdd uchel (sgôr y risg 20: eithriadol)

Achosir hyn gan eiddilwch cynyddol yn y system gofal brys a gofal mewn argyfwng, lefelau galw cynyddol y tu hwnt i'r capasiti staffio, effaith COVID-19 ar yr adnoddau system gyfan sydd ar gael o ran staffio a gwelyau, ac oedi wrth ryddhau cleifion ledled y system ofal, elfen sydd y tu hwnt i ddylanwad uniongyrchol y bwrdd iechyd. Mae gennym systemau rheoli cynhwysfawr ar waith i reoli risgiau gofal heb ei drefnu yn ddyddiol; prosesau ar waith i adolygu'r cleifion a dderbynnir i ardaloedd o ymchwydd er mwyn sicrhau mwy o ofal dwys i gleifion, a bod dibynadwydd yn cael ei fonitro a'i reoli; prosesau i sicrhau bod cleifion arhosiad hir yn cael eu hadolygu'n rheolaidd; a modelau amgen bwriadus ar gyfer goruchwyliaeth feddygol.

Mae ein tîm dadansoddeg iechyd wedi ymgymryd â gwaith i ddelweddu lefel y gweithgarwch sy'n cyrraedd yr adrannau brys ledled Hywel Dda. Mae'r llwyfan dadansoddeg uwch, a ddatblygwyd yn y bwrdd iechyd, wedi cynhyrchu'r map gwres canlynol. Mae'n crynhoi nifer y bobl sy'n cyrraedd yr adran frys bob awr, bob dydd, am flwyddyn gyfan. Mae'r lliwiau tywyll yn cynrychioli llai o bobl yn cyrraedd mewn awr o gymharu â'r lliwiau golau. Mae medru gweld y galw ledled y gwasanaeth cyfan mewn un ddelwedd weledol yn gallu helpu i gefnogi penderfyniadau rheoli.

Risg 1342 – Mae yna risg na fydd y bwrdd iechyd yn gallu cynllunio nac ymateb mewn modd effeithiol i'r pandemig na gwneud penderfyniadau effeithiol ynghylch materion critigol yn ymwneud â pharhad busnes, cymhwyso'r Fframwaith Dewisiadau Lleol, a darparu gwasanaethau hanfodol (sgôr y risg 12: uchel)

Rydym yn dibynnu ar yr adroddiadau dyddiol ar achosion o COVID-19 i'n galluogi i fonitro, olrhain a chynllunio ein hymateb i COVID-19. Dim ond canlyniadau profion adwaith cadwynol polymerasau (PCR) sy'n cael eu cynnwys yn yr adroddiadau hyn, ac nid ydynt yn adlewyrchu'r newid diweddar yn y polisi profi i ddibynnu mwy ar ganlyniadau profion dyfeisiau llif unffordd (LFD). Mae'r bwrdd iechyd yn parhau i fod â phrosesau a systemau ar waith ar gyfer casglu data i alluogi i achosion PCR positif fesul 10,000 gael eu cofnodi a'u monitro'n ddyddiol; i achosion a anfonir i'r ysbyty, wedi'u rhannu yn ôl y rhai sy'n cael triniaeth weithredol ar gyfer COVID-19, y rhai sy'n gwella o COVID-19, a'r rhai sydd wedi profi'n bositif am COVID-19 mewn diagnosis eilaidd, gael eu cofnodi a'u monitro'n ddyddiol; i absenoldebau staff oherwydd salwch yn ystod cyfnod brig pythefnos o hyd rhagweledig gael eu cofnodi a'u monitro'n ddyddiol; ac i ddata dyddiol ar ddigwyddiadau ac achosion mewn ysgolion, grwpiau blwyddyn a dosbarthiadau lleol sy'n gysylltiedig â COVID-19 gael eu casglu. Mae adran dadansoddeg y bwrdd iechyd yn coladu, yn dadansoddi ac yn cyflwyno data i lywio'r broses gwneud penderfyniadau.

Niwed o ganlyniad i leihau gweithgarwch nad yw'n ymwneud â COVID-19

Trwy gydol y pandemig, rydym wedi ymdrechu i gynnal ein gwasanaethau mwyaf critigol a brys, ac i ailgychwyn ac adfer gwasanaethau y mae'r ymateb i'r pandemig wedi effeithio arnynt. Rydym yn canolbwyntio ar adferiad, ac ar sefydlu 'normal newydd' o ran darparu gofal ac iechyd. Wedi dweud hynny, mae'r pwysau ar ein system gofal brys a gofal mewn argyfwng yn parhau'n sylweddol, gydag arosiadau hir yn ein hadrannau brys, yn ogystal â heriau o ran rhyddhau cleifion. Felly rydym wedi ymdrechu i ddal y ddysgl yn wastad rhwng darparu'r gwasanaethau y mae eu hangen, ond mewn ffordd ddiogel ac iddi flaenoriaeth glinigol.

Isod, rhestrir rhai o'r mesurau a roddwyd ar waith i liniaru effaith lleihau gweithgarwch nad yw'n ymwneud â COVID-19 ac i fynd i'r afael â rhestrau aros:

Clinigau Diagnosis Cyflym – agorwyd Clinig Diagnosis Cyflym gennym yn Ysbyty'r Tywysog Philip, Llanelli ym mis Hydref 2021. Mae hyn wedi caniatáu i bobl o bob cwr o'n hardal, sydd â symptomau amhenodol ond sy'n peri pryder, gael eu hatgyfeirio, gyda'r bwriad o ganfod y rheiny a allai fod â chanser yn gynnar. Y bwriad yw datblygu rhagor o Glinigau Diagnosis Cyflym mewn lleoliadau ar hyd a lled y bwrdd iechyd.

Y fenter rhestrau aros – rydym wedi lansio Gwasanaeth Cymorth Rhestrau Aros ar gyfer grwpiau cleifion penodol (orthopedeg, a chlust, trwyn a gwddf (ENT), gyda rhagor i ddilyn) er mwyn cefnogi cleifion sy'n aros am lawdriniaeth. Mae'r gwasanaeth yn darparu cymorth clinigol a chynghor ar lesiant dros y ffôn a trwy e-bost i gleifion sy'n aros am driniaeth. Mae hyn yn rhoi un pwynt cyswllt ac arweiniad i gleifion os bydd y symptomau'n gwaethygu. Rydym hefyd yn gallu cyfeirio cleifion at adnoddau llesiant ar-lein i'w helpu i gynnal ac optimeiddio eu hiechyd.

Theatrau modiwlwr – dechreuodd gwaith ym mis Rhagfyr, a fydd yn dod i ben yn ystod gwanwyn 2022, i agor dwy theatr llawdriniaethau newydd yn Ysbyty'r Tywysog Philip yn

Llanelli. Bydd hyn yn ein helpu i fynd i'r afael â rhestrau aros llawfeddygol a lleddfu'r pwysau ledled y rhanbarth.

Risg 1048 – Mae yna risg o darfu ar y gwaith o ddarparu gwasanaethau gofal wedi'i gynllunio a nodir yn y Cynllun Adfer Blynyddol ar gyfer 2021-22 (sgôr y risg 16: eithriadol)

Achosir hyn gan effaith y pwysau ar ofal brys a gofal mewn argyfwng (fel sy'n cael ei adlewyrchu yn risg 1027), ynghyd â diffyg sylweddol parhaus yn argaeledd adnoddau staffio i gefnogi llwybrau gwyrdd ar gyfer cleifion ar frys a'r rhai ar lwybrau canser. Mae gan y bwrdd iechyd system reoli gynhwysfawr ar waith i reoli risgiau gofal wedi'i gynllunio o ddydd i ddydd; model pennu lefel risg ar waith ar gyfer blaenoriaethu adolygiadau o gleifion; llwybr 'gwyrdd' ar waith yn y pedwar safle aciwt; cynlluniau uwchgysfeirio ar gyfer ysbytai aciwt a chymunedol; a rhaglen trawsnewid y gwasanaethau cleifion allanol sydd â ffocws parhaus ar ddulliau amgen i ddarparu gofal cleifion allanol wyneb yn wyneb, er mwyn galluogi cynnydd yn swm y gofal a ddarperir.

Risg 1350 – Mae yna risg na fydd y bwrdd iechyd yn gallu cyflawni'r targed 75% ar gyfer amseroedd aros ym Mesurau'r Gweinidog ar gyfer 2022-26 yn achos y Llwybr Canser Sengl (sgôr y risg 12: uchel)

Mae effaith COVID-19 wedi cynyddu'r risg na fydd y bwrdd iechyd yn gallu cyflawni'r targed. Achosir yr oedi gan broblemau'n ymwneud â chapasiti diagnostig ledled y bwrdd iechyd, yn unol â'r canllawiau ar reoli heintiau sy'n dal i fod ar waith. Y prif faes pryder yw radioleg. Yn ogystal â pharhau i gynnal apwyntiadau rhithwir trwy ddulliau digidol, mae rhai o'r camau ychwanegol yr ydym wedi eu cymryd i leihau'r risg yn cynnwys sefydlu tîm olrhain canser i alluogi i gleifion gael eu holrhain mewn modd rhagweithiol ar hyd eu llwybrau; gweithredu proses ddilynol bedair wythnos o hyd ar gyfer cleifion y mae eu triniaethau wedi newid neu wedi cael eu hoedi (rhai trwy ddewis y claf) o ganlyniad i COVID-19; a sefydlu Grŵp Diagnostig Llwybr Canser Sengl i adolygu'r capasiti a'r galw am wasanaethau diagnostig, gan gynnwys y capasiti sy'n ofynnol ar gyfer gwasanaeth diagnostig proses saith niwrnod.

Niwed o ganlyniad i gamau gweithredu cymdeithasol ehangach/gyfyngiadau symud

Mewn perthynas â lleihau niwed o ganlyniad i gamau gweithredu cymdeithasol ehangach a'r cyfyngiadau symud, mae'r bwrdd iechyd wedi gwneud y canlynol:

- rhoi ymgynghoriadau rhithwir ar waith i alluogi i ofal gael ei ddarparu, pan fo hynny'n bosibl, yn ystod cyfnodau o gyfyngiadau symud, a hynny gan ddefnyddio llwyfan Attend Anywhere;
- cynnal cyswllt dros y ffôn â defnyddwyr gwasanaethau a gofawyr sy'n hysbys i'r gwasanaethau iechyd meddwl ac anableddau dysgu, yn hytrach na chyswllt wyneb yn wyneb. Ailgydiwyd mewn cysylltiadau wyneb yn wyneb cyn gynted ag yr oedd y canllawiau'n caniatáu hynny, ynghyd â gweithdrefnau priodol ar gyfer atal a rheoli haint;
- darparu iPads ar gyfer wardiau'r ysbytai i hwyluso a chynnal cyswllt â theulu a ffrindiau yn absenoldeb ymweliadau;
- cynnal menter negeseuon testun digidol, o'r enw ChatHealth, i ddarparu cymorth a chynghor cyfrinachol ar iechyd yn achos materion megis iechyd emosiynol, yn cynnwys gorbryder, hwyliau isel, bwlio, iechyd corfforol ac iechyd rhywiol, a hynny trwy anfon neges destun ddienw;
- cyflogi nifer sylweddol o staff a gwirfoddolwyr dros dro o'n cymunedau i gefnogi ein hymateb i COVID-19, gan gynnwys y rhaglen Profi Olrhain Diogelu a'r rhaglen frechu;

- cyflogi gweithwyr allgymorth cymunedol, diolch i gyllid gan Elusennau'r GIG Gyda'i Gilydd ac mewn ymateb i adroddiad gan Lywodraeth Cymru, a hynny er mwyn helpu i fynd i'r afael ag anghydraddoldebau ac effeithiau niweidiol pandemig COVID-19 a brofwyd gan gymunedau pobl Ddu, Asiaidd ac Ethnig Leiafrifol.
- [Darllenwch ragor am y modd yr ydym wedi gweithio gyda phartneriaid a'n cymunedau i fynd i'r afael ag anghydraddoldebau iechyd yn Adroddiad Blynyddol ein Cyfarwyddwr Iechyd y Cyhoedd](#)

Risg 1307 – Mae yna risg na fydd y bwrdd iechyd yn cyflawni ei ddyletswydd statudol i adennill costau yn unol â therfyn ei adnoddau cyfalaf ar gyfer 2021-22 (sgôr y risg 10: uchel)

Mae yna ansicrwydd sylweddol o ran cyflawni'r rhaglen gyfalaf yn 2021-22, a hynny o ganlyniad i nifer o ffactorau sydd y tu hwnt i reolaeth y bwrdd iechyd, gan gynnwys:

- materion cadwyni cyflenwi
- prinder cydrannau allweddol yn fyd-eang, gan gynnwys gwydr a dur
- amser paratoi hirach o ran cyflenwi cyfarpar digidol a meddygol
- effaith COVID-19, er enghraifft methu cwblhau rhaglenni gwaith yn amgylchedd byw yr ysbyty, prinder llafur o ganlyniad i hunanynysu, a
- phroblemau cyflenwi lleol mewn perthynas â defnyddiau adeiladu megis concrit.

Yn ogystal â sicrhau bod adroddiadau ariannol amserol yn cael eu cyflwyno i'r Pwyllgor Adnoddau Cynaliadwy, y bwrdd a Llywodraeth Cymru wrth i feysydd pryder allweddol ddod i'r amlwg, rydym wedi blaenoriaethu rhestrau adnewyddu cyfarpar meddygol a digidol sy'n cynnwys amseroedd aros ar gyfer cyflenwi, a chynhelir cyfarfodydd rheolaidd i fonitro proffiliau gwario gyda mesurau uwchgyfeirio yn cael eu rhoi ar waith ar unwaith lle bo hynny'n ofynnol.

Risg 1032 – Mae yna risg y bydd yr amser y mae cleientiaid â salwch meddwl ac anableddau dysgu yn aros am asesiad a diagnosis (yn benodol y Gwasanaethau Iechyd Meddwl Arbenigol i Blant a'r Glasoed (S-CAMHS), Anhwylderau'r Sbectwm Awtistig (ASD), asesu'r cof a gwasanaethau seicolegol ar gyfer ymyriad) yn parhau i gynyddu yn ystod 2021-22 (sgôr y risg 16: eithriadol)

Achosir hyn gan gyfyngiadau amgylcheddol newydd (o ganlyniad i fesurau cadw pellter cymdeithasol) yn achos cynnal asesiadau wyneb yn wyneb gofynnol, ac amharodrwydd cleifion i fynychu clinigau oherwydd y risg o COVID-19, yn ogystal â'r ffaith bod elfennau penodol ar rai asesiadau yn cael eu cyfyngu oherwydd bod asiantaethau eraill, megis y sector addysg, yn darparu gwasanaethau cyfyngedig ar hyn o bryd. Yn ogystal â pharhau i gynnal apwyntiadau rhithwir trwy ddulliau digidol, darparu gwybodaeth am gymorth cymunedol, llesiant yn y cartref a chanllawiau, a sicrhau blaenoriaeth glinigol mewn perthynas ag asesu a thrin defnyddwyr gwasanaethau, rydym wedi darparu cyllid ychwanegol ar gyfer recriwtio; rydym yn atgyfnerthu gwaith rhyngadrannol rhwng y Gyfarwyddiaeth Iechyd Meddwl ac Anableddau Dysgu a'r Gyfarwyddiaeth Menywod a Phlant; ac rydym yn rhoi prosesu ar waith i sicrhau y cysylltir ag unigolion ar restrau aros yn achlysurol yn ystod yr arhosiad am asesiad/driniaeth er mwyn monitro unrhyw newidiadau o ran eu hymgyflwyniad.

Cynllunio a darparu gwasanaethau diogel, effeithiol ac o ansawdd ar gyfer gofal COVID-19

Cynllunio a darparu gwasanaethau diogel, effeithiol ac o ansawdd ar gyfer gofal COVID-19

Yr ymateb rhanbarthol i Profi Orlhain Diogelu

Cafodd gwasanaeth Profi Orlhain Diogelu GIG Cymru ei gyflwyno ym mis Mehefin 2020 ledled Sir Gaerfyrddin, Ceredigion a Sir Benfro i nodi ac olrhain cysylltiadau SARS-coronafeirws-2, sy'n achosi COVID-19, a hynny er mwyn amddiffyn ein cymunedau a darparu cyngor a chymorth.

Mae tri Thîm Rheoli Digwyddiadau sir-benodol, ynghyd â Thîm Rheoli Digwyddiadau Rhanbarthol, a sefydlwyd ddechrau'r pandemig, yn dal i weithredu. Roedd y rhain wedi galluogi ymgysylltu a gwaith partneriaeth parhaus rhagorol er mwyn ymateb i gynnydd mewn trosglwyddiadau trwy ddull cydweithredol a chydlynol.

Trwy gydol 2021-22, parhaodd ein Canolfan Reoli i ddarparu hyb cydgysylltu rhanbarthol, gan ddwyn ynghyd dimau o'r bwrdd iechyd, Iechyd Cyhoeddus Cymru, a thri awdurdod lleol yr ardal, i gydweithio i rwystro ymlediad y feirws.

Aeth y bwrdd iechyd, Iechyd Cyhoeddus Cymru a'r awdurdodau lleol ati i greu Cynllun Lleol ar y Cyd i Atal ac Ymateb i COVID-19 yn Ardal Hywel Dda er mwyn nodi ein cyfeiriad a'n dulliau cyflawni. Yn sylfaen i hwn yr oedd cynllun cyfathrebu ar y cyd i gyflawni, cynyddu, neu addasu, ar lefel lleol, strategaethau cyfathrebu Llywodraeth Cymru, sef Cadw Cymru'n Ddiogel a Profi Orlhain Diogelu.

Sefydlwyd Grŵp Cyfathrebu Rhanbarthol gyda chynrychiolaeth o'r awdurdodau lleol, yr heddlu, a darparwyr addysg uwch, i alluogi dull cydweithredol o hysbysu a chyfathrebu â'n cymunedau mewn ffordd gyson ac atyniadol.

Orlhain cysylltiadau

Rydym wedi parhau i weithio'n agos gyda'n partneriaid, yn enwedig Iechyd Cyhoeddus Cymru a'r awdurdodau lleol, i ddarparu timau olrhain cysylltiadau lleol sy'n cael eu cydlynu'n rhanbarthol. Maent yn cynnwys cyfuniad o staff clinigol ac anghlinigol yn cefnogi'r rheiny sy'n profi'n bositif, ynghyd â'u cysylltiadau agos, i ynysu a chadw'n ddiogel.

Mewn partneriaeth â thîm lleol Iechyd Cyhoeddus Cymru, aethom ati i sefydlu'r Uned Ymateb Rhanbarthol yn y Ganolfan Reoli. Mae'r tîm hwn yn dwyn ynghyd ymgynghorwyr ym maes iechyd y cyhoedd, rheolwyr gweithredol a nyrsys sy'n darparu cymorth i'r timau olrhain lleol ac yn delio'n uniongyrchol â lleoliadau gofal iechyd. Mae'r tîm yn gweithio i gefnogi lleoliadau cymhleth (cartrefi gofal ac ysbytai), yn ogystal â chydlynu gwaith partneriaeth ledled y rhanbarth.

Trwy ddulliau olrhain cysylltiadau cydnerth, yr ymateb i brofion, a ffocws amlasiantaethol (trwy Dimau Rheoli Digwyddiadau neu dimau rheoli achosion mewn ysbytai), rydym wedi gallu ymateb yn gyflym ac yn gadarn i sefyllfaoedd yn ôl yr angen.

Ymdrechu i
ddarparu a
datblygu
gwasanaethau
rhagorol

Mae gwaith cynllunio effeithiol, yn lleol ac yn rhanbarthol, hefyd wedi sicrhau bod negeseuon cyson a chlir yn cael eu cyfleu ar draws yr asiantaethau partner a bod adnoddau'n cael eu rhannu, er enghraifft fideos o staff gofal iechyd a dylanwadwyr cymunedol lleol, a hynny tra bo ffocws allweddol yr ymgyrch yn cael ei gynnal. Arweiniodd hyn at ymateb cadarnhaol iawn gan y cyhoedd o ran cydymffurfio â cheisiadau i ynysu a 'chadw'n ddiogel'. Fodd bynnag, rydym hefyd wedi gweld tystiolaeth, ar y cyfryngau cymdeithasol yn arbennig, am ofnau, pryderon neu gamddealltwriaeth pobl. Mae'r holl asiantaethau partner yn gweithio'n galed i ymateb i bryderon, anghywirdebau a chamwybodaeth, gan annog pobl i gael eu gwybodaeth o ffynonellau swyddogol.

Rydym yn parhau i gydweithredu ar olrhain cysylltiadau yn y rhanbarth ac i fynd i'r afael yn gyflym â phryderon sy'n dod i'r amlwg, ac rydym hefyd yn rhannu dysgu a gwybodaeth. Mae'r gwaith partneriaeth cadarn hwn yn sicrhau bod ein dull rhanbarthol o fynd i'r afael â Profi Olrhain Diogelu yn gyfunion, yn gywir ac yn gyson, a'i fod yn unol â pholisi ac ymgyrchoedd Llywodraeth Cymru ac Iechyd Cyhoeddus Cymru.

Ailgynllunio gwasanaethau gofal sylfaenol i ddarparu gofal COVID-19

Practisau Meddygon Teulu

Parhaodd pob practis meddygon teulu yn ardal Hywel Dda i ddarparu gwasanaethau hanfodol trwy gydol 2021-22.

Parhaodd practisau meddygon teulu i gefnogi'r rhaglen frechu, gyda'r rhan fwyaf o'r practisau yn darparu ail ddosau ledled ein cymunedau erbyn diwedd mis Mehefin 2021. Cafodd clinigau atgyfnerthu eu cefnogi ddiwedd 2021, lle y bu i'r practisau chwarae rhan allweddol yn y gwaith o frechu preswylwyr cartrefi gofal a chleifion a oedd yn gaeth i'r tŷ. Ar yr un pryd, roedd practisau'n ennill tir o ran eu hymgyrchoedd fflw, gyda rhai practisau'n cynnal clinigau gyda'r nos ac ar benwythnosau.

Dechreuodd practisau meddygon teulu unigol nodi cynnydd yn eu llwyth gwaith ddechrau 2021-22. Erbyn diwedd yr haf, roedd yna doreth o adroddiadau am bwysau a galw cynyddol ar wasanaethau, a gafodd eu gwaethygu gan heriau yn y system ehangach. Parhaodd y pwysau i'r hydref a'r gaeaf yn sgil y cynnydd yn nifer yr achosion positif o COVID-19 ac o ganlyniad i ynysu oherwydd cysylltiadau mewn aelwydydd. Parhaodd pob practis yn agored trwy gydol 2021-22.

Ddiwedd 2021, cafodd prinder cyflenwadau o boteli gwaed effaith ar y gwaith o fonitro'r broses o reoli clefydau mewn practisau. Cyflwynwyd nifer o gynlluniau ailosod ac adfer (megis adolygiadau blynyddol o anableddau dysgu, adolygiadau o brofion gwaed, a fflebotomi sy'n deillio o ofal eilaidd) i helpu i fynd i'r afael â'r ôl-groniadau a nodwyd.

Ein nod ar gyfer 2021-22 oedd cynnig datganiadau o ddiddordeb mewn dychwelyd practisau a reolir gan y bwrdd iechyd yn ôl i statws contractwr annibynnol; fodd bynnag, cafodd y gwaith hwn ei oedi dro ar ôl dro o ganlyniad i'r pandemig.

Cafodd y Rhaglen Datblygu Cynorthwywyr Meddygon ei ariannu'n wreiddiol trwy gyllid Pacesetter ac, er ei bod yn anodd bwrw ati'n gynnar i ddatblygu'r rhaglen hon oherwydd y pandemig, mae penodi rheolwr datblygu yn 2021 wedi arwain at ddatblygu rhaglen datblygu

ac addysg gytunedig, gyda'r garfan gyntaf o Gynorthwyr Meddygon ar gyfer Meddygon Teulu (GP-PAs) yn cael eu derbyn yn rhan o'r rhaglen wreiddiol ym mis Tachwedd 2021. Yn dilyn gwerthusiad o'r garfan gyntaf, rhagwelir y bydd yna recriwtio ychwanegol yn 2022-23 ac mewn blynyddoedd dilynol wrth i'r rhaglen ddatblygu, ac y bydd yn cael ei hystyried yn esiampl dda ar gyfer hyfforddi a datblygu GP-PAs.

Wrth i'r ffocws cenedlaethol ystyried diwygio contractau ledled pob grŵp proffesiynol, y gobaith yw y bydd hyn yn arwain at well cydraddoldeb a thryloywder o ran trefniadau contractiol ledled pob un o'r pedwar proffesiwn contractwyr.

Cafodd cynllun i ddarparu gofal sylfaenol ar gyfer ffoaduriaid o Wcráin sy'n byw yn y ganolfan groeso a'r gymuned ei roi ar waith ddiwedd y flwyddyn.

Gwasanaethau fferyllol

Yn dilyn yr adeg heriol yn 2020-21 i fferyllfeydd cymunedol, mae'r flwyddyn ddiwethaf wedi gweld dychweliad at lefelau ac amllder dosbarthu mwy arferol. Fodd bynnag, mae cynnal gwasanaethau fferyllol wedi bod yn fwy heriol o ganlyniad i nifer llawer uwch o'r gweithlu yn profi'n bositif ar gyfer COVID-19. O ganlyniad, 2021-22 oedd y flwyddyn pan fu i'r nifer mwyaf o fferyllfeydd gau dros dro ers i gofnodion gael eu cynnal.

Mae'r rhan fwyaf o'r achosion o gau fferyllfeydd wedi effeithio ar ardaloedd yn Sir Benfro, ac maent yn ganlyniad i gyfuniad o swyddi gwag a COVID-19. Mae'n ymddangos fel petai hyn am barhau yn 2022-23.

Mae'r lefelau cenedlaethol o ran darparu gwasanaethau ychwanegol mewn fferyllfeydd cymunedol wedi cynyddu yn ystod 2021-22 ac, yn achos rhai gwasanaethau, er enghraifft, anhwylderau cyffredin, mae'r lefel yn uwch na chyn COVID. Yn ystod 2020-21, sef blwyddyn gyntaf y pandemig, cyrchodd 9,309 o gleifion y gwasanaeth anhwylderau cyffredin. Yn ystod 2021-22, cynyddodd hyn i 12,529 ar gyfer y cyfnod rhwng mis Ebrill 2021 a mis Ionawr 2022, sy'n cynrychioli dim ond 10 mis o weithgarwch hyd yma.

Rydym hefyd wedi gweithio i ailsefydlu'r gwasanaeth brysbennu a thrin lleol, sy'n cynnig gwasanaeth cymorth cyntaf i bobl â mân anafiadau. Er na chafodd y gwasanaeth hwn ei ohirio yn ystod 2020-21, roedd yn dibynnu ar ddisgresiwn timau fferyllol unigol. Yn ystod 2021-22, bu yna ddiddordeb o'r newydd mewn cynnig y gwasanaeth hwn.

Datblygwyd gwasanaeth ychwanegol lleol newydd yn ystod ail hanner y flwyddyn er mwyn gallu cynnal profion am haint y llwybr wrinol mewn menywod rhwng 16 a 64 oed, ynghyd â rhoi triniaeth pe byddai haint yn cael ei nodi. Mae hyn wedi cael ei gyflwyno mewn 63 o fferyllfeydd o blith y 98 o fferyllfeydd yn ardal Hywel Dda.

Cafodd gwasanaeth presgripsiynu annibynnol mewn fferyllfeydd ei gomisiynu gyntaf ym mis Mehefin 2020, mewn pedair fferyllfa, ac roedd yn defnyddio sgiliau gweithwyr proffesiynol hyfforddedig i gynnig ymgynghoriadau ar gyfer cyflyrau aciwt a gwasanaethau atal cenhedlu. Yn ystod blwyddyn gyntaf gweithredu'r gwasanaeth hwn, cynhaliwyd ychydig dros 1,200 o ymgynghoriadau. Amharodd pandemig COVID-19 ar hyfforddiant fferyllwyr a'u gallu i gwblhau'r cwrs ar bresgripsiynu annibynnol, ac o'r herwydd cafodd y broses o ehangu'r gwasanaeth hwn ei hoedi. Yn ystod 2021-22, mae'r pedwar safle presennol wedi cael eu sefydlu, ac mae pedwar safle arall wedi cael eu hychwanegu. Cafodd cyfanswm o 2,822 o

ymgyngoriadau eu darparu yn 2021-22, ac mae'r rhain wedi cynnig pwynt mynediad cyntaf ar gyfer cleifion yn y lleoliadau lle mae'r gwasanaeth yn cael ei gomisiynu.

Gwasanaethau deintyddol cyffredinol

Mae'r bwrdd iechyd wedi parhau i weithio gyda phractisau deintyddol i'w cynorthwyo gyda'u cynlluniau i ddiwygio contractau ac ailsefydlu gwasanaethau yn dilyn y pandemig. Parhaodd practisau deintyddol i brofi anawsterau mewn perthynas â phrinder staff a darparu gwasanaethau o ganlyniad i'r gofynion parhaus ar gyfer rheoli haint COVID-19; arweiniodd hyn at lai o fynediad at ofal deintyddol arferol. Yn unol â chanllawiau Llywodraeth Cymru, rhoddwyd blaenoriaeth i ofal brys, ac aeth y bwrdd iechyd ati i gomisiynu sesiynau gofal brys ychwanegol. Cafwyd cyllid ychwanegol gan Lywodraeth Cymru i leihau'r amser aros ar gyfer gofal orthodontig, ac ymgwymerwyd â menter rhestrau aros a arweiniodd at nifer sylweddol o gleifion yn cael triniaeth. Bu'r Tîm Gwasanaethau Deintyddol yn gweithio'n agos gyda phractisau i sicrhau eu bod yn cael eu cefnogi i amlygu a chyflawni gwelliant parhaus o ran mynediad.

Y gwasanaeth deintyddol cymunedol

Mae'r gwasanaeth deintyddol cymunedol yn wasanaeth atgyfeirio yn unig ar gyfer oedolion a phlant agored i niwed, ac, yn rhan o'r gwasanaeth, mae'n darparu gofal deintyddol dan effaith tawelydd ymwybodol, sydd ar gael ym mhob safle cymunedol.

Yn ystod pandemig COVID-19, rhoddwyd newidiadau ar waith i sicrhau bod gwasanaethau deintyddol yn gallu cydymffurfio â'r gweithdrefnau cenedlaethol ar gyfer rheoli haint a gyflwynwyd i sicrhau diogelwch cleifion a staff. Trwy'r gwasanaeth deintyddol cymunedol, aethom ati i sefydlu canolfan gofal deintyddol brys ym mhob sir i ddarparu triniaethau deintyddol brys ar gyfer cleifion, yn ogystal â gweithdrefnau sy'n cynhyrchu aerosol. Oddi ar fis Mawrth 2020, mae'r gwasanaeth wedi darparu gwasanaethau deintyddol brys yn ychwanegol at ddarparu gofal i'w gleifion agored i niwed rheolaidd. Am gyfnod dros dro, ataliwyd y gwasanaeth deintyddol cymunedol yn Ysbyty Llwynhelyg er mwyn lleihau nifer y cleifion a oedd yn ymweld â'r safle aciwt; trosglwyddwyd y gwasanaeth hwn i Ganolfan Iechyd Winch Lane er mwyn sicrhau mynediad parhaus i gleifion, ac mae bellach wedi cael ei ailsefydlu.

Un o'r heriau mwyaf wrth ailsefydlu gwasanaethau yn ystod y cyfnod hwn oedd yr angen i sicrhau bod yr aer yn cael ei newid yn ddigon aml bob awr ym mhob deintyddfa i gynnal gweithdrefnau sy'n cynhyrchu aerosol. Roedd peidio â mesur y prosesau newid aer yn golygu y gallai adegau segur rhwng cleifion fod yn fwy na 90 munud. Er mwyn gwella'r sefyllfa, darparodd Llywodraeth Cymru gyllid grant i gefnogi practisau deintyddol i osod systemau newid aer, a chafwyd arian cyfatebol gan y bwrdd iechyd. At hynny, roeddem wedi buddsoddi £140,000 mewn systemau newid aer ar gyfer saith o safleoedd clinigau'r gwasanaeth deintyddol cymunedol. Yn rhan o'r gwaith ailsefydlu, aeth y gwasanaeth ati i ailgyflwyno'r gwasanaeth asesu anesthetig cyffredinol pediatriig i sicrhau bod anghenion deintyddol plant yn cael eu hadolygu fel y gellid gofalu bod triniaeth dan anesthetig cyffredinol yn cael ei darparu wedi i bob opsiwn arall o ran tawelu gael ei adolygu.

Parhaodd y gwasanaeth deintyddol cymunedol i gefnogi preswylwyr mewn cartrefi gofal gyda'r gwasanaeth deintyddol cartref.

Optometreg

Yn ystod 2021-22, parhaodd y gwasanaethau optometrig yng Nghymru i weithredu yn y cyfnod oren, yn unol â'r canllawiau cenedlaethol, a olygai bod yn rhaid cynnig pob gwasanaeth i'r rheiny â'r angen clinigol mwyaf. Er gwaetha'r pwysau parhaus o ganlyniad i'r pandemig, parhaodd pob practis optometrig yn ardal Hywel Dda i ddarparu pob gwasanaeth, yn cynnwys gofal llygaid brys ac arferol, i gleifion ym maes gofal sylfaenol. Cafodd nifer o lwybrau gofal llygaid chwanegol eu datblygu a'u gweithredu hefyd. Cynlluniwyd y llwybrau hyn i ganiatáu i gleifion gael eu gweld yn eu practis optometrig lleol ar gyfer trin a monitro ystod o gyflyrau gofal llygaid, yn hytrach na mynd at eu meddyg teulu neu'r ysbyty lleol. Enghraifft o hyn yw'r Gwasanaeth Optometrig Presgripsiynu Annibynnol, sy'n caniatáu i optometryddion â'r cymhwyster presgripsiynu annibynnol reoli a thrin ystod o gyflyrau yn eu practis, rhai a fyddai, yn flaenorol, wedi gofyn am atgyfeiriad i'r gwasanaeth agosaf ar gyfer anafiadau i'r llygaid. Roedd y gwasanaeth hwn yn llwyddiannus ddechrau 2021-22, ac felly cafodd ei ehangu at ddiwedd y flwyddyn i alluogi i ragor o gleifion elwa ohono.

Ailgynllunio gwasanaethau cymunedol i ddarparu gofal COVID-19

Yn ystod y flwyddyn ddiwethaf, mae ein gwasanaethau cymunedol yn Sir Gaerfyrddin, Ceredigion a Sir Benfro wedi cefnogi'r gwaith o ddarparu ymateb system gyfan. Mae hyn yn golygu ein bod wedi rhoi pobl wrth wraidd popeth a wnawn. Y nod oedd eu hamgylchynu â gofal sylfaenol cadarn, yn ogystal â gofal cadarn yn y gymuned a'r ysbyty, a hynny trwy sicrhau gwell integreiddio rhwng gwasanaethu, yn cynnwys gofal cymdeithasol a'r trydydd sector. Mae hyn yn darparu gofal di-dor ar gyfer yr unigolyn, a hynny'n agos at y cartref (neu ynddo), lle bo hynny'n bosibl.

Mae'r ffordd hon o weithio yn cyd-fynd â chyfeiriad a pholisi cenedlaethol, rhanbarthol a lleol, gan gynnwys [cynllun Llywodraeth Cymru ar gyfer iechyd a gofal cymdeithasol – Cymru Iachach](#), a [gweledigaeth hirdymor y bwrdd iechyd ar gyfer iechyd a gofal – Canolbarth a Gorllewin Cymru Iachach](#).

Mewn ymateb i'r pandemig, roedd Fframwaith Gweithredu GIG Cymru gan Lywodraeth Cymru, yn amlinellu'r angen i gynnal gwasanaethau hanfodol yn y gymuned yn ogystal ag mewn ysbytai. Bu'n rhaid i ni fod yn hyblyg ac yn barod i addasu er mwyn ymateb i gyfraddau trosglwyddo COVID-19 yn ein cymunedau.

Caiff nifer o'n prosiectau integreiddio eu hariannu trwy Gronfa Gofal Integredig a Chronfa Trawsnewid Llywodraeth Cymru, sy'n cael eu darparu trwy Bartneriaeth Gofal Gorllewin Cymru. (Gweler yr adran ar Gyflawni mewn Partneriaeth o dudalen 77 ymlaen.)

Mae ein ffocws ar gryfhau gwasanaethau gofal cymunedol a sylfaenol fel y gall pobl gael gofal yn nes at y cartref yn hytrach nag yn yr ysbyty, lle bo hynny'n briodol, ond rydym hefyd yn sicrhau eu bod yn gallu cyrchu'r gwasanaethau y mae arnynt eu hangen, er enghraifft diagnosteg ac asesiadau ar yr un diwrnod.

Rydym wedi cryfhau ein dull 'gofal yn nes at y cartref' gyda chyd-weithwyr ym maes gofal cymdeithasol er mwyn lleihau cyfraddau trosglwyddo a derbyn a rhoi llwybrau 'rhyddhau i adfer' ac 'asesu' ar waith.

Llwyddodd y bwrdd iechyd i sicrhau cyllid gan Cymorth Cancer Macmillan ar gyfer y rhaglen waith 'Right by You' mewn perthynas â'r canlynol:

- ar y cyd ag amrywiaeth o randdeiliaid (yn cynnwys pobl yn ein cymunedau lleol sydd â chanser, a'n sefydliadau partner), cydgynhyrchu ffordd well o weithio sy'n canolbwyntio ar lesiant yr unigolyn a'r gymuned trwy ddull seiliedig ar asedau;
- gweithio tuag at yr uchelgais o well mynediad lleol at wybodaeth, cyngor a chymorth trwy ddatblygu model seiliedig ar arfer gorau lleol a chenedlaethol sy'n diwallu anghenion penodol ein cymunedau lleol;
- cefnogi pobl â chanser yn well, yn ogystal â'r economi iechyd a gofal cymdeithasol ehangach;
- o'r dechrau, mabwysiadu dull sy'n hwyluso gwelliannau i'r modelau gwaith presennol, yn cysylltu â'r agenda trawsnewid strategol, ac yn sefydlu modelau arfer da yn y gwasanaethau sy'n bodoli.

Mae'r prosiect yn un cyfnod penodol, ac, er ei fod wedi'i leoli yng Ngheredigion, mae ganddo ddalgylch o 20 milltir, sy'n golygu ei fod yn cwmpasu rhannau o bob un o'r tair sir.

Rydym hefyd wedi llwyddo i sicrhau cyllid Cymorth Cancer Macmillan ar gyfer peilot realiti rhithwir i gleifion gofal lliniarol a'r rhai sy'n agosáu at ddiwedd eu hoes. Nod y peilot yw gwella ansawdd bywyd a llesiant pobl sy'n byw â salwch sy'n bygwth bywyd ac yn wynebu heriau corfforol, seicolegol, cymdeithasol ac ysbrydol, ynghyd â'u teuluoedd. Oherwydd y pandemig, mae cleifion yn nodi lefelau uwch o ynysigrwydd a bregusrwydd. Er bod y defnydd o gyfarpar realiti rhithwir yn y lleoliad clinigol wedi bod yn eithriadol o werthfawr, mae llai o waith ymchwil wedi cael ei wneud yn y gymuned ac mewn cartrefi. Rydym am weithio gyda chleifion, eu teuluoedd a'u gofawyr i archwilio'r gwerth yn y lleoliadau hyn, yn enwedig yn achos y rheiny sy'n byw mewn ardaloedd gwledig, anghysbell. Mae'n bosibl y gallai hyn leihau'r risg o orfod derbyn cleifion i safleoedd aciwt o ganlyniad i ynysigrwydd ac unigrwydd; lleihau'r angen am analgesia a chyffuriau lleihau gorbryder oherwydd gwell ymdeimlad o lesiant; a gwella llesiant ac ansawdd bywyd y cleifion a'u gofawyr.

Cymerodd staff fferyllfeydd cymunedol ledled Sir Gaerfyrddin, Ceredigion a Sir Benfro ran mewn hyfforddiant ar gymorth cyntaf iechyd meddwl i gefnogi iechyd meddwl eu cleifion a'u hiechyd meddwl eu hunain, yn ogystal ag iechyd meddwl eu cyd-weithwyr. Cafodd fferyllwyr, technegwyr fferyllol a dosbarthwyr o 35 o fferyllfeydd yr hyfforddiant ar-lein i'w harfogi â'r offer i gefnogi eu hanghenion iechyd meddwl eu hunain ac anghenion iechyd meddwl eu cyd-weithwyr, ac i'w hannog i gyrchu cymorth amserol pan fo angen. At hynny, mae'r hyfforddiant yn rhoi'r wybodaeth i'r cyfranogwyr nodi cyflyrau iechyd meddwl a amheuir mewn cleifion, ynghyd â'r sgiliau i gychwyn sgwrs ynghylch iechyd meddwl.

Nyrsio ardal

Rydym wedi diweddarau drafft o fanyleb ein gwasanaethau nyrsio ardal ar gyfer y tair sir. Mae'n tynnu sylw at yr angen am arferion gweithio cyson, teg a safonol ledled y tair sir, arferion sy'n cyd-fynd â'r rhaglen waith strategol genedlaethol ynghylch y Model Nyrsio Ardal yn y Gymdogaeth.

Mae cyllid gan Lywodraeth Cymru yn ein galluogi i ddatblygu'r Model Nyrsio Ardal yn y Gymdogaeth ymhellach er mwyn sefydlu nifer o rolau newydd, gan gynnwys:

- uwch-eiriolwr nyrsio cymheiriaid i weithio'n agos gydag uwch-nyrsys ac arweinwyr timau nyrsys ardal i wella gwaith integredig ar draws lleoliadau;
- nyrs ymarfer a datblygiad proffesiynol sy'n canolbwyntio ar gefnogi a datblygu gweithlu'r gweithwyr cymorth gofal iechyd cymunedol; a
- chyllid rheolaidd i gynyddu rolau gweithiwr cymorth gofal iechyd ac ymarferwyr cynorthwyol ledled timau nyrsio cymunedol y tair sir.

Rydym wedi rhoi prosesau adborth ar brofiad y claf ar waith ledled y tair sir, trwy CIVICA, fel y gallwn barhau i ddysgu o'r adborth a llywio'r broses o ddarparu gwasanaethau.

Mae system e-amserlenni, Malinko, bellach wedi cael ei rhoi ar waith yn llawn ledled Sir Gaerfyrddin, Ceredigion a Sir Benfro, gyda gwaith cenedlaethol yn parhau i gytuno ar adroddiadau safonol a metrigau y gellir eu cyflawni gan y system. Mae Melinko yn amlygu cyfleoedd ar gyfer gwella effeithlonrwydd gwasanaethau a gwneud y defnydd gorau o adnoddau, gan leihau dyblygu gofal lle bo hynny'n bosibl, a gwella profiad y claf.

Mae ein gwasanaeth nyrsys ardal yn parhau i gydymffurfio ag egwyddorion nyrsio ardal interim y Prif Swyddog Nyrsio, yn ogystal â chymryd rhan yn y gwaith cenedlaethol o amgylch offeryn craffter gofal a dibyniaeth Cymru, dangosyddion ansawdd ym maes nyrsio ardal, a barn broffesiynol.

Byddwn yn cyhoeddi ein hadroddiad blynyddol ar nyrsio ardal ym mis Awst 2022, gan dynnu sylw at yr holl gyflawniadau allweddol a mentrau newydd, yn cynnwys clinigau micro-sugno clustiau, clinigau treial heb gathetr, a datblygiadau o ran llwybrau cydweithredol wlsrau coes a lymffoedema, y mae pob un ohonynt yn dechrau cael eu rhoi ar waith.

Ymwelwyr iechyd

Mae ein gwasanaeth ymwelwyr iechyd yn gweithio gyda phlant 0-5 oed a'u teuluoedd, gan roi ffocws ar ymyriad cynnar ac atal, ochr yn ochr â pharodrwydd ar gyfer yr ysgol. Prif swyddogaeth y gwasanaeth ymwelwyr iechyd yw asesu a chefnogi'r plentyn a'r teulu yn ystod y blynyddoedd cynnar (0-5 oed). Prif flaenoriaeth y gwasanaeth yw cyflawni Rhaglen Plant Iach Cymru yn achos pob plentyn sy'n byw yn Sir Gaerfyrddin, Ceredigion a Sir Benfro. Mae Rhaglen Plant Iach Cymru yn ddull safonol o ddarparu gwasanaethau ledled Cymru, a chafodd ei rhoi ar waith yn 2016. Mae'n rhaglen gyffredinol ar gyfer holl blant Cymru, ac mae'n cynnwys asesiad o gydnerthedd y teulu ac asesiad o anghenion y plentyn a'r teulu. Mae'r asesiad yn pennu lefelau'r ymyriad ar gyfer y teulu a'r plentyn, boed hynny'n ymyriad cyffredinol, mwy manwl, neu ddwys. Mae pob ymyriad gan yr ymwelwyr iechyd yn seiliedig ar negeseuon cyhoeddus allweddol i dargedu anghydraddoldebau iechyd, ac yn anelu at wella canlyniadau iechyd ar gyfer plant.

Mae nyrsio iechyd cyhoeddus plant wedi bod yn golynnol trwy gydol y pandemig o ran gwneud gwahaniaeth i blant, teuluoedd a'r cymunedau, er gwaethaf heriau niferus. Mae hyn yn cynnwys parhau i ddarparu cymorth i blant a theuluoedd trwy'r gwasanaeth ymwelwyr iechyd gan ddefnyddio dull cyfunol, yn aml pan fo gan wasanaethau eraill ddarpariaeth sydd wedi'i lleihau'n llwyr. Mae'r gwasanaeth yn ymrwymedig i ddiogelu iechyd a llesiant pob plentyn 0-5 oed, ac yn anelu at gyflawni blaenoriaethau allweddol sydd hefyd yn cynnwys cefnogi teuluoedd i wneud dewisiadau sy'n gwella iechyd yn yr hirdymor; sicrhau ymlyniad emosiynol cadarn ar gyfer plant trwy gefnogi perthnasoedd cadarnhaol rhwng y rhieni a'r plant;

hyrwyddo iechyd a chydnerthedd emosiynol cadarnhaol ymhlith mamau a theuluoedd; cynorthwyo plant i gyflawni cerrig milltir twf a datblygiad, gan eu galluogi i fod yn barod ar gyfer yr ysgol; cefnogi'r cyfnod pontio rhwng y cartref ac amgylchedd yr ysgol; a lliniaru effeithiau tlodi ar blentyndod cynnar a phrofiadau niweidiol yn ystod plentyndod.

Y brif her yn ystod y pandemig oedd ceisio cynnal lefel o wasanaeth a sicrhau bod plant yn cael eu diogelu. Yn y camau cynnar, roedd yn rhaid i'r gwasanaeth ymwelwyr iechyd roi'r gorau i ymweld â chartrefi, ac roedd yn rhaid chwilio am ffyrdd arloesol o gyrraedd teuluoedd; roedd hyn yn cynnwys sefydlu hybiau canolog yn y cymunedau, ochr yn ochr â llinellau ffôn canolog er mwyn i deuluoedd gael mynediad rhwydd atynt, yn ogystal â chysylltiadau rhithwir â theuluoedd, gan gynnwys, yn y pen draw, y defnydd o 'Attend Anywhere'. Oherwydd diffyg staff a'r pandemig, roedd llesiant emosiynol y staff o'r pwys mwyaf, a, thrwy gydol y cyfnod, sefydlwyd cyfarfodydd cyfathrebu a chymorth rhithwir wythnosol, ac roedd cyhoeddi'r newyddlen ddeufisol sy'n dathlu cyflawniadau ac yn rhannu arfer da yn hanfodol o ran cynnal morâl a pharhau i ddarparu'r gwasanaeth i'r teuluoedd.

Mae rhai enghreifftiau o ddatblygiadau lleol ledled ein tair sir yn cynnwys:

Sir Gaerfyrddin

Rydym wedi cynyddu ein darpariaeth gofal sylfaenol brys yn y flwyddyn ddiwethaf i ddarparu ymateb brys amlddisgyblaethol i gleifion yn y gymuned cyn pen dwy i wyth awr. Mae darpariaeth gofal a chymorth ychwanegol ar gael ar gyfer pobl sy'n agored i niwed ac yn eiddil gartref. Gofalir am y cleifion hyn ar ein 'ward rithwir' yn eu cartrefi eu hunain hyd nes y byddant wedi gwella ac yn gallu byw'n annibynnol. Lle bo angen goruchwyliaeth ofalu 24/7, rydym wedi comisiynu gwelyau cymunedol ychwanegol mewn cartref gofal yn Llanelli i ddarparu gofal 'camu i fyny' a 'chamu i lawr' (o ysbytai aciwt). Rydym wedi cynyddu nifer y gwelyau yn Ysbyty Dyffryn Aman, ac mae gwelyau asesu ar gael mewn cartrefi nyrsio a phreswyl pan fydd ar unigolion eu hangen, a hynny am gyfnod o hyd at chwe wythnos.

Mae Gofal a Alluogir gan Dechnoleg yn darparu atebion digidol i fonitro anghenion iechyd a gofal ein cleifion o bell. Mae Teleofal eisoes wedi'i sefydlu yn y ddarpariaeth gofal a chymorth, ac mae prosesau monitro Teleiechyd yn achos cyflyrau cronig megis clefydau anadlol a chlefyd y galon yn gyfle yr ydym yn ei sefydlu yn ein darpariaeth gofal iechyd.

Rydym hefyd yn archwilio'r defnydd o dechnoleg ARMED ar gyfer oedolion eiddil, yn arbennig er mwyn darparu rhybudd cynnar o risg uwch o gwmpo yn achos ein henoed eiddil. Mae hyn yn ein galluogi i rag-weld anghenion cleifion yn well ac osgoi derbyniadau i'r ysbyty ac anafiadau, a hefyd i wneud y defnydd gorau o gapasiti ein nyrsys ardal o wybod y gall ein cleifion gael eu monitro'n ddigidol.

Mae presgripsiynwyr cymdeithasol ym mhob un o'n clystyrau ardal wedi arddangos gwell canlyniadau iechyd ar gyfer y boblogaeth y maent wedi'i chefnogi. Erbyn hyn, mae gennym chwe swydd presgripsiynydd cymdeithasol yn y sir (dwy ar gyfer pob clwstwr) sy'n cyfeirio unigolion at wasanaethau sy'n diwallu'r anghenion iechyd y maent yn eu synhwyro ac yn eu mynegi. Trwy weithio gyda phartneriaid y Bwrdd Gwasanaethau Cyhoeddus, Cymdeithas Gwasanaethau Gwirfoddol Sir Gaerfyrddin, a chynghorau gwledig a thref, ein nod yw creu rhwydwaith o ddarparwyr i ddatblygu cymunedau cydnerth a chryfach.

Yn rhan o'r broses o ystyried a moderneiddio seilwaith ein cymunedau, cafodd ein hachos busnes amlinellol ar gyfer canolfan iechyd a llesiant yn Cross Hands ei adolygu gan randdeiliaid i sicrhau ei fod yn parhau i fod yn addas i'r diben yn dilyn pandemig COVID-19. Rydym yn rhag-weld y byddwn yn cyflwyno hwn i Lywodraeth Cymru i'w gymeradwyo ym mis Mehefin 2022.

Yn gynharach eleni, bu cyflwyniad gan Gyngor Sir Caerfyrddin i Gronfa Ffyniant Bro Llywodraeth y DU yn llwyddiannus. Bydd hyn yn galluogi i 'Hwb Llesiant' gael ei ddatblygu ac i lety gael ei ddarparu ar gyfer gwasanaethau iechyd yng nghanol y dref, gyda'r bwrdd iechyd yn bartner allweddol.

Mae datblygiad Pentre Awel yn mynd rhagddo'n gyflym, a disgwylir i'r gwaith adeiladu gael ei gwblhau yn 2024. Bydd hyn yn darparu canolfan hamdden 'o'r radd flaenaf' ar gyfer Llanelli, a gynlluniwyd ar y cyd â'n tîm ffisiotherapi i sicrhau llwybr gofal di-dor rhwng darpariaeth therapi ac ymarfer corff (yn cynnwys ystafelloedd hydrotherapi). Trwy weithio mewn partneriaeth â'r awdurdod lleol a phrifysgolion, bydd datblygiad Pentre Awel hefyd yn gartref i'n cyfleusterau ymchwil ac yn darparu gofod y mae ei wir angen ar gyfer hyfforddiant ac addysg i gefnogi cynaliadwyedd gweithlu'r dyfodol.

Ceredigion

Trwy gyllid COVID-19 Llywodraeth Cymru, rydym wedi ehangu Ysbyty Cymunedol Tregaron dros dro i fod yn gyfleuster ag 20 o welyau. Mae hyn yn helpu llif cleifion o ysbytai aciwt yn achos y rheiny sydd ag anghenion rhyddhau cymhleth.

Roedd ein cynllun lleoli interim yng Ngheredigion (a ariannwyd yn rhannol gan y Gronfa Gofal Integredig) wedi helpu cleifion yr oedd angen iddynt gael eu monitro 24 awr gan nyrsys trwy eu gosod mewn cartref gofal annibynnol am gyfod o hyd at chwe wythnos. Mae'r cynllun wedi galluogi asesiadau amserol (yn unol â'r model rhyddhau i asesu), yn ogystal ag atal derbyniadau i'r ysbyty. Rydym wedi gweld cynnydd sylweddol yn y defnydd o'r cynllun yn ystod 2021-22 (cynnydd o 30% o gymharu â'r lefel cyn y pandemig), cynnydd sydd wedi gwella llif cleifion trwy'r system ehangach a darparu gofal priodol yn agos i'r cartref.

Ddiwedd 2021, aethom ati, gam wrth gam, i gyflwyno gwasanaeth Gofal Brys ar yr Un Diwrnod yng Nghanolfan Gofal Integredig Aberteifi. Cynlluniwyd y gwasanaeth i atal galw diangen am ein safleoedd aciwt, a hynny trwy ddarparu gwasanaeth diagnostig a thriniaethau priodol yn y gymuned.

Mae'r clinigau offthalmoleg amser-gritigol wedi ehangu, a chawsant eu darparu'n barhaus o ganolfannau gofal integredig Aberaeron ac Aberteifi trwy gydol y pandemig.

Sir Benfro

Mae'r Tîm Cwmpyadau wedi gweld cynnydd sylweddol yn y galw, a chafwyd y 500fed atgyfeiriad ym mis Medi. Mae'r tîm yn darparu sesiynau addysg misol i staff cartrefi gofal ac yn darparu llwybr pwysig i Ymddiriedolaeth GIG Gwasanaethau Ambiwlans Cymru (WAST) ei ddefnyddio yn achos y bobl hynny sy'n cwmpo heb eu hanafu eu hunain yn ddifrifol.

Mae gweithio gyda'r clystyrau gofal sylfaenol wedi bod yn bwysig, a chyflwynwyd nifer o gynlluniau newydd buddiol, er enghraifft gofal ac addysg anadlol mewn ysgolion ar gyfer

pobl ifanc, cynyddu ffisiotherapyddion cyswllt cyntaf mewn practisau meddygon teulu, Dawnsio i lechyd, a chynyddu'r Cysylltwyr Cymunedol.

Rydym wedi gweithio gyda Chyngor Sir Penfro a Chymdeithas Gwasanaethau Gwirfoddol Sir Benfro i feithrin cysylltedd cymunedol yn ein cymunedau trwy'r hyb cymunedau newydd. Mae hyn yn cydnabod yr effaith ynysu y mae COVID-19 yn ei chael yn ein cymunedau, ac yn darparu dull cydgysylltiedig o gysylltu pobl mewn cymunedau, gan gydweithio i ddiwallu anghenion a lleihau effeithiau niweidiol ynysigrwydd. Mae cysylltwyr arbenigol hefyd wedi cael eu cyflwyno ar gyfer pobl ifanc, y rhai sy'n byw â dementia, ac i alluogi gwell cysylltiadau digidol a gwell defnydd o dechnoleg.

Mae'r timau cymunedol, y trydydd sector, gofal cymdeithasol a gofal sylfaenol wedi parhau i gydweithio i nodi'r bobl hynny y mae arnynt angen dull mwy cydgysylltiedig o ran eu gofal, gan gynllunio a chefnogi ei gilydd i ddiwallu anghenion ar y cyd. Rhoddwyd cydgysylltwyr gofal ar waith i gefnogi'r broses hon ac, yn Ne Sir Benfro, mae'r clwstwr wedi cychwyn cynllun sy'n canolbwyntio ar nodi'r rheiny y gallai fod yna risg y bydd eu hiechyd yn gwaethygu ac y bydd angen iddynt gael eu derbyn i'r ysbyty.

Mae ein Tîm Gofal Canolraddol yn ceisio ymateb yn gyflym i bobl sy'n profi cynnydd sylweddol yn eu hanghenion, naill ai i'w galluogi i aros gartref yn hytrach na mynd i'r ysbyty, neu i'w cefnogi i fynd adref yn ddiogel ar ôl cael eu derbyn i'r ysbyty. Rydym wedi dwyn ynghyd feddygon, nyrsys, therapyddion, gweithwyr cymdeithasol a gweithwyr cymorth, yn gyntaf i asesu anghenion a allai fod yn gymhleth, ac yna i roi ymateb byrdymor ar waith hyd nes y bydd yr unigolyn yn adennill annibyniaeth neu nes bod gofal hirdymor ar gael. Ddiwedd y flwyddyn, roedd y tîm hwn yn cefnogi, ar gyfartaledd, 60 o bobl y dydd mewn 'ward' gymunedol, a gobeithiwn y gall hyn barhau i dyfu.

Gwasanaethau therapi

Cafodd pandemig COVID-19 effaith sylweddol ar y gwasanaethau therapi mewn sawl ffordd: o ran y ffordd yr esblygodd y gwasanaethau i gefnogi cleifion ledled ein lleoliadau gofal ac yn eu cartrefi eu hunain; a hefyd o ran ymateb i anghenion gofal dwys a chymhlethdod cynyddol y cleifion a oedd yn ymgysylltu ar gyfer gofal yn dilyn cyfnodau o gyfyngiadau symud a tharfiadau ar y gwasanaeth.

Yng nghanau aciwt y pandemig ac yn ystod tonnau dilynol, roedd angen i'r gwasanaethau therapi ymateb nid yn unig i anghenion clinigol brys cleifion COVID-19, ond hefyd i geisiadau am i therapyddion gael eu hadleoli i wasanaethau brys. I sicrhau bod defnyddwyr ein gwasanaethau yn parhau i allu cyrchu cymorth a gwasanaethau adsefydlu effeithiol, parhaodd y gwasanaethau therapi i ddefnyddio atebion rhithwir a digidol megis Attend Anywhere i ddarparu sesiynau cymorth unigol a grŵp, ac maent wedi bod yn cipio data ar ganlyniadau a phrofiad cleifion gan ddefnyddio llwyfannau ar-lein.

Bu yna hefyd ofyniad cynyddol i'r gwasanaethau therapi ymateb i garfan newydd, gynyddol o unigolion â syndrom ôl-COVID-19 (a elwir yn COVID Hir), ac, ym mis Medi 2021, sefydlwyd Gwasanaeth Syndrom COVID Hir cymunedol pwrpasol i ddarparu cymorth amlddisgyblaethol arbenigol ar gyfer unigolion sy'n dioddef o COVID Hir. Nod y gwasanaeth yw galluogi cleifion i gymryd rheolaeth ar eu hiechyd a'u llesiant parhaus a chyfrifoldeb amdano, ac mae'n rhoi'r sgiliau a'r wybodaeth iddynt i reoli eu hanghenion adsefydlu

parhaus. Gyda chymorth gweithwyr proffesiynol adsefydlu amlbroffesiynol, yn ynnwys ymarferwyr cynorthwyol therapïau, therapyddion galwedigaethol, ffisiotherapyddion, deietegwyr, seicolegwyr ac uwch-ymarferwyr nyrsio, mae'r gwasanaeth yn darparu asesiad unigol cynhwysfawr sy'n canolbwyntio ar yr unigolyn, a hynny gan ddefnyddio offer asesu COVID Hir a argymhellir gan y Sefydliad Cenedlaethol dros lechyd a Rhagoriaeth Glinigol (NICE).

Cynllunio a gweithredu profion ac imiwneiddio ar gyfer COVID-19

Profi ar gyfer COVID-19

Dechreuasom gynnal profion cymunedol ar gyfer COVID-19 ym mis Mawrth 2020. Oddi ar hynny, mae'r galw am brofion, y strategaeth genedlaethol, a'r seilwaith profi wedi newid yn aml ac yn ddramatig. Aethom ati i ddatblygu seilwaith profi cadarn, sydd wedi bod yn ymatebol i ddisgwyliadau newidiol Llywodraeth Cymru wrth i'r strategaeth brofi genedlaethol ddatblygu. Rydym yn parhau i ddarparu prawf COVID-19 i unrhyw un y mae arno ei angen.

Yn ystod y flwyddyn ddiwethaf mae'r ddarpariaeth profi wedi cynnwys:

- y rheiny yn y gymuned â symptomau COVID-19
- y rhai y nodir iddynt fod mewn cyswllt ag unigolion COVID-19 positif
- cleifion cyn iddynt gael llawdriniaeth a chemotherapi
- pob claf wrth iddo gael ei dderbyn i'r ysbyty
- pob claf mewnol fel mater o drefn bob pum niwrnod
- cleifion mewnol pan fyddant yn amlygu symptomau
- cleifion cyn iddynt gael eu rhyddhau neu eu derbyn i gartref gofal, neu eu rhyddhau adref gyda chymorth gofal gartref
- preswylwyr mewn cartrefi gofal
- holl breswylwyr/cleifion a staff cartrefi gofal a wardiau mewn ymateb i achosion
- ein poblogaeth, fel y bo'n briodol, mewn ymateb i achosion neu pan nodir amrywiolyn newydd sy'n peri pryder
- profion asymptomatig fel mater o drefn ar gyfer staff iechyd a gofal cymdeithasol, staff addysgu a myfyrwyr, a hynny â dyfeisiau llif unffordd (LFD)
- mynediad cyhoeddus at ddyfeisiau llif unffordd ar gyfer profion asymptomatig fel mater o drefn.

Rhwng 1 Ebrill 2021 a 31 Mawrth 2022, cynhaliwyd 700,000 o brofion adwaith cadwynol polymerasau (PCR) amser real yn ardal y bwrdd iechyd.

Mae cyfraddau haint COVID-19 ledled Sir Gaerfyrddin, Ceredigion a Sir Benfro, ynghyd â chyfraddau profion RT-PCR positif, wedi amrywio'n ddramatig ar hyd y flwyddyn. Ym mis Ebrill 2021, gwelodd ein rhanbarth 7.7 achos fesul 100,000 o'r boblogaeth, ynghyd â chyfradd canlyniadau positif o 1% ar gyfer tua 3,000 o brofion RT-PCR yr wythnos. Yn ystod y brig uchaf ym mis Ionawr 2022, cynyddodd y cyfraddau hyn i tua 1,900 o achosion fesul 100,000 o'r boblogaeth, a chyfradd canlyniadau positif o 48% ar gyfer tua 15,000 o brofion yr wythnos.

Ar hyn o bryd, rydym yn defnyddio amrywiaeth o fethodolegau profi, gan gynnwys profion RT-PCR a phroffion pwynt gofal. Yn flaenorol, rydym hefyd wedi darparu profion gwrthgyrff, sydd bellach wedi cael eu hatal yn genedlaethol.

Roedd y strategaeth genedlaethol ar gyfer profi yn ystod y flwyddyn ddiwethaf yn cynnwys:

- cefnogi gofal clinigol y GIG – rhoi diagnosis i'r rhai a oedd wedi'u heintio fel y gellid gwneud dyfarniadau clinigol i sicrhau'r gofal gorau;
- amddiffyn gwasanaethau ein GIG, ein gwasanaethau gofal cymdeithasol, a'n hunigolion mwyaf agored i niwed;
- targedu achosion a gwella gwyliadwriaeth gymunedol i atal lledaeniad y clefyd ymhlith ein poblogaeth;
- cefnogi ein system addysg ac iechyd a llesiant ein plant a phobl ifanc, gan eu galluogi i wireddu eu potensial;
- nodi cysylltiadau achosion positif i'w hatal rhag lledaenu'r haint, o bosibl, pe byddent yn cael eu heintio ac yn dod yn heintus, a chynnal gwasanaethau allweddol;
- hyrwyddo llesiant ac adferiad economaidd, cymdeithasol, diwylliannol ac amgylcheddol.

Profion cymunedol symptomatig, yn cynnwys ar gyfer gweithwyr critigol

Yn ystod y flwyddyn ddiwethaf, cafodd mwyafrif helaeth ein profion cymunedol symptomatig, yn cynnwys rhai ar gyfer gweithwyr critigol, eu darparu trwy system brofi y DU. Roedd profion yn cael eu harchebu trwy borth Llywodraeth y DU neu 119, a chât swabiau eu dadansoddi yn Labordai Goleudy y DU. Roedd profion trwy'r llwybr hwn hefyd yn cael eu cynnig i unigolion y nodwyd eu bod wedi cael cyswllt ag achosion positif o COVID-19.

Ar adegau o alw mawr, neu pan oedd materion yn ymwneud â system y DU yn effeithio'n andwyol ar fynediad at broffion neu'n golygu amserau prosesu hirach nag a oedd yn dderbyniol ar gyfer canlyniadau, aethom ati i gynyddu ein darpariaeth profi trwy unedau profi cymunedol. Roedd hyn yn ein galluogi i ddarparu profion i weithwyr iechyd a gofal cymdeithasol i gefnogi argaeledd ein gweithlu, gan eu galluogi i ddychwelyd i'r gwaith cyn gynted â phosibl i helpu i gynnal darpariaeth y gwasanaethau critigol.

Bu i ni barhau i gynnig profion i unigolion symptomatig na allai fynd i safle profi, er enghraifft y rhai a oedd yn gaeth i'r tŷ a theithwyr rhyngwladol yr amheuid bod ganddynt amrywiol yn a oedd yn peri pryder. Cyflawnwyd hyn trwy i staff ein hunedau profi cymunedol ymweld â chartrefi.

Mewn ymateb i'r newid yn y galw, cafodd gwaith modelu ei adolygu'n aml i sicrhau cynifer o broffion RT-PCR cymunedol dyddiol â phosibl trwy gydol y flwyddyn. Lleolwyd unedau profi symudol ychwanegol ledled Sir Gaerfyrddin, Ceredigion a Sir Benfro, yn unol â'r galw cynyddol yn lleol, a galluogodd hyn i ni ymateb mewn modd effeithiol i glystyrau o achosion mewn ardaloedd penodol.

Buom yn gweithio'n barhaus gyda'n partneriaid a byrddau iechyd eraill mewn perthynas â chynorthwyo'r naill a'r llall a darparu cymorth yn achos profion ar gyfer pobl sy'n byw neu'n gweithio ar draws ein ffiniau neu'n teithio i mewn i'n cymunedau, er enghraifft myfyrwyr ac ymwelwyr/a thwristiaid.

Buom yn cyfathrebu'n barhaus â'n cymuned leol trwy gydol y pandemig ynghylch y meini prawf ar gyfer cynnal profion a'u pwysigrwydd o ran cadw pobl yn ddiogel. Roeddem hefyd wedi darparu gwybodaeth ymarferol am y modd i gyrchu profion a'r angen i bobl hunanynysu tra eu bod yn aros am ganlyniadau neu yn dilyn canlyniad positif. Aethom ati i ddefnyddio cyfuniad o ddiweddariadau trwy'r cyfryngau traddodiadol a rhanddeiliaid allweddol, adnoddau'r We, hysbysebu a hyrwyddo ar y cyfryngau cymdeithasol, a thrwy gynhyrchu gwybodaeth ar ffurf copi caled a hysbysebion ar y radio ar gyfer y rhai nad ydynt yn defnyddio cyfryngau digidol. Buom hefyd yn defnyddio adnoddau Iaith Arwyddion Prydain a chanllawiau mewn ieithoedd amgen, ac yn cyfeirio unigolion atynt.

Daeth mynediad i'r cyhoedd at brofion RT-PCR i ben ar 31 Mawrth 2022, ac mae wedi'i ddisodli ar hyn o bryd gan y defnydd o ddyfeisiau llif unffordd i gynnal profion symptomatig. Wrth symud ymlaen i 2022-23, byddwn yn parhau i ddarparu profion RT-PCR ar gyfer staff iechyd a gofal cymdeithasol symptomatig.

Profi mewn cartrefi gofal

Rydym wedi parhau i gynnig profion symptomatig ac asymptomatig mewn senarios rheoli achosion a digwyddiadau ledled y sector cartrefi gofal. Cafodd y profion hyn eu darparu ar y cyd â phroffion asymptomatig wythnosol ar gyfer staff trwy borth Llywodraeth y DU, ac roeddent yn ganolog i'r gwaith o nodi achosion o haint mewn cartrefi unigol, a oedd yn sail i'r holl benderfyniadau a wnaed ynghylch datgan achosion a digwyddiadau.

Yn ystod 2021-22, aethom ati i gynnal profion ar gyfer 859 o staff cartrefi gofal ac 14,873 o breswylwyr cartrefi gofal trwy labordai Iechyd Cyhoeddus Cymru. At hynny, darparodd porth Llywodraeth y DU 255,373 o brofion RT-PCR ar gyfer profi staff yn rheolaidd.

Helpodd y dull hwn y cartrefi gofal i nodi preswylwyr a staff a brofai'n positif ar gyfer y feirws, rhoi cleifion positif mewn ardaloedd priodol, cynghori staff i hunanynysu, a lleihau'r risg o ledaenu'r feirws trwy'r cartref (ac, o bosibl, ledled y sector cartrefi gofal ehangach).

Profi cleifion mewnol

Rydym wedi parhau i brofi cleifion pan gânt eu derbyn i'r ysbyty ac fel mater o drefn yn ystod eu harhosiad, yn unol â gofynion Llywodraeth Cymru. Gwnaed hyn yn bennaf trwy brofion RT-PCR; fodd bynnag, ym mis Tachwedd 2021 aethom ati i gyflwyno prawf pwynt gofal cyflym (Roche Cobas Liat) yn ein hunedau derbyn ar gyfer gwasanaethau pediatriig, a hynny er mwyn cefnogi'r broses o grwpio cleifion â salwch anadlol feirysol. Defnyddir y prawf hwn i adnabod y feirws sincytiol anadlol (RSV) a COVID-19.

Yn yr un modd, ym mis Ionawr 2022, ehangwyd y gwasanaeth profi cyflym am antigen SARS-CoV-2 i dderbyniadau oedolion heb eu trefnu yn y pedwar ysbyty aciwt, gan ddefnyddio prawf pwynt gofal Abbott ID NOW.

Er y byddwn yn parhau i brofi cleifion wrth iddynt gael eu derbyn yn 2022-23, mae'r arfer o ailbrofi cleifion mewnol yn rheolaidd wedi dod i ben erbyn hyn. Fodd bynnag, byddwn yn parhau i brofi lle mae cleifion yn datblygu symptomau, neu lle y nodir os bydd yna achosion yn yr ysbyty.

Profi asymptomatig

Rydym bob amser wedi cyfeirio holl brofion asymptomatig cleifion cyn iddynt gael llawdriniaeth neu gemotherapi trwy unedau profi cymunedol y bwrdd iechyd a labordai Iechyd Cyhoeddus Cymru i sicrhau amseroedd prosesu cyflym ar gyfer y canlyniadau. Bydd y profion hyn yn parhau yn 2022-23.

Mae'r cyfleusterau hyn yn cefnogi clinigau un stop mewn perthynas â phrofion RT-PCT a fflebotomi cyn cemothepari. Maent hefyd yn cael eu defnyddio'n ganolfannau brechu COVID-19, gan wneud y defnydd gorau o'r cyfleusterau a'r adnoddau staffio. Mae ystyriaeth yn cael ei rhoi i barhad y gwasanaethau fflebotomi ar safleoedd cymunedol o'r fath yn y tymor hwy, yn hytrach na dychwelyd yn llwyr i wasanaethau fflebotomi yn yr ysbyty yn dilyn COVID-19.

Mae staff profi y bwrdd iechyd a leolir ar y safleoedd hyn hefyd yn cefnogi profion mewn cartrefi gofal ar gyfer preswylwyr symptomatig, profion torfol mewn cartrefi mewn ymateb i achosion a phrofion gartref, lle bo hynny'n ofynnol.

Ym mis Chwefror 2021, dechreuasom gynnig dyfeisiau llif unffordd i staff y bwrdd iechyd a myfyrwyr ar gyfer profion asymptomatig cyffredinol. Nid yw'r profion hyn yn orfodol, ac mae gan staff yr hawl i wrthod y cynnig. Cynigir profion LFD ddwywaith yr wythnos i bob contractwr gofal sylfaenol hefyd.

Yn ystod y flwyddyn ddiwethaf, cyflwynwyd profion LFD asymptomatig fel mater o drefn ledled amrywiaeth eang o weithleoedd, gan gynnwys addysg, gwasanaethau cyhoeddus a chwmnïau a busnesau preifat. Yn fwy diweddar, roedd profion LFD ar gael i'r cyhoedd trwy fferyllfeydd cymunedol ac LFD Direct, gyda'r profion yn cael eu harchebu trwy borth Llywodraeth y DU a'u dosbarthu i gartref yr unigolyn.

Daeth argaeledd cyffredinol citiau LFD i gynnal profion asymptomaig i ben ar 31 Mawrth 2022. Fodd bynnag, byddwn yn parhau i ddarparu dyfeisiau llif unffordd i staff iechyd a gofal cymdeithasol yn ystod 2022-23, yn unol â pholisi Llywodraeth Cymru.

Rhaglen frechu COVID-19

Mae ein rhaglen frechu COVID-19 ar gyfer y tair sir yn parhau i gefnogi [strategaeth ehangach Llywodraeth Cymru ar gyfer brechu](#), sy'n cynnwys y blaenoriaethau, y seilwaith brechu, a'r strategaeth gymunedol ar gyfer brechu.

Nod ein rhaglen frechu COVID-19 o hyd yw amddiffyn y rhai sydd fwyaf mewn perygl o salwch difrifol a marwolaeth o ganlyniad i'r feirws, a rhoi'r brechlyn iddynt ac i'r rheiny y mae yna risg y byddant yn trosglwyddo'r haint i nifer o bobl agored i niwed neu staff eraill mewn amgylchedd iechyd neu ofal.

Yn seiliedig ar y cyngor gan y Cyd-bwyllgor ar Imiweiddio a Brechu (JCVI), rydym yn parhau i geisio cynnig brechiadau cyntaf neu frechiadau atgyfnerthu i bawb sy'n gymwys i'w cael.

Er mwyn amddiffyn a brechu pobl mor gyflym â phosibl, rydym yn defnyddio ffyrdd gwahanol, ategol i ddarparu brechiadau COVID-19. Fel hyn, rydym yn defnyddio ein holl gryfderau i gynnig brechiadau i'n cymunedau.

Mae hyn yn golygu y bydd rhai pobl wedi cael neu yn cael eu brechiadau trwy eu meddygfa deulu neu fferyllfa gymunedol, tra bydd eraill yn cael eu gwahodd i'w canolfan brechu torfol agosaf, lle caiff y brechlyn ei roi gan staff y bwrdd iechyd.

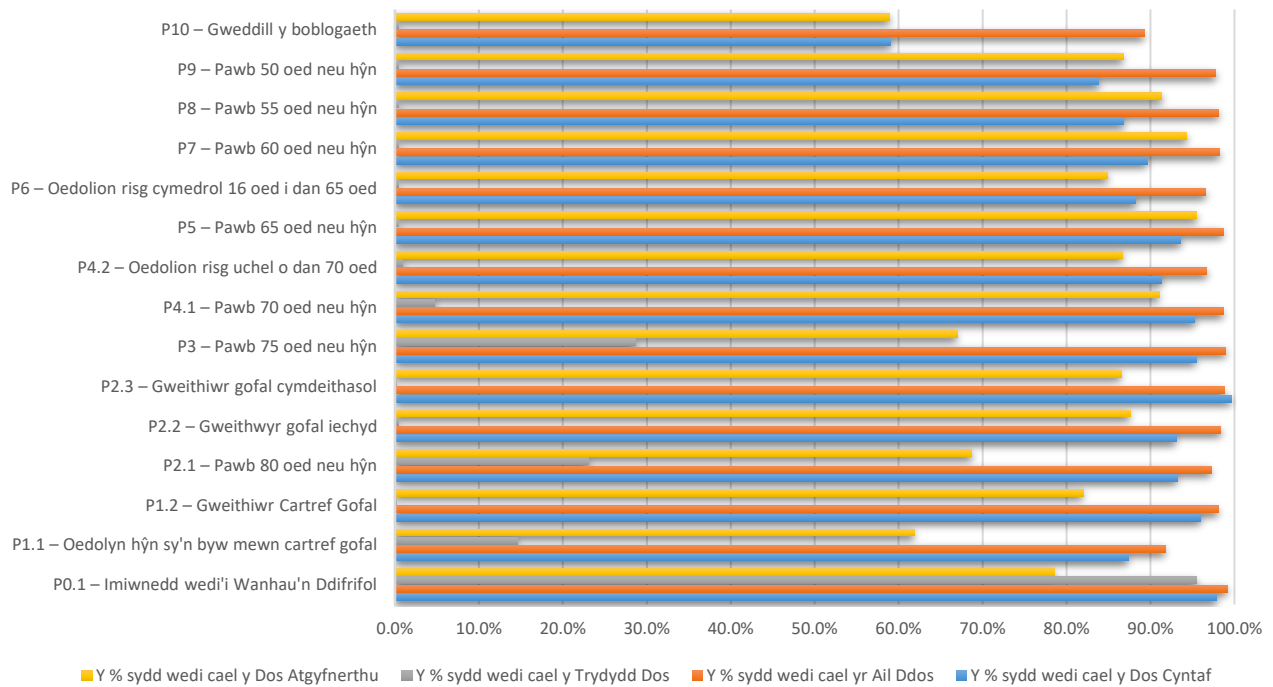

Rydym hefyd yn brechu grwpiau targed mewn ffyrdd eraill lle bo angen, er enghraifft rydym wedi rhoi brechiadau yn yr ysbyty i ofalu am ddefnyddwyr gwasanaethau neu gleifion hirdymor. Rydym hefyd wedi cynnal clinigau 'dros dro' ar gyfer cymunedau penodol, megis teithwyr, gofalwyr di-dâl, a'r bobl hynny sy'n ddigartref. Nod hyn yw lleihau effeithiau unrhyw anghydraddoldebau iechyd, a sicrhau na chaiff neb ei adael ar ôl yn ein cymunedau.

Mae darpariaeth hyblyg yn hanfodol er mwyn bodloni'r canllawiau cymhwysa, fel y nodir gan y JCVI, ac, yn achlysurol, gwahoddir grwpiau blaenoriaeth i gael eu brechu ar yr un pryd fel y gallwn wneud y defnydd gorau o'r cyflenwad o frechlynnau a ddarperir i ni. Gan fod y rhaglen 'nawr wedi cyrraedd ein poblogaeth iau, anelwn at gefnogi ein plant ifanc trwy glinigau yn ein canolfannau brechu torfol neu mewn clinigau 'dros dro' ychwanegol sy'n addas ar gyfer y grŵp iau hwn. Anelwn at sicrhau bod yr amgylchedd yn cael ei addasu i ddiwallu anghenion y grŵp iau hwn er mwyn atal unrhyw drallod a chefnogi profiad cadarnhaol.

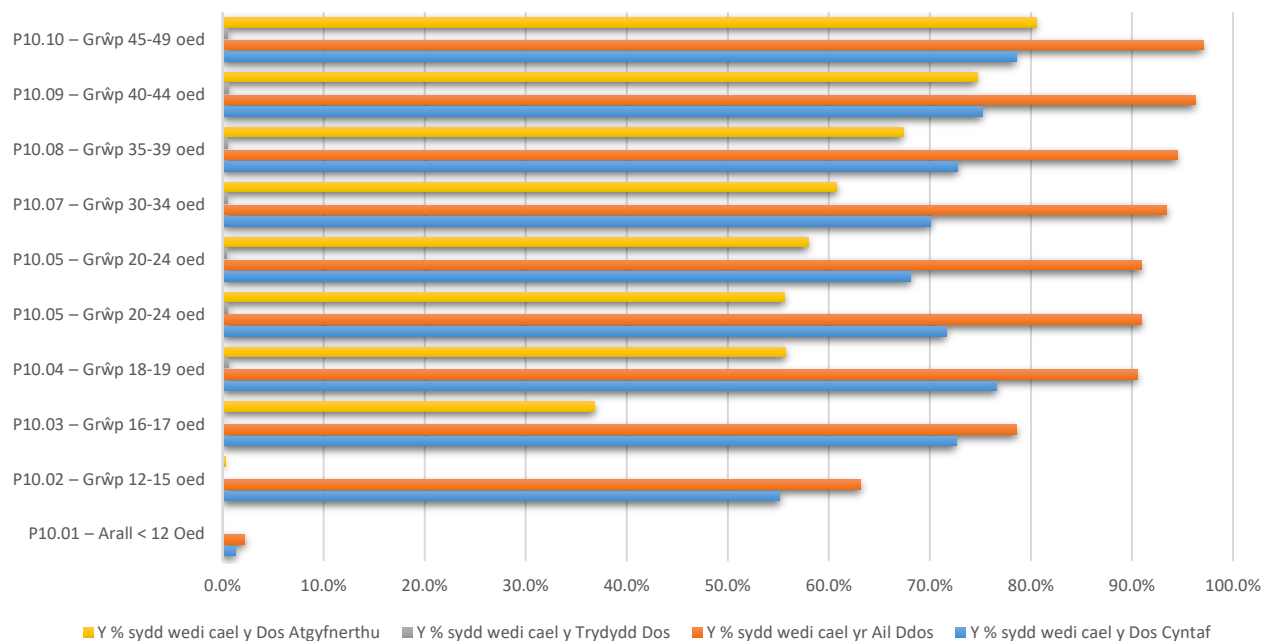

Bu nifer y bobl sydd wedi cael y brechlyn yn eithriadol o uchel hyd yma, ac, wrth i'r rhaglen frechu symud i gam y pigladau atgyfnerthu, byddwn yn parhau i weithio i amddiffyn cynifer o bobl â phosibl a sicrhau y gall pob preswilydd gyrchu brechlyn. Ni hefyd sydd â'r cyfraddau gwastraff isaf yng Nghymru,

Ar 31 Mawrth 2022, roedd 867,173 o frechlynnau COVID-19 wedi cael eu rhoi i'n preswylwyr a'n staff – 315,323 o ddosau cyntaf, 300,306 o ail ddosau, 19,806 o drydydd dosau (unigolion eithriadol o imiwnoatalliedig), a 231,738 o bigladau atgyfnerthu. Dangosir y manylion fesul grŵp blaenoriaeth y JCVI yn y ddelwedd isod:

**Preswylwyr Bwrdd Iechyd Prifysgol Hywel Dda
Rhaglen Frechu COVID-19 Rhagfyr 2019-31 Mawrth 2022
Grwpiau Blaenoriaeth 0.1 i 9**

**Preswylwyr Bwrdd Iechyd Prifysgol Hywel Dda
Rhaglen Frechu COVID-19 Rhagfyr 2019-31 Mawrth 2022
Grŵp Blaenoriaeth 10**

Rydym yn arbennig o falch o'n timau brechu – sy'n cynnwys imiwneiddwyr o leoliadau aciwt, sylfaenol a chymunedol, a'r rheiny'n cael eu cefnogi gan dimau gweinyddol a gwirfoddolwyr – pan oeddent yn abl i ymateb i argaeledd brechlynnau, gan ein galluogi i fod y bwrdd iechyd cyntaf yn y DU i gynnig y brechlyn Moderna ddechrau mis Ebrill 2021. Roedd eu hymateb ledled ein lleoliadau cyflenwi i'r weithred o gyflymu'r broses cyflwyno pigiadau atgyfnerthu yn ystod yr hydref mewn ymateb i'r achosion o Omicron, a'r angen i frechu ein poblogaeth cymwys yn unol â chyfnod byrrach rhwng pigiadau, yn eithriadol.

Y fflw tymhorol

Roedd yna bryder y gallai tymor heriol y fflw, yn ychwanegol at bandemig COVID-19 a'r rhaglen frechu gysylltiedig, fod wedi arwain at bwysau ychwanegol sylweddol a llethu'r GIG a'r system ofal. Felly, datblygwyd strategaeth ddiwygiedig i gyflenwi brechlyn y fflw mewn modd diogel ac amserol i amddiffyn grwpiau cymwys yn y gymuned.

Cynhaliodd partneriaid ym maes gofal sylfaenol eu cynlluniau i fodloni gofynion cadw pellter cymdeithasol, mesurau datblygedig i atal a rheoli haint, yn ogystal â system apwyntiadau yn unig, gyda'r nod o frechu cynifer o bobl â phosibl.

Y nod oedd archwilio'r cyfle i roi brechlyn y fflw a brechiad atgyfnerthu COVID-19 ar yr un pryd. Oherwydd amserlen argaeledd y ddau frechlyn, roedd y cyfleoedd yn gyfyngedig ar gyfer tymor y fflw y tro hwn; fodd bynnag, mae'n parhau i fod yn ddyhead ar gyfer rhaglenni yn y dyfodol.

O ganlyniad i gyfraniad Gwasanaeth Nyrsio mewn Ysgolion y bwrdd iechyd, cafodd y rhaglen ar gyfer plant ysgol gynradd ei darparu ochr yn ochr â rhaglen ychwanegol ar gyfer plant ysgol uwchradd. Er gwaethaf yr heriau o ganlyniad i'r haint COVID-19 a oedd yn cylchdroi oherwydd amrywiolyn Omicron, llwyddwyd i gyflawni'r rhaglenni ysgol datblygedig a brechu niferoedd mawr ar draws pob oedran.

Yn cyd-fynd â hyn yr oedd ymarfer cyfathrebu a chysylltiadau cyhoeddus allanol a oedd yn gydnaws â strategaeth frechu Llywodraeth Cymru. Roedd rhan o'r ymgych hon yn cynnwys buddsoddiad sylweddol i gyrraedd y gynulleidfa annigidol, megis hysbysiadau mewn papurau newydd ledled y tair sir i ailadrodd llwyddiant y flwyddyn flaenorol, ochr yn ochr â hysbysebion radio. Yn y cyfamser, rhoddwyd deunyddiau hyrwyddo ar y fflw i bob ysgol i'w dosbarthu'n uniongyrchol i'r rhieni.

Mae'r tabl isod yn dangos nifer y bobl a gafodd eu brechu rhag y fflw yn ein cymunedau yn achos pob grŵp oedran cymwys (nodwch fod data 2021-22 yn ddata dros dro adeg paratoi'r adroddiad hwn):

Carfan	Y nifer a frechwyd yn 2021-22 (%)	Y nifer a frechwyd yn 2020-21 (%)	% y newid	Y nifer a frechwyd yng Nghymru 2021-22
Pobl dros 65 oed	75.9%	73.6%	2.3%	78.0%
Pobl dan 65 oed â chyflyrau cronig	47.4%	49.8%	-2.4%	48.2%
Plant 2-3 oed	47.0%	55.1%	-8.1%	41.0%
Plant oedran ysgol (4-10 oed)	68.46%	87.1%	-18.64%	
Plant oedran ysgol (11-15 oed) Noder: nid yw'n cynnwys brechiadau mewn meddygfeydd teulu ac ymhlith plant sy'n cael addysg gartref	64.6%	amh.	amh.	59.8%
Staff Hywel Dda (cyswllt uniongyrchol â chleifion) Noder: mae enwadur y staff wedi cynyddu; er bod nifer y staff sydd wedi'u himiwneiddio wedi cynyddu, nid adlewyrchir hyn yn y % sydd wedi cael brechiadau	53.9%	55.1%	-1.2%	

Trwy'r ymdrech ar y cyd hon, rydym wedi:

- brechu carfan o bobl yn ein cymunedau rhwng 50 a 64 oed yn dilyn cadarnhad gan Lywodraeth Cymru fod y grŵp hwn i barhau i fod yn flaenoriaeth;
- dechrau a gorffen y rhaglen yn gynnar (cwblhawyd 99% o'r rhai a fanteisiodd ar y rhaglen erbyn diwedd mis Rhagfyr 2020);
- sicrhau cynnydd o 6-16% yng nghyfraddau'r bobl a fanteisiodd ar y cyfle ym mhob grŵp cymwys;
- brechu mwy o bobl nag erioed rhag y fflw tymhorol er gwaetha'r ffaith ein bod yng nghanol pandemig.

Yn y cyfamser, gyda chymorth brechwyr cymheiriaid, arweiniodd ein Tîm Iechyd Galwedigaethol ymgyrch i gyflwyno brechlyn y fflw i'r staff. Rheolwyd y materion logistaidd o ran darparu rhaglen frechu o fewn cyfyngiadau canllawiau COVID-19, ynghyd â thon gynyddol o'r amrywiolyn Omicron, trwy waith partneriaeth rhagorol a'r angen i fod mor hyblyg ac ymatebol â phosibl.

Cefnogwyd y rhaglen hon gan ymgyrch cyfathrebu ac ymgysylltu â staff, a dynnai sylw at glinigau a oedd ar gael a'r modd i gael gafael ar frechlynnau. Cafodd y rhaglen frechu rhag y fflw ei chynnal rhwng mis Medi 2021 a mis Mawrth 2022; manteisiodd 54% ar y cyfle, gyda 6,880 o staff yn cael eu brechu rhag y fflw, sy'n uwch na blyneddau blaenorol.

Ailgynllunio gwasanaethau aciwt i ddarparu gofal COVID-19

Gofal critigol

Ddechrau ail flwyddyn yr ymateb i COVID-19, parhaodd nifer y gwelyau gofal critigol awyredig o fewn y capasiti y cyllidwyd ar ei gyfer, sef 22. Y rheswm am hyn yr heriau'n ymwneud ag argaeledd staff â'r sgiliau addas, gan gynnwys staff asiantaeth, ynghyd â ffactor swyddi gwag

rheolaidd a welodd staff medrus yn llifo allan a newydd-ddyfodiaid yn cael eu recriwtio. At hynny, wrth i nifer o wasanaethau barhau â'u darpariaeth yn yr ail flwyddyn, nid oedd y gronfa o staff a hyfforddwyd yn y flwyddyn gyntaf i gynorthwyo gyda'r broses o ehangu sylfaen y gwelyau gofal critigol ar gael.

Teimlodd pob lleoliad gofal critigol yr her ar draws brig y drydedd don o COVID-19. Cynhelid cyfarfodydd ddwywaith y dydd ar draws y safleoedd, lle trafodid carfanau cleifion a materion staffio; ac eid ati i asesu'r risgiau, elfen a arweiniai at symud cleifion neu staff i sicrhau y gellid mynd i'r afael â phryderon ynghylch diogelwch a'u lliniaru. Dylid nodi bod nifer o staff nyrsio, pan oeddent yn abl i wneud hynny, wedi symud ar fyr rybudd i leoliadau eraill i optimeiddio niferoedd y staff mewn lleoliadau lle roedd angen mwy o ofal dwys ar gleifion.

Mae'r anallu i wahanu cleifion COVID-19 yn ddiogel, a nodwyd ym mlwyddyn un, wedi parhau yn ystod blwyddyn dau. Mae hyn wedi rhoi pwysau sylweddol ar yr holl ddisgyblaethau staff wrth iddynt wneud penderfyniadau ynghylch yr opsiynau gorau ar gyfer y llif cleifion a lleoli cleifion. Mae cyllid wedi'i sicrhau ar gyfer gosod ystafelloedd ochr yn rhan o'r sylfaen welyau bresennol ym mhob un o'r pedwar safle, ac mae'r gwaith o'u gosod wedi dechrau. Bydd hyn yn gwella gallu'r safleoedd i wahanu'r cleifion mewn modd priodol yn y dyfodol.

Mae argaeledd y Gwasanaeth Trosglwyddo Gofal Critigol Aciwt (ACCTS Cymru) wedi bod yn ased sylweddol i'r gwasanaeth gofal critigol oddi ar iddo gael ei lansio ym mis Awst 2021. Mae'r gwasanaeth yn hwyluso trosglwyddiadau ar draws y bwrdd iechyd a thu hwnt i gefnogi anghenion y claf a aseswyd.

Ysbytai maes

Roedd [adroddiad blynyddol 2020-21](#) yn disgrifio'r modd y cafodd trefniadau'r bwrdd iechyd ar gyfer ysbytai maes eu sefydlu a'u comisiynu hyd at y pwynt lle roeddent yn barod i fod yn weithredol. Roedd hyn yn bosibl o ganlyniad i gydweithredu â phartneriaid yr awdurdodau lleol a'r cynghorau tref, ochr yn ochr â'r sector preifat. Roedd y trefniadau'n cynnwys darparu naw safle ysbyty maes, a oedd yn cynnig 915 o welyau cleifion mewnol, wedi'u dosbarthu ledled Sir Gaerfyrddin, Ceredigion a Sir Benfro, a hynny'n fesur rhagofalus i fynd i'r afael ag effaith y cynnydd yn nifer y derbyniadau mewn safleoedd aciwt ac ysbytai cymunedol. Profodd tri o'r ysbytai maes hyn weithgarwch cleifion mewnol, sef:

- Ysbyty Enfys Caerfyrddin (Canolfan Hamdden Caerfyrddin) Mehefin 2020-Awst 2020: gweithgarwch 32 o gleifion
- Ysbyty Enfys Selwyn Samuel (Canolfan Selwyn Samuel) Tachwedd 2020-Mehefin 2021: gweithgarwch 263 o gleifion
- Ysbyty Enfys Carreg Las (Bluestone) Rhagfyr 2020-Mawrth 2021: gweithgarwch 86 o gleifion

Defnyddiwyd safleoedd eraill i gynnal y galw am frechiadau ac anghenion iechyd lleol ehangach, megis llety ar gyfer hyfforddi a datblygu, a swyddogaethau swyddfa gefn clinigol cysylltiedig.

Ni fu i donnau diweddaraf y coronafeirws gynyddu'r galw at y pwynt lle roedd angen cymorth yr ysbytai maes. Mae pob safle a addaswyd at ddibenion ysbytai maes bellach wedi'i ddychwelyd i'w berchennog, ac eithrio Canolfan Selwyn Samuel yn Llanelli; mae gwaith ar y gweill i ddychwelyd yr adeilad i'w ddefnydd blaenorol, a disgwylir i'r gwaith hwnnw ddod i ben ym mis Ebrill 2022.

Yn gyffredinol, ystyrir bod darpariaeth ysbytai maes y bwrdd iechyd wedi bod yn fenter lwyddiannus ac iddi raddau uchel o foddhad cleifion o ran y gofal a gafwyd, ac ni ddaeth yr un gŵyn i law. Cafwyd sylwadau cadarnhaol gan Arolygiaeth Gofal Iechyd Cymru, ynghyd â lefelau isel o ddigwyddiadau, ac arbedwyd cyfanswm o 5,367 o ddiwrnodau gwely a fyddai, fel arall, wedi creu pwysau pellach ar welyau aciwt a gwelyau mewn ysbytai cymunedol.

Gofal brys

Mae ein model gofal brys a gofal mewn argyfwng (UEC) wedi cael ei adolygu a'i ailgynllunio i adlewyrchu'r blaenoriaethau hynny a amlinellir yn chwe nod y polisi cenedlaethol.

Mae ein canlyniadau rhanbarthol arfaethedig ar gyfer y chwe nod fel a ganlyn:

1. Cydgysylltu ar gyfer grwpiau risg –

cynllunio a chefnogi i helpu pobl risg uchel neu agored i niwed a'u gofalwyr i barhau'n annibynnol gartref, gan atal yr angen am ofal brys.

2. Cyfeirio – gwybodaeth, cyngor neu gymorth i gyfeirio pobl y mae arnynt eisiau, neu angen, cymorth neu driniaeth frys at y man iawn, y tro cyntaf.

3. Atal cleifion rhag cael eu derbyn neu fynd i'r ysbyty –

dewisiadau amgen yn y gymuned yn lle bod cleifion yn mynd i'r adran frys a/neu'n cael eu derbyn i'r ysbyty yn achos pobl y mae arnynt angen gofal brys ond a fyddai'n elwa o aros gartref neu mor agos â phosibl at eu cartref.

4. Ymateb cyflym mewn argyfwng – yr ymateb cyflymaf a gorau ar adeg o argyfwng ar gyfer pobl sydd mewn perygl uniongyrchol o golli eu bywyd, sy'n ddifrifol wael neu wedi'i hanafu'n ddifrifol, neu sydd mewn argyfwng iechyd meddwl.

5. Gofal gwyb yn yr ysbyty – y gofal gorau posibl yn yr ysbyty ar gyfer pobl y mae arnynt angen asesiadau a thriniaeth byrdymor neu barhaus, a hynny am gyhyd ag y mae'n ychwanegu budd.

6. Dull gartref gyntaf a lleihau'r risg o aildderbyn – dull adref o'r ysbyty pan fo'r claf yn barod, ynghyd â chymorth rhagweithiol i leihau'r siawns iddo gael ei aildderbyn.

Mae'r rhain yn cydnabod yr angen i ni atgyfnerthu ein gwasanaethau cymunedol a gofalu am bobl gartref, nid yn yr ysbyty, ond hefyd i sicrhau mynediad amserol at ddiagnosteg ac asesiadau mewn cyfleusterau gofal brys ar yr un diwrnod, sy'n galluogi cleifion i ddychwelyd adref i'w gwely eu hunain.

Felly, mae ein model UEC a'n buddsoddiad mewn adnoddau wedi canolbwyntio ar atgyfnerthu gwasanaethau gofal sylfaenol brys, gofal brys ar yr un diwrnod, a gofal 'cofleidiol', fel y gall pobl eiddil y mae arnynt angen lefel o gymorth gael hynny gartref yn hytrach nag yn yr ysbyty.

Mae enghreifftiau o'r ffordd yr ydym yn atgyfnerthu'r gwasanaethau cymunedol a gofal sylfaenol brys ar gael ar dudalen 23.

Ym mis Medi, cychwynnwyd prosiect newydd i fynd ati'n ddi-oed i ehangu'r gofal cofleidiol a ddarperir ym mhob sir er mwyn darparu gofal 'pontio' ychwanegol gartref. Bwriad hyn oedd cynyddu'r gweithlu gofal yn y cartref cyfan i ddiwallu anghenion y bobl hynny yn yr ysbyty na allant fynd adref yn ddiogel hebddo. Cafodd 24 o weithwyr cymorth gofal iechyd newydd eu recriwtio, eu hyfforddi, a'u lleoli mewn lleoliadau cymunedol ledled y rhanbarth. Yn Sir Gaerfyrddin, roeddent wedi galluogi i welyau ychwanegol agor yn gynt yn Ysbyty Dyffryn Aman; yng Ngheredigion, roeddent yn cefnogi bylchau mewn timau cymunedol bregus ar frig y drydedd don; ac yn Sir Benfro, roeddent yn cefnogi'r broses o agor rhediad ychwanegol yn y gwasanaeth pontio a oedd eisoes yn bodoli. Er bod y nifer a gafodd eu recriwtio yn is na'r gofyn, cafodd gwersi pwysig eu dysgu, a chafwyd adborth gan gleifion a staff i gefnogi ymdrechion yn y dyfodol i recriwtio a datblygu'r gweithlu.

Newid dros dro i'r gwasanaeth pediatrig

Ym mis Medi 2021, cytunasom i estyn newid dros dro i wasanaeth er mwyn sicrhau bod plant difrifol wael yn cael eu trin mewn modd diogel yn ne ardal Hywel Dda.

Yng ngwanwyn 2020, symudwyd yr uned ddydd i blant a'i staff arbenigol yn Ysbyty Llwynhelyg, Hwlfordd (sef yr Uned Triniaethau Dydd Bediatrig neu, yn lleol, Ward y Pâl), i Ysbyty Glangwili, Caerfyrddin. Y rheswm am hyn oedd yr anghenraid i ddefnyddio'r ardal ar gyfer ymateb yr ysbyty i COVID-19.

Mae hyn wedi golygu bod plant dan 16 oed â salwch neu anaf difrifol wedi cael eu trin yn Ysbyty Glangwili, lle mae yna Adran Frys a staff gwasanaethau plant arbenigol wedi'u cyd-leoli, gan gynnwys ward plant dros nos ac uned dibyniaeth fawr (nad ydynt ar gael yn Ysbyty Llwynhelyg).

Mewn cyfarfod o'r bwrdd, cytunwyd i estyn y newid hwn i'r gwasanaeth yng nghyd-destun parhau â'r ymateb i'r pandemig, ond hefyd oherwydd y cynnydd disgwylidig yn nifer y plant a fyddai'n debygol o gael feirysau anadlol yng ngaeaf 2021-22. Gan rag-weld y byddai rhagor o blant yn mynd yn sâl o ganlyniad i feirysau anadlol, aethom ati i fuddsoddi mewn rhagor o gyfarpar a gwelyau dibyniaeth fawr yn Ysbyty Glangwili. Mae hyn wedi galluogi i blant gael eu triniaeth ddiffiniol yn gynt, ac mae hefyd wedi caniatáu i blant gael eu monitro gan arbenigwyr os byddant yn dirywio.

Yn y cyfnod interim, mae Ysbyty Llwynhelyg yn trin plant â mân anafiadau yn yr uned mân anafiadau a'r Uned Gofal Brys a Heb ei Drefnu, ac mae'n darparu apwyntiadau cleifion allanol a archebir. Bu yna ymgyrch gyfathrebu i roi gwybod i rieni yn Sir Benfro a de Ceredigion lle y gallant gyrchu gofal plant yn yr ysbyty, ac roedd yn cynnwys hysbysebion radio a dosbarthu taflenni i gartrefi.

Mae adolygiad o'r newid dros dro i'r gwasanaeth yn parhau, a byddwn yn adrodd yn ôl i'r bwrdd iechyd yn ddiweddarach yn 2022. Rydym yn gweithio'n agos gyda Chyngor Iechyd Cymuned Hywel Dda i sicrhau y creffir yn briodol ar yr adolygiad a'n bod yn mesur canlyniadau ar gyfer plant a phobl ifanc, yn ogystal â phrofiad y claf a barn ein cymunedau.

Cynllunio a darparu gwasanaethau diogel, effeithiol ac o ansawdd ar gyfer gofal nad yw'n ymwneud â COVID-19

Cynllunio a darparu gwasanaethau diogel, effeithiol ac o ansawdd ar gyfer gofal nad yw'n ymwneud â COVID-19

Er gwaethaf y flwyddyn heriol, bu yna nifer o gyflawniadau sylweddol ledled y bwrdd iechyd eleni, a hynny mewn meysydd gofal y tu hwnt i COVID-19. Dyma enghreifftiau:

Ymdrechu i ddarparu a datblygu gwasanaethau rhagorol

- **Agor yr Uned Gofal Arbennig Babanod yn Ysbyty Glangwili** yn rhan o fuddsoddiad gwerth £25.2 miliwn gan Lywodraeth Cymru. Mae'r cyfleusterau obstetrig a newyddenedigol newydd yn darparu pum ystafell geni safonol â chyfleusterau *en suite*; un ystafell geni â phwll sefydlog; un ystafell geni â'r cyfarpar cywir i ddelio â genedigaethau lluosog neu gymhleth; ac uned fonitro ddatblygedig â chwe gwely. Bydd yr uned hon hefyd yn gwella'r amgylchedd gweithio ar gyfer y staff gan fod ynddi ardal briodol ar gyfer addysgu a gwaith amlddisgyblaethol.
- **Sganiwr CT newydd yn Ysbyty Glangwili a sganiwr MRI yn lle'r hen un yn Ysbyty Llwynhelyg.** Bydd y sganwyr hyn, sydd o'r radd flaenaf, yn gwella llawer ar brofiad y claf oherwydd cydraniad uwch ac amserau sganio cynt.
- **Gwobr cyflogwr arian Stonewall** i gydnabod ein hymrwymiad i gynnwys pobl lesbiaid, hoyw, deurywiol, traws a chwiwr yn y gweithle. Mae mentrau yn cynnwys Rhwydwaith Staff LGBTQ+ ar gyfer staff a chynghreiriaid LGBTQ+, sesiynau hyfforddi i staff, darparu gwasanaethau sy'n cynnwys LGBT, a dathlu digwyddiadau blynyddol allweddol, er enghraifft Mis Hanes LGBT, Pride, a Diwrnod Gwelededd Trawsrywioldeb.
- Datblygu **Hwb Caerfyrddin** gyda phartneriaid, a symud y gwaith o ddatblygu **Pentre Awel** yn ei flaen lle byddir yn dwyn ynghyd amrywiaeth o wasanaethau iechyd, llesiant, dysgu a diwyllianol i gefnogi pobl o bob oed i gyrchu gwasanaethau allweddol i gyd o dan un to.
- Cyflwyno ein hachos busnes amlinellol i Lywodraeth Cymru ar gyfer ein **Canolfan Llesiant yn Cross Hands**. Bydd y ganolfan yn darparu rhwydwaith o wasanaethau iechyd a gofal cymdeithasol integredig ar gyfer ardal Aman Gwendraeth, a bydd yn gartref i ddau bractis meddygon teulu lleol (Y Tymbl a Phen-y-groes), llyfrgell, canolfan deuluoedd, fferyllfa gymunedol, a hefyd swyddogion cymorth cymunedol yr heddlu a grwpiau'r sector gwirfoddol.
- **Mynediad ar-lein newydd at wybodaeth** ar gyfer ein poblogaeth trwy lwyfannau tebyg i DrDoctor a Patient Knows Best i wella profiad y claf a mynediad at wasanaethau'r GIG a gwybodaeth amdano.
- Agorwyd **canolfan ymchwil glinigol** newydd sbon yn Ysbyty Glangwili, sy'n darparu mynediad at gyfleoedd ymchwil newydd i gleifion yng Ngorllewin Cymru. Bydd y gofod newydd, pwrpasol hwn yn lleihau'r pwysau ar adrannau eraill yn yr ysbyty, ac mae'n gwneud Sir Gaerfyrddin yn safle mwy deniadol i gynnal ymchwil â'r potensial i newid bywydau. Bydd y ganolfan hon yn rhoi cyfle i gleifion gymryd rhan mewn treialon clinigol sy'n cynnig mynediad cynt at y triniaethau a'r therapiau diweddaraf. Mae'r buddsoddiad o £250,000 wedi arwain at ddatblygu ystafelloedd clinigol pwrpasol i drin a monitro cleifion, ynghyd â gofod labordy amlswyddogaethol sy'n cynnwys cyfleusterau o'r radd flaenaf i alluogi i samplau gael eu prosesu'n annibynnol ar adrannau prysur eraill.

- **Gwobr Darparwr Data o Ansawdd ar gyfer llawdriniaeth ddewisol yn Ysbyty Bronglais.** Cafodd yr ysbyty ei enwi'n Ddarparwr Data o Ansawdd Cofrestrfa Genedlaethol y Cymalau (NJR) ar ôl llwyddo i gwblhau rhaglen genedlaethol o archwiliadau data lleol. Cafodd tîm orthopedig yr ysbyty y wobwr am lawdriniaeth ddewisol. Mae'r NJR yn monitro perfformiad llawdriniaethau i osod cymalau newydd yn y glun, y pen-glin, y pigwrn, y benelin a'r ysgwydd er mwyn gwella canlyniadau clinigol er budd cleifion, clinigwyr a'r diwydiant. Mae'r gofrestrfa yn casglu data orthopedig o ansawdd uchel i ddarparu tystiolaeth i gefnogi diogelwch cleifion, safonau o ran ansawdd y gofal, a'r costeffeithiolrwydd cyffredinol ym maes llawdriniaethau i osod cymalau newydd.
- **Cynlluniau cymorth iechyd meddwl.** Ar hyd a lled Canolbarth a Gorllewin Cymru, mae practisau meddygon teulu wedi comisiynu amrywiaeth o gynlluniau i helpu cleifion sy'n dioddef o salwch meddwl lefel isel, ynysigrwydd ac unigrwydd. Mae'r ymyriadau anghlinigol hyn yn darparu dull gwahanol o gefnogi cleifion, a'u nod yw gwella iechyd meddwl a llesiant cleifion. Mae prosiectau iechyd meddwl arloesol eraill yn cynnwys penodi ymarferwyr iechyd meddwl; cymorth cyntaf iechyd meddwl mewn fferyllfeydd; gweithio gydag asiantaethau iechyd meddwl; ac elusennau i ddarparu gwasanaeth cwnsela, adnoddau, a chymorth i bobl ar draws pob grŵp oedran sydd â phroblemau iechyd meddwl.
- Penodwyd **nyrsys endometriosis arbenigol** ym mhob bwrdd iechyd yng Nghymru i wella gwasanaethau ar gyfer y cyflwr cronig, sy'n effeithio ar un fenyw ym mhob deg.
- **Chwistrelliad gwyrthiol yn achub bywydau.** Achubodd chwistrelliad gwyrthiol fywyd dioddefwr gorddos yn Sir Gaerfyrddin o ganlyniad i dreial ar y cyd â Heddlu Dyfed Powys. Mae'r treial, a ddechreuodd ym mis Ionawr 2022, yn cynnwys swyddogion yr heddlu yn cario'r chwistrelliad trwynol Nyxoid i helpu i leihau nifer y marwolaethau o ganlyniad i orddos o gyffuriau, ac yn atgyfeirio pobl at Wasanaeth Cyffuriau ac Alcohol Dyfed i gael cymorth. Mae'r treial yn gweithredu yn Llanelli, Aberystwyth, Doc Penfro a Llandrindod am chwe mis.

Cyflawni mesurau rheoli haint i ddarparu gofal COVID-19 a gofal nad yw'n ymwneud â COVID-19

Rheoli cyfarpar diogelu personol diogel

Cafodd y gwaith o reoli cyfarpar diogelu personol (PPE) ei lywio trwy Gell PPE bwrpasol, dan gadeiryddiaeth Cyfarwyddwr Nyrsio, Ansawdd a Phrofiad y Claf y bwrdd iechyd. Wedi i systemau gael eu sefydlu, a phan oedd yna hyder yn y cadwyni cyflenwi, sydd wedi bod yn gyson trwy gydol y flwyddyn, lleihaodd y gell amllder ei chyfarfodydd. Darparwyd hyfforddiant ar y defnydd o PPE gan y Tîm Atal a Rheoli Haint, a hynny ar ffurf nifer o fformatau, gan gynnwys posteri, fideos, ac wyneb yn wyneb lle roedd angen. Mae'r Tîm Iechyd a Diogelwch wedi cefnogi sesiynau 'hyfforddi'r hyfforddwr' ar gyfer profi ffit masgiau a chwflau anadlu arbenigol. Bu'r ddau dîm yn cefnogi'r gwaith o brofi a chaffael PPE ychwanegol ac arbenigol.

Ailgynllunio'r ystad leol i ddarparu gwasanaethau diogel yn ystod COVID-19 (cleifion allanol, theatrau, diagnosteg)

Bu ein Tîm Atal a Rheoli Haint yn gweithio gyda gwasanaethau iechyd trwy gydol y pandemig i adolygu'r llif cleifion a sicrhau bod diogelwch y cleifion a'r staff yn cael ei gynnal. Cefnogwyd y gwasanaethau trwy gyngor arbenigol ar liniaru ac asesu risgiau, lle roedd hynny'n briodol. Cafodd llwybrau gofal yn ein hysbytai eu hadolygu a'u datblygu trwy gydol y pandemig, a hynny

mewn ymateb i wybodaeth fodelu am COVID-19, ymddangosiad amrywiolion newydd a oedd yn peri pryder, a chanllawiau cenedlaethol newydd neu wedi'u diweddarau.

Gwnaed gwaith a buddsoddiad sylweddol i wella capasiti cyfleusterau ynysu, cynnal y gofynion o ran cadw pellter cymdeithasol, a gwella systemau awyru yn ein lleoliadau caeedig. Sicrhawyd buddsoddiad cyfalaf ar gyfer sgriniau, Podiau Bioquell, Redirooms, a lleithyddion aer, ac i drawsnewid ystafelloedd ynysu yn ystafelloedd pwysedd negatif.

Rydym yn darparu nifer o wasanaethau cleifion allanol ledled ein hysbytai cymunedol a lleoliadau eraill, lle mae staff nyrsio cymunedol yn cefnogi clinigau dan arweiniad meddygon ymgynghorol a nyrsys. Ledled y bwrdd iechyd, mabwysiadwyd trefniadau gweithredu safonol yn ystod COVID-19 ar gyfer darparu gwasanaethau cleifion allanol o gyfleusterau cymunedol, a hynny dan arweiniad cychwynnol sir Ceredigion.

Roedd trefniadau hefyd ar waith ledled lleoliadau a gwasanaethau cymunedol, megis clinigau cleifion allanol, i sicrhau bod y rhain yn ddiogel ac yn hygyrch i'n poblogaeth. Er enghraifft, yng Ngheredigion rhoddwyd cymorth domestig ychwanegol ar waith i wella'r swyddogaethau glanhau a chwrdd a chyfarfod; a rhoddwyd proses ar waith i sicrhau bod cleifion yn gyfarwydd â'r trefniadau COVID-19 ar y safle, ac i dawelu meddwl cleifion o ran ei bod yn ddiogel iddynt fynd i'w hapwyntiadau.

Cyfathrebu'n lleol â'r gymuned i'w chefnogi i wneud y dewisiadau iawn

Gyda chymorth y Tîm Atal a Rheoli Haint, roedd Tîm Cyfathrebu y bwrdd iechyd yn cyfathrebu negeseuon perthnasol ac amserol yn barhaus er mwyn hysbysu a thawelu meddwl cymunedau lleol ynghylch y gofynion cenedlaethol a lleol, a'r modd i gadw'n ddiogel yn ystod y pandemig. Roedd hyn yn cynnwys negeseuon am fynychu practisau meddygon teulu, fferyllfeydd, a hunanofal. Mae'r Tîm Atal a Rheoli Haint wedi parhau i gefnogi'r Gell Ymateb Rhanbarthol ac awdurdodau lleol o ran lliniaru risgiau cysylltiedig â COVID-19 a heintiau eraill mewn cartrefi gofal ledled ein tair sir. Mae'r asesiadau, y cynlluniau gweithredu a'r cymorth ar draws y safleoedd hyn wedi chwarae rhan sylweddol yn yr achosion mewn cartrefi gofal ledled ein bwrdd iechyd. Mae'r Tîm Atal a Rheoli Haint hefyd wedi cefnogi'r holl wasanaethau cymunedol, gan gynnwys ysbytai cymunedol, byrddau iechyd, clinigau cymunedol, practisau meddygon teulu a reolir, meddygon teulu y tu allan i oriau, gofal sylfaenol, canolfannau gofal integredig, nyrsio cymunedol, gwasanaethau cymunedol i blant, gwasanaethau deintyddol a therapïau, mewn perthynas â mesurau, prosesau, ac asesiadau risg yn ymwneud â COVID-19.

Goblygiadau'r gofyniad ychwanegol hwn

Unwaith eto, mae'r flwyddyn ddiwethaf wedi rhoi prawf ar gydnerthedd Tîm Atal a Rheoli Haint y bwrdd iechyd, pan gafodd adnoddau eu hestyn ar draws nifer o feysydd gofal iechyd ac i mewn i'r gymuned, gan gefnogi addysg, y gwasanaeth tân a chwmnïau preifat o ran eu hymateb i'r pandemig. Yn yr ymdrech i barhau â'r gwasanaethau, rhoddwyd y gorau i hyfforddiant wyneb yn wyneb, a chafodd rhai cyfarfodydd lleol eu canslo.

Mae'r Tîm Atal a Rheoli Haint yn dîm bach, arbenigol. Mae recriwtio adnoddau ychwanegol wedi helpu i gefnogi ymarferwyr arbenigol y tîm a chynnal y gwaith arferol o amgylch atal a lleihau haint. Yn ystod y cyfnod hwn, recriwtiodd y bwrdd iechyd ymarferydd ymgynghorol parhaol ym maes atal haint. Mae'r rôl hon yn darparu gofal clinigol arbenigol ychwanegol, uwch-arweinyddiaeth, a darpariaeth strategol o'r gwasanaeth atal haint, gan hefyd fynd ati ymhellach i ddatblygu dull ataliol integredig o atal a rheoli haint ledled y bwrdd iechyd (yn cynnwys mewn

lleoliadau cymunedol megis cartrefi gofal). Treialwyd gwasanaeth peilot saith niwrnod yr wythnos yn llwyddiannus, ac mae'n parhau ar hyn o bryd.

Mae rôl nyrsio atal haint integredig hefyd wedi cael ei chynllunio a'i gwerthuso mewn partneriaeth â Chyngor Sir Caerfyrddin, a oedd hefyd yn gyfrifol am ariannu'r rôl. Mae'r swydd barhaol hon, a reolir ar y cyd, yn darparu cymorth parhaus i'n cymunedau. Trwy gydol y pandemig, bu timau ein hysbytai a'n Tîm Atal a Rheoli Haint yn ymweld â wardiau, cartrefi gofal a phractisau meddygon teulu i asesu mesurau Atal a Rheoli Haint ar gyfer achosion o COVID-19; i gefnogi staff a phreswylwyr; i ddarparu hyfforddiant; i ddarparu camau gweithredu lliniarol i atal COVID-19 rhag cael ei drosglwyddo; ac i ddiogelu preswylwyr agored i niwed a staff. Mae'r asesiadau, y cymorth a'r cynlluniau gweithredu hyn ar lawr gwlad wedi chwarae rhan sylweddol o ran achosion o'r coronafeirws mewn cartrefi gofal ledled y bwrdd iechyd.

Darparu gwasanaethau hanfodol

Cyhoeddodd Llywodraeth Cymru ganllawiau ar gyfer gwasanaethau hanfodol yr oedd yn rhaid iddynt barhau trwy gydol pandemig COVID-19 i sicrhau bod gan gleifion fynediad at ofal a thriniaethau angenrheidiol mewn amgylchedd diogel. Gellir gweld y canllawiau hyn yma:

www.wales.nhs.uk/COVID19essentialservicesguidance

Isod, ceir crynodeb o'r gwasanaethau hanfodol a ddarperir gennym ar 31 Mawrth 2022:

Gwasanaethau arferol sy'n parhau

- Gwasanaethau ambiwlans brys

Gwasanaethau canolraddol sy'n cael eu darparu

- Gwasanaethau mamolaeth

Gwasanaethau hanfodol sy'n cael eu cynnal yn unol â'r canllawiau

- Mynediad at wasanaethau gofal sylfaenol – Gwasanaethau Meddygol Cyffredinol, fferyllfeydd cymunedol, gwasanaethau deintyddol rhybudd coch mewn argyfwng/brys, gwasanaethau optometreg, nyrsys cymunedol/gweithwyr proffesiynol perthynol i iechyd ac 111
- Gwasanaethau aciwt – gofal llygaid brys, llawdriniaethau brys a thriniaethau canser brys
- Gwasanaethau ychwanegol – ymwelwyr iechyd, niwroadsefydlu cymunedol, hunanreoli a llesiant, a nyrsys ysgol
- Gwasanaethau'r gwaed a thrallwyso
- Diagnosteg
- Gwasanaethau pediatriig sy'n achub bywyd/effeithio ar fywyd – gofal dwys a chlodiant pediatriig, llawdriniaeth frys newyddenedigol bediatriig, gwasanaethau pediatriig ar gyfer salwch brys, imiwneiddiadau, brechiadau, sgrinio babanod, a gwasanaethau pediatriig cymunedol ar gyfer plant
- Gwasanaethau meddygol sy'n achub bywyd – cardioleg ymyriadol, syndromau coronaidd aciwt, gastroenteroleg, gofal strôc, cyflyrau niwrolegol, ac adsefydlu
- Iechyd meddwl, gwasanaethau anableddau dysgu a chamddefnyddio sylweddau

- Gwasanaethu newyddenedigol – llawdriniaeth ar gyfer babanod newydd-anedig, cyfleusterau ynysu ar gyfer COVID-19, mynediad at wasanaethau cludo ac adalw newyddenedigol
- Cyflyrau heintus eraill
- Gofal lliniarol
- Dialysis gofal yr arennau
- Gwasanaethau diogelu
- Terfynu beichiogrwydd
- Therapïau
- Cyflenwad brys o feddyginiaethau a chyflenwadau

Gwasanaethau hanfodol na allwn eu cynnal ar hyn o bryd

Y gwasanaeth meddyg teulu y tu allan i oriau

- Cynyddodd nifer yr ymgynghoriadau a gynhaliwyd ar ffurf cyngor dros y ffôn yn ystod 2021-2022 i tua 75-80% o'r holl gysylltiadau. Yn fwy diweddar, mae'r lefel hon wedi gostwng ac mae yna symudiad araf tuag at ddulliau rheoli cleifion cyn COVID-19, gyda thua 60% o lefelau'r galwadau cyfredol yn cael eu cynnal ar ffurf cyngor dros y ffôn heb fod angen cyswllt pellach na threfniadau dilynol. Yn ystod chwarter pedwar 2021-2022, roedd yna alw misol cyfartalog o 3,364 o alwadau. Yn ystod yr un cyfnod hwn, rheolwyd y galwadau ar draws y dosbarthiad canlynol:
 - Canolfan triniaethau 18%
 - Ymweliadau â'r cartref 5%
 - Atgyfeiriad at Ymddiriedolaeth GIG Gwasanaethau Ambiwylans Cymru 7%
 - Atgyfeiriad at adran frys 6%
 - Atgyfeiriad at ofal eilaidd 4%
- Mae yna ôl newid yng nghymhlethdod galwadau unigol dros amser hefyd, gyda'r amser cyfartalog fesul galwad yn dyblu o gymharu â'r amser cyfartalog o 11 munud cyn COVID-19. Pe byddai'r patrwm hwn yn parhau, byddai'n arwain at ostyngiad yn nifer y galwadau a anfonir ymlaen bob awr fesul meddyg teulu i uchafswm o dri.
- Mae'r gwasanaeth 111 wedi gwasgaru galwadau ychwanegol yn gyson cyn iddynt effeithio ar y gwasanaeth y tu allan i oriau lleol, ac mae hyn yn cyfrif am draean ychwanegol o alwadau. Yn unol â phatrymau blaenorol o ran atgyfeirio i'r gwasanaeth y tu allan i oriau, canolfannau Sir Gaerfyrddin sy'n gweld y galw mwyaf o hyd, ac mae Sir Benfro yn parhau i wasgaru mwy trwy ymweliadau â'r cartref.
- Mae'r gwasanaeth wedi llwyddo i recriwtio wyth meddyg teulu cyflogedig ychwanegol; fodd bynnag, ni fu'r effaith gadarnhaol net mor sylweddol ag y gobeithiwyd o ganlyniad i recriwtio rhai ohonynt o'r adnodd locwm. Gwelwyd sefyllfa fwy sefydlog yn ystod ail ran y flwyddyn, ond nid oedd hwn yn ddarlun cyson ledled y tair sir.
- Mae argaeledd cyffredinol cymorth meddygon teulu locwm wedi parhau i ostwng; fodd bynnag, ni ddylid ystyried bod trosglwyddo rhai i swyddi cyflogedig yn gyfystyr â cholli capasiti. Mae practis yn ystod y dydd a'r tu allan i oriau yn parhau i ddefnyddio'r un gronfa o adnoddau dynol, ac mae'r gwaith yn parhau i ddal y ddysgl yn wastad. Y brif her i'r gwasanaeth o hyd yw llenwi sifftiau ar y penwythnos, ac, yn ystod y deuddeg mis diwethaf, lefel tri (70-79%), ar gyfartaledd, yw'r lefel llenwi sifftiau gynaleddig orau a

gyflawnwyd. Mae'r gyfradd gyfartalog ar gyfer llenwi sifftiau yn ystod yr wythnos (heb gynnwys gwyliau banc) ar lefel un (>90%).

- Mae'r ffaith bod rhywfaint o'r adnodd uwch-ymarferwyr nyrsio wedi gadael, o ganlyniad i gael gwaith yn rhywle arall, yn golled bellach i'w nodi, ac, er mai cyfyngedig yw perthnasedd hyn i'r sifftiau yn ystod yr wythnos, mae'n dechrau cael rhywfaint o effaith ar gydnerthedd ar y penwythnos. Mae cynllun peilot yr uwch-ymarferwyr parafeddygol mewn partneriaeth ag Ymddiriedolaeth Gwasanaethau Ambiwlans Cymru yn parhau i gyfrannu adnodd pwysig i'r gwasanaeth yn gyffredinol. Bu'r holl uwch-ymarferwyr sydd ar gael i'r gwasanaeth y tu allan i oriau yn allweddol o ran galluogi i anghenion cleifion ledled y bwrdd iechyd gael eu rheoli yn y modd mwyaf priodol ac amserol.
- Mae'r gostyngiad dros dro yn y gwasanaethau yn Ysbyty'r Tywysog Philip, Llanelli ac ym Meddygfa Llyn-y-frân yn Llandysul yn parhau ar waith o ganlyniad i rotas sydd byth a hefyd yn fregus ar draws y gwasanaeth cyfan y tu allan i oriau, ac mae'r gallu cyfyngedig i gynyddu'r ddarpariaeth clinigwyr yn ddiogel yn y ddwy ganolfan hyn, heb ansefydlogi'r tair canolfan arall, yn parhau i fod yn her.
- Bydd system amserlenni clinigol ac anghlinigol newydd yn mynd yn fyw ym mis Mai 2022. Bydd hyn yn sicrhau bod y sifftiau sydd ar gael a dymuniadau unigolion i ymrwymo'n weinyddol yn gallu cael eu rheoli a'u cyfathrebu â'r tîm mewn modd mwy effeithlon. Disgwylir i hyn wella cydnerthedd y gwasanaeth clinigol, ynghyd â'r capasiti yn y tîm gweinyddol.

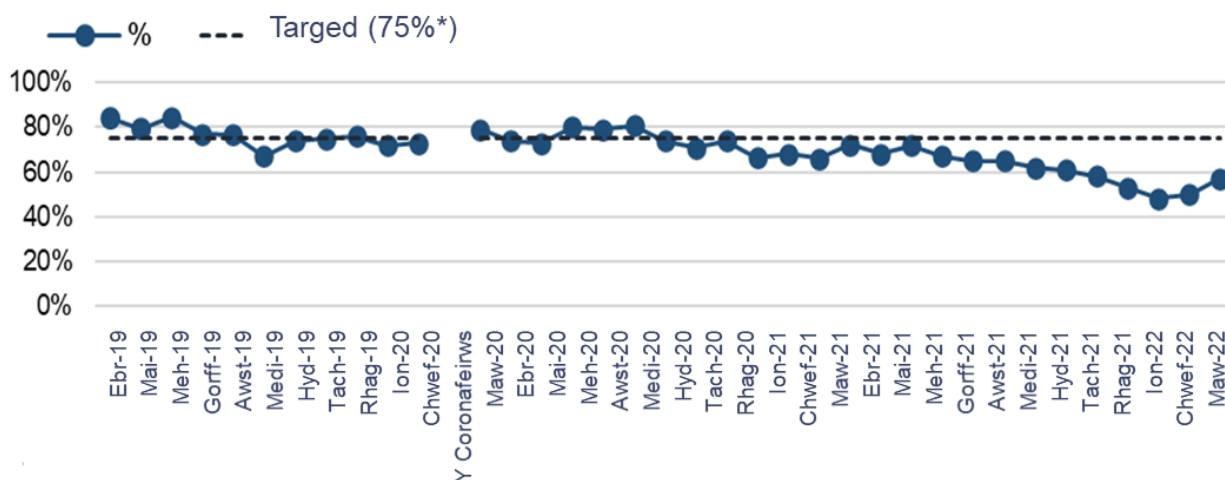

Canser

Mae'r canllawiau cenedlaethol ar gyfer gwasanaethau cancer yn ystod pandemig COVID-19 yn ei gwneud yn ofynnol i ni:

- sicrhau bod diagnosis, triniaeth a gofal cancer brys yn parhau cystal â phosibl er mwyn osgoi afiachusrwydd a marwolaethau ataliadwy;
- trin cleifion cancer yn unol â'r categorïau blaenoriaethu a nodir gan Rwydwaith Cancer Cymru;
- cynnal yr holl wasanaethau cancer.

Yn ystod 2021-22, nid oeddem wedi cyflawni'r targed o 75% ar gyfer cleifion cancer yn dechrau ar eu triniaeth cyn pen 62 diwrnod o'r adeg pan amheuwyd bod ganddynt ganser. Mae hyn yn ganlyniad i nifer o ffactorau, gan gynnwys problemau'n ymwneud â chapasiti diagnostig oherwydd canllawiau rheoli haint, yn arbennig ym maes radioleg. Mae salwch cysylltiedig â COVID-19, swyddi gwag ymhlith y staff, a gwyliau blynyddol wedi'u cynllunio wedi effeithio ymhellach ar y perfformiad. Mae'r perfformiad ar gyfer chwarter tri wedi bod yn dirywio o ganlyniad i'r cynnydd mewn salwch cysylltiedig â COVID-19, rheolaeth ar lifoedd cleifion cysylltiedig â COVID-19, a'r effaith gyffredinol ar ofal diagnostig a chritigol. Canlyniad hyn oll oedd lleihau gweithgarwch wedi'i gynllunio a heb ei gynllunio yn y byrdymor mewn perthynas â chleifion allanol a llawdriniaethau wedi'u cynllunio.

Cleifion yn dechrau ar eu triniaeth canser ddiffiniol gyntaf cyn pen 62 diwrnod

~ gyda gohiriadau clinigol

* y targed wedi'i newid ym mis Chwefror 2020 a wella ymhen 12 mis i 75%

Yr effaith ar ein cleifion

Mae angen i ni sicrhau ymateb effeithiol parhaus i COVID-19, gan hefyd ddarparu gwasanaethau hanfodol yn y gwasanaethau cleifion allanol, glynu wrth ganllawiau Llywodraeth Cymru ar gadw pellter cymdeithasol ac osgoi ymweliadau diangen ag ysbytai. Felly, bu'n ofynnol rhoi ystyriaeth ofalus i'r broses o ailgyflwyno ymgynghoriadau wyneb yn wyneb. Mae'r rhan fwyaf o apwyntiadau cleifion allanol (ym maes y fron, y pen a'r gwddf, y croen, a gynaecoleg) yn gofyn am archwiliadau neu driniaethau corfforol. Mae apwyntiadau rhithwir yn cael eu cynnal trwy atebion digidol megis Attend Anywhere.

Rydym wedi rhoi Panel Adolygu Llwybrau Canser ar waith i nodi unrhyw risg ar gyfer y cleifion hynny nad ydynt wedi cael eu triniaeth cyn pen 146 diwrnod o'r adeg pan amheuwyd bod ganddynt ganser. Hyd yma, ni nodwyd unrhyw niwed.

Mae clinigau oncoleg cleifion allanol yn cael eu cynnal trwy ymgynghoriadau dros y ffôn ac yn rhithwir lle bo angen; cefnogir hyn gan Dîm y Nyrsys Clinigol Arbenigol Oncoleg. Mae cemotherapi/therapi gwrth-ganser systematig (SACT) yn parhau i gael ei roi ym mhob un o'r pedwar ysbyty. Mae pob un o'r chwe lefel o SACT yn parhau i gael ei rhoi. Yr amser aros cyfredol am gemotherapi yw 15 niwrnod ledled safleoedd y bwrdd iechyd.

Ddechrau'r pandemig, sefydlwyd llinell cymorth canser anghlinigol er mwyn i gleifion, perthnasau a gweithwyr proffesiynol allu cyrchu cyngor a chymorth gan asiantaethau ac elusennau allanol. Mae yna gysylltiadau cryf rhwng y llinell hon a'r awdurdod lleol. Mae hwn bellach yn wasanaeth parhaol.

Yn ystod y flwyddyn ddiwethaf, cyfyngwyd ar ymweliadau yn unol â chanllawiau Llywodraeth Cymru. Ar hyn o bryd, gall teulu a ffrindiau fynd i ysbytai Hywel Dda ar sail gyfyngedig, a hynny wedi iddynt gytuno ymlaen llaw â staff yr ysbyty, ac yn unol â chanllawiau presennol Llywodraeth Cymru. Mae'r Gwasanaethau Cymorth Cleifion yn parhau i fod ar waith fel y gall cleifion neu ymwelwyr gysylltu gydag unrhyw gwestiynau a phryderon.

Materion allweddol a risgiau

Mae pandemig COVID-19 wedi effeithio ar ein darpariaeth o wasanaethau cancer hanfodol:

- Mae effaith COVID-19 wedi cynyddu'r risg o beidio â gallu cyflawni'r targed. Achosir yr oedi gan broblemau'n ymwneud â chapasiti diagnostig ledled y bwrdd iechyd, yn unol â'r canllawiau ar reoli haint sy'n parhau i fod ar waith. Y prif faes sy'n peri pryder yw radioleg.
- Bu yna ostyngiad yn y capasiti ar gyfer apwyntiadau ac adrodd ar ganlyniadau ym maes radioleg, a hynny o ganlyniad i salwch cysylltiedig â COVID, swyddi gwag cyfredol, a gwylliau blynyddol wedi'u cynllunio yn nau o bedwar safle y bwrdd iechyd. Cynigiwyd apwyntiadau amgen i'r cleifion ar safleoedd eraill; fodd bynnag, nid yw rhai cleifion wedi cytuno i fynd i'r apwyntiadau, ac maent wedi gofyn am apwyntiad yn agos at eu cartref.
- Mae perfformiad ym maes cancer wedi bod ar i lawr o ganlyniad i'r cynnydd mewn salwch cysylltiedig â COVID-19, rheolaeth ar lifoedd cleifion cysylltiedig â COVID-19, a'r effaith gyffredinol ar ofal diagnostig a chritigol. Canlyniad hyn oll oedd lleihau gweithgarwch wedi'i gynllunio a heb ei gynllunio yn y byrdymor mewn perthynas â chleifion allanol a llawdriniaethau wedi'u cynllunio. Mae clinigau a llawdriniaethau cancer dewisol gyda llwybr gwyrdd ac uned gofal dwys/uned dibyniaeth fawr werdd bellach wedi cael eu hailsefydlu ym mhob un o'r pedwar ysbyty aciwt.
- Ddechrau mis Mawrth 2021, gwelsom gynnydd o 38% yn nifer yr atgyfeiriadau brys lle'r amheuir cancer o gymharu â'r un cyfnod yn 2020. Erbyn diwedd mis Medi 2021, roedd nifer yr atgyfeiriadau wedi cynyddu 10% eto.
- Rydym wedi ymdrechu i sicrhau bod ein llawdriniaethau cancer dewisol gyda llwybr gwyrdd ac uned gofal dwys/uned dibyniaeth fawr werdd yn parhau ar waith. Bu yna achlysuron yn ystod brig y pandemig pan gafodd llawdriniaethau eu hadleoli i Ysbyty'r Tywysog Philip, ac eithrio llawdriniaeth y pen a'r gwddf, a barhaodd yn Ysbyty Glangwili. Y prif resymau am hyn oedd prinder gwelyau gofal critigol a materion staffio.
- Ailgychwynwyd yr holl llawdriniaethau cancer trydyddol (arbenigol).
- Ddechrau'r pandemig, cafodd endosgopi ei ganoli yn Ysbyty Glangwili. Yn dilyn y cyfyngiadau symud cyntaf yn 2020, cafodd y gwasanaethau endosgopi eu hailsefydlu ym mhob un o'r pedwar ysbyty, gyda'r capasiti yn cynyddu i 53%. O ganlyniad i gyflwyno llwybr gwyrdd ym maes endosgopi ym mis Mehefin 2021, mae'r capasiti wedi cynyddu, ac mae bellach yn 87%.
- Yn ogystal â'r pwyntiau y tynnir sylw atynt uchod, roeddem wedi profi cynnydd yn y galw y tu hwnt i'r capasiti sydd ar gael yn achos cleifion cancer yr oedd arnynt angen archwiliadau diagnostig.

Camau gweithredu allweddol a gymerwyd i sicrhau bod gwasanaethau cancer hanfodol yn parhau i gael eu darparu

- Ddechrau'r pandemig, cyflwynwyd llinell gymorth i roi cyngor a chymorth i gleifion cancer a oedd yn pryderu. Mae'r llinell gymorth yn parhau i fod ar waith.
- Mae Grŵp Diagnostig Llwybr Cancer Sengl, sy'n cynnwys yr holl reolwyr gwasanaethau, ar waith i edrych ar y capasiti a'r galw am wasanaethau diagnostig, ac mae'n edrych ar y capasiti sy'n ofynnol ar gyfer gwasanaeth diagnostig proses saith niwrnod.

- Lansiodd Clinig Diagnosis Cyflym yn y bwrdd iechyd ym mis Hydref 2021. Ar hyn o bryd, cynhelir un clinig yr wythnos yn Ysbyty'r Tywysog Philip. Mae cynlluniau'n cael eu hystyried ar gyfer cyflwyno'r gwasanaeth hwn ledled y tair sir.
- Ym mis Mehefin 2020, yn unol â Menter Canser y Coluddyn Cymru, cafodd prawf sgrinio imiwnocemegol ysgarthol (FIT10) llwyddiannus ei roi ar waith ar gyfer rheoli cleifion ar frys ar lwybr y colon a'r rhefr lle'r amheuir canser. Bydd y fenter hon yn cael ei chyflwyno i'r maes gofal sylfaenol gan y gwasanaeth endosgopi ddechrau 2022.
- Rhoddwyd dulliau digidol o ddarparu gofal ar waith yn ystod ton gyntaf y pandemig, ac arweiniodd hyn at ddau draean o'r cleifion yn cael apwyntiadau rhithwir, a dim ond traean ohonynt yn cael apwyntiadau wyneb yn wyneb.
- Rydym wedi rhoi Panel Adolygu'r Llwybr Canser ar waith.

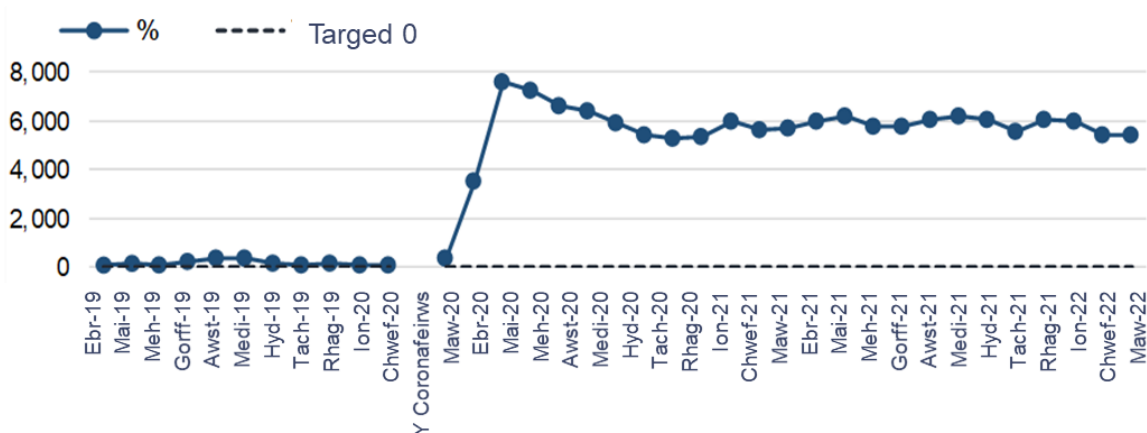

Diagnosteg

Mae gofynion canllawiau cenedlaethol y gwasanaethau diagnostig hanfodol yn golygu bod yn rhaid i ni wneud y canlynol:

- lleihau'r risgiau sy'n gysylltiedig â COVID-19;
- chwilio am ddatrysiadau hyblyg lleol i sicrhau'r capasiti mwyaf mewn modd diogel;
- darparu profion delweddu a diagnostig amserol ar gyfer diagnosteg gymwys mewn argyfwng (cyn pen 24 awr) a brys (cyn pen 72 awr), megis cleifion trawma mawr, canser, cardiaidd, gastroenteroleg a strôc;
- sicrhau bod gan gleifion fynediad at yr wybodaeth angenrheidiol i'w galluogi i wneud penderfyniad gwybodus ynghylch a ydynt am fwrw ymlaen â phrawf diagnostig wedi'i drefnu a/neu lawdriniaeth ai peidio.

Ym mis Ebrill 2021, roedd 5,989 o gleifion yn aros am fwy nag wyth wythnos am ddiagnostig penodol. Mae nifer yr achosion o dorri amseroedd aros wedi parhau ar lefel gymharol gyson yn ystod y 12 mis diwethaf; ym mis Mawrth 2022, torrwyd yr amseroedd aros 5,403 o weithiau. Ar draws y gwasanaethau diagnosteg yn Hywel Dda, rhestrau aros radioleg, endosgopi a niwroffisioleg sydd â'r nifer mwyaf o gleifion yn aros.

Cleifion sy'n aros wyth wythnos neu ragor am ddiagnostig penodol

Yr effaith ar ein cleifion

- Mae'r cyfyngiadau ar y capasiti yn golygu mai dim ond chleifion blaenoriaeth un (P1) a blaenoriaeth dau (P2) y mae'n rhaid i'r gwasanaeth endosgopi ddelio â nhw. Mae'r

cleifion P1 i gyd yn cael dyddiad cyn pen deng niwrnod gwaith. Ar hyn o bryd, mae'r cleifion P2 yn aros pum mis i gael dyddiad, ac mae'r canllawiau'n nodi pedwar mis. Nid yw cleifion blaenoriaeth tri na phedwar, na chleifion dan wyladwriaeth yn cael dyddiad yn y bwrdd iechyd ar hyn o bryd, oni bai fod y broses yn cael ei chyflymu am fod y symptomau'n newid. Os bydd symptomau claf yn newid, rhoddir adolygiad brys iddo, a chaiff y driniaeth endosgopi ei chynnal os tybir bod hynny'n ofynnol. Mae'r gwaith o werthuso'r cleifion sy'n aros yn parhau, ac rydym yn anfon llythyrau yn egluro wrth y cleifion yr hyn y dylent ei wneud os bydd eu symptomau'n newid.

- Mae adferiad cyflym yn dilyn y pandemig wedi'i gyfyngu ym maes radioleg o ganlyniad i brinder staff ac absenoldebau parhaus sy'n gysylltiedig â COVID-19. Ledled adrannau radioleg y pedwar prif ysbyty, cynhaliwyd sesiynau ychwanegol gyda'r nos ac ar benwythnosau, lle roedd hynny'n bosibl, er mwyn creu rhagor o slotiau apwyntiadau. Mae hyn wedi bod yn fwy cyfleus i rai o'n cleifion, ac wedi arwain at ostyngiad yn nifer y cleifion sy'n aros am wyth wythnos neu ragor am archwiliad diagnostig radioleg.
- Mae'r adran radioleg wedi parhau i adnewyddu cyfarpar, a bydd hyn yn sicrhau bod nifer y darnau o gyfarpar sy'n torri yn parhau mor fach â phosibl, a defnyddir y dechnoleg ddiweddaraf yn ein hadrannau, gan arwain at well perfformiad.
- Mae arosiadau hirach am ddiagnosteg gardiaidd wedi arwain at oedi o ran rhoi diagnosis clinigol, ynghyd â llwybr cyfan hirach na'r arfer/nag a ddymunir ar gyfer y cleifion. Canlyniad cysylltiedig â hyn yw bod cleifion yn ailymgwyflwyno â symptomau i'r gwasanaeth gofal sylfaenol a'r adran damweiniau ac achosion brys, ac yn cael eu derbyn i ysbytai aciwt.
- Mae ôl-groniad a gwaith adfer yn sgil COVID-19 wedi golygu bod cyfran o'r gweithgarwch tomograffeg gyfrifiadurol gardiaidd (CCT) a delweddu cyseiniant magnetig (MRI) cardiaidd yn cael ei darparu gan Ysbyty Sant Joseph, Casnewydd, sydd wedi'i gwneud yn ofynnol i gleifion deithio ymhellach ar gyfer y diagnostig hwn. Er gwaethaf hyn, mae'r adborth o safbwynt profiad y claf wedi bod yn gadarnhaol ac yn llawn canmoliaeth.
- Cafwyd cynnydd yn nifer y cleifion sy'n cysylltu â'r gwasanaethau cardioleg oherwydd anesmwythyd a phryder yn gysylltiedig ag oedi o ran diagnosteg.

Materion allweddol a risgiau

Fel y gwelir yn y siart uchod, mae pandemig COVID-19 yn parhau i effeithio'n sylweddol ar ein perfformiad o ran darparu gwasanaethau diagnostig:

- Mae'r capasiti wedi lleihau'n sylweddol o ganlyniad i'r mesurau rheoli haint gofynnol a'r lleihad mewn gwasanaethau yn ystod amrywiolyn Omicron.
- Mae prinder staff o ganlyniad i ynysu oherwydd COVID-19 a swyddi gwag wedi effeithio ar ein capasiti i fynd i'r afael ag ôl-groniadau a lleihau amseroedd aros.
- Mae pwysau parhaus o ran capasiti, methiant cyfarpar, a rhagofalon COVID-19 i gyd yn risgiau posibl a allai effeithio ar ein gallu i gyflawni targedau.
- Cafwyd cynnydd cyson yn nifer yr atgyfeiriadau cardioleg yn ystod 2021-22 o ganlyniad i ôl-groniad ac adferiad yn sgil COVID-19, yn ogystal â'r fenter adferiad dilynol ym maes cardioleg.
- Yn ystod 2021-22, mae'r capasiti i gynnal profion Ecocardiogram Traws-oesoffagaidd (ECHO) neu ECHO straen dobwrtamin wedi'i adfer i lefelau tebyg i cyn COVID-19.

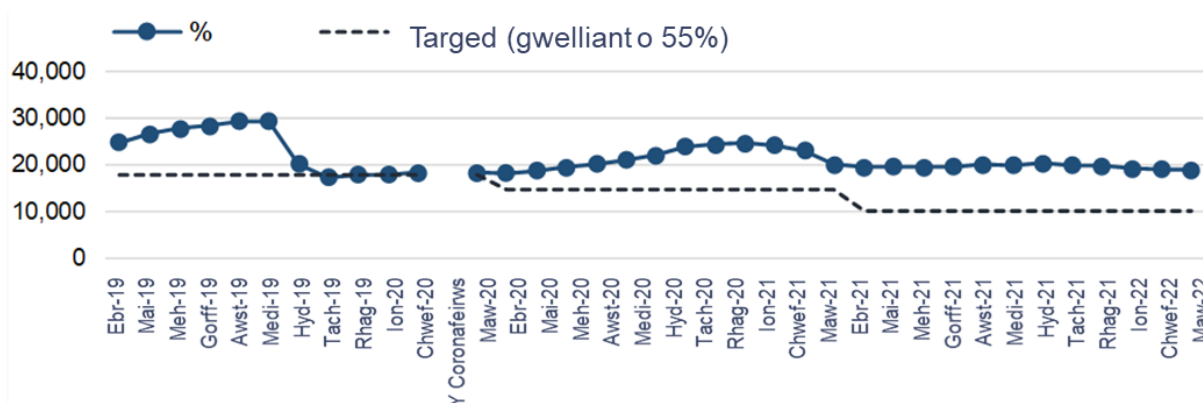

Camau gweithredu allweddol a gymerwyd i sicrhau bod gwasanaethau diagnostig hanfodol yn parhau i gael eu darparu

- Parhau i optimeiddio'r galw a'r capasiti, ymchwilio i opsiynau i gynnig contractau allanol, dilysu clinigol, a recriwtio, ac adolygu llwybrau i fodloni anghenion newidiol trwy gydol y flwyddyn.
- Cynnal y gwasanaethau ar gyfer gwaith cancer brys a lle yr amheuir cancer.
- Cysylltu â chyd-weithwyr ar hyd a lled Cymru i adolygu'r darlun cyffredinol a'r ateb posibl i gynorthwyo'r trefniadau adfer yn dilyn COVID-19.
- Dilysu rhestrau aros a threfniadau cadarn ar gyfer brysbennu atgyfeiriadau.
- Sefydlwyd wythnos waith chwe niwrnod yn Ysbyty Glangwili i gynnal pellter cymdeithasol a chynyddu nifer y profion diagnostig cardioleg a gynhelir.
- Symudwyd rhai gwasanaethau cardioleg oddi ar y safle i hwyluso'r trefniadau cadw pellter cymdeithasol.
- Cafodd capasiti allanol ar gyfer angiograffeg coronaidd tomograffeg gyfrifiadurol (CTCA) ac MRI cardiaidd yn Ysbyty Sant Joseff, Casnewydd yn ystod 2021-22 ei ariannu gan drefniadau adfer COVID-19.
- Mae gwell cyflogau a chyfraddau cyflog amser dwbl ar gyfer staff mewnol, a ariannwyd gan drefniadau adfer COVID-19, wedi helpu i fynd i'r afael â diffyg capasiti o ran ECHO a monitro cardiaidd yn ystod 2021-22.
- Mae ymarfer galw a chapasiti mewn perthynas â ffisioleg gardiaidd wedi nodi diffyg hanesyddol a chronig yn y gweithlu, a fydd yn parhau i lywio heriau i gynnal diagnosteg gardiaidd amserol.
- Nodir yng Nghynllun Tymor Canolig Integredig 2022-25 fod diffygion yn y gweithlu ffisioleg gardiaidd yn risg allweddol i'r gwasanaeth, a bod angen buddsoddiad.
- Cyflwynwyd gwasanaeth endosgopi cryno yn 2022 i leihau'r galw am gapasiti cwmpasu ymhellach.
- Mae sgriniau'n dal i gael eu defnyddio yn ardaloedd aros ac adfer ein gwasanaeth endosgopi i helpu i gynyddu'r capasiti mewn modd diogel. Sefydlwyd llwybr gwyrdd i alluogi i gapasiti'r gwasanaeth endosgopi gynyddu'n ôl i 87%.
- Bydd rhestrau ychwanegol yn cael eu sefydlu'n fewnol i leihau amseroedd aros P2 ymhellach.
- Cafodd pob claf endosgopi blaenoriaeth 1 ddyddiad cyn pen pythefnos.
- Parhaodd y profion imiwnocemegol ysgarthol yn unol â chanllawiau'r rhaglen genedlaethol.

Cleifion Allanol

Ym mis Mawrth 2022, roedd 66,418 o gleifion yn aros ar restr ddilynol, a chafodd 18,941 (28.5%) eu hoedi dros 100% mewn perthynas â'u dyddiad targed ar gyfer apwyntiad dilynol, sy'n welliant o 1,153 o gymharu â mis Mawrth 2021.

Apwyntiadau cleifion allanol dilynol wedi'u hoedi dros 100% (pob arbenigedd)

* Targedau: Llinell sylfaen Mawrth 2012 (22,395). 2019-20 – gwelliant o 20% ar y llinell sylfaen. 2020-21 – gwelliant o 35% ar y llinell sylfaen. 2021-22 – gwelliant o 55% ar y llinell sylfaen

Rydym wedi ystyried atebion mwy hyblyg i sicrhau'r capasiti mwyaf mewn modd diogel. Mae'r amcanion hyn yn cyd-fynd â [Strategaeth Trawsnewid Cleifion Allanol tair blynedd Llywodraeth Cymru](#). Mae enghreifftiau o atebion mwy hyblyg ac arloesol yn cynnwys datblygiadau ym maes llwyfannau digidol megis Attend Anywhere a Consultant Connect. Mae'r ddwy raglen wedi cael effaith gadarnhaol ar gleifion sy'n aros am eu hapwyntiad, gyda 30% o'r holl weithgarwch cleifion allanol yn ystod 2021-22 yn cael ei gynnal mewn modd rhithwir.

Mae'r gwasanaeth yn parhau i gyflwyno llwybrau Gweld pan fydd Symptomau (SOS) ac Apwyntiadau Dilynol a Ysgogir gan y Claf (PIFU) ar gyfer cleifion newydd a chleifion sy'n disgwyl apwyntiadau dilynol. Yn 2021-22, dyfarnwyd canlyniad o naill ai SOS neu PIFU i 6,461 o apwyntiadau dilynol, sydd wedi lleihau'r galw am apwyntiadau dilynol.

Yr effaith ar ein cleifion

Mae'r canllawiau cenedlaethol ar gyfer gwasanaethau cleifion allanol yn ystod pandemig COVID-19 wedi ei gwneud yn ofynnol i ni leihau'r risgiau sy'n gysylltiedig â throsglwyddo COVID-19 yn achos cleifion. Cyflawnwyd hyn trwy leihau nifer y cleifion ym mhob sesiwn glinigol. At hynny, mae'r timau nyrsio cleifion allanol wedi parhau i ddarparu safonau uchel o lendid trwy gynnal mesurau i atal a rheoli haint ledled y pedwar safle aciwt. Cafodd sgriniau COVID-19 eu prynu a'u gosod ledled pob safle. Bu adborth y cleifion ar y sgriniau yn gadarnhaol iawn, yn cynnwys pa mor ddiogel a sicr yr oeddent yn teimlo wrth fynd i adrannau cleifion allanol.

Mae'r timau nyrsio cleifion allanol wedi addasu a chryfhau trwy gydol y pandemig, ac wedi cynnal ymagwedd gadarnhaol at ffyrdd newydd o weithio er mwyn sicrhau ein bod yn darparu'r gofal gorau sy'n canolbwyntio ar y claf. Mae'r timau nyrsio ledled y pedwar safle yn barod am heriau yn y dyfodol mewn perthynas â chynlluniau ailosod ac adfer, ac yn parhau i flaenoriaethau diogelwch cleifion, ansawdd, a phrofiad y claf i bawb. Mae'r timau wedi parhau i gael adborth cadarnhaol trwy ganmoliaeth unigol, a thrwy'r fenter Feel Good Friday. Mae'r gwasanaeth hefyd yn mwynhau arfarniad rheolaidd trwy Envoy. Mae'r timau nyrsio yn cymryd rhan mewn prosiectau i wella gofal cleifion/y gwasanaeth a ddarperir, ac mae'r uwch-nyrs yn cymryd rhan mewn prosiect EQUIP (Galluogi Gwella Ansawdd mewn Ymarfer) ar hyn o bryd i wella gwasanaethau ar gyfer cleifion â nam ar y synhwyrau.

Materion allweddol a risgiau

Mae pandemig COVID-19 wedi arwain at ostyngiad yn y capasiti i gynnig apwyntiadau wyneb yn wyneb i gleifion allanol. Y prif reswm am hyn yw lefelau staffio is a chyfyngiadau ar gyfer rheoli haint. Mae'r trwybwn yn llai nag yr oedd cyn y pandemig o ganlyniad i'r cyfyngiadau hyn.

Camau gweithredu allweddol a gymerwyd i sicrhau bod gwasanaethau cleifion allanol hanfodol yn parhau i gael eu darparu

- Rydym wedi croesawu a gweithredu ffyrdd newydd o weithio er mwyn cynyddu capasiti cleifion allanol, sy'n cynnwys ymgymryd â gweithgarwch rhithwir yn ddewis amgen i weld cleifion wyneb yn wyneb.
- Crëwyd hyb rhithwir yn Ysbyty Glangwili fel bod gan staff meddygol ardal ddynodedig i gynnal apwyntiadau rhithwir gyda chleifion.
- Mae pob claf sy'n aros naill ai am ei apwyntiad cyntaf neu ei apwyntiad dilynol wedi cael ei ddilysu gan ddilysydd mewnol neu allanol er mwyn sicrhau bod apwyntiadau'n cael eu cadw ar gyfer y rhai y mae arnynt eu hangen fwyaf, a chaiff atgyfeiriadau neu apwyntiadau diangen eu dileu. Targedir y broses ddilysu at yr apwyntiadau dilynol sydd wedi'u hoedi dros 100%.
- Mae cyswllt wyneb yn wyneb wedi parhau lle bo angen ar gyfer cleifion ar frys.
- Gan adeiladu ar lwyddiant ein tîm cymorth rhestrau aros, rydym yn gweithio i sefydlu un pwynt cyswllt ar gyfer cleifion, i alluogi ymatebion a chynghor amserol.
- Rydym yn parhau i ddefnyddio'r llwybrau SOS a PIFU mewn dwy ffordd, a hynny'n rhan o'r broses ddilysu ac wedi i glaf gael apwyntiad dilynol.
- Mae llwybrau trawsnewid arloesol yn cael eu datblygu gan ddefnyddio cronfa Llywodraeth Cymru ar gyfer Trawsnewid Adrannau Cleifion Allanol. Mae'r rhain yn cynnwys:
 - hyrwyddo gwasanaethau optometreg ym maes gofal sylfaenol ar gyfer nifer o gyflyrau'r llygad;
 - datblygu rhaglenni rhagsefydlu ar gyfer cleifion sy'n aros am amser hir i gael triniaeth;
 - datblygu ymgynghoriadau grŵp rhithwir gyda chydgyssylltydd dynodedig.

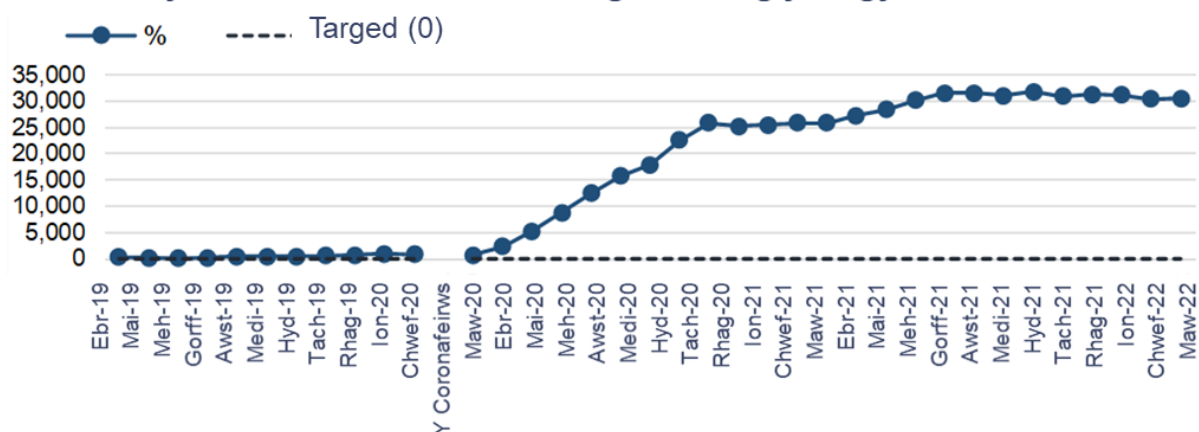

Rheoli ein rhestrau aros a nodi'r rheiny sydd â risg glinigol uwch neu risg uwch o gael niwed

Yn ystod pandemig COVID-19, mae'r canllawiau cenedlaethol ar gyfer gwasanaethau gofal wedi'i gynllunio yn ei gwneud yn ofynnol i ni:

- sicrhau bod gan gleifion fynediad at yr wybodaeth angenrheidiol i'w galluogi i wneud penderfyniad gwybodus ynghylch pa un a ydynt am barhau â llawdriniaeth;
- chwilio am ddatrysiadau hyblyg lleol er mwyn sicrhau'r capasiti mwyaf mewn modd diogel;
- lleihau'r risg sy'n gysylltiedig â COVID-19;
- cynnal asesiad risg ar gleifion, a blaenoriaethu yn unol â hynny fel bod y rhai sydd â risg glinigol uwch neu risg uwch o gael niwed yn cael eu trin gyntaf.

Yn 2021-22, er ein bod, lle bo hynny'n bosibl, wedi gweithio'n galed a mynd ati'n gyson i gynyddu'r capasiti i weld a thrin cleifion, mae'r pandemig wedi parhau i effeithio ar weithgarwch gofal wedi'i gynllunio wrth i ni gadw at gyfyngiadau'r llywodraeth i'n cadw'n ddiogel. Roedd yna effaith ychwanegol yn ystod y tonnau amrywiol o achosion o COVID-19 trwy gydol y cyfnod, lle bu'n rhaid lleihau gweithgarwch gofal wedi'i gynllunio, gyda dim ond gofal mewn argyfwng neu ofal canser brys yn parhau. O ganlyniad, cynyddodd nifer y cleifion a oedd yn aros 36 wythnos neu ragor rhwng cael eu hatgyfeirio a chael triniaeth (pob cam) o 25,868 ym mis Mawrth 2021 i 30,542 ym mis Mawrth 2022. Fodd bynnag, mae perfformiad yn 2021-22 wedi sefydlogi o gymharu â'r effaith ar berfformiad yn ystod blwyddyn gyntaf y pandemig.

Cleifion sy'n aros 36 wythnos neu ragor rhwng yr atgyfeiriad a'r driniaeth

Yr effaith ar ein cleifion

Rydym yn gweithio'n galed i leihau'r effaith y mae'r pandemig wedi'i chael ar ein cleifion.

- Mae pwysau o du gofal brys a gofal mewn argyfwng wedi parhau i effeithio ar nifer y gwelyau dewisol sydd ar gael; fodd bynnag, yn y flwyddyn ariannol newydd bydd y bwrdd iechyd yn elwa o ardaloedd gwarchodedig yn ysbytai'r Tywysog Philip, Llwynhelyg a Bronglais. Bydd hyn, ynghyd â buddsoddiad a datblygiad yr uned dros dro yn Ysbyty'r Tywysog Philip, yn cynyddu capasiti llawdriniaethau dydd ar gyfer y bwrdd iechyd, ynghyd â mynediad at driniaeth i gleifion.
- Rydym wrthi'n gweithio gyda thimau ffocws profiadol trwy'r Gwasanaethau Cymorth Rhestrau Aros i gysylltu â'n cleifion sydd wedi bod yn aros am amser hir, ac i'w cefnogi. Mae hyn yn cynnwys datblygu rhaglenni adsefydlu a rhagsefydlu i gynorthwyo eu sefydlogrwydd wrth iddynt aros ac i sicrhau iechyd optimaidd cyn y llawdriniaeth. Mae'r gwasanaeth hwn yn gweithio ochr yn ochr â'r timau gweithredol i gael adborth gwerthfawr gan gleifion, gan hefyd wneud defnydd o adborth cadarnhaol trwy ein Gwasanaeth Cyngor a Chyswllt Cleifion a'n timau cyfathrebu. Darperir adnoddau cefnogol i bobl sy'n aros am lawdriniaeth. Gellir dod o hyd i'r wybodaeth hon ar ein gwefan (<https://biphdd.gig.cymru/gofal-iechyd/gwybodaeth-covid-19/>) trwy ddewis 'ailgychwyn gwasanaethau' neu 'paratoi ar gyfer triniaeth'.
- Rydym wedi cysylltu â chleifion sydd wedi cyrchu gwasanaethau allanol trwy'r llwybr contractau allanol, ac wedi casglu data am brofiad y claf. Daw adroddiadau rheolaidd

am brofiad y claf i law gan ein partneriaid contractau allanol, ac mae'r adborth gan y cleifion yn gadarnhaol iawn yn gyffredinol.

- Mae gan y gyfarwyddiaeth gofal wedi'i gynllunio broses lywodraethu gadarn, lle caiff yr holl ddigwyddiadau, adolygiadau a threfniadau diogelu eu trafod, lle caiff cynlluniau gweithredu eu datblygu, a lle caiff timau eu hannog i gydweithredu i wella prosesau er mwyn cynnig gofal o'r ansawdd uchaf i'r cleifion.

Materion allweddol a risgiau

- Mae'r capasiti mewn clinigau a theatrau yn parhau i fod yn llai o gymharu â'r lefelau cyn y pandemig; y rheswm pennaf dros hyn yw trefniadau cadw pellter cymdeithasol a mesurau llym i reoli haint i'n cadw'n ddiogel. Adolygir hyn yn gyson yn unol â'r canllawiau cenedlaethol.
- Mae lefelau eithriadol o bwysau yn parhau i gael effaith; yn bennaf ar lefelau gweithgarwch a lefelau staffio o ganlyniad i salwch a hunanynysu, ac ar y gofyniad i gynnal llif digonol mewn lleoliadau aciwt i drin cleifion COVID-19 a chleifion nad oes ganddynt COVID-19.
- Bu'n angenrheidiol oedi llawdriniaethau wedi'u cynllunio dros dro yn ystod 2021-22. Mae hyn wedi ychwanegu at yr ôl-groniad, ac wedi rhoi pwysau ar y cynlluniau adfer.
- Teimlwyd pwysau sylweddol yn y sector preifat, gan gyfyngu ar ein gallu i drefnu bod gweithgarwch gofal wedi'i gynllunio yn cael ei ddarparu'n allanol. Fodd bynnag, gwnaed gwaith eang i gynyddu gweithgarwch a ddarperir yn allanol trwy gydol y flwyddyn, lle bynnag yr oedd hynny'n bosibl.
- Yr angen i atal cleifion rhag cael llawdriniaeth fawr tra bo ganddynt COVID-19, ac eithrio yn achos triniaethau'n ymwneud ag achub bywyd, coesau a breichiau, neu olwg, gan fod y canlyniadau yn debygol o fod yn wael.
- Mae pryder cyhoeddus yn dal i fodoli ynghylch mynd i ysbytai aciwt. Er mwyn lleddfu'r ofnau hyn, cyngor Llywodraeth Cymru ar hyn o bryd yw y dylai gorchuddion wyneb gael eu gwisgo ym mhob lleoliad gofal iechyd. Mae hyn yn parhau i gael ei hyrwyddo yn y bwrdd iechyd.
- Mae yna risg sylweddol o hyd mewn perthynas â swyddi gwag ymhlith y staff i sicrhau lefelau staffio diogel i gefnogi llawdriniaethau wedi'u cynllunio. Mae timau gweithredol yn gweithio gyda'r gweithlu meddygol a nyrsio i unioni hyn.

Yn unol â chanllawiau cenedlaethol, mae ein staff clinigol yn gweithio i asesu'r risg yn achos pob claf sy'n aros am driniaeth claf mewnol neu achos dydd. Erbyn 31 Mawrth 2022, roeddem wedi cynnal asesiad risg ar 76% o'r cleifion ar y rhestr aros; o blith y rhain, aseswyd bod angen i 6% gael eu llawdriniaeth cyn pen pedair wythnos oherwydd angen clinigol neu'r risg o niwed. Mae'r manylion fesul arbenigedd i'w gweld isod.

Cleifion sydd wedi cael eu hapwyntiadau cleifion allanol a/neu apwyntiad diagnostig ac sydd 'nawr yn aros am apwyntiad cleifion mewnol neu apwyntiad achos dydd, ar 31 Mawrth 2022.

*P1 – yn cwmpasu cancer brys ac argyfwng, sy'n cael eu blaenoriaethu

Camau gweithredu allweddol a gymerwyd i sicrhau bod gwasanaethau gofal wedi'i gynllunio hanfodol yn parhau i gael eu darparu

- Rydym yn parhau i gynllunio ein hadferiad. Mae llawdriniaethau wedi'u cynllunio wedi parhau yn Ysbyty Bronglais ac wedi ailddechrau yn Ysbyty'r Tywysog Philip yn achos orthopedeg, ac mae Ward 9 yn Ysbyty Llwynhelyg wedi ailagor ac wedi dechrau trin cleifion. Mae cancer yn parhau i gael ei drin ledled pob safle, gyda chanolfan ffocws yn Ysbyty'r Tywysog Philip. Mae gwasanaethau cancer arbenigol yn parhau yn Ysbyty Glangwili. Mae'r cynlluniau i adfer rhagor o gapasiti yn ystod 2022-23 yn cynnwys:
 - addasu Uned Llawdriniaethau Dydd Dyffryn Aman i ddibenion eraill er mwyn darparu llawdriniaethau cataractau bum niwrnod yr wythnos. Bydd hyn yn golygu adleoli'r gwasanaeth Dyrwydd Macwlaidd sy'n gysylltiedig â Henaint (AMD) i'r ardal cleifion allanol;
 - uned dros dro yn Ysbyty'r Tywysog Philip i ddarparu mynediad ychwanegol at lawdriniaethau dydd ar gyfer y bwrdd iechyd, y bwriedir ei hagor ym mis Mai 2022;
 - datblygu uned gofal lefel uwch (PACU) yn Ysbyty'r Tywysog Philip ac Ysbyty Llwynhelyg i leihau'r galw am ofal critigol ar gyfer cleifion dewisol.
- Lle bo hynny'n bosibl, mae cleifion yn cael cynnig apwyntiadau/triniaethau yn y sector preifat, a chafodd 6,849 o apwyntiadau/driniaethau eu cynnig yn y ffordd hon yn 2021-22. Bydd rhagor o wasanaethau'n cael eu darparu gan gyflenwyr allanol yn 2022-23.
- Lle bo hynny'n bosibl, darperir apwyntiadau rhithwir yn ddewis amgen i apwyntiadau wyneb yn wyneb i liniaru'r gostyngiad yn y capasiti cleifion allanol. Sefydlwyd hyb rhithwir yn Ysbyty Glangwili i hwyluso apwyntiadau rhithwir, gydag eraill i ddilyn yn 2022-23. Rydym 'nawr yn mynd ati ar frys i bennu hyd a lled y posibilrwydd o

ddychwelyd gweithgarwch cleifion allanol i'r lefelau cyn y pandemig trwy ddefnyddio apwyntiadau rhithwir ac wyneb yn wyneb.

- Y nod cychwynnol yw lleihau nifer y cleifion sy'n aros dros 104 wythnos i sero erbyn mis Mawrth 2023, a hynny'n rhan o gam un y mesurau gweinidogol i ddarparu mynediad at ofal amserol wedi'i gynllunio.
- Rydym wedi datblygu ac adolygu rhaglen oruchwyllo i fonitro gofal wedi'i gynllunio ôl-COVID-19, y byddwn yn monitro'r cynnydd trwyddi.
- Rydym wedi gweithredu llwybrau asesu cyn cychwyn a llwybrau sgrinio, sy'n cynnwys arwahanrwydd cymdeithasol cyn ac ar ôl llawdriniaethau, gyda phroffion sgrinio ar gyfer COVID-19 yn cael eu cynnal 72 awr cyn y llawdriniaeth.
- Mae'r gwaith o ddilysu rhestrau aros wedi parhau trwy gydol y pandemig, a hynny'n fewnol a thrwy wasanaeth dilysu technegol allanol.
- Mae'r bwrdd iechyd wedi bod yn ymgysylltu ag asiantaeth allanol, Lightfoot, sydd wedi gweithio'n agos gydag arbenigeddau allweddol ar gynlluniau adfer. Mae yna hefyd broses ailosod ac adfer fewnol, sy'n cael ei harwain ar hyn o bryd yn Watchtower. Caiff negeseuon rhifiadol allweddol a hydoedd amseroedd adfer eu hadolygu a'u hadrodd i'r tîm gweithredol, a fydd wedyn yn rhoi gwybod i'r bwrdd.

Gofal llygaid

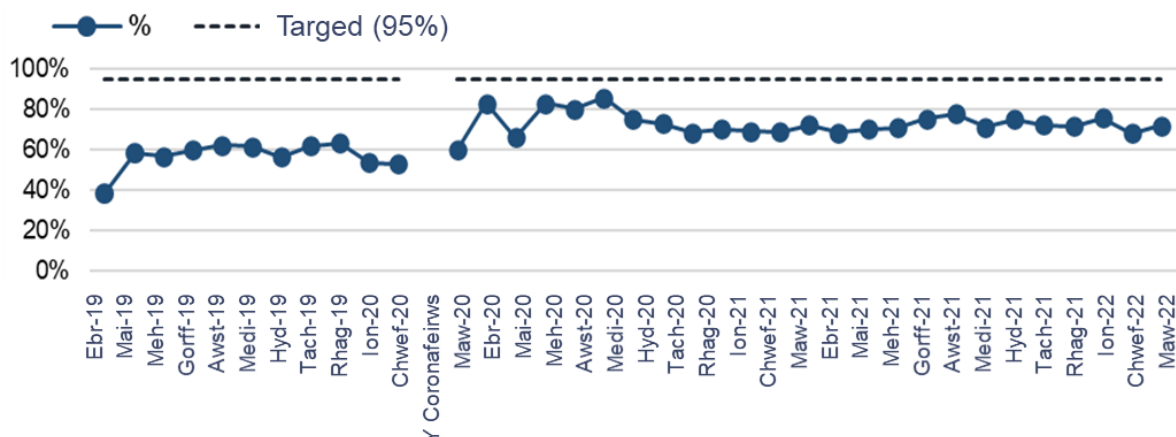

Mae'r canllawiau cenedlaethol ar gyfer gwasanaethau gofal llygaid yn ystod pandemig COVID-19 yn ei gwneud yn ofynnol i ni:

- sicrhau bod cleifion ar frys yn cael eu gweld a'u hadolygu fel y bo'n briodol;
- sicrhau bod strategaethau'n cael eu rhoi ar waith sy'n lliniaru'r gostyngiad yn y capasiti ar gyfer cleifion allanol offthalmoleg yn yr ysbyty.

Yn ystod 2021-22, cafodd diffiniad fframwaith cyflawni'r GIG o'r mesur hwn ei adolygu o gofnodi cleifion R1 (y rhai sydd mewn perygl o gael niwed na ellir ei wrthdroi neu o gael canlyniad anffafriol sylweddol pe byddai'r dyddiad targed yn cael ei fethu) sy'n aros o fewn dyddiad eu targed clinigol ar gyfer gofal a thriniaeth, i apwyntiadau R1 a fynychwyd o fewn dyddiad eu targed clinigol neu 25% y tu hwnt i dyddiad eu targed clinigol.

Mae'r diffiniad adolygedig hwn yn dangos bod perfformiad ar gyfer yr apwyntiadau R1 a fynychwyd wedi gwella oddi ar ddechrau'r pandemig o gymharu â chyn y pandemig. Gellir priodoli hyn i'r diffyg capasiti difrifol a oedd yn bodoli yng nghanau cynnar y pandemig, lle dim ond y cleifion R1 ar y brys mwyaf/yn yr argyfwng mwyaf a allai gael eu gweld. Yn dilyn gwelliant cychwynnol i'r targed o 95%, fwy neu lai, mae'r perfformiad wedi sefydlogi ar lefelau is o fis Medi 2020 ymlaen yn dilyn ailagor rhagor o glinigau offthalmoleg cyffredinol.

Apwyntiadau gofal llygaid R1 a fynychwyd o fewn y dyddiad targed (neu <25% drosodd)

Yr effaith ar ein cleifion

- Cafwyd adborth cadarnhaol cyffredinol gan gleifion a welwyd yn y sector annibynnol i gael eu llawdriniaeth, yn rhan o'r trefniadau i sicrhau darpariaeth allanol. Dengys yr adborth fod cleifion yn ddiolchgar iawn am gael apwyntiad er gwaethaf y pwysau a wynebwr ar hyn o bryd.
- Mae'r Swyddog Cyswllt Gofal Llygaid yn darparu adborth cleifion yn uniongyrchol i'r gwasanaeth mewn perthynas â phrofiad y claf, yn gadarnhaol ac yn negyddol, o'r gwasanaeth offthalmoleg ledled y bwrdd iechyd.
- Yn rhan o gyfarfodydd chwarterol y Grŵp Cydweithredol Gofal Llygaid, gallwn gael adborth cleifion trwy sefydliadau trydydd sector, ac rydym yn defnyddio'r wybodaeth hon i lywio newidiadau a gwelliannau i'r gwasanaeth er mwyn sicrhau bod y cleifion yn fodlon ar y gofal a gânt.
- Mae tîm y gwasanaeth yn mynd ati'n rhagweithiol i gwrdd â grwpiau cleifion, er enghraifft Cyngor Cymru i'r Deillion, er mwyn gwrandao ar brofiadau ac adborth gan gleifion, ac mae'n defnyddio hyn yn offeryn dysgu. Cafodd hyn ei oedi yn ystod y pandemig; fodd bynnag, bydd yn aildechrau yn ystod chwarter cyntaf 2022-23.
- Mae cyfarfodydd archwilio a llywodraethu (deufisol) wedi ailgychwyn, sy'n darparu offer ar gyfer dysgu pellach.
- Lluniwyd cynllun gweithredu yn dilyn yr adolygiad annibynnol o ofal llygaid yng Nghymru (adroddiad Pyott), a chaiff cynnydd ei fonitro trwy'r ECCG ac ARCH (Cydweithrediad Rhanbarthol ar gyfer Iechyd).
- Yn ystod 2022-23, mae'r gwasanaeth yn anelu at sefydlu mecanwaith ar gyfer adborth cleifion a fydd yn caniatáu i adborth cleifion gael ei rannu mewn adroddiadau yn y dyfodol.

Materion allweddol a risgiau

Mae pandemig COVID-19 yn parhau i effeithio ar ein perfformiad o ran darparu gwasanaethau gofal llygaid hanfodol:

- Oherwydd natur yr archwiliadau a'r profion sy'n ofynnol ar gyfer apwyntiadau offthalmoleg, mae'r gwasanaeth yn dibynnu'n drwm ar weithgarwch wyneb yn wyneb,

sy'n dal i fod yn gyfyngedig. Nid yw defnyddio apwyntiadau rhithwir yn ddull amgen yn addas ar gyfer mwyafrif helaeth y cleifion offthalmoleg.

- Mae nifer y llawdriniaethau arferol a'r capasiti i weld cleifion allanol wyneb yn wyneb yn parhau i fod yn is o gymharu â'r lefelau cyn y pandemig. Mae hyn yn ganlyniad i ffactorau megis mesurau i atal a rheoli haint yn cyfyngu ar lif cleifion, ynghyd â phrinder staff oherwydd salwch a chyfnodau o hunanynysu.
- Gwelwyd gostyngiad yn argaeledd darparwyr allanol ar gyfer apwyntiadau/triniaethau cataractau trwy gydol y pandemig o ganlyniad i lefelau eithriadol o bwysau yn y sector annibynnol.
- Roedd cleifion newydd wedi profi arosiadau hirach oherwydd effaith gyfunol cyfyngiadau cysylltiedig â'r pandemig, cynnydd yn yr ôl-groniad o gleifion a achoswyd gan y pandemig, diffyg gofod clinigol, a phrinder offthalmolegwyr ymgynghorol a staff offthalmig anfeddygol profiadol.

Camau gweithredu allweddol a gymerwyd i sicrhau bod gwasanaethau gofal llygaid hanfodol yn parhau i gael eu darparu

Mae'r gwasanaethau offthalmoleg wedi cael eu had-drefnu i fodloni gofal brys hanfodol lle bo angen:

- Trwy gydol y pandemig, rydym wedi cynnal triniaethau ac adolygiadau ar gyfer cyflyrau sy'n bygwth golwg neu fywyd yn uniongyrchol (gan flaenoriaethu'r cleifion hynny a oedd yn wynebu'r perygl mwyaf):
 - Caiff pob atgyfeiriad a ddaw i law ei frysbenno, a dynodir ffactor risg iechyd a bennir yn glinigol ar ei gyfer.
 - Mae'r cleifion glawcoma sy'n aros ar hyn o bryd yn cael eu hailflaenoriaethu gan y tîm clinigol i bennu lefel y risg fesul achos. Bydd yr achosion hyn yn cael eu rhannu i un o chwe categori newydd o gleifion R1 er mwyn sicrhau bod y rhai sy'n wynebu'r perygl mwyaf yn cael eu gweld gyntaf.
 - Mae'r gwasanaethau'n parhau i gael eu darparu 24 awr y dydd, a hynny trwy rota meddygon ymgynghorol ar alwad ar gyfer achosion brys.
- Mae'r ffaith bod uwch-glinigydd yn brysbenno cleifion llygaid ar frys dros y ffôn wedi lleihau nifer yr unigolion sy'n dod i'r ysbyty, gyda chleifion yn cael eu rheoli trwy lwybrau eraill, gan gynnwys presgripsiynwyr annibynnol mewn practisau optometrig.
- Rydym yn parhau i ailsefydlu clinigau cleifion allanol a theatrau ledled y bwrdd iechyd lle bo hynny'n bosibl, gyda'r nod o gynyddu ein capasiti mewnol y tu hwnt i'r lefelau a oedd ar gael cyn y pandemig.
- Rydym wedi ailgychwyn gweithdai ARCH, ac rydym yn parhau i weithio'n agos gyda Bwrdd Iechyd Prifysgol Bae Abertawe (BIPBA) i ddatblygu ymateb rhanbarthol ac atebion ar gyfer y byrdymor, y tymor canolig a'r hirdymor. Mae hyn yn cynnwys y canlynol:
 - cynlluniau rhanbarthol ar gyfer adfer llawdriniaethau cataractau. Mae hyn yn golygu addasu Uned Llawdriniaethau Dydd Dyffryn Aman at ddibenion llawdriniaethau cataractau, ac adleoli'r gwasanaeth AMD i'r ardal cleifion allanol. Bydd hyn yn darparu capasiti i gynnal llawdriniaethau cataractau bum niwrnod yr wythnos;
 - mae Gwasanaeth Glawcoma De-orllewin Cymru wedi cychwyn, gyda chefnogaeth arweinydd clinigol BIPBA. Bydd yn cefnogi'r broses o leihau arosiadau ar gyfer

apwyntiadau glawcoma dilynol trwy ddatblygu gwasanaeth o fewn Hywel Dda ar ein safleoedd aciwt ac mewn practisau optometrig cymunedol.

- Mae'r gwasanaeth therapi pigiad mewnwydrog wedi parhau ar gyfer pob claf trwy gydol y pandemig; fodd bynnag, mae angen rhagor o unigolion anfeddygol i roi pigiadau a mwy o le i ateb y galw ar y gwasanaeth, sy'n cynyddu 13% y flwyddyn.
- Dechreuodd y trefniadau ar gyfer contractau allanol yn y sector annibynnol yn ystod 2021-22, ac mae 2,388 o achosion wedi cael eu cyflawni hyd yma.
- Lle bo hynny'n bosibl, darperir gweithgarwch rhithwir, sy'n cynnwys y canlynol:
 - o clinigau retinopathi diabetig rhithwir sy'n defnyddio Consultant Connect, a ddechreuodd ym mis Chwefror 2022;
 - o mae astudiaeth ymchwil ar y gweill sy'n galluogi i gleifion AMD gael apwyntiad dilynol mewn practisau optometrig dan oruchwyliaeth rithwr meddyg ymgynghorol.

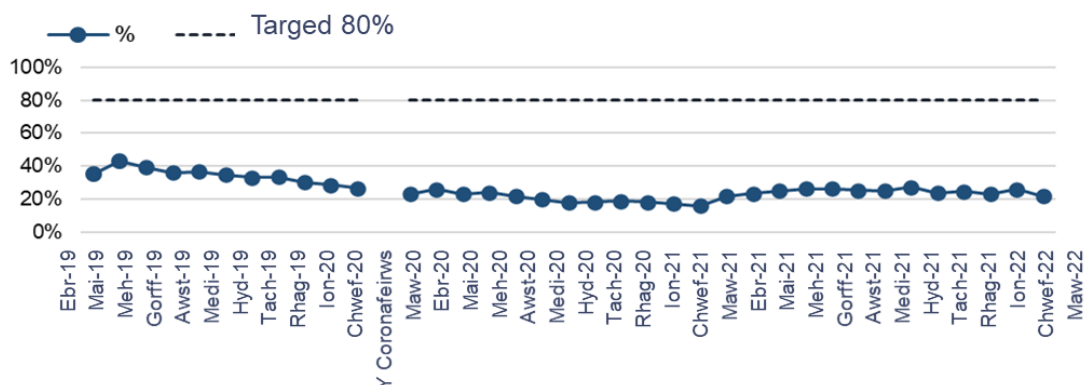

Gwasanaethau iechyd meddwl

Mae'r canllawiau cenedlaethol ar gyfer gwasanaethau iechyd meddwl yn ystod pandemig COVID-19 yn ei gwneud yn ofynnol i ni wneud y canlynol:

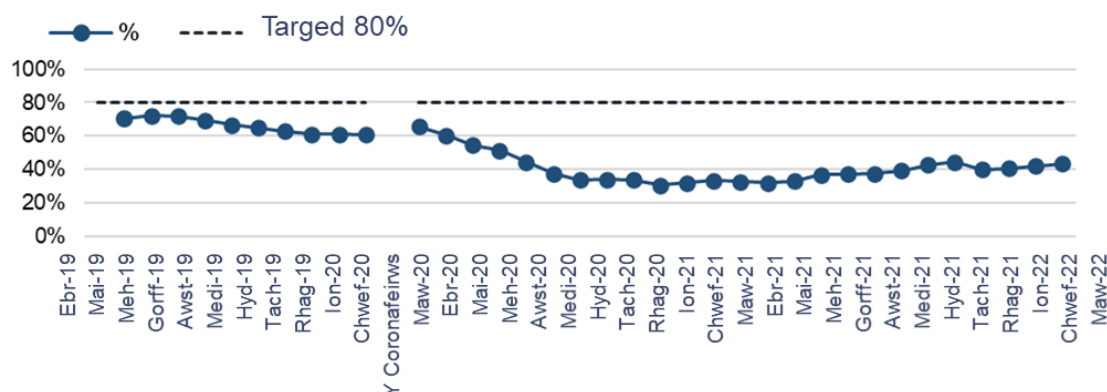

- parhau i ddarparu asesiadau'r Ddeddf Iechyd Meddwl (y Ddeddf), mewn ysbytai a'r tu allan iddynt, fel ei gilydd;
- darparu amrywiaeth o leoliadau gofal cleifion mewnol mewn perthynas ag iechyd meddwl ac anabledau dysgu ar gyfer cleifion anffurfiol a chleifion a gedwir o dan y Ddeddf. Mae hyn yn cynnwys ymyriadau meddygol, nyrsio a therapiwtig a ddarperir gan y tîm amlddisgyblaethol i hyrwyddo adferiad a sicrhau diogelwch cleifion;
- cynnal archwiliadau iechyd meddwl mewn adrannau brys neu leoliadau cyffredinol eraill mewn ysbytai yn dilyn achosion o hunan-niweidio neu lle y gallai fod yna arwyddion o broblemau iechyd meddwl;
- darparu pum swyddogaeth asesiad y Gwasanaeth Cymorth Iechyd Meddwl Sylfaenol Lleol;
- gweithio ar y cyd ar draws timau iechyd meddwl ac anhwylderau bwyta arbenigol i ddarparu gwasanaeth monitro, cymorth a thriniaeth yn y gymuned ac mewn cartrefi.

Nid oeddem wedi cyflawni'r targed trwy gydol 2021-22 ar gyfer plant a phobl ifanc yr oedd arnynt angen asesiad niwroddatblygiadol, nac ar gyfer oedolion a oedd yn aros am therapi seicolegol.

Plant/oedolion ifanc yn aros llai na 26 wythnos am asesiad niwroddatblygiadol

Oedolion yn aros llai na 26 wythnos i gychwyn therapi seicolegol*

Mae ein Cyfarwyddiaeth Iechyd Meddwl ac Anableddau Dysgu wedi bod yn gweithio gyda phartneriaid awdurdodau lleol a'r trydydd sector i sicrhau bod yna ddarpariaeth eang o wasanaethau ar gael yn y man lle y mae eu hangen. I alluogi hyn, rydym wedi cryfhau gwasanaethau Haen 0 fel y gall ein poblogaeth gael cymorth a help yn haws, ac wedi diogelu'r gwasanaethau mwy arbenigol fel bod y rhain ar gael yn y man lle y mae eu hangen. Rydym wedi parhau i fuddsoddi unwaith eto yn ein gwasanaethau y tu allan i oriau a'n gwasanaethau cyswllt, a'u hatgyfnerthu, er mwyn galluogi mewnbwn iechyd meddwl mwy amserol.

Yr effaith ar ein cleifion

- Yn 2021-22, rydym wedi parhau i gynnal ymweliadau lle bo hynny'n rhesymol ymarferol; y prif gyfyngiad oedd pan fyddai yna achosion o COVID-19.
- Mae pob cleient sydd wedi bod yn aros dros 26 wythnos am ymyriad yn cael llythyr cadw mewn cysylltiad i roi sicrwydd iddo ei fod yn bwysig i ni. Yn y llythyr hwn rydym yn darparu opsiynau cyfeirio at help gan y trydydd sector, gwasanaeth cwnsela ar-lein SilverCloud, a dolenni i wefan y bwrdd iechyd.
- I sicrhau bod adborth rheolaidd a diweddar yn dod i law gan ddefnyddwyr y gwasanaeth a chleifion mewnol, mae'r Gyfarwyddiaeth Iechyd Meddwl ac Anableddau Dysgu wedi lansio ei chod QR a'i ffurflen adborth ei hun i ddarganfod barn y cleifion am y gwasanaeth a ddarperir, a hynny yn yr ardaloedd cleifion mewnol ac yn y gymuned.
- I sicrhau bod y gyfarwyddiaeth yn dysgu o bob digwyddiad yn y gyfarwyddiaeth (nid dim ond digwyddiadau difrifol), caiff adroddiad llywodraethu misol ei lunio sy'n amlinellu tueddiadau, themâu, cynnydd a gostyngiadau yn yr achosion o hunan-niweidio, cwympiadau, marwolaethau annisgwyl, ac amheuaeth o hunanladdiad. Caiff yr adroddiad llywodraethu, ynghyd ag adborth gan grwneriaid Ei Mawrhydi, eu rhannu a'u dosbarthu ymhlith yr holl staff yn y gyfarwyddiaeth. Yn ystod y 12 mis diwethaf, cynhaliwyd archwiliad o'r trefniadau rhyddhau i sicrhau bod yna gynllunio digonol ar gyfer rhyddhau cleifion o ardaloedd cleifion mewnol. Roedd canlyniadau'r archwiliad hwn yn gadarnhaol, a dim ond nifer bach o bwyntiau gweithredu yr oedd angen mynd i'r afael â nhw.
- Mae swyddog atal hunanladdiad wedi cael ei benodi i sicrhau bod canllawiau a themâu o'r Ymchwiliad Cyfrinachol Cenedlaethol i Hunanladdiad a Diogelwch mewn Iechyd Meddwl (NCISH) yn cael eu rhannu'n eang, a bod staff yn ymwybodol o ddarlun newidol

o anghenion yn y gwasanaethau iechyd meddwl. Mae'r wybodaeth hon hefyd ar gael i'r holl staff trwy'r safle SharePoint, Sicrwydd Ansawdd a Datblygiad Proffesiynol (QAPD).

- Mae ymchwiliadau i ddigwyddiadau a gynhelir yn unol â chanllawiau 'Gweithio i Wella' yn cael eu rhannu'n eang â'r timau sy'n cymryd rhan yng ngofal y cleifion ac wedi i'r adolygiad mewnol gael ei gwblhau. Tynnir sylw'r holl staff at yr argymhellion a chwblheir cynlluniau ar gyfer gwella, ac mae'r gwasanaethau gweithredol yn arwain y gwaith o roi'r camau gweithredu ar waith.

Materion allweddol a risgiau

Mae pandemig COVID-19 wedi effeithio ar ein perfformiad o ran darparu gwasanaethau iechyd meddwl hanfodol.

- Rydym wedi bod yn dyst i effeithiau cymdeithasol y pandemig yn dylanwadu ar bobl mewn modd emosiynol, gan ddod i'r amlwg ar ffurf gorbryder neu iselder, neu ar ffurf anghenion ymarferol heb eu diwallu, yn hytrach nag ar ffurf cyflyrau iechyd meddwl sy'n gofyn am ddiagnosis a thriniaeth. Bu hyn yn amlwg o ran aciwtedd cynyddol y bobl sy'n cael eu gweld. Felly, rydym yn disgwyl y bydd ar bobl angen rhagor o gymorth o'r math Haen 0/Haen 1.
- Rydym yn gweithio gyda rhwydwaith Cymru gyfan o Gyfarwyddwyr Iechyd Meddwl ac Anableddau Dysgu COVID-19 ac arweinwyr Llywodraeth Cymru i ystyried ffyrdd o atgyfnerthu argaeledd gwasanaethau Haen 0 gan fod yna gydnabyddiaeth y bydd y pandemig yn cael effaith bellgyrhaeddol ar gydnerthedd a llesiant meddyliol pobl. Rydym hefyd wedi bod yn gweithio gyda chyd-weithwyr yr awdurdod lleol a'r trydydd sector yn lleol i atgyfnerthu'r ddarpariaeth Haen 0. Rhaid i'r gwasanaethau hyn fod yn gadarn fel y gall gwasanaethau iechyd meddwl eilaidd gael eu diogelu i fodloni'r cynnydd arfaethedig yn y galw o ganlyniad i'r pandemig, a hynny mewn ffordd sy'n caniatáu i'r rhai y mae angen iddynt eu cyrchu wneud hynny mewn modd amserol.
- Swyddi gwag ymhlith y staff ledled y gyfarwyddiaeth, gyda 17% o'r holl swyddi yn wag ar hyn o bryd. Mae hyn yn cynnwys rolau proffesiynol a gweinyddol. At hynny, gall fod yn anodd cadw staff, ac mae'r sefyllfa'n cael ei gwaethygu gan brinder cenedlaethol o ymarferwyr iechyd meddwl cofrestredig.
- Mae pwysau o ran gofod ledled y gyfarwyddiaeth yn effeithio ar gapasiti, a hynny mewn perthynas â darparu apwyntiadau a hefyd o ran darparu gweithle ar gyfer staff clinigol a gweinyddol. Mae cynnydd yn y cyllid ychwanegol gan Lywodraeth Cymru o flwyddyn i flwyddyn i ddatblygu a gwella'r gwasanaethau ymhellach wedi gwaethygu'r sefyllfa.
- Mae'r defnydd o lwyfannau digidol wedi cael ei gyflymu trwy gydol y flwyddyn i ddarparu cyfleoedd rhithwir lle bo hynny'n briodol. Mae heriau'n parhau i fodoli o ran cael gafael ar gyfarpar priodol i ehangu'r defnydd o'r cyfleuster hwn.
- Mae cyfraddau salwch ymhlith staff yn y gwasanaethau iechyd meddwl yn uwch na'r cyfartaledd ar gyfer y bwrdd iechyd, ond maent wedi bod yn gyson â gwasanaethau iechyd meddwl eraill yng Nghymru.
- Rydym yn parhau i gael llif rheolaidd o atgyfeiriadau ar gyfer anhwylderau'r sbectrwm awtistig (ASD) ac anhwylder diffyg canolbwytio a gorfywiogrwydd (ADHD), sy'n gofyn am asesiadau diagnostig. Nifer bach o unigolion sydd yn y timau, ac maent yn gofyn am staff sydd wedi'u hyfforddi'n briodol; mae hyn yn golygu bod y gwasanaeth a ddarperir yn sensitif i swyddi gwag ac absenoldebau.

- Cyfraddau uwch o ran cleifion 'na ddaeth i'r apwyntiad' (DNA) yn cael eu profi yn y gwasanaethau iechyd meddwl o gymharu â'r cyfartaledd ar gyfer y bwrdd iechyd.

Camau gweithredu allweddol a gymerwyd i sicrhau bod gwasanaethau iechyd meddwl hanfodol yn parhau i gael eu darparu

- Yn dilyn ton gyntaf y pandemig, daeth y gwaith o ddatblygu un pwynt cyswllt ar gyfer iechyd meddwl ac anableddau dysgu i ben oherwydd blaenoriaethau gwrthgyferbyniol. Rydym 'nawr yn gweithio i roi'r gwasanaeth iechyd meddwl 111 ar waith, a fydd yn wasanaeth 24/7.
- Un o egwyddorion craidd ein gweledigaeth oedd datblygu gwasanaethau cymunedol 24/7 ledled y tair sir. Dechreuasom dreialu'r broses o integreiddio timau iechyd meddwl cymunedol i ddarparu gwasanaeth galw heibio 24/7 yng Ngheredigion cyn y pandemig. Yn ystod y pandemig, aethom ati i ddatblygu hyn trwy gydleoli ac integreiddio ein timau triniaeth yn y cartref i ddatrys argyfwng a'n timau iechyd meddwl cymunedol i ddarparu gwasanaethau iechyd meddwl saith niwrnod yr wythnos.
- Mae gwasanaethau a gomisiynwyd gan y trydydd sector wedi addasu trwy gydol y pandemig i gynnig gwasanaethau dros y ffôn/ar-lein ledled y tair sir lle bo hynny'n bosibl. Maent yn mynd ati'n barhaus i ddiweddarau cyfeiriaduron lleol o wasanaethau.
- Rydym yn gweithio gyda phartneriaid, gan gynnwys y trydydd sector, i ddarparu llochesi y tu allan i oriau a threialu gwelyau lletygarwch, gan ddarparu mannau diogel ar gyfer pobl sy'n dioddef o drallod meddwl ac yn cael eu cadw gan yr heddlu o dan Adran 136 o'r Ddeddf Iechyd Meddwl.
- Mae'r datblygiadau uchod wedi ein galluogi i gyflymu'r broses o ddarparu ein strategaeth yn unol â darpariaeth ein rhaglen trawsnewid gwasanaethau iechyd meddwl.
- Mae gwaith yn mynd rhagddo i bennu cwrpas opsiynau i lenwi ein swyddi gwag. Rydym yn archwilio mathau eraill o rolau i ôl-lenwi meysydd o ddiffyg – fodd bynnag, dim ond meddygon a all gyflawni rhai dyletswyddau statudol penodol, yn unol â'r Ddeddf Iechyd Meddwl a'r Mesur Iechyd Meddwl. At hynny:
 - mae ymgyrch recriwtio ar waith mewn disgyblaethau sy'n cynnwys gwasanaethau meddygol a seicoleg;
 - gwneir defnydd o staff cronfa, asiantaeth a locwm, lle bo hynny'n bosibl, i ôl-lenwi yn achos swyddi gwag a salwch.
- Mae trefniadau gweithio saith niwrnod yr wythnos ar waith mewn nifer o ardaloedd.
- Mae'r gyfarwyddiaeth yn blaenoriaethu'r broses o addasu ac ailddefnyddio llety ledled y bwrdd iechyd er mwyn cynyddu'r capasiti.
- Mae cyfleoedd i ddarparu capasiti ychwanegol yn y sector annibynnol yn cael eu harchwilio'n barhaus, a disgwylir i'r gwasanaeth anhwylderau'r sbectrwm awtistig plant a'r glasoed gychwyn apwyntiadau gyda darparwr annibynnol yn y flwyddyn ariannol newydd.
- Y defnydd o lwyfannau rhithwir i ddarparu rhagor o gapasiti yn ddull amgen i apwyntiadau wyneb yn wyneb, lle bo hynny'n bosibl.
- Pennwyd cwrpas y broses o gynnal grwpiau therapiwtig, a bydd hyn yn cael ei dreialu.
- Bydd y gwaith o ddatblygu ac integreiddio System Gweinyddu Cleifion Cymru (WPAS) yn y gyfarwyddiaeth gyfan yn cynorthwyo'r gwaith o fonitro rhestrau aros a'r broses o gynllunio galw a chapasiti. Mae WPAS yn cael ei chyflwyno fesul cam.

Gofal gydag urddas

Bu'r flwyddyn ddiwethaf yn heriol yn sgil gofynion parhaus y pandemig, ac mae cynnal y ddarpariaeth o ofal gydag urddas i'n holl gleifion wedi bod yn flaenoriaeth i'r staff i gyd. O ganlyniad i ail d COVID-19 (27 Gorffennaf 2020 tan 16 Mai 2021), profodd ein gwasanaethau bwysau eithafol a effeithiodd ar ein poblogaeth a'n gwasanaethau cleifion mewnol. Profwyd sefyllfa debyg yn ystod y drydedd don (17 Mai 2021 tan 19 Rhagfyr 2021) ac yn ystod brig Omicron, a effeithiodd ar ein poblogaeth a'n gwasanaethau cleifion mewnol. Cynhaliodd y gwasanaethau gofal sylfaenol a chymunedol adolygiadau clinigol rheolaidd ar gyfer ein cleifion, a oedd yn cynnwys, lle roedd hynny'n briodol, gynlluniau ar gyfer gofal diwedd oes i gleifion COVID-19.

Mae cynrychiolwyr o'n timau clinigol ar y Siarter Cenedlaethol i Ysbytai sy'n deall Dementia, a fydd yn cael ei lansio ym mis Ebrill 2022; yn dilyn hyn, bydd ffrydiau gwaith yn cael eu sefydlu i gefnogi'r broses o weithredu'r siarter, a bydd hyn yn flaenoriaeth ar gyfer y flwyddyn sydd i ddod.

Rydym yn parhau i weithio mewn partneriaeth, gan gynnwys ag awdurdodau lleol a'r trydydd sector, i gefnogi'r rheiny sydd â nam ar y synhwyrâu, yn unol â Safonau Cymru Gyfan ar gyfer Darparu Gwybodaeth Hygyrch i Bobl â Nam ar eu Synhwyrâu a Chyfathrebu â Hwyl. Rydym yn ymdrechu i sicrhau bod y cleifion hynny sydd â nam ar y synhwyrâu yn cael gwasanaethau a gwybodaeth hygyrch, a hynny trwy ddarparu gwybodaeth mewn fformatau amgen, ynghyd â mynediad at ddehonglwyr lle bo angen. Mae'r staff wedi cael hyfforddiant ar nam ar y synhwyrâu yn ystod y flwyddyn, gan gynnwys sesiynau ar laith Arwyddion Prydain. Mae gwybodaeth am y ffordd y gall staff gefnogi defnyddwyr gwasanaethau, gan gynnwys trefnu dehonglwyr ymlaen llaw, defnyddio opsiynau dehongli digidol a dros y ffôn, defnyddio cymhorthion cyfathrebu, a darparu gwybodaeth mewn fformatau hygyrch, yn cael eu nodi yn y Polisi Dehongli a Chyfieithu, a ddiweddarwyd yn ddiweddar.

Yn unol â phob bwrdd iechyd ledled Cymru, rydym yn cynnal adolygiad o heintiau COVID-19 a gafwyd yn yr ysbyty er mwyn sicrhau bod y bwrdd iechyd yn dysgu ac yn gwneud gwelliannau. Mae methodoleg yr adolygiad yn cynnwys ystyried canfyddiadau'r adolygiad o farwolaethau a gynhaliwyd, y penderfyniadau clinigol a wnaed, megis cynllunio ar gyfer gofal diwedd oes, a'r gwaith o reoli pob achos. Bydd yr hyn a ddysgir yn cael ei gyflwyno ar sail adolygiad thematig fesul ysbyty.

Yn y gwasanaethau iechyd meddwl ac anableddau dysgu, rhoddwyd mesurau ar waith i gynnal urddas cleifion yn ystod cyfyngiadau COVID-19. Yn ystod y cyfnod anodd hwn, ymatebodd staff y wardiau iechyd meddwl trwy hwyluso 'ymweliadau rhithwir' gan ddefnyddio dyfeisiau megis iPads a gliniaduron i ddarparu cyswllt ag anwyliad y cleifion. Gwnaeth y cleifion ddefnydd rheolaidd o'r system RITA hefyd. Roedd y cleifion trwm eu clyw wedi gwneud defnydd da o ddyfais clywed a oedd yn mwyhau'r sain, ac a ddarparwyd gan y wardiau, fel y gallent gyfathrebu mewn modd effeithiol; cafodd y seinyddion ar gyfer y dyfeisiau hyn hefyd eu darparu gan y bwrdd iechyd. Roedd yn amlwg iawn bod y cleifion a'r teuluoedd yn dawel eu meddwl yn dilyn y cyswllt rhithwir. Aed ati hefyd i annog perthnasau i barhau i ddod â danteithion i'w hanwyliad eu mwynhau ar y ward. Daethant ag eitemau

eraill i'r ward hefyd, a hynny gyda chymorth ac arweiniad parhaus gan Dîm Rheoli Haint y bwrdd iechyd.

Cynhaliwyd adolygiadau clinigol yn rheolaidd hefyd. Roedd y rhain ar ffurf ymgynghoriadau wyneb yn wyneb neu rithwir trwy gydol yr holl gyfyngiadau; at hynny, roedd y staff yn rhoi'r wybodaeth ddiweddaraf i bob teulu/gofalwr dros y ffôn yn wythnosol. Roedd y ffaith na allai teuluoedd na gofalwyr gael cyswllt wyneb yn wyneb â'u hanwyliaid yn peri gofid iddynt, felly roedd y staff yn darparu cymorth emosiynol a thosturi i'r teuluoedd, yn enwedig i'r partneriaid. Defnyddid cyfrif Twitter y wardiau iechyd meddwl oedolion hŷn i ddangos y gweithgareddau therapiwtig a gynhelid ar y ward, gan lynu wrth gyfrinachedd a sicrhau bod urddas y cleifion yn cael ei gynnal, a hynny bob amser wrth gwrs. Rhoddid gwybod i'r perthnasau am hyn, ac fe'u hanogid i edrych ar y cyfrif i gael tawelwch meddwl.

Oherwydd y cyfyngiadau a roddwyd ar waith yn sgil pandemig COVID-19, nid oedd y cleifion yn yr ardaloedd clinigol yn gallu gweld eu perthnasau wyneb yn wyneb am fod yna risg uchel o haint. Wedi cael cyngor gan y Tîm Rheoli Haint, a chan ddilyn protocolau PPE llym, cyflwynwyd mesurau i gefnogi'r cleifion hynny yr oedd eu cyflwr meddyliol mewn perygl oherwydd y diffyg cyswllt â'u teulu. Er enghraifft, roedd y straen a'r trallod o gael eu gwahanu oddi wrth eu hanwyliaid wedi peri i lefelau maeth rhai cleifion ostwng. Felly, caniatawyd i berthnasau'r cleifion hyn gynnal ymweliadau preifat mewn modd a fyddai'n lleihau'r siawns o gyflwyno unrhyw heintiau i'r ward. Roedd effaith y cyswllt wyneb yn wyneb hwn wedi sicrhau gwelliannau amlwg i lesiant a chyflwr meddyliol y cleifion, gan gynnal urddas a lefel uchel o ofal sy'n canolbwyntio ar y claf ar yr un pryd.

Gweithio i Wella

Gweithio i wella

Rydym ni, y bwrdd iechyd, yn rheoli pryderon yn unol â Rheoliadau'r Gwasanaeth Iechyd Gwladol (Trefniadau Pryderon, Cwynion ac Iawn) (Cymru) (Diwygio) 2011. [Darllenwch ragor yma am 'Gweithio i Wella: Mynegi eich pryderon ynghylch y GIG'](#)

Nod 'Gweithio i Wella' yw sicrhau proses sengl a chefnogol i bobl fynegi pryder, a darparu ymateb effeithiol ac amserol sy'n seiliedig ar egwyddorion tryloywder a gonestrwydd. Mae dysgu o bryderon yn rhan hanfodol o'r broses hon. Caiff gwybodaeth bellach am yr hyn yr ydym wedi'i wneud mewn ymateb i adborth sydd wedi dod i law, ynghyd â chanlyniadau ymchwiliadau i bryderon, eu hegluro isod.

Rhoi pobl wrth

wnawn

Pryderon (cwynion)

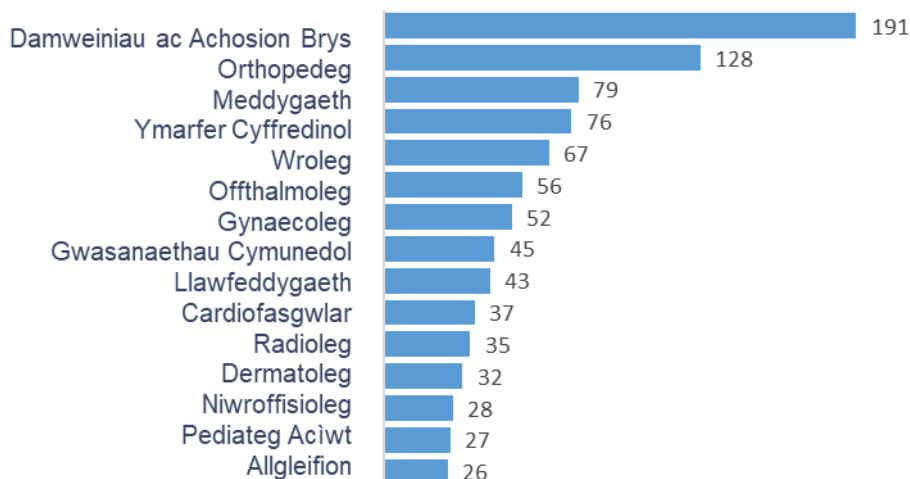

Yn ystod y cyfnod rhwng 1 Ebrill 2021 a 31 Mawrth 2022, daeth 2,244 o bryderon (cwynion) i law, a gafodd eu rheoli yn unol â'r rheoliadau Gweithio i Wella.

Rydym yn gwbl ymrwymedig i ddatrys cwynion mewn modd amserol, a gall y rhan fwyaf o'n pryderon gael eu rheoli cyn pen 30 diwrnod gwaith.

Pan nad yw hyn yn bosibl (er enghraifft pan fydd cwynion yn ymwneud ag asiantaethau lluosog, neu pan fydd cwyn yn ymwneud â digwyddiad difrifol iawn), ein nod yw datrys materion cymhleth cyn pen chwe mis. Mae gwella amseroldeb a chanlyniadau'r broses pryderon yn flaenoriaeth er mwyn i ni sicrhau y gellir mynd i'r afael ag unrhyw gamau unioni cyn gynted â phosibl. Yn ystod y flwyddyn, roeddem wedi ymateb i 62% o'r pryderon a ddaeth i law cyn pen 30 diwrnod gwaith. O blith y rhai a aeth heibio i'r targed, ymatebwyd i 26% ohonynt cyn pen chwe mis, ac aeth 12% ohonynt heibio i chwe mis. Yn y cyfamser, atgyfeiriwyd 20 o'r pryderon hyn at Gynllun Gwneud Iawn y GIG.

Mae nifer y cwynion fesul arbenigedd wedi'u nodi isod:

Cwynion fesul arbenigedd – y 15 uchaf

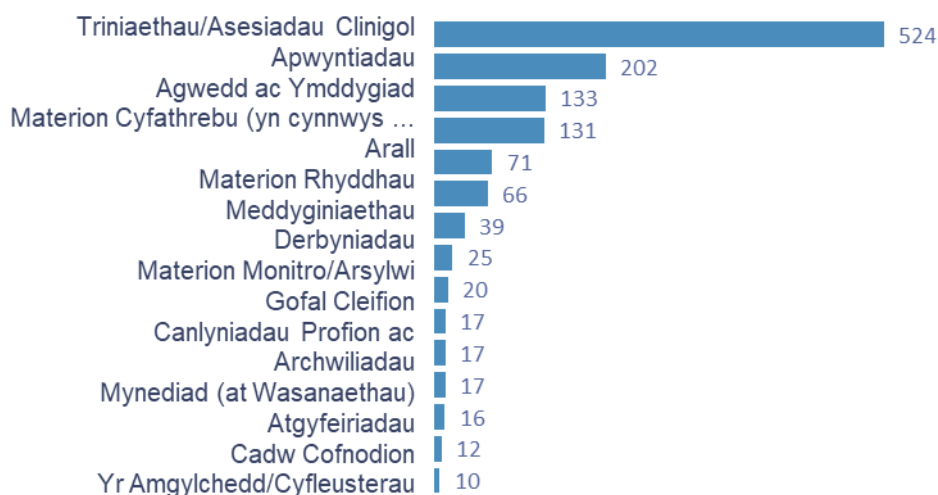

Yr arbenigeddau y mynegwyd y nifer mwyaf o bryderon yn eu cylch oedd ein hadrannau damweiniau ac achosion brys, meddygaeth, ymarfer cyffredinol, a'r gwasanaethau orthopedig. Rhaid ystyried y niferoedd hyn yng nghyd-destun lefel uchel o weithgarwch cleifion a chysylltiadau yn y meysydd hyn, yn ogystal â'r pwysau ychwanegol a brofwyd gan y gwasanaethau oherwydd pandemig COVID-19.

Yn achos ymarfer cyffredinol, mae yna 49 o bractisau yn bodoli ar hyn o bryd (gyda phedwar ohonynt yn bractisau a reolir gan y bwrdd iechyd). Mae'r rhif uchod yn cynrychioli cyfanswm nifer y pryderon a fynegwyd ar draws ymarfer cyffredinol.

Prif reswm pobl dros fynegi pryderon yw oherwydd triniaethau ac asesiadau clinigol, amserau aros am apwyntiadau, agwedd ac ymddygiad, a materion cyfathrebu. Mae'r tabl isod yn dangos y 15 thema uchaf o ran cwynion.

Cwynion fesul pwnc – y 15 uchaf

Yn ystod y flwyddyn, cafodd nifer o wasanaethau llai brys eu hatal dros dro am resymau diogelwch cleifion, yn unol â chanllawiau Llywodraeth Cymru mewn perthynas â phandemig COVID-19. Mae hyn, yn naturiol, wedi peri pryder i'n cleifion ynghylch amseroedd aros ac apwyntiadau. Roedd cyfathrebu yn achos pryder arall, yn enwedig ar gyfer teuluoedd ac anwyliad nad oeddent yn gallu ymweld â'u perthnasau a oedd yn aros ar wardiau ein hysbytai. Roedd hwn yn amser heriol i bawb dan sylw, gan gynnwys ein staff. Trwy gydol y flwyddyn, rydym wedi ceisio adfer ystod mor llawn â phosibl o wasanaethau, ar yr amod y gellid cynnal diogelwch y cleifion a'r ymwelwyr.

Ombwdsmon Gwasanaethau Cyhoeddus Cymru

Yn ystod y cyfnod 2021-22, cyfeiriwyd cyfanswm o 76 o gwynion i Ombwdsmon Gwasanaethau Cyhoeddus Cymru. O blith y rhain, arweiniodd 37 at ymchwiliad, a chytunwyd ar setliad yn achos pedwar ohonynt, cafodd un ei gynnal, cafodd 10 eu cynnal yn rhannol, ni chafodd dau eu cynnal, ac mae 20 yn dal i fynd rhagddynt.

O blith y 39 a oedd yn weddill, cofnodwyd 30 yn ymholiadau; roedd y rhain yn cynnwys 10 datrysiad cynnar, naw nad ymchwiliwyd iddynt, pedwar ymchwiliad wedi dechrau, a saith yn aros am gyfarwyddyd pellach. Cafodd naw cwyn eu gwrthod yn llwyr gan yr Ombwdsmon.

O blith y cwynion a arweiniodd at ymchwiliad, roedd 11 o'r holl gŵynion yn ymwneud â gofal heb ei drefnu, roedd 10 arall yn ymwneud â gofal wedi'i drefnu, roedd naw ym maes gofal sylfaenol, pump ym maes menywod a phlant, a dau ym maes iechyd meddwl ac anableddau dysgu.

Roedd y themâu craidd a gofnodwyd yng nghanfyddiadau'r Ombwdsmon yn ymwneud â'r canlynol:

- Cyfathrebu, gan gynnwys cyfathrebu â chleifion, teuluoedd, a byrddau iechyd eraill;
- Oediadau, gan gynnwys oedi o ran asesiadau, adolygiadau a diagnosteg;
- Cofnodion, gan gynnwys arferion cadw cofnodion gwael, anghywirdebau, hepgoriadau ac anghysondebau;
- Delio â chŵynion, gan gynnwys oedi o ran cwblhau ymchwiliadau, cyfleoedd ar gyfer dysgu myfyriol yn cael eu colli, peidio ag ystyried torri dyletswydd.

Profiad y claf a dysgu o gŵynion

Rydym yn ymroddgar iawn i wella profiad y claf trwy'r adborth a gawn, pa un a yw'r aborth yn brofiadau cadarnhaol, neu'n achosion lle caiff pryderon a chŵynion eu mynegi. Pan fydd pobl yn dweud wrthym y gallent fod wedi cael profiad, rydym yn defnyddio hyn i gyfeirio ein dulliau dysgu a gwella ni, y bwrdd iechyd.

Mae dulliau electronig o ddarparu adborth, er enghraifft ein Prawf Ffrindiau a Theulu, yr arolwg ar-lein ar gyfer cleifion, a Diolch o Galon, yn ogystal â chardiau wedi'u hargraffu ac arolygon wardiau, yn galluogi pobl i rannu eu hadborth yn gyflym ac yn rhwydd, ac yn rhoi gwybodaeth werthfawr i ni i gefnogi gwelliant parhaus.

Ar hyn o bryd, rydym yn rhoi system electronig profiad y claf ar waith, a fydd ar gael ledled ein holl wasanaethau, gan gynnwys y gwasanaethau cymunedol.

Mae ein bwrdd yn cael manylion yr adborth sydd wedi dod i law gan ddefnyddwyr y gwasanaethau ym mhob un o'i gyfarfodydd, a rhoddir gwybod iddo am yr hyn sy'n cael ei wneud i wella profiad y claf. Mae'r adroddiadau am brofiad y claf, sy'n cynnwys straeon cleifion ynghylch amrywiaeth o brofiadau, i'w gweld yma:

<https://biphdd.gig.cymru/amdanom-ni/eich-bwrdd-iechyd/cyfarfodydd-y-bwrdd-2022/>

Y llynedd, dywedasom wrthyfych am [ein Siarter Gwella Profiadau](#) sy'n nodi'r hyn y gall defnyddwyr ein gwasanaethau ei ddisgwyl wrth ddefnyddio ein gwasanaethau. Mae'n nodi nifer o addewidion yr ydym yn eu galw'n 'brofiadau bob amser'. Rydym yn parhau i weithredu'r siarter ac adrodd am gynnydd trwy ein hadroddiad i'r bwrdd ar wella profiadau.

Mae dysgu o adborth yn elfen hanfodol wrth reoli pryderon. Heb adborth gan ddefnyddwyr ein gwasanaethau a'n staff, ni fyddwn yn gallu gwella'r gwasanaethau yn barhaus er diogelwch y cleifion.

Mae'r crynodeb isod yn dangos rhywfaint o'r adborth pwysig sydd wedi dod i law, a'r hyn yr ydym wedi'i wneud i sicrhau newidiadau:

Dywedasoeh y canlynol:	Gwnaethom ni
<p>Rydych am i ni barhau i weithio ar gyfathrebu. Er ein bod yn cydnabod ypwysau sydd ar y wardiau, mae'r gallu i gael diweddariadau ystyrlon ar lesiant perthnasau ac anwyliaid yn bwysig.</p>	<p>Y llynedd cafodd rôl newydd – y Swyddog Cyswllt â Theuluoedd – ei chyflwyno ar y wardiau ac mewn rhai cyfleusterau cymunedol. Prif ddiben y rôl yn ystod y pandemig oedd cefnogi cyfathrebu rhwng cleifion, eu teuluoedd, a staff y ward, yn ogystal â gwella profiad y claf. Oherwydd yr adborth cadarnhaol a gafwyd gan gleifion, bydd y rôl hon yn parhau ac yn canolbwyntio ar wella profiad y claf a'r teulu yn yr ysbyty. Bydd hyn yn cael ei werthuso'n llawn trwy gydol y flwyddyn wrth i'r rôl ddatblygu. Byddwn hefyd yn darparu hyfforddiant ychwanegol i'r holl staff ar bwysigrwydd cyfathrebu effeithiol.</p>
<p>Mae angen i ni, y bwrdd iechyd, ymbaratoi yn well ar gyfer derbyn pobl â nam ar y synhwyrâu yn ein hadrannau brys ac ar gyfer apwyntiadau cleifion allanol.</p>	<p>Bydd staff derbynfeydd a staff sgrinio wedi'u paratoi'n well ar gyfer derbyn pobl â nam ar y synhwyrâu. Bydd gan y staff siartiau laith Arwyddion Prydain i'w helpu i gyfathrebu; mae'r rhain wedi cael eu cyfieithu i'r Gymraeg a'u dosbarthu ledled y bwrdd iechyd.</p>
<p>Wedi i gyfle i adnabod claf diabetig gael ei golli pan ddaeth i uned mân anafiadau, dywedasoeh fod angen i ni sicrhau bod y staff wedi cael hyfforddiant digonol a'u bod yn gallu adnabod diabetes yn ein cleifion iau.</p>	<p>Mae peiriant a ddefnyddir i fesur glwcos gwaed wedi cael ei osod yn ein huned mân anafiadau, a gofynnwyd i'r nyrsys brysbennu ystyried ei ddefnyddio pan fydd pobl ifanc yn ymglyfwno â symptomau penodol. Atgyfnerthwyd hyn ag adnoddau dysgu diabetig ar-lein i gefnogi gwybodaeth y staff.</p>
<p>Gall cael cyfle i ymweld â phobl yn yr ysbyty ar ddiwedd eu hoes gael effaith ddofn ar y claf, ei deulu, a'n staff. Mae angen i ni sicrhau bod hyn wrth wraidd ein cynlluniau ar gyfer trefniadau ymweld.</p>	<p>Rydym wedi adolygu'r trefniadau ar gyfer ymweld â chleifion ar ddiwedd eu hoes. Mae'r staff wedi cael cyfleoedd hyfforddi sy'n berthnasol i ofal diwedd oes, ac mae cydymffurfedd yn cael ei fonitro gan uwch-nyrsys ar y wardiau. Rydym yn parhau i ailfynegi'r angen am gyfathrebu da ag aelodau o'r teulu pan fyddant yn wynebu'r anhawster o golli anwylyn.</p>
<p>Er y gellir disgwyl oedi, gwnaed y profiad o aros mewn Adran Damweiniau ac Achosion Brys yn fwy anodd gan yr amgylchedd ffisegol. Gallai'r seddi yn yr ardaloedd</p>	<p>Rydym wedi cydnabod bod yr amgylchedd ffisegol yn yr Adran Damweiniau ac Achosion Brys yn Ysbyty Glangwili yn her, a bod angen ei wella. Rydym wedi prynu cadeiriau a sgriniau newydd i helpu i wella'r profiad.</p>

aros fod yn well, yn enwedig yn Ysbyty Glangwili.	
Mae angen i'r staff yn yr Adran Damweiniau ac Achosion Brys gael rhagor o hyfforddiant ar iechyd meddwl ac anableddau dysgu.	Mae'r holl staff yn yr Adran Damweiniau ac Achosion Brys yn ymwybodol o'r angen i wneud addasiadau rhesymol wrth asesu cleifion â salwch meddwl neu anableddau dysgu. Mae yna drefn addysgu ar waith ar gyfer ein meddygon sy'n gweithio mewn adrannau brys, a bydd yna gynllun hyfforddi ehangach ar gael ar gyfer nyrsys a gweithwyr cymorth gofal iechyd fel y gallant fod yn eiriolwyr ac fel bod ganddynt yr wybodaeth i gefnogi'r grŵp cleifion penodol hwn.

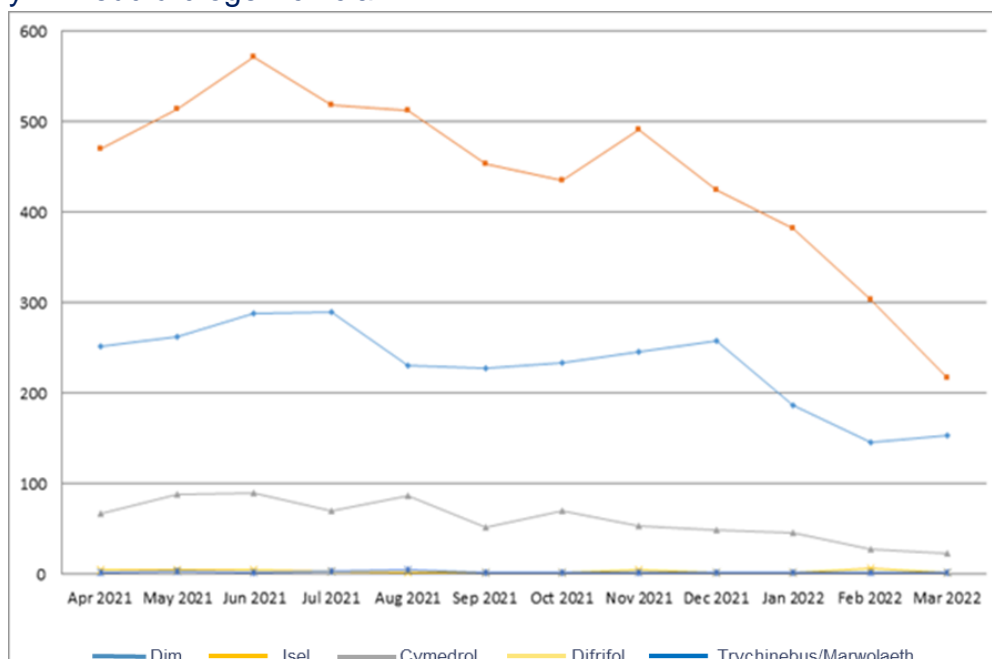

Pryderon (digwyddiadau)

Ar 1 Ebrill 2021, cyflwynasom y System Rheoli Pryderon Unwaith i Gymru, DatixCymru. Cynlluniwyd y system yn benodol i ddiwallu anghenion sefydliadau GIG Cymru, ac mae'n galluogi dull cyson ledled Cymru ar gyfer cofnodi pryderon. Y bwrdd iechyd oedd y sefydliad cyntaf yng Nghymru i fynd yn fyw gyda DatixCymru.

Yn ystod y cyfnod rhwng 1 Ebrill 2021 a 31 Mawrth 2022, cafodd 14,165 o bryderon (digwyddiadau) ynghylch diogelwch cleifion eu cofnodi.

Mae cyflwyno DatixCymru wedi newid y ffordd y caiff difrifoldeb niwed ei gofnodi. Mae'r system newydd yn galluogi'r sawl sy'n cofnodi i roi syniad cychwynnol o'r niwed i'r unigolyn yr effeithiwyd arno. Yn dilyn yr ymchwiliad, mae'r swyddog ymchwilio yn cadarnhau lefel y niwed (caiff hyn ei gofnodi ar wahân, ac ni chaiff y sgôr wreiddiol a roddwyd wrth gofnodi ei newid).

Mae'r siart rhedeg isod yn dangos difrifoldeb y niwed yn dilyn ymchwilio i'r digwyddiad yn ymwneud â diogelwch claf:

O blith yr 14,165 o ddigwyddiadau a gofnodwyd yn ymwneud â diogelwch cleifion, ymchwiliwyd i 7,173 ohonynt a chaewyd yr achos. Addaswyd difrifoldeb 3,254 o ddigwyddiadau; cafodd 2,233 o ddigwyddiadau eu hisraddio, a chafodd 901 eu huwchraddio.

Digwyddiadau'n ymwneud â niwed pwyso a niwed lleithedd yw'r digwyddiadau a gofnodir amlaf o hyd (3,178 o ddigwyddiadau'n ymwneud â niwed pwyso a 3,387 yn ymwneud â niwed lleithedd), yn cael eu dilyn gan ddamweiniau, anafiadau ac ymddygiad (yn cynnwys trais ac ymddygiad ymosodol).

O blith y 3,178 o ddigwyddiadau lle cofnodwyd niwed pwyso, roedd 1,696 yn bresennol cyn i'r unigolyn gael ei dderbyn i'r ardal glinigol.

Yn achos pob digwyddiad yn ymwneud â niwed pwyso, cynhelir adolygiad ffocws. Yn 43 o'r achosion lle mae'r adolygiad ffocws wedi'i gwblhau, ystyrid y gellid bod wedi osgoi'r niwed pwyso (a oedd wedi datblygu neu waethygu yn ystod y cyfnod gofal). O blith yr achosion hyn, mae 15 o'r digwyddiadau yn niwed pwyso gradd tri, pedwar neu heb radd.

Mae'r penaethiaid nyrsio a'u timau yn cynnal paneli i graffu ar achosion o niwed pwyso. Mae'r panel yn ystyried canfyddiadau'r adolygiad ffocws, yn ystyried y dysgu ehangach, ac yn cymeradwyo cau'r cofnod o'r digwyddiad os yw hynny'n briodol.

Mae'r Tîm Sicrwydd Ansawdd a Diogelwch a'r Tîm Nyrsio Hyfywedd Meinweoedd wedi cyflwyno panel craffu corfforaethol i adolygu a lleihau dyblygu cofnodion o ddigwyddiadau'n ymwneud â niwed pwyso, ac i sicrhau cysondeb o ran graddio niwed pwyso yn y ffurflenni cofnodi digwyddiadau.

Mae gwaith gwella ansawdd hefyd ar y gweill i ystyried y dull priodol o reoli digwyddiadau lle y cofnodir bod niwed pwyso yn bresennol pan gafodd y claf ei dderbyn. Nid yw mwyafrif yr achosion yn hysbys i'r gwasanaethau nyrsio ardal nac i wasanaethau eraill y bwrdd iechyd, a dyma'r digwyddiadau lle gallai fod yna rywbeth i'w ddysgu.

Heintiau COVID-19 nosocomiaidd

Rydym yn cynnal adolygiadau o heintiau yr amheuir eu bod yn rhai nosocomiaidd, yn unol â Phrotocol Cymru Gyfan ar gyfer Adolygu Heintiau COVID-19 a Gafwyd gan Gleifion a Gafwyd yn yr Ysbyty. Wedi cwblhau'r adolygiad cychwynnol gan ddefnyddio pecyn cymorth Cymru gyfan, a lle yr asesir neu yr amheuir bod gweithred neu ddiffyg gweithred wedi, neu yn debygol o fod wedi, achosi neu gyfrannu at farwolaeth annisgwyl y claf neu farwolaeth y gellid bod wedi'i hosgoi, neu wedi achosi neu gyfrannu at niwed difrifol i'r claf, cynhelir hefyd ymchwiliad priodol yn unol â'r rhaglen Gweithio i Wella. [Darllenwch ragor am yr hyn a ddysgwyd o'r adolygiadau hyn ac a ddarparwyd i'r Pwyllgor Ansawdd, Diogelwch a Phrofiad.](#)

Digwyddiadau sy'n adroddadwy yn genedlaethol

Caiff digwyddiad yn ymwneud â diogelwch claf ei adrodd yn genedlaethol cyn pen saith niwrnod yn dilyn y digwyddiad, neu'r adeg y daeth y digwyddiad yn hysbys, os asesir neu yr amheuir bod gweithred neu ddiffyg gweithred yn ystod triniaeth neu ofal defnyddiwr y gwasanaeth, yn unrhyw leoliad gofal iechyd, wedi achosi neu gyfrannu at, neu yn debygol o fod wedi achosi neu gyfrannu at ei farwolaeth annisgwyl neu y gellid bod wedi ei osgoi, neu

wedi achosi neu gyfrannu at niwed difrifol. [Darllenwch ragor am y gofyniad i adrodd am ddigwyddiadau i Uned Gyflawni GIG Cymru.](#)

Rhwng 1 Ebrill 2021 a 31 Mawrth 2022, rhoddwyd gwybod i Uned Gyflawni GIG Cymru am bedwar digwyddiad adroddadwy.

Canolbarth a Gorllewin Cymru Iachach: Cenedlaethau'r Dyfodol yn Byw Bywydau Iach

Mae gennym weledigaeth a rennir â'n cymunedau i ni fyw bywydau iach, llawen.

Cyhoeddasom ein strategaeth iechyd a gofal hirdymor, [Canolbarth a Gorllewin Cymru Iachach: Cenedlaethau'r Dyfodol yn Byw Bywydau Iach](#) yn 2018. Mae'r strategaeth yn nodi ein huchelgais i symud o fod yn wasanaeth sy'n trin salwch yn unig, i fod yn un sy'n cadw pobl yn iach, yn atal pobl rhag mynd yn sâl neu'n atal salwch rhag gwaethygu, ac sy'n darparu'r help y mae ar bobl ei angen yn gynnar. Rydym wedi cymryd camau sylweddol tuag at ein strategaeth yn ystod 2021-22.

Ymgysylltu â'n cymunedau a'r broses dewis tir

Rhwng misoedd Mai a Mehefin 2021, aethom ati i gynnal ymarfer ymgysylltu chwe wythnos o hyd, o'r enw Adeiladu Dyfodol Iachach yn dilyn COVID-19, â staff, cleifion a'u teuluoedd, yn ogystal â'r cyhoedd yn gyffredinol. Diben hyn oedd darganfod sut yr oedd y pandemig wedi effeithio ar iechyd a gofal pobl, ynghyd â mynediad at wasanaethau iechyd a gofal, ac i ddeall goblygiadau'r profiadau hyn mewn perthynas â'n strategaeth iechyd a gofal.

[Gallwch ddarllen yr adroddiad adborth yma:](#)

<https://www.dweudeichdweud.biphdd.cymru.nhs.uk/adeiladu-dyfodol-iachach-yn-dilyn-covid-19>

Mae'r wybodaeth hon yn cael ei defnyddio 'nawr i lywio'r gwasanaethau a ddarperir gennym.

Enghraifft o hyn yw'r broses a'r trefniadau dewis tir ar gyfer ysbyty newydd yn ne ardal BIP Hywel Dda. Yn ein ymarfer ymgysylltu, gofynasom i bobl enwebu safleoedd posibl rhwng parthau Sanclêr ac Arberth; a hefyd ddweud wrthym beth oedd yn bwysig iddynt wrth ddewis safle.

Awgrymwyd rhai safleoedd yn rhan o'r ymarfer ymgysylltu, a chafwyd adborth sylweddol ynghylch y meysydd a oedd yn bwysig wrth ddewis safle. Roedd y pryderon cyffredin yn ymwneud â phellter posibl i'r ysbyty yn achos y cymunedau sydd bellaf i ffwrdd, cysylltiadau trafniadaeth gyhoeddus, parcio, pwysigrwydd denu a chadw staff, a chost ysbyty newydd.

O ganlyniad i'r ymarfer ymgysylltu, aseswyd y safleoedd a awgrymwyd gan aelodau o'r cyhoedd yn unol â meini prawf, gan gynnwys meysydd sydd o bwys i'r cyhoedd, yn rhan o'r adolygiad technegol o'r 'rhestr hir' gan y bwrdd iechyd ym mis Hydref 2021.

Yn rhan o'r cam nesaf, ac i sicrhau ymgysylltiad parhaus gan y cyhoedd, rydym wedi gwahodd grwpiau ac unigolion o bob cwr o'r tair sir, sef Sir Gaerfyrddin, Ceredigion a Sir Benfro, i gyflwyno mynegiad o ddiddordeb i fod yn rhan o'r broses o asesu a gwerthuso safleoedd ar y rhestr fer ymhellach. Bydd hyn yn arwain at argymhelliad i'r bwrdd iechyd ynghylch y lleoliad gorau ar gyfer yr ysbyty newydd, a hynny yn ddiweddarach yn 2022.

Cydweithio hyd
eithaf ein gallu i
roi o'n gorau

Rydym yn cael cymorth a chynghor ar y broses gan Consultation Institute – corff nid-er-elw, annibynnol sy'n darparu arweiniad ar arfer gorau wrth ymgysylltu â chymunedau.

Cyflwyno cynllun busnes ar gyfer y rhaglen

At hynny, yn rhan o'r gwaith cynllunio busnes ar gyfer rhaglenni o'r math hwn yng Nghymru, cyflwynasom Achos Busnes ar gyfer y Rhaglen i Lywodraeth Cymru ym mis Chwefror 2022. [Darllenwch yr Achos Busnes llawn ar gyfer y Rhaglen yma.](#)

Hon yw'r ddogfen lefel uchel gyntaf i geisio sicrhau cymeradwyaeth Llywodraeth Cymru ar gyfer y rhaglen a chefnogi'r cyllid ar gyfer gwaith mwy manwl (achosion busnes amlinellol).

Y gobaith yw y bydd hyn, yn y pen draw, yn arwain at fuddsoddiad o hyd at £1.3 biliwn gan Lywodraeth Cymru yn yr adeiladau a'r seilwaith y mae arnom eu hangen i gyflawni ein strategaeth hirdymor.

Mae hon yn rhaglen hirdymor a fydd yn cymryd dros ddegawd i'w chyflawni. Er enghraifft, rydym yn disgwyl iddi gymryd tan o leiaf 2029 cyn y bydd yr ysbyty gofal brys a gofal wedi'i gynllunio yn agor.

Yn ystod y broses hon, bwriadwn ymgysylltu'n rheolaidd, ac efallai ymgynghori ynghylch rhannau o'r rhaglen, a hynny â chleifion, y cyhoedd, staff, a phartneriaid.

Dull partneriaeth o fynd i'r afael ag iechyd a gofal

Mae'r pandemig wedi dangos y modd y gall cymunedau gydweithio i gefnogi'r rhai mwyaf agored i niwed. Mae'r pandemig wedi achosi i gydnerthedd personol rhai unigolion leihau am fod eu cyfleoedd cymdeithasol wedi bod yn gyfyngedig iawn. Gyda chymorth Cronfa Trawsnewid Llywodraeth Cymru (Rhaglen 7), rydym wedi parhau i ymgysylltu â chymunedau lleol i alluogi cydnerthedd cymunedol.

Mae gennym strwythur rheoli integredig yn Sir Gaerfyrddin sy'n gyfrifol ar y cyd am gynllunio, darparu a gwerthuso gofal yn achos ein poblogaeth. Mae aelodaeth y Grŵp Gweithredol Integredig rhanbarthol yn cynnwys cyfarwyddwyr gwasanaethau cymdeithasol a chyfarwyddwyr gweithredol y bwrdd iechyd. Bu'r Grŵp yn gyfrwng i gyfeirio strategaeth integredig i wella darpariaeth gwasanaethau integredig ar gyfer y boblogaeth, gan gynnwys y trefniadau i ryddhau poblogaeth ein cleifion mewnol o'r ysbyty. Tynnir sylw'r Grŵp Gweithredol Integredig at y risgiau a'r materion sy'n ymwneud â gofal brys a gofal mewn argyfwng er mwn iddo eu hystyried a gweithredu arnynt, fel y bo'n briodol.

Gwasanaeth Cwtch

Mae gwasanaeth Cwtch yng Ngheredigion yn darparu gofal lefel isel yn y cartref er mwyn atal neu oedi'r gofyniad am asesiad a darpariaeth hirdymor. Caiff y gwasanaeth ei ariannu gan y Gronfa Gofal Integredig a'i ddarparu gan y Groes Goch Brydeinig, ac, ar gyfartaledd, mae'n cael 100 o atgyfeiriadau bob chwarter, sy'n cael eu rhannu fwy neu lai 50:50 rhwng cymorth ar gyfer rhyddhau cleifion o'r ysbyty a chymorth i atal cleifion rhag cael eu derbyn; ar gyfartaledd, dim ond un unigolyn bob chwarter sy'n cael ei atgyfeirio i'r awdurdod lleol i gael cymorth parhaus yn dilyn darpariaeth gan Cwtch. Mae'r gwasanaeth yn darparu cymorth a chefnogaeth ar gyfer paratoi prydau bwyd a gofal personol; anogaeth i gymryd

meddyginiaethau; cymorth a chefnogaeth gyda thasgau domestig a siopa, ond, yn fwy pwysig, mae'n annog hyder i gynnal hunanonfal.

Clinig treial heb gathetr

Gan adeiladu ar lwyddiant y clinig cathetr cymunedol ar gyfer cleifion, aethom ati i ddatblygu llwybr clinigol ar gyfer 'treial heb gathetr' i gleifion sy'n cael triniaeth ddydd yn Sir Benfro. Gyda dros 400 o bobl yn Sir Benfro â chathetrau sefydlog hirdymor, cyflwynwyd clinig treial heb gathetr arbenigol, dan arweiniad nyrsys, i helpu i leihau'r amseroedd aros. Arweiniodd effaith COVID-19 at oedi o rhwng wyth a 12 mis i gael apwyntiad treial heb gathetr (cyn y pandemig, yr amser aros cyfartalog ar gyfer apwyntiad oedd chwech i wyth mis). Oddi ar y clinig cyntaf ym mis Mai 2021 yn Ysbyty Bwthyn Dinbych-y-pysgod, mae naw claf newydd wedi bod yn y clinig, a chafodd pedwar ohonynt ganlyniadau llwyddiannus. Bydd y fenter newydd hon yn cael ei haddasu yn dilyn y gwersi a ddysgir yn ystod ei cham peilot, fel y gellir ei chyflwyno ledled Ceredigion a Sir Gaerfyrddin. Mae'r adborth cychwynnol ar y dull treial heb gathetr yn eithriadol o gadarnhaol, a chafwyd canmoliaeth am broffesiynoldeb a gwybodaeth y tîm clinigol, a hefyd am yr amgylchedd clinigol a'r amgylchynau. Mae'r clinig yn rhedeg yn eithriadol o dda, a chafodd ei enwebu ar gyfer gwobr gymunedol y Coleg Nyrsio Brenhinol.

Cynllun peilot prosiect gofal cynhaliol methiant difrifol y galon (Comisiwn Bevan)

Yn dilyn cynllun peilot a gynhaliwyd ac a werthuswyd ddiwedd mis Mawrth 2021, rydym wedi datblygu cydweithrediad llwyddiannus i ddod â'r tîm amlddisgyblaethol gofal lliniarol methiant y galon (sy'n cynnwys nyrs glinigol arbenigol methiant y galon, therapydd galwedigaethol, cardiolegydd, a meddyg ymgynghorol gofal lliniarol) i mewn i'r oriau gwaith arferol. Mae hyn wedi creu cyfle i weithio'n agosach gyda Sefydliad Paul Sartori, Tŷ Shalom, a'r gwasanaeth cymorth gofal lliniarol ehangach. O ganlyniad i gyfyngiadau COVID-19, ni wireddwyd y dull gweithredu arfaethedig yn y clinig gyda chymorth ymweliadau gan y trydydd sector, felly cafodd mwyafrif yr achosion eu gweld yn eu cartref neu yn y clinigau wyneb yn wyneb a ailsefydlwyd.

Monitro cardiaidd o bell

Rydym wedi cyflwyno gwasanaeth monitro cardiaidd o bell ar gyfer pobl yn Sir Benfro sy'n gallu ymgymryd â rhai mesurau corfforol gartref. Mae darparu monitorau pwysedd gwaed yn helpu cleifion i'w monitro eu hunain heb fod angen cyswllt wyneb yn wyneb. Mae hyn wedi arwain at ddatblygu system teleiechyd sy'n galluogi cleifion â methiant y galon a chlefyd rhwystrol cronig yr ysgyfaint (COPD) i hunanfonitro eu cyflwr, gyda chymorth llwyfan monitro proffesiynol, cyn cael apwyntiad rhithwir neu ar-lein. Buddsoddwyd hefyd mewn cyfarpar arall a alluogir gan dechnoleg, a hynny'n benodol i ddarparu gwasanaeth rhagsefydlu i gleifion sy'n aros am lawdriniaeth gyhyrsgerberbydol.

Seibiant gofal lliniarol

Trwy weithio gyda Shalom yn Nhyddewi, Sir Benfro, roeddem wedi cefnogi'r gwaith o dreialu tri chyfnod seibiant ar gyfer pobl â diagnosis lliniarol, i'w cefnogi nhw a'u teuluoedd i barhau i ymdopi â'u gofal gartref. Cynhaliwyd y treial rhwng mis Ionawr a mis Mawrth am un cyfnod o bedwar diwrnod bob mis, ac mae'r adborth gan y rhai a gymerodd ran a'u teuluoedd wedi bod yn gadarnhaol iawn.

Cefnogi gofal cymdeithasol a sicrhau bod cleifion yn cael eu rhyddhau'n ddiogel o'r ysbyty

Yn ystod 2021-22, mae pob un o'n tair sir wedi cynyddu ei chynnig o ofal canolraddol trwy gyllid Rhaglen Trawsnewid 3. Mae hyn yn cynnwys ymyriadau cydweithredol megis recriwtio rhagor o weithwyr iechyd a gofal cymdeithasol, sydd wedi cynyddu'r gwasanaeth gofal ac ailalluogi yn y cartref i gefnogi pobl i ddychwelyd adref neu aros gartref.

Gweithio gyda chartrefi nyrsio a'u cefnogi

Mae ein system gyfan yn parhau i weithio'n gydweithredol, a chynhelir cyfarfodydd gofal ar y cyd effeithiol a rheolaidd â systemau cyfathrebu cartrefi gofal; mae hyn wedi golygu gostyngiad sylweddol yn y perygl bod cleifion cartrefi gofal yn cael eu derbyn i'r ysbyty.

Mae yna Bolisi Risgiau ac Uwchgyfeirio ar gyfer Cartrefi Gofal ar waith ledled y bwrdd iechyd, sy'n amlinellu ein dull o gefnogi cartrefi gofal sydd mewn perygl i sicrhau bod y gofal yn gynaliadwy pan fyddant yn wynebu risg.

Strategaeth Dementia Ranbarthol Gorllewin Cymru

Mae Partneriaeth Ranbarthol Gorllewin Cymru wedi cydgynhyrchu [strategaeth dementia](#) i amlygu'r hyn sy'n bwysig i bobl sy'n byw â dementia a'u teuluoedd. Mae'n amlinellu'r meysydd blaenoriaeth sy'n ofynnol i gyflawni'r angen hwn a nodwyd. Penodwyd rheolwr rhaglen rhanbarthol i roi'r strategaeth a'i chynllun cysylltiedig ar waith.

Y Strategaeth Gofal Lliniarol a Gofal Diwedd Oes

Rydym wedi datblygu strategaeth gadarn i sicrhau bod pawb sydd ar ddiwedd eu hoes yn gallu cyrchu'r gofal arbenigol a'r cymorth hollataidd y mae arnynt eu hangen. Mae'r [Strategaeth Gofal Lliniarol a Gofal Diwedd Oes](#), a gymeradwywyd gan ein bwrdd ym mis Mawrth 2022, yn ystyried amcangyfrifon yr angen am ofal lliniarol, ac yn nodi cynllun cynaliadwy ar gyfer y gweithlu i ddiwallu'r anghenion cynyddol hyn. Mae'n nodi, yn fanwl, gefndir y broses o lunio'r strategaeth, crynodeb o'r dadansoddiad a gynhaliwyd o anghenion y boblogaeth, arfer gorau, llwybr y model gwasanaethau, ynghyd â'r dull o roi'r model gwasanaethau ar waith a'r uchelgeisiau ar ei gyfer.

Gweithio gyda'n partneriaid ar gyfleoedd ymchwil

Roeddem wedi sefydlu dwy bartneriaeth newydd gyffrous â Phrifysgol Aberystwyth a Phrifysgol Cymru y Drindod Dewi Sant (PCYDDS), sy'n darparu mwy o gyfleoedd i ni o ran addysg, ymchwil ac arloesedd wrth i ni drawsnewid gofal iechyd ledled Sir Gaerfyrddin, Ceredigion a Sir Benfro. Agorwyd cyfleuster ymchwil glinigol newydd ym Mhrifysgol Aberystwyth yn rhan o'r cydweithrediad newydd, sy'n cynnig canolbwynt o ddydd i ddydd i'r staff gydweithredu ar addysg, ymchwil ac arloesedd. Mae PCYDDS a'r bwrdd iechyd eisoes yn cydweithredu ar nifer o fentrau, a bydd y trefniant newydd yn galluogi mwy o gyfle i gydweithredu mewn perthynas â datblygu'r gweithlu, ymchwil, menter ac arloesedd, yn enwedig yn dilyn COVID-19.

Mae'r datblygiadau yn rhan o Femorandwm o Ddealltwriaeth rhwng y bwrdd iechyd a'r naill brifysgol a'r llall, ac fe'u cynlluniwyd i drawsnewid gofal iechyd a chefnogi'r broses o gyflawni strategaeth y bwrdd iechyd, 'Canolbarth a Gorllewin Cymru Iachach'.

Mae mentrau i wella iechyd a llesiant pobl yng Nghymru ar waith, diolch i gydweithrediad newydd rhwng y bwrdd iechyd a Chanolfan Arloesi Clwyfau Cymru. Bydd Memorandwm o Ddealltwriaeth rhwng y sefydliadau yn ysgogi datblygiad datrysiadau arloesol i hyrwyddo cyfleoedd ar draws y maes ymchwil i dechnoleg gofal clwyfau. Bydd rôl y bwrdd iechyd yn cael ei chyflawni gan y Sefydliad Tritech, a fydd yn darparu gwasanaethau penodol o ran datrysiadau gofal iechyd arloesol.

Dogfennaeth nyrsio ddigidol

Y staff nyrsio yn y bwrdd iechyd oedd y cyntaf yng Nghymru i fynd yn fyw gyda'r cofnod cenedlaethol newydd, sef Cofnod Clinigol Nyrsio Cymru (WNCR). Y bwrdd iechyd hefyd oedd y cyntaf yng Nghymru i roi'r rhaglen ar waith ledled y sefydliad cyfan.

Nod yr WNCR yw darparu un set safonol o gofnodion nyrsio digidol i wella diogelwch ac effeithiolrwydd y gofal ar gyfer poblogaeth Cymru, ni waeth beth yw'r lleoliad, a gwella profiad y claf, y gofalwr a'r staff. Mae'r WNCR yn ffurfio rhan o weledigaeth genedlaethol i sicrhau, yn y pen draw, safonau cyson o wybodaeth ym mhob poblogaeth cleifion a lleoliad gofal iechyd ledled Cymru.

Mae cam un o brosiect yr WNCR yn cynnwys yr asesiad o gleifion mewnol sy'n oedolion, chwe asesiad risg craidd, nodiadau cleifion, a rhestr wirio ar gyfer rhyddhau cleifion o'r ysbyty. Yn genedlaethol, mae Gofal Iechyd Digidol Cymru, ynghyd ag arweinwyr digidol a nyrsio arbenigol, yn parhau i ddatblygu'r cymhwysiad a safonau'r data. Yn Hywel Dda, yn ystod y 12 mis diwethaf, rydym wedi gweld yr WNCR yn cael ei gyflwyno'n helaeth ledled yr holl wardiau cleifion mewnol i oedolion a'r adrannau ategol mewn ysbytai aciwt a chymunedol, a hynny er gwaethaf y pwysau o ganlyniad i'r pandemig parhaus.

Mae gwaith manwl i gynllunio'r prosiect, cyllid rheolaidd gan Lywodraeth Cymru, a chyfathrebu a hyfforddiant effeithiol ar gyfer y timau cyn cyflwyno'r WNCR, i gyd wedi bod yn hanfodol i weithredu'r rhaglen yn llwyddiannus. Mae tîm prosiect yr WNCR wedi ymgysylltu a chyfathrebu'n rheolaidd â thimau nyrsio ac amlddisgyblaethol corfforaethol a gweithredol. Mae'r ymgysylltu hwn wedi estyn i brifysgolion lleol i sicrhau bod yr WNCR a gwybodeg yn rhan annatod o yrfaedd nyrsio yn y dyfodol ym maes addysg nyrsys cyn-gofrestredig ac ôl-gofrestretig.

Rôl ein Grŵp Cyfeirio Rhanddeiliaid

Mae'r Grŵp Cyfeirio Rhanddeiliaid yn darparu fforwm ar gyfer ymgysylltu a mewnbwn ymhlith rhanddeiliaid ledled y cymunedau a wasanaethwn. Ei nod bod rhanddeiliaid yn ystyried a dod i bersectif cytbwys i lywio'r penderfyniadau a wneir gennym.

Mae gan y grŵp aelodau o blith amrywiaeth eang o randdeiliaid sydd â diddordeb ym mhenderfyniadau'r bwrdd iechyd, penderfyniadau a allai effeithio ar eu rolau a'u gweithgarwch eu hunain. Mae'r aelodau'n cynnwys partneriaid yn y gymuned, sefydliadau cyflenwi, a grwpiau diddordeb arbennig.

Cynhaliwyd pedwar cyfarfod o Grŵp Cyfeirio Rhanddeiliaid Hywel Dda yn ystod 2021-22, gan roi cyfle i aelodau'r Grŵp drafod, rhoi sylwadau, a gwneud argymhellion i'r bwrdd iechyd ynghylch y meysydd gwaith a restrir isod. Mae hyn wedi sicrhau bod rhanddeiliaid yn cymryd rhan lawn yn y meysydd allweddol hyn o fusnes y bwrdd iechyd, ac yn cynnig cyfeiriad ar eu cyfer.

Fforwm Lleol Cymru Gydnerth Dyfed Powys

Mae Fforwm Lleol Cymru Gydnerth Dyfed Powys yn bartneriaeth amlasiantaethol sydd wedi'i lunio o gynrychiolwyr o'r gwasanaethau cyhoeddus lleol, gan gynnwys y gwasanaethau brys, awdurdodau lleol, y GIG, Asiantaeth yr Amgylchedd, ac eraill. Gelwir yr asiantaethau hyn yn Ymatebwyr Categori 1, fel y'u diffinnir gan y Ddeddf Argyfyngau Sifil. Cefnogir y Fforwm gan sefydliadau eraill, a elwir yn Ymatebwyr Categori 2, megis Asiantaeth y Prifffyrdd a chwmnïau cyfleustodau cyhoeddus. Mae ganddynt gyfrifoldeb i gydweithredu â sefydliadau Categori 1 ac i rannu gwybodaeth berthnasol â'r Fforwm. Mae'r ardal ddaearyddol a gwmpesir gan y Fforwm yn seiliedig ar ardal Heddlu Dyfed Powys.

Mae'r Fforwm hefyd yn gweithio gyda phartneriaid eraill yn y sectorau milwrol a gwirfoddol, sy'n darparu cyfraniad gwerthfawr i waith y Fforwm o ran parodrwydd am argyfwng. Nod y Fforwm yw cynllunio a pharatoi ar gyfer digwyddiadau lleol ac argyfyngau trychinebus. Mae'n gweithio i nodi risgiau posibl a llunio cynlluniau brys i naill ai atal neu liniaru effaith unrhyw ddigwyddiad ar y cymunedau lleol.

Roedd Fforwm Lleol Cymru Gydnerth Dyfed Powys wedi cefnogi'r gwaith o gynllunio ar gyfer cynnydd yn nifer y marwolaethau yn ystod y pandemig, ac aeth ati i gydlynu'r gwaith o ddatblygu cyfleusterau ychwanegol yn ystod brig y pandemig i gefnogi cyfleusterau presennol y GIG a'r sector trefnwyr angladdau/amlogsfeydd. Wrth i nifer y marwolaethau ychwanegol a'r derbyniadau ychwanegol i ysbytai ostwng, rhoddwyd y gorau i'r cyfleusterau ychwanegol hyn. Manylir ar y prosesau ar gyfer ailgychwyn y cyfleusterau, os bydd angen yn y dyfodol, mewn trefniadau diwygiedig i ymateb i bandemig. Cafodd nifer o is-grwpiau tactegol a gweithredol eu sefydlu hefyd, a hynny er mwyn cefnogi'r ymateb rhanbarthol a hwyluso ceisiadau gan asiantaethau partner.

Rheoli'r gweithlu a llesiant y gweithlu

Rheoli'r gweithlu a llesiant y gweithlu

Diwylliant a phrofiad y gweithlu

Rydym am i bob dydd ym Mwrdd Iechyd Prifysgol Hywel Dda fod yn 'ddiwrnod da yn y gwaith'. Rydym ar daith i newid diwylliant, ac mae ein staff wedi nodi ar ein cyfer y dyhead am y diwylliant y mae arnynt ei eisiau yn Hywel Dda.

Gwelodd 2021-22 gyfnod gwirioneddol o wrando ar yr hyn sy'n bwysig i'n staff er mwyn sicrhau mai'r camau nesaf a gymerwn ar ein taith yw'r rhai iawn. Roedd ein Hadroddiad Darganfod wedi rhoi'r cyfle i ni ddeall profiadau ein staff trwy COVID-19, ac rydym wedi llunio fframwaith ar gyfer newid diwylliant trwy'r Cynllun Diwylliant Ein Pobl. Aethom ati i greu hwn ar y cyd â'n hundebau llafur, gan sicrhau ei fod yn adlewyrchu'r hyn y mae ein staff yn ei ddweud sy'n bwysig iddynt.

Rheolwyr cysylltiadau datblygu sefydliadol

Aethom ati i recriwtio tîm o rolau newydd i helpu i alluogi rhagor o ddyddiau da yn y gwaith ledled y bwrdd iechyd. Dechreuodd ein rheolwyr a'n rheolwyr cynorthwyol cysylltiadau datblygu sefydliadol weithio gyda'n timau arweinyddiaeth, ein staff, ac ochr y staff i ddatblygu ffyrdd newydd o gydweithio i'n helpu i weld pethau mewn ffordd wahanol ledled ein sefydliad. Dechreuasom weithio mewn meysydd allweddol, yn seiliedig ar risgiau a chyfleoedd.

Llesiant staff

Gwasanaeth Llesiant Seicolegol y Staff

Parhaodd Gwasanaeth Llesiant Seicolegol y Staff i sicrhau mynediad rhwydd a chyflym at adnoddau a chymorth ar gyfer staff, timau, a rheolwyr. Esblygodd y ddarpariaeth mewn ymateb i'r amgylchiadau newidiol, gan ganolbwyntio ar gynnal mynediad cyflym, sicrhau ansawdd yr adnoddau llesiant, rheoli baich y negeseuon cysylltiedig â llesiant er mwyn osgoi llethu'r system, a darganfod ffyrdd i gyrraedd pob grŵp staff. Lansiodd ein safle mewnwyd ar gyfer llesiant seicolegol y staff yn 2021, ac mae'n darparu gwybodaeth ac yn cyfeirio at amrywiaeth o ganllawiau, adnoddau, a gwasanaethau i gefnogi iechyd meddwl a chydnerthedd unigolion a thimau.

Sicrhawyd bod nifer o fentrau yn cwmpasu ystod o bynciau iechyd meddwl ar gael i'r staff, gan gynnwys cyfres o weminarau ar lesiant yn y gwaith (*Well-being@Work*), sesiynau 'gorffwys ac adfer' pwrpasol, a gweithdai a oedd yn cwmpasu'r themâu llesiant ym myd natur. Mae Rhwydwaith Hwyluswyr 'Mannau ar gyfer Gwrando' newydd yn darparu cymorth ac amgylchedd dysgu diogel ar gyfer hwyluswyr.

Cafodd rhaglen arloesol, sef Adferiad ym Myd Natur: Encilfannau Ecotherapi, ar gyfer y staff ei hariannu gan Elusennau'r GIG Gyda'n Gilydd. Cynlluniwyd y rhaglen hon ar gyfer staff sy'n absennol oherwydd salwch, neu sydd mewn perygl o fynd yn absennol oherwydd salwch o ganlyniad i straen cysylltiedig â gwaith neu orweithio. Rydym yn parhau i gefnogi'r agenda iechyd gwyrdd yn Hywel Dda, gan gyfrannu at y gwaith o wella mannau gwyrdd y tu

Rhoi pobl wrth
wraidd popeth
a wnawn

mewn a'r tu allan, a hynny gyda ffocws ar y modd y mae'r amgylchedd naturiol yn cefnogi llesiant seicolegol.

Ariannwyd mynediad i staff at raglen hyfforddiant ar ymwybyddiaeth ofalgar ar-lein, gyda chymorth yn cael ei gynnig gan arweinydd ymwybyddiaeth ofalgar.

Cafwyd cynnydd cyson yn nifer y staff a gyrchodd y gwasanaeth cymorth seicolegol un i un, a chafwyd cynnydd yn lefel y trallod a'r risg adeg y cyswllt cyntaf. Cafodd llwybrau gofal eu hegluro i sicrhau ymateb priodol, gan gynnwys cyfeirio i rywle arall lle roedd angen. Rydym wedi meithrin a chynnal ein cysylltiadau â thimau'r gwasanaethau iechyd meddwl sylfaenol ac eilaidd er mwyn cyflymu mynediad ar gyfer staff lle bo angen. Parhawyd i sicrhau mynediad at y Rhaglen Cymorth i Weithwyr, Gofal yn Gyntaf, gyda mwyafrif y cysylltiadau yn apwyntiadau untro. Mae gwerthuso yn parhau i fod yn agwedd allweddol ar y broses o wella gwasanaethau, a defnyddir amrywiaeth o fesurau, gan gynnwys arolygon o foddhad defnyddwyr gwasanaethau, mesurau canlyniadau clinigol, a mesurau arhydol ar gyfer rhaglenni penodol.

Darparwyd cymorth i raglenni megis y Rhaglen Preceptorïaeth Nyrsio, ac mae'r Rhaglen Addysg Feddygol ar gyfer Meddygon yn parhau, gyda ffocws ar gynnal iechyd meddwl yn ystod cyfnodau heriol.

Cafwyd cynnydd yn nifer y ceisiadau am gymorth i dimau mewn perthynas â llesiant yn y gwaith, a thrafodir y rhain 'nawr yn rhan o'r broses gomisiynu ehangach i sicrhau dull cydlynol a'r defnydd gorau o'r adnoddau.

Rhwydwaith Hyrwyddwyr Llesiant

Ym mis Awst 2021, aethom ati i lansio ein Rhwydwaith Hyrwyddwyr Llesiant i ddarparu fforwm cefnogol i staff rannu syniadau a chysylltu â gwasanaethau a chymorth arall sy'n hyrwyddo llesiant y staff. Nod ein hyrwyddwyr yw:

- hyrwyddo iechyd a llesiant yn y gweithle;
- rhoi cyhoeddusrwydd i fentrau iechyd a llesiant, diwrnodau ymwybyddiaeth a digwyddiadau ar y calendr;
- cynghori staff a'u cyfeirio at wasanaethau cymorth priodol;
- rhannu anghenion staff er mwyn helpu i lunio agenda iechyd a llesiant ein staff.

Cofrestrodd 125 o staff i ymgymryd â'r rôl, ac mae dros 50 o hyrwyddwyr eisoes wedi cael hyfforddiant llawn, gyda rhagor o sesiynau ar y gweill.

Iechyd galwedigaethol

Cyflwynodd y Gwasanaeth Iechyd Galwedigaethol ddangosyddion perfformiad allweddol i fesur y galw a'r amseroedd aros o ran darparu gweithgareddau craidd. Erbyn hyn, defnyddir data i werthuso effeithiolrwydd ac effeithlonrwydd y gwasanaeth, a hynny i gefnogi'r gwaith o gynllunio capasiti er mwyn gallu rheoli brigau yn y gweithgarwch.

Y brif flaenoriaeth ar gyfer y gwasanaeth yn ystod 2020-21 oedd sicrhau bod gan gyflogeion a rheolwyr fynediad at gyngor pa oedd arnynt ei angen. Cafwyd cynnydd sydyn yn y galw am gyngor iechyd galwedigaethol o ganlyniad i COVID-19, a chreodd hyn amseroedd aros sylweddol.

Roedd lleihau'r rhestr aros, gan barhau i ddarparu gwasanaeth iechyd galwedigaethol a oedd yn diwallu anghenion cyflogeion, rheolwyr a'r bwrdd iechyd, yn dipyn o her. Aethom ati i symleiddio'r rhestr aros trwy flaenoriaethu a gwirio gyda rheolwyr i gadarnhau a oedd apwyntiadau yn dal i fod yn ofynnol, ac roedd hwn yn ateb effeithiol. Parhaodd y Gwasanaeth Iechyd Galwedigaethol i dderbyn hunanatgyfeiriadau ac atgyfeiriadau gan reolwyr, fel ei gilydd, er mwyn sicrhau bod y staff yn cael dewis o ran sut i gyrchu'r gwasanaeth.

Bu'r gwasanaeth yn gweithio'n agos gyda'r adran recriwtio i sicrhau bod amseroedd clirio yn cael eu lleihau, gan optimeiddio amseroedd prosesu i alluogi cyflogeion i ddechrau yn y gwaith. Roedd hyn wedi lleddfu pwysau cysylltiedig â swyddi gwag.

Roedd y clinigwyr iechyd galwedigaethol yn cysylltu'n aml â thimau iechyd y cyhoedd a thimau rheoli haint er mwyn sicrhau bod yr holl gyngor ar COVID-19 yn gyson ac yn seiliedig ar y dystiolaeth a oedd ar gael ar y pryd. Cynorthwywyd y rheolwyr i reoli'r perygl a wynebid gan staff â chyflyrau iechyd isorweddol a/neu statws eithriadol o agored i niwed yn glinigol, a hynny trwy ddarparu cyngor iechyd galwedigaethol unigol. Cafodd ceisiadau am gyngor ar COVID-19 eu blaenoriaethu pan ddeuent i law er mwyn sicrhau bod y cyngor yn amserol a'r presenoldeb yn optimaidd lle bo hynny'n bosibl.

Cafwyd cynnydd yn y broses rwydweithio ledled Cymru ym maes iechyd galwedigaethol i sicrhau bod staff iechyd galwedigaethol yn ymwybodol o'r holl opsiynau cymorth a oedd ar gael o ran iechyd a llesiant, a hynny am fod yna alw mawr a'r amseroedd aros yn cynyddu yn unol â hynny. Parhaodd y broses rwydweithio trwy Addysg a Gwella Iechyd Cymru i rannu arfer da a sicrhau argaeledd cyfartal gwasanaethau cymorth ledled Cymru.

Defnyddiwyd Offeryn Asesu Risgiau COVID-19 Cymru Gyfan i asesu lefel y risg ar gyfer staff o ran datblygu symptomau mwy difrifol trwy gydol y flwyddyn. Nid argymhellwyd cyfnodau o warchod yn 2021-22; fodd bynnag, cynghorwyd y rheiny a oedd yn dal i fod ar y rhestr warchod i gymryd rhagofalon ychwanegol i'w cadw eu hunain yn ddiogel, yn ogystal â dilyn y canllawiau diweddaraf. Dychwelodd mwyafrif y staff a oedd yn eu gwarchod eu hunain i'r gwaith, naill ai i'w rolau parhaol neu i rôl wahanol os oedd risg yn dal i fod yn broblem.

Yn ystod y rhaglen frechu rhag y fflw rhwng mis Medi 2021 a mis Mawrth 2022, cafodd 54% o'r staff (6,880 o unigolion) eu brechu rhag y fflw. Ein sefydliad ni oedd yr unig fwrdd neu ymddiriedolaeth iechyd yng Nghymru i gynyddu nifer y staff a gafodd eu brechu rhag y fflw yn ystod y tymor hwn.

Caffis menapos

Sefydlwyd caffis menapos rhithwir mewn ymateb i ddiddordeb gan y staff. Mae caffis menapos yn cynnig amgylchedd diogel i unrhyw aelod o staff gwrdd, sgwrsio, dysgu, rhannu profiadau a chael cymorth mewn perthynas â materion yn ymwneud â'r menapos.

Llyfr Myfyrio

Yn ystod 2021, lluniodd y staff yng nghyfarwyddiaeth y gweithlu a datblygu sefydliadol lyfr o atgofion o'u profiadau o fynd i mewn i gyfnod y pandemig byd-eang a chefnogi staff trwyddo. Aeth unigolion o'r gyfarwyddiaeth ati i gyfrannu erthyglau, negeseuon, lluniau a

cherddi, sydd, gyda'i gilydd, wedi creu cofrodd o deimladau ac atgofion o ymgyrch unedig y tîm yn ystod cyfnod mor heriol ac unigryw.

Manteision i'r Staff

Yn dilyn ail-lansio ein ap buddion 'Hapi' ym mis Mehefin 2021, gwelsom gynnydd yn nifer y staff a gofrestrodd ar ei gyfer, gydag ychydig dros 50% o'r gweithlu yn elwa. Cefnogwyd yr ail-lansiad gan strategaeth gyfathrebu gynhwysfawr, a oedd yn cynnwys llunio posteri, ei hyrwyddo yn ystod digwyddiadau ymsefydlu a datblygu sefydliadol, postiadau ar y cyfryngau cymdeithasol, a chynnwys arwyddbost yn llofnod e-bost y staff. Arweiniodd y gwelliannau i 'Hapi', ynghyd â'i esblygiad parhaus, at staff yn arbed £3,500 trwy dalebau disgownt ar y stryd fawr. Wrth edrych i'r dyfodol, rydym yn rhag-weld y bydd 'Hapi' yn dod yn fecanwaith cymorth pwysig, gan roi buddion a llesiant mewn un ap hygyrch ar gyfer y staff.

Sicrhau lefelau staffio diogel

Parhaodd y gweithgarwch recriwtio mewn ymateb i'r pandemig yn ystod 2021-22, gyda staff yn cael eu penodi i swyddi COVID-19 penodol oddi ar ddechrau'r pandemig, gan gynnwys i gefnogi'r rhaglen brechu torfol a'r gwasanaeth Profi Orlhain Diogelu.

Cafwyd cynnydd cyffredinol o 213 o swyddi cyfwerth ag amser llawn yn ein gweithlu erbyn mis Mawrth 2022, a phenodwyd dros 1,577 o staff gennym (cyfwerth ag 1,303 o swyddi amser llawn) trwy ein hymdrechion recriwtio parhaus yn ystod 2021-22. Roedd hyn yn cynnwys nifer o benodiadau cronfa a contractau cyfnod sefydlog i gyflenwad ein gweithlu wrth gefn o dan ein hymdrechion i sicrhau swp o adnoddau ar gyfer COVID-19.

Bwriad strategol y bwrdd iechyd yw cefnogi adferiad economaidd lleol trwy ddarparu cyflogaeth barhaol ar gyfer ein poblogaeth leol. Gan gydnabod bod nifer o unigolion wedi ymgeisio am rolau a oedd yn cefnogi gwaith y pandemig, aethom ati i gychwyn nifer o ymgyrchoedd recriwtio 'mewnol yn unig' i gydnabod ymrwymiad yr unigolion hynny, a hynny trwy sicrhau o gyflogaeth barhaol yn y sector iechyd.

Mae newidiadau sylweddol o ran sefydlogi a datblygu ein gweithlu yn 2021-22 wedi cael eu symud yn eu blaen, gan gynnwys ein systemau a'n dulliau gweithredu sy'n cefnogi'r gweithlu iechyd a gofal cymdeithasol ehangach. Rydym wedi:

- parhau i ddatblygu ein gwybodaeth am y gweithlu i arddangos a monitro'r newidiadau trwy ddangosfyrddau perfformiad;
- atgyfnerthu ein dull o gynllunio'r gweithlu ar gyfer y system iechyd a gofal cymdeithasol trwy ddatblygu fforymau ac offer;
- buddsoddi mewn newid diwylliannol trwy nifer o fentrau, yn cynnwys rolau rheolwyr cysylltiadau datblygu sefydliadol;
- parhau i ddatblygu dulliau integredig o weithio mewn partneriaeth ag awdurdodau lleol/â gofal cymdeithasol, er enghraifft rhaglenni ymsefydlu staff ar y cyd, integreiddio rolau, a threialu 'gwasanaeth pontio' ar gyfer opsiynau gofal cartref.

Nodi a hyfforddi staff i ymgymryd â rolau newydd

Rydym wedi dechrau creu rolau newydd i gefnogi ethos a chysyniad y 'tîm o amgylch y claf/teulu/plentyn', er enghraifft rôl y Swyddog Cyswllt â Theuluoedd. Elfen allweddol o'n strategaeth a'n datblygiad ar gyfer y gweithlu yw archwilio rolau cymorth newydd a chreu gweithwyr proffesiynol arfaethedig ym maes iechyd a gofal cymdeithasol ar gyfer y dyfodol. Rydym wedi defnyddio'r dulliau sydd ar gael i ni, trwy fframweithiau llywodraethu a chontractau hyfforddi, i ddatblygu rolau newydd sy'n gofyn am sgiliau estynedig ac uwch. Rydym wedi gweld llwyddiant y dull hwn yn y gwaith o ddatblygu ac ehangu'r [Academi Prentisiaethau](#), a bydd hon yn parhau i esblygu wrth i ni sefydlu llwybrau datblygu peilot newydd, er enghraifft yr ymarferydd cynorthwyol therapïau.

At hynny, rydym wedi cefnogi nifer o staff i gyrchu cyfleoedd hyfforddi a datblygu, gan gynnwys:

- helpu 268 o aelodau staff i ymgymryd â chysiau Diploma/NVQ yn y gwaith a ddarperir trwy naill ai gyllid cyfrif dysgu personol, prentisiaethau, neu gyllid addysg bellach. Mae'r cysiau'n amrywio o gymwysterau'r Athrofa Rheolaeth, i reoli prosiectau, coginio, a gweinyddiaeth feddygol;
- sicrhau cyllid i gefnogi 92 o aelodau staff i ymgymryd â'u Tystysgrif Addysg Uwch Lefel 4 mewn Astudiaethau Gofal Iechyd trwy Brifysgol Abertawe. Nod y cymhwyster hwn yw datblygu ein gweithwyr cymorth gofal iechyd presennol fel y gallant symud ymlaen i rolau ymarferydd cynorthwyol neu i astudio gradd mewn nyrsio;
- cefnogi 202 o aelodau staff i gyrchu ein proses dyfarniadau uwch/absenoldeb astudio fewnol er mwyn dechrau ar eu hastudiaethau ar lefel addysg uwch, neu barhau â hynny, ac ymgymryd â chymwysterau PhD, tystysgrifau addysg uwch, a graddau meistr. At hynny, mae'r staff wedi cael y cyfle i ymgymryd â hyfforddiant sy'n benodol i'w rôl, a chymeradwywyd 766 o geisiadau am absenoldeb astudio i gefnogi anghenion hyfforddi staff;
- cefnogi 82 o aelodau staff proffesiynol perthynol i ofal iechyd heb eu cofrestru i weithio tuag at amryw o gymwysterau Therapïau Lefel 3 yn rhan o'n Canolfan Hyfforddi Agored fewnol. Aed ati i ddatblygu aseswyr a rhwydweithiau sicrhau ansawdd, ochr yn ochr â phrosesau sicrhau ansawdd mewnol cadarn. Cafodd y tri archwiliad sicrhau ansawdd allanol rhithwir diwethaf gan Agored Cymru eu croesawu.

Cynllun peilot therapïau Lefel 4

Yn rhan o'r broses o ddatblygu llwybrau gyrfa ar gyfer staff therapïau, mae'r bwrdd iechyd yn arwain cynllun peilot, ar y cyd â Bwrdd Iechyd Prifysgol Bae Abertawe, Addysg a Gwella Iechyd Cymru, a Phrifysgol Cymru y Drindod Dewi Sant, i ddarparu'r cymhwyster Lefel 4 cyntaf yng Nghymru mewn Therapïau. Yn 2021-22, roedd staff o'n sefydliad wedi cofrestru i gyflawni'r cymhwyster. Roedd arweinwyr gwasanaethau ac arbenigwyr pwnc wedi cefnogi'r gwaith o ddatblygu'r cwricwlwm, a chytunwyd ar broses asesu ar y cyd. Bydd y rhaglen gyntaf yn cael ei chynnal dros gyfnod o 18 mis. Mae yna ddiddordeb ledled gweddill Cymru mewn darparu'r un rhaglen.

Rhaglen ymsefydlu ar y cyd

Bu'r Tîm Addysg Glinigol yn gweithio mewn partneriaeth â gofal cymdeithasol i gefnogi'r gwaith o ddatblygu rhaglen ymsefydlu iechyd a gofal cymdeithasol bwrpasol ar y cyd. Y rhaglen ymsefydlu newydd hon yw'r gyntaf yng Nghymru i ddarparu hyfforddiant ymsefydlu ar y cyd ar gyfer gweithwyr cymorth gofal o faes gofal cymunedol, cartrefi gofal a gofal cartref, meysydd anableddau dysgu ac iechyd meddwl, a lleoliadau plant. Mae'r rhaglen wedi amlygu hyder a medrusrwydd cynyddol, gwelliannau mewn ymarfer, a gwell canlyniadau gofal. Roedd 216 o bobl ar draws iechyd a gofal cymdeithasol yn bresennol ar y rhaglen, a bydd 134 o bobl yn ymgymryd â Chymhwyster Fframwaith Ymsefydlu Cymru Gyfan.

Mae gweithio mewn partneriaeth ar draws y bwrdd iechyd ac awdurdodau lleol Sir Gaerfyrddin, Ceredigion a Sir Benfro wedi cynyddu, ac mae'r cynghorydd hyfforddiant dysgu a datblygu integredig cyntaf wedi cael ei benodi, sef y cam cyntaf tuag at gynyddu sgiliau gofal craidd ar gyfer yr holl rolau gweithwyr cymorth gofal. [Darllenwch yr adroddiad gwerthuso yma.](#)

Rhaglen ymsefydlu clinigol

Roedd 476 o aelodau staff yn bresennol ar gyfer rhaglen ymsefydlu clinigol bwrpasol tridiau o hyd yn ystod y rhaglen recriwtio torfol. Aeth y Tîm Ymsefydlu Clinigol ati i addasu'r rhaglen addysg a hyfforddiant i fod yn ddull cyfunol a oedd yn cynnwys tri diwrnod wyneb yn wyneb, a thri diwrnod rhithwir. Ymgwymerodd nifer o wasanaethau ychwanegol ag elfennau o'r rhaglen, gan gynnwys fferylliaeth, Llesiant Delta, ac Ymddiriedolaeth GIG Gwasanaethau Ambiwylans Cymru. Ymgwymerodd yr aelod cyntaf o'r staff gofal sylfaenol â'r rhaglen, a chafodd werthusiad da. Bydd lleoedd yn parhau i gael eu cynnig i staff gofal sylfaenol yn 2022-23. Mae Grŵp Gofal Sylfaenol Cymru Gyfan wedi gofyn am werthusiad ac adborth i ymgymryd â phroses debyg ledled Cymru.

Uned gofal lefel uwch

Datblygwyd rhaglen hyfforddi ar y cyd â staff y gwasanaeth, staff y theatrau, staff gofal critigol, rheolwyr wardiau a nyrsys arbenigol i baratoi ar gyfer agor yr uned gofal lefel uwch yn Ysbyty'r Tywysog Philip. Cafodd dogfen hunanasesu a chymhwysedd ei llunio, a'i chynnig i'r staff perthnasol.

Hyfforddi a defnyddio staff wedi ymddeol

Yn ystod 2021-22, roedd 132 o unigolion wedi ymddeol a dychwelyd i weithio i'r bwrdd iechyd. Bydd gan y bwrdd iechyd gynrychiolaeth yn y Grŵp Gorchwyl a Gorffen newydd ar gyfer Cymru gyfan, a sefydlwyd i adolygu'r polisi ymddeol a dychwelyd ledled Cymru. Mae adolygiad o bolisi ymddeol y bwrdd iechyd yn mynd rhagddo, ac rydym yn cydnabod bod cadw staff sy'n ystyried ymddeol, boed hynny am lai o oriau neu mewn rolau amgen, yn hanfodol.

Rôl grwpiau cynghori cyflogaeth/proffesiynol

Roeddem wedi parhau i weithio'n agos gyda'n partneriaid ar ochr y staff ac yn yr undebau llafur trwy gydol y pandemig ac mewn perthynas â'r agenda adfer. Roedd Cyfarwyddwr y

Gweithlu a Datblygu Sefydliadol yn cwrdd yn rheolaidd â chadeiryddion ochr y staff o bob sir, ac mae'r cyfarfodydd ffocws wythnosol hyn wedi parau gydag aelodau o dîm y gweithlu a phartneriaid yr undebau llafur.

Parhaodd cyfarfodydd o'r Fforwm Partneriaeth a'r Pwyllgor Negodi Lleol i gael eu cynnal o bell. Cafodd cwestiynau cyffredin eu diweddarau'n rheolaidd ar y cyd â chysylltiadau Cymru gyfan, a pharhaodd mecanweithiau ar waith i fynd i'r afael â phryderon staff ac i ddelio ag ymholiadau wrth iddynt gael eu mynegi. Cynhaliwyd grwpiau gorchwyl a gorffen penodol, a oedd yn cynnwys partneriaid yr undebau llafur, trwy gydol y flwyddyn er mwyn gweithredu ychwanegiadau at gyflogau a helpu gyda mentrau'n ymwneud â chario gwyliau blynyddol drosodd.

Grŵp cynghori BAME

Cyflwynodd y Grŵp Cynghori Pobl Ddu, Asiaidd ac Ethnig Leiafrifol (BAME) amrywiaeth o gamau gweithredu i fynd i'r afael ag anghydraddoldeb yn achos staff o blith lleiafrifoedd ethnig, gan gwmpasu nifer o themâu allweddol:

- Meithrin ymwybyddiaeth o amrywiaeth a chynhwysiant
- Cefnogi ein staff
- Adolygu ein data sefydliadol
- Atgyfnerthu ymwybyddiaeth, capasiti a galluedd y rheolwyr mewn perthynas â materion yn ymwneud ag amrywiaeth a chynhwysiant.

Yn gam tuag at ddathlu a deall ein gilydd yn well, ac i gael ysbrydoliaeth a nerth o'n holl gredoau, aeth y Grŵp Cynghori ati i lunio calendr o wyliau a digwyddiadau crefyddol yn 2021. Nod y calendr oedd cefnogi'r broses o amserlennu, trefnu gwaith a chynllunio digwyddiadau er mwyn helpu i ddarparu amgylchedd cynhwysol, a galluogi cyfranogiad gan ein holl staff ac ymwelwyr. Dosbarthwyd y calendr i'r holl staff a gwirfoddolwyr, ac mae'n tynnu sylw at ddiwrnodau amrywiaeth allweddol, y prif ddiwrnodau ffydd a gedwir ac a ddethlir, a dyddiadau meithrin ymwybyddiaeth.

Rhoddwyd cydnabyddiaeth ffurfiol i amrywiaeth eang o ddyddiadau a'u dathlu, a hynny gan ddefnyddio'r cyfryngau cymdeithasol a negeseuon e-bost cyffredinol i feithrin ymwybyddiaeth ymhlith y staff a'n poblogaeth. Ym mis Awst 2021, roedd rhaglen wythnos o hyd o weithgareddau yn dathlu 20 mlynedd oddi ar i'r grŵp cyntaf o staff Ffilipinaidd gyrraedd. Ym mis Tachwedd 2021, i ddathlu Diwali, cafwyd help y staff i greu fideo a rannwyd trwy gyfrifon Twitter a Facebook y bwrdd iechyd.

Lansiwyd rhwydwaith y staff o blith cymunedau ethnig lleiafrifol ym mis Medi 2021. Mae gan y rhwydwaith dros 70 o aelodau sy'n rhan o sianel Microsoft Teams, a ddefnyddir i rannu gwybodaeth a rhannu cyfleoedd â staff.

Un o gyflawniadau allweddol y Grŵp Cynghori oedd ei lwyddiant i feithrin ymwybyddiaeth o brofiadau byw y staff presennol o blith cymunedau ethnig lleiafrifol, ac i sicrhau y gweithredir ar bryderon a phrofiadau byw yr aelodau. Crëwyd Grŵp Gorchwyl a Gorffen Bwlio ac Aflonyddu, ac arweiniodd hyn at gyfarfodydd rheolaidd, gan alluogi staff i drafod pryderon yn ymwneud ag urddas yn y gwaith, gweithdrefnau cwynion cyflogaeth, cyfweiliadau gadael, a nifer o faterion eraill a brofwyd ganddynt.

Roedd y Grŵp Cyngori hefyd wedi comisiynu adolygiad o ddiswyddiadau staff o blith cymunedau ethnig lleiafrifol dros gyfnod o 10 mlynedd, i nodi unrhyw arwydd o effaith anghymesur ar staff o grwpiau ethnig lleiafrifol. Rhoddodd yr adroddiad sicrwydd na chanfuwyd unrhyw dystiolaeth o effaith anghymesur; fodd bynnag, gwnaed nifer o argymhellion i sicrhau y gall camau mwy cadarnhaol gael eu cymryd i gefnogi staff sy'n mynd trwy'r broses ddisgyblu.

Rydym yn falch bod ein cynnydd a'n cyflawniadau wedi cael eu cydnabod yng [Ngwobrau Iechyd a Gofal Cenedlaethol Cymunedau Ethnig Lleiafrifol](#) eleni. Mae 11 o unigolion anhygoel ar y rhestr fer yn y categorïau ar gyfer hyrwyddwr clinigol (2), menter gymunedol y flwyddyn (4), hyrwyddwr digidol (1), arweinydd amrywiaeth a chynhwysiant ysbrydoledig (1), menter iechyd meddwl (1), cyflawniad eithriadol (1), a chyflawniad corfforaethol eithriadol y flwyddyn (1). Cyhoeddir yr enillwyr ar 9 Mehefin 2022.

Adolygiad o farwolaethau staff o ganlyniad i COVID-19

Yn drist iawn, cofnododd y bwrdd iechyd farwolaeth un aelod o staff o ganlyniad i COVID-19. Darparwyd arweiniad a chymorth i'r teulu a chyd-weithwyr.

Gweithlu'r Dyfodol

Yr Academi Prentisiaethau 2021-2022

Yn dilyn llwyddiant rhaglen brentisiaeth 2019, roedd y 72 o brentisiaid a dderbyniwyd yn 2021 yn darparu cwrmpas ehangach o gyfleoedd, gan gynnwys gwasanaethau digidol, profiad y claf, peirianeg fecanyddol, peirianeg drydanol, plymio, datblygu'r gweithlu, llywodraethu corfforaethol, a'r rhaglen prentisiaid gofal iechyd.

Y brentisiaeth gofal iechyd yw un o'r rhaglenni mwyaf a gynigir gennym ar hyn o bryd, ac mae'n creu llwybr gyrfa i ddod yn nyrs gyffredinol i oedolion ac yn cefnogi prinder yn y gweithlu. Ymunodd 55 yn rhagor o brentisiaid â'n timau clinigol ledled y bwrdd iechyd ym mis Medi 2021. Roedd cyfradd cwblhau ein prentisiaid yn gyson uwch na'r cyfartaledd cenedlaethol ar gyfer Cymru.

Mae prentisiaid yn cefnogi ein gweithlu ar gyfer y dyfodol ac yn gwneud gwahaniaeth i gydnerthedd ein gweithlu bob dydd. Yn ystod pwysau gaeaf 2021, rhoddwyd hyfforddiant ychwanegol i'n prentisiaid mwyaf newydd gan gynyddu eu cymwyseddau, a chawsant eu defnyddio i atgyfnerthu'r rhaglen profi a brechu yn ein hymateb i COVID-19.

Gwirfoddolwyr yn cefnogi canolfannau brechu torfol

Cefnogwyd y canolfannau brechu torfol gan 434 o wirfoddolwyr, ac roedd 277 yn dal i gael eu defnyddio ym mis Mawrth 2022.

Cawsom ein llorio gan nifer y bobl a'u cynigiodd eu hunain i gynorthwyo gydag un o'r rhaglenni brechu mwyaf yn hanes y GIG. Er i'r pandemig gyflwyno nifer o heriau, bu'r rhaglen frechu, ynghyd â'r gwirfoddolwyr o gefndiroedd amrywiol, yn elfen gadarnhaol a oedd yn hwb i'r galon.

Wrth i raglen y canolfannau brechu torfol gael ei chyflymu ym mis Rhagfyr 2021, cawsom 292 yn rhagor o ymholiadau ynghylch helpu gyda'r rhaglen, a amlygodd ei phoblogrwydd ymhellach, gan ddangos ysbryd cymunedol gwirioneddol yn dod i fri.

Rolau gwirfoddolwyr newydd/gwirfoddolwyr yn symud i gyflogaeth gan y bwrdd iechyd

Datblygwyd cyfres newydd o gyfleoedd i wirfoddoli yn ystod COVID-19, yn cynnwys gwirfoddolwyr yn yr ysbytai maes, gwirfoddolwyr ar gyfer rhaglen y canolfannau brechu torfol, a gwirfoddolwyr garddio. Ar ôl cytuno y gallai gwirfoddolwyr fynd i bob ardal unwaith eto yn dilyn cyfyngiadau COVID-19, a chyda mesurau rheoli priodol ar waith, cynyddodd y diddordeb mewn gwirfoddoli i'r entrychion, a chafwyd mwy o ddiddordeb nag erioed o'r blaen. Symudodd nifer o wirfoddolwyr ymlaen i waith cyflogedig yn y bwrdd iechyd, a dyma oedd cam cyntaf nifer ohonynt i mewn i'r gweithlu wedi iddynt feithrin sgiliau gwerthfawr trwy wirfoddoli.

Cynllun peilot ymchwil y brifysgol

Bu ein hadrannau Gweithlu'r Dyfodol ac Ymchwil, Arloesedd a Gwelliant, ar y cyd â Phrifysgol Cymru y Drindod Dewi Sant a Phrifysgol Aberystwyth, yn cydweithio i ddatblygu rhaglen ymgysylltu academiaidd yn ystod 2021-22. Nod y rhaglen oedd darparu dysgu yn y gwaith i fyfyrwyr, a oedd yn gysylltiedig â'u cyrsiau academiaidd, gan ddatblygu eu sgiliau cyflogadwyedd trwy iddynt ymgysylltu â'r rhaglen. Darparodd hyn gyfle i gefnogi astudiaethau'r myfyrwyr, gan lywio llwybr eu gyrfa, i gefnogi eu datblygiad wrth iddynt baratoi ar gyfer y maes gwaith, ac i wella ein harfer o weithio mewn partneriaeth â'r prifysgolion hyn.

Aethom ati hefyd i ddatblygu rhaglen haf i ymgysylltu â'r brifysgol, a hynny ar ffurf rhaglen beilot pedair wythnos o hyd ym misoedd Gorffennaf ac Awst 2021, ac mewn cydweithrediad â Phrifysgol Cymru y Drindod Dewi Sant a Phrifysgol Aberystwyth. Roedd ceisiadau'n agored i fyfyrwyr israddedig yr ail a'r drydedd flwyddyn neu fyfyrwyr ôl-raddedig, a oedd yn astudio yng Ngorllewin Cymru.

Roedd yn ofynnol i'r myfyrwyr weithio'n rhithwir mewn grwpiau amlddisgyblaethol, gan astudio anghenion iechyd penodol o safbwyntiau disgyblaethol gwahanol. Arweiniodd y rhaglen bedair wythnos at gyflwyno'r canfyddiadau i uwch-aelodau o'r bwrdd iechyd, lle cynigiwyd mentoriaeth a hyfforddiant ar gyfer y sgiliau sy'n ofynnol yn y gweithlu.

Gweithio mewn partneriaeth â chynghorau gwirfoddol sirol lleol

Trwy gydol y flwyddyn, buom yn gweithio gyda'n partneriaid strategol yn y cynghorau gwirfoddol sirol lleol ledled Cymdeithas Gwasanaethau Gwirfoddol Sir Gaerfyrddin (CAVS), Cymdeithas Mudiadau Gwirfoddol Ceredigion (CAVO), a Chymdeithas Gwasanaethau Gwirfoddol Sir Benfro (PAVS). Roedd pob cyngor gwirfoddol sirol yn allweddol o ran llwyddiant y rhaglen frechu yn Hywel Dda, gan sicrhau bod yna gyflenwad cyson o wirfoddolwyr ar gael yn rhwydd i'n cefnogi. Yn Sir Benfro, yn rhan o'r dull amlasiantaethol hwnnw i gefnogi pobl ar yr adeg pan oedd yna fwy o angen, buom yn gweithio gyda PAVS i gyflwyno Materion Gwirfoddoli i Dîm Mudiadau Gwirfoddol Canolradd Sir Benfro (PIVOT).

Profiad gwaith

Yn 2021-22, cafodd 19 o gyfranogwyr eu lleoli yn dilyn ailgyflwyno lleoliadau profiad gwaith Gweithlu'r Dyfodol.

Rhaglen hyfforddeiaeth: cefnogi i gyflogaeth

Aethom ati i ddatblygu rhaglen hyfforddeiaeth, gan weithio gyda darparwyr hyfforddiant lleol i ehangu ein cynnig hyfforddeiaeth.

Gyrfa Cymru, ysgolion a sefydliadau addysg

Buom yn gweithio gyda Gyrfa Cymru, ysgolion, colegau, a darparwyr addysg bellach trwy gydol 2021-22, gan roi'r wybodaeth ddiweddaraf iddynt am ddatblygiadau a chyfyngiadau COVID-19. Cyflwynasom nifer o sesiynau i ysgolion yn hyrwyddo ein swyddogaeth o ran Gweithlu'r Dyfodol, a chynrychiolwyd y bwrdd iechyd yn nigwyddiad rhithwir grymus Gyrfa Cymru ym mis Mawrth 2022.

Llesiant cenedlaethau'r dyfodol

Llesiant cenedlaethau'r dyfodol

Mae Deddf Llesiant Cenedlaethau'r Dyfodol (Cymru) 2015 yn ei gwneud yn ofynnol i sefydliadau gymryd camau unigol, yn ogystal â chydweithredu â Byrddau Gwasanaethau Cyhoeddus (BGC) a phartneriaid ehangach.

Mae'r Ddeddf hefyd yn nodi lle y mae angen i newidiadau ddigwydd o fewn saith o swyddogaethau corfforaethol sefydliad, sef: cynllunio corfforaethol; cynllunio'r gweithlu; rheoli perfformiad; cynllunio ariannol; risg; asedau, a chaffael. Dyma'r rhannau o'r sefydliad a ddylai fod yn ceisio gwneud pethau'n wahanol gan eu bod yn effeithio ar weddill gwasanaethau'r sefydliad.

Aethom ati i adfywio ein hamcanion llesiant ym mis Tachwedd 2019, ac nid ydym wedi gwneud unrhyw newidiadau iddynt am eu bod yn dal i fod yn strategol berthnasol i'n gweledigaeth a'n cenhadaeth i ddod yn sefydliad sy'n canolbwyntio ar iechyd y boblogaeth. Mae ein hamcanion llesiant yn gyson â mwy nag un o'r nodau llesiant cenedlaethol, ond maent yn disgyn, yn fras, i bedair thema: yr amgylchedd a newid yn yr hinsawdd; cynllunio a datblygu'r gweithlu; ymyriad cynnar ac atal; cydweithredu, cymryd rhan ac ymgysylltu. Dyma ein hamcanion llesiant:

1. Cynllunio a darparu gwasanaethau i gynyddu ein cyfraniad at allyriadau carbon isel.
2. Datblygu gweithlu medrus a hyblyg i ddiwallu anghenion newidiol y GIG modern.
3. Hyrwyddo'r amgylchedd naturiol a'r gallu i addasu i'r newid yn yr hinsawdd.
4. Gwella iechyd y boblogaeth trwy atal ac ymyriad cynnar, gan gefnogi pobl i fyw bywydau hapus ac iach.
5. Cynnig ystod amrywiol o gyfleoedd cyflogaeth sy'n cefnogi pobl i wireddu eu potensial.
6. Cyfrannu at lesiant byd-eang trwy ddatblygu rhwydweithiau rhyngwladol a rhannu arbenigedd.
7. Cynllunio a darparu gwasanaethau i alluogi pobl i gymryd rhan mewn atebion cymdeithasol a gwyrdd ar gyfer iechyd. Annog cymunedau i gyfranogi trwy gyfrwng y Gymraeg.
8. Trawsnewid ein cymunedau trwy gydweithredu â phobl, cymunedau a phartneriaid.

Yn ystod 2021-22, rydym wedi bod yn gweithio'n agos gyda'n cyfarwyddwyr gweithredol, yn cysylltu ein hamcanion llesiant ag amcanion cynllunio ac amcanion strategol y sefydliad, ac â phortffolios gwaith penodol. Yn yr adran hon o'n Hadroddiad Blynnyddol, rydym yn darparu enghreifftiau o'r ffordd yr ydym wedi gwneud cynnydd i gyflawni ein hamcanion llesiant trwy lens y pum ffordd o weithio a nodir yn y Ddeddf.

Integreiddio

Rydym yn parhau i weithio gyda'n sefydliadau partner i ddarganfod ffyrdd o gyflymu trefniadau partneru. Er enghraifft, yn rhan o ymrwymiad y bwrdd iechyd i leihau ei ôl troed carbon a chyfrannu at darged uchelgeisiol GIG Cymru i fod yn 'sero net' o ran allyriadau erbyn 2030, crëwyd Grŵp Trafnidiaeth a Theithio Cynaliadwy. Mae'r grŵp yn cynnwys personél o adrannau gwahanol yn y bwrdd iechyd, er enghraifft cyllid, trafndiaeth, ystadau, y gweithlu a chyfathrebu, yn ogystal â Ffilyd Knowles, sef darparwr cerbydau allanol ar gyfer

Yr iechyd a'r
llesiant gorau ar
gyfer ein
cymunedau

y bwrdd iechyd. Diben y grŵp hwn yw datblygu prosiectau a mentrau i'n helpu i fynd i'r afael â'r newid yn yr hinsawdd, ac mae'r gweithgarwch allweddol wedi cynnwys hyrwyddo ymwybyddiaeth ac addysgu staff am fanteision cerbydau trydan. O ganlyniad i'r ymgysylltu hon, cafwyd cynnydd o 227% yn nifer y cerbydau trydan a brynwyd neu a archebwyd gan y bwrdd iechyd mewn cyfnod o chwe mis. Daw hyn â chyfanswm nifer y cerbydau trydan ledled fflyd gyfan y bwrdd iechyd i 128, cyfanswm sy'n cynnwys cerbydau at ddefnydd busnes yn unig, ynghyd â chynlluniau aberthu cyflog a didyniadau cyflog i brydlesu ceir. Ar hyn o bryd, mae 66 o gerbydau cwbl drydanol yn cael eu defnyddio, ac mae 62 o gerbydau cwbl drydanol wedi cael eu harchebu. Nid yw'r ffigur hwn yn cynnwys cerbydau trydan hybrid – mae 58 o'r rhain naill ai'n cael eu defnyddio neu wedi'u harchebu.

Cyfranogi

Yn ystod y flwyddyn, rydym wedi ceisio ymgysylltu â'r cyhoedd mewn amrywiaeth o sgysiau, gan gynnwys wrth ddatblygu'r Asesiad o Lesiant Lleol gan y Bwrdd Gwasanaethau Cyhoeddus (BGC). Cynhaliwyd arolwg ar wahân ym mhob sir i ddarganfod yr hyn sydd bwysicaf i'r bobl a'r cymunedau. Mae gwrando a deall, yn ogystal â dadansoddi'r adborth, wedi bod yn hanfodol, a, thrwy ddefnyddio ein gwybodaeth am yr ieithoedd a ddefnyddir yn ein cymunedau lleol, roedd Tîm Allgymorth Datblygiad Cymunedol y bwrdd iechyd yn gallu ysgogi cyfranogiad gan gymunedau ethnig lleiafrifol, a darparu mynediad at arolygon yn Arabeg, Pwyleg a Rwmaneg. Bu'r gwaith hwn yn hanfodol o ran annog ein cymunedau amrywiol i sicrhau bod eu llais yn cael ei glywed.

Mae pandemig y coronafeirws wedi cael effaith sylweddol ar y gwasanaethau iechyd a gofal. O ganlyniad, cynhaliodd y bwrdd iechyd ymarfer ymgysylltu yn ystod gwanwyn 2021 er mwyn dysgu gan y cyhoedd am y modd yr oedd y pandemig wedi effeithio ar eu hiechyd a'u gofal, yn ogystal ag ar eu mynediad at ofal iechyd. Aed ati hefyd i ofyn i aelodau'r cyhoedd am eu hadborth mewn perthynas â strategaeth hirdymor y bwrdd iechyd i ddatblygu ac adeiladu ysbyty newydd yn ne ardal Hywel Dda, ac mae hyn yn cynrychioli ein hymrwymiad parhaus i gynhwysiant a chydgynghyrchu.

Yr Hirdymor

Mae cyrff cyhoeddus yn wynebu'r her o boblogaeth sy'n heneiddio a'r effaith y mae hyn yn ei chael ar y gweithlu sydd ar gael i ni. Mae [cynllun yr Academi Prentisiaethau](#) yn enghraifft allweddol o'r gwaith yr ydym yn ei wneud i sicrhau dull mwy hirdymor o gyfrannu at '[Gymru Ffyniannus](#)'. Mae'n ein cefnogi i fuddsoddi mewn cynyddu cyfoeth lleol, ac yn cyfrannu at ein hamcan llesiant ein hunain i gynnig dewis amrywiol o gyfleoedd ar gyfer cyflogaeth sy'n cefnogi pobl i wireddu eu potensial yn llawn. Mae'r rhaglen strwythuredig yn agored i unrhyw un 16 oed neu hŷn, ac y mae'n cynnig amrywiaeth o brofiadau dysgu yn y gweithle, yn ogystal â chynnig y cyfle i fynd i'r coleg neu ganolfan hyfforddi i gael cymwysterau. O blith y lleoedd a gynigiwyd i brentisiaid yng nghanafan 2021, mae 63 o brentisiaid yn dal i gymryd rhan yn y rhaglen.

Eleni, ymgwymerwyd â menter beilot i ariannu a chefnogi aelod o'r staff nyrsio i gwblhau gradd ôl-raddedig (MSc mewn Dulliau Ymchwil Cymdeithasol) ar sail lawn-amser am gyfnod o 12 mis. Mae'r fenter hon yn amlygu ymrwymiad y bwrdd iechyd i ddatblygu galluedd a chapasiti ymchwil ein staff nyrsio, trwy fuddsoddi yn ein gweithlu a galluogi nyrs

staff i gymryd amser pwrrpasol i ffwrdd o ddyletswyddau clinigol i ymgymryd â rhaglen Prifysgol Abertawe. Mae'r fenter hon yn sefydlu llwybr i gefnogi nyrsys i fynd ar drywydd astudiaethau ôl-raddedig a datblygu llwybr gyrfa academiaidd, gan feithrin gwybodaeth a sgiliau ymchwil yn y bwrdd iechyd ar yr un pryd.

Atal

Mae strategaeth iechyd a gofal y Bwrdd Iechyd – [Canolbarth a Gorllewin Cymru Iachach: Cenedlaethau'r Dyfodol yn Byw Bywydau Iach](#) – yn nodi gweledigaeth strategol ar gyfer gwasanaethau sy'n ddiogel, yn gynaliadwy, yn hygyrch ac yn garedig ar gyfer cenedlaethau 'nawr ac yn y dyfodol. Mae'r strategaeth yn seiliedig ar weithredu model cymdeithasol integredig ar gyfer iechyd a llesiant, sy'n arwydd o newid o'n ffocws presennol ar ofal a thriniaeth yn yr ysbyty at ffocws ar atal a meithrin cydnerthedd pobl a chymunedau.

Sefydlwyd Tîm Allgymorth Datblygiad Cymunedol i ymgysylltu â'n cymunedau ethnig lleiafrifol, ac mae gwaith y tîm hwn wedi chwarae rhan allweddol o ran cefnogi'r rheiny a oedd yn gyndyn i ymgysylltu â rhaglen frechu COVID-19 y bwrdd iechyd. Roedd y tîm yn aelod allweddol o'r Grŵp Brechu Teg a ffurfiwyd gan y bwrdd iechyd i wella gwybodaeth am frechlynnau COVID-19, ynghyd â mynediad atynt, ar gyfer y grwpiau hynny sy'n aml yn ei chael yn anodd cyrchu gwasanaethau gofal iechyd neu sydd eisoes yn dioddef o anghydraddoldebau o ran iechyd. Mae'r tîm hefyd wedi hwyluso mynediad at wybodaeth yn iaith gyntaf yr unigolyn os nad Cymraeg neu Saesneg yw'r iaith honno. Mae hyn wedi arwain at negeseuon yn ymwneud ag iechyd y cyhoedd yn cael eu cyfieithu i 17 o ieithoedd gwahanol, sy'n amlygu'r amrywiaeth ddiwylliannol yn ardal Hywel Dda.

Cydweithredu

Roedd trefniadau ein partneriaethau â Byrddau Gwasanaethau Cyhoeddus wedi creu amryw o gyfleoedd i gydweithredu. Un enghraifft o hyn yw'r gwaith sy'n mynd rhagddo yn Sir Benfro. Mae partneriaid Byrddau Gwasanaethau Cyhoeddus wedi dod ynghyd â busnesau a sefydliadau cymunedol lleol, a hynny gydag uchelgais i ddatblygu strategaeth bum mlynedd i addasu i'r hinsawdd. Mae'r gwaith hwn yn ymwneud ag ymdopi â newidiadau i'r hinsawdd yn y dyfodol yn Sir Benfro, ac mae'n canolbwyntio ar y canlynol:

- Addasiadau i'r hinsawdd sy'n helpu i leihau risgiau o ganlyniad i newidiadau sy'n deillio o allyriadau yn y gorffennol, gan gynnwys tywydd difrifol anrhagweladwy; cynnydd yn lefel y môr; newidiadau i systemau naturiol yr ydym yn dibynnu arnynt.
- Risgiau o ran yr hinsawdd: risgiau lluosog sy'n debygol o godi yn sgil newidiadau i'n hinsawdd: a all effeithio ar yr economi leol; yr amgylchedd naturiol; y seilwaith; cymunedau; a llesiant pobl 'nawr ac yn y dyfodol.
- Cadernid o ran yr hinsawdd: sicrhau y gall y sir ddelio â'r risgiau sy'n gysylltiedig â'r newid yn yr hinsawdd a pharatoi ar gyfer y dyfodol.

Mae ein gwaith hefyd wedi cynnwys camau yn ein meysydd corfforaethol a'n gwasanaethau. Rydym yn ymwybodol ein bod yn sefydliad angor mawr ar gyfer Gorllewin Cymru, ac y gallwn ysgogi newid cadarnhaol i'r economi ac yn ein cymunedau, gan gynnwys i'w penderfynyddion iechyd ehangach. Mae gennym nifer o amcanion cynllunio sy'n cyd-fynd â'r gwaith hwn mewn meysydd allweddol megis y gweithlu, caffael a datgarboneiddio. I gefnogi'r gwaith yn y meysydd hynny, bu'r bwrdd iechyd yn gweithio

gyda phartneriaid allanol ac Iechyd Cyhoeddus Cymru i ddatblygu offeryn mapio amddifadedd sy'n galluogi'r defnyddiwr i osod setiau data gwahanol ar ben amryw o fynegeion amddifadedd sydd ar gael yn gyhoeddus (er enghraifft, Mynegai Amddifadedd Lluosog Cymru) a lleoliadau gwasanaethau allweddol (er enghraifft meddygon teulu a fferyllfeydd). Bydd ein system hefyd yn ychwanegu setiau data ychwanegol megis gwybodaeth am ein hystad, ein gwariant ar gaffael, a recriwtio. Rydym newydd gymeradwyo'r map amddifadedd, ac mae gwaith ar fin dechrau i ystyried y ffordd orau o ddefnyddio'r offeryn.

Gallai'r canlyniad posibl i'n cymunedau, o ddefnyddio'r offeryn hwn yn y ffrydiau gwaith sefydledig, fod yn sylweddol. Er enghraifft:

- Recriwtio: mae'r gweithlu eisoes yn gweithio gyda chymunedau i ddeall y rhwystrau a wynebir gan unigolion mewn perthynas â chyflogaeth. Mae rhaglen yn cael ei datblygu sy'n cefnogi'r rheiny o'n cymunedau mwyaf difreintiedig neu ymylol i sicrhau cyflogaeth yn y bwrdd iechyd. Gellir defnyddio'r offeryn mapio i gefnogi'r broses o nodi cymunedau allweddol.
- Caffael: mae'r gwasanaeth caffael eisoes yn ystyried y ffordd orau i ni ymgorffori gwerth cymdeithasol yn ein prosesau caffael. Y nod yw defnyddio potensial ein cyflenwyr o ran sgiliau, galluedd, y gadwyn gyflenwi, a recriwtio i effeithio mewn modd cadarnhaol ar ein cymunedau. Gellir defnyddio'r offeryn mapio i ddangos i'n cyflenwyr mewn modd gweledol lle y mae'r ardaloedd â'r angen mwyaf.
- Yr amgylchedd: mae gennym raglen ystadau sylweddol yn y bwrdd iechyd, a gallwn ddefnyddio'r offeryn mapio i ystyried lleoliad ein hystad ochr yn ochr â gwybodaeth am amddifadedd i lywio strategaethau yn y dyfodol o ran lleoliadau a'r ystad.

Mae'r adran hon o'r Adroddiad Blynyddol wedi darparu cipolwg o'n gwaith i gyflawni uchelgais Deddf Llesiant Cenedlaethau'r Dyfodol. Rydym hefyd yn cyhoeddi Adroddiad Blynyddol ar wahân ar Amcanion Llesiant 2021-22 ar ein [gwefan](#), a bydd yn darparu rhagor o fanylion am y cynnydd a wnaed gennym i gyflawni ein hamcanion llesiant, ynghyd â thystiolaeth o'n cyfraniad at y nodau llesiant cenedlaethol.

[Darllenwch ragor o wybodaeth am ein Datganiad a'n Hamcanion Llesiant, Cynlluniau Llesiant y BGC, a'n Hadroddiad Blynyddol ar Ein Hamcanion Llesiant, a hynny yma](#)

Coleddu ein hiaith Gymraeg

CYMR AEG

Y Gymraeg

Rydym am fod y bwrdd iechyd cyntaf yng Nghymru lle mae'r Gymraeg a'r Saesneg yn cael eu trin yn gyfartal o ran statws (Safonau Iechyd a Gofal: Gofal gydag Urddas). Fel hyn, byddwn yn coleddu ysbryd ein hiaith Gymraeg, yn ogystal â chydymffurfio â Safonau'r Gymraeg.

Mae Safonau'r Gymraeg, a ddaeth i rym ar 30 Mawrth 2019, yn set o ofynion statudol sy'n nodi, yn gwbl glir, ein cyfrifoldebau i ddarparu gwasanaethau dwyieithog rhagorol. Gellir cyrchu'r rhain trwy'r [adran ar ein gwefan: Gwasanaethau'r Gymraeg](#).

Mae ein sefydliad yn teimlo'n angerddol ynghylch y Gymraeg, ac rydym yn awyddus i gyflawni ein dyletswyddau statudol a rhagori arnynt. Rydym yn cydnabod nad yw'r ddarpariaeth bob amser yn gyson ledled ein safleoedd na'n timau. Mae angen i'n diwylliant esblygu er mwyn i ni ddarparu gwasanaeth dwyieithog di-dor i'r bobl sy'n defnyddio ein GIG a'n gwasanaethau gofal, ac mae hon yn ymdrech hirdymor.

Mae'r Gymraeg yn un o drysorau Cymru. Mae'n rhan o'r hyn sy'n ein diffinio fel pobl ac fel cenedl. Nod y bwrdd iechyd yw darparu gwasanaethau gofal iechyd dwyieithog i'r cyhoedd, a hwyluso'r staff i ddefnyddio'r Gymraeg yn naturiol yn y gweithle. Anelwn at fod yn esiampl yn y maes hwn, gan arwain trwy esiampl a mynd ati i hyrwyddo a hwyluso defnydd cynyddol o'r Gymraeg gan ein gweithlu. Pa un a ydynt yn siaradwyr rhugl, yn siaradwyr dihyder sy'n dymuno gwella eu sgiliau, neu'n siaradwyr newydd, mae'r gweithle yn darparu cyfleoedd i unigolion ddefnyddio, ymarfer a dysgu'r Gymraeg.

Byddwn yn adrodd ar ein cynnydd o ran y targedau a osodir i gyflawni ein huchelgais a'n goblygiadau statudol ar gyfer y Gymraeg yn ein hadroddiad blynyddol ar y Gymraeg, a gyhoeddir ar ein [gwefan](#).

Sgiliau iaith y staff

Caiff sgiliau iaith ein staff, yn unol â Safonau'r Gymraeg 116 ac 117, eu cipio a'u cofnodi ar system y cofnod staff electronig (ESR). Ar 31 Mawrth 2022, mae 96% o'r staff wedi cofnodi eu sgiliau iaith Gymraeg fel a ganlyn:

0 – Dim sgiliau – 3,935
1 – Mynediad – 2,632
2 – Sylfaen – 992
3 – Canolradd – 857
4 – Uwch – 873
5 – Hyfedredd – 1,273
Heb ei gofnodi ar yr ESR – 430
Cyfanswm – 10,992

Nodir isod nifer y swyddi newydd a'r swyddi gwag a hysbysebwyd yn ystod y flwyddyn, wedi'u cofnodi fesul y rhai lle roedd sgiliau Cymraeg yn hanfodol neu'n ddymunol, a'r nifer lle mae angen dysgu'r Gymraeg neu lle nad oedd y Gymraeg yn angenrheidiol:

Cyfanswm nifer swyddi gwag y bwrdd iechyd a hysbysebwyd yn 2021-22 fel a ganlyn:	
Mae sgiliau Cymraeg yn hanfodol	76
Mae sgiliau Cymraeg yn ddymunol	2855
Bydd yn ofynnol dysgu sgiliau Cymraeg yn dilyn penodiad i'r swydd	0
Nid yw sgiliau Cymraeg yn angenrheidiol	26
Cyfanswm nifer y swyddi gwag a hysbysebwyd rhwng 01/04/2021 a 31/03/2022	2957

Cwynion yn ymwneud â'r Gymraeg

Daeth dau gŵyn am y gwasanaeth Cymraeg i law'r bwrdd iechyd yn ystod 2021-22. Ymchwiliodd Comisiynydd y Gymraeg i'r ddau gŵyn o fewn y flwyddyn.

Cwyn 1: Roedd achwynwr wedi ffonio llinell gymorth COVID-19 y bwrdd iechyd (0300 303 8322) ar amryw o achlysuron dros gyfnod o chwe wythnos, ac roedd yn anhapus â'r diffyg gwasanaethau Cymraeg a gafwyd. Adroddodd y bwrdd iechyd ar gyfres o bwyntiau gweithredu gan Gomisiynydd y Gymraeg ym mis Mawrth 2022.

Cwyn 2: Roedd yr ail gŵyn yn ymwneud ag un o ganolfannau brechu torfol y bwrdd iechyd. Ar ôl iddo gofrestru wrth y ddesg a chael taflen am y brechlyn, nododd yr achwynwr ei fod wedi cael ei gyfeirio at ail ddesg i ddarparu ei wybodaeth gyswllt, ynghyd â gwybodaeth arall. Yn dilyn hyn, rhoddwyd ffurflen i'r achwynwr a oedd yn cynnwys y manylion hyn, a honnodd eu bod yn uniaith Saesneg. Mae'n ofynnol i'r bwrdd iechyd adrodd ar bedwar pwynt gweithredu gan Fwrdd yr Iaith Gymraeg erbyn diwedd mis Ebrill 2022.

Cynaliadwyedd

Cynaliadwyedd

Er nad yw'n ofynnol darparu adroddiad cynaliadwyedd ar wahân yn rhan o'n Hadroddiad Blyneddol ar gyfer 2021-22, mae cynaliadwyedd yn parhau i fod yn fater o flaenoriaeth uchel i'r sefydliad. Isod, cyfeirir at gamau i sicrhau ein bod yn datblygu ac yn gweithio mewn gwell amgylchedd cynaliadwy. Daw'r data a ddefnyddir i ddarparu'r wybodaeth o ddata wedi'u dilysu a'u cynnwys mewn anfonebu, ac sy'n cael eu cofnodi a'u monitro trwy systemau rheoli mewnol.

Defnydd
cynaliadwy o
adnoddau

*Rheoli Gwastraff

Yn 2021-22, datblygodd y bwrdd iechyd strategaeth gwastraff sy'n anelu at leihau 'cyfanswm y gwastraff', cynyddu'r swm a ailgylchir, ac ailgyfeirio gwastraff o safleoedd tirlenwi, yn unol â thargedau'r Llywodraeth erbyn 2030. Defnyddiwyd y flwyddyn sylfaen 2018-19 i adlewyrchu blwyddyn 'arferol' cyn COVID-19. Oddi ar y flwyddyn sylfaen, rydym wedi cynyddu swm yr ailgylchu o 45% i 48% (*pro rata* yn 2021-22). Mae hyn wedi rhagori ar darged ein strategaeth gwastraff i ailgylchu 45% erbyn 2021-22. Yn 2021-22, aeth y bwrdd iechyd ati hefyd i gyflwyno system o ailgylchu gwastraff wedi'i wahanu yn y tarddle yn Ysbyty Llwynhelyg, a bydd yn parhau i gyflwyno'r system hon ar y safleoedd cymunedol ac mewn canolfannau iechyd yn 2022-23. Rydym yn disgwyl i hyn gynyddu'r cyfraddau ailgylchu ar lefel debyg i'r cynnydd a welwyd trwy gyflwyno ailgylchu gwastraff wedi'i wahanu yn y tarddle ar y safleoedd aciwt eraill (ysbytai Bronglais a'r Tywysog Philip) yn 2017-18 a 2018-19.

Mae cyfanswm y gwastraff a ailgylchir bellach oddeutu 750 tonnall fetrig. Bu i ni lwyddo i ailgyfeirio mwy o wastraff o safleoedd tirlenwi, gyda thua 50% o'r gwastraff a fyddai wedi mynd i safleoedd tirlenwi yn 2020-21 'nawr yn cael ei anfon i'w adfer. Mae hyn wedi rhagori ar darged ein strategaeth gwastraff i adfer 25% o'r gwastraff sy'n cael ei anfon i safleoedd tirlenwi erbyn 2022-23. Mae'r gwelliannau hyn wedi lleihau'r allyriadau a gynhyrchir o wastraff tua 69% oddi ar y flwyddyn sylfaen. Bu cynnydd bach yn y costau gwastraff cyffredinol, yn bennaf oherwydd cynnydd yn yr ardrethi a'r costau tirlenwi.

Warp It

Ym mis Gorffennaf 2018 roeddem wedi ymrwymo i ddefnyddio Warp It, sef llwyfan ar-lein ar gyfer ailddefnyddio dodrefn a chyfarpar. Hyd yma, mae dros 1,122 o staff wedi ymrwymo i ailddefnyddio eitemau nad oes ar bobl eraill eu hangen mwyach, gan osgoi gwaredu bron 63 tonnall fetrig o wastraff, ac atal 226 tonnall o allyriadau CO₂e.

ISO 14001

Mae ein Tîm Amgylcheddol wedi parhau i gynnal y System Rheoli Amgylcheddol yn unol â'r safon ISO 14001, gan gynnwys llunio amcanion a thargedau blyneddol a chyflwyno adolygiad rheoli o'r perfformiad trwy bwyllgor ffurfiol. Yn dilyn ymweliad arolygu ym mis Tachwedd 2021, rydym wedi llwyddo i gynnal yr achrediad, ac ni nodwyd unrhyw achosion bach na mawr o anghydfurfedd.

*Cyfleustodau

Amcangyfrifir y bydd cyfanswm y defnydd disgwylledig o'r holl gyfleustodau ar gyfer 2021-22 yn 96,359,293 KWawr, gan gynhyrchu 19,185 TCO₂. Roedd y defnydd gwirioneddol ar gyfer 2020-21 yn 96,737,462 KWawr, a gynhyrchodd 19,640 TCO₂. Oherwydd pwysau cenedlaethol a dylanwadau cyfredol ar y farchnad, mae costau cyfleustodau wedi cynyddu'n sylweddol, a bydd y bwrdd iechyd yn parhau i fonitro hyn ac adrodd arno.

Mae'r defnydd o drydan, olew a biomas fymryn yn uwch na'r llynedd, er i'r gostyngiad o 4% yn y defnydd o nwy fwy na gwrthbwysu'r cynnydd hwn.

Gellir priodoli'r defnydd is o nwy yn ystod 2021-22 i dywydd mwynach, yn gyffredinol, ar hyd y flwyddyn. Roedd y defnydd o drydan fymryn yn uwch (4%) na'r flwyddyn flaenorol, a hynny'n bennaf oherwydd y llwyth ychwanegol yn Ysbyty Glangwili a briodolir i'r uned menywod a phlant newydd, ac i staff ledled y bwrdd iechyd yn dychwelyd i'r gwaith ar ôl gweithio gartref yn ystod COVID-19. Gall y cynnydd yn y defnydd o olew a biomas hefyd gael ei briodoli i gomisiynu a chynnal yr uned menywod a phlant newydd yn Ysbyty Glangwili. Roedd y defnydd o Wres a Phŵer Cyfunedig yn debyg i'r flwyddyn flaenorol, gyda dim ond cynnydd bach o tua 3%. Yn 2014-15, sefydlodd y bwrdd iechyd gytundeb perfformiad ynni 10 mlynedd gyda Centrica i gyflawni arbedion ariannol ac arbedion carbon gwarantedig. Rhagwelir y bydd y contract perfformio ynni yn arbed tua 1,040 tCO₂ yn ystod 2021-22.

Gwelwyd cynnydd sylweddol yn y pris fesul uned ar gyfer nwy, olew a thrydan trwy gydol y flwyddyn, ac, o'u cyfuno, mae'r rhain 36% yn uwch na'r llynedd ar gyfartaledd. Mae hyn yn ganlyniad i ddylanwadau ar y farchnad sydd y tu hwnt i reolaeth y bwrdd iechyd. Gostyngiad yn ffactor trawsnewid CO₂ trydan yw'r prif ffactor sy'n cyfrannu at y lefel is gyffredinol o CO₂ a gynhyrchwyd yn ystod 2021-22.

Rydym wedi gweld cynnydd yng nghyfaith y dŵr a ddefnyddir, o gyfanswm o 269,931 m³ yn costio £739,747 yn 2020-21 i tua 282,137 m³ yn costio £782,271 yn 2021-22. Gellir priodoli'r cynnydd hwn yn y defnydd i'r cyfnod estynedig o fflysio tanciau a'r gwaith parhaus o adeiladu theatrau, ill dwy yn Ysbyty'r Tywysog Philip. Rydym yn defnyddio cwmni i reoli a monitro'r dŵr a ddefnyddir gennym yn y bwrdd iechyd. Amcangyfrifir bod 44,162 m³ o ddŵr wedi'i arbed yn 2021-22, a bod arbedion ariannol o £65,000 wedi'u gwneud. Mae'r arbediad yn y defnydd o ddŵr wedi arbed 17.7 tCO₂e.

***Noder:** Mae'r defnydd gwirioneddol ar gyfer dau fis olaf 2021-22 yn achos gwastraff a chyfleustodau wedi'i amcangyfrif gan na ddaw anfonebau ar gyfer y flwyddyn lawn i law tan fis Mai.

Cludiant

Rydym wedi bod yn gweithio'n galed i sicrhau bod y camau a nodir yn strategaeth datgarboneiddio GIG Cymru yn cael eu gweithredu. Mae hyn yn cynnwys nifer o fentrau:

- Hyrwyddo'r defnydd o gerbydau trydan ymhlith adrannau a staff;
- Cyflwyno tracio telemateg yn achos nifer o gerbydau'r bwrdd iechyd, gyda chynlluniau i'w gyflwyno'n llawn yn 2022-23;

- Cynnal adolygiadau ledled ein prif safleoedd i asesu'r potensial i osod seilwaith ar gyfer gwefru cerbydau trydan. Rydym yn anelu at ddechrau cyflwyno unedau gwefru cerbydau trydan ledled ein safleoedd ym mlwyddyn ariannol 2022-23;
- Datblygu'r seilwaith ar y safle ymhellach i hyrwyddo mwy o ddefnydd o deithio llesol;
- Darparu mwy o gymorth i staff i alluogi rhagor ohonynt i weithio gartref neu weithio'n hyblyg.

O ganlyniad i'r camau a gymerwyd hyd yma, gwnaed cynnydd sylweddol yn ein hymgyrch i leihau allyriadau carbon i gyflawni'r targedau hynny a nodir yn y strategaeth datgarboneiddio. Mae'r gwelliannau allweddol yn cynnwys:

- Ar 31 Mawrth 2021, roedd gennym gyfanswm o 35 o gerbydau trydan ar waith ledled fflydoedd cynlluniau defnydd busnes yn unig a phrydlesu ceir y bwrdd iechyd. Mae'r nifer hwn 'nawr wedi cynyddu i 128 o gerbydau trydan naill ai ar waith neu wedi'u harchebu, sy'n cynrychioli cynnydd o 265% yn ystod y flwyddyn ariannol ddiwethaf. Rydym yn disgwyl i'r nifer hwn gynyddu'n sylweddol yn ystod y flwyddyn ariannol nesaf, wrth i ni roi seilwaith gwefru cerbydau trydan ar waith ar ein safleoedd a dechrau newid ein fflyd defnydd busnes yn unig yn gerbydau trydan;
- Bu yna ostyngiad sylweddol yng nghyfanswm nifer y milltiroedd busnes a deithiwyd yn y bwrdd iechyd rhwng 2018-19 a 2020-21. Gostyngodd y milltiroedd o 10.2 miliwn i 6.5 miliwn, sef gostyngiad o 36% dros y cyfnod. Er ein bod yn dal i aros am y ffigurau terfynol ar gyfer 2021-22, rhagwelir y bydd y duedd gadarnhaol hon yn parhau wrth i'r arfer da mewn perthynas â gweithio gartref, gweithio hyblyg, teleiechyd, a thelegynadledda barhau i gael ei ymgorffori yn rhan o'r arferion gweithredol;
- Mae'r gostyngiad yn y milltiroedd busnes a welwyd rhwng 2018-19 a 2020-21 hefyd yn cael ei adlewyrchu yn yr allyriadau CO₂e a welwyd yn yr un cyfnod, gyda chyfanswm yr allyriadau ar gyfer y cyfnod yn gostwng o 2,109 tonnell fetrig o CO₂e i 1,343 tonnell fetrig o CO₂e. Rydym yn disgwyl i lefel yr allyriadau CO₂e ostwng ymhellach yn y blynnyddoedd i ddod wrth i nifer y cerbydau trydan a ddefnyddir gan adrannau a staff barhau i gynyddu mewn cyfrannedd â chyfanswm y cerbydau.

Mentrau eraill

Prosiectau datgarboneiddio/effeithlon o ran ynni

Mae prosiectau sydd ar fin cael eu cwblhau neu y bwriedir eu cyflawni yn 2021-22 a 2022-23, yn dilyn sicrhau cyllid gan y llywodraeth ar gyfer asedau presennol, yn cynnwys;

- Gosod paneli ffotofoltäig ar y to yn ysbytai Bronglais, Llwynhelyg a De Sir Benfro;
- Pyrth ceir solar yn Ysbyty De Sir Benfro;
- Prosiect goleuadau LED yn Ysbyty Bronglais;
- Prosiect fferm solar ar y ddaear ar safle Hafan Derwen – 0.45 MW;
- Gosod pedwar gwefrydd 7 kW ym mhob ysbyty aciwt, a phrynu saith fan fflyd drydan;
- Gosod pwmp gwres ffynhonnell aer yng Nghanolfan Gofal Integredig Aberteifi.

Buddion allweddol yr holl gynlluniau hyn yw gostyngiad yn yr allyriadau carbon, gwell cydnherthedd safleoedd, ac arbedion refeniw.

Y rhaglen ymwybyddiaeth o garbon

Rydym wrthi'n datblygu rhaglen llythrennedd carbon, a hefyd yn ymgysylltu mwy â'r cyhoedd a staff i gefnogi ymwybyddiaeth a newid i'r sefydliad cyfan. Mae'r bwrdd iechyd yn rhan o Raglen Arloesi'r Economi Gylchol, trwy gyllid Llywodraeth Cymru, a hwylusir gan Brifysgol Abertawe. Nod y rhaglen yw meithrin ymwybyddiaeth o ddatgarboneiddio, ac mae partneriaethau sector cyhoeddus wedi'u ffurfio yn Sector Cyhoeddus Dinas-Ranbarth Bae Abertawe i fynd ati ar y cyd i ddatblygu a chyflawni ymwybyddiaeth. Bydd ein rhaglen llythrennedd carbon yn cyflwyno tair haen o gymhwyster ymhlith ein cyd-weithwyr – ymwybyddiaeth, ymarferydd ac arweinydd – a bydd hyn yn ysgogi newid ymddygiad cadarnhaol, gan ein harwain tuag at ein huchelgeisiau o ran datblygiad cynaliadwy. Mae'r bwrdd iechyd yn aelod o'r Rhaglen Genedlaethol ar gyfer Newid yn yr Hinsawdd a Datgarboneiddio ym maes lechyd a Gofal Cymdeithasol yng Nghymru, ac mae hefyd yn aelod o nifer o grwpiau amgylcheddol a grwpiau sy'n ymwneud â'r newid yn yr hinsawdd, sydd oll yn gyfranwyr pwysig i ni sicrhau arfer gorau yn rhan o'n hymgyrch barhaus i wella.

Mannau gwyrdd

Mae gennym grwpiau lechyd Gwyrdd ar safle pob un o'r pedwar ysbyty aciwt ac yn Ysbyty De Sir Benfro. Mae gan y grwpiau mwy sefydledig yn ysbytai Llwynhelyg a Glangwili nifer o brosiectau ar y gweill, ac mae'r ddau safle wedi creu gweunydd blodau gwyllt bach yn rhan o brosiect Gweunydd Godidog yr elusen Plantlife. Mae prosiectau eraill ar y safleoedd hyn yn cynnwys datblygu nifer o ardaloedd i wella bioamrywiaeth a darparu mannau gwyrdd ar gyfer cleifion, staff ac ymwelwyr. Ar hyn o bryd, mae staff yn Ysbyty Glangwili yn gweithio gyda Cadwch Gymru'n Daclus i ddatblygu'r man gwyrdd ger Teilo, sy'n golygu plannu coed a gosod dau wely blodau uchel ar gyfer planhigion brodorol a blodau gwyllt. Mae'r grŵp yn Ysbyty Llwynhelyg wedi bod yn cysylltu â Chyngor Sir Penfro yn rhan o Brosiect Estyniadau'r Cleddau, sy'n cynnwys rhodfa o'r ysbyty i lwybr ar hyd Afon Cleddau. Mae tua 200 o goed brodorol wedi cael eu rhoi'n rhodd i Ysbyty Llwynhelyg ac Ysbyty De Sir Benfro yn rhan o brosiect Coedwig y GIG. Bydd pob safle yn cael coeden i'w phlannu yn rhan o fenter Canopi Gwyrdd y Frenhines i nodi Jiwbilî Platinwm Ei Mawrhydi yn 2022. Gyda chefnogaeth ein bydwagedd a staff eraill GIG Cymru, bu i ni ymuno â Phartneriaeth Natur Sir Benfro i blannu 3,810 o goed mewn dwy flynedd i ddathlu prosiect Canopi Gwyrdd y Frenhines. Mae pob coeden a blennir yn cynrychioli baban a aned, a chyn bo hir bydd ganddynt goedwig lewyrchus i deuluoedd ei mwynhau am genedlaethau i ddod. Mae hon yn enghraifft wych o bartneriaethau prosiectau lleol yn creu mannau mwy gwyrdd ac yn helpu i sicrhau budd i lesiant personol. [Cynhyrchwyd fideo byr am y prosiect, sydd i'w weld yma.](#)

Mae ein grwpiau lechyd Gwyrdd yn ysbytai'r Tywysog Philip a Bronglais yng nghamau cynnar datblygu'r prosiect, ac mae'r diddordeb yn cynyddu ar y ddau safle. Yn ddiweddar, trefnodd y Tim Amgylcheddol i arolygon o fioamrywiaeth gael eu cynnal ar nifer o safleoedd, a bydd hyn yn rhoi rhagor o syniadau i'r grwpiau lechyd Gwyrdd ar gyfer hyrwyddo mannau gwyrdd.

Casgliad ac edrych i'r dyfodol

Casgliad ac edrych i'r dyfodol

Wrth symud ymlaen i 2022-23, rhaid i ni beidio ag anghofio'r hyn a ddysgwyd gennym yn ystod y 12 mis diwethaf, na'r hyn yr ydym wedi parhau i'w ddarparu, na'r datblygiadau a wnaed yn ystod yr amseroedd heriol hyn ar gyfer ein sector.

Trwy gydol y flwyddyn ddiwethaf, rydym wedi gweld galw cynyddol ar draws ein systemau gofal brys a gofal wedi'i drefnu, pwysau ychwanegol ar wasanaethau gofal sylfaenol, galw sylweddol o ran unigolion yn galw heibio ein hadrannau brys, pwysau sylweddol ym maes gofal cymdeithasol, a lefelau uchel o salwch ledled ein gweithlu. Er gwaethaf y cyfyngiadau parhaus ar gapasiti, rydym wedi ceisio cynnal gwasanaethau hyd eithaf ein gallu, ac ailgychwyn nifer o wasanaethau arferol.

Yn 2021-22, rydym wedi gweithio'n galed i gynyddu capasiti yn gyson i weld a thrin cleifion, lle bo hynny'n bosibl. Roedd y pandemig yn parhau i effeithio arnom wrth i ni lynu at gyfyngiadau perthnasol y llywodraeth i'n cadw'n ddiogel. Roedd y tonnau amrywiol o achosion o COVID-19 yn golygu bod yn rhaid i ni leihau rhywfaint o'r gofal wedi'i gynllunio, gyda dim ond gofal mewn argyfwng a gofal canser brys yn parhau. O ganlyniad, cynyddodd nifer y cleifion sy'n aros am driniaeth; fodd bynnag, mae'r perfformiad wedi sefydlogi o gymharu â'r effaith ar berfformiad yn ystod blwyddyn gyntaf y pandemig.

Er mwyn mynd i'r afael â rhai o'r heriau a wynebwyd mewn modd rhagweithiol, buom yn gweithio'n hyblyg ac yn addasu'n gyflym lle roedd angen – gan ganolbwyntio ar ddarparu gwasanaethau ar gyfer y rhai â'r angen mwyaf. Gyda chymorth gan Lywodraeth Cymru, aethom ati i fuddsoddi mewn tair theatr fodiwlaid yn Ysbyty'r Tywysog Philip er mwyn cynyddu'r gallu i gynnal llawdriniaethau dydd. Aethom ati hefyd i ddatblygu mentrau rhestrau aros i gysylltu â'n cleifion a oedd wedi bod yn aros am amser hir, a'u cefnogi, ac i weithio ar ein gofal COVID-19 cymunedol ar yr un diwrnod. Gwnaed gwaith sylweddol i osgoi derbyn cleifion i'r ysbyty, gan weithio mewn partneriaeth â'n cyd-weithwyr ym maes gofal cymunedol a gofal cymdeithasol, a hynny gyda'r nod o leihau'r pwysau ar ein gwasanaethau.

Ochr yn ochr â hyn, roeddem yn parhau i reoli ein hymateb i COVID-19. Buom yn gweithio gyda'n partneriaid amlasiantaethol ledled y rhanbarth i barhau i amddiffyn ein cymunedau, ein gwasanaethau cyhoeddus lleol, a'r GIG, wrth i'r pandemig barhau. Roedd ein rhaglen frechu yn llwyddiannus iawn, ac mae nifer mawr iawn o unigolion wedi cael y brechlyn hyd yma. Wrth i'n rhaglen frechu symud i gam y pigiadau atgyfnerthu, byddwn yn parhau i weithio i amddiffyn cynifer o bobl â phosibl ac i sicrhau bod gan bob preswlydd fynediad at y brechlyn. Mae'r galw am brofion, y strategaeth genedlaethol, a'r seilwaith profi wedi newid yn aml ac yn eithaf dramatig yn ystod y pandemig. O ganlyniad, aethom ati i ddatblygu seilwaith profi gadarn, sydd wedi bod yn ymatebol i strategaeth profi Llywodraeth Cymru wrth iddi esblygu. Rydym yn parhau i ddarparu prawf COVID-19 i unrhyw un y mae arno ei angen.

Rydym yn falch o'n holl staff a phopeth a gyflawnwyd ganddynt yn ystod y flwyddyn ddiwethaf – am eu hymdrechion diflino i ddarparu gofal iechyd yn ystod pwysau a heriau digynsail. Mae effaith y ddwy flynedd ddiwethaf ar ein cyd-weithwyr wedi bod yn sylweddol.

**Gofal diogel,
cynaliadwy,
hygyrch a
charedig**

Byddwn yn parhau i gefnogi ein staff a'u llesiant wrth i ni ddechrau adfer a gwella yn dilyn effaith y pandemig, a hynny trwy wrando ar eu profiadau a'r hyn sy'n bwysig iddynt. Rydym am i bob diwrnod ym Mwrdd Iechyd Prifysgol Hywel Dda fod yn 'ddiwrnod da yn y gwaith' – ar gyfer ein gweithlu presennol a gweithlu'r dyfodol – a bydd Cynllun Diwylliant Ein Pobl yn ein helpu ar hyd ein taith i newid diwylliant.

Mae ein cynllun tair blynedd ar gyfer 2022-25 yn cydnabod bod cryfder y bwrdd iechyd yn ei bobl, y rheiny sy'n gweithio yn y system iechyd a gofal, a'r cymunedau a wasanaethwn, fel ei gilydd. Mae'n cydnabod yr effaith y mae'r pandemig wedi'i chael ar unigolion, timau, teuluoedd, a chymdeithas. O ganlyniad, mae ein blaenoriaethau a'n gweithredoedd yn rhoi pobl wrth wraidd popeth a wnawn, gan gydnabod y bydd y llwybr allan o'r pandemig a thuag at ein gweledigaeth strategol yn dod oddi wrth ein pobl, fel yr oedd yn wir trwy gyfnod COVID-19.

Mae ein strategaeth yn uchelgeisiol ac yn bellgyrhaeddol, ac mae'n ceisio sicrhau bod gan Ganolbarth a Gorllewin Cymru system iechyd a gofal a fydd yn gwasanaethu'r boblogaeth am ddegawdau i ddod. Mae'n cynnig cyfle unwaith mewn oes i ailosod y system a sefydlu model cynaliadwy, ansawdd uchel ar gyfer cenedlaethau'r dyfodol. Rydym yn gweld ein cyfraniad posibl i Ganolbarth a Gorllewin Cymru yn yr ystyr ehangaf; nid yn unig o ran darparu gofal iechyd uniongyrchol, mor bwysig ag y mae hynny, ond hefyd o ran yr effaith y gallwn ei chael o fod y cyflogwr mwyaf ac yn gyfrannwr sylweddol i'r economi. Er enghraifft, gallwn chwarae rôl allweddol o ran cefnogi ein poblogaeth i ddatblygu gyrfaedd gwerth chweil, o ran rhoi cymorth i'n busnesau lleol a'r broses o adfywio trefi, ac o ran darparu arweinyddiaeth i ailosod ein cymdeithas wrth i ni geisio mynd i'r afael â heriau cymdeithasol megis datgarboneiddio.

O ganlyniad, mae ein cynllun tair blynedd yn adlewyrchu hyd a lled yr uchelgais hwnnw. Yn ystod 2022 i 2025, bwriadwn gymryd camau arwyddocaol tuag at y weledigaeth hon, gan barhau hefyd i ymateb i COVID-19 a mynd i'r afael â gwaddol y pandemig. Er mwyn cyflawni ein gweledigaeth ar gyfer Canolbarth a Gorllewin Cymru iachach, bydd yn ofynnol i'r sefydliad feddu ar ffocws clir (ein chwe blaenoriaeth ar gyfer 2022-23), map ffordd tuag at y weledigaeth strategol (ein hamcanion cynllunio), ffordd i fesur cynnydd (ein mesurau blaenoriaeth ar gyfer 2022-21 a mesurau ein canlyniadau strategol), a dulliau cadarn o oruchwylio a rheoli risgiau (fframwaith sicrwydd ein bwrdd a strwythur diwygiedig ein pwyllgorau). Mae'r elfennau allweddol 'nawr ar waith, ac mae ein ffocws yn symud at gyflawni'r modelau newydd.

Yn ystod 2022-23 byddwn yn:

- parhau i fod yn barod ar gyfer COVID-19 ac unrhyw amrywiolion ac ymchwyddiadau dilynol o ran heintiau, fel y gallwn fod yn hyblyg i fodloni unrhyw newidiadau i'r galw yn ein system. Bydd hyn yn cynnwys ein rhaglen frechu, ein rhaglen brofi; a deall ac ymateb i'r galw am welyau cleifion mewnol;
- canolbwyntio ar adfer ein gweithgarwch gofal wedi'i gynllunio a chefnogi cleifion tra eu bod yn aros – bydd agor yr uned llawdriniaethau dydd newydd yn Ysbyty'r Tywysog Philip yn helpu yn hyn o beth, fel y bydd gwella effeithlonrwydd yn ein system, yn ogystal â'n rhaglen waith sy'n canolbwyntio ar drawsnewid y gwasanaeth cleifion allanol;

- cefnogi ein gweithlu a datblygu rhagor ar ein map ffordd tuag at gynaliadwyedd y gweithlu, gan gynnwys ein hymgyrch recriwtio dramor;
- parhau i ailgynllunio ein system gofal brys a gofal mewn argyfwng, yn unol â chwe nod y polisi cenedlaethol;
- atgyfnerthu ein perthynas â'n byrddau iechyd cyfagos ymhellach trwy fentrau rhanbarthol megis Cydweithrediad Rhanbarthol ar gyfer Iechyd (ARCH) a Chyd-bwyllgor Canolbarth Cymru ar gyfer Iechyd a Gofal;
- sicrhau arbedion sy'n deillio o'n fframwaith cyfleoedd, a gweithio gyda Llywodraeth Cymru ar ein map ffordd tuag at sefydlogrwydd ariannol;
- parhau i weithio ar ein strategaeth 'Canolbarth a Gorllewin Cymru Iachach', gyda phwyslais yn y flwyddyn i ddod ar ein hachos busnes amlinellol;
- adeiladu ar waith ein saith clwstwr, gyda phwyslais penodol ar ein cynllun clwstwr cyflym, a thrwy ein proses cynllunio ardal integredig;
- cyflymu ein gwaith yn y maes digidol; gofal iechyd seiliedig ar werth; ym maes ymchwil ac arloesi; ym maes yr economi sylfaenol; ac mewn meysydd rheoli ansawdd; a
- pharhau i ddysgu o'n hamcanion cynllunio.

Nid ydym yn tanbrizio'r heriau yr ydym ni, y sefydliad, yn eu hwynebu wrth i ni fynd i mewn i 2022-23, ond rydym yn barod amdanynt ac yn ystyried y cyfnod nesaf yn gyfle i ailosod y system i'n rhoi ar y trywydd iawn ar gyfer gwireddu ein gweledigaeth strategol – Canolbarth a Gorllewin Cymru Iachach.

What our Annual Report will tell you

Our Annual Report suite of documents tell you about your health board, the care we provide and what we do to plan, deliver, and improve healthcare for you.

Due to another extraordinary year, our 2021/22 reports are written in the context of how we have continued to respond to the COVID-19 pandemic, while delivering care and services, and starting our recovery from its impact. It is made up of three parts:

Performance report

This report will tell you about the challenges we have faced and how we have addressed them, as well as achievements and progress made. It includes information about the direct response provided to COVID-19, along with the impacts on other areas of health and care. It details how we have performed against Welsh Government targets and our actions to improve. It also describes how we have maintained a focus on safety and quality during the pandemic and considers what we have learnt and how this will inform future work.

Accountability report

This report details our key accountability requirements under the Companies Act 2006 and The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 (as adapted for public sector organisations). It includes our Annual Governance Statement (AGS), which provides information about how we manage and control our resources and risks and comply with governance arrangements.

Financial accounts

Our summarised Financial Statements detail how we have spent our money and met our obligations under The National Health Service Finance (Wales) Act 2014.

How to contact us

Publications in print or alternative formats/languages are available on request by contacting us:

Welcome from our Chair and Chief Executive

While our Annual Report reflects on yet another extraordinary year, it also enables us to thank everyone who has made so many personal sacrifices to keep yourself, your loved ones and your neighbours safe over the last year. Even when another new COVID-19 variant, Omicron, was identified earlier in the winter, everyone dug deep to step up to the challenge yet again.

We thank everyone working in and with [Hywel Dda University Health Board](#), whatever your role, all our volunteers, and our partners, for your extraordinary service caring for patients and our communities in the face of this pandemic.

The second anniversary of the first UK lockdown was marked with a national Day of Reflection (23 March 2022) when we remembered those who lost their lives to COVID-19 in Carmarthenshire, Ceredigion and Pembrokeshire since the start of the pandemic. They and their families remain in our thoughts always. We reflected on the inspiring stories shared in our staff podcast series (<https://hyweldda.libsyn.com/>), which will help us to learn and improve, showing the value of our staff and what they have achieved in difficult circumstances.

Access to a wide range of services has been constrained over the past two years, resulting in delays in treatment and care within our health board. We are deeply sorry if you have experienced delays and access to your care and treatment. We detail in this report the ways in which we are trying to introduce restart services and tackle the backlog of patients who are waiting through initiatives, such as the waiting list support service, new one-stop diagnostic clinics and additional capacity to provide care.

Our staff across acute, primary and community care settings and have worked tirelessly to continue delivering care. In both physical and mental health care, they have gone above and beyond every day in the face of unparalleled pressures and challenges. A key priority for us is to continue to support our staff at a time when many are exhausted, and the future is uncertain.

Despite our current position, and the unknown course of the pandemic, there is undeniably cause for optimism. As of 31 March 2022, 867,173 vaccines had been delivered to people in the three counties. Additionally, 700,000 RT-PCR tests have been undertaken within the Hywel Dda region. Achieving this was no small feat and the success of our vaccination programme undoubtedly changed the course of the pandemic. Everyone has stepped up to give as many vaccines as possible and to deliver the Test Trace Protect service to safeguard our communities. We are grateful to everyone who has been part of these vital services.

We recognise that the restrictions on hospital visiting have also been difficult for patients and their relatives. We are grateful for your patience and for understanding that the safety of those in our care, and our staff delivering health care services, is of paramount importance.

We have focused on doing everything we can to ensure we are there for you when you need our care and services. Now, we must begin to adjust to the 'new normal' and begin

addressing the significant issues we face, particularly in relation to the unprecedented backlogs for services created by the pandemic.

We recently submitted a Programme Business Case (PBC) to Welsh Government in support of our strategy, 'A Healthier Mid and West Wales'. The PBC is an ambitious plan for a £1.3 billion investment in health across our patch. This offers us hope and a vision for the future, focused on care closer to home and a social model for health. Our plan for the next three years (2022-25) is dynamic and responsive to a changing environment, while continuing to put people at the heart of what we do as we work to recover.

We look forward to continuing to work closely with our clinicians, staff, partners, and our communities in taking this work forward this year, with recommendations for the new hospital site, along with the associated clinical, workforce and financial implications and economic benefits, to be presented to our Board in July 2022.

While it has been a very challenging period, we recognise and value the achievements and successes of our staff. Many of our staff have won awards or been recognised in different ways for their incredible work and we could not be prouder of them and what they achieve every single day. At the time of writing this report, we have received the news that we have 11 incredible finalists covering seven of the categories in this year's National BAME Health and Care Awards with an awards ceremony on 9 June. This is a fantastic achievement and is testament to the dedication and hard work of everyone involved.

Through the year, we have also welcomed some exciting new developments to our facilities, including a new state-of-the-art MRI scanner installed at Withybush Hospital; two new operating theatres being built at Prince Philip Hospital; a new clinical research centre and multi-million pound maternity ward both opened at Glangwili Hospital. A fundraising appeal was also launched to raise the remaining £500,000 needed to provide a purpose-built chemotherapy day unit at Bronglais Hospital. Thanks to the generosity of our communities, the appeal has raised more than £73,000 at the time preparing this Annual Report.

We have also successfully led the way in Wales with various projects, such as our community outreach workers helping Black, Asian, and minority ethnic people living in our area during the COVID-19 pandemic. Additionally, nurses in South Pembrokeshire and Withybush hospitals have been the first to go live with the new digital Welsh Nursing Care Record (WNCR), enabling smarter, patient-centred ways of working.

As we have done for the last two years, we will continue to do everything we can to keep mid and west Wales as safe as possible from coronavirus. With the more recent easing of restrictions and reduction in public testing and contact tracing, we are learning to live with the impact of COVID-19. We encourage everyone to continue the behaviours we know protect us, so together we can keep Hywel Dda safe.

Hywel Dda
University Health Board

About us

[Hywel Dda University Health Board](#) plans and provides NHS healthcare services for people living in Carmarthenshire, Ceredigion, Pembrokeshire, and bordering counties. Our 12,476 members of staff provide primary, community, in-hospital, mental health and learning disabilities services for a quarter of the landmass of Wales. We do this in partnership with three local authorities and public, private and third sector colleagues, including our volunteers, through:

- Four main hospitals: Bronglais Hospital in Aberystwyth; Glangwili Hospital in Carmarthen; Prince Philip Hospital in Llanelli; and Withybush Hospital in Haverfordwest.
- Five community hospitals: Amman Valley and Llandovery hospitals in Carmarthenshire; Tregaron Hospital in Ceredigion; and Tenby and South Pembrokeshire hospitals in Pembrokeshire.
- Two integrated care centres: Aberaeron and Cardigan in Ceredigion, and a number of other community settings e.g. Bro Preseli, Crymych.
- 48 general practices (four of which are health board managed practices); 53 dental practices (including four orthodontic); 98 community pharmacies; 43 general ophthalmic practices (43 providing Eye Health Examination Wales services and 32 providing low vision services); domiciliary only providers and health centres.
- Numerous locations providing mental health and learning disabilities services.
- Highly specialised services commissioned by Welsh Health Specialised Services Committee.
- Sure Start joint services with Carmarthenshire, Ceredigion, and Pembrokeshire local authorities.

The population we serve

Population projection

By 2025 our total resident population is estimated to be at about 390,000 people. In addition, we also provide care for large numbers of tourists and students.

Welsh language

The proportion of residents who can speak Welsh is 48%.

Ageing population

The average age of people in the three counties is increasing steadily, we have a higher proportion of older people than average across Wales. Those aged 65 and over currently comprise a quarter of the health board's population. Projections suggest that by 2043 there will be almost 125,000 people living in Hywel Dda aged over 65, of which almost 22,000 will be aged over 85.

Health inequalities

Variation in healthy behaviours leads to variation in health outcomes, this is also influenced by levels of deprivation.

Changing patterns of disease

We anticipate that frailty will become increasingly important in Hywel Dda over the next ten years and is projected to increase by 4% per annum. As our population ages this is leading to an increase in the number of people in our area with one or more chronic condition. In 2020, Dementia and Alzheimer's disease along with Ischaemic heart diseases were the main causes of death in England and Wales. The COVID-19 pandemic has negatively impacted on the health of many individuals. Lockdowns have resulted in an increase of people experiencing mental health issues, particularly anxiety and depression. In addition to this, high risk individuals needed to isolate for long periods which has led to deconditioning and increased frailty for some of our residents.

Tobacco

Almost one in eight adults (13%) in our area smoke. Smoking is a significant risk factor for many diseases and early death. Making Every Contact Count (MECC) has been used primarily to encourage behaviour change on smoking, weight, alcohol, and physical activity. However, we envisage a broader conversation picking up any one of the many factors that influence health and well-being relevant to each person. Having a brief non-judgemental conversation, when the appropriate opportunity comes up, can support people to take responsibility for their own health and well-being. MECC can lead to improvements in people's health, help people consider their health behaviour, and make changes.

Food

4% of people in our area do not eat enough fruit and vegetables, and over three in five people (61%) are overweight or obese. The health board is using the Obesity Pathway Transformation Fund monies for 2021/22 to further strengthen our specialist multi-disciplinary team (MDT) weight management service in line with national standards to enable improved access and equity.

Physical activity

Over 25% of adults in our area do not take enough regular physical activity to benefit their health. Over a quarter of our population are inactive.

Social isolation and loneliness

15% of our population report feeling lonely. Providing single points of access for information, advice, and assistance for the public, in line with the Social Services and Well-being Wales Act that facilitates access to a directory of services in their local community, such as DEWIS Cymru.

Introduction

In March 2020, the Welsh Government took the unprecedented decision to pause the Integrated Medium Term Plan (IMTP) and annual planning process to enable NHS Wales organisations to focus their attention on the immediate preparations for and response to the COVID-19 pandemic, advising that routine planning arrangements would be restarted at a more appropriate time.

Given the continuation of the pandemic, the Welsh Government requested an annual plan for 2021/22, rather than an IMTP. In March 2021, the board approved its draft Annual Recovery Plan 2021/22 which set out to the organisation and the Welsh Government our priorities for 2021/22. The full plan was submitted to the board in June 2021 for final approval and subsequently submitted to the Welsh Government. The strategic objectives and planning objectives, approved by the board in September 2020, formed the foundations of the plan with the focus, first and foremost, on: how the health board continues to address, and recover from, the COVID-19 pandemic; how we will support staff to recover after the challenges of the past year; and how we will lay the foundations to recover our system/services and support communities to thrive.

Our plan recognised a planned deficit in the 2021/22 financial year and did not recover the cumulative deficit incurred to date (which was reset to 1 April 2020). As a result of this, we presented a budget which breached our statutory financial duty for the three-year period. The health board had a deficit position of £35.4 million in 2018/19, £34.9m in 2019/20 and £24.9m in 2020/21. We know that financial planning and the delivery of our strategy is needed for long-term financial stability and sustainability.

We recognise the seismic shift that COVID-19 has had on planning, deployment and implementation of systems, structures, and services. The impact has been both significant and dynamic and cannot be underestimated. It has changed and advanced the way we approach our planning, meaning that many changes previously identified for the longer-term have been implemented sooner than envisaged, with digital enablement being a prime example of this. This means that planning and assumptions were re-thought, along with their timelines, as the health board moved into a transformational period. Despite the challenges and fundamental changes encountered during 2021/22, there have been unexpected opportunities presented to reset, accelerate, and expedite, where appropriate, to transform services.

The development of our plan for 2022/25 is underway and was submitted to the Welsh Government in March 2022 as required. The likelihood is that the health board will again not be able to meet its statutory obligation to produce a financially balanced plan over the plan's lifecycle.

Our underlying deficit has worsened over the last two financial years following the gaps in delivery of recurrent savings in 2020/21 and 2021/22.

We are committed to addressing these challenges and are in the process of constructing a clear core plan, focusing on recovery, which will allow us to get back on track with our financial roadmap. For 2022/23 this will be coupled with ensuring that the exceptional economic challenges we face next year are well described and assessed. A significant

review of our COVID-19 response is already underway, which will be transitioned into the new normal through our plans.

Value based health care approaches are being taken across the whole organisation, and it is our aspiration that a target operating model can be constructed to focus our delivery of services in the most optimum way for our patients, with this forming a critical part of our approach to the medium-term outlook and aligning with the design assumptions set out in our strategy and recent Programme Business Case.

We are clear on our long-term destination - articulated in our strategy "A Healthier Mid and West Wales" and reinforced in our Programme Business Case. Reaching that destination requires progress across a number of domains, which we have termed 'strategic objectives'.

These strategic objectives relate to our people (staff, service users and communities) and our services. Our plan sets out the specific actions, termed 'planning objectives', we are taking to make progress in each of these domains. In this way we remain focused on our strategic direction and ensure our day-to-day activities are explicitly aligned, and contributing to, our strategic direction. We have used this approach throughout the year, and it is now well embedded into our business practices.

Each planning objective is led by an executive director and aligned to a committee of the board, with regular update reports provided at every other committee meeting. Our board assurance framework tracks progress and the impact of these actions on our strategic outcome measures.

Our approach to planning now revolves around these strategic and planning objectives, with a systematic review of the planning objectives a critical aspect of the organisation's planning cycle. In the development of this plan, we have undertaken this review, with many planning objectives completed and updated and others revised. Our board formally signs-off all planning objectives and they are not altered or removed without board approval, demonstrating our openness and accountability to the population we serve.

The development of planning objectives takes account of a range of factors, including: our risks and performance, the Minister's priorities, Welsh Government policies and legislation, and work in support of our strategy.

In 2021/22 we took the opportunity to review our committee structures to ensure increased alignment with our strategic objectives:

- Strategic Development and Operational Delivery Committee – responsible for the seeking assurance on delivery of strategic objectives 4 and 5. (4. The best health and well-being for our communities; and 5. Safe, sustainable, accessible, and kind care). This committee also holds the overarching responsibility for the development of our plan and assurance in its delivery.
- People, Culture and Organisational Development Committee – receives assurance on delivery of planning objectives under strategic objectives 1, 2 and 3. (1. Putting people at the heart of everything we do; 2. Working together to be the best we can be; and 3. Striving to deliver and develop excellent services).
- Sustainable Resources Committee – receives an assurance on all planning objectives under strategic objective 6 (Sustainable use of resources) with a focus on financial performance and planning.

We continue to monitor delivery of our Annual Plan 2021/22 and our board outcome measures through the committees of the board and through the board assurance framework. The board assurance framework (BAF) enables the board to focus its attention on areas of poor performance in terms of progress against delivery of planning objectives (which are the core pillars of our plan), slow or no impact on agreed outcome measures, significant risks to the achievement of strategic objectives, where there is little confidence in the assurances provided. Delivery of planning objectives will also be regularly reviewed by committees. Committees may also identify and advise of weaknesses in the assurances that have been provided to them. Steps are now being taken to develop the BAF so that its focus moves away from a 'process tool' and towards informing board agendas and providing information on outcomes.

Throughout 2021/22 we monitored our progress against the NHS delivery framework measures, escalating any concerns to board or committee monthly. We aligned each of the measures to one of our six strategic objectives.

As at the end of March 2022, five planning objectives had been completed. One was ahead of schedule and 32 remained on track, with 15 that continued to be behind schedule. Quarterly action reports are also reported through our Strategic Development and Operational Delivery Committee.

The planning objectives not yet achieved through 2021/22 will continue as part of the planning objectives used to structure our 2022/23 plan.

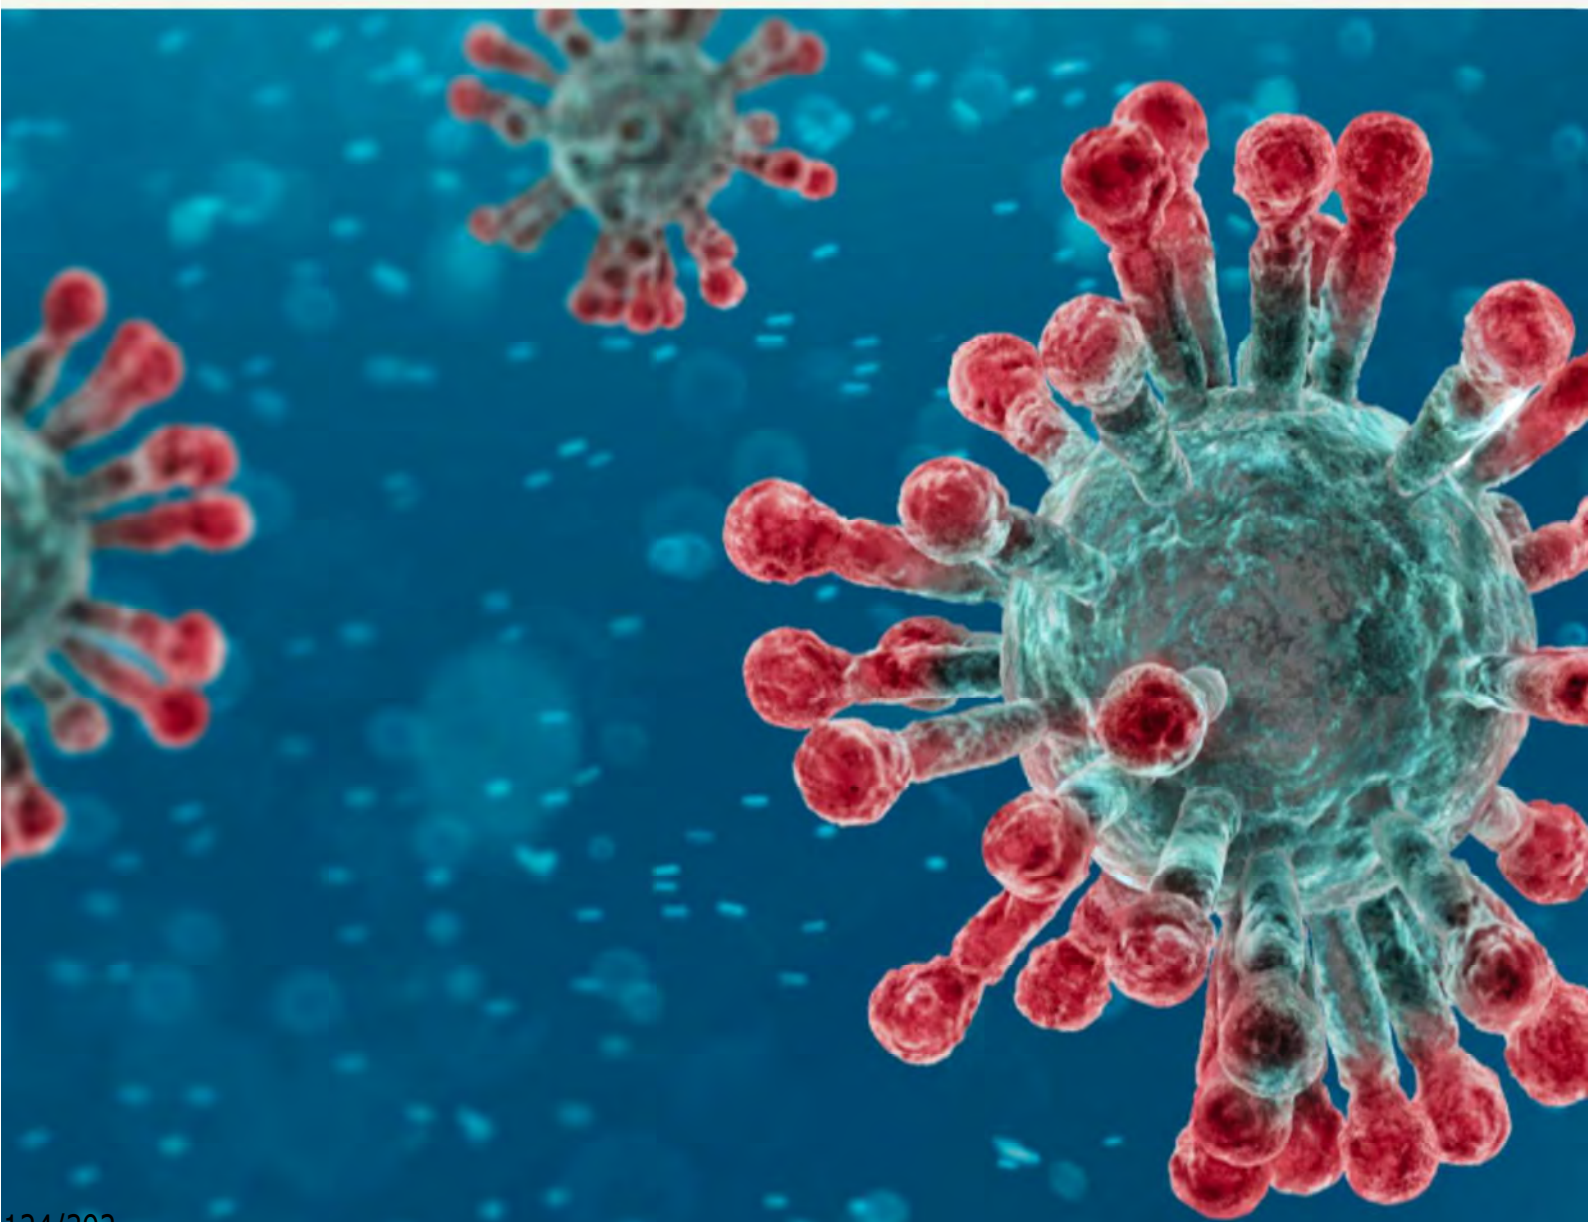

The Health and Social Care (Quality and Engagement) (Wales) Act 2020 has introduced two new requirements to come into force legally in April 2023:

- **The Duty of Quality** is designed to ensure that we have whole system way of working to provide safe, effective, person-centred, timely, efficient, and equitable healthcare in the context of a learning culture; and

- **The Duty of Candour** seeks to promote a culture of openness and improves the quality of care within the health service by encouraging organisational learning, avoiding future incidents.

These new reporting requirements will be captured through processes in place for 2023/24. In the meantime, we anticipate that there will be a non-statutory implementation in autumn 2022. The reporting process for 2022/23 will be a hybrid approach allowing for quality reporting indicators to be tested and for measures and narrative concepts to be developed as part of the implementation phase. In the meantime, quality reporting requirements are embedded throughout the performance section of this Annual Report.

Impact of COVID-19 on our delivery of services

Impact of COVID-19 on our delivery of services

COVID-19 has continued to be of significant impact on our health service and wider communities through 2021/22.

We have responded and made changes required to ensure that we were able to keep our communities as safe as possible and to meet emerging guidance. This has involved continued close working with partners involved in health and care, as well as communities themselves, at a scale never seen before.

Our staff, partners and communities in Carmarthenshire, Ceredigion, Pembrokeshire, and borders, have worked together with commitment, innovation, and kindness.

The NHS Wales Operating Framework acknowledged the massive impact COVID-19 has on NHS and social care and the need for us to do our best to minimise harm.

Four types of harm were identified by the framework:

- Harm from COVID-19 itself
- Harm from overwhelmed NHS and social services
- Harm from reduction in non-COVID-19 activity
- Harm from wider societal actions/lockdown

The narrative of this Annual Report provides the detail on the constant balance we have endeavoured to maintain to provide a COVID-19 response, to provide critical healthcare in our hospitals, primary care services and community-based care, and to reduce risk and harm.

We summarise below our approach to the four harms, and the risks we identified as having the potential to impact our delivery of essential services or performance against targets, along with some of our mitigations to manage and reduce the risk.

Some of these risks are new COVID-19 related risks, while others are previously existing risks that have been exacerbated due to COVID-19. This section gives our position and risk scores as of 31 March 2022. For further details please see:

- The planning and delivery of safe, effective, and quality services section on [page 21](#) of this document.
- Risk profile section of the Annual Governance Statement chapter in this report.
- [Corporate Risk Register update prepared for March 2022 Board meeting](#).

Additionally, we monitor and publish monthly key measures (including those that relate to the four harms) so we can identify where we are performing well or where and how we make further improvements. [Read our performance information here](#).

**Safe, sustainable,
accessible and
kind care**

Harm from COVID-19 itself

To reduce the direct harm from COVID-19 itself, the health board has put a range of actions in place:

- We have established and engaged across a number of regional groups including the Regional Incident Management Team (IMT), Outbreak Control Teams (OCTs), the Dyfed Powys Local Resilience Forum (LRF) and Strategic Coordination Group (SCG)
- We have jointly agreed and implemented local plans to support the changing requirements around the Test, Trace, Protect (TTP) programme, including flexible testing arrangements in response to outbreaks and areas of high incidence, promotion of regular health and social care staff testing, testing in care homes, education, and workplaces and to support tourism and returning travellers (see pages 22, 31).
- We have supported our care homes and hospitals with infection, prevention and control assessments and advice and to prevent and manage outbreaks (see pages 44-46).
- We have established a Long COVID-19 service to support those with longer-term impacts of the virus (see page 31).
- We have implemented a successful vaccination programme, as of 31 March 2022, 867,173 COVID-19 vaccinations had been delivered to our residents and staff. This is a continuing programme based on the principle of leaving no one behind.
- Partners from health, local authorities and the third sector formed a Vaccine Equity Group. This group has set out to provide good information for people disproportionately affected by COVID-19. This includes people with protected characteristics, such as those from ethnic minority backgrounds and people with disabilities, those at socio-economic disadvantage living in communities with high deprivation or social exclusion, those within marginalised or under-served groups such as asylum or sanctuary seekers, people experiencing homelessness, people involved in the justice system, mental health clients and people from Traveller communities who do not regularly access traditional healthcare services. Some solutions put in place included provision of information in alternative languages and formats, bespoke vaccination clinics for ease of access and to meet the needs of various groups, access to bespoke clinical advice and opportunities to ask questions. The mobile vaccination vehicle, kindly donated by the fire service provided vaccination clinics in places geographically distant to the mass vaccination centres and for students in higher education.

All of these have been underpinned by regular, consistent, and focused staff and public communications with partners across the region, including local authorities and other public sector organisations, social care, education, tourism, and local businesses to safeguard our communities.

- **Risk 1016 - There is a risk of increasing COVID-19 infections across the health board due to staff and others not adhering to the health board guidance and national social distance legislation (risk score 10: high)**

We have undertaken social distance risk assessments which highlight ways to allow services to be re-introduced while maintaining the social distance measures. We have continued to encourage staff, visitors, or patients to adhere to the social distance

guidance. As well as the more routine measures such as hand sanitiser stations and use of personal protective equipment including face coverings, some of the measures we have put in place to reduce the risk include installations of safety screens in hospital and ward/clinic reception areas; regular review of our patient visiting guidance including the introduction of agreed timeslots; and continuing to encourage staff to use of IT systems such as Microsoft Teams to reduce the need for face-to-face meetings.

Harm from an overwhelmed NHS and social services

The health board's analytics department have continued to collate, analyse, and present data. This has included case rates, including by county, forward-looking forecasting of rates, admissions, bed occupancy and lengths of stay. This has helped inform our decision-making on the preparations and interventions to provide care safely at all stages of the pandemic, including during waves and in response to new variants.

The NHS Choices Framework has enabled us the flexibility to restart and provide as much care as possible, and conversely to postpone areas of planned care when we have needed to for safety reasons. For example, in October 2021 we took the difficult decision to temporarily suspend elective (planned) orthopaedic surgery at Prince Philip Hospital, Llanelli, and Withybush Hospital, Haverfordwest, so we could provide bed capacity and reduce pressure on our unscheduled care system. In January, a number of measures were taken to maintain the most critical of services. This included urgent cancer surgery for our population being provided primarily only from Prince Philip Hospital, in Llanelli; and less urgent outpatient and therapy clinics being rescheduled.

Our community services have also made tremendous efforts to provide services in different ways and reduce pressure on emergency and unscheduled care. For example, community care centres have been used to provide clinics traditionally operated from acute hospitals, as well as virtual clinics, so that care can be provided closer to home. In our IMTP we express a desire to extend further opening hours of these centres and to enable additional services to be provided from them.

In partnership with our local authorities and allied health professionals in primary and secondary care, we continued to support care homes on the prevention and management of COVID-19 outbreaks. This helped reduce unnecessary admissions of COVID-19 positive residents to hospitals, enabling them to remain within their home environments.

Also, at numerous points in the year, we have had to align our staffing to the most critical need, and our staff have been extremely flexible, for which we are grateful. We acknowledge our services are built on our staff and therefore supporting their well-being during these challenging times has been a critical priority for us. You can read more about the enhancements we have made to our staff psychological and well-being services in the workforce management chapter of this report (from page 82).

Risk 1219 - There is a risk there will be insufficient workforce available to deliver services required for "Recovery" and the continued response to COVID-19 and other respiratory infections, as outlined in the health board's annual plans 2021/22 (risk score 14: extreme)

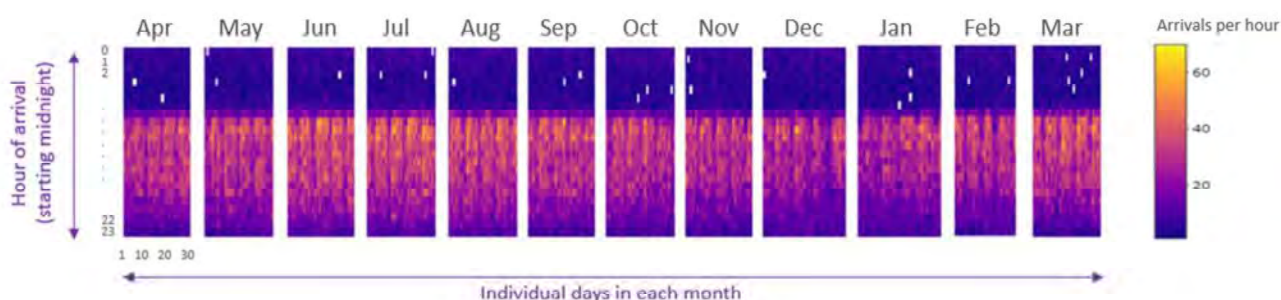

This is caused by new variants of COVID-19, increase in the severity and dispersal of respiratory viruses within the population (in children and adults) which could mean an increase in infections and outbreaks within acute, community and social care facilities. As well as the more routine measures such as efficient rostering practice and use of bank and agency, we are continuing to prioritise the recruitment and onboarding of new employees to the highest areas of risk in terms of maintaining service delivery.

Risk 1027 - There is a risk to the consistent delivery of timely and high quality urgent and emergency care (risk score 20: extreme)

This is caused by increasing fragility within the urgent and emergency care (UEC) system, increasing levels of demand above staffed capacity, the impact of COVID-19 on available whole system bed and staffing resources and delays in discharges across the care system which are beyond the direct influence of the health board. We have comprehensive management systems in place to manage the unscheduled care risks daily; processes in place to review the patients admitted to surged areas to ensure patient acuity and dependency is monitored and controlled; processes to ensure regular review of long-stay patients; and considered alternative models of medical oversight.

Our health analytics team have undertaken work to visualise the level of activity arriving at the emergency departments (ED) across Hywel Dda. The advanced analytics platform, developed within the health board, has produced the following heat map. It summarises the number of arrivals to ED every hour, of every day, for the entire year. The dark colours represent less arrivals in an hour compared to the light colours. Being able to see the demand across the whole service in a single visual can help support management decisions.

Emergency department arrivals 2021/22

Risk 1342 - There is a risk that the health board will be unable to plan and respond effectively to the pandemic and make effective decisions on critical business continuity issues, the application of Local Choices Framework and delivery of essential services (risk score 12: high)

We rely on the daily COVID-19 case reports to enable us to monitor, track and plan our response to COVID-19. These daily case reports only include polymerase chain reaction (PCR) test results and do not reflect the recent shift in testing policy to a greater reliance on lateral flow device (LFD) test results. The health board continues to have processes and systems in place for collection of data to allow for daily reporting and monitoring of PCR positive cases per 100,000, daily reporting and monitoring of hospitalised cases split by

those that are undergoing active treatment for COVID-19, recovering from COVID-19 and those who have tested positive for COVID-19 as a secondary diagnosis, daily reporting and monitoring of staff sickness absence during anticipated two-week peak period and daily data on incidences and outbreaks in local schools, year groups and classes related to COVID-19. The health board's analytics department collate, analyse and present data to inform decision-making.

Harm from reduction in non-COVID-19 activity

Throughout the pandemic we have strived to maintain our most critical and urgent services, and to restart and recover services that have been impacted by the pandemic response. We are focused on recovery and establishing a 'new normal' for health and care delivery. That said, pressures on our urgent and emergency care system have remained significant, with long waits in our emergency departments and discharge challenges and so we have strived to strike the right balance between providing the services needed but in a safe and clinically prioritised way.

Some measures taken to mitigate the impact of reduction in non-COVID activity and address waiting lists are included below:

Rapid Diagnosis Clinic (RDC) - we opened an RDC in Prince Philip Hospital, Llanelli in October 2021. This has allowed the referral of people from across our area with non-specific but concerning symptoms, aiming to detect those who may have cancer earlier. The plan is to develop further RDCs at sites across the health board.

Waiting list initiative - we have launched a Waiting List Support Service to certain patient groups (orthopaedics and ear, nose and throat (ENT), with more to follow) to support patients awaiting surgery. The service provided patients awaiting treatment clinical support and well-being advice over the telephone and via email. This gives patients a single point of contact and guidance should symptoms deteriorate. We are also able to signpost patients to online well-being resources in help them to maintain and optimise their health.

Modular theatres – work began in December and is due to be finished in spring 2022 to open two new operating theatres at Prince Philip Hospital in Llanelli. This will help us to tackle surgical waiting lists and ease pressures across the region.

Risk 1048 - There is a risk there will be disruption to the delivery of planned care services set out in the Annual Recovery Plan 2021/22 (risk score 16: extreme)

This is caused by the impact of urgent and emergency care pressures (as reflected in risk 1027) and a continuing significant deficit in available staffing resources to support green pathways for urgent and cancer pathway patients. The health board has a comprehensive management system in place to manage planned care risks daily; implemented a risk stratification model for prioritising the review of patients; implemented a 'green' pathway on the four acute sites; escalation plans for acute and community hospitals; and an outpatient transformation programme which has a continuing focus on alternatives to face-to-face delivery of outpatient care to enable increases in care volumes delivered.

Risk 1350 - There is a risk of the health board not being able to meet the 75% target for waiting times in the Ministerial Measures for 2022/26 for the Single Cancer Pathway (SCP) (risk score 12: high)

The impact of COVID-19 has increased the risk of the health board being unable to meet the target. The delays are caused by diagnostic capacity issues across the health board in line with the infection control guidance that remains in place. The main area of concern is radiology. As well as continuing to hold virtual appointments via digital solutions, some of the additional actions we have taken to reduce the risk include establishing a cancer tracking team to allow patients to be proactively tracked through their pathways; implementing a four-week follow up process for patients whose treatments have change or have been suspended (some through patient choice) as a result of COVID-19; and establishing a SCP Diagnostic Group to review the capacity and demand for diagnostic services including the capacity required for a seven-day turnaround diagnostic service.

Harm from wider societal actions/lockdown

In relation to reducing harm from the wider societal actions and lockdown, the health board has:

- implemented virtual consultations to enable care to be delivered whenever possible in lockdown/periods of restrictions using the Attend Anywhere platform;
- maintained telephone contact with service users and carers known to the mental health and learning disabilities services in place of face-to-face contact. Face-to-face contacts were resumed as soon as guidance allowed, with appropriate infection, prevention and control (IPC) procedures;
- provided the hospital wards with iPads to facilitate and maintain contact with family and friends in the absence of visiting;
- maintained a digital texting initiative, known as ChatHealth, to provide confidential health advice and support for issues such as emotional health including anxiety, low mood, bullying, physical health and sexual health by sending an anonymous text message;
- employed a significant number of temporary staff and volunteers from our communities to support our COVID-19 response, including the TTP and vaccination programmes;
- employed community outreach workers, thanks to funding from NHS Charities Together and in response to a Welsh Government report, to help tackle inequalities and the adverse effects of the COVID-19 pandemic experienced by Black, Asian and minority ethnic communities.
- [Read more about how we have worked with partners and our communities to tackle health inequalities in our Director of Public Health's Annual Report](#)

Risk 1307 - There is a risk that the health board will not meet its statutory duty to breakeven against its capital resource limit for 2021/22 (risk score 10: high)

Significant uncertainty lies in the delivery of the capital programme in 2021/22 due to a number of factors which lie outside of the health board's control, including:

- supply chain issues
- global shortage of key components including glass and steel

- greater delivery lead time for digital and medical equipment
- impact of COVID-19, for example, unable to complete programmes of work in live hospital environment, labour shortages due to self-isolation, and
- local supply issues of key construction materials such as concrete.

As well as ensuring that as key areas of concern emerge there is timely financial reporting to the Sustainable Resources Committee, the board and Welsh Government, we have prioritised replacement medical and digital equipment lists which have lead times for delivery included and regular meetings are held to monitor spend profiles with escalation measure put in place immediately, where required.

Risk 1032 - There is a risk that the length of time mental health and learning disability clients (specifically the Specialist Child and Adolescent Mental Health Service (S-CAMHS), Autism Spectrum Disorder (ASD), memory assessment and psychology services for intervention) are waiting for assessment and diagnosis will continue to increase during 2021/22 (risk score 16: extreme)

This is caused by new environmental (due to social distancing measures) constraints to undertake required face-to-face assessments and patients' reluctance to attend clinics due to the risk of COVID-19, as well as certain elements of some assessments being restricted due to other agencies, such as education, providing limited services at present. As well as continuing to hold virtual appointments via digital solutions, providing information regarding community support, well-being at home and guidance, and clinical prioritisation regarding assessment and treatment of service users, we have provided additional funding for recruitment; strengthening interdepartmental working between the Mental Health and Learning Disability Directorate and Women and Children's Directorate; and processes in place to ensure individuals on waiting lists are being contacted periodically through the wait for assessment/treatment to monitor any alteration in presentation.

Planning and delivery of safe, effective and quality services for COVID-19 care

Planning and delivery of safe, effective and quality services for COVID-19 care

Regional response to Test Trace Protect

The NHS Wales Test Trace Protect (TTP) service was introduced in June 2020 across Carmarthenshire, Ceredigion and Pembrokeshire to identify and contact trace SARS-coronavirus-2, which causes COVID-19, to protect our communities, and provide advice and support.

Three county-specific Incident Management Teams (IMTs) and a Regional IMT, set up at the beginning of the pandemic, continued to operate. These enabled excellent continuous engagement and partnership working to respond to increases in transmission in a collaborative and co-ordinated way.

Throughout 2021/22 our Command Centre continued to provide a regional co-ordination hub, bringing together teams from the health board, Public Health Wales, and the area's three local authorities to work together to contain the spread of the virus.

The health board, Public Health Wales and local authorities produced a joint Hywel Dda Area Local COVID-19 Prevention and Response Plan to set out our direction and delivery mechanisms. It was supported by a joint communication plan to deliver, amplify, or adapt at a local level, the Welsh Government's Keep Wales Safe, and Test Trace Protect communication strategies.

A Regional Communications Group was set up with representation from local authorities, the police, and higher education providers to enable a collaborative approach to informing and communicating with our communities in a consistent and engaging way.

Contact tracing

We have continued to work closely with our partners, particularly Public Health Wales and the local authorities, to deliver regionally co-ordinated local contact tracing teams. They comprise a mix of clinical and non-clinical staff who support those who test positive, and their close contacts, to isolate and stay safe.

In partnership with the local Public Health Wales team, we established the Regional Response Cell (RRC) within the Command Centre. This team brings together consultants in public health, operational managers and nurses who provide support to the local tracing teams and directly deal with healthcare settings. The team works to support complex settings (care homes and hospitals) as well as co-ordinating partnership working across the region.

Through strong contact tracing, testing response and multi-agency focus (via both IMTs or hospital outbreak control teams) we have been able to respond to situations rapidly and robustly as needed.

**Striving to deliver
and develop
excellent
services**

Effective local and regional communications planning has also ensured consistent and clear messaging across the partner agencies and sharing of resources, such as videos of healthcare staff and local community influencers, while maintaining the key campaign focus. This resulted in a mostly positive response from the public in terms of compliance with isolation and 'stay safe' requests. However, we have also seen evidence on social media particularly about people's fears, anxiety or misunderstanding. All partner agencies worked hard to respond to concerns, inaccuracies and misinformation, encouraging people to get their information from official sources.

We continue to work collaboratively on contact tracing in the region and to rapidly address emerging concerns, and to share learning and intelligence. This strong partnership work ensures we are aligned, correct and consistent in our regional approach to TTP, and in line with Welsh Government and Public Health Wales policy and campaigns.

Redesign of primary care services to provide COVID-19 care GP practices

All GP practices within Hywel Dda maintained the delivery of essential services throughout 2021/22.

GP practices continued to support the vaccination programme, with the majority of practices providing second doses across our communities by the end of June 2021. Booster clinics were supported in the latter part of 2021, where practices played a key role in vaccinating care home residents and housebound patients. At the same time, practices were making inroads into their flu campaigns, with weekend and evening clinics in some practices.

Individual GP practices started to report increases in workload early in 2021/22. By the end of summer, there was widespread reporting of increasing pressures and demands on services, exacerbated by challenges in the wider system. Pressures continued into the autumn and winter, with increases in COVID-19 positive cases and isolation due to household contacts. All practices remained open throughout 2021/22.

A shortage in blood bottle supplies impacted on disease management monitoring in practices in the latter part of 2021. A number of reset and recovery schemes (such as learning disabilities annual reviews, blood test reviews and secondary care generated phlebotomy) were introduced to help address the backlogs identified.

Our aim for 2021/22 was to tender expressions of interest in returning the health board managed practices back to independent contractor status, however, this work continued to be stalled due to the pandemic.

The Physician's Assistant (PA) Development Programme was originally funded through Pacesetter funding and, whilst due to the pandemic it was difficult to get early traction on the development of this programme, the appointment of a development manager in 2021 has led to an agreed programme of development and education being developed with the first intake of GP-PAs being brought in as part of the original programme in November 2021. It is anticipated that, following an evaluation of the first cohort, additional recruitment will happen in 2022/23 and in subsequent years as the programme develops, and seen as an exemplar for GP-PA training and development.

With the national focus considering contract reform across all professional groups, it is hoped that this will lead to greater parity and transparency of contractual arrangements across all four contractor professions.

A plan to provide primary care services for Ukrainian refugees residing within the welcome centre and the community was put in place at the end of the year.

Pharmacy services

Following on from the challenging time in 2020/21 for community pharmacies, the last year has seen a return to more normal levels and frequency of dispensing. However, maintaining pharmacy services has been more problematic due to a much higher number of the workforce testing positive for COVID-19. This resulted in 2021/22 being a year with the highest number of temporary closures of pharmacies since records were maintained.

Most of the closures have impacted areas within Pembrokeshire and are a mix of vacancies and COVID-19 related. This looks set to continue into 2022/23.

Levels of national enhanced service provision within community pharmacies have increased during 2021/22 and for some services, for examples, common ailments have been higher than pre-COVID. During 2020/21, the first year of the pandemic, 9,309 patients accessed the common ailments service. During 2021/22 this increased to 12,529 for the period April 2021 to January 2022 and represents only 10 months activity so far.

We have also worked to re-establish the local triage and treat service which offers a first-aid service for people with minor injuries. This service, while not suspended during 2020/21 was left to the discretion of individual pharmacy teams. During 2021/22 there has been renewed interest in offering this service.

A new local enhanced service was developed during the latter half of the year to enable urinary tract infection testing and treatment, if indicated, for women aged 16-64. This has been taken up by 63 pharmacies out of the 98 pharmacies within Hywel Dda.

Independent prescribing within pharmacies was first commissioned in June 2020 at four pharmacies and utilised the skill of trained professionals to deliver consultations for acute conditions and contraceptive services. During its first year of operation just over 1,200 consultations were carried out. The COVID-19 pandemic interrupted the training and completion of independent prescribing courses for pharmacists which delayed the expansion of this service. During 2021/22 the four existing sites have become established and a further four sites have been added. A total of 2,822 consultations have been provided in 2021/22 and these have offered a first point of access for patients in the localities where the service is commissioned.

General dental services

The health board has continued to work with dental practices to support them with contract reform plans and resetting of services following the pandemic. Dental practices continued to experience difficulties with staff shortages and the provision of services due to the ongoing COVID-19 infection control requirements, this did result in reduced access to routine dental care. In line with Welsh Government guidance priority was given to urgent care and the

health board commissioned additional urgent care sessions. Additional funding was received from Welsh Government to reduce the waiting time for orthodontic care, a waiting list initiative was undertaken which resulted in a significant number of patients accessing treatment. The Dental Services Team worked closely with practices to ensure they were supported to demonstrate and deliver continuous improvement in access.

Community dental service

The community dental service (CDS) is a referral only service for vulnerable adults and children, and as part of the service, provides dental care under conscious sedation, which is available at all community sites.

During the COVID-19 pandemic, changes were put in place to ensure that dental services were able to comply with the national infection control procedures introduced to ensure patient and staff safety. Through the CDS, we established an urgent dental centre in each county to provide urgent dental procedures to patients and aerosol generating procedures (AGPs). From March 2020 the CDS has provided urgent dental services in addition to providing care to their regular vulnerable patients. For an interim period, the CDS service at Withybush Hospital was stood down to reduce patient footfall at the acute site; this service was transferred to Winch Lane Health Centre to ensure continued access for patients and has since been reinstated.

One of the biggest challenges to resetting services during this period was the need to ensure enough air changes per hour in each dental surgery to undertake AGPs. Without measurement of the air changes, it meant that fallow times between patients could be in excess 90 minutes. To improve this situation Welsh Government provided funding to support dental practices to install air change systems and the health board match-funded this grant. In addition, we invested £140,000 in an air change system for seven of the CDS clinic sites. As part of reset the service re-introduced the paediatric general anaesthetic assessment service to ensure that children's dental needs are reviewed to ensure that treatment under general anaesthetic is provided after all other sedation options have been reviewed.

The CDS continued to support residents in care homes with the domiciliary dental service.

Optometry

During 2021/22, optometric services in Wales continued to work in amber phase in line with national guidance, which meant that all services had to be offered to those with the highest clinical need. Despite the continued pressure as a result of the pandemic, all optometry practices in Hywel Dda continued to provide all services, including urgent and routine eye care, to patients within primary care. A number of additional eye care pathways were also developed and implemented. These pathways were designed to allow patients to be seen in their local optometric practice for the treatment and monitoring of a range of eye care conditions, rather than attending their GP or local hospital. An example of this is the Independent Prescribing Optometric Service, which allows optometrists with the independent prescribing qualification to manage and treat a range of conditions within their practice, that would have previously required a referral to the nearest eye casualty service.

This service proved to be a success in the earlier part of 2021/22, and so was expanded towards the end of the year to allow more patients to benefit from the service.

Redesign of community services to provide COVID-19 care

During the past year, our community services in Carmarthenshire, Ceredigion, and Pembrokeshire have supported delivery of a whole-system response. This means we have put people at the centre of what we do. The aim has been to surround them with resilient primary, community and hospital-based care through better integration between services, including social care and third sector. This provides seamless care for the person, as close to (or within) home, whenever possible.

This way of working is in line with national, regional and local direction and policy, including the [Welsh Government's plan for health and social care – A Healthier Wales](#), and the [health board's long-term vision for health and care – A Healthier Mid and West Wales](#).

The NHS Wales Operating Framework from the Welsh Government in response to the pandemic, outlined the need to maintain essential services in the community as well as in hospitals. We have needed to be flexible and adaptable to respond to transmission rates of COVID-19 in our communities.

Many of our integration projects are funded through the Welsh Government's Integrated Care Fund and Transformation Fund, which are delivered through the West Wales Care Partnership. See the Delivering in Partnership section from page 75).

Our focus is on strengthening community and primary care services so that, where appropriate, people can receive care closer to home rather than in hospital, while ensuring they can access the services they need, such as diagnostics and same day assessments.

We have strengthened our 'care closer to home' approach with social care colleagues to reduce conveyance and admission rates and implementing 'discharge to recover' and 'assess' pathways.

The health board successfully secured funding from Macmillan Cancer Support for the 'Right by You' programme of work on:

- co-producing with a range of stakeholders (including people in our local communities with cancer and our partner organisations) an improved way of working that focuses on individual and community well-being through an asset based approach;
- working towards the ambitions of improved local access to information, advice and assistance through the development of a model based on local and national best practice that meets the specific needs of our local communities;
- better supporting people with cancer as well as the wider health and social care economy;
- adopting an approach from the start which facilitates improvements in current working models, links with the strategic transformation agenda and embeds good practice models in existing services.

The project is fixed term and whilst based in Cardigan, has a catchment area of 20 miles, therefore covers parts of each of the three counties.

We have also been successful in securing Macmillan Cancer Support funding for a virtual reality pilot for palliative and end of life patients. The pilot is aiming to improve the quality of life and well-being for people who are living with a life-threatening illness and facing physical, psychological, social and spiritual challenges, and their families. Due to the pandemic patients are reporting greater levels of isolation and vulnerability. Whilst the use of virtual reality equipment in the clinical setting has proved to be incredibly valuable, less research has so far been undertaken in the community or home setting. We want to work with patients and their families and carers to explore the value in these settings, especially for those living in isolated rural areas. This could potentially reduce the risk of admission to acute site due to social isolation and loneliness; reduce the need for analgesia and anxiolytics due to increased feeling of well-being; and improve well-being and quality of life for patients and their carers.

Community pharmacy staff from across Carmarthenshire Ceredigion and Pembrokeshire took part in mental health first aid training to support their patients and own mental health, as well as that of their colleagues. Pharmacists, pharmacy technicians and dispensers from across 35 pharmacies attended online training to equip them with the tools to support their own mental health and that of their colleagues and encourage them to access timely support when needed. In addition, the training provides the participants with the knowledge to identify suspected mental health conditions in patients, and the skills to start a conversation surrounding mental health.

District nursing

We have updated a draft of our three county-wide district nursing service specification. It highlights the need for consistent, equitable and standardised working practices across all three counties, aligning to the national strategic programme of work around the Neighbourhood District Nursing Model.

Funding from Welsh Government is enabling us to further develop the Neighbourhood District Nursing Model to establish several new roles, including:

- a senior peer nurse advocate to work closely with senior nurses and district nurse team leaders to enhance integrated working across localities;
- a practice and professional development nurse focused on supporting and developing the community health care support worker workforce; and
- recurrent funding to increase both health care support worker and assistant practitioner roles across the three county community nursing teams.

We have put in place patient experience feedback processes across the three counties through CIVICA, so that we can continue to learn from feedback and inform service delivery.

An e-scheduling system, Malinko, has now been fully implemented across Carmarthenshire, Ceredigion and Pembrokeshire, with national work continuing to agree standardised reporting and metrics deliverable from the system. Malinko is demonstrating opportunities for improving service efficiency and maximising use of resources, reducing duplication of care where possible and improving the patient experience.

Our district nursing service continues to comply with the Chief Nursing Officer's interim district nursing principles, as well as participating in the national work around the Welsh levels of care acuity and dependency tool, quality indicators in district nursing and professional judgement.

We will be publishing our community nursing annual report in August 2022 highlighting all key achievements and new initiatives, including ear micro suctioning clinics, trial without catheter clinics and collaborative leg ulcer and lymphoedema pathway developments, all of which are in the early stages of implementation.

Health visiting

Our health visiting service works with children aged 0-5 years and their families with the focus on early intervention and prevention along with school readiness. The primary function of the health visiting service is to assess and support the child and family in the early years (0-5 years). The key priority of the service is to deliver the Healthy Child Wales Programme (HCWP) to all children living in Carmarthenshire, Ceredigion and Pembrokeshire. The HCWP is a standardised approach to service delivery throughout Wales and was implemented in 2016. This is a universal programme for all children in Wales and includes a family resilience assessment (FRAIT) and an assessment of child and family needs. The assessment determines the level of intervention for the family and child, whether it be universal, enhanced or intensive. All health visiting interventions are underpinned by key public health messages, targeting health inequalities and aim to improve health outcomes for all children.

Children's public health nursing has been pivotal throughout the pandemic in making a difference to children, families and the communities despite many challenges. This includes the continued delivery of support to children and families by the health visiting service using a blended approach, often when other services had totally reduced delivery. The service is committed to safeguarding the health and welfare of all children aged 0-5 years and aims to achieve key priorities that also include supporting families to make long term health enhancing choices; to ensure secure emotional attachment for children through supporting positive parent child relationships; promote positive maternal and family emotional health and resilience; assist children to meet growth and developmental milestones enabling them to achieve school readiness; to support the transition from home into the school environment and to mitigate the effects of poverty on early childhood and adverse childhood experiences (ACES).

The main challenge during the pandemic was to try and maintain a level of service and ensure children were safeguarded. In the initial stages, the health visiting service had to cease from home visits and innovative ways had to be sought in how to reach families, to include the setting up of central hubs in the communities along with central telephone lines for ease of access for families and virtual contacts to families, eventually including the use of 'Attend Anywhere'. Throughout, due to the staffing deficits and pandemic the emotional well-being of staff was paramount, weekly virtual communication and support meetings were set up plus the continued publication of the bi-monthly newsletter which celebrates achievements, shares good practice was essential in keeping morale high and the service to families being delivered.

Some examples of locality-based developments across our three counties include:

Carmarthenshire

We have scaled up our urgent primary care provision in the last year to provide a multi-disciplinary rapid response to patients in the community within two to eight hours. Additional care and support provision is available for people who are vulnerable and frail at home. These patients are cared for on our 'virtual ward' in their own homes until they recover and can live independently. Where 24/7 care oversight is needed, we have commissioned additional community beds in a care home in Llanelli to provide 'step up' and 'step down' (from acute hospital) care. We have increased our bed capacity in Amman Valley Hospital, and assessment beds are available in nursing and residential homes when an individual requires it, for a period of up to six weeks.

Technology Enabled Care (TEC) provide digital solutions to monitoring health and care needs of our patients remotely. Telecare is already well established in the provision of care and support while Telehealth monitoring of chronic conditions such as respiratory and heart disease is an opportunity that we are embedding into our health care provision.

We are also exploring the use of ARMED technology in frail adults particularly to provide early warning of increased risk of falls for our frail elderly. This allows us to better anticipate patients' needs, avoid hospital admission and injury, and also maximise our district nurse capacity knowing that patients can be monitored digitally.

Social prescribers in each of our cluster areas have demonstrated improved health outcomes for the population that they have supported. We now have six social prescriber posts (two for each cluster area) in the county who signpost individuals to services that meet their felt and expressed health needs. Working with the Public Services Board partners, Carmarthenshire Association of Voluntary Services, rural and town councils, we aspire to create a network of providers in developing resilient and stronger communities.

As part of considering and modernising our community infrastructure, our outline business case for a health and well-being centre in Cross Hands was reviewed by stakeholders to ensure that it remains fit for purpose following the COVID-19 pandemic. We anticipate submitting this to Welsh Government for approval in June 2022.

Earlier this year, a submission to UK Government Levelling Up Fund made by Carmarthenshire County Council was successful. This will allow the development of a 'Well-being Hwb' and provision of accommodation for health services in the town centre with the health board as a key partner.

The 'Pentre Awel' development progresses at pace with construction due for completion in 2024. This will provide Llanelli and surrounding areas with a 'state of the art' leisure complex co-designed with our physiotherapy team to ensure a seamless care pathway between therapy and exercise provision (including a hydrotherapy suite). Working in partnership with the local authority and universities, the Pentre Awel development will also accommodate our research facilities and provide much needed space for training and education to support future workforce sustainability.

Ceredigion

We have expanded Tregaron Community Hospital to a 20-bedded facility on a temporary basis through Welsh Government COVID-19 funding. This is helping patient flow from acute hospitals for those with complex discharge needs.

Our interim placement scheme in Ceredigion (part funded by the Integrated Care Fund) helped patients requiring 24-hour nursing monitoring to be placed in an independent nursing home for a period of up to six weeks. The scheme has enabled timely assessment (in line with the discharge to assess model) as well as preventing hospital admission. We have seen a significant increase in its use during 2021-22 (an increase of 30% from pre-pandemic levels) improving patient flow through the wider system and delivering appropriate care close to home.

In late 2021, we introduced the Same Day Urgent Care service in Cardigan Integrated Care Centre in a phased way. The service has been designed to prevent unnecessary demand on our acute sites by delivering appropriate diagnostic and treatment in the community.

The time critical ophthalmology clinics have expanded and continued to be delivered out of Aberaeron and Cardigan integrated care centres throughout the pandemic.

Pembrokeshire

The Falls Team has seen a significant increase in demand with their 500th referral in September. The team provide monthly education sessions for care home staff and deliver an important pathway for the Welsh Ambulance Services NHS Trust (WAST) to use for those people who fall without serious injury.

Working with the primary care clusters has been important and several beneficial new schemes have been introduced, for example, respiratory care and education in schools for young people, increasing first contact physiotherapists in GP practices, Dance to Health and increasing the Community Connectors.

We have worked with Pembrokeshire County Council and Pembrokeshire Association of Voluntary Services to build community connectedness in our communities through the new communities hub. This recognises the isolating impact COVID-19 has in our communities and provides a co-ordinated mechanism to connect people in communities, working together to meet needs and reduce the harmful impacts of isolation. Specialist connectors have also been introduced for young people, those living with dementia and to enable better digital connections and use of technology.

The community teams, third sector, social care and primary care have continued to work together to identify those people who need a more co-ordinated approach to care, planning and supporting to meet needs collectively. Care co-ordinators have been put in place to support this process and in South Pembrokeshire the cluster has commenced with a scheme focusing on identifying those who may be at risk of further health deterioration and potential admission to hospital.

Our Intermediate Care Team seeks to rapidly respond to people experiencing a significant increase in their needs, either to enable them to stay at home rather than go into hospital, or to support them home safely after an admission. We have brought together doctors,

nurses, therapists, social workers and support workers to first assess needs that might be complex and then put in place a short-term response until independence is recovered or long-term care is available. At the end of the year this team was supporting an average of 60 people in a community 'ward' each day and we hope this can continue to grow.

Therapy services

The COVID-19 pandemic impacted therapy services significantly in several ways: in the way services evolved to continue to support patients across our care settings and within their own homes; and also responding to the increased acuity and complexity of patients presenting for care following periods of lockdown and service interruption.

In the acute stages of the pandemic and during successive waves, therapy services needed to respond, not only to the urgent clinical needs of COVID-19 patients, but also to requests for therapists' redeployment to urgent services. To ensure that our service users continued to be able to access effective support and rehabilitation, therapy services continued to use virtual and digital solutions such as Attend Anywhere to provide individual and group session support and have been capturing patient outcome and experience data using online platforms.

Therapy services have also been increasingly required to respond to a new and growing cohort of individuals with post-COVID-19 syndrome (known as Long COVID), and in September 2021 a dedicated community based Long Covid Syndrome Service was established to provide specialist multi-disciplinary support for individuals suffering from Long COVID. The service aims to enable patients to take control and responsibility for their ongoing health and well-being and equips them with skills and knowledge to manage their ongoing rehabilitation needs. With support from multi-professional rehabilitation professionals, including therapy assistant practitioners, occupational therapists, physiotherapists, dietitians, psychologists and advanced nurse practitioners, the service provides a comprehensive individualised person-centred assessment utilising National Institute for Health and Clinical Excellence (NICE) recommended Long COVID assessment tools.

Design and implementation of testing and immunisation for COVID-19

COVID-19 testing

We first commenced community testing for COVID-19 in March 2020. Since that time, the demands for testing, national strategy and testing infrastructure have changed frequently and quite dramatically. We developed a robust testing infrastructure, which has been responsive to the changing expectations from Welsh Government, as the national testing strategy developed. We continue to provide COVID-19 testing to anyone who needs it.

Over the past year the provision of testing has included:

- those with COVID-19 symptoms in the community
- identified contacts of COVID-19 positive individuals

- patients prior to surgery and chemotherapy
- all patients on admission to hospital
- all inpatients routinely every five days
- inpatients when they become symptomatic
- patients prior to discharge to or admission to a care home, or home with domiciliary care support
- residents within care homes
- all care home and ward residents/patients and staff in response to outbreaks
- our population as appropriate in response to outbreaks or the identification of a new variant of concern
- routine asymptomatic testing of health and social care staff, teaching staff and students with lateral flow devices (LFDs)
- public access to LFDs for routine asymptomatic testing.

From 1 April 2021 to 31 March 2022, 700,000 real time polymerase chain reaction (RT-PCR) tests were carried out within the health board region.

The rates of COVID-19 infection across Carmarthenshire, Ceredigion and Pembrokeshire, and the positivity rates of RT-PCR testing, have fluctuated dramatically across the year. In April 2021, our region saw rates of 7.7 cases per 100,000 population and a positivity rate of 1% for around 3,000 RT-PCR tests per week. At the highest peak in January 2022 these rates increased to around 1,900 cases per 100,000 population and 48% positivity for around 15,000 tests per week.

We are currently using a range of testing methodologies, including RT-PCR and point of care testing (POCT). Previously, we also provided antibody testing, which has now been discontinued on a national basis.

The national strategy for testing over the past year included:

- supporting NHS clinical care – diagnosing those who are infected so that clinical judgments can be made to ensure the best care;
- protecting our NHS and social care services and individuals who are our most vulnerable;
- targeting outbreaks and enhancing community surveillance to prevent the spread of the disease amongst our population;
- supporting our education system and the health and well-being of our children and young people, enabling them to realise their potential;
- identifying contacts of positive cases to prevent them from potentially spreading the infection if they were to become infected and infectious, and maintaining key services;
- promoting economic, social, cultural and environmental well-being and recovery.

Symptomatic community testing, including critical workers

During the past year, the vast majority of our symptomatic community testing, including critical workers, has been delivered via the UK testing system. Tests were booked through the UK government portal or 119 and swabs were analysed in the UK Lighthouse Laboratories. Testing via this route was also offered to identified contacts of COVID-19 positive cases.

At times of high demand, or where issues relating to the UK system adversely affected access to testing or longer than acceptable turnaround times for results, we stepped up our own delivery of testing via the community testing units (CTUs). This allowed us to deliver testing to health and social care workers to support the availability of our workforce, enabling them to return to work as quickly as possible to help maintain critical service delivery.

We continued to provide testing to symptomatic individuals who could not attend a testing site, for example, the housebound and international travellers with a suspected variant of concern. This was delivered through a home visit by our CTU staff.

Modelling work was frequently reviewed to maximise daily community RT-PCR testing throughout the year in response to changing demand. Additional mobile testing units were located across Carmarthenshire, Ceredigion and Pembrokeshire in line with local increased demand and allowed us to respond effectively to clusters or outbreaks in specific areas.

We continually worked with our partners and other health boards in relation to mutual aid and supporting testing for people who live or work across our boundaries or travel into our communities, such as students and visitors/tourists.

We continually communicated with our local community throughout the pandemic on the criteria for testing and its importance in keeping people safe. We also provided practical information on how to access testing and the need for self-isolation while waiting for results or following a positive result. We used a combination of updates through traditional media and key stakeholders, web resources, social media advertising and promotion, and production of hard copy information and radio adverts for those not using digital media. We also used and signposted to British Sign Language resources and guidance in alternative languages.

Access to RT-PCR testing for the public ceased on 31 March 2022, at present replaced with the use of LFDs for symptomatic testing. Going forward into 2022-23, we will continue to provide RT-PCR testing for symptomatic health and social care staff.

Care home testing

We have continued to offer both symptomatic and asymptomatic testing in outbreak and incident management scenarios across the care home sector. This testing was delivered in conjunction with the weekly asymptomatic testing of staff via the UK government portal and was central to identifying infection cases in individual homes that founded the basis of all decision making in declaring outbreaks and incidents.

During 2021/22, we carried out testing for 859 care home staff and 14,873 care home residents via the Public Health Wales (PHW) laboratories. In addition, the UK government portal provided 255,373 RT-PCR tests for regular staff testing.

This approach helped the care homes to identify residents and staff who tested positive for the virus, to appropriately zone positive patients, to advise staff to self-isolate and reduce the risk of spread across the home (and possibly the wider care home sector).

Inpatient testing

We have continued to test patients on admission to hospital and routinely during their stay in line with Welsh Government requirements. This has been mostly via RT-PCR tests, however, in November 2021 we introduced a rapid point of care test (POCT) (Roche Cobas Liat) into our admitting units for paediatric services to support grouping of patients with viral respiratory illnesses. This test is used to identify respiratory syncytial virus (RSV) and COVID-19.

Similarly, in January 2022, rapid SARS-CoV-2 antigen testing was expanded to unscheduled adult admissions at the four acute hospitals using the Abbott ID NOW POCT.

Whilst admission testing will continue into 2022-23, routine repeat inpatient testing has now ceased. We will, however, continue to test where patients develop symptoms, or where indicated in the case of a hospital outbreak.

Asymptomatic testing

We have always directed all asymptomatic testing of pre-operative and pre-chemotherapy patients via the health board CTUs and PHW laboratories to ensure rapid turnaround times for results. This testing will continue into 2022-23.

These facilities are supporting one-stop clinics for pre-chemotherapy RT-PCR testing and phlebotomy. They are also being utilised as COVID-19 vaccinations centres, maximising facilities and staffing resources. Consideration is being given regarding the longer-term continuation of phlebotomy at such community sites, rather than returning fully to hospital-based phlebotomy services post-COVID-19.

Health board testing staff based at these sites are also supporting testing within care homes for symptomatic residents, mass home testing in response to outbreaks and domiciliary testing where required.

In February 2021, we began offering LFDs to health board staff and students for routine asymptomatic testing. This testing is not mandatory, and staff can reserve the right to decline the offer. The offer of twice-weekly LFD testing is also being made to all primary care contractors.

Over the past year, routine asymptomatic LFD testing was rolled out across a wide range of workplaces including education, public services and private companies and businesses. LFD tests were latterly made available for the public via community pharmacies and LFD Direct, with tests ordered on the UK government portal and delivered to their home.

Routine availability of LFD kits for asymptomatic testing ceased on 31 March 2022, however, we will continue to provide LFDs to health and social care staff during 2022-23 in line with Welsh Government policy.

COVID-19 vaccination programme

Our COVID-19 vaccination programme for the three counties continues to support the wider [Welsh Government Strategy for Vaccination](#), which includes the priorities, vaccination infrastructure, and vaccination community strategy.

The aim of our COVID-19 vaccination programme remains to protect those who are at most risk from serious illness or death from the virus and deliver the vaccine to them and those who are at risk of transmitting infection to multiple vulnerable persons or other staff in a health or care environment.

Based on the advice from the Joint Committee on Vaccination and Immunisation (JCVI), we continue to strive to offer everyone eligible their primary or booster vaccinations.

To offer protection and vaccinate people as quickly as we can, we are using different, complementary ways to deliver COVID-19 vaccinations. In this way, we use all our strengths to offer vaccination to our community.

This means some people have or will receive their vaccinations through their GP surgery or community pharmacy, whilst others will be invited to their nearest mass vaccination centre, where vaccine is delivered by health board staff.

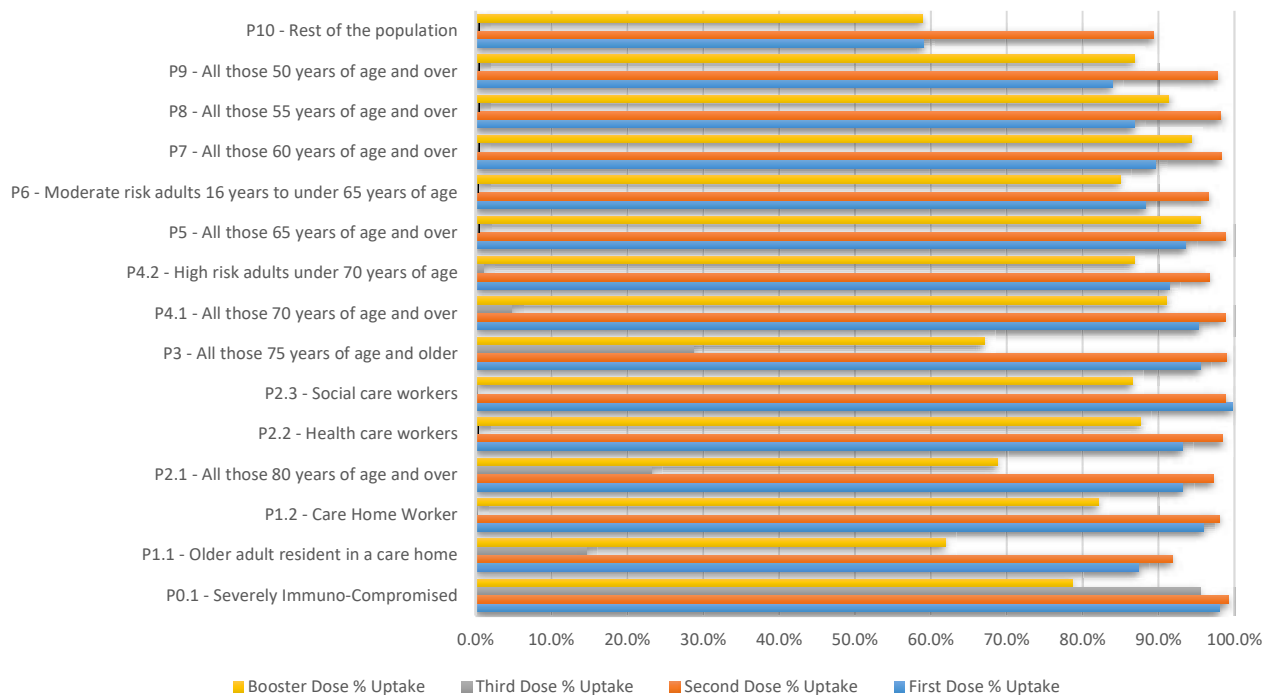

We also vaccinate target groups in other ways where necessary, for example, we have undertaken vaccination in the hospital to care for long term patients or service users. We have also held 'pop-up' clinics for certain communities, such as travellers, unpaid carers and those people who are homeless. This aims to minimise any impact of health inequalities and ensure no one is left behind in our communities.

Flexibility of delivery is crucial to meeting the guidance of eligibility as set out by the JCVI and on occasions priority groups will be invited in for vaccination at the same time so that we can make maximum use of the vaccine supplies provided to us. As the programme has now reached our younger population, we aim to support our younger children through clinics in our mass vaccination centres or additional 'pop up' clinics setting that are suitable for this younger group. We aim to ensure the environment is adapted for the needs of this younger group to prevent any distress and support a positive experience.

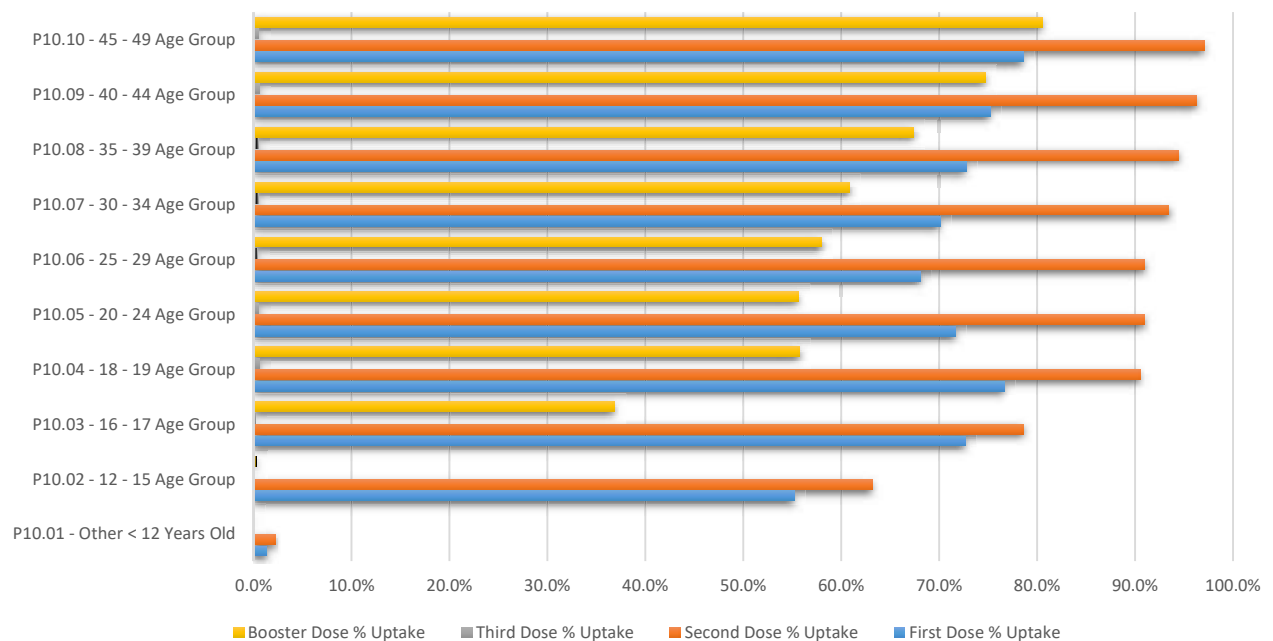

Uptake of the vaccine has been exceptionally high to date and as the vaccine programme moves into the booster phases, we will continue to work to protect as many people as possible and ensure all residents can access a vaccine. We also have the lowest wastage rates in Wales.

As of 31 March 2022, 867,173 COVID-19 vaccinations had been delivered to our residents and staff – 315,323 first doses, 300,306 second doses, 19,806 third doses (severely immunosuppressed only) and 231,738 first boosters. The detail as per JCVI priority group is shown in the image below:

Hywel Dda University Health Board Residents Covid-19 Vaccination Programme December 2019 to 31 March 2022 Priority Groups 0.1 to 9

Hywel Dda University Health Board Residents Covid-19 Vaccination Programme December 2019 to 31 March 2022 Priority Group 10

We are especially proud of our vaccination teams – made up of immunisers from across acute, primary and community settings and supported by administrative teams and volunteers – when they were able to respond to vaccine availability, enabling us to be the first health board in the UK to offer the Moderna vaccination at the start of April 2021. Their response across all our delivery settings to the acceleration of the booster roll out during the autumn period in response to the Omicron outbreak and the need to vaccinate our eligible population to a reduced interval timescale, was outstanding.

Seasonal flu

There was concern that a challenging flu season, in addition to the COVID-19 pandemic and associated vaccination programme, could have resulted in significant additional pressure and overwhelmed the NHS and care system. Therefore, a revised strategy was developed to deliver the flu vaccine in a safe and timely manner to protect eligible groups in the community.

Partners in primary care maintained their plans to accommodate social distancing requirements, enhanced infection prevention and control measures, as well as appointment only systems with the aim of vaccinating as many people as possible.

The aim was to explore the opportunity for administration of flu vaccine and COVID-19 booster vaccination at the same time. Due to the timescale of the availability of both vaccines the opportunities were limited for this flu season, however, it remains an aspiration for future programmes.

The contribution of the health board's School Nursing Service resulted in the programme for primary school children being delivered alongside the addition of a programme for secondary school children. Despite challenges due to the circulating COVID-19 infection due to the Omicron variant, they successfully delivered the enhanced school programmes with very good uptake across all ages.

This was complemented by an external communications and public relations exercise that aligned with Welsh Government's vaccination strategy. Part of this campaign included a significant investment to reach the non-digital audience, such as newspaper adverts across the three counties to replicate the success received the previous year, along with radio adverts. Meanwhile, all schools were provided with flu promotion materials to issue directly to parents.

The table below illustrates the uptake of flu vaccination in our communities for all eligible groups (note the 2021/22 data is provisional at the time of preparing this report):

Cohort	2021/22 Uptake (%)	2020/21 Uptake (%)	% Change	Wales uptake 2021-22
Over 65s	75.9%	73.6%	2.3%	78.0%
Under 65s with chronic conditions	47.4%	49.8%	-2.4%	48.2%
2-3 year olds	47.0%	55.1%	-8.1%	41.0%
School aged children (4-10 year olds)	68.46%	87.1%	-18.64%	
School aged children (11-15 year olds) Note: excludes vaccinations in GP surgeries and home-schooled children	64.6%	n/a	n/a	59.8%
Hywel Dda staff (direct patient contact) Note: staff denominator has increased, even though the number staff immunised has increased this is not reflected in % uptake rate	53.9%	55.1%	-1.2%	

Through this combined effort we:

- vaccinated a cohort of people in our communities aged between 50-64 years old following confirmation from Welsh Government this group was to continue as a priority;
- began and finished the programme early (99% uptake completed by the end of December 2020);
- improved our uptake rates in all eligible cohort groups by 6-16%;
- vaccinated more people than ever against seasonal flu despite being the middle of a global pandemic.

Meanwhile, our Occupational Health Team, supported by peer vaccinators, led on the roll out of the flu vaccine to staff. The logistical issues of delivering a vaccination programme within the constraints of COVID-19 guidance and an increasing wave of the Omicron variant was managed through exceptional partnership working and the need to be as flexible and responsive as possible.

The programme was supported by a communications and staff engagement campaign, which highlighted available clinics and how to access vaccines. The flu vaccination programme ran between September 2021 and 31 March 22; uptake was 54% with 6,880 staff vaccinated against flu, higher than previous years.

Redesign of acute services to provide COVID-19 care

Critical care

Going into year two of the COVID-19 response, the number of available critical care ventilated beds remained within funded capacity of 22. This was due to the challenges related to the availability of suitably skilled staff, including agency, and a recurrent vacancy factor which saw a flow out of skilled staff and recruitment of novices. In addition, as many external services continued their provision in year two, the staff pool trained up in year one to assist in the critical care bed base expansion were not available.

All critical care locations did feel the challenge across the peak of the third wave of COVID-19. With twice daily cross-site meetings, patient cohorts and staffing were discussed; and risks were assessed resulting in patient or staff moves to assure safety concerns could be mitigated and addressed. It should be noted that, when able, many nursing staff moved at short notice to other locations in support of optimising staff numbers in locations of higher patient acuity need.

The inability to safely segregate COVID-19 patients noted in year one, has continued across year two. This has placed significant pressures on all staff disciplines on making decisions on best options for patient flow and placement. The funding for installing side rooms into existing bed base across all four sites has been obtained and installation commenced. This will improve site ability to appropriately segregate patients in the future.

The launch and availability of the Acute Critical Care Transfer Service (ACCTS Cymru) has been a significant asset to the critical care service from its launch in August 2021; facilitating transfers across the health board and beyond in support of assessed patient need.

Field hospitals

Our [2020/21 annual report](#) described how the health board's field hospital arrangements were set up and commissioned to the point of being brought into a state of operational readiness. This was made possible through collaborative working with local authority and town council partners along with the private sector. The arrangements included providing nine field hospital sites offering 915 inpatient beds distributed across Carmarthenshire, Ceredigion and Pembrokeshire as a precautionary measure to tackle the impact of increased acute and community hospital site admissions. Three of these field hospital sites experienced inpatient activity namely:

- Ysbyty Enfys Caerfyrddin (Carmarthen Leisure Centre) June 2020 – August 2020: activity 32 patients
- Ysbyty Enfys Selwyn Samuel (Selwyn Samuel Centre) November 2020 – June 2021: activity 263 patients
- Ysbyty Enfys Carreg Las (Bluestone) December 2020 – March 2021: activity 86 patients.

Other sites were used to support vaccination demands and broader local health needs, such as accommodation for training and development and associated clinical back office functions.

The most recent waves of coronavirus did not increase demand to the point where field hospital support was needed. All premises that were adapted for field hospital purposes have now been returned to their owners except for Selwyn Samuel Centre in Llanelli; work is in progress to return the building to its former use and is scheduled to complete in April 2022.

Overall, the health board's field hospital provision is considered a successful venture with a high degree of patient satisfaction for the care received, with no complaints received. Positive remarks from Health Inspectorate Wales, low levels of incidents and a total of

5,367 bed days saved which otherwise would have created further pressures on acute and community hospital beds.

Emergency care

Our urgent and emergency care (UEC) model has been reviewed and redesigned reflecting those priorities outlined in the six national policy goals.

Our planned regional outcomes for the six goals are as follows:

1. Co-ordination for at risk groups - planning and support to help high risk or vulnerable people and their carers to remain independent at home, preventing the need for urgent care.

2. Signposting - information, advice or assistance to signpost people who want, or need, urgent support or treatment to the right place, first time.

3. Preventing admission or attendance - community alternatives to attendance at an emergency department and/or admission to acute hospital for people who need urgent care but would benefit from staying at, or as close as possible, to home.

4. Rapid response in crisis - the fastest and best response at times of crisis for people who are in imminent danger of loss of life, are seriously ill or injured, or in mental health crisis.

5. Great hospital care - optimal hospital-based care for people who need short term, or ongoing, assessment and treatment for as long as it adds benefit.

6. Home first approach and reduce risk of readmission - a home-from-hospital when ready approach, with proactive support to reduce chance of readmission.

These recognise the need for us to strengthen community services and care for people at home not in hospital, but to also ensure timely access to diagnostics and assessment in same day emergency care (SDEC) facilities that allows patients to return home to their own bed.

Our UEC model and resource investment has therefore focused on strengthening urgent primary care services, SDEC and 'wrap around' care so that frail people who require a level of support receive this at home rather than in hospital.

Examples of how we are strengthening community and urgent primary care services are available from page 23.

In September a new project was commenced to rapidly expand the wrap-around care that is provided in each county to deliver additional 'bridging' care at home. This with the intention of growing the whole home-based care workforce to meet the needs of those people in hospital unable to get home safely without it. 24 new healthcare support workers were recruited and trained and deployed into community settings across the region. In Carmarthenshire, they enabled the earlier opening of additional beds in Amman Valley Hospital; in Ceredigion, they supported gaps in fragile community teams at the peak of the third wave; and in Pembrokeshire, they supported an additional run being opened in the existing bridging service. Although the numbers recruited were less than sought, there were important lessons learnt and feedback from patients and staff to support future recruitment and workforce development.

Temporary paediatric service change

In September 2021, we agreed to extend a temporary service change to ensure the safe treatment of seriously unwell children in the south of the Hywel Dda area.

In spring 2020, the children's daytime unit and its specialist staff at Withybush Hospital, Haverfordwest (called a Paediatric Ambulatory Care Unit or Puffin Ward locally), were moved to Glangwili Hospital, Carmarthen. This was due to the necessity to use the area for the hospital's COVID-19 response.

It has meant that children under 16 with serious illnesses or injuries have been treated at Glangwili Hospital, where there is a co-located Emergency Department and specialist children's services staff including an overnight children's ward, and children's high dependency unit (which are not available at Withybush Hospital).

The extension of this service change was agreed in a board meeting in the context of the continuation of the pandemic response, but also due to the expected increase in the number of children likely to have respiratory viruses in the winter of 2021/22. In anticipation of more children becoming unwell from respiratory viruses, we invested in more equipment and high dependency beds at Glangwili Hospital. This has enabled children to have their definitive treatment more quickly and has also allowed for children to be monitored by specialists if they deteriorate.

In the interim period, Withybush Hospital treats children with minor injuries, via the minor injury unit and Emergency and Unscheduled Care Unit, and provides booked outpatient appointments. A communication campaign to advise parents in Pembrokeshire and the south of Ceredigion of where they can access children's hospital care has been undertaken and included radio advertisements and a household leaflet drop.

A review of the temporary service change is ongoing and will report back to the health board later in 2022. We are working closely with Hywel Dda Community Health Council to ensure the review has the appropriate scrutiny and that we measure outcomes for children and young people, as well as patient experiences, and the views of our communities.

Planning and delivery of safe, effective and quality services for non COVID-19 care

Planning and delivery of safe, effective and quality services for non-COVID-19 care

Despite the challenging year, there have been many significant achievements across the health board this year in areas of care beyond COVID-19. Here are some examples:

Striving to deliver and develop excellent services

- **Opening of the Special Care Baby Unit at Glangwili Hospital** as part of a £25.2m Welsh Government investment. The new obstetric and neonatal facilities provide five standard birthing rooms with en-suite; one birthing room with a fixed pool; one birthing room equipped to deal with multiple or complex births; and a six bedded enhanced monitoring unit. The unit will also improve the working environment for staff, with an appropriate area for teaching and multi-disciplinary working.
- **New CT scanner at Glangwili Hospital and replacement MRI scanner at Withybush Hospital.** These state-of-the-art scanners will greatly improve the patient experience with increased resolution and faster scan times.
- **Stonewall silver employer award** in recognition of our commitment to inclusion of lesbian, gay, bi, trans and queer people in the workplace. Initiatives include an LGBTQ+ Staff Network, for LGBTQ+ staff and allies, staff training sessions, and delivering LGBT inclusive services, and celebrating key annual events, such as LGBT History Month, Pride, and Trans Visibility Day.
- Developing with partners the **Carmarthen Hwb** and advancing the **Pentre Awel** development bringing together a range of health, well-being, learning and cultural services to support people of all ages to access key services all under one roof.
- The submission of our outline business case to Welsh Government for our **Cross Hands Well-being Centre**. The centre will provide an integrated health and social care network of services for the Amman Gwendraeth area, accommodating two local GP practices (Tumble and Penygroes), a library, family centre, community pharmacy and also community police support officers and voluntary sector groups.
- **New online access to information** for our population through platforms such as DrDoctor and Patient Knows Best to improve your patient experience and access to NHS services and information.
- A brand-new **clinical research centre** opened at Glangwili Hospital, providing access to new research opportunities to patients in west Wales. This new dedicated space will reduce the pressures on other departments within the hospital and makes Carmarthenshire a more attractive site to conduct potentially life-changing research. This centre will offer patients the opportunity to participate in clinical trials that offer earlier access to the very latest treatments and therapies. The £250,000 investment has seen the development of bespoke clinical rooms to treat and monitor patients and a

multifunctional lab space with state-of-the-art facilities to enable sample processing independently from other busy departments.

- **Quality Data Provider award for elective surgery at Bronglais Hospital.** The hospital was named as a National Joint Registry (NJR) Quality Data Provider after successfully completing a national programme of local data audits. The hospital's orthopaedic team received the award for elective surgery. The NJR monitors the performance of hip, knee, ankle, elbow, and shoulder joint replacement operations to improve clinical outcomes for the benefit of patients, clinicians, and industry. The registry collects high quality orthopaedic data to provide evidence to support patient safety, standards in quality of care, and overall cost effectiveness in joint replacement surgery.
- **Mental health support schemes.** Across mid and west Wales, GP practices have commissioned a range of schemes to help patients with low level mental health, isolation, and loneliness. These non-clinical interventions deliver a different approach to supporting patients and are designed to improve patients' mental health and well-being. Other innovative mental health projects include the appointment of mental health practitioners; mental health first aid in pharmacies; working with mental health agencies; and charities to provide counselling, resources, and support to people across all age groups with mental health issues.
- **Specialist endometriosis nurses** have been appointed in each health board in Wales to improve services for the chronic condition, which affects one in 10 women.
- **Miracle spray saves life.** A miracle spray saved the life of an overdose victim in Carmarthenshire as a result of a joint trial with Dyfed Powys Police. The trial, which began in January 2022, involves police officers carrying the nasal spray Nyxoid to help reduce deaths from drug overdoses and to refer people to the Dyfed Drug and Alcohol Service (DDAS) for support. The trial is operating in Llanelli, Aberystwyth, Pembroke Dock, and Llandrindod Wells for six months.

Delivery of infection control measures to deliver COVID-19 and non-COVID-19 care

Management of safe personal protective equipment

The management of personal protective equipment (PPE) has been driven through a dedicated PPE Cell, chaired by the health board's Director of Nursing, Quality and Patient Experience. Once systems were established and there was confidence in supply chains, which have been consistent throughout the year, the cell reduced its meeting frequency. Training in the use of PPE has been provided by the Infection Prevention and Control (IPC) Team in multiple formats, including posters, videos and in person where needed. The Health and Safety Team has supported with 'train the trainer' sessions for fit-testing specialist respiratory masks and hoods. Both teams supported the testing and procurement of additional and specialised PPE.

Redesign of local estate to deliver safe services during COVID-19 (outpatients, theatres, diagnostics)

Our IPC Team worked with health services throughout the pandemic to review patient flow and ensure patient and staff safety is maintained. Services were supported through expert advice on mitigation and risk assessments where appropriate. Pathways of care in our hospitals have been reviewed and developed throughout the pandemic, in response to COVID-19 modelling information, emerging new variants of concern and new or updated national guidance.

Significant work and investment have been made to improve the capacity of isolation facilities, maintain social distancing requirements and improve ventilation in our closed settings. Capital investment has been secured for screens, Bioquell Pods, Redirooms, air humidifiers and for the conversion of isolation suites to negative pressure suites.

We deliver a number of outpatient services across our community hospitals and other settings, where community nursing staff support consultant and nurse led clinics. A standard operating procedure for delivering outpatient services from community facilities during COVID-19 was adopted across the health board having initially been led by Ceredigion county.

Arrangements were also in place across community settings and services, such as outpatient clinics, to ensure these were safe and accessible for our population. For example, in Ceredigion, additional domestic support was put in place to enhance cleaning and meet and greet functions; and a process put in place to ensuring patients were familiar with the COVID-19 arrangements on site and reassuring patients that it was safe for them to attend their appointments.

Local communication with the community to support them making the right choices

The health board's Communications Team continually communicated relevant and timely messaging, supported by the IPC Team, to inform and reassure local communities on national and local requirements and how to stay safe during the pandemic. This included messaging around attending GP practices, pharmacies, and self-care. The IPC Team has continued to support the Regional Response Cell and local authorities in mitigating risks associated with COVID-19 and other infections in care homes across our three counties. The assessments, action plans and support across these premises have played a significant part in care home outbreaks across the health board. The IPC Team has also supported all community services including community hospitals, health board community clinics, managed GP practices, out-of-hours GPs, primary care, integrated care centres, community nursing, children's community services, dental and therapies on COVID-19 measures, processes, and risk assessments.

The implications from this additional requirement

The last year has, again, tested the resilience of the health board's IPC Team, stretching resources across multiple areas of healthcare and into the community, supporting education, the fire service and private companies in their pandemic response. While

endeavouring to continue services, face-to-face training was suspended, and some locality meetings were cancelled.

The IPC Team is a small, specialist team. The recruitment of additional resource has helped to support the team's specialist practitioners and sustain the routine work around infection prevention and reduction. During this time, the health board recruited a substantive consultant practitioner in infection prevention. This role provides additional expert clinical care, senior leadership, and strategic delivery of the infection prevention service, while further developing an integrated preventative approach to infection prevention and control across the health board (including community settings such as care homes). A seven-day-a-week service has been successfully piloted and is continuing currently.

An integrated infection prevention nursing role has also been designed and evaluated in partnership with, and funded by, Carmarthenshire County Council. This is a substantive, jointly managed, post provides ongoing support to our communities. Our hospital and community IPC teams have, throughout the pandemic, visited wards, care homes and GP practices to assess IPC measures for COVID-19 and outbreaks; support staff and residents; deliver training; provide mitigating actions to prevent onward transmission of COVID-19; and to protect vulnerable residents and staff. These on the ground assessments, action plans and support have played a significant part in care home outbreaks across the health board.

Delivery of essential services

Welsh Government issued guidance for the essential services that must continue throughout the COVID-19 pandemic to ensure patients have access to necessary care and treatments in a safe environment. That guidance can be viewed here:

www.wales.nhs.uk/COVID19essentialservicesguidance

A summary of our essential services provisions as of 31 March 2022 is included below:

Normal services that are continuing

- Emergency ambulance services

Intermediate services that are being delivered

- Maternity services

Essential services that are being maintained in line with guidance

- Access to primary care services - General Medical Services, community pharmacy, red alert urgent / emergency dental services, optometry services, community nursing / allied health professionals and 111.
- Acute services - urgent eye care, urgent surgery and urgent cancer treatments.
- Additional services - health visiting, community neurorehabilitation, self-management & well-being and school nursing.
- Blood and transfusion services.
- Diagnostics.

- Life-saving/impacting paediatric services - paediatric intensive care and transport, paediatric neonatal emergency surgery, paediatric services for urgent illness, immunisations, vaccinations, infant screening and community paediatric services for children.
- Life-saving medical services - interventional cardiology, acute coronary syndromes, gastroenterology, stroke care, diabetic care, neurological conditions and rehabilitation.
- Mental health, learning disability services and substance misuse.
- Neonatal services - surgery for neonates, isolation facilities for COVID-19, access to neonatal transport and retrieval services.
- Other infectious conditions.
- Palliative care.
- Renal care-dialysis.
- Safeguarding services.
- Termination of pregnancy.
- Therapies.
- Urgent supply of medications and supplies.

Essential services we are currently unable to maintain

GP out-of-hours service

- The number of consultations closed as telephone advice during 2021-2022 rose to approximately 75-80% of total contacts. More recently this level has reduced and there is a slow move back to pre-COVID-19 management of patients with approximately 60% of current levels of calls closed as telephone advice with no further contact or follow-up required. During quarter four of 2021-2022, there was an average monthly demand of 3,364 calls. Over this same period calls have been managed across the following distribution:
 - Treatment centre 18%
 - Home visits 5%
 - Referred to Welsh Ambulance Services NHS Trust (WAST) 7%
 - Referred to emergency department 6%
 - Referred to secondary care 4%
- Individual call complexity has also shown signs of change over time with the average time per call taking double from the previous pre-COVID-19 average of 11 minutes. If this pattern were to continue the impact would be a reduction in calls dispersed per hour per GP to a maximum of three.
- The 111 service has consistently dispersed additional calls before they impact the local out-of-hours service and this amounts to an additional third of calls. In line with previous patterns of referral into out-of-hours, the Carmarthenshire centres continue to see the greatest demand, and Pembrokeshire continues to disperse more via home visiting.
- The service has seen success in recruiting eight additional salaried GPs, however, the net positive impact has not been as significant as was hoped due to some being recruited from the locum resource. A more settled position was seen over the latter part of the year although this was not a consistent picture across the three counties.

- Overall availability of locum GPs support has continued to reduce, however, the transfer of some into salaried positions should not strictly be considered a capacity loss. Daytime practice and out-of-hours continue to draw on the same pool of human resource and work continues to balance out this position. Weekend shift fill remains the greatest service challenge with a level three (70-79%) being on average the best sustained achieved levels of fill rate over the past twelve months. Weekdays (not including bank holidays) have an average shift fill at level one (>90%).
- The recent departure of some advanced nurse practitioner resource due to taking up work elsewhere is a further loss to note and, although this has limited bearing on weekday shifts, it is beginning to have some impact on weekend resilience. The advanced paramedic practitioner pilot in partnership with WAST continues and remains an important resource contribution to the overall service. All the advanced practitioners available to the out-of-hours service have been key in allowing the needs of patients across the health board to be managed in the most appropriate and timely way.
- The temporary reduction in services at Prince Philip Hospital, Llanelli and Llynfrfan Surgery in Llandysul, has remained in place due to persistently fragile rotas across the entirety of the out-of-hours service and the limited ability to safely increase the provision of clinicians at these two centres without destabilising the remaining three bases continues to pose challenges.
- A new clinical and non-clinical rostering system will go live in May 2022 and will make shifts available and individuals' wishes to commit administratively more efficient to manage and communicate with the team. This is expected to improve clinical service resilience long with capacity within the administrative team.

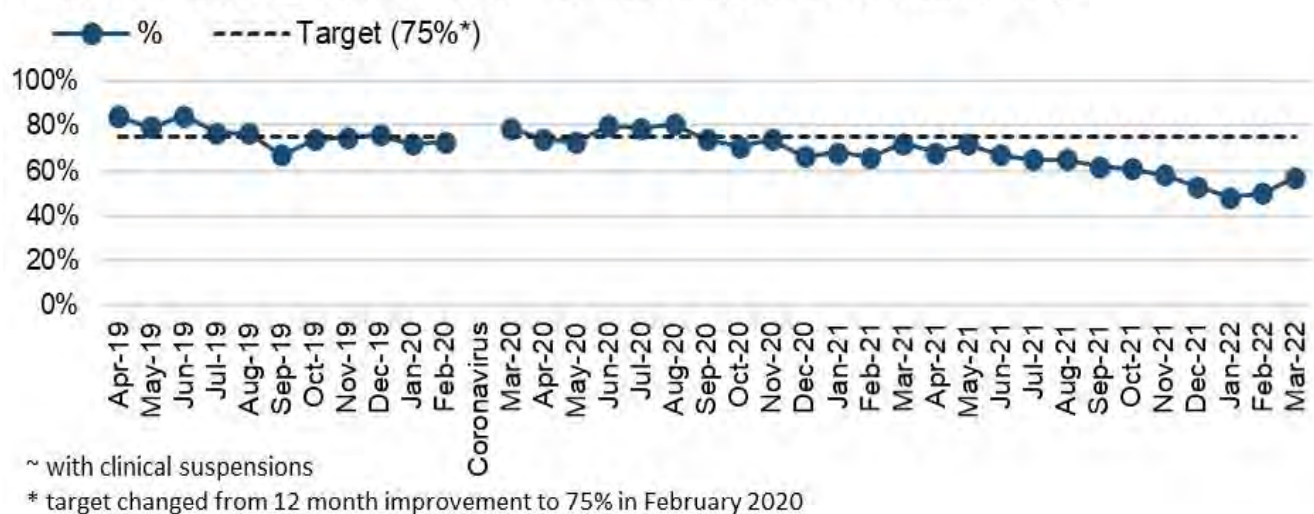

Cancer

The national guidance for cancer services during the COVID-19 pandemic requires us to:

- ensure urgent cancer diagnosis, treatment and care continue as well as possible to avoid preventable morbidity and mortality;
- treat cancer patients in line with the prioritisation categories set out by the Wales Cancer Network;
- maintain all cancer services.

We did not meet the 75% target for cancer patients commencing treatment within 62 days from point of suspicion during 2021/22. This is due to several factors including diagnostic capacity issues due to infection control guidance, particularly in radiology. COVID-19 related sickness, staff vacancies and planned annual leave has further impacted performance. Performance for quarter three has been declining due to the increase in COVID-19 related sickness, management of COVID-19 related flows and the overall impact on diagnostic and critical care. The consequence of which resulted in short-term planned and unplanned step down of activity within outpatients and planned surgery.

Patients starting first definitive cancer treatment within 62 days

Impact on our patients

We need to ensure a continued effective response to COVID-19, whilst providing essential services within the outpatient services and to adhere to Welsh Government guidance on social distancing and to avoid unnecessary visits to the hospital setting. Therefore, the introduction of face-to-face clinic consultations has required careful consideration. Most of the face-to-face outpatient appointments (in breast, head and neck, skin and gynaecology) required physical examinations or procedures. Virtual appointments are being undertaken via digital solutions such as Attend Anywhere.

We have implemented a Cancer Pathway Review Panel to identify any risk for those patients who have not received their treatment within 146 days from their point of suspicion. To date, no harm has been identified.

Outpatient appointment oncology clinics are being held via telephone consultation and virtually where needed; supported by the Oncology Clinical Nurse Specialist (CNS) Team. Chemotherapy/systemic anti-cancer therapy (SACT) is still being administered on all four hospital sites. All six levels of SACT continue to be administered. The current waiting time for chemotherapy is 15 days across the health board sites.

At the beginning of the pandemic, a non-clinical cancer helpline was set up for patients, relatives, and professionals to access advice and support from external agencies and charities. This has strong links with the local authority. This is now a substantive service.

During the last year, visiting was restricted as per Welsh Government guidance. Currently, family and friends can attend Hywel Dda hospitals on a limited basis, with prior agreement with hospital staff and in line with current Welsh Government guidance. Patient Support Services remain in place for patients or visitors to contact with any questions and concerns.

Key issues and risks

The COVID-19 pandemic has affected our delivery of essential cancer services:

- The impact of COVID-19 has increased the risk of being unable to meet the target. The delays are caused by diagnostic capacity issues across the health board in line with the infection control guidance that remains in place. The main area of concern is radiology.
- A decrease in capacity for appointments and results reporting within radiology, due to COVID-19 related sickness, current vacancies and planned annual leave within two of the four health board sites. Patients have been offered alternative appointments on other sites, however, some patients have not agreed to attend and have requested an appointment close to home.
- Cancer performance has been on a downward course due to the increase in COVID-19 related sickness, management of COVID-19 related flows and the overall impact on diagnostic and critical care. The consequence of which resulted in short term planned and unplanned step down of activity within outpatients and planned surgery. Clinics and elective cancer surgery with green pathway and green intensive care unit (ITU) / high dependency unit (HDU) have now been reinstated on all four acute hospital sites.
- At the beginning of March 2021, we saw a 38% increase in urgent suspected cancer referrals when compared with the same period in 2020. By the end of September 2021, the number of referrals had increased by a further 10%.
- We have strived to ensure that our elective cancer surgery with green pathway and green ITU/HDU remains in place. There have been occasions during the peak of the pandemic when surgery has been relocated to Prince Philip Hospital, except for head and neck surgery, which remained in Glangwili Hospital. This was mainly due to limited availability of critical care beds and staffing issues.
- All tertiary (specialist) cancer surgery was resumed.
- At the start of the pandemic, endoscopy was centralised in Glangwili Hospital. Following the first lockdown in 2020, Endoscopy services were reinstated on all four hospital sites, with capacity increasing to 53%. With the introduction of a green pathway in endoscopy in June 2021, capacity has increased and is now at 87%.
- In addition to the points highlighted above, we experienced an increase in demand beyond available capacity for cancer patients requiring diagnostic investigations.

Key actions taken to ensure continued delivery of essential cancer services

- At the start of the pandemic, a telephone helpline for concerned cancer patients was introduced to provide advice and support. This helpline remains in place.
- A Single Cancer Pathway (SCP) Diagnostic Group with all the relevant service managers is in place to look at the capacity and demand for diagnostic services, looking at what capacity is required for a seven-day turnaround diagnostic service.
- A Rapid Diagnosis Clinic (RDC) was launched within the health board in October 2021. Currently one clinic per week is being held in Prince Philip Hospital. Plans are being looked at to roll this service out across all three counties.
- As per the Wales Bowel Cancer Initiative, a successful faecal immunochemical test (FIT10) screening in the management of urgent suspected cancer (USC) patients on a colorectal pathway was implemented in June 2020. This initiative is due to be rolled out to primary care by the endoscopy service in early 2022.

- Digital delivery of care was implemented during the first wave of the pandemic, resulting in two-thirds of patients receiving virtual appointments and only a third requiring face to face appointments.
- We have implemented a Cancer Pathway Review Panel.

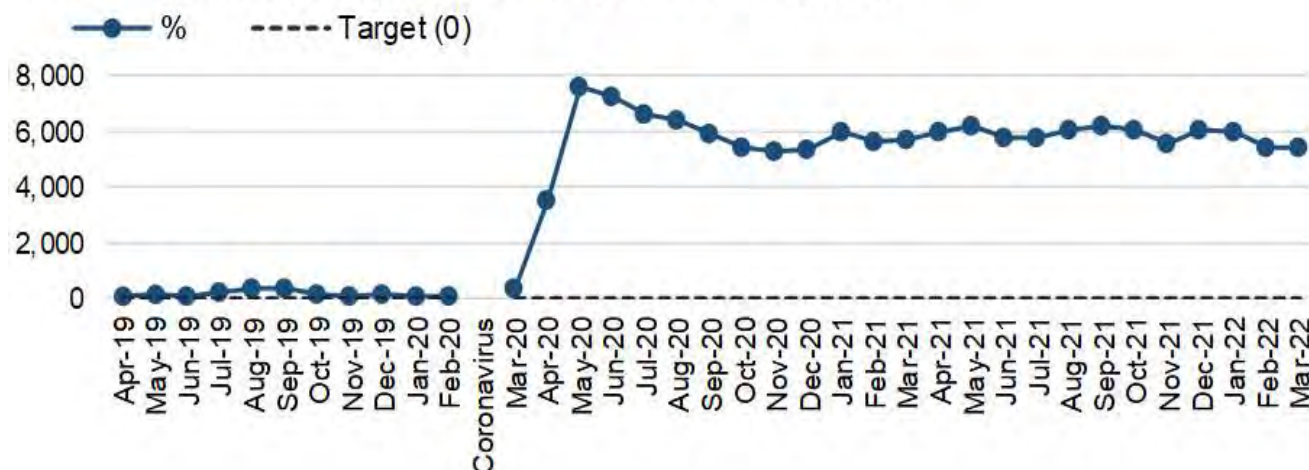

Diagnostics

The national diagnostic essential services guidance requires us to:

- minimise the risks associated with COVID-19.
- look for local flexible solutions to safely maximise capacity.
- provide timely imaging and diagnostic tests for eligible emergency (within 24 hours) and urgent (within 72 hours) diagnostics, such as major trauma, cancer, cardiac, gastroenterology and stroke patients.
- ensure patients have access to the necessary information to enable them to make an informed decision on whether to proceed with a planned diagnostic test and/or surgery.

In April 2021, there were 5,989 patients waiting over eight weeks for a specified diagnostic. The number of breaches has remained at a relatively consistent level over the last 12 months, in March 2022 there were 5,403 breaches. Waits for radiology, endoscopy and neurophysiology show the highest number of patients waiting across diagnostics services in Hywel Dda.

Patients waiting 8 weeks+ for a specified diagnostic

Impact on our patients

- The restrictions in capacity have limited endoscopy to being able to undertake priority one (P1) and priority two (P2) patients only. The P1 patients are all dated within the ten working days. P2 patients are currently waiting five months to be dated where the guidance is four weeks. Priorities three, four and surveillance patients are not currently being dated within the health board unless they are expedited due to changing symptoms. Where patients' symptoms change, they are given an urgent review and the endoscopy procedure is undertaken if deemed necessary. Work is continuing to validate the patients waiting and we are sending out letters explaining to patients what to do in the case of changing symptoms.

- Rapid recovery from the pandemic has been constrained within radiology due to staff shortages and continued absences related to COVID-19. Across the four main hospital radiology departments, additional sessions have been held where possible during evenings and weekends to create additional appointment slots which have been more convenient for some of our patients and has shown a reduction in the number of patients waiting eight weeks plus for a radiology diagnostic examination.
- Radiology has continued with equipment replacement which will ensure that equipment breakdowns are minimised, and the latest technology is utilised within our departments leading to improved performance.
- Longer waits for cardiac diagnostics has resulted in delays in clinical diagnosis and a longer than typical/desired whole pathway for patients. This will have also had the associated consequence of patients re-presenting with symptoms at primary care, accident and emergency and acute hospital admission.
- COVID-19 backlog and recovery work has involved the outsourcing a proportion of cardiac computerised tomography (CCT) and cardiac magnetic resonance imaging (MRI) activity to St Joseph's Hospital, Newport which has required patients to travel further for this diagnostic. Despite this, feedback from a patient experience perspective has been positive and complimentary.
- There has been an increase in the number of patients contacting the cardiology service with concerns and anxiety related to delays in diagnostics.

Key issues and risks

As seen in the chart above, the COVID-19 pandemic continues to significantly impact on our performance for the delivery of diagnostic services:

- Capacity has significantly reduced due to the required infection control measures and reduction in services during the Omicron variant.
- Staffing shortages due to COVID-19 isolation and vacancies have affected our capacity to address backlogs and reduce waiting times.
- Continued capacity pressures, equipment failure and COVID-19 precautions are all potential risks that could impact our ability to meet target.
- There has been a sustained increase in cardiology referrals during 2021/22 due to COVID-19 backlog and recovery, as well as the cardiology follow-up recovery initiative.
- Trans-oesophageal Echocardiogram (ECHO) or dobutamine stress ECHO test capacity has been recovered to near pre-COVID-19 level during 2021/22.

Key actions taken to ensure continued delivery of essential diagnostic services

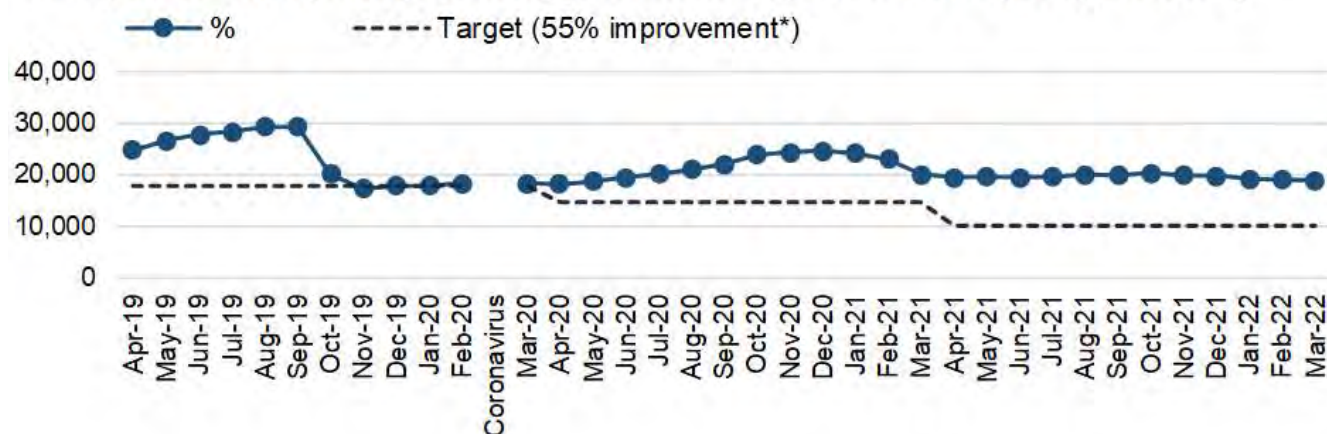

- Continuous demand and capacity optimisation, investigation of outsourcing options, clinical validation and recruitment and revising pathways to meet changing needs throughout the year.
- Maintained services for urgent and suspected cancer work.
- Linked with colleagues across Wales for a review of the overall picture and possible solution to assist with post COVID-19 recovery.
- Waiting list validation and robust triage of referrals.

- Six-day working established at Glangwili Hospital to maintain social distancing and increase the number of cardiology diagnostic tests undertaken.
- Some cardiology services were moved off-site to facilitate social distancing.
- COVID-19 recovery funded outsourced capacity for computerised tomography coronary angiography (CTCA) and cardiac MRI at St Joseph's Hospital, Newport during 2021/22.
- COVID-19 recovery funded enhanced and double-time rate payment to internal staff has assisted in addressing ECHO and cardiac monitor capacity shortfalls during 2021/22.
- Cardiac physiology demand and capacity exercise has identified historic and chronic workforce deficit which will continue to drive challenges in undertaking timely cardiac diagnostics.
- Cardiac physiology workforce deficits are identified as a key service risk and investment need in 2022/25 Integrated Medium Term Plan (IMTP).
- A capsule endoscopy service was introduced in 2022 to further reduce demand for scoping capacity.
- Screens continue to be used in our endoscopy waiting and recovery areas to help increase capacity safely. A green pathway was established allowing endoscopy capacity to increase back to 87%.
- Additional lists in-house to be established to further reduce P2 waiting times.
- All priority one endoscopy patients were dated within two weeks.
- Faecal immunochemical tests continued in line with national programme guidelines.

Outpatients

In March 2022, 66,418 patients were waiting on a follow-up list and 18,941 (28.5%) were delayed by over 100% of their target date for a follow appointment, which is an improvement of 1,153 compared to March 2021.

Delayed follow up outpatient appointments by over 100% (all specialties)

* Targets: Baseline March 2019 (22,395). 2019/20 - 20% improvement from baseline. 2020/21 - 35% improvement from baseline. 2021/22 - 55% improvement from baseline

We have had to look at more flexible solutions to safely maximise capacity. These objectives align with the [three-year Welsh Government Outpatient Transformation Strategy](#). Examples of more flexible and innovative solutions include advances in digital platforms such as Attend Anywhere and Consultant Connect. Both applications have had a positive

effect on patients waiting for their appointment with 30% of all outpatient activity during 21/22 being undertaken virtually.

The service continues to roll out See on Symptoms (SOS) and Patient Initiated Follow-Up (PIFU) pathways for both new and follow-up patients. In 2021/22, 6,461 follow ups (3.9%) were allocated an outcome of either SOS/PIFU, which has reduced demand for follow-up appointments.

Impact on our patients

The national guidance for outpatient services during the COVID-19 pandemic has required us to minimise the risks associated with COVID-19 transmission for patients. This has been achieved by reducing the number of patients in each clinical session. Additionally, the outpatient nursing teams have continued to provide high standards of cleanliness in maintaining infection prevention and control measures across the four acute sites. COVID-19 screens have been purchased and installed across all sites. Feedback from patients on the screens has been very positive including how safe, protected, and reassured they feel when attending all outpatient departments.

Outpatient nursing teams have adjusted and strengthened throughout the pandemic and maintain a positive approach to new ways of working to ensure we provide the best patient-centric care. The nursing teams across the four sites are prepared for future challenges in relation to reset and recovery plans and continue to prioritise patient safety, quality, and patient experience for all. The teams have continued to achieve positive feedback from individual compliments, and via the Feel Good Friday initiative. The service also enjoys regular appraisal via Envoy. The nursing teams engage in projects to enhance patient care/service provision and the senior nurse is currently engaged in an EQliP (Enabling Quality Improvement in Practice) project to improve services for patients with sensory deficits.

Key issues and risks

The COVID-19 pandemic has resulted in reduced face-to-face capacity for outpatient appointments. This is primarily due to reduced staffing levels and infection control constraints. Throughput is less than before the pandemic due to these constraints.

Key actions taken to ensure continued delivery of essential outpatient services

- We have embraced and implemented new ways of working to increase outpatient capacity which includes undertaking virtual activity as an alternative to face-to-face.
- A virtual hub in Glangwili Hospital has been created so that medical staff have a dedicated area to undertake virtual appointments with patients.
- All patients waiting for either their first or follow-up appointment have been validated by internal or external validators to ensure appointments are kept for those who need it most and unnecessary referrals or appointments are removed. Validation is targeted at those follow-ups delayed by over 100%.
- Face-to-face contact has continued where necessary for urgent patients.
- Building on the success of our patient waiting list support team, we are working to establish a single point of contact for patients to enable timely responses and advice.

- Continued use of SOS and PIFU pathways in two ways as part of validation and after a patient has had a follow-up appointment.
- Innovative transformation pathways are being developed utilising the Welsh Government Outpatient Department (OPD) transformation fund. These include:
 - maximising optometry services in primary care for a number of eye conditions;
 - developing pre-habilitation programmes for patients waiting a long time for treatment;
 - developing virtual group consultations with a dedicated co-ordinator.

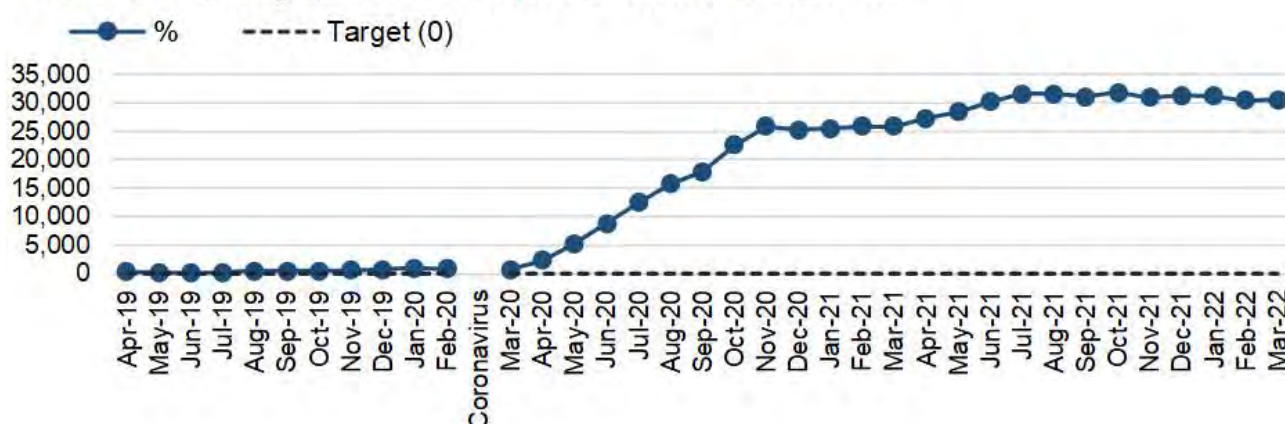

Managing our waiting lists and identifying those at higher clinical risk or harm

During the COVID-19 pandemic, the national guidance for planned care services requires us to:

- ensure patients have access to the necessary information to enable them to make an informed decision on whether to proceed with surgery;
- look for local flexible solutions to safely maximise capacity;
- minimise the risks associated with COVID-19;
- risk assess patients and prioritise accordingly so those at higher clinical risk or risk of harm are treated first.

While we have been working hard to steadily increase capacity to see and treat patients where possible in 2021/22, the pandemic has continued to impact upon planned care activity while we adhere to related government restrictions to keep us safe. There has been additional impact during the various waves of COVID-19 cases throughout the period, where planned care activity had to be scaled back with only emergency and urgent cancer care continuing. As a result, the number of patients waiting 36 weeks or more from referral to treatment (all stages) increased from 25,868 in March 2021 to 30,542 in March 2022. However, performance in 2021/22 has steadied when compared to the impact on performance during the first year of the pandemic.

Patients waiting 36 weeks+ from referral to treatment

Impact on our patients

We are working hard to minimise the impact the pandemic has had on our patients.

- Urgent and emergency care pressures have continued to impact upon elective bed capacity; however, the health board will benefit in the new financial year with protected areas at Prince Philip, Withybush and Bronglais hospitals. This, along with the investment and development of the demountable unit at Prince Philip Hospital, will increase day surgery capacity for the health board and access to treatment for patients.
- We are actively working with experienced focus teams via Waiting List Support Services (WLSS) to both contact and support our long waiting patients. This includes developing rehabilitation and pre-habilitation programmes to both aid stability while waiting an optimal health pre-surgery. This service is working alongside operational teams to gain valuable patient feedback whilst also utilising positive feedback via our Patient Advice and Liaison Service (PALS) and communications teams. Supportive resources are provided for people awaiting surgery. This information can be found on our website (<https://hduhb.nhs.wales/healthcare/covid-19-information/>) by selecting 'restarting services' or 'preparing for treatment'.
- Patients who have accessed external services through the outsourcing route have been communicated with and patient experience data has been collected. Regular patient experience reports are received from our outsource partners, with feedback from patients generally very positive.
- The planned care directorate have a robust governance process where all incidents, reviews and safeguarding are discussed, action plans developed, and teams are encouraged to work collaboratively to improve processes to give the highest quality patient care.

Key issues and risks

- Capacity in clinics and theatres continues to be reduced when compared to pre-pandemic levels; this is primarily due to social distancing and stringent infection control measures to keep us safe. This is constantly reviewed in line with national guidance.
- Exceptional levels of pressure continue to impact; predominantly upon activity levels, staffing levels through sickness and self-isolation, and the requirement to maintain adequate flow within acute sites to treat both COVID-19 and non-COVID-19 patients.
- Temporary pauses to planned operations have been necessary during 2021/22. This has added to the backlogs and put pressure on recovery plans.
- Significant pressures have been felt in the private sector, limiting our ability to outsource planned care activity. However, extensive work has been undertaken to increase outsourced activity throughout the year wherever possible.
- The need to prevent patients having major surgery while they have COVID-19 except for life, limb, or sight-saving procedures, as their outcomes are likely to be poor.
- There is still public concern about attending acute hospitals. To allay this apprehension, the current Welsh Government advice is that appropriate face coverings are worn in all healthcare settings. This continues to be endorsed within the health board.
- There continues to be significant risk regarding staff vacancies to ensure safe staffing levels to support planned operations. Operational teams work with the medical and nursing workforce teams to remedy this.

In line with national guidelines, our clinical staff are working to risk assess every patient waiting for an inpatient or day case procedure. As of 31 March 2022, we had risk assessed

76% of patients on the waiting list, of which 6% (1,035 patients) were assessed as needing their operation within four weeks due to clinical need or a risk of harm. The breakdown by specialty is included below.

Patients who have had their outpatient and/or diagnostic appointments and are now waiting for an inpatient or day case procedure as of 31 March 2022.

Specialty	P1* Operation needed within 72 hours	P2 Surgery can be delayed up to 4 weeks	P3 Surgery can be delayed up to 3 months	P4 Surgery can be delayed >3 months	Waiting to be risk assessed	Total patients waiting
Trauma & Orthopaedics		404	1727	3305	107	5543
Urology		297	448	886	1188	2819
Ophthalmology		37	394	1842	16	2289
General Surgery		102	220	922	620	1864
Gastroenterology		2	2		1158	1162
Gynaecology		82	312	499	117	1010
Colorectal		57	84	90	339	570
Pain Management			164	379	6	549

*P1 covers urgent cancer and emergency which is prioritised

Key actions taken to ensure continued delivery of essential planned care services

- We continue to plan our recovery. Planned surgery has continued at Bronglais Hospital, restarted at Prince Philip Hospital for orthopaedics, and Ward 9 in Withybush Hospital has reopened and started to treat patients. Cancer continues to be treated across all sites with a focused centre at Prince Philip Hospital. Specialty based cancer continues at Glangwili Hospital. Plans to reinstate further capacity during 2022/23 include:
 - repurposing Amman Valley Day Surgery Unit to deliver five days per week cataract surgery. This will involve the relocation of the age-related macular degeneration (AMD) service to the outpatients area;
 - a demountable unit at Prince Philip Hospital to provide additional day surgery access for the health board with an opening date of May 2022;
 - developing an enhanced care unit (PACU) at Prince Philip Hospital and Withybush Hospital to reduce critical care demand for elective patients.

- Where possible, patients are offered appointments/procedures in the private sector, with 6,849 appointments/procedures delivered in this way in 2021/22. Further outsourcing will be delivered in 2022/23.
- Virtual appointments are provided as an alternative to face-to-face appointments where possible to mitigate the reduction in outpatient capacity. A virtual hub has been established at Glangwili Hospital to facilitate virtual appointments, with others to follow in 2022/23. We are now urgently scoping returning outpatient activity to pre-pandemic levels using virtual and face-to-face appointments.
- The initial aim is to reduce the number of patients waiting over 104 weeks to zero by March 2023, as part of phase one of the ministerial measures to provide access to timely planned care.
- We have developed a revised post-COVID-19 watchtower planned care monitoring programme where we will monitor progress.
- We have implemented pre-assessment and screening pathways, including social isolation pre- and post-operatively with COVID-19 screens 72 hours pre-operation.
- Validation of all waiting lists has continued throughout the pandemic, both internally and through an external technical validation service.
- The health board has engaged with an external agency, Lightfoot, which has been working closely with key specialties on recovery plans. There is also an internal reset and recovery process, which is currently led operationally at watchtower. Key numerical messaging and lengths of time to recover is revised and reported to the executive team which will then inform the board.

Eye care

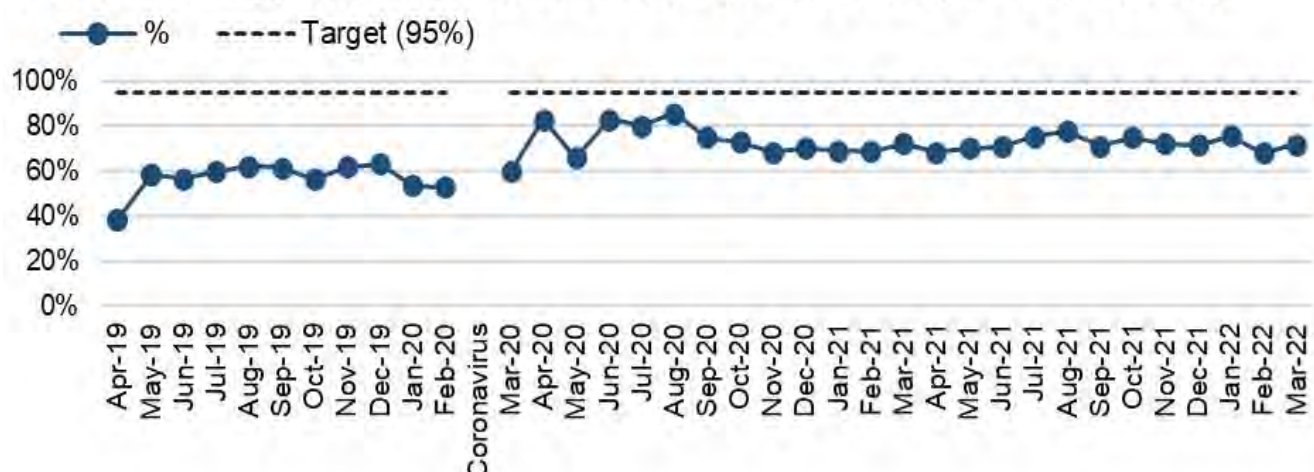

The national guidance for eye care services during the COVID-19 pandemic requires us to:

- ensure urgent patients are seen and reviewed as appropriate;
- ensure strategies are implemented that mitigate the loss of hospital-based ophthalmology outpatient capacity.

During 2021/22, the NHS delivery framework definition of this measure was revised from recording R1 patients (those at risk of irreversible harm or significant patient adverse outcome if the target date is missed) waiting within their clinical target date for care and treatment to R1 appointments attended within their clinical target date or 25% beyond their clinical target date.

This revised definition illustrates that since the onset of the pandemic, performance for R1 appointments attended improved when compared to pre-pandemic. This can be attributed to the severe lack of capacity available during the early stages of the pandemic, where only the very most urgent/emergency R1 patients were able to be seen. Following an initial improvement to near the 95% target, performance has steadied from September 2020 at lower levels following the re-opening of more general ophthalmology clinics.

R1 eye care appointments attended within target date (or <25% excess)

Impact on our patients

- Overall positive feedback has been received from patients seen in the independent sector for their operation as part of outsourcing arrangements. Feedback shows that patients are very grateful for having an appointment despite the current pressures being faced.
- The Eye Care Liaison Officer (ECLO) provides patient feedback directly to the service regarding patient experiences, both positive and negative, with ophthalmology services across the health board.
- As part of quarterly Eye Care Collaborative Group (ECCG) meetings, we can receive patient feedback through third sector organisations and we use this to inform service changes and improvements to ensure patients are satisfied with the care they receive.
- The service team is proactively meeting with patient groups, such as Wales Council of the Blind (WCB), to listen to experiences and feedback from patients and use this as a learning tool. This has been delayed during the pandemic, however, is due to restart during the first quarter of 2022/23.
- Audit and governance meetings (bimonthly) have recommenced, which provide tools for further learning.
- Following the independent review into eye care in Wales (Pyott report), an action plan has been developed and progress will be monitored through both the ECCG and ARCH (A Regional Collaboration for Health).
- During 2022/23, the service aims to establish a patient feedback mechanism that will allow for patient feedback to be shared in future reports.

Key issues and risks

The COVID-19 pandemic continues to impact on our performance for the delivery of essential eye care services:

- Due to the nature of examinations and tests required for ophthalmology appointments, the service is heavily reliant on face-to-face activity, which is still limited. Use of virtual appointments as an alternative is not suitable for the vast majority of ophthalmology patients.

- Routine surgery and face-to-face outpatient capacity continues to be reduced when compared to pre-pandemic levels. This is due to factors such as infection prevention and control measures restricting patient flow and staff shortages through sickness and periods of isolation.
- Reduction in availability of outsourcing for cataract appointments/procedures throughout the pandemic due to extreme levels of pressure in the independent sector.
- New patients experienced longer waits due to the combined impact of pandemic related restrictions, an increased backlog of patients created by the pandemic, lack of clinical space and a shortage of consultant ophthalmologists and experienced non-medical ophthalmic staff.

Key actions taken to ensure continued delivery of essential eye care services

Ophthalmology services have been reconfigured to meet essential urgent care where required:

- We have maintained treatments and reviews for imminently sight threatening or life-threatening conditions throughout the pandemic (prioritising those patients most at risk):
 - Every referral received is triaged and allocated a clinically determined health risk factor.
 - Glaucoma patients currently waiting are being re-prioritised by the clinical team to determine the level of risk on a case-by-case basis. These cases will fall into one of six new categories of R1 patients to ensure those most at risk are seen first.
 - Services continue to be provided 24-hours-a-day, via an on-call consultant rota for emergencies.
- The telephone triage of emergency eye casualties by a senior clinician has reduced attendance, with patients being managed via other routes, including independent prescribers in optometric practices.
- We are continuing to re-establish outpatient clinics and theatres across the health board where possible with the ambition to increase our internal capacity beyond the levels available pre-pandemic.
- We have recommenced ARCH workshops and we continue to work closely with Swansea Bay University Health Board (SBUHB) to develop a regional response and solutions for the short, mid and long term. This includes:
 - regional plans for the recovery of cataract surgery. This involves the repurpose of Amman Valley Hospital Day Surgery Unit for cataract surgery, relocating the AMD service to the outpatients area. This will provide five days per week cataract operating capacity;
 - South West Wales Glaucoma Service has commenced, supported by the SBUHB clinical lead. It will support the reduction in waits for glaucoma follow up appointments by developing a service within Hywel Dda on our acute sites and in community optometric practices.
- The intravitreal injection therapy service has continued for all patients throughout the pandemic, however, increased non-medical injectors and clinic space is required to meet the demand on the service, which is growing by 13% per year.
- Outsourcing arrangements to the independent sector began during 21/22 with 2,388 cases delivered to date.

- Where possible, virtual activity is delivered, including:
 - o virtual diabetic retinopathy clinics using Consultant Connect, which commenced in February 2022;
 - o a research study is underway allowing stable AMD patients to be followed up in optometric practices with virtual consultant oversight.

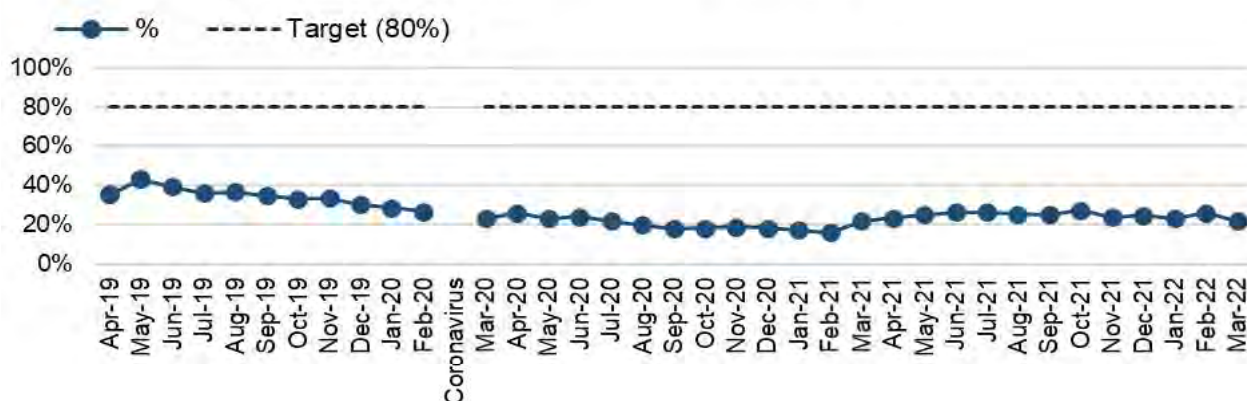

Mental health services

The national guidance for mental health services during the COVID-19 pandemic requires us to:

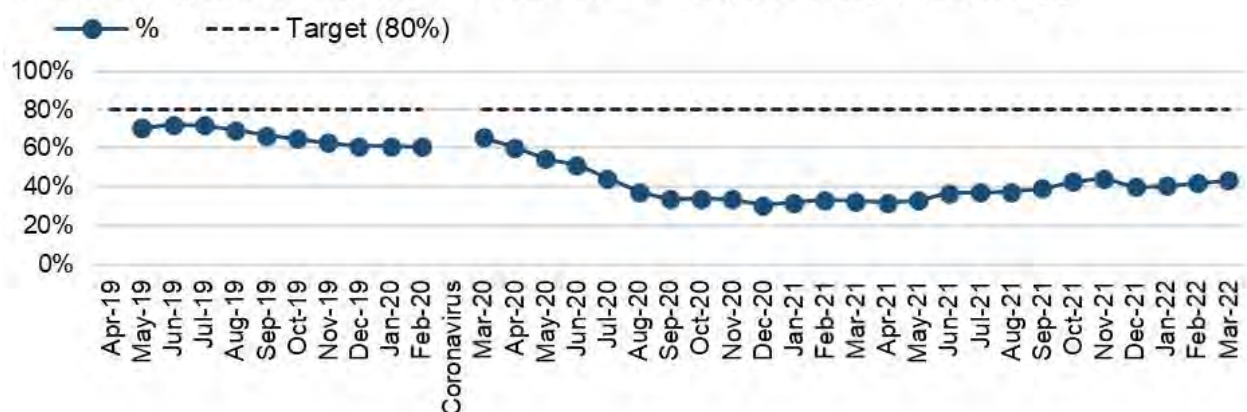

- continue to provide Mental Health Act (the Act) assessments, both in and out of hospitals;
- provide a range of mental health and learning disability inpatient care settings for both informal patients and patients detained under the Act. This includes medical, nursing and therapeutic interventions delivered by the multi-disciplinary team, to promote recovery and ensure patient safety;
- undertake mental health examinations in emergency departments or other general hospital settings following self-harm or where mental health problems may be indicated;
- provide the five functions of the Local Primary Mental Health Support Service assessment;
- work jointly across mental health and specialist eating disorders teams to deliver monitoring, support and treatment in community and home settings.

We did not meet the target throughout 2021/22 for children and young people requiring a neurodevelopmental assessment and adults waiting for a psychological therapy.

Children/young adults waiting less than 26 weeks for a neurodevelopment assessment

Adults waiting less than 26 weeks to start a psychological therapy*

Our Mental Health and Learning Disabilities Directorate has been working with local authority partners and the third sector to ensure that there is broad provision of services available at the point when they are required. To enable this, we have strengthened Tier 0 services so that our population can more readily get help and support and safeguard the more specialist services so that these are available at the point of need. We have continued to invest in and strengthen our out-of-hours services and liaison services again to enable more timely mental health input.

Impact on our patients

- In 2021/22 we have maintained visiting where reasonably practicable, the main constraint being where we have had COVID-19 outbreaks.
- All clients waiting over 26 weeks for an intervention receive a keeping in contact letter to reassure clients that they are important to us. Within this we provide signposting options for third sector help, SilverCloud online counselling service and links to the health board's website.
- To ensure regular and up-to-date feedback is received from service users and inpatients, the Mental Health and Learning Disabilities Directorate has launched its own QR code and feedback form to ascertain the patient's view of the service provided both in the inpatient areas and in the community.
- To ensure the directorate learns from all incidents within the directorate (not just serious incidents), a monthly governance report is compiled which outlines trends, themes, increases and decreases in self harm, falls, unexpected deaths, and suspected suicides. The governance report, alongside feedback from Her Majesty's coroners, is shared and circulated with all staff within the directorate. Over the last 12 months a discharge audit has been completed to ensure adequate discharge planning takes place from inpatient areas. The outcomes of this audit were positive with only a few action points required to be addressed.
- A suicide prevention officer has been appointed to ensure that guidance and themes from the National Confidential Inquiry into Suicide and Safety (NCISH) is shared widely and staff are aware of a changing picture of needs within mental health services. This information is also available to all staff via the Quality Assurance and Professional Development (QAPD) SharePoint site.

- Incident investigations that are completed under 'Putting Things Right' guidance are shared widely with the teams involved in the patient care and on the finalisation of the internal review. All staff are made aware of the recommendations and improvement plans are completed and operational services lead on the implementation of the actions.

Key issues and risks

The COVID-19 pandemic has impacted on our performance for the delivery of essential mental health services:

- We have witnessed social impacts of the pandemic have an impact on people emotionally, presenting as anxiety or depression, or as practical unmet needs, rather than as mental health conditions which require diagnosis and treatment. This has been evident in the increased acuity of patients being seen. We therefore expect that people will need more Tier 0 / Tier 1 type of support.
- We are working with the all-Wales network of COVID-19 Mental Health and Learning Disabilities Directors and Welsh Government leads to look at ways of strengthening the availability of Tier 0 services as there is a recognition that the pandemic will have a far-reaching impact on people's resilience and mental well-being. We have also been working with local authority and third sector colleagues locally to strengthen Tier 0 provision. These services must be robust so that secondary mental health services can be safeguarded to meet the potential increase in demand, due to the pandemic, in a way that allows those who require access to do so in a timely manner.
- Staff vacancies across the directorate, with 17% of all posts currently vacant. This includes professional and administrative roles. Additionally, there can be difficulty retaining staff, worsened by a national shortage of registered mental health practitioners.
- Accommodation pressures across the directorate are impacting upon capacity, both in terms of providing appointments as well as providing workspace for clinical and administrative staff. Increased year on year additional funding from Welsh Government to further develop and enhance services has worsened this situation.
- Use of digital platforms have been accelerated throughout the year to provide virtual opportunities where appropriate. There continue to be challenges sourcing appropriate equipment to extend the use of this facility.
- Staff sickness rates in mental health services are above health board averages, although have been in line with other mental health services in Wales.
- We continue to receive a steady volume of autistic spectrum disorders (ASD) and attention deficit hyperactivity disorder (ADHD) referrals which require diagnostic assessments. The team numbers are small and require suitably trained staff; this means that service provision is highly sensitive to vacancies and absences.
- Higher patient 'did not attend' (DNA) rates experienced in mental health services than the health board average.

Key actions taken to ensure continued delivery of essential mental health services

- After the first wave of the pandemic, due to competing priorities, work to develop a mental health and learning disabilities single point of contact had halted. We are now working to implement the mental health 111 service which will be 24/7.

- A core principle of our vision was the development of 24/7 community services across the three counties. We began piloting the integration of community mental health teams to deliver a 24/7 drop-in service in Ceredigion before the pandemic. During the pandemic, we built on this by co-locating and integrating our crisis resolution home treatment teams and community mental health teams to provide seven day a week mental health services.
- Third sector commissioned services have adapted throughout the pandemic to offer telephone/online services on a three-county basis where possible. They continually update local directories of services.
- We are working with partners, including the third sector, to provide out-of-hours sanctuaries and pilot hospitality bed provisions, providing places of safety for people in mental distress who are detained by the police under Section 136 of the Mental Health Act.
- The above developments have enabled an accelerated delivery of our strategy in line with the delivery of our transforming mental health programme.
- Work is ongoing to scope options for filling our vacancies. We are exploring other types of roles to backfill areas of deficit – however, certain statutory duties may only be undertaken by medics, in line with the Mental Health Act and Mental Health Measure. Additionally:
 - a recruitment campaign is underway in disciplines including medical and psychology;
 - use of bank, agency and locum staff wherever possible to backfill vacancies and sickness.
- Seven-day-a-week working is in place in a number of areas.
- The directorate is prioritising the repurpose and reuse of accommodation across the health board to increase capacity.
- Opportunities to provide additional capacity within the independent sector are continually explored, with child and adolescent ASD looking to commence some appointments with an independent provider in the new financial year.
- Use of virtual platforms to deliver more capacity as an alternative to face-to-face where possible.
- Implementation of therapeutic groups has been scoped and will be piloted.
- Development and integration of the Welsh Patient Administration System (WPAS) into the whole of the directorate will assist with monitoring waiting lists and demand and capacity planning. WPAS is being rolled out in a phased approach.

Dignified care

The past year has been challenging with the ongoing demands from the pandemic and maintaining the provision of dignified care to all our patients has been a priority for all staff. Due to the second wave of COVID-19 (27 July 2020 to 16 May 2021) our services experienced extreme pressure which impacted on our population and inpatient services. A similar position was experienced during the third wave (17 May 2021 to 19 December 2021) and during the peak of Omicron, which impacted on our population and inpatient services. Primary care and community services maintained regular clinical reviews for our patients, which included, where appropriate, end-of-life-care plans for COVID-19 patients.

There are representatives from our clinical teams on the National Dementia Hospital Charter which will be launched in April 2022 following which there will be workstreams set up to support implementation of the charter and will be a priority for the coming year.

We continue to work in partnership, including with local authorities and third sector, to support those with sensory loss, in line with the All-Wales Standards for Accessible Communication and Information for People with Sensory Loss. We strive to ensure those patients who have sensory loss receive accessible services and information, with the provision of information in alternative formats and access to interpreters if needed. Staff have received training on sensory loss during the year, including sessions on British Sign Language. Information on the ways in which staff can support service users, including pre-arranging interpreters, using digital interpretation and telephone options, using communication aids, and providing information in accessible formats are set out in the recently updated Interpretation and Translation Policy.

In line with all health boards across Wales we are undertaking a review of hospital acquired COVID-19 infections to ensure that there is learning and improvements within the health board. The review methodology includes consideration of the findings of the mortality review undertaken, the clinical decisions made such as end of life care planning and the management of each outbreak. The learning will be presented on a thematic review basis by hospital site.

Within mental health and learning disabilities services measures were put in place to maintain patients' dignity during COVID-19 restrictions. During this difficult time mental health ward staff responded by facilitating 'virtual visits' using electronic devices such as iPads and laptops to provide contact with patients' loved ones. Patients also made use of the RITA systems on a regular basis. Patients who were hard of hearing used an amplified hearing device provided by the wards to a good effect so that they could communicate effectively; speakers for these devices were also provided by the health board. It was plainly apparent that both patients and families felt reassured following the virtual contact. Relatives were also encouraged to continue to bring treats for their loved ones enjoy on the wards. They also brought other property to the wards with the continued support and guidance from the health board's Infection Control Team.

Clinical reviews were also carried out on a regular basis. These were either face-to-face or virtual consultations throughout all the restrictions; in addition, staff updated each family/carer by telephone on a weekly basis. It was distressing for families and carers not to be able to have face-to face contact with their loved ones, so staff provided emotional support and compassion for families, particularly for spouses. The older adults mental health wards' Twitter account was used to show the therapeutic activities carried out on the ward, obviously always adhering to confidentiality and ensuring the patients' dignity was upheld. Relatives were informed about this and were encouraged to look at the account for reassurance.

Due to the restrictions that were implemented because of COVID-19 pandemic, patients in clinical areas were unable to see their relatives face-to-face because of the high risk of infection. After advice from Infection Control Team and following strict PPE protocols, measures were introduced to support those patients whose mental state was compromised

by lack of contact with family. For example, some patients' nutritional intake was reduced by the stress and distress caused by the separation from their loved ones. These patients' relatives were then afforded private visits in such a way to reduce the chance of introducing any infections on the wards. The effect of this face-to-face contact made discernible improvements to the patients' well-being and mental state, at the same time as maintaining dignity and a high level of person-centred care.

Putting things right

Putting things right

As a health board, we manage concerns in accordance with The National Health Service (Concerns, Complaints and Redress Arrangements) (Wales) Regulations 2011. [Read more here about 'Putting Things Right: Raising your concerns about the NHS'](#)

The aim of 'Putting Things Right' is to have a single and supportive process for people to raise concerns, and to provide an effective and timely response based on the principles of openness and honesty. Learning from concerns is an essential part of this process. Further information on what we have done in response to the feedback we have received and the outcomes of investigations into concerns is explained below.

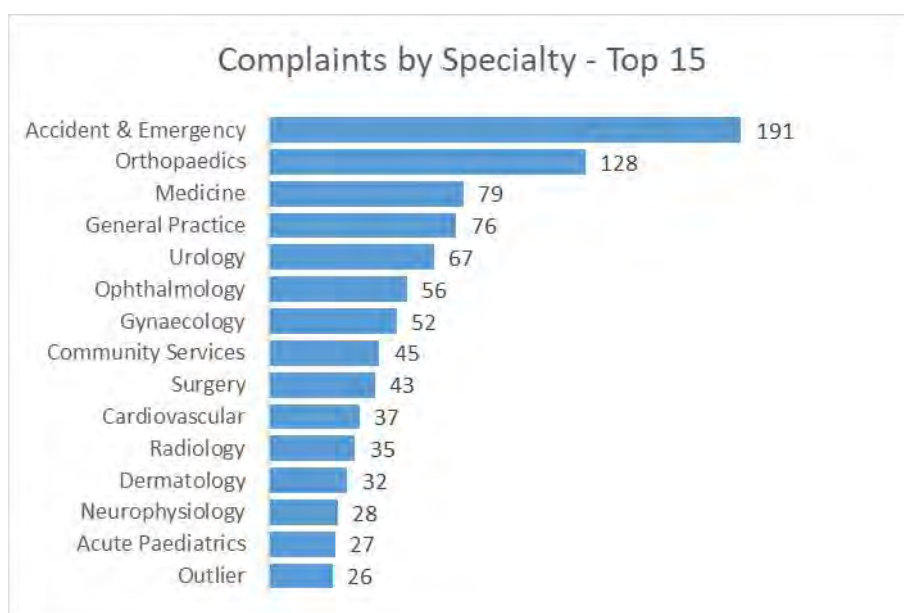

Concerns (complaints)

During the period 1 April 2021 to 31 March 2022, we received 2,244 concerns (complaints) which were managed in accordance with the Putting Things Right regulations.

We are fully committed to resolving complaints in a timely way and most of our concerns can be managed within 30 working days.

When this is not possible (such as when complaints involve multiple agencies, or when a complaint is about a very serious event), our aim is to resolve complex matters within six months. Improving the timeliness and outcomes of the concerns process is a priority for us to ensure any remedial actions can be addressed as quickly as possible. During the year, we responded to 62% of concerns received, within 30 working days. Of those exceeding this target 26% were responded to within six months and 12% exceeded six months. Meanwhile, 20 of these concerns were referred to the NHS Redress Scheme.

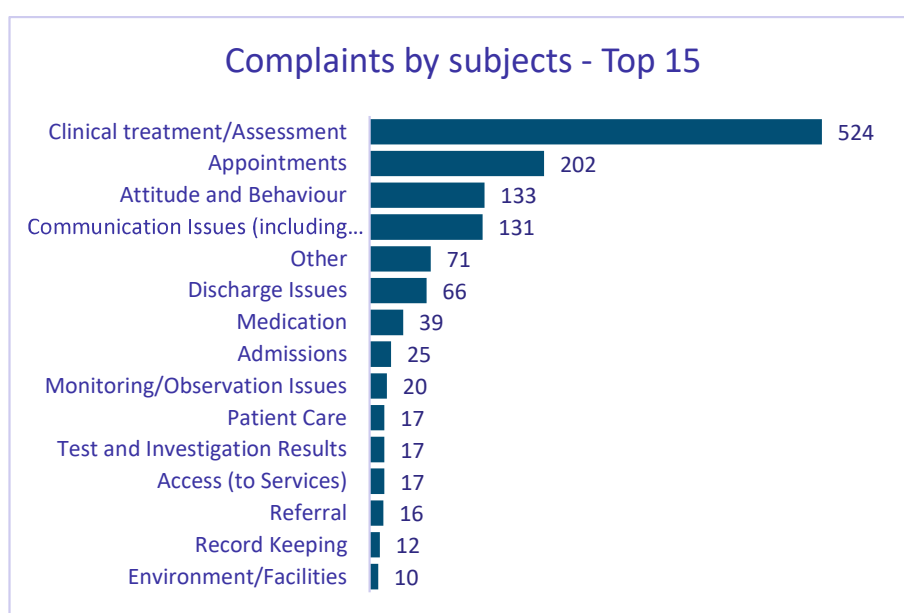

The number of complaints by specialty is set out below:

The specialties receiving the highest number of concerns were our A&E departments, medicine, general practice and orthopaedic services. These numbers must be taken in the context of the high volume of patient activity and contacts in these areas as well as the additional pressures the services experienced because of the COVID-19 pandemic.

For general practice, there are currently 49 practices (four of which are health board managed practices). The number above represents the total number of concerns received across general practice.

The main reason people raise complaints is because of clinical treatment and assessment, appointment waiting times, attitude and behaviour and communication issues. The table below shows the top 15 themes of complaints.

During the year, many non-urgent services have been suspended, for patient safety reasons in line with Welsh Government guidance relating to the COVID-19 pandemic. This has understandably caused concern for our patients about waiting times and appointments. Communication was another cause for concern, particularly for families and loved ones who were unable to visit their relatives who were staying in our hospital wards. This was a challenging time for all concerned including our staff. Throughout the year we have tried to resume as full a range of services as possible, providing that patient and visitor safety could be maintained.

Public Services Ombudsman for Wales

During the period 2021/22 a total of 76 complaints were referred to the Public Services Ombudsman for Wales (PSOW). Of these, 37 resulted in an investigation, of which four settlement agreements were reached, one upheld, 10 partly upheld, two not upheld and 20 are ongoing.

Of the remaining 39, 30 were recorded as queries; comprising of 10 early resolutions, nine not investigated, four investigations commenced and seven awaiting further instruction. Nine complaints were rejected outright by the PSOW.

Of the complaints that resulted in an investigation, 11 of all complaints were relating to unscheduled care, a further 10 related to scheduled, nine were within primary care, five within women and children, and two within mental health and learning disabilities.

Core themes recorded within the findings of ombudsman reports relate to:

- Communication, including communications with patient, families, and other health boards;
- Delays, including delays in assessments, reviews and diagnostics;
- Records, including poor record keeping, inaccuracies, omissions and discrepancies;
- Complaint handling, including delays in completion of investigations, missed opportunities for reflective learning, failures to consider breach of duty.

Patient experience and learning from complaints

We are highly committed to improving patient experience through the feedback we receive, whether these are positive experiences, or instances where concerns and complaints are raised. When people tell us that their experience could have been better, we use this to direct our own learning and improvement as a health board.

Electronic methods of providing feedback, such as our Friends and Family Test, the online patient survey and The Big Thank You, as well as printed cards and ward surveys enable people to share their feedback, swiftly and easily, and provide us with valuable information to support continuous improvement.

We are currently implementing a new electronic patient experience system, which will be available across all our services, including community services.

Our board receives details of the feedback received from service users at each of its meetings and is informed of what is being done to improve patient experience. The patient experience reports, which include patient stories about a range of experiences can be found at <https://hduhb.nhs.wales/about-us/your-health-board/board-meetings-2022/>

Last year we told you about [our Improving Experience Charter](#) which sets out what our service users can expect when using our services. It sets out several pledges that we call 'always experiences'. We continue to implement the charter and reporting on progress through our improving experience board report.

Learning from feedback is an essential element to the management of concerns. Without feedback from our service users and our staff, we will not be able to continually improve services for patient safety.

The summary below shows some of the important feedback received and what we have done to make changes:

You said	We did
<p>You need us to keep working on communication. While pressures on the ward are recognised, the ability to get meaningful updates on the well-being of relatives and loved ones is important.</p>	<p>Last year, a new role – the Family Liaison Officer - was introduced onto wards and in some community facilities. The main purpose of the role during the pandemic was to support communication between patients, their families and ward staff, as well as enhancing patient experience. Owing to the positive feedback received by patients, this role is going to continue and will focus on enhancing patient and family experience in a hospital setting. This will be fully evaluated throughout the year as the role develops. We will also be delivering additional training to all staff on the importance of effective communication.</p>
<p>As a health board, we need to be better prepared to receive people with sensory impairments at our emergency departments and for outpatient appointments.</p>	<p>Reception and screening staff will be better prepared to receive people with sensory loss. Staff will be equipped with British Sign Language charts to help with communication, which have been translated into Welsh and issued across the health board.</p>
<p>After the opportunity to identify a diabetic patient was missed when attending a minor injuries unit, you said we need to ensure that staff are adequately trained and equipped to recognise diabetes in our younger patients.</p>	<p>We have equipped our minor injuries unit with a machine used to measure blood glucose measurements, and triage nurses have been asked to consider its use when young people present with certain symptoms. This has been supported with the use of online diabetic learning resources to support staff knowledge.</p>
<p>Having the opportunity to visit people in hospital when they are at the end of life can have a profound effect on the patient, their family, and our staff. We need to keep this at the forefront of our planning around visiting arrangements.</p>	<p>We have reviewed the arrangements for visiting end of life patients. Staff have been provided with training opportunities relevant to end of life care, and compliance is being monitored by senior nurses on the wards. We continue to reiterate the need for good communication with family members when they are facing the difficulty of losing a loved one.</p>
<p>While delays can be expected, the experience of waiting in A&E was made more difficult by the physical environment. Seating within</p>	<p>We have recognised the physical environment within A&E at Glangwili Hospital as a challenge and needing improvement. We have purchased new seating and screening to help improve the experience.</p>

waiting areas could be better, particularly in Glangwili Hospital.	
Staff in A&E need more training on mental health and learning disabilities.	All staff within the A&E Department are aware of the need for reasonable adjustments when assessing patients with mental health or learning disabilities. There is a teaching regime in place for our doctors working in the emergency departments, and there will be a wider training plan for nurses and health care support workers, so that they act as advocates and are equipped with the knowledge to support this specific patient group.

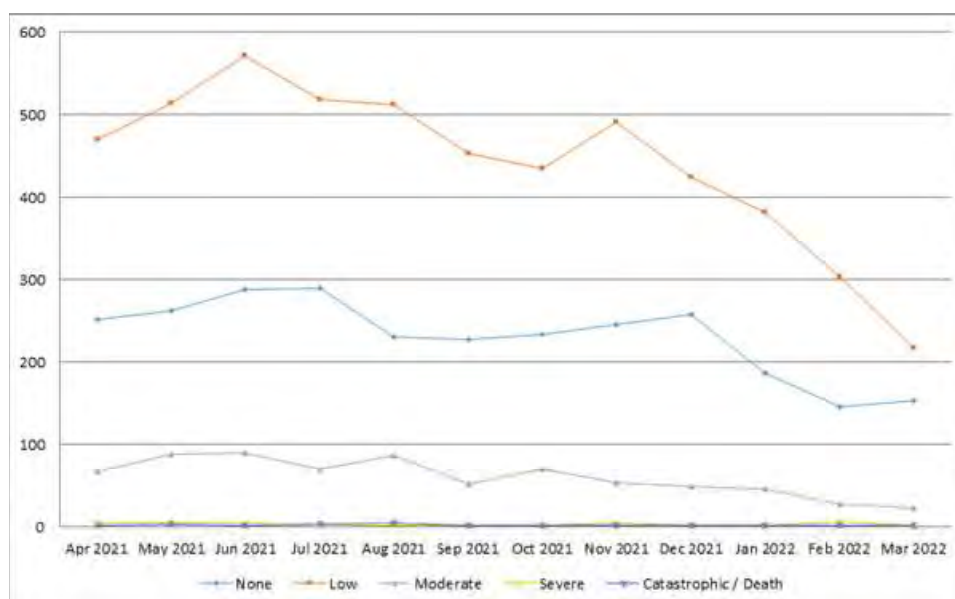

Concerns (incidents)

On 1 April 2021, we introduced the Once for Wales Concerns Management System, DatixCymru. The system is designed to specifically meet the needs of NHS Wales organisations and allows for a consistent approach across Wales for recording concerns. The health board was the first organisation in Wales to go live with DatixCymru.

During the period 1 April 2021 to 31 March 2022, 14,165 patient safety concerns (incidents) were reported.

The introduction of DatixCymru has altered the way in which severity of harm is recorded. The new system allows the reporter to give an initial indication of the harm to the person affected. Following investigation, the investigating officer confirms the level of harm (this is recorded separately, and the initial rating given on reporting is unchanged).

The run chart below shows the severity harm following investigation of the patient safety incident:

Of the 14,165 patient safety incidents reported, 7,173 have been investigated and closed. 3,254 incidents have had the severity amended; 2233 incidents were downgraded whilst 901 incidents were upgraded.

Pressure damage and moisture damage incidents continue to be the highest reported incident (3,178 pressure damage and 3,387 moisture damage incidents), followed by accident, injury and behaviour (including violence and aggression).

Of the 3,178 incidents reporting pressure damage, 1,696 were present before admission to the clinical area.

For each pressure damage incident a focused review is undertaken. In 43 cases, where the focused review has been completed, the pressure damage (which had developed or worsened during care) was deemed to be avoidable. Of these cases, 15 incidents are grade three, four or unstageable pressure damage.

Pressure damage incident scrutiny panels are held by heads of nursing with their teams. The panel consider the findings of the focused review, consider the wider learning, and approve the incident record for closure if appropriate.

The Quality Assurance and Safety Team and the Tissue Viability Nursing Team have introduced a corporate scrutiny panel to review and reduce the duplicate pressure damage incident reports and ensure consistency of grading of pressure damage in the incident report forms.

Quality improvement work is also underway to consider the appropriate management of incidents where pressure damage is reported as being present on admission. Most cases are not known to district nursing services or other health board services and it is these incidents where there may be potential learning.

Nosocomial COVID-19 infections

We are undertaking reviews of suspected nosocomial infections, in line with the all-Wales Protocol for the Review of Patient Hospital Onset COVID-19 Infections. On conclusion of the initial review using the all-Wales toolkit, and where it is assessed or suspected that an action or inaction has or is likely to have caused or contributed to the patient's unexpected or avoidable death, or caused or contributed to severe harm to the patient, a proportionate investigation is also undertaken in line with Putting Things Right. [Read further information regarding the learning from these reviews is provided to the Quality, Safety and Experience Committee.](#)

Nationally reportable incidents

A patient safety incident is nationally reported within seven working days from the occurrence, or point of knowledge, if it is assessed or suspected that an action or inaction in the course of a service user's treatment or care, in any healthcare setting, has, or is likely to have caused or contributed to their unexpected or avoidable death, or caused or contributed to severe harm. [Read further information about the requirement to report incidents to the NHS Wales Delivery Unit.](#)

Between 1 April 2021 and 31 March 2022, 24 reportable incidents were reported to the NHS Wales Delivery Unit.

	21/22 Q1	21/22 Q2	21/22 Q3	21/22 Q4	Total

Delivering in partnership

Delivering in partnership

A Healthier Mid and West Wales: Our Future Generations Living Well

Working
together to
be the best
we can be

We have a shared vision with our communities for us to live healthy, joyful lives.

We published our long-term health and care strategy, [A Healthier Mid and West Wales: Our Future Generations Living Well](#) in 2018. The strategy sets out our ambition to shift from a service that just treats illness to one that keeps people well, prevents ill-health or worsening of ill health, and provides help people need early on. We have taken significant steps towards our strategy during 2021/22.

Engagement with our communities and land selection process

Between May and June 2021, we held a six-week engagement exercise, called Building a Healthier Future after COVID-19, with staff, patients and their families, and the wider public. The purpose of this was to find out how the pandemic had affected people's health and care, and access to it, and to understand the implications of these experiences in relation to our health and care strategy.

[You can read the feedback report here:](#)

<https://www.haveyoursay.hduhb.wales.nhs.uk/building-a-healthier-future-after-covid-19>

This information is now being used to inform the delivery of our services.

An example of this is the process and land selection for a new hospital in the south of the Hywel Dda UHB area. In our engagement exercise, we asked people for nominations of possible sites between the zone of St Clears and Narberth; and also to tell us what was important to them in the selection of a site.

Some sites were suggested as part of the engagement exercise and there was significant feedback about the areas of importance in site selection. Common concerns were around the potential distance to the hospital for communities furthest away, public transport links, parking, the importance of attracting and retaining staff, and cost of a new hospital.

As a result of the engagement exercise, sites suggested by members of the public were assessed against criteria, including areas of importance to the public, as part of technical review of the 'long list' by the health board in October 2021.

As part of the next phase, and to ensure continued engagement from the public, we have invited groups and individuals across the three counties of Carmarthenshire, Ceredigion and Pembrokeshire, to submit an expression of interest to be part of the process to further assess and evaluate shortlisted sites. This will result in a recommendation on the best location for the new hospital to the health board later in 2022.

We are receiving support and advice on the process from the Consultation Institute - a not-for-profit, independent body, which provides guidance on best practice for engaging with communities.

Submission of programme business plan

Additionally, as part of business planning for programmes of this type in Wales, we submitted a Programme Business Case (PBC) to the Welsh Government in February 2022. [Read the full PBC here.](#)

This is the first, high level document, to try and secure Welsh Government endorsement for the programme and support the funding for more detailed work (outline business cases).

We hope this will eventually lead to Welsh Government investment of up to £1.3billion in the buildings and infrastructure we need to deliver our long-term strategy.

This is a long-term programme which will take more than a decade to deliver. For example, we expect the new urgent and planned care hospital will take until at least the end of 2029 to open.

We intend to continue regular engagement, and possibly consult on parts of the programme, with patients, public, staff, and partners during this process.

Partnership approach to health and care

The pandemic has demonstrated how communities can work together to support the most vulnerable. The pandemic has caused a decrease of personal resilience for some individuals as they have had very limited social opportunities. With support from the Welsh Government Transformation Fund (Programme 7), engagement with local communities to enable community resilience has continued.

We have an integrated management structure in Carmarthenshire which is jointly responsible for the planning, delivery and evaluation of care of our population. The regional Integrated Executive Group (IEG) membership includes directors of social services and health board executive directors. The IEG has been instrumental in directing integrated strategy to enhance integrated service provision for the population including discharge arrangements for our inpatient population. Risks and issues for urgent and emergency care are brought to the attention of the IEG to consideration and action as appropriate.

Cwtch service

The Cwtch service in Ceredigion delivers low level domiciliary care to prevent or delay the requirement for long term assessment and provision. Funded by the Integrated Care Fund and delivered by the British Red Cross, the service receives an average of 100 referrals per quarter with approximately a 50:50 split between support for hospital discharges and support to prevent hospital admissions; on average only one person per quarter is referred to the local authority for ongoing support following provision from Cwtch. The service delivers assistance and support for meal preparation and personal care; medication prompting; domestic tasks and shopping, but more importantly encourages confidence to maintain self-care.

Trial without catheter clinic

Building on the success of the community catheter clinic for patients, we developed a clinical pathway for a 'trial without catheter' (TWOC) for ambulatory patients in Pembrokeshire. With over 400 people with long-term indwelling catheters in

Pembrokeshire, a specialist, nurse-led community TWOC pilot clinic was introduced to help reduce waiting times. The impact of COVID-19 resulted in delays of between eight to 12 months to access a TWOC appointment (prior to the pandemic, the average wait for an appointment was six to eight months). Since the first clinic on in May 2021 in Tenby Cottage Hospital, nine new patients have attended clinic, four with successful outcomes. This new initiative will be adapted following lessons learned during its pilot phase so it can be rolled out across Ceredigion and Carmarthenshire. Initial feedback on the TWOC approach is extremely positive, with praise for the professionalism and knowledge of the clinical team, as well as the clinical environment and surroundings. The clinic is running extremely well and has been nominated for a Royal College of Nursing community award.

Advanced heart failure supportive care project (Bevan Commission) pilot

Following a pilot completed and evaluated at the end of March 2021, we have developed a successful collaboration bringing the heart failure palliative care multi-disciplinary team (comprising the heart failure clinical nurse specialist, occupational therapist, cardiologist and palliative care consultant) into normal working hours. This has created an opportunity to work more closely with the Paul Sartori Foundation, Shalom House and the wider palliative care support. The planned clinic-based approach with visiting third sector support did not materialise due to COVID-19 restrictions, so most have been seen at home or accommodated in the re-established face-to-face clinics.

Remote cardiac monitoring

We have introduced remote cardiac monitoring for people in Pembrokeshire who are able to undertake some physical measures at home. Providing blood pressure monitors helps patients to monitor themselves without needing face-to-face contact. This has led to the development of a telehealth system enabling patients who have heart failure and chronic obstructive pulmonary disease (COPD) to self-monitor their conditions, supported by a professional monitoring platform, before having a virtual or online appointment). Investment has also been made in other technology enabled care equipment specifically to deliver pre-habilitation for patients waiting for musculoskeletal surgery.

Palliative care respite

Working with Shalom in St Davids, Pembrokeshire, we supported the trial of three respite periods for people with a palliative diagnosis to support them and their families to continue to cope with their care at home. The trial ran between January and March for one period of four days each month, and the feedback from those attending and their families has been very positive.

Supporting social care and ensuring safe discharge

During 2020-21, each of our three counties have increased their intermediate care offer through Transformation Programme 3 funding. This includes collaborative interventions such as the recruitment of additional health and social care workers, increasing home-based care and reablement to support people to return or stay at home.

Working with and supporting nursing homes

We continue to work collaboratively as a system, with regular and effective joint care meetings with care home communications which have significantly reduced the risk care home patients being admitted into hospital.

A health board-wide Care Home Risk and Escalation Policy is in place and outlines our approach to supporting compromised care homes to ensure sustainability of care when faced with risk.

West Wales Regional Dementia Strategy

The West Wales Regional Partnership have co-produced [a dementia strategy](#) highlighting what matters to people living with dementia and their families. It outlines the priority areas needed to deliver this expressed need. A regional programme manager has been appointed to implement the strategy and its associated plan.

Palliative and End of Life Care Strategy

We have developed a robust strategy to ensure everyone at the end of life is able to access the specialist care and holistic support they need. The [Palliative and End of Life Care Strategy](#), approved by our board in March 2022, considers the estimates of palliative care need and sets out a sustainable workforce plan to meet these increasing needs. It sets out in detail the background to its development, a summary of the population needs analysis carried out, best practice, the service model pathway and the approach to and ambitions for implementing the service model.

Working with our partners on research opportunities

We established two exciting new partnerships with Aberystwyth University and the University of Wales Trinity Saint David (UWTSD) providing us with greater opportunities for education, research and innovation in transforming healthcare across Carmarthenshire, Ceredigion and Pembrokeshire. A new clinical research facility opened at Aberystwyth University as part of the new collaboration, offering a day-to-day focal point for staff to collaborate on education, research and innovation. UWTSD and the health board already work in collaboration on a number of initiatives and the new arrangement will enable greater opportunity for collaboration in relation to workforce development, research, enterprise and innovation, particularly post-COVID-19.

The developments are part of a Memorandum of Understanding (MoU) between the health board and each of the two universities, designed to transform healthcare and support the delivery of the health board's 'A Healthier Mid and West Wales' strategy.

Initiatives to improve the health and well-being of people in Wales are in progress thanks to a new collaboration between the health board and the Welsh Wound Innovation Centre. An MoU between the organisations will see innovative solutions being developed to promote opportunities across wound care technology research. The health board's role will be delivered by the Trittech Institute to provide specific services in innovative healthcare solutions.

Digital nursing documentation

Nursing staff within the health board were the first in Wales to go live with the new national Welsh Nursing Clinical Record (WNCR). The health board was also the first in Wales to implement the programme across the whole organisation.

The aim of the WNCR is to provide one standard set of digital nursing records to enhance the safety and effectiveness of care for the population of Wales irrespective of location, and improve patient, carer and staff experience. WNCR forms part of a national vision to ultimately have consistent information standards within all patient populations and healthcare settings across Wales.

Phase one of the WNCR project features the adult inpatient assessment, six core risk assessments, patient notes and discharge checklist. Nationally, Digital Health Care Wales, digital and specialist nursing leaders continue the application and data standards development. Within Hywel Dda, we have seen an extensive WNCR rollout across all adult inpatient wards and supporting departments in acute and community hospitals during the last 12 months, despite pressures from the ongoing pandemic.

Detailed project planning, recurrent Welsh Government funding and effective communication and training for teams prior to WNCR rollout have proved critical to the successful implementation. The WNCR project team have engaged and communicated regularly with corporate and operational nursing and multi-disciplinary teams. This engagement has extended to local universities to ensure that WNCR and informatics are integral to future nursing careers within pre-and post-registration nurse education.

The role of our Stakeholder Reference Group

The Stakeholder Reference Group (SRG) provides a forum for engagement and input among stakeholders from across the communities we serve. Its aim is to consider and reach a balanced stakeholder perspective to inform our decision making.

The group has membership from a wide range of stakeholders who have an interest in, and whose own role and activities may be impacted by health board decisions. Members include community partners, provider organisations, and special interest groups.

Four meetings of Hywel Dda SRG took place during 2021/22, which provided SRG members with opportunities to discuss, comment, and make recommendations to the health board on the following listed areas of work. This has ensured active involvement and direction from stakeholders in these key areas of health board business:

- Healthier West Wales Transformation Programme/Funding (Integrated Care Fund)
- Engagement/Engagement HQ
- Charter for Young People/Early Adopter
- Building a Healthier Future after COVID-19
- Regional Partnership Board Population Assessment and Public Services Boards Well-being Assessment
- Role and Remit of HDdUHB Ethics Panel
- Draft Integrated Medium Term Plan 2022/25 and the Planning Objectives for 2022/23
- Best Approach to Reflect the Populations 'Lived Experience' of the Health Board

- Draft Regional Dementia Strategy
- Community Development Outreach Team (CDOT)
- Improving Patient Experience/Improving Experience Charter (IEC)

Dyfed Powys Local Resilience Forum

Dyfed Powys Local Resilience Forum (LRF) is a multi-agency partnership made up of representatives from local public services, including the emergency services, local authorities, the NHS, the Environment Agency and others. These agencies are known as Category 1 Responders, as defined by the Civil Contingencies Act. The LRF is supported by other organisations, known as Category 2 responders, such as the Highways Agency and public utility companies. They have a responsibility to co-operate with Category 1 organisations and to share relevant information with the LRF. The geographical area the forum covers is based on Dyfed Powys Police area.

The LRF also works with other partners in the military and voluntary sectors who provide a valuable contribution to LRF work in emergency preparedness. The LRF aims to plan and prepare for localised incidents and catastrophic emergencies. It works to identify potential risks and produce emergency plans to either prevent or mitigate the impact of any incident on their local communities.

The Dyfed Powys LRF supported planning for an increase in deaths during the pandemic and co-ordinated the development of additional facilities during the peak of the pandemic to support existing NHS facilities and funeral director/crematoria sectors. As the excess deaths and hospital admissions reduced, then these additional facilities were stood down. Processes for reactivation if required in future are being detailed in updated pandemic response arrangements. A number of tactical and operational sub groups were also set up to support the regional response and facilitate requests from partner agencies.

Workforce management and well-being

Workforce management and well-being

Culture and workforce experience

We want every day in Hywel Dda University Health Board to be a good day in work'. We are on a culture change journey and our staff have set out for us the aspiration for the culture they want in Hywel Dda.

2021/22 saw a real period of listening to what is important to our staff to ensure the next steps we take on our journey are the right ones.

Our Discovery Report gave us the opportunity to understand our staff experiences through COVID-19 and we have shaped a framework for culture change through Our People Culture Plan. We co-created this with our trade unions and ensured it reflects what our staff say are important to them.

Putting people
at the heart
of everything
we do

Organisation development relationship managers

We recruited a team of new roles to help enable more good days at work across the health board. Our new organisation development relationship managers and assistant managers started to work with our leadership teams, staff and staff side, in developing new ways of working together to help us see things differently across our organisation. We began work in some key areas, based on risk and opportunity.

Staff well-being

Staff Psychological Well-being Service

The Staff Psychological Well-being Service continued to ensure easy and rapid access to resources and support for staff, teams, and managers. Provision evolved in response to changing circumstances and focused on maintaining rapid access, assuring the quality of well-being resources, managing the weight of well-being related messages to avoid overwhelm and finding ways to reach all our staff groups. Our staff psychological well-being intranet site launched in 2021, providing information and signposting to a range of guides, resources, and services to support the mental health and resilience of individuals and teams.

A number of initiatives covering a range of mental health topics were made available to staff, including a series of Well-being@Work Webinars, bespoke 'rest and recovery' sessions, and workshops covering the themes of well-being in nature. A new 'Spaces for Listening' Facilitators Network provides support and a safe learning environment for facilitators.

An innovative programme of Recovery in Nature: Ecotherapy Retreats for staff was funded by NHS Charities Together. This programme was designed for staff who are on sick leave, or at risk of sickness absence due to work related stress or burnout. We continue to support the green health agenda in Hywel Dda, contributing to the improvement of green spaces inside and out, with a focus on how the natural environment supports psychological well-being.

Access for staff to an online mindfulness training programme was funded with support offered by a mindfulness lead.

There was a steady increase in the number of staff accessing one-to-one psychological support service, with an increase in the level of distress and risk at first contact. Care pathways were clarified to ensure that an appropriate response, including signposting elsewhere when necessary. We have built and maintained our links with primary and secondary mental health service teams to expedite access for staff where needed. Access to the Employee Assistance Programme, Care First, continued with the majority of contacts being for one-off appointments. Evaluation remains a key aspect of service improvement and a range of measures are used including service user satisfaction surveys, clinical outcomes measures and longitudinal measures for specific programmes.

Support was provided to programmes such as the Nurse Preceptorship Programme and Medical Education Programme for Doctors continues, with a focus on sustaining mental health in challenging times.

There was an increase in the number of requests for team support around well-being at work and these are now discussed as part of the wider commissioning process to ensure a co-ordinated approach and the best use of resources.

Well-being Champions Network

In August 2021, we launched our Well-being Champions Network to provide a supportive forum for staff to share ideas and link up with services and other support that promote staff well-being. The aim of our champions is to:

- promote health and well-being within the workplace;
- publicise health and well-being initiatives, awareness days and calendar events;
- advise and direct staff to appropriate support services;
- share the needs of staff to help shape our staff health and well-being agenda.

125 staff registered to undertake the role and over 50 champions are already fully trained, with further sessions planned.

Occupational health

The Occupational Health Service introduced key performance indicators to measure demand and waiting times to deliver core activities. Data is now used to evaluate the effectiveness and efficiency of the service to support capacity planning so that peaks in activity can be managed.

The main priority for the service during 2020/21 was to ensure employees and managers had access to advice when they needed it. There was a sharp increase in demand for occupational health advice due to COVID-19 which created significant waiting times.

Reducing the waiting list, while continuing to provide an occupational health service which met the needs of employees, managers and the health board, was a significant challenge. We simplified the waiting list by prioritising and checking in with managers to confirm if appointments were still required, which proved to be an effective solution. The

Occupational Health Service continued to accept both self and manager referrals to ensure staff were given a choice on how to access.

The service worked closely with recruitment to ensure clearance times were reduced, optimising turnaround times to allow employees to start work. This relieved pressures related to vacancies.

Occupational health clinicians linked in regularly with the public health and infection control teams to ensure all COVID-19 advice was consistent and based upon the evidence available at the time. Managers were supported to manage risk to staff with underlying health conditions and/or with clinically extremely vulnerable status by the provision of individual occupational health advice. COVID-19 advice requests were prioritised on arrival to ensure advice was timely and attendance optimal wherever possible.

All Wales networking increased within occupational health, ensuring that occupational health staff were aware of all health and well-being support options available to staff as demand was high and waiting times increased accordingly. Networking via Health Education and Improvement Wales continued to share good practice and ensured equal availability of support services throughout Wales.

The All-Wales COVID-19 Risk Assessment Tool was used to assess the level of risk for staff in developing more serious symptoms throughout the year. No periods of shielding were advised in 2021/22; however, those who remained on the shielding list were advised to take extra precautions to keep themselves safe, as well as following latest guidance. Most staff who were shielding returned to work, either to their substantive role or redeployed to a different role where risk remain an issue.

The flu vaccination programme between September 2021 and 31 March 22 saw an uptake of 54% (6,880 staff) vaccinated against flu. Our organisation was the only health board or trust in Wales to increase the numbers of staff vaccinated against flu during this season.

Menopause cafes

Virtual menopause cafes were established in response to staff interest. Menopause cafes offer a safe environment for any staff to meet, chat, learn, share experiences and gain support on menopause related issues.

Reflection Book

During 2021, staff in the workforce and organisational development directorate produced a book of memories of their experiences moving into and supporting staff through the global pandemic. Individuals from the directorate contributed articles, messages, photos and poems which together created a keepsake of sentiments and memories of the united effort of the team during such a challenging and unique time.

Staff benefits

Following its relaunch in June 2021, we saw a significant increase in the number of staff signing up to our 'Hapi' benefits app, with just under 50% of the workforce benefiting. The relaunch was supported by a comprehensive communication strategy including developing posters, promoting at induction and organisational development events, social media posts

and including a signpost in staff email signatures. The improvements and continued evolution of 'Hapi' saw staff saving £3,500 in discounted high street vouchers alone. Looking ahead, we anticipate that 'Hapi' will become an important support mechanism putting benefits and well-being in one easily accessible app for staff.

Ensuring safe staffing levels

Recruitment activity in response to the pandemic continued into 2021/22, with staff appointed into COVID-19 specific positions since the start of the pandemic, including to support the mass vaccination programme and the Test Trace Protect service.

Our overall workforce increased by 213 whole time equivalent as of March 2022 and we appointed over 1,577 (1,303 whole time equivalent) staff through our continued recruitment efforts during 2021/22. This included many appointments to our contingent workforce supply of bank and fixed term contracts under our mass resourcing efforts for COVID-19.

It is the health board's strategic intent to support economic local recovery via the provision of permanent employment for our local population. Recognising that many individuals came forward to apply for roles that supported the work of the pandemic, we initiated a number of 'internal only' recruitment campaigns to recognise the commitment of those individuals, with security of permanent employment in the health sector.

Significant shifts in stabilising and developing our workforce in 2021/22 have been progressed, including our systems and approaches that support the wider health and social care workforce. We have:

- continued to develop our workforce intelligence to demonstrate and monitor the changes through performance dashboards;
- strengthened our approaches to workforce planning for the health and social care system developing forums and tools;
- invested in cultural change through a number of initiatives including organisational development relationship manager roles;
- continued to develop integrated partnership working with local authorities/social care, for example, shared staff induction programmes, integrated roles and piloted the 'bridging service' for domiciliary care options.

Identifying and training staff to undertake new roles

We have started to create new roles to support the ethos and concept of the 'team around the patient/family/child', such as the family liaison officer role. Key to our workforce strategy and development is to explore new support roles and to create a pipeline of future health and social care professionals. We have used the means available to us, through governance frameworks and training contracts, to develop new roles with extended and advanced skills. We have seen the success of this approach in the development and expansion of the [Apprenticeship Academy](#) and this will continue to evolve as we put in place new pilot development pathways, such as the therapy assistant practitioner.

In addition, we have supported a number of staff to access training and development opportunities, including:

- helping 268 staff to undertake Diploma/NVQ work-based courses supplied through either personal learning account funding, apprenticeships, or further education funding. Courses range from the Institute of Management qualifications, project management, cookery, and medical administration;
- securing funding to support 92 staff to undertake their Level 4 Higher Education Certificate in Health Care Studies through Swansea University. This qualification is aimed at growing our existing healthcare support workers so they can progress into assistant practitioner roles or progress to their nursing degree;
- supporting 202 staff to access our internal higher awards/study leave process to start or continue their study at a higher education level and undertake PhDs, higher education certificates and masters qualifications. In addition, staff have been given the opportunity to undertake bespoke training specific to their role, with 766 study leave applications approved to support staff training needs;
- supporting 82 non-registered allied healthcare professional staff to work towards various Level 3 Therapies qualifications as part of our internal Agored Training Centre. Assessors and quality assurance networks have been developed along with a robust internal quality assurance process. The last three virtual external quality assurance audits by Agored Cymru were positively received.

Level 4 therapies pilot

As part of the career pathway development for therapies staff, the health board is leading a pilot with Swansea Bay University Health Board, Health Education and Improvement Wales and University of Wales Trinity Saint David to deliver the first Level 4 in Therapies qualification in Wales. In 2021/22, 23 staff from our organisation signed up to complete the qualification. Service leads and subject matter experts supported development of the curriculum and a joint assessment process agreed. The first programme will be delivered over 18 months. There is interest across the rest of Wales to deliver the same programme.

Joint induction programme

Working in partnership with social care, the Clinical Education Team supported the development of a bespoke joint health and social care induction. This new induction is the first in Wales to deliver induction training jointly for care support workers from community care, care homes and domiciliary care, learning disabilities, mental health, and children's settings. The programme has demonstrated increased confidence and competence, improvements in practice and better care outcomes. 216 people across health and social care attended the programme and 134 people will undertake the All-Wales Induction Framework Qualification.

Partnership working across the health board and Carmarthenshire, Ceredigion and Pembrokeshire local authorities increased, with the appointment of the first integrated learning and development training advisor, the first step to increasing core care skills for all care support worker roles. [Read the evaluation report here.](#)

Clinical induction programme

A three-day bespoke clinical induction programme, during the mass recruitment programme, was attended by 476 staff. The Clinical Induction Team adapted the education and training programme to a blended approach consisting of three face-to-face days, and three virtual days. Several additional services undertook elements of the programme, including pharmacy, Delta Well-being, and the Welsh Ambulance Service NHS Trust. The first primary care staff member undertook the programme and evaluated well. Places will continue to be offered to primary care staff in 2022/23. The All-Wales Primary Care Group have sought evaluation and feedback to undertake a similar process across Wales.

Enhanced care unit

A training programme was developed with service, theatre staff, critical care staff, ward managers and specialist nurses in preparation for the opening of the enhanced care units in Prince Philip Hospital. A self-assessment and competency document was devised and offered to relevant staff.

Training and use of retired staff

During 2021/22, 132 individuals retired and returned to work for the health board. The health board is to be represented at the new All-Wales Task and Finish Group established to review the retire and return policy across Wales. A review of the health board's retirement policy is underway as we recognise that retention of staff considering retirement, albeit in reduced hours or alternative roles, is critical.

Role of employee/professional advisory groups

We continued to work closely with our staff-side and trade union partners throughout the pandemic and in relation to the recovery agenda. The Director of Workforce and Organisational Development met regularly with staff-side chairs from each county and these focused weekly meetings have continued with members of the workforce team and trade union partners.

Partnership Forum and Local Negotiation Committee meetings continued to be held on a remote basis. Frequently asked questions were regularly updated in conjunction with all Wales links and mechanisms remained in place to address staff concerns and deal with queries as they arose. Specific task and finish groups involving trade union partners were held throughout the year to implement pay enhancements and help with initiatives relating to carrying over annual leave.

BAME advisory group

The Black, Asian and Minority Ethnic (BAME) Advisory Group took forward a range of actions to address inequality for minority ethnic staff, covering a number of key themes:

- Raising awareness of diversity and inclusion
- Supporting our staff
- Reviewing our organisational data

- Strengthening management awareness, capacity and capability about diversity and inclusion issues.

As a step towards celebrating and understanding each other more, and to gain inspiration and strength from all our beliefs, the Advisory Group produced a calendar of religious festivals and events in 2021. The aim of the calendar was to support timetabling, work scheduling and event planning to help provide an inclusive environment, enabling participation from all our staff and visitors. The calendar was distributed to all staff and volunteers and highlights key diversity days, the main faith days observed and celebrated and awareness raising dates.

A wide range of dates were formally acknowledged and celebrated using social media and global emails to raise awareness amongst the staff and our population. In August 2021, a week-long programme of activities celebrated 20 years since the arrival of our first group of Filipino staff. In November 2021, to celebrate Diwali, staff helped to create a video which was shared on our health board's Twitter and Facebook accounts.

The BAME staff network was launched in September 2021. The network has over 70 members who are part of a Microsoft Teams channel which is used to share information and share opportunities with staff.

A key achievement of the Advisory Group was its success in raising awareness of the lived experiences of existing minority ethnic staff and ensuring that the concerns and lived experiences of members are acted upon. A Bullying and Harassment Task and Finish Group was created which led to regular meetings, allowing staff to discuss concerns regarding dignity at work, grievance procedures, exit interviews and many other issues experienced.

The Advisory Group also commissioned a review of BAME staff dismissals over a 10-year period to identify any indication of disproportionate impact on staff from minority ethnic groups. The report provided assurance that no evidence of disproportionate impact had been found, however, a number of recommendations were made to ensure that more positive action can be taken to support staff going through the disciplinary process.

We are proud that our progress and achievements have been recognised in this year's [National BAME Health and Care Awards](#). Eleven incredible finalists have been shortlisted in the categories for clinical champion (2), community initiative of the year (4), digital champion (1), inspiring diversity and inclusion lead (1), mental health initiative (1), outstanding achievement (1) and outstanding corporate achievement of the year (1). Winners will be announced on 9 June 2022.

Review of Covid-19 staff deaths

Sadly, the health board reported one staff death as a result of COVID-19. Guidance and support were provided to the family and work colleagues.

Future Workforce

Apprenticeship Academy 2021/2022

Following the success of the 2019 apprentice programme, the 2021 intake of 72 apprentices provided a greater scope of opportunities including digital services, patient experience, mechanical engineering, electrical engineering, plumbing, workforce development, corporate governance, and the healthcare apprentice programme.

The healthcare apprenticeship is one of the biggest programmes we currently offer, creating a career pathway to becoming an adult general nurse and supporting workforce shortages. A further 55 apprentices joined our clinical teams throughout the health board in September 2021. Our apprenticeship completion rates were consistently higher than the national average for Wales.

Apprentices support our future workforce and make a difference to the resilience of our workforce every day. During winter pressures 2021, our newest healthcare apprentices were given additional training, increased their competencies and were deployed to reinforce the testing and vaccination programme in our response to COVID-19.

Volunteers supporting mass vaccination centres

Mass vaccination centres were supported by 434 volunteers, and 277 remained deployed in March 2022.

We have been overwhelmed with the number of people who came forward to offer their support to one of the largest vaccination programmes in NHS history. While the pandemic brought with it many challenges, the vaccination programme, together with all the volunteers from varied walks of life, has been a heart-warming silver lining.

With the acceleration of the MVC programme in December 2021, we received another 292 enquiries about helping with the programme, which further demonstrated its popularity and true community spirit coming into its own.

New volunteer roles / volunteers moving into health board employment

A new suite of volunteering opportunities was developed during COVID-19, including field hospital volunteers, MVC programme volunteers and gardening. With agreement that volunteers could re-enter all areas post COVID-19 restrictions, with appropriate control measures, the interest in volunteering soared with greater interest than ever before. Many volunteers moved onto paid work within the health board and was the first step in the workforce for many, having gathered invaluable skills through volunteering.

University research pilot scheme

Our Future Workforce and Research, Innovation and Improvement departments, together with the University of Wales Trinity Saint David and Aberystwyth University, worked collaboratively on the development of an academic engagement programme during 2021/22. The programme aimed to provide work-based learning for students, related to their academic courses, developing their employability skills through engagement with the programme. It provided an opportunity to support student studies, informing their career

pathway, supporting their development in preparing for the field of work, and enhancing our partnership working with these universities.

We also developed a summer university engagement programme, as a four-week pilot in July and August 2021, in collaboration with University of Wales Trinity Saint David and Aberystwyth University. Applications were open to second and third year undergraduate or postgraduate students studying in west Wales.

Students were required to work virtually in multi-disciplinary groups looking at a particular health needs from different disciplinary perspectives. The four-week programme resulted in a presentation of findings to senior members of the health board, offering mentoring and training for skills required in the workplace.

Partnership working with local county voluntary councils

Throughout the year, we worked with our strategic partners in the local county voluntary councils (CVCs) across Carmarthenshire Association of Voluntary Services (CAVS), Ceredigion Association of Voluntary Organisations (CAVO) and Pembrokeshire Association of Voluntary Services (PAVS). All CVCs were instrumental in the success of the vaccination programme within Hywel Dda, ensuring that we had a constant supply of volunteers readily available to support. Within Pembrokeshire, we worked with PAVS to bring Volunteering Matters into Pembrokeshire Intermediate Voluntary Organisations Team (PIVOT) as part of that multi-agency approach to supporting people at the time of increased need.

Work experience

In 2021/22, 19 participants were placed following the reintroduction of Future Workforce work experience placements.

Traineeship programme: supporting into employment

We developed a traineeship programme, working with local training providers to expand our traineeship offer.

Careers Wales, schools and educational establishments

We worked with Careers Wales, schools, colleges, and further education providers throughout 2021/22 keeping them informed about developments and COVID-19 restrictions. We delivered several sessions to schools promoting our Future Workforce function and the health board was represented at the Careers Wales virtual high impact event in March 2022.

The well-being of our future generations

The well-being of our future generations

The Well-being of Future Generations (Wales) Act 2015 requires individual organisation actions, as well as collaborative working with Public Services Boards (PSBs) and wider partners.

The Act also sets out where change needs to happen within seven corporate functions of an organisation: corporate planning; workforce planning; performance management; financial planning; risk; assets, and procurement. These are the parts of the organisation that should be seeking to do things differently as they affect the rest of the organisation's services.

We refreshed our well-being objectives in November 2019 and have not made any changes to them as they continue to have strategic relevance to our vision and mission to become a population health focused organisation. Our well-being objectives align to more than one of the national well-being goals but broadly fall into four themes: environment and climate change; workforce planning and development; early intervention and prevention; collaboration, involvement and engagement. Our well-being objectives are to:

1. Plan and deliver services to increase our contribution to low carbon.
2. Develop a skilled and flexible workforce to meet the changing needs of the modern NHS.
3. Promote the natural environment and capacity to adapt to climate change.
4. Improve population health through prevention and early intervention, supporting people to live happy and healthy lives.
5. Offer a diverse range of employment opportunities which support people to fulfil their potential.
6. Contribute to global well-being through developing international networks and sharing of expertise.
7. Plan and deliver services to enable people to participate in social and green solutions for health. Encouraging community participation through the medium of Welsh.
8. Transform our communities through collaboration with people, communities, and partners.

During 2021/22 we have been working closely with our executive directors, linking our well-being objectives to the organisation's planning and strategic objectives and specific portfolios of work. Within this section of our Annual Report we have provided some examples of our how we have made progress to meet our well-being objectives through the lens of the five ways of working set out in the Act.

Integration

We continue to work with our partner organisations to find ways of accelerating partnership arrangements. For example, as part of the health board's commitment to reduce its carbon footprint and contribute towards the Welsh NHS aspirational target to be 'net zero' on emissions by 2030 a Transport and Sustainable Travel Group has been created. The group includes personnel from different departments in the health board such as finance,

The best health
and well-being
for our
communities

transport, estates, workforce and communications, as well as Knowles Fleet, an external vehicle provider for the health board. The purpose of this group is to develop projects and initiatives to help us tackle climate change and key activities have included promoting awareness and educating staff on the benefits of electric vehicles. As a result of this engagement campaign there has been a 227% increase in the number of electric vehicles secured or ordered by the health board in a six-month period. This brings the total number of electric vehicles across the whole health board fleet; including business use only, salary sacrifice and salary deduction lease car schemes to 128, with 66 fully electric vehicles currently in use, and 62 fully electric vehicles on order. This figure does not include hybrid electric vehicles, of which there are a total of 58 either in use or on order.

Involvement

During the year we have sought to engage with the public in a range of conversations including in the development of the Public Services Board (PSB) Assessment of Local Well-being. Each county had a separate well-being survey to find out what matters most for people and communities. Listening and understanding as well as analysing the feedback has been essential and using our knowledge of the languages used in our local communities the health board's Community Development Outreach Team was able to promote involvement from minority ethnic communities and provide access to surveys in Arabic, Polish and Romanian. This work has been essential to encouraging our diverse communities to have their voices heard.

The coronavirus pandemic has had a major impact on health and care services. As a result, the health board carried out an engagement exercise during the spring of 2021, to learn from the public about how the pandemic had affected their health and care, and access to healthcare services. The public were also asked for their feedback in relation to the health board's long-term strategy to develop and build a new hospital in the south of the Hywel Dda area and this represents our continued commitment to involvement and co-production.

Long term

Public bodies are facing the challenge of an ageing population and the impact that this has on our available workforce. The [Apprenticeship Academy scheme](#) is a key example of work we are doing to take a longer-term approach to contribute to '[A Prosperous Wales](#)'. It supports us to invest in local wealth building and contributes to our own well-being objective to offer a diverse range of employment opportunities which support people to reach their full potential. The structured programme is open to anyone aged 16 and above and offers a variety of learning experiences in the workplace, as well as offering the opportunity to attend college or a training centre to gain qualifications. Of the places offered for apprentices in the 2021 cohort, 63 apprentices are still participating in the programme.

This year a pilot initiative was undertaken to fund and support a member of nursing staff to complete a postgraduate degree (MSc Social Research Methods) on a full-time basis over a 12-month period. This initiative demonstrates the health board's commitment to developing the research capability and capacity of our nursing staff, investing in our workforce by enabling a staff nurse to take dedicated time away from clinical duties to undertake the Swansea University programme. This initiative establishes a route to support

nurses to pursue postgraduate studies and build an academic career route, while developing research knowledge and skills within the health board.

Prevention

The health board's health and care strategy - [A Healthier Mid and West Wales: Our future generations living well](#) – sets out a strategic vision for services that are safe, sustainable, accessible and kind for current future generations. The strategy is based on the implementation of an integrated social model of health and well-being which signals a shift from our current focus on hospital-based care and treatment towards a focus on prevention and building the resilience of people and communities.

We established a Community Development Outreach Team (CDOT) to engage with our minority ethnic communities and their work has played a key role in supporting those who were reluctant to engage with the health board's COVID-19 vaccination programme. They were a key member of the Vaccine Equity Group which was formed by the health board to improve information and access to COVID-19 vaccinations for those groups who often struggle to access healthcare services or who already suffer inequalities in health. The team have also facilitated access to information in an individual's first language if this is not Welsh or English. This has resulted in public health messages and information being translated into 17 different languages and demonstrates the cultural diversity within Hywel Dda.

Collaboration

Our partnership arrangements with PSBs created a variety of opportunities for collaboration. One example is the work which has been ongoing in Pembrokeshire. PSB partners have come together with businesses and local community organisations, with an ambition to develop a five-year climate adaptation strategy. This work is about coping with future changes to the climate in Pembrokeshire and is focused on the following:

- Climate adaptation which helps to minimise risks from changes resulting from past emission, including unpredictable severe weather; sea level rise; changes in natural systems that we rely on.
- Climate risks: multiple risks likely to arise from changes to our climate: which may impact on the local economy; natural environment; infrastructure; communities; people's well-being both now and in the future.
- Climate resilience: ensuring that the county can deal with the risks from climate change and be prepared for the future.

Our work has also included action within our corporate areas and services. We are cognisant that we are a large anchor institution for west Wales and we can effect positive change on the economy and in our communities, including their wider determinants of health. We have several planning objectives aligned to this work in key areas such as workforce, procurement and decarbonisation. To support the work within those areas, the health board has been working with external partners and Public Health Wales to develop a deprivation mapping tool which enables the user to layer different data sets on top of various publicly available deprivation indices (for example, Welsh Index of Multiple Deprivation) and locations of key services (for example, GPs and pharmacies). Our system

will also add in additional data sets such as our estate, procurement spend and recruitment information. We have just finalised the deprivation map and work will commence to consider how the tool can be best used.

The potential outcome for our communities through using this tool within the established workstreams could be significant. For example:

- Recruitment: Workforce are already working with communities to understand the barriers faced by individuals with regards to employment. A programme is being developed which supports those from our most deprived or marginalised communities to gain employment within the health board. The mapping tool can be used to support with the identification of key communities.
- Procurement: Procurement are already considering how we best incorporate social value into our procurement processes. The aim is to use the skills, capabilities, supply chain and recruitment potential of our suppliers to positively impact our communities. The mapping tool can be used to visually show our suppliers where the highest areas of need are.
- Environment: We have a significant estates programme within the health board and can use the mapping tool to consider the location of our estate alongside the deprivation information to inform future location and estate strategies.

This section of the Annual Report has provided an overview of some of our work to deliver the ambition of the Well-being of Future Generations Act. We also publish a separate Well-being Objectives Annual Report 2021-22 on our [website](#) that will provide more detail about our progress to meet our well-being objectives and evidence of our contribution to the national well-being goals.

[Read further information about our Well-being Statement and Objectives, the PSB Well-being Plans and our Well-being Objectives Annual Report here](#)

Embracing our Welsh language

CYMRU AEG

Welsh language

We want to be the first health board in Wales where both English and Welsh are treated with equal status (Health and Care Standards: Dignified Care). In this way, we will embrace the spirit of our Welsh language as well as comply with the Welsh Language Standards.

The Welsh Language Standards, effective from 30 May 2019, are a set of statutory requirements which clearly identify our responsibilities to provide excellent bilingual services. These can be accessed via the [Welsh Language Services section on our website](#).

Our organisation is passionate about the Welsh language and we are ambitious to achieve and go beyond our statutory duties. We recognise that delivery is not always consistent across our sites and teams. Our culture needs to evolve for us to deliver a seamless bilingual service to people who use our NHS and care services, and this is a long-term endeavour.

The Welsh language is one of the treasures of Wales. It is part of what defines us as people and as a nation. The health board aims to deliver a bilingual healthcare service to the public and facilitate staff to use the Welsh language naturally within the workplace. We aim to be an exemplar in this area, leading by example by promoting and facilitating increased use of Welsh by our own workforce. Whether a fluent speaker, a speaker lacking in confidence who wishes to improve their skills, or a new speaker, the workplace provides opportunities to use, practise and learn Welsh.

We will report our progress on targets set to achieve our ambitions and statutory obligations for the Welsh language in our annual Welsh Language report, which will be published on our [website](#).

Language skills of staff

The language skills of our staff, in accordance with Welsh Language Standards 116 and 117, are captured and recorded on the electronic staff record system (ESR). As of 31 March 2022 96% of staff have recorded their Welsh language skills as follows:

0 – No skills/Dim sgiliau – 3,935
1 – Entry/Mynediad – 2,632
2 – Foundation/Sylfaen – 992
3 – Intermediate/Canolradd – 857
4 – Higher/Uwch – 873
5 – Proficiency/Hyfedredd – 1,273
Not recorded on ESR – 430
Grand total – 10,992

Putting people
at the heart
of everything
we do

The number of new and vacant posts that were advertised during the year, recorded as per those where Welsh language skills were essential or desirable, and the number where Welsh needs to be learnt or where Welsh was not necessary, are reported below:

Total number of health board vacancies in 2021/2022 advertised as:	
Welsh language skills are essential	76
Welsh language skills are desirable	2855
Welsh language skills need to be learnt when appointed to the post	0
Welsh language skills are not necessary	26
Total number of vacancies advertised 01/04/2021 to 31/03/2022	2957

Welsh language related complaints

Two Welsh language service complaints were received by the health board during 2021/22. Both complaints were investigated by the Welsh Language Commissioner within the year.

Complaint 1: A complainant telephoned the health board's COVID-19 enquiries helpline (0300 303 8322) on various occasions over a period of six weeks and was unhappy with the lack of Welsh language services received. The health board reported on a series of action points from the Welsh Language Commissioner in March 2022.

Complaint 2: The second complaint related to one of the health board's mass vaccination centres. The complainant reported that after registering at the desk, and receiving a leaflet about the vaccine, they were directed to another desk to provide their contact details, along with other information. Following this, the complainant was given a form containing these details, which they allege was in English only. The health board is required to report on four action points from the Welsh Language Board by the end of April 2022.

Sustainability

Sustainability

While providing a separate sustainability report is not required as part of our 2021-22 Annual Report, the matter of sustainability remains a high priority for the organisation. Actions to ensure we work within and develop an improved sustainable environment are referred to below. The data used to provide the information has come from verified, invoiced data which is recorded and monitored via internal management systems.

*Waste Management

In 2021-22 the health board developed a waste strategy with targets to reduce 'total waste', increase recycling and divert waste from landfill in line with Government targets by 2030. A baseline year of 2018-19 has been used to reflect a 'normal' pre-COVID-19 year. Since the baseline year, we have increased recycling from 45% to 48% (prorated 2021-22). This has exceeded our waste strategy target to achieve 45% recycling by 2021-22. In 2021-22 the health board also rolled out source segregated recycling at Withybush Hospital and will continue to roll out source segregated recycling on the community and health centre sites in 2022-23. We expect this to increase recycling rates on a similar level to the increases seen from introducing source segregated recycling on the other acute sites (Bronglais and Prince Philip hospitals) in 2017/18 and 2018/19.

The total amount of waste recycled is now circa 750 tonnes. We managed to divert more landfill waste for recovery with an average of 50% of waste going to landfill in 2020-21 now being sent for recovery. This has exceeded our waste strategy target to recover 25% of waste being sent to landfill by 2022-23. These improvements have reduced the emissions produced from waste by circa 69% since the baseline year. There has been a small increase in overall waste costs primarily due to rate and landfill charge increases.

Warp It

In July 2018 we signed up to use Warp IT, an online furniture and equipment reuse platform. To date, over 1,122 staff have committed to reusing items no longer needed by others, avoiding waste disposal of nearly 63 tonnes, and preventing 226 tonnes of CO₂e emissions.

ISO 14001

Our Environmental Team has continued to maintain the Environmental Management System in line with the ISO 14001 standard, including the production of annual objectives and targets and presenting a management review of performance via formal committee. Following a surveillance visit in November 2021, we have successfully maintained the accreditation with no major or minor non-conformances raised.

*Utilities

The total predicted consumption of all utilities for 2021/22 is estimated to be 96,359,293 KWhrs producing 19,185 TCO₂. Actual consumption for 2020/21 was 96,737,462 KWhrs producing 19,640 TCO₂. Subject to national pressure and current market influences there has been a significant increase in utility costs that the health board continues to monitor and report upon.

Electricity, oil and biomass consumptions are all marginally higher than last year although these increases were all more than offset by a 4% decrease in gas consumption.

This lower gas consumption over 2021/22 can be attributed to generally milder weather over the year. Electricity consumption was slightly higher (4%) than the previous year mainly due to the additional load at Glangwili Hospital attributed to the new women's and children's unit, and staff across the health board returning to work from COVID-19 home working. Increase in oil and biomass consumption can also be attributed to the commissioning and running of the new women's and children's unit at Glangwili Hospital. Combined heat and power (CHP) use was similar to the previous year with only a marginal increase of around 3%. The health board established a 10-year energy performance contract with Centrica in 2014/15 to deliver guaranteed financial and carbon savings. The energy performance contract (EPC) is anticipated to save around 1,040 TCO₂ during 2021/22.

Gas, oil and electricity have all seen substantial unit rate increases throughout the year which combined are now on average 36% higher than last year. This is due to market influences outside the control of the health board. A decrease in the electricity CO₂ conversion factor is the main contributory factor towards the overall lower CO₂ produced over 2021/22.

Water consumption has seen an increase from a total of 269,931 M³ costing £739,747 in 2020/21 to an estimated 282,137 M³ costing £782,271 in 2021/22. This increase in consumption can be attributed to the extended period of tank flushing and the ongoing theatre building work, both at Prince Philip Hospital. We use a company to manage and monitor our water consumption in the health board. Estimated consumption and financial savings in 2021-22 are £65,000 and 44,162 M³ respectively. The consumption saving has saved 17.7 tCo₂e.

***Note:** Actual consumption for the last two months of 2021-22 for waste and utilities has been estimated as a complete year of invoices are not received until the month of May.

Transport

We have been working hard to ensure that the actions set out within the NHS Wales decarbonisation strategy are implemented. This includes a number of initiatives:

- The promotion of electric vehicle use amongst departments and staff;
- Introduction of telematics tracking across a number of health board vehicles, with full rollout planned for 2022/23;

- The completion of reviews across our main site to assess the potential for installing electric vehicle charging infrastructure. We aim to begin the introduction of electric vehicle charging units across our sites in the 2022/23 financial year;
- The further development of onsite infrastructure to promote a greater use of active travel;
- Increased support provided to staff to enable a greater uptake of home and agile working.

As a result of the actions taken to date there has been considerable progress in our drive to reduce carbon emissions to meet those targets set out within the decarbonisation strategy.

Key improvements include:

- As of 31 March 2021 we had a total of 35 electric vehicles in place across the health board's business use only and lease car scheme fleets. This number has now increased to 128 electric vehicles either in place or on order, representing an increase of 265% over the course of the last financial year. We expect this number to increase substantially over the course of the next financial year as we implement electric vehicle charging infrastructure on our sites and begin the transition of our business use only fleet to electric vehicles;
- There was a significant reduction in the total number of business miles travelled within the health board between 2018/19 and 2020/21. This saw mileage reduce from 10.2m to 6.5m, a reduction of 36% over the period. While we are still awaiting the final figures for 2021/22, it is anticipated that this positive trend will continue as the good practice relating to home working, agile working, telehealth and teleconferencing continues to be embedded as part of operational practices;
- The reduction in business mileage seen between 2018/19 and 2020/21 has also been reflected in the CO₂e emissions seen over the period, with total emissions for the period reducing from 2,109 tonnes CO₂e to 1,343 tonnes CO₂e. We expect the level of CO₂e emissions to decrease further in future years as the number of electric vehicles utilised by departments and staff as a proportion of total vehicles continues to increase.

Other initiatives

Decarbonisation/energy efficiency projects

Projects in the process of being completed or planned for delivery in 21/22 – 22/23 following secured government funding on existing assets include:

- Roof mounted photovoltaic (PV) installations at Bronglais, Withybush and South Pembrokeshire hospitals;
- Solar carports at South Pembrokeshire Hospital;
- LED lighting project at Bronglais Hospital;
- Ground mounted solar farm project at Hafan Derwen site – 0.45MW;
- Installation of four 7KW chargers at each acute hospital site and the purchase of seven electric fleet vans;
- Air source heat pump installation at Cardigan Integrated Care Centre.

Key benefits of all these schemes are carbon reduction, improved site resilience and revenue savings.

Carbon awareness programme

We are developing a carbon literacy programme, alongside wider public and staff engagement to support awareness and whole organisation change. The health board is part of the Circular Economy Innovations Programme, via Welsh Government funding, facilitated through Swansea University. Its aim is to raise decarbonisation awareness and public sector partnerships have developed within the Swansea Bay City Region Public Sector to jointly develop and deliver awareness. Our carbon literacy programme will deliver three layers of competency amongst our colleagues - awareness, practitioner and leader – and this will drive positive behaviour change, leading us towards our sustainable development ambitions. The health board is a member of the National Programme for Climate Change and Decarbonisation for Health and Social Care in Wales, and also of several environmental and climate change groups, which are all important contributors for us to capture best practice as part of our continuous improvement drive.

Green spaces

We have Green Health groups on all four acute hospital sites and at South Pembrokeshire Hospital. The more established groups at Withybush and Glangwili hospitals have a number of ongoing projects, with both sites having created miniature wildflower meadows as part of Plantlife's Magnificent Meadows project. Other projects at these sites include the development of a number of areas to enhance biodiversity and provide green spaces for patients, staff and visitors. Staff at Glangwili Hospital are currently working with Keep Wales Tidy to develop the large green space near Teilo, involving tree planting and the installation of two raised beds for native plants and wildflowers. The group at Withybush Hospital has been linking in with Pembrokeshire County Council as part of the Cleddau Reaches Project, involving a walkway from the hospital to a path along the River Cleddau. Around 200 native trees have been donated to Withybush Hospital and South Pembrokeshire Hospital as part of the NHS Forest project. Each site is to be given a tree to plant as part of The Queen's Green Canopy initiative to mark Her Majesty's Platinum Jubilee in 2022. With the support of our midwives, other NHS Wales staff we joined up with Pembrokeshire Nature Partnership to plant 3,810 trees in two years to celebrate the Queen's Green Canopy project. With each tree planted representing a baby born, they will soon have a flourishing woodland for families to enjoy for generations to come. This is a brilliant example of local project partnerships creating greener spaces and helping to benefit personal well-being. [A short video was produced about the project here.](#)

Our Green Health groups at Prince Philip and Bronglais hospitals are in the earlier stages of project development, with a growing interest across both sites. The Environment Team has recently had biodiversity surveys carried out on a number of sites which will provide the Green Health groups with further ideas for promoting green space.

Conclusion and forward look

Conclusion and forward look

In moving forward into 2022/23, we must not forget what we have learnt over the last 12 months, nor what we have continued to deliver and the advancements made during challenging times for our sector.

Throughout the past year we have seen increasing demand across our urgent and planned care systems, greater pressure on primary care services, substantial walk-in demand at our emergency departments, significant pressures in social care and high levels of sickness across our workforce. Despite continued constraints on capacity, we have sought to maintain services as best we can and restart many routine services.

We have worked hard to steadily increase capacity to see and treat patients where possible in 2021/22, the pandemic continued to have an impact while we adhered to related government restrictions to keep us safe. The various waves of COVID-19 cases meant we had to scale back some planned care with only emergency and urgent cancer care continuing. As a result, the number of patients waiting for treatment increased, although performance has steadied when compared to the impact on performance during the first year of the pandemic.

To proactively address some of the challenges faced, we worked flexibly and quickly adapted where we needed to – focusing on providing services for those at greatest need. With support from Welsh Government, we invested in modular theatres at Prince Philip Hospital to increase day surgery capacity. We also developed waiting list initiatives to contact and support our long waiting patients and worked on our community same day COVID-19 care. Significant work was done on admissions avoidance, working in partnership with our community and social care colleagues, aiming to reduce the pressures on our services.

Alongside this, we continued to manage our response to COVID-19. We worked with our multi-agency partners across the region to continue protecting our communities, local public services and the NHS as the pandemic continued. Our vaccination programme has been very successful, with an exceptionally high uptake of the vaccine to date. As our vaccine programme moves into the booster phases, we will continue to work to protect as many people as possible and ensure all residents can access a vaccine. The demands for testing, national strategy, and testing infrastructure have changed frequently and quite dramatically during the pandemic. As a result, we developed a robust testing infrastructure, which has been responsive to the Welsh Government's evolving national testing strategy. We continue to provide COVID-19 testing to anyone who needs it.

We are proud of all our staff and everything they have achieved in the last year - for their tireless efforts to deliver health care during unprecedented pressures and challenges. The impact of the past two years on our colleagues has been significant. We will continue to support our staff and their well-being as we begin to recover and recuperate from the impact of the pandemic by listening to their experiences and what is important to them. We want every day in Hywel Dda University Health Board to be 'a good day in work' - for both

**Safe, sustainable,
accessible and
kind care**

our current and future workforce - and Our People Culture Plan will help us on our culture change journey.

Our three-year plan for 2022-2025 recognises that the strength of the health board lies in its people, both those who work in the health and care system and the communities we serve. It acknowledges the impact the pandemic has had on individuals, teams, families, and society. Consequently, our priorities and actions put our people at the heart of everything we do, recognising that the route out of the pandemic and towards our strategic vision will come from our people, in the same way it has through COVID-19.

Our strategy is ambitious and far-reaching, seeking to ensure mid and west Wales has a health and care system that will serve the population for decades into the future. It offers a truly once in a lifetime opportunity to reset the system and establish a sustainable, high-quality model for our future generations. We see our potential contribution to mid and west Wales in the broadest sense, not only in direct healthcare provision, as important as that is, but also the impact we can have as the largest employer and a significant contributor to the economy. We can, for example, play a major role in supporting our population to develop rewarding careers, support our local businesses and the regenerations of our towns, and provide leadership in the resetting of our society as we seek to address societal challenges like decarbonisation.

As a result, our three-year plan reflects the breadth of that ambition. Over the course of 2022 to 2025 we intend to take significant strides towards this vision, whilst at the same time continuing to respond to COVID-19 and addressing the legacy of the pandemic. Achieving our vision of a healthier mid and west Wales will require the organisation to have a clear focus (our six priorities for 2022/23), a route map to the strategic vision (our planning objectives), a way of measuring progress (our priority measures for 2022/23 and our strategic outcome measures) and robust oversight and risk management (our board assurance framework and revised committee structure). The key elements are now in place and our focus moves to delivery of the new models.

During 2022/23 we will:

- continue to be prepared for COVID-19 and any subsequent variants and surges in infections, so that we can be flexible in meeting any changes to demand in our system. This will include our vaccination programme, our testing programme; and understanding and responding to inpatient bed demand;
- focus on the recovery of our planned care activity and support patients whilst they wait – this will be aided by the opening of the new day surgery unit in Prince Philip Hospital and through increased efficiencies in our system, and through our programme of work centred on outpatient transformation;
- support our workforce and further develop our route map to workforce sustainability, including our overseas recruitment campaign;
- continue the redesign of our urgent and emergency care system, aligned to the six national policy goals;
- further strengthen our relationships with our neighbouring health boards through regional initiatives such as A Regional Collaboration for Health (ARCH) and Mid Wales Joint Committee for Health and Care;

- deliver savings resulting from our opportunities framework and work with Welsh Government on our route map to financial sustainability;
- continue work on our strategy 'A Healthier Mid and West Wales', with an emphasis in the coming year on our outline business case;
- build upon the work of our seven clusters, with a particular emphasis on our accelerated cluster design, and through our integrated locality planning;
- accelerate our work in the digital; value-based healthcare; research and innovation; foundational economy and quality management spheres; and
- continue to learn from our planning objectives.

We do not underestimate the challenges we face as an organisation as we go into 2022/23, but we are prepared for them and see the next period as an opportunity to reset the system to put us on course for making our strategic vision - a healthier mid and west Wales - a reality.

Accountability Report

- Introduction 3

Part 1 - Corporate Governance Report 4

- Directors' Report 4
- Statement of the Chief Executive's responsibilities as Accountable Officer of Hywel Dda University Health Board 6
- Statement of Directors' responsibilities in respect of the accounts 7
- Governance Statement 8

Part 2 - Remuneration and Staff Report 70

Part 3 - Parliamentary Accountability and Audit Report 91

Introduction to the Accountability Report

The Accountability Report is one of the three reports which form Hywel Dda University Health Board's (the health board) Annual Report and Accounts. The accountability section of the Annual Report is to meet key accountability requirements to the Welsh Government (WG). The requirements of the Accountability Report are based on the matters required to be dealt with in a Directors' Report, as set out in Chapter 5 of Part 15 of the Companies Act 2006 and Schedule 7 of SI 2008 No 410, and in a Remuneration Report, as set out in Chapter 6 of the Companies Act 2006 and Schedule 8 of SI 2008 No 410.

As not all requirements of the Companies Act apply to NHS bodies, the structure adopted is as described in the HM Treasury's Government Financial Reporting Manual (FReM) and set out in the 2020/21 Manual for Accounts for NHS Wales, issued by the WG.

The Accountability Report consists of three main parts. These are:

- **The Corporate Governance Report:** This report explains the composition and organisation of the health board and governance structures and how they support the achievement of the health board's objectives. The Corporate Governance Report itself is in three main parts; the Directors' Report, the Statement of Accounting Officer's Responsibilities and the Governance Statement.
- **The Remuneration and Staff Report:** The Remuneration and Staff Report contains information about senior managers' remuneration. It will detail salaries and other payments, the health board's policy on senior managers' remuneration, and whether there were any exit payments or other significant awards to current or former senior managers. In addition, the Remuneration and Staff Report sets out the membership of the health board's Remuneration Committee, and staff information with regards to numbers, composition and sickness absence, together with expenditure on consultancy and off payroll expenditure.
- **Parliamentary Accountability and Audit Report:** The Parliamentary Accountability and Audit Report provides information on such matters as regularity of expenditure, fees and charges, and the audit certificate and report.

Part 1 - Corporate Governance Report

Introduction

The Corporate Governance Report provides an overview of the governance arrangements and structures that were in place across the health board during 2021/22. It includes:

The Directors' Report: This provides details of the board who have authority or responsibility for directing and controlling the major activities of the health board during the year. Some of the information which would normally be shown here is provided in other parts of the Annual Report and Accounts and this is highlighted where applicable.

The Statement of Accounting Officer's Responsibilities and Statement of Directors' Responsibilities: This requires the Accountable Officer, Chairman and Executive Director of Finance to confirm their responsibilities in preparing the financial statements and that the Annual Report and Accounts is fair, balanced, and understandable.

The Governance Statement: This is the main document in the Corporate Governance Report. It explains the governance arrangements and structures within the health board and brings together how the organisation manages governance, risk, and control.

Directors' Report

The composition of the Board and membership

The health board has 11 Independent Members (including Chair and Vice-Chair) who are appointed by the Minister for Health and Social Services, and nine Executive Directors. All Independent Members and Executive Director Members have full voting rights. In addition, there are three Associate Members who have been appointed by the health board in accordance with Standing Orders and approved by the Minister for Health and Social Services. The health board also has appointed a Strategic Advisor who takes part in board meetings in public. Associate Members and the Strategic Advisor have no voting rights. There is also one Director and the Board Secretary on the Executive Team who have no voting rights.

Before an individual may be appointed as a Member or Associate Member they must meet the relevant eligibility requirements, set out in Schedule 2 of The Local Health Boards (Constitution, Membership and Procedures) (Wales) Regulation 2009, and continue to fulfil the relevant requirements throughout the time that they hold office.

The Regulations can be accessed via the following link: <https://law.gov.wales/public-services/health-and-health-services/local-health-boards>.

Further details in relation to the composition of the Board can be found at pages 14 to 18 of the Governance Statement. This will include Board and Committee membership, including the Audit and Risk Assurance Committee, for 2021/22, the meetings attended during the year

and the champion roles fulfilled by Board Members. In addition, short biographies of all Board Members can be found on the health board's website at:

<https://hduhb.nhs.wales/about-us/your-health-board/board-members/>.

Register of interests

Details of company directorships and other significant interests held by members of the Board, which may conflict with their responsibilities, are maintained, and updated on a regular basis. A Register of Interests is available on the health board's website at: [Register of interests, gifts, sponsorship and hospitality - Hywel Dda University Health Board \(nhs.wales\)](#), or a hard copy can be obtained from the Board Secretary on request.

Personal data related incidents

Information on personal data related incidents formally reported to the Information Commissioner's office and "serious untoward incidents" involving data loss or confidentiality breaches are detailed on page 47 of the Governance Statement.

Environmental, social and community issues

These are outlined in pages 46 of the Governance Statement.

Statement for Public Sector Information Holders

This is contained in the [Parliamentary Accountability and Audit Report](#) on page 91.

Statement of the Chief Executive's responsibilities as Accountable Officer of Hywel Dda University Health Board

The Welsh Ministers have directed that the Chief Executive should be the Accountable Officer of Hywel Dda University Health Board.

The relevant responsibilities of Accountable Officers, including their responsibility for the propriety and regularity of the public finances for which they are answerable, and for the keeping of proper records, are set out in the Accountable Officer's Memorandum issued by the Welsh Government.

I can confirm that:

To the best of my knowledge and belief, there is no relevant audit information of which Hywel Dda University Health Board's auditors are unaware and I have taken all steps that ought to have been taken to make myself aware of any relevant audit information and established that the auditors are aware of that information.

Hywel Dda University Health Board's annual report and accounts as a whole is fair, balanced and understandable and I take personal responsibility for the annual report and accounts and the judgements required for determining that it is fair, balanced and understandable.

To the best of my knowledge and belief, I have properly discharged the responsibilities set out in my letter of appointment as an Accountable Officer.

**Signed
by:**

Date: 9 June 2022

**Steve Moore,
Chief Executive Officer**

Statement of Directors' responsibilities in respect of the accounts

The Directors are required under the National Health Service Act (Wales) 2006 to prepare accounts for each financial year.

The Welsh Ministers, with the approval of HM Treasury, direct that these accounts give a true and fair view of the state of affairs of Hywel Dda University Health Board and of the income and expenditure of the Hywel Dda University Health Board for that period.

In preparing those accounts, the Directors are required to:

Apply on a consistent basis accounting principles laid down by the Welsh Ministers with the approval of HM Treasury;

- Make judgements and estimates which are responsible and prudent; and
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts.

The Directors confirm that they have complied with the above requirements in preparing the accounts.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the authority and to enable them to ensure that the accounts comply with requirements outlined in the above mentioned direction by the Welsh Ministers.

BY ORDER OF THE BOARD

Signed by:

On behalf of Chair: Date: 9 June 2022
Maria Battle

Chief Executive: Date: 9 June 2022
Steve Moore

Executive Director of Finance: Date: 9 June 2022
Huw Thomas

Governance Statement

Scope of responsibility

The Board is accountable for Governance, Risk Management and Internal Control. As Chief Executive of the Board, I have responsibility for maintaining appropriate governance structures and procedures as well as a sound system of internal control that supports the achievement of the organisation's policies, aims and objectives, whilst safeguarding the public funds and the organisation's assets for which I am personally responsible. These are carried out in accordance with the responsibilities assigned by the Accountable Officer of NHS Wales.

The Annual Report outlines the different ways the organisation has had to work both internally and with partners in response to the significant challenges of planning and providing services during the COVID-19 pandemic. It explains arrangements for ensuring standards of governance are maintained, risks are identified and mitigated, and assurance has been sought and provided. Where necessary additional information is provided in the Governance Statement, however the intention has been to reduce duplication where possible. It is therefore necessary to review other sections in the Annual Report alongside this Governance Statement.”

This has been another unprecedented year across the NHS and for Hywel Dda University Health Board. We have continued to adapt our governance framework within the year to ensure we continue to operate in an open and transparent way whilst responding to each stage of the pandemic. Furthermore, in light of the ongoing learning through the pandemic, over the past year, we have reviewed our governance and assurance arrangements so they better support the delivery of our strategic and planning objectives as we look to the future to address pressures in our urgent and emergency care system, deal with the backlog of patients waiting for treatment and care and to help us get back on track with our financial roadmap whilst managing the exceptional economic challenges we face next year. Further detail on how we maintained good governance arrangements during 2021/22 are provided within this Governance Statement.

Escalation and intervention arrangements

The health board is held to account for its performance by the WG, which has established arrangements for escalation and intervention to support NHS bodies to address issues effectively and deliver the required improvement. Despite the unprecedented challenges we have faced in the last two years – exacerbated by our hospital configuration and relatively poor infrastructure – we have been able to consolidate our de-escalation from ‘targeted intervention’ to ‘enhanced monitoring’ status. The WG acknowledged the good leadership within the health board, however the following points were brought to our attention:

- There is a need to address the current financial position and financial strategy linked to future service and workforce plans;
- There is concern around the urgent and emergency care position across the health board, with all four acute sites often at high levels of escalation every day;
- The continued workforce challenges within the health board.

To realise our ambition to return to 'routine monitoring' status will depend on delivering an approvable Integrated Medium Term Plan (IMTP). We continue to work with WG as it remains our ambition to have an approved IMTP and to be de-escalated to routine monitoring status.

Our governance framework

Model Standing Orders, Reservation and Delegation of Powers are issued by Welsh Ministers for the regulation of the health board's proceedings and business. These translate the statutory requirements set out in the Local Health Boards (Constitution, Membership and Procedures) (Wales) Regulations 2009 (S.I. 2009/779 (W.67)) into day to day operating practice, and, together with the adoption of a Scheme of decisions reserved to the board; a Scheme of delegations to officers and others; and Standing Financial Instructions (SFIs), they provide the regulatory framework for the business conduct of the health board and define its 'ways of working'.

The board approved the All Wales Model Standing Orders, Reservation and Delegation of Power for Standing Orders and the Standing Financial Instructions (SFI's) at the board meeting held on 27 May 2021. These documents form the basis upon which the health board's governance and accountability framework is developed and, together with the adoption of our Standards of Behaviour framework, is designed to ensure the achievement of the standards of good governance set for the NHS in Wales.

The only variations to Standing Orders during 2021/22 in response to the pandemic and the departure from Public Bodies (Admission to Meetings) Act is that the board has not been able to meet in public due to limitations on public gatherings. To ensure business was conducted in as open and transparent manner as possible during this time the following actions were taken:

- Continued live broadcasting of board meetings;
- Published agendas and papers in advance of the meeting – ideally 7 days (the board acknowledge that this is a breach of Model Standing Orders which stipulates agendas should be published 10 days prior to meetings, however a local variation has been made);
- A clear link to the health board's website pages and social media accounts signposting to further information and publication dates; and
- Amendment to the website (which constitutes the official notice of board meetings) and explain why the board is not meeting in public.

The public are also unable to physically or virtually attend its committee meetings, which is a breach of its Standing Orders. This has been risk assessed, taking into account that all

decisions are made by the board, and committee papers and minutes are made available on the health board website under the Statutory Committee section -

<https://hduhb.nhs.wales/about-us/governance-arrangements/statutory-committees/>.

The board

The board provides leadership and direction to the organisation and is responsible for governance, scrutiny, and public accountability, ensuring that its work is open and transparent. The Board functions as a corporate decision-making body.

All Board Members share corporate responsibility for formulating strategy, ensuring accountability, monitoring performance, and shaping culture, together with ensuring that the board operates as effectively as possible. The board is comprised of individuals from a range of backgrounds, discipline, and areas of expertise, and provides leadership and direction ensuring that sound governance arrangements are in place.

During 2021/22, all board meetings in public were broadcast live, with a recording of the meeting uploaded to our website after each meeting.

During 2021/22, the board held:

- Eight meetings in public (all were quorate)
- One Annual General Meeting
- Seven seminar sessions (an additional Seminar was held in March 2022)

Attendance is formally recorded within the minutes, detailing where apologies have been received and where deputies have been nominated. The dates, agendas and minutes of all public meetings can be found on the health board's website:

<https://hduhb.nhs.wales/about-us/your-health-board/>.

The board has a programme of work, which was adapted during the year to respond to emerging events and circumstances. There is also a clear patient and staff centred focus by the board at the meetings, demonstrated by the presentation of patient and staff stories at each meeting through the Patient Experience Report.

Items considered by the board during 2021/22 included:

- Hywel Dda University Health Board Annual Recovery Plan 2021/22
- Programme Business Case – Implementing the Healthier Mid and West Wales Strategy
- Transforming Mental Health Services Update
- Three Year Draft Plan for Children's Services
- Bronglais Hospital Chemotherapy Day Unit Project – Approval to Develop with Revised Relocation Plans
- West Wales Care Partnership: Dementia Strategy
- Hywel Dda University Health Board Palliative & End of Life Care Strategy
- Paediatric Surge Plans for Respiratory Syncytial Virus (RSV)

- National Laboratory Information Management System (LIMS) Full Business Case
- Laundry Business Case
- South West Wales Glaucoma Service Business Case
- Modular Solution to Support Delivery of Elective Services - Procurement Outcome and Decision
- Haematology and Coagulation Managed Service Contract Award
- NHS Blood and Transplant (NHSBT) Organ Donation: Review of Actual and Potential Deceased Organ Donation
- Women & Children Phase II Project and Capital Governance Review Update
- An External Review of the Llwynhendy Tuberculosis Outbreak
- Pharmaceutical Needs Assessment
- Reducing Health Inequalities and Promoting Health Equity
- Integrated Winter Resilience Plan 2021/22
- Discovery Report: Understanding the Staff Experience in Hywel Dda University Health Board During 2020-21 COVID-19 Pandemic
- Making a Difference – Customer Service Programme
- Nurse Staffing Levels (Wales) Act:
 - Annual Assurance Report 2020/21
 - Three Yearly Assurance Report on Compliance 2018/21 Report for WG
 - Annual Presentation of Nurse Staffing Levels
- Revised Governance Structure and Arrangements
- Long Term Agreements - Contract Values and Approach in 2021/22
- Hywel Dda University Health Board Reset and Recovery Plan – Outsourcing Activities
- Virtual Pooled Fund Agreement for Adult Care Home Placements 2021/24
- Governance Arrangements to Manage Allocation of Recovery Funding
- Use of Consultancies to Support the Health Board
- Strategic Business Intelligence
- Regional Partnership Board – Population Assessment and Market Stability Report
- Major Incident Plan
- Hywel Dda University Health Board Well-being Objectives Annual Report 2020/21
- Improving Outcomes for Carers – Annual Update Report
- Strategic Equality Reports
 - Strategic Equality Plan Annual Report 2020/21
 - Annual Workforce Equality Report 2020/21
 - Gender Pay Gap Report 2020/21

Regular items throughout the year to the board included those listed above, as well as the following:

- Reports on COVID-19 and updates on delivery of the Annual Recovery Plan 2021/22
- Reports on the development of the IMTP 2022/25
- Reports on the financial performance and the related risks for discussion

- Reports on improving patient experience, providing feedback and activity, for assurance
- Integrated Performance Assurance Reports identifying areas of concern for discussion
- Board Assurance Framework Dashboard providing a visual representation of the health board's progress against each strategic objective for assurance
- Corporate risk reports providing assurance on the management of risks, and any variances to agreed tolerance levels
- Reports on the development of the IMTP 2022/25 for discussion
- Reports from the Chair and Chief Executive (including the Register of Sealings for endorsement and status reports on consultations) for discussion, and
- Assurance reports and endorsement of any matters arising from the In-Committee Board, Board Committees, Joint Committees, Advisory Groups and Statutory Partnerships of the Board

Board committees

The board is supported by several committees, each chaired by an Independent Member. These committees have an important role in providing scrutiny and seeking assurance in relation to the achievement of our strategic and planning objectives, provision of safe and effective services, compliance with legislation and standards, learning from lessons, and oversight of performance and risk. Considering the learning through the pandemic, the board approved our revised committee structure, to align more closely to our strategic objectives, in July 2021. The term 'Assurance' was removed from Committee names (except for the Audit and Risk Assurance Committee) in recognition that the role of these committees is wider than providing assurance to the board. The health board now has the following committees in place, and these are set out in the diagram at [Appendix 1](#).

- Audit and Risk Assurance Committee (ARAC)
- Health and Safety Committee (HSC)
- Charitable Funds Committee (CFC)
- Mental Health Legislation Committee (MHLC)
- Quality, Safety and Experience Committee (QSEC)
- People, Organisational Development and Culture Committee (PODCC) established to replace the 'people' element of the previous People, Planning and Performance Assurance Committee (PPPAC)
- Strategic Development and Operational Delivery Committee (SDODC) established to replace the 'planning' and 'performance' elements of the previous PPPAC
- Sustainable Resources Committee established to replace the former Finance Committee
- Remuneration and Terms of Service Committee

Terms of Reference for all Board Committees, listed above, can be found in the [Revised Governance Structure and Arrangements Report](#) that was presented to Board in July 2021.

The chair of each committee provides a written report to the board following each meeting outlining key risks and highlighting areas, which need to be brought to the board's attention to contribute to its assessment of assurance and provide scrutiny against the delivery of objectives or other matters. The committees, as well as reporting to the board, also work together on behalf of the board to ensure, where required, that cross reporting and consideration takes place, and assurance and advice, is provided to the board and the wider organisation. As well as producing formal minutes, each committee maintains a table of actions that is monitored at meetings.

A further enhancement to the governance framework has been the introduction of a bi-monthly meeting of the committee chairs which supports the triangulation of information across the committee structure and the wider health board.

Throughout the year, each committee has undertaken a self-assessment and produced a meaningful development plan to ensure there is continual learning and improvement. Each committee chair is also responsible for providing the board with an annual report, setting out a helpful summary of its work throughout the year.

Each committee has an Executive Director lead who works closely with the chair of each committee in agenda setting, business cycle planning and to support good quality, timely information being relayed to the Committee. A summary of key items considered by Committees can be found in [Appendix 2](#).

The following table outlines dates of board and committee meetings held during 2021/22, with all meetings being quorate:

Committee	Board	Audit and Risk Assurance Committee	Charitable Funds Committee	Health and Safety Committee	Mental Health Legislation Committee	People, Planning and Performance Assurance Committee (until June 2021)	People, Organisational Development and Culture Committee (from July 2022)	Strategic Development and Operational Delivery Committee (from July 2021)	Sustainable Resources Committee (Finance Committee until July 2022)	Quality, Safety and Experience Committee	Remuneration and Terms of Service Committee

Board and Committee membership and attendance during 2021/22

The board has been constituted to comply with the Local Health Boards (Constitution, Membership and Procedures) (Wales) Regulations 2009. The board consists of 20 voting members (11 Independent Members and nine Executive Directors). There are also three Associate Members and a Strategic Advisor that take part in board meetings in public, though they do not hold any voting rights. The board is supported by the Board Secretary and the Director of Primary Care, Community and Long Term Care, who attend its meetings but do not have voting rights.

We warmly welcomed three new Independent Members to the Board in 2021/22:

- Winston Weir, Independent Member (Finance) commenced duties on 1 April 2021
- Cllr Gareth John, Independent Member (Local Authority) commenced duties on 1 April 2021
- Iwan Thomas, Independent Member (Third Sector) commenced duties on 1 May 2021

These appointments dovetailed with the previous post holders therefore there were no Independent Member vacancies during the year.

The following Independent Members were also reappointed during 2021/22:

- Delyth Rainsford, Independent Member (Community)
- Maynard Davies, Independent Member (Information Technology)
- Ann Murphy, Independent Member (Trade Union)

Our new Executive Director of Strategic Development and Operational Planning, Lee Davies, took up post on 12 April 2021. This post was created following a review when the Executive Director of Planning, Performance and Commissioning, left the organisation in October 2020. The Executive Director of Finance managed the portfolio in the interim and it was confirmed by the Remuneration and Terms of Service Committee (RTSC) that performance, commissioning and digital services would remain under the Executive Director of Finance on a permanent basis.

Biographies, providing further information on Board Members, are published on the health board's website at <https://hduhb.nhs.wales/about-us/your-health-board/board-members/>.

In addition to responsibilities and accountabilities set out in terms and conditions of appointment, board members also fulfil a number of Champion roles where they act as ambassadors for these matters. The table below sets out the composition of the board in 2021/22 outlining the positions held, the area or expertise/ representation role, the board and committee membership and attendance, and the Champion roles.

Board and Committee Membership and the record of attendance for the period April 2021-March 2022

Command and Control

In March 2020, the health board established a Command and Control structure, i.e. Gold, Silver and Bronze Groups, to facilitate its planning and preparations for the emerging global COVID-19 pandemic. Whilst this structure was formally stood down in May 2021 due to

reduced COVID-19 transmissions, it was kept under review during 2021/22 and was reinstated in response to surges in community transmissions and hospital admissions, with Gold convening to make key decisions. All strategic actions are documented on a decision log to provide a clear audit trail and these are ratified by the board.

Advisory groups

The health board has a statutory duty to “take account of representations made by persons and organisations who represent the interests of the communities it serves, its officers and healthcare professionals”. This is achieved in part by four Advisory Groups to the Board.

Stakeholder Reference Group (SRG)

The SRG is formed from a range of partner organisations from across the health board’s area and engages with and has involvement in the strategic direction, advises on service improvement proposals and provides feedback to the board on the impact of its operations on the communities it serves. The SRG met four times during 2021/22.

Staff Partnership Forum (SPF)

The SPF engages with staff organisations on key issues facing the health board. It provides the formal mechanism through which the health board works together with Trade Unions and professional bodies to improve health services for the population it serves. It is the forum where key stakeholders engage with each other to inform debate and seek to agree local priorities on workforce and health service issues. SPF met six times during 2021/22.

Healthcare Professionals’ Forum (HPF)

The HPF comprises of representatives from a range of clinical and healthcare professions within the health board and across primary care practitioners with the remit to provide advice to the board on all professional and clinical issues it considers appropriate. It is one of the key forums used to share early service change plans, providing an opportunity to shape the way the health board delivers its services. HPF met four times during 2021/22.

Black, Asian and Minority Ethnic (BAME) Advisory Group

The BAME Advisory Group was established in July 2020 to advise the health board on mainstreaming equality, diversity and inclusion and provide a forum to empower and enable BAME staff to achieve their potential through creating positive change. The BAME Advisory Group reports to both PODCC and board, with the vice-chairs being invited to participate in board meetings as in-attendance members. BAME met six times during 2021/22.

Joint committees

Emergency Ambulance Services Committee (EASC)

EASC was established in 2014 to be a Joint Committee of the seven health boards, with the three NHS trusts as associate members. It has responsibility for the planning and commissioning of emergency ambulance services on an all-Wales basis. Hosted by Cwm Taf Morgannwg University Health Board, the health board is represented on the Joint Committee by the chief executive and regular reports are received by the board supported by a more in-depth discussion, on an annual basis, at the board seminar meeting.

Welsh Health Specialised Services Committee (WHSSC)

WHSSC was established in 2010 by the seven health boards to ensure the population has fair and equal access to the full range of specialised services. Hosted by Cwm Taf Morgannwg University Health Board, Hywel Dda is represented on the Joint Committee by the chief executive and regular reports are received by the board supported by a more in-depth discussion, on an annual basis, at the board seminar meeting and a joint executive-to-executive team meeting.

Partnership and collective working

Hywel Dda Public Service Board

The health board is a statutory member of Public Services Boards (PSBs) in Carmarthenshire, Ceredigion, and Pembrokeshire. PSBs were established under the Well-being of Future Generations (Wales) Act 2015, and their purpose is to improve the economic, social, environmental and cultural well-being in its area by strengthening joint working across all public services in Wales. The effective working of PSBs is subject to overview and scrutiny by the Well-being of Future Generations Commissioner, Audit Wales (AW), as well as designated local authority overview and scrutiny committees.

West Wales Regional Partnership Board

Regional Partnership Boards (RPB), based on Local Health Board footprints, became a legislative requirement under Part 9 of the Social Services and Well-being (Wales) Act 2014 (SSWBWA). Their core remit is to promote and drive the transformation and integration of health and social care within their areas. We are fully committed to integrating health and social care planning through a co-ordinated approach, and across West Wales we have a strong track record of joint planning between agencies, and the approach set out by WG this year builds upon the foundations already in place. During the year, we have been working together to produce a regional Market Stability Report (MSR) and a refreshed Population Needs Assessment (PNA). Together, the PNA and MSR are key instruments in the integrated planning and delivery of health and care services for the region will help to shape our Joint Areas Plans.

Regionally, we have been working collectively on our transformation plan and the delivery of projects funded through the Integrated Care Fund. Any funding that became available was targeted at our improvement planning. The WG Urgent and Emergency Care Funding and the Regional Transformation Scaling Fund were all utilised to invest in our Regional Plan. The health board supports the co-ordination of winter planning through the RPB.

Through our joint working with partners in the RPB, we have a programme of activity that is aligned to the WG Transformation Fund and Integrated Care Funding, for which the health board acts as the banker. This work is reported to board regularly and overseen by an Integrated Executive Group of directors from health, local authority and the third sector. From 1 April 2022, the Health and Social Care Regional Integration Fund will build from the excellent work undertaken through the Transformation Fund and Integrated Care Fund and generate a true partnership approach to investing in integrated services for the long term.

A statutory partnership update report is received by the board at every meeting.

Update reports from the Advisory Groups, Joint Committees and Statutory Partnerships can be found on our website within the board papers section via the following link <https://hduhb.nhs.wales/about-us/your-health-board/>.

NHS Wales Shared Services Partnership Committee

NWSSPC was established in 2012 and is hosted by Velindre NHS Trust. It is responsible for the shared services functions for the NHS, such as procurement, recruitment and legal services. Hywel Dda is represented by the Executive Director of Finance at this committee with regular reports received by the board following each meeting.

Board development

From autumn 2021, a new phase of development of the board began with members coming together periodically to participate and to get to know each other at a deeper level given the recent addition of new members to the board. This phase of the programme will run until July 2022. The board has already received sessions by Professor Michael West on Compassionate and Collective Leadership, and Associate Professor Stacy Johnson on Reverse Mentorship Cultural Learning. Further sessions are planned on Behaviours, Systems and Governance with Baroness Rennie Fritchie, and on Incivility: Reflections and Next Steps with Dr Chris Turner.

Over the last 12 months, the board has been participating in a Reverse Mentoring Programme, with both Independent Members and Executives mentored by staff members. Staff mentors are of Black, Asian and Minority Ethnic backgrounds, are Generation Z and under 25, or from front line staff delivering key services. The purpose of the programme was to allow our leaders to connect with our staff on a deeper level, listen and understand their individual perceptions and experiences and take systemic action in response. An evaluation of the programme commenced, and initial feedback was very positive. This programme is

providing powerful learning for all members of the board in relation to culture and diversity issues, as well as great insights into the experiences of working in Hywel Dda by front line staff.

IM engagement visits with our staff recommenced as soon as COVID-19 restrictions were eased to better understand the pressures our staff continue to face on a daily basis, with formal patient safety visits started in April 2022.

The board has regular professional updates on key issues as part of its ongoing bi-monthly seminar series. In addition, both the Executives and Independent Members participate in Development Programmes, with the Executives focusing on enhancing relationship building, trust and team dynamics to create space for strategic through reflection on complex organisational changes.

Board effectiveness

The board is required to undertake an annual self-assessment of its effectiveness and was presented with the following sources of internal and external assurance and assessments to help it to evaluate its annual effectiveness:

- Joint Escalation and Intervention Arrangements Status as the health board consolidated its de-escalation of our status from 'targeted intervention' to 'enhanced monitoring' (see [Targeted Intervention](#) section of the report);
- AW Structured Assessment (more information on this can be found in the [AW Structured Assessment](#) section of the report);
- Self-assessment against the Corporate Governance Code (see [Corporate Governance Code](#) of the report);
- Annual Self-assessment against the Governance, Leadership and Accountability (GLA) Standard (see [GLA Standard](#) section of the report);
- Feedback from the Board Committee self-assessment programme;
- AW Review of Quality Governance Arrangements;
- IA Reports received throughout 2021/22, including reviews of Financial Planning, Monitoring and Reporting and the Annual Recovery Plan/Planning Objectives;
- Work to achieve compliance with the Health and Safety Executive Improvement Notices; and
- Current progress on work to address the Fire Enforcement Notices.

Following due consideration of the sources of assurances and supporting documentation, the Board were asked to consider an overall level of maturity in respect of governance and board effectiveness, based on the following criteria:

Level 1	Level 2	Level 3	Level 4	Level 5
We do not yet have a clear, agreed understanding of where we are (or how we are doing) and what / where we need to improve.	We are aware of the improvements that need to be made and have prioritised them, but are not yet able to demonstrate meaningful action.	We are developing plans and processes and can demonstrate progress with some of our key areas for improvement.	We have well developed plans and processes and can demonstrate sustainable improvement throughout the service.	We can demonstrate sustained good practice and innovation that is shared throughout the organisation and which others can learn from.

The board concluded its maturity rating for board effectiveness and governance was 'Level 4' at its Board Seminar in April 2022.

The purpose of the system of internal control

The system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risks; it can therefore only provide reasonable and not absolute assurances of effectiveness.

The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically. The system of internal control has been in place for the year ended 31 March 2022 and up to the date of approval of the annual report and accounts.

The board is accountable for maintaining a sound system of internal control which supports the achievement of the organisation's objectives. The system of internal control is based on a framework of regular management information, administrative procedures including the segregation of duties and a system of delegation and accountability. It has been supported in this role by the work of the main committees, each of which provides regular reports to the board, underpinned by a sub-committee structure, as shown in [Appendix 1](#) of this statement.

Capacity to handle risk

The board is responsible for the effective management of the organisation's risks in pursuance of its aims and objectives. The board collectively has responsibility and accountability for setting the organisation's objectives, defining strategies to achieve those objectives, and establishing governance structures and processes to best manage the risks in accomplishing those objectives.

The chief executive, as accountable officer, has overall responsibility for ensuring that the health board has an effective risk management framework and system of internal control, however Executive Directors have responsibility for the ownership and management of principal, corporate and operational risks within their portfolios.

The health board's lead for risk is the board secretary, who has responsibility for leading on the design, development, and implementation of the Board Assurance Framework (BAF) and Risk Management Framework.

Risk management framework

The health board's Risk Management Framework aims to facilitate better decision making and improved efficiency, risk management can also provide greater assurance to stakeholders. It is important that it adds value to ensure the health board reduces uncertainty, informs decision-making and priorities, and achieves the best possible outcomes.

Our Risk Management Framework clearly sets out the components that provide the foundation and organisational arrangements for supporting risk management processes in the organisation. It clarifies roles and responsibilities, communication and reporting lines whilst also outlining the other components, such as the risk strategy and the risk protocols.

It is based on the "Three Lines of Defence" model which advocates that management control is the first line of defence in risk management. The various risk control and compliance oversight functions established by management are the second line of defence, and independent assurance is the third. Each of these three "lines" plays a distinct role within the health board's wider governance framework. However all three lines need to work interdependently to be effective.

There are procedures, guidance, systems, and tools to assist management to identify, assess and manage risks on a day-to-day basis. This is supported with training, support and advice from the health board's Assurance and Risk team, which has the role to embed the risk management framework and process, and to facilitate a risk aware culture across the organisation through a business partnering arrangement.

The health board is working with colleagues across NHS Wales to develop a consistent Training Needs Analysis and risk training modules that will align to the new Once for Wales System for Risk Management, which is likely to be implemented within the health board in the latter part of 2022/23.

During 2022/23, we will be reviewing our Risk Management Framework and Strategy to ensure they support the achievement of our strategic objectives. This will be informed by an assessment of its risk maturity to enable the health board to continue to strengthen its risk management arrangements, culture, and attitude.

As part of Internal Audit Plan for 2021/22, IA undertook a review of our risk management arrangements and the development of the Board Assurance Framework. This provided

substantial assurance overall concluding that the Health Board has an effective risk management process in place, incorporating a robust Board Assurance Framework aligned to strategic objectives.

AW reported in their Review of Quality Governance Arrangements that while corporate structures and resources provide effective support for quality governance and improvement, inconsistencies in operational arrangements and weaknesses in operational risk management limit the provision of assurance to the Board. Work is now underway to address these findings which has included an executive led review of each operational directorate's risk registers and included the Head of Assurance and Risk. These risk reviews will be followed up during 2022/23 as part of an ongoing programme.

Risk appetite

The health board's Risk Appetite Statement provides staff with guidance as to the boundaries on risk that are acceptable and provides clarification on the level of risk the health board is prepared to accept. It is integrated with the control culture of the organisation to encourage more informed risk taking at strategic level with more exercise of control at operational level, as well as recognition of the nature of the regulatory environment the organisation operates within. The Risk Appetite was kept under review but was not changed during the pandemic.

The board agreed its Risk Appetite Statement through detailed board seminar discussions and considered it in line with its capability to manage risk, and formally agreed the following at a board meeting in public:

"Hywel Dda's approach is to minimise its exposure to safety, quality, compliance and financial risk, whilst being open and willing to consider taking on risk in the pursuit of delivery of its objective to become a population health-based organisation which focuses on keeping people well, developing services in local communities and ensuring hospital services are safe, sustainable, accessible and kind, as well as efficient in their running."

The health board recognises that its appetite for risk will differ depending on the activity undertaken, and that its acceptance of risk will be based on ensuring that potential benefits and risks are fully understood before decisions on funding are made, and that appropriate actions are taken.

The health board's risk appetite takes into account its capacity for risk, which is the amount of risk it is able to bear (or loss we can endure) having regard to its financial and other resources, before a breach in statutory obligations and duties occurs."

In addition, the board also agreed levels of tolerance for risk across its activities, aligned to its risk scoring matrix, to provide management with clear lines of the level to risk it will accept. These can be accessed via the following link:

<http://www.wales.nhs.uk/sitesplus/documents/862/Item%205.4%20Board%20Assurance%20Framework%2C%20Corporate%20Risk%20Register%20and%20Risk%20Appetite.pdf>.

Risk tolerance levels have been added to the health board's risk management system and risks above tolerance are reported and challenged through the board's committees.

The health board's risk appetite will be reviewed in 2022/23, to ensure it remains aligned to the health board's new strategic objectives and its capacity to manage risk. This is particularly important as we move into recovery, and along our roadmap to financial balance, whilst at the same time, managing some significant external challenges, such as increasing utility costs.

Risk management process

The health board's Risk Management Framework supports the risk management process. This is a continuous process that should methodically address all the significant risks associated with all the activities of the health board. All risks are assessed in terms of likelihood and impact using the health board's risk scoring matrix which helps to facilitate a level of consistency and understanding of the scoring and ranking of risks throughout the organisation.

Risks are identified in a bottom-up and top-down approach throughout the health board. Each corporate and operational directorate is responsible for ensuring risks to achieving their objectives, delivering a safe and effective service and compliance with legislation and standards, are identified, assessed and managed to an acceptable level, i.e. within the board's agreed risk tolerance.

Communicating and consulting with internal and external stakeholders and partners is an important part of the risk management process. The frequency of the communication will vary depending upon the severity of the risk and is discussed and agreed with the stakeholders and partners. For example, our risk related to the delivery of integrated community and acute unscheduled care services requires a whole system approach, and the health board has been working with its partners in WAST and local authorities to take forward work to try to improve flow within our hospitals.

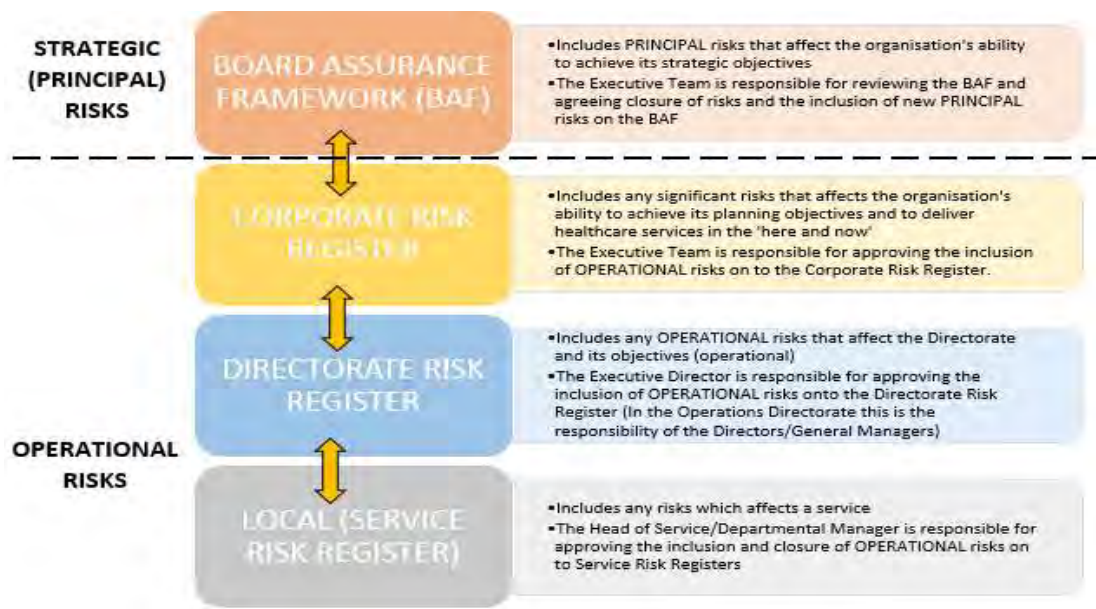

Engagement of stakeholders has also taken place through multi-agency partnership working. The Regional Partnership Board is part of the health board governance structure that helps to support the management of risk facing the organisation through collective dialogue.

In 2021/22, executive directors identified several principal risks, those that may affect the achievement of our strategic objectives, through a series of executive team workshops, before they were collectively agreed by the executive team. These principal risks now form part of our Board Assurance Framework (BAF) to support the implementation of the health board's strategy and provide the board with on-going assurance on the achievement of its objectives.

Executive directors are also responsible for identifying significant operational risks for the Corporate Risk Register (CRR). These corporate risks can reflect new or emerging risks from

discussions or risks escalated by individual executive directors from their directorate to be collectively agreed by the executive team for entry onto the CRR.

This is how the CRR interacts with the principal risks on the BAF and the operational risks that are on Directorate and Service risk registers.

Oversight and reporting of risk

In following the three lines of defence model (above), the health board ensures that operational management are supported in their role of day-to-day risk management by specialist functions who have expertise and knowledge to help them control risk.

Corporate and operational risks that are over the health board's agreed tolerance level, are aligned to the health board's committees, whose role it is to provide assurance to the board that risks are being managed appropriately.

The executive team review the BAF on a bi-monthly basis and hold a monthly risk session to review the CRR.

Risk profile

Delivering healthcare through the current clinical model in a large, rural geographical area presents significant quality, service, workforce, and financial challenges to the health board. The health and care system within Hywel Dda is facing intense challenges, which are being felt across Wales. A key challenge during 2021/22 and the winter period has been the significant uncertainty about how the COVID-19 pandemic would unfold. The emergence of the Omicron variant in early December 2021 led to unprecedented levels of community transmission. Our most significant operational risks are outlined in the [CRR section](#) below.

The health board's strategic and planning objectives set out how it will address some of these issues going forward whilst considering the learning, developments and changes of practice implemented during the pandemic. The [BAF section](#) below outlines the risks and controls in place for achieving its objectives.

Board Assurance Framework (BAF)

During 2021/22, we refreshed our BAF to reflect the revised strategic and planning objectives and this was presented to every board since September 2021. The most recent BAF report can be accessed [here](#) and provides a link to [our BAF Dashboard](#). AW identified the reinvigorated interactive BAF as a model of good practice in its Structured Assessment 2021. As well as identifying the principal risks to delivery of our objectives, the controls and assurances, the BAF also seeks to align outcomes against strategic objectives, and delivery against our planning objectives.

There are 17 principal risks that have been aligned to our six strategic objectives. The most significant risks to achieving our strategy are listed below:

- **Principal risk 1186 - attract, retain and develop staff with the right skills (risk score 20)**

The health board's most significant challenge is to maintain the right number of people to be able to deliver safe, effective, and sustainable services. There is due to a number of factors, including geography, recognised national shortages in a number of professions and an aging workforce that mirrors our population. COVID-19 increased pressures on existing staff, not only during the response phase but also now as we try to deal with the resulting backlog, which has also led to an increasing number of retirements and reduction in hours within the older workforce. Becoming an employer of choice and attracting people to work for Hywel Dda is therefore fundamental to the achievement of our strategy.

Our plans to address this risk includes implementing a flexible and responsive recruitment process that encourages local employment for local people, constructing a comprehensive workforce programme to encourage our local population into NHS and care related careers, implementing an informative and supportive induction process, having employee policies that support work-life balance and are person centred, having equitable access and agile approaches to training regardless of personal and professional circumstances, constructing a comprehensive talent, succession planning and leadership development programme, along with a robust workforce plan that will introduce new ways of working and new roles to mitigate against national skills shortage professions.

Understanding our staff experience as we implement this work is essential. A baseline review was undertaken during the year which was reported in our second Discovery Report to understand more about staff experience so that approaches to rest, recovery and recuperation can be shaped over the next two years. Staff pulse engagement surveys

have also been introduced to sample 1,000 employees each month, selecting different staff each month.

- **Principal risk 1187 - strong enough reputation to attract people and partners (risk score 16)**

This risk links with risk 1186 above and relates not only to having the right organisational culture to make Hywel Dda an attractive place to live and work, but also about staff having access to the latest equipment and state of the art facilities for training and work.

In addition to the work that is taking place to improve the culture of the organisation, we have reviewed our capacity and capability for continuous engagement with the public in service planning and delivery, and to implement improvements over the next year. We need to develop a clinical education plan with the central aim to develop from within and attract from elsewhere, the very best clinicians. We are also working to implement a comprehensive approach to performance delivery and quality management that enables staff at all levels to strive for excellence whilst effectively delivering the basics.

- **Principal risk 1190 - capacity to engage and contribute to 'Improving Together' (risk score 16)**

This risk also links to the above risks in that success breeds success, however responding to the pandemic impacted the ability of operational teams to engage in co-designing the implementation and developing sufficient organisational learning to move forward. Work has progressed in terms of developing outcome measures for the BAF and Integrated Performance Assurance Report (IPAR) measures have been mapped to each Planning Objective. Work is also progressing on Executive Performance Dashboards. The new team of OD relationship managers are developing the People Culture Plans Framework with staff side colleagues and will support connecting with the operational teams. Preliminary work on the Advanced Analytics Platform is underway which will establish real-time, integrated, easily accessible and comprehensible data to support our clinicians and managers with day-to-day operational delivery and planning, as well as supporting the shift of resources into primary and community settings.

- **Principal risk 1191 - wrong value set for best health and well-being (risk score 16)**

This risk reflects the risk that our overall strategy may be limited by seeing health and well-being purely through the NHS lens, using incorrect measures, not effectively engaging with individuals and communities, and under and/or over-estimating potential for best health and well-being.

Whilst the board does undertake engagement with its population it is still defining its approach to continuous engagement, its approach to tackling inequality/inequity, and its understanding of the social model of health and well-being and what this means to its local population and communities. Well-being assessments are being updated by the PSBs, however the board does not currently have an effective method of measuring the

well-being of individuals, communities, and the population. A number of plans and actions are currently in place to support mitigation of this risk, although not at population scale.

- **Principal risk 1198 - ability to support shifting of care in the community (risk score 16)**

Achieving our strategic objectives will depend on the ability to overcome complex arrangements and systems. These will need to be worked through to support a new approach to the delivery of care in line with our strategy, as well as a need to support the population in changing their behaviour and the way they have historically accessed services.

Actions to address this risk is to develop a set of integrated locality plans with our local authority and third sector partners, develop and implement a comprehensive and sustainable 24/7 community and primary care unscheduled care service model, produce a final business case for the implementation of a new hospital in the south of the Hywel Dda area for the provision of urgent and planned care, and implement the remaining elements of the Transforming Mental Health Programme, the health board has also undertaken an assessment of all its Children and Young People Services and will implement a plan to address the findings. A five-year financial plan to breakeven has also been developed and shared across the organisation and key stakeholders for feedback and support.

- **Principal risk 1199 - achieving financial sustainability (risk score 16)**

Achieving financial balance on a three-year rolling basis is a statutory requirement for the board, and a clear requirement from the board and WG. The health board's performance over the last year has demonstrated a significant improvement in the ability to operationally plan and a developing maturity within the organisation. However, the health board's financial deficit has significantly deteriorated, significant workforce constraints remain, and the planning function remains small with significant opportunities to develop. These issues are exacerbated given the health board's financial deficit, with the need to not only shift resources to more appropriate settings, however, provide care at considerably lower cost.

Actions being taken forward include development of a detailed three-year financial plan based on the finance team's assessment of allocative and technical value improvements, income opportunities and third-party expenditure value-for-money that can be captured within that timeframe. Also, to review and refresh the assessment of technical and allocative value improvements and income opportunities open to the health board, construct a five-year financial plan that achieves financial balance and commands the support of the board and WG, implement a value based health care pathway costing programme for all clinical service within three years, undertake a full analysis of our supply chain and develop a plan to deliver £16m of recurrent savings.

Corporate Risk Register (CRR)

The health board's CRR contains significant operational risks to the delivery of health care in the here and now and is reported to every other board meeting. Each risk has been mapped to a board level committee to provide assurance to the board, through its update report, on the management of these risks.

During 2021/22, the CRR has been dynamic and responsive to new and emerging risks:

Total number of risks on CRR on 1 April 2021	22
New risks added during 2021/22	13
De-escalated/Closed during 2021/22	17
Total number of risks on CRR of 31 March 2022	18

The most significant risks during the year have included:

- **Corporate risk 1027 - delivery of integrated community and acute unscheduled care services (risk score 20)**

Our ability to deliver our integrated community and acute unscheduled care services (risk 1027) fluctuated in-year as we responded to new waves of COVID-19 all against the backdrop of a significant and sustained staffing challenge. Increased hospital admissions were often compounded by an increase in infection outbreaks on wards which had a direct impact on acute care capacity which reduced our ability to admit and discharge patients within the system.

For addressing our urgent and emergency care, our plan sets out a number of priorities to mitigate the level of pressures anticipated. These centred on an integrated 24/7 single point of contact model for urgent clinical assessment and streaming, so that patients access the right service at the right time in the right place. These included a 'Contact First'/Urgent Primary Care model in order to co-ordinate our urgent care response to the exacerbating health and care needs of our population and maintain people in their own homes and communities, a Clinical Streaming Hub, including Physician Streaming, Assessment and Triage (PTAS) of potential ambulance demand, Same Day Emergency Care (SDEC) models in acute and community settings, including comprehensive frailty assessment, and management of the frail elderly, including comprehensive geriatric assessment.

In addition, our Winter Preparedness model tried to prevent the pressures crossing the threshold into our Emergency Departments, using the Enhanced Bridging Service (which we set up to provide social care), and the Delta Service, the conveyance avoidance and front door turnaround to minimise this occurrence.

- **Corporate risk 1297 - risk that the health board's underlying deficit will increase to level not addressed by additional medium term funding (risk score 20)**

This risk replaced, in part, the previous corporate risk 1163 (Risk to the delivery of the health board's draft interim Financial Plan for 2021/22 of a £25.0m deficit). Issues have previously been raised over the ability of the health board to plan at a strategic and operational level. The health board's performance over the last year has demonstrated a significant improvement in the ability to operationally plan and a developing maturity within the organisation. However, the health board's financial deficit has deteriorated and workforce constraints remain. The health board's Roadmap to Sustainability is largely predicated on a reduction to, or repurposing of, acute bed capacity; however, in the current climate of unprecedented pressures within unscheduled care and delivery of challenging recovery plans, the implementation of schemes to reduce the number of acute beds is exceptionally challenging.

The medium-term financial impact of COVID-19 on the underlying position is currently informed by modelling intelligence due to the fluid nature of the pandemic and the multitude of unknown variables inherent in such a situation. WG funding for the medium-term impact of the health board's response to COVID-19 and recovery has been confirmed, and there is currently a significant gap between the level of funding and expenditure trends and/or plans.

- **Corporate risk 1048 - risk to the delivery of planned care services set out in the Annual Recovery Plan 2021/22 (risk score 16)**

The prevalence of COVID-19 increased during the winter months, and this had a further impact on in-patient pathways which led to a number of temporary ward closures across all sites associated with COVID-19 outbreaks and the impact of the wider urgent and emergency care pressures on the planned care patient pathway.

Staffing resource, both in theatre, and post operatively, was a challenge before COVID-19, however the impact of increasing unscheduled care pressures during the autumn/winter period further reduced the available capacity to be dedicated to elective and surgical pathways. In January 2022, the health board approved the application of additional measures under the WG Local Choices Framework to reduce non-urgent elective outpatient and in-patient (IP) pathways to enable the further prioritisation of physical and staffing resources to support unscheduled care pathways. This was a temporary arrangement which was applied for two weeks, which resulted in the current risk score increasing to 20. Pathways that were affected have now been restored, reducing the current risk score back to 16.

Non-urgent elective surgical pathways were also temporarily suspended across all sites with urgent/cancer IP surgery continuing at Prince Philip and Glangwili hospitals only. Elective operating has now recommenced at all four acute hospital sites with dedicated elective pathway beds provided at Prince Philip (orthopaedics and major cancer surgery),

Withybush (general surgical and gynaecology) and Bronglais (orthopaedics, general surgery and gynaecology) hospitals.

Outsourcing programmes were supported by recovery funding provided by WG although activity rates are limited by staffing challenges at a number of independent sector locations. The significant challenge across the urgent and emergency care system continues to impact upon planned care pathways.

- **Corporate risk 1032 -timely access to assessment and diagnosis for Mental Health and Learning Disabilities clients (risk score 16)**

This risk has reflected the increasing length of time mental health and learning disabilities clients (specifically ASD, memory assessment and psychology services for intervention) are waiting for assessment and diagnosis. This was caused by new environmental (due to social distancing measures) constraints to undertake required face-to-face assessments and patients' reluctance to attend clinics due to the risk of COVID-19, as well as certain elements of some assessments being restricted due to other agencies, such as education, providing limited services at present. Management of the risk is dependent on securing recurring funding Integrated Autism Service, as well as having access to appropriate clinical venues and other agencies being able to undertake their associated assessments.

- **Corporate risk 1219 - insufficient workforce to deliver services required for "Recovery" and the continued response to COVID-19 (risk score 20)**

Our risk relating to having insufficient workforce to deliver services required for "Recovery" and the continued response to COVID-19 (risk 1219) remained high all year reflecting our challenges to respond to new variants of COVID-19, as well as a lack of alignment of service, workforce and finance information on workforce requirements for unfunded service pathways could further jeopardise workforce availability in areas of need.

Through the year, there have been monthly assessments of demand undertaken linked with service discussions in preparation for current demands and anticipated increased pressure in Winter. Several recruitment campaigns have been implemented, for areas such as the bridging service, vaccination service and TTP. Maximising use of temporary workforce availability including bank, overtime and agency by undertaking monthly assessment of resourcing pipeline and continuous review of bank Healthcare Support Workers (HCSW) recruitment. Work has also been undertaken to align funded establishment and unfunded posts to understand "workforce gap" across operational services. Continued engagement with HEIW and universities on medical, nursing, AHP/HCS and pharmacy programmes.

- **Corporate risk 684 - lack of agreed replacement programme for radiology equipment across the health board (risk score 16)**

This risk has been on the CRR since January 2019 and reflects the risk around the health board's stock of imaging equipment, which requires significant periods of urgent and planned maintenance, creating downtime in use which puts pressure on all diagnostics, significantly impacting on the health board's ability to meet its performance targets and the impact to patients can include delays in diagnosis and treatment. Equipment downtime is frequently up to a week which can put significant pressures on all diagnostic services. Whilst activity decreased due to COVID-19, the scanning of COVID-19 patients requires more time than non-COVID-19 patients, which was an issue as requests for diagnostics for non-COVID-19 patients increased as essential services resumed.

Radiology is unable to increase its service provision to other clinical directorates due to limitations on current equipment, however the new demountable CT-scanner has provided much needed resilience at Glangwili Hospital. WG agreed funding for one new CT scanner and one new MRI scanner in 2021/22 (out of five scanners required). Commissioning of agreed equipment was delayed during COVID-19, however some equipment has been installed and is operational resulting in the risk being recently reduced to 16. In addition, controls and processes are in place to mitigate the risk e.g. service maintenance contracts, daily quality assurance checks, disaster recovery plan in place.

- **Corporate risk 813 - failure to fully comply with the requirements of the Regulatory Reform (Fire Safety) Order 2005 (RRO) (risk score 15)**

There are a number of issues that the health board is working to address following a number of enforcement notices from Mid and West Wales Fire and Rescue Service (MWWFRS). One of these areas is the age, condition and scale of physical backlog, circa £20m (+), relating to fire safety (i.e. non-compliant fire doors, compartmentation defects and general fire safety management issues) across our estate significantly affects our ability to comply with the requirements of the RRO in every respect. Extensive fire safety improvement works are being undertaken at Withybush Hospital, Glangwili Hospital and at Bronglais Hospital from WG agreed funding, with phased timelines fully agreed with MWWFRS.

A new system has been procured and will be implemented in 2022/23 to address the challenges of managing the actions within the current fire safety risk assessment system, and to enable complete transparency and ongoing management of actions assigned to responsible persons. Further training has also been developed for managers to improve the culture and ownership of fire safety across the health board.

Delivery of face-to-face fire training stalled during COVID-19 however recent implementation of fire training over MS Teams has been used to improve level two fire training compliance, and this will be rolled out to other areas of fire training levels, such as Levels three, four and five.

A number of long-standing risks such as risk of delays in transfers to tertiary centres for urgent cardiac investigations, treatment and surgery and the ability to meet the waiting times for the single cancer pathway were reviewed in light of the current context as we emerge from the pandemic. Our risk relating to cyber security was also reviewed following an external review and now reflects the current context and issues. These refreshed risks are outlined below:

- **Corporate risk 1340 - risk of avoidable harm for HDUHB patients requiring NSTEMI (non-ST segment elevation myocardial infarction) pathway care (risk score 16)**

This risk replaced corporate risk 117 which related to the risk of delays in transfers to tertiary centres for urgent cardiac investigations, treatment and surgery. The new risk is focused specifically on the NSTEMI pathway as NICE guidelines for Acute Coronary Syndromes (NG185) recommend 'coronary angiography (with follow-on PCI if indicated) within 72 hours of first admission (presentation) for people with unstable angina or NSTEMI who have an intermediate or higher risk of adverse cardiovascular events' (recommendation 1.1.6). In support of this target, the health board aims to identify and refer patients to Morriston Cardiac Centre for angiography within 24 hours of admission/presentation. For 2021 the median wait between admission/presentation and angiography for Hywel Dda patients was 213.5 hours (8.9 days) and the median time between admission/presentation and referral was 39.5 hours. For context, the 2021 position is a deterioration from that maintained in 2019 where the Prince Phillip Hospital Treat and Repatriate Service supported a median admission/ presentation to angiography wait of 120 hours (five days) - this service was suspended at the outset of COVID-19 due to Prince Phillip Hospital site pressures.

- **Corporate risk 1352 - risk of business disruption and delays in patient care due to a cyber-attack (risk score 16)**

This risk replaced corporate risk 451 (cyber security breach) following an external assessment. There are daily threats to systems which are managed by Digital Health Care Wales and the health board. Cyber-attacks are becoming more prevalent, and previously hackers were not targeting health bodies, but the recent attack in Ireland, means that the possibility of an attack is ever present. A cyber-attack has the potential to severely disrupt service provision across all sites for a significant amount of time.

New actions include reviewing responsibilities for cyber security across the health board, training all Hywel Dda board members in cyber security including current threats to NHS Wales, carrying out a yearly table top exercise to practice the health board's response to a National Cyber Security Incident, implementing an Information Security Management System (i.e. ISO27001), conducting cyber security risk and vulnerability assessments of critical systems and supporting network infrastructure to capture and remediate risks to business continuity, as well as including cyber security (Secure by Design) in all maintenance, new digital and clinical initiatives and implementing a robust supply chain security process.

- **Corporate risk 1350 - risk of not meeting the 75% waiting times target for 2022/26 due to diagnostics capacity and delays at tertiary centre (risk score 12)**

This risk replaced corporate risk 633 which related to the health board's ability to meet the 75% target for waiting times in 2020/21 for the new Single Cancer Pathway (SCP). The new risk reflects the current context and issues and the new ministerial measure in respect of the SCP, with new actions identified. The impact of COVID-19 increased the risk of the health board being unable to meet the target. The delays are caused by diagnostic capacity issues across the health board in line with the infection control guidance that remain in place. The main area of concern is radiology. A decrease in capacity for appointments and results reporting within radiology, due to COVID-19 related sickness, current vacancies and planned annual leave within two of the four health board sites. Patients have been offered alternative appointments on other sites, however some patients have not agreed to attend and have requested an appointment close to home.

There was a downward trajectory in cancer performance in quarter three during 2021/22. This was due to the increase in COVID-19 related sickness, management of COVID-19 related flows and the overall impact on diagnostic and critical care. The consequence of which resulted in short-term planned and unplanned step down of activity within outpatients and planned surgery. Performance since September 2021 has been steadily deteriorating and was reported at 53% in December 2021.

The heat map below presents the health board's corporate risks (by their internal reference number) in respect of their likelihood and impact as at the end of March 2022:

HYWEL DDA RISK HEAT MAP					
	LIKELIHOOD →				
IMPACT ↓	RARE 1	UNLIKELY 2	POSSIBLE 3	LIKELY 4	ALMOST CERTAIN 5
CATASTROPHIC 5		1016	813		
MAJOR 4			1307, 1350	684, 1032, 1048, 1219, 1296, 1337, 1340, 1352	1027, 1297
MODERATE 3				129, 1328 1335, 1342	
MINOR 2					
NEGLIGIBLE 1					

Further information on corporate risks in 2021/22 can be found in our board papers:

[Corporate Risk Register Report at July 2021 Board Meeting in Public](#)

Emergency preparedness/civil contingencies

The health board has a well-established Major Incident Plan, which is reviewed and ratified by the board on an annual basis. The Major Incident Plan meets the requirements of all relevant guidance and has been consulted upon by partner agencies and assurance reviewed by the WG's Health Emergency Planning Unit. This plan, together with other associated emergency plans, details the response to a variety of situations and how the health board meets the statutory duties and compliance with the Civil Contingencies Act 2004. The Major Incident Plan was activated in October 2021 in response to a major incident event in Pembrokeshire. Following the event, a debrief was held and lessons identified which have been built into major incident processes and the current review of the plan.

Within the Act, the health board is classified as a Category One responder to emergencies. This means that in partnership with the Local Authorities, Emergency Services, Natural Resources Wales and other NHS Bodies, including Public Health Wales (PHW), the health board is the first line of response in any emergency affecting its population. To prepare for such events, local risks are assessed and used to inform emergency planning.

We continue to ensure that executive directors are appropriately skilled to lead the strategic level response to any major incident via Gold Command training, with additional senior managers/nurses trained in tactical and operational major incident response. During the last year, a mixture of virtual and face to face training has been delivered over the last twelve months.

Our response to the pandemic since the end of January 2020 has been based on well-established Command and Control structures (see [Command and Control](#) section on page 18 for further information) developed through the on-going delivery of the requirements of the Civil Contingencies Act 2004.

As previously highlighted, the need to plan and respond to the COVID-19 pandemic presented several challenges to the organisation. A number of new and emerging risks were identified. Whilst the organisation did have a major incident and business continuity plan in place, as required by the Civil Contingencies Act 2004, the scale and impact of the pandemic has been unprecedented. Significant action has been taken at a national and local level to prepare and respond to the likely impact on the organisation and population. This has also involved working in partnership on the multi-agency response as a key member of the Strategic Co-ordination Group.

The organisation continues to work closely with a wide range of partners, including the WG as it continues with its response, and planning into the recovery phase. It will be necessary to ensure this is underpinned by robust risk management arrangements and the ability to

identify, assess and mitigate risks which may impact on the ability of the organisation to achieve their strategic objectives.

The control framework

Quality governance arrangements

Providing high quality care is an inherently complex and fragile process, which needs to be underpinned by robust quality governance arrangements. A key purpose of these 'quality governance' arrangements is to monitor and where necessary improve standards of care.

Quality governance is led by the Executive Director of Nursing, Quality and Patient Experience. Our Quality, Safety and Experience Committee (QSEC) provides timely evidence-based advice to the board to assist it in discharging its functions and meeting its responsibilities with regards to quality and safety as well as providing assurance in relation to improving the experience of all those that come into contact with our services. Reports presented to QSEC in 2021/22 are listed in [Appendix 2](#) with papers available on our website [Quality, Safety and Experience Committee Meetings](#).

QSEC receive a regular assurance report which provides an overview of quality and safety across the health board. The health board uses a number of assurance processes and quality improvement strategies to ensure high quality care is delivered to patients. The report provides information on improvement work linked to themes within patient safety incident reporting, externally reported patient safety incidents, mortality review, and external inspections, for example Healthcare Inspectorate Wales (HIW).

QSEC is supported by two sub-committees. The Operational Quality, Safety and Experience Sub-Committee, which is responsible for monitoring the acute, mental health and learning disabilities services, primary and community services quality and safety governance arrangements at an operational level. The Listening and Learning Sub-Committee provides clinical teams across the health board with a forum to share and scrutinise learning from concerns arising from the following, and to share innovation and good practice. The learning may arise from a complaint, an incident, a claim, a patient story or experience feedback, external inspection and peer reviews.

The clinical executive directors hold weekly Quality and Safety Intelligence (Hot and Happening) meetings which consider significant issues which have arisen or that have the potential to impact on patient safety and identify any areas where immediate attention is required to protect safety of patients and staff. The clinical executive directors also continue to hold quality panels when required. Quality panels are the opportunity for the directors, directorate triumvirate teams and service management teams to explore quality governance issues. In 2021/22, the following Quality Panels have been held:

- Obstetrics and neonatal services
- Nosocomial COVID-19 – update on the progress of the health board reviews

- Theatres
- Primary care (General Practice)
- Health visiting
- Urology

During 2021/22, AW reviewed the Quality Governance arrangements at Hywel Dda, and found that whilst the health board is committed to providing safe, high-quality services and has aligned its strategy and plans with risk and quality improvement, there is an inconsistency between this strategic intent/ambition and operational delivery. The health board is committed to addressing these findings. An executive-led review of operational risk registers has been undertaken, and further reviews have been scheduled in 2022. A review of operational capacity has also commenced.

Quality Management System (QMS) Strategic Framework

The health board is developing a QMS Strategic Framework - the overarching formalised system that will achieve continuous improvement across the organisation. This will be delivered through 'Improving Together'. 'Improving Together' is the vehicle, which aligns the team vision to our strategic objectives and empowers teams to improve quality and performance across the organisation by setting key improvement measures aligned to their team vision. Visualisation of key data sets including improvement measures and regular team huddles help drive decision-making. The approach embraces coaching discussions and supports staff to develop solutions, embedding the principles of continuous improvement. The framework will offer a common approach to how we can adapt, adopt and spread good practice in a systematic way.

Health and Care Standards (HCS)

IA gave 'substantial' assurance in their review of the HCS in February 2021 confirming the maturity of the embedded HCS within the organisation's governance framework and has resulted in information for each standard being reported through to the Board and fully adopted into day-to-day practices.

Healthcare Inspectorate Wales (HIW)

The board is provided with independent and objective assurance on the quality, safety and effectiveness of the services it delivers through reviews undertaken by and reported on by HIW. The outcomes of any such reviews and any emanating improvement plans are discussed with any lessons learnt shared throughout the health board.

During 2021/22, HIW undertook 10 pieces of assurance and inspection work in Hywel Dda. The work involved a variety of off-site checks and on-site work. There were five Quality Checks across acute, mental health and managed primary care services, and three on-site inspections in an acute and community hospital setting.

HIW also published two national reports which the health board was invited to respond to. These related to the national review of Welsh Ambulance Service NHS Trust during the summer of 2021 and the national review of mental health crisis prevention in the community, issued March 2022.

Clinical audit

The Clinical Audit programme in 2021/22 was intended to focus on the recovery from COVID-19, reflecting audits that assess care during and after, provide evidence for effective new ways of working, service redesign or areas that have been identified as a risk during the pandemic. It has become clear that this has not been entirely possible due to the continuation of the pandemic and the impact of new variants. It is hoped that the next programme for 2022/23 will instead be able to focus on these areas.

The vast majority of National Clinical Audits and Outcome Review are still running in the health board although some clinical teams have struggled at various points to maintain full contribution. All projects continue to be assessed by the Clinical Audit Scrutiny Panel (CASP) who are liaising with services regarding improvement plans. The Clinical Audit Department will continue to work with the services to see these projects through to completion, many of which will likely carry over to 2022/23. The use of new technology in 2022/23 will help to make clinical audit resources and engagement more visible and accessible.

The Clinical Audit Department resumed its programme of Whole Hospital Audit meetings (WHAM) for 2021 in line with pre COVID-19 plans.

Mortality reviews

The Medical Examiner Service was fully established across the health board in 2021/22. A Clinical Lead for Mortality was appointed, with responsibility for supporting the development and delivery of effective processes and learning from mortality review, in line with all Wales Learning from Mortality Review Model Framework; and developing wider mortality accountability, scrutiny of all available mortality metrics and working with clinical directors and clinical leads to increase ownership and prioritisation of mortality across the health board.

Information governance (IG) arrangements

The health board has well established arrangements through information governance framework to ensure that information is managed in line with relevant information governance law, regulations, and Information Commissioner's Office (ICO) guidance. The framework includes the following:

- An Information Governance Sub Committee (IGSC), whose role it is to support and drive the information governance (IG) agenda and provide the health board with the assurance that effective IG best practice procedures are in place within the organisation;

- A Caldicott Guardian who is the responsible person for protecting the confidentiality of patient and service-user information and enabling appropriate information sharing;
- A Senior Information Risk Owner (SIRO) is responsible for setting up an accountability framework within the organisations to achieve a consistent and comprehensive approach to information risk assessment;
- A Data Protection Officer (DPO) whose role it is to ensure the health board is compliant with data protection legislation; and
- Information Asset Owners (IAOs) are in place for all service areas and information assets held by the health board and a programme of compiling a full asset register for the health board is underway.

We have responsibilities in relation to freedom of information, data protection, subject access requests and the appropriate processing and sharing of personal identifiable information.

Assurances that the organisation has compliant IG practices are evidenced by:

- Quarterly reports to the IGSC, including key performance indicators;
- A detailed operational UK General Data Protection Regulations (GDPR) work plan, taken to IGSC bi-monthly, detailing progress made against actions required to ensure compliance with data protection legislation;
- A suite of IG and information security policies, procedures and guidance documents;
- IG Intranet pages for the health board's employees with guidance and awareness;
- A comprehensive bi-annual mandatory IG training programme for all staff, including proactive targeting of any staff non-compliant with their IG training;
- A robust management of all reported Personal Data breaches, including proactive reporting to the ICO;
- Regular monitoring of the health board's systems for inappropriate accesses to patients' personal data through the National Intelligent Integrated Audit Solution (NIIAS) platform;
- An Information Asset Register (IAR) used to manage information across the health board; and
- All IG issues have been escalated through the People, Planning and Performance Assurance Committee (PPPAC) (until August 2021), and subsequently through Sustainable Resources Committee. The Committee papers can be viewed here: [Sustainable Resources Committee](#) and [People, Planning and Performance Assurance Committee](#).

The NIIAS that audits staff access to patient records has been fully implemented within the organisation, with an associated training programme for staff, and procedures for managing any inappropriate access to records. In addition to the above training, there are regular staff communications, group training sessions, as well as IG 'drop in' sessions held across the health board. Posters, leaflets, staff briefings have all been used to disseminate information to staff around the importance of confidentiality, appropriate access to patient records and ensuring information is shared in an appropriate way.

The health board has undertaken a full review of its position against the Welsh Information Governance Toolkit and Caldicott Principles into Practice Assessment (CPIP). Both assessments demonstrate a good level of assurance of information governance risks.

Staff training numbers have steadily increased with the compliance at the end of March 2022 at 77.94%, a slight decrease from 78.79% over the past 12 months. This is attributed to the impact of the COVID-19 pandemic on the health board's workforce.

The health board continues to reinforce awareness of key principles of Data Protection legislation. This includes the overarching principle that users must only handle data in accordance with people's data protection rights.

Code of Corporate Governance

Whilst there is no requirement to comply with all elements of the Corporate Governance Code for Central Government Departments, an assessment was undertaken in March 2022 against the main principles as they relate to an NHS public sector organisation in Wales. This assessment was informed by the AW Structured Assessment 2021: (Phase 2) Corporate Governance and Financial Management Arrangements, and its assessment against HCS 1 GLA Module (as noted on previous page). The health board is satisfied that it is complying with the main principles of and is conducting its business in an open and transparent manner in line with the code. There were no reported/identified departures from the Corporate Governance Code during the year.

Governance, Leadership and Accountability (GLA)

The health board undertook a self-assessment to consider how it operated in accordance with the following criteria for the HCS for GLA Standard in 2021/22:

- Health services demonstrate effective leadership by setting direction, igniting passion, pace and drive, and developing people;
- Strategy is set with a focus on outcomes, and choices based on evidence and people insight. The approach is through collaboration building on common purpose;
- Health services innovate and improve delivery, plan resource and prioritise, develop clear roles, responsibilities and delivery models, and manage performance and value for money; and
- Health services foster a culture of learning and self-awareness, and personal and professional integrity.

Further information can be found in the Board Effectiveness report to ARAC in May 2022. This report is can be accessed in our ARAC papers [here](#).

Health and safety

During 2021/22, the Health and Safety Executive confirmed that the health board had complied with all the extended Improvement Notices and recognised the very significant

improvement in the profile, understanding and leadership of health and safety management at senior level since their intervention in 2019.

Fire safety

The health board continues to address the five outstanding Enforcement Notices and 18 Letters of Fire Safety Matters issued by the Mid and West Wales Fire and Rescue Service (MWWFRS). Two additional Enforcement Notices have had all works completed, with the MWWFRS invited to inspect the completed work, by the end of March 2022. Extensive fire safety improvement works are being undertaken at Withybush Hospital, Glangwili Hospital and at Bronglais Hospital from WG agreed funding, with regular progress updates reported to the HSC, which provides assurance to the board on the work undertaken towards improving compliance.

Planning arrangements

In March 2020, the WG took the unprecedented decision to pause the IMTP and annual planning process to enable NHS Wales organisations to focus its attention on the immediate preparations for and response to the COVID-19 pandemic, advising that routine planning arrangements would be restarted at a more appropriate time.

Given the continuation of the pandemic, WG requested an Annual Plan for 2021/22, rather than an IMTP. In March 2021, the board approved its draft Annual Recovery Plan 2021/22, which set out to the organisation and WG the priorities for 2021/22. The full plan was submitted to June 2021 board for final approval and subsequently submitted to WG. The strategic objectives and planning objectives, approved by board in September 2020, formed the foundations of the plan with the focus, first and foremost, on how the health board continues to address, and recover from the COVID-19 pandemic; how it will support staff to recover after the challenges of the past year; and how it will lay the foundations to recover its system/services and support communities to thrive.

Our plan recognised a planned deficit of £25m in the 2021/22 financial year and did not recover the cumulative deficit incurred to date (which was reset to 1 April 2020). As a result of this, we presented a budget which breached our statutory financial duty for the three-year period. The health board had a deficit position of £35.4 million in 2018/19, £34.9m in 2019/20 and £24.9m in 2020/21. We are cognisant that financial planning and the delivery of our strategy is needed for long-term financial stability and sustainability.

The health board recognises the seismic shift that COVID-19 has had on planning, deployment and implementation of systems, structures, and services. The impact has been both significant and dynamic and cannot be underestimated. It has changed and advanced the way we approach our planning, meaning that many changes previously identified for the longer-term have been implemented sooner than envisaged, with digital enablement a prime example. This means that planning assumptions were re-thought, along with their timelines, as the health board moved into a transformational period. Despite the challenges and

fundamental changes encountered during 2021/22, there have been unexpected opportunities presented to re-set, accelerate and expedite, where appropriate, the transformation of our services.

The health board wrote to WG in February 2022 to formally notify them through an accountability letter that, unfortunately, we would not be able to submit a financially balanced IMTP by 31 March 2022. Instead, it would be the board's intention to submit a draft Three-Year Plan 2022/25, with a robust and detailed focus on 2022/23 actions, which we intend will set the foundations for an IMTP to be submitted in the summer. This notification was based on the premise that the health board's underlying deficit has worsened over the last two financial years following the gaps in delivery of recurrent savings in 2020/21 and 2021/22 and, as such, there is currently insufficient assurance to allow the health board to propose an IMTP for the March 2022 submission.

We are committed to address these savings gaps and are in the process of constructing a clear core plan, focusing on recovery, which will allow us to get back on track with our financial roadmap. For 2022/23 this will be coupled with ensuring that the exceptional economic challenges we face next year are well described and assessed. A significant review of our COVID-19 response is already underway, aimed at restoring services or embedding beneficial changes that have been made over the last two years – establishing our new normal.

Value based health care approaches are being taken across the whole organisation, and it is our aspiration that a target operating model can be constructed to focus our delivery of services in the most optimum way for our patients, with this forming a critical part of our approach to the medium-term outlook and aligning with the design assumptions set out in our strategy and recent Programme Business Case.

Disclosure statements

Equality, diversity and inclusion

The health board is committed to putting people at the centre of everything it does. The vision is to create an accessible and inclusive organisational culture and environment for everyone. This includes staff, those who receive care (including their families and carers), as well as partners who work with the organisation - whether this is statutory organisations, third sector partners or communities. This means thinking about people as individuals and taking a person-centred approach, so that everyone is treated fairly, with integrity, dignity and respect, whatever their background and beliefs.

Control measures are in place to ensure that the organisation's obligations under equality and human rights legislation are complied with.

- The board approved a revised Strategic Equality Plan and objectives for the period 2020/24. COVID-19 exacerbated inequalities for those with protected characteristics and

communities that are socio economically deprived so, in response we reviewed our plans outlining how we were going to meet those objectives;

- The requirements of the Socio-economic Duty which became law in 2021 were embedded into the health board's strategic decision making process;
- The Equality Impact Assessment (EqIA) process was reviewed, to incorporate the Socio-economic duty, and an EqIA training programme has been developed for staff.
- Equality and Human Rights training is mandatory for all staff;
- Progress in our work to advance equality and good relations is reported to WG, through the NHS Delivery Framework qualitative reporting process. Reports on work to address inequalities for specific groups are also periodically considered at Board Committees;
- A Strategic Equality Plan Annual Report is published annually, alongside a Workforce Equality Report and Gender Pay Gap Report.

This year, the health board received a Silver Award from Stonewall, the world's second-largest LGBTQ+ charity, in recognition of our commitment to the inclusion of lesbian, gay, bi, trans and queer people in the workplace.

Equality objectives

The work to progress the equality agenda is inter-linked with our work around the Well-being of Future Generations (Wales) Act 2015 (WFGA) and the Social Services and Well-being (Wales) Act 2014. For more information on the Strategic Equality Plan and objectives and progress outlined in the annual reports, visit <https://hduhb.nhs.wales/about-us/governance-arrangements/equality-diversity-and-inclusion/equality-diversity-and-inclusion-documents/>.

Examples of key highlights for 2021/22 include:

- The introduction of a Community Development Outreach Team, to engage with marginalised communities and those most affected by the COVID-19 pandemic, to be a trusted source of health promotion messages, increase the uptake of COVID-19 vaccines and remove barriers to accessing healthcare services;
- Provision of equality and diversity training for staff on a variety of topics, to give them the confidence and skills to challenge discrimination and create a fairer, more inclusive environment for all;
- Creation of a Black, Asian and Minority Ethnic Staff Network and re-launching the Enfys Network for LGBTQ+ staff and their allies;
- Undertaking 126 Equality Impact Assessments during 2021/22, including 8 associated with service change and 70 related to clinical policies. We remain committed to conducting appropriate equality impact assessments, closely linked with our commitment towards continuous engagement.

NHS pension scheme

As an employer with staff entitled to membership of the NHS Pension Scheme, control measures are in place to ensure all employer obligations contained within the scheme

regulations are complied with. This includes ensuring that deductions from salary, employer's contributions, and payments into the scheme are in accordance with the scheme rules, and that member Pension Scheme records are accurately updated in accordance with the timescales detailed in the regulations. The health board confirms that it acts strictly in compliance with the regulations and instructions laid down by the NHS Pensions Scheme and that control measures are in place about all employer obligations. This includes the deduction from salary for employees, employer contributions and the payment of monies. Records are accurately updated both by local submission (Pensions On-Line) and from the interface with the Electronic Staff Record (ESR). Any error records reported by the NHS Pension Scheme which arise are dealt with in a timely manner in accordance with Data Cleanse requirements.

Environment, sustainability and carbon reduction

The health board has continued to improve performance in a number of key areas over the last year including carbon reduction, transport, waste, and energy despite the impact from the COVID-19 pandemic. Improved performance has been achieved through delivery of several energy efficiency/decarbonisation projects, maintenance of the Environmental Standard ISO14001, increased agile working, encouraging reuse and delivery of source segregated recycling schemes.

Additionally, in response to the publication of the 'All Wales NHS Decarbonisation Strategy' in March 2021, the health board has embedded this requirement within Planning Objective 6G and will work towards achieving this objective by developing and endorsing a strategic roadmap to respond to the WG ambition for NHS Wales to contribute towards a public sector wide net zero target by 2030.

The health board has commissioned the Carbon Trust to develop this strategic road map by the first quarter of 2022/23. The health board will set out a work programme and implement this plan to meet the targets established in the NHS Wales Decarbonisation Strategic Delivery Plan in the areas of carbon management, buildings, transport, procurement, estate planning and land use, and its approach to healthcare including promoting clinical sustainability. Where feasible, through the opportunities presented via the health board's transformation journey, it will look to exceed targets and establish best practice models and pilots, as exemplars for the NHS and wider public sector. In addition to the Decarbonisation Strategy, over the last year, the health board has also developed a Waste Strategy detailing the targets the health board will need to reach to meet legislative targets for waste management by 2030 and 2050. The overall aim of delivering on these strategies will be to reduce the health board's carbon footprint to support the wider public sector ambition to address the climate emergency and to embed the decarbonisation agenda and circular economy commitment across the organisation. In doing so, year on year performance in Environmental, Sustainability and Carbon reduction will improve.

From a climate change viewpoint, we recognise the impact of climate change in the work we do around severe weather planning and highlight this within the Dyfed Powys LRF Severe Weather Arrangements. These arrangements cover four elements: flooding, severe winter weather, heatwave and drought. The arrangements cover elements such as risk, alerting mechanisms, multi-agency command and control structures, warning and informing and training/exercising.

In 2021, an extreme heat warning service was introduced to warn of the potential impacts of these higher temperatures helping people to make better decisions to stay safe. The warning is not threshold based and hence can consider forecast temperatures, the persistence of a hot spell, and information from partners regarding vulnerability of services to the heat etc when assessing whether a warning is required. This system is now being reflected in the Dyfed Powys LRF severe weather arrangements.

Data security

The health board has adopted and implemented a robust procedure for managing Personal Data Breaches across the organisation, that ensures incidents are reported in line with statutory requirements and lessons are learnt to improve future practice. The health board has had contact with the Information Commissioner's Office (ICO) in relation to 13 incidents during the year (self-reported by the health board). Nine incidents involved health board's medical records accessed by an unauthorised individual. Three incidents related to the health board's information being disclosed in error and one incident involved non-secure disposal (paper). Eleven incidents have been closed by the ICO with no further action required and two incidents are still being investigated by the ICO.

Throughout the pandemic, the scale of coordination and data management required for effectively implementing strategic plans to deal with the situation remained the same, and has relied on adopting digital technology and integrating it into the health board. Digital health technology can facilitate responses to the pandemic in ways that are difficult to achieve manually, however the health board has ensured that essential controls are maintained or quickly established to mitigate issues IG related risks.

Additionally, the Cyber Security Team continues to provide security architecture advice, ensuring designs follow security best practice and follow the requirements of the Network and Information Systems Regulations (NISR). The Cyber Security Team has also made progress with the tools and capabilities available to Hywel Dda. NISR is designed to protect critical national infrastructure against cyber-attacks. This regulation applies to all parts of the UK and EU and came into force in May 2018, alongside the GDPR/Data Protection Act. As part of NHS Wales, the health board is an Operator of Essential Services and has a legal obligation to comply with NISR.

Quality of data

The health board makes every attempt to ensure the quality and robustness of its data and has regular checks in place to assure the accuracy of information relied upon. However, the multiplicity of systems and data inputters across the organisation means that there is always the potential for variations in quality, and therefore always scope for improvement. We have an ongoing data quality improvement plan which routinely assesses the quality of our data across key clinical systems.

Good quality clinically coded data plays a fundamental role in the management of hospitals and services. Coded data underpins much of the day-to-day management information used within the NHS and is used to support healthcare planning, resource allocation, cost analysis, assessments of treatment effectiveness and can be an invaluable starting point for many clinical audits. The Clinical Coding Development Plan has taken root and the health board is now regularly achieving 95% completion within one month of discharge.

Work continues to be undertaken to drive towards reducing the reliance on physical case notes and pushing the use of electronic documentation in line with the development of the Clinical Record Keeping Policy. This will further support the improvement of the clinical coding data and its uses.

Ministerial Directions

The WG has issued a number of Non-Statutory Instruments during 2021/22. Details of these and a record of any Ministerial Direction given is available on the following link:

<https://gov.wales/publications>.

A schedule of the directions, outlining the actions required and the health board's response to implementing these was presented to the ARAC as an integral element of the suite of documents evidencing governance of the organisation for the year. From this work it was evidenced that the health board was not impeded by any significant issues in implementing the actions required as has been the situation in previous years. All directions issued have been fully considered by the Sustainable Resources Committee, on behalf of the board, and where appropriate, implemented (See [Appendix 3](#)).

In respect of the Ministerial Direction issued in December 2019 regarding the NHS Pension Tax Proposal 2019 to 2020, we have made all reasonable endeavours to comply with the direction.

Further guidance was issued from WG in February 2021, and we are aware of three individuals who have elected to join the 'Scheme Pays Scheme'. The scheme was extended to March 2022.

Welsh Health Circulars (WHCs)

Welsh Health Circulars (WHCs) are published by the WG to provide a streamlined, transparent and traceable method of communication between NHS Wales and NHS organisations. WHCs relate to different areas such as policy, performance and delivery, planning, legislation, workforce, finance, quality and safety, governance, information technology, science, research, public health and letters to health professionals.

Following receipt, these are assigned to a lead director who is responsible for the implementation of required actions. The board has designated oversight of this process to board level committees, with an end-of-year report provided to the ARAC which can be found [here](#).

Review of effectiveness

As Accountable Officer, I have responsibility for reviewing the effectiveness of the system of internal control. The review of the system of internal control is informed by the work of the Internal Auditors, and the Executive Officers within the organisation who have responsibility for the development and maintenance of the internal control framework, and comments made by external auditors in their audit letter and other reports.

The board and committees rely on a number of sources of internal and external assurances which demonstrate the effectiveness of the health board's system of internal control and advise where there are areas of improvement. These include:

- Feedback from WG and the specific statements issued by the Minister for Health and Social Services;
- Local Counter-Fraud and Post Payment Verification Activity;
- Inspections by Healthcare Inspectorate Wales;
- Delivery of audit plans and reports by external and internal auditors;
- Feedback from statutory Commissioners;
- Feedback from staff, patients, service users and members of the public;
- Assurance provided by ARAC and other committees of the board;
- AW Structured Assessment.

Internal Audit (IA)

IA provide me as Accountable Officer and the board through the Audit Committee with a flow of assurance on the system of internal control. I have commissioned a programme of audit work which has been delivered in accordance with public sector internal audit standards by the NHS Wales Shared Services Partnership. The scope of this work is agreed with the Audit Committee and is focussed on significant risk areas and local improvement priorities.

The overall opinion by the Head of Internal Audit on governance, risk management and control, is a function of this risk-based audit programme and contributes to the picture of

assurance available to the board in reviewing effectiveness and supporting our drive for continuous improvement.

The programme has been impacted by the need to respond to the COVID-19 pandemic with some audits deferred, cancelled or curtailed as the organisation responded to the pandemic. The Head of Internal Audit is satisfied that there has been sufficient internal audit coverage during the reporting period to provide the Head of Internal Audit Annual Opinion. In forming the opinion, the Head of Internal Audit has considered the impact of the audits that have not been fully completed.

Throughout 2021/22, the Head of Internal Audit has met weekly with the board secretary and when required, the Director of Finance to discuss and consider any changes to the Internal Audit plan, either to accommodate fluctuations in operational demand or changing priorities.

Head of Internal Audit Opinion

As a result of responding to new variants of COVID-19, the IA programme has been subject to change during the year, to ensure that key developing risks are covered. Although changes have been made to the plan during the year, IA have undertaken sufficient audit work during the year to be able to provide an overall opinion in line with the requirements of the Public Sector Internal Audit Standards.

The Head of Internal Audit has concluded for 2021/22:

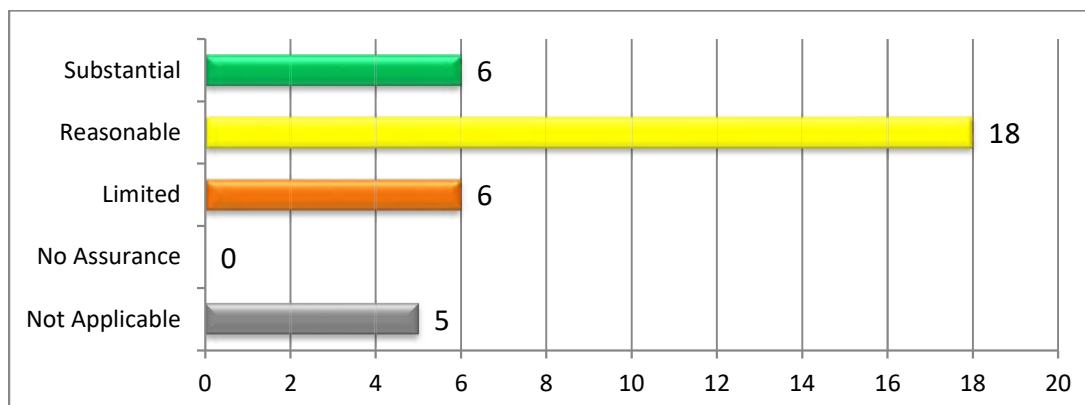

Reasonable assurance		The board can take Reasonable Assurance that arrangements to secure governance, risk management and internal control, within those areas under review, are suitably designed and applied effectively. Some matters require management attention in control design or compliance with low to moderate impact on residual risk exposure until resolved.
----------------------	---	--

The audit coverage in the plan agreed with management has been deliberately focused on key strategic and operational risk areas; the outcome of these audit reviews may therefore highlight control weaknesses that impact on the overall assurance opinion.

During 2021/22, the health board has received positive audit opinions in a number of governance-related audits, including reviews on its Risk Management and Board Assurance Framework (Substantial), Financial Planning, Reporting and Monitoring (Reasonable), Performance Reporting and Monitoring (Substantial), Annual Recovery Plan/Planning Objectives (Reasonable), and Workforce Planning (Substantial). In addition to this, several Directorate Reviews were undertaken in Mental Health and Learning Disabilities, Women and

Children, Therapies and Health Sciences and Prince Philip Hospital which all provided Reasonable Assurance.

This opinion is based on the following opinions issued during the year:

Overall, IA have provided the following assurances to the Board that arrangements to secure governance, risk management and internal control are suitably designed and applied effectively in the areas in the table below.

Summary of Audits 2021/22:

Substantial Assurance	Reasonable Assurance
<ul style="list-style-type: none"> IT Back Ups Workforce Planning Performance Management & Reporting NIS Directives Organisational Values & Staff Well-being Risk Management & Board Assurance Framework 	<ul style="list-style-type: none"> HTA Compliance Single Tender Actions Women & Child Health Directorate Governance Medical Staff Recruitment Waiting List Risk Management Mental Health & Learning Disabilities Directorate Governance Prince Phillip Hospital Directorate Governance Planning Objectives and Recovery Plan Therapies Directorate Governance Financial Management & Reporting IM&T Mental Health Patient Administration System (MH PAS) Follow up Use of Consultancy Follow up Waste Management Primary Care Clusters

	<ul style="list-style-type: none"> • Women and Children Capital Scheme • Nurse Staffing Act • Partnership Governance Follow up • Infection Prevention & Control
Limited Assurance	Advisory/Non-Opinion

No Assurance	
N/A	

Whilst there were no audited areas that resulted in 'no assurance', the following audit reports were issued with a conclusion of limited assurance. Three of these requested by the health board. These areas have been included on the Internal Audit Plan for 2021/22:

- **Use of consultancy**

This review highlighted one high priority matter relating to the absence of appropriate guidance setting out the definition of consultancy engagements and the impact this had on determining the appropriate level of approval required for the expenditure reviewed, along with three other medium priority recommendations. Other matters arising included incomplete evidence of progress monitoring/post completion reviews, absence of a central record and inaccurate financial coding of consultancy engagements, and that consultancy usage/spend is not collectively monitored or reported.

The follow up review resulted in 'reasonable assurance' noting that action has been taken by management to address the findings, resulting in the high and one medium priority matters arising being addressed and now closed:

- A 'Use of Consultancy' Financial Procedure has been developed setting out the circumstances, process and approval requirements for engaging external consultants. The procedure was approved by the Sustainable Resources Committee in October 2021;
- The procedure requires an exit meeting with the consultant, to identify issues, lessons learnt, establish whether objectives were met and what did/not go well. Post Project Evaluation templates have been developed to facilitate this.

Further action is required in relation to the two remaining medium priority matters arising.

- **Welsh Language Standards**

This review identified several issues such as embedding the standards into the service plans of the organisation, the identification and recording of risks in relation to the standards and failure by some directorates to complete the self-assessment tool. Work has commenced regarding the strategic approach and ambition in terms of the Welsh language and this will be incorporated health board's three-year plan as a planning objective which can be measured. As some of the completion dates were not due until next year, this will be followed up as part of the 2022/23 Internal Audit plan.

- **Mental health patient administration system**

This review looked at the arrangements in place for the implementation of the Welsh patient administration system in Mental Health and Learning Development and identified inadequate project management arrangements. Key matters arising concerned the lack of an internal business case, limited project planning, management and governance, inadequate resource made available to the project, both in number and skill-level, lessons learned not recorded throughout project lifecycle and post-implementation review not yet undertaken.

The follow up, which resulted in 'reasonable assurance', recognised that considerable progress has been made in addressing the five matters arising from the previous internal audit, completed only two months ago. Management acted promptly to review and update project management documentation and strengthen governance arrangements. Agreed actions relating to four of the high priority recommendations have been addressed and closed, two are ongoing and not yet due for review and two have been partially implemented.

- **TriTech governance**

This review was undertaken to evaluate and determine the adequacy of the systems and controls in place within the health board for governance arrangements for the TriTech Institute. Overall, the governance arrangements for the setup and establishment of the TriTech Institute have concluded 'limited assurance'. This was based on the lack of a board-approved business case and a lack of a clear financial structure.

Whilst the lack of a board-approved business case impacts on many of the objectives within this review, IA provided assurance on the arrangements and actions that have been undertaken. IA also identified a number of matters arising that require refinement and further development. The report identified six matters arising, with two of these being high priority in respect of submission and approval of a business plan and the financial governance. This will be followed up as part of the 2022/23 Internal Audit plan.

- **Non-clinical agency**

This review was undertaken to establish whether appropriate arrangements are in place for the appointment and monitoring of temporary staffing solutions. Two high priority matters have been identified relating to the procurement, identification and monitoring of non-clinical temporary staff. Accordingly, an overall rating of 'limited assurance' was concluded. This will be followed up as part of the 2022/23 Internal Audit plan.

- **Prevention of self-harm**

This review was undertaken to establish whether there were robust arrangements in place for the prevention of self-harm following several improvement actions identified by Health Inspectorate Wales (HIW) to mitigate points of ligature risk within the health board.

The arrangements in place for recording and monitoring HIW actions through to implementation were satisfactory, and no issues were identified with the arrangements for incident monitoring. However, a limited assurance rating was issued as IA identified three high priority matters requiring immediate attention relating to the arrangements for ligature audits, specifically:

- the absence of sufficient, consistent processes in place for the completion of ligature audits, resulting in a lack of clarity regarding the audit requirements for community and learning disability residential sites, and use of a very basic inadequate template to undertake the audits;
- whilst audits had been completed for most mental health inpatient sites during 2021, in some cases it was clear that they had not been completed annually; and
- failure to clearly identify, monitor and implement improvement actions to address issues arising in the ligature audits.

This will be followed up as part of the 2022/23 Internal Audit plan.

Management responses that detail the actions to address gaps in control were included in all final IA reports presented to ARAC. The delivery of these actions is tracked via the health board's audit tracker which is overseen by the ARAC. The minutes and all final IA reports can be found within the ARAC section of the website <https://hduhb.nhs.wales/about-us/governance-arrangements/statutory-committees/audit-and-risk-assurance-committee-arac/>.

Where audit assignments planned this year did not proceed to full audits following preliminary planning work, these were either removed from the plan, removed from the plan and replaced with another audit, or deferred until a future audit year. The following audits were deferred.

Review Title	Objective
Quality & Safety Governance Framework	Deferred due to operational service pressures as a result of the pandemic.
Restart of Elective Work /Planned Recovery	Deferred due to operational service pressures as a result of the pandemic.
Clinical Audit	Deferred due to operational service pressures as a result of the pandemic.
Public Health	Deferred due to operational service pressures as a result of the pandemic.
Continuing Health Care	Deferred due to operational service pressures as a result of the pandemic
IT Infrastructure	Operational service pressures as a result of the pandemic impacted on timescales for infrastructure update.
Commissioning	Deferred due to operational service pressures as a result of the pandemic.
Consultants Job Planning	Deferred due to operational service pressures as a result of the pandemic.
Decarbonisation	Deferred based on changes to national deadlines and requirements.
Falls	Deferred due to operational service pressures as a result of the pandemic.

Audit Wales (AW) structured assessment

The AW Structured Assessment is a process that looks at whether the health board has made proper arrangements to secure economy, efficiency, and effectiveness in their use of resources. In 2021, AW undertook the structured assessment process in two phases.

Phase one considered the health board's operational planning arrangements and how these are helping to lay the foundations for effective recovery. AW overall assessment was that 'the health board's arrangements for developing operational plans are generally effective although it does not have the processes necessary to monitor and review progress in delivering its priorities'. This resulted in four recommendations that the health board is working to implement relating to alignment of plans, planning capacity, performance tracking and monitoring and reporting. The full report can be accessed on the AW website [here](#).

Phase two considered how corporate governance and financial management arrangements adapted over the last 12 months. The key focus of the work has been on the corporate arrangements for ensuring that resources are used efficiently, effectively, and economically, and considered how business deferred in 2020 has been reinstated and how learning from the pandemic is shaping future arrangements for ensuring good governance and delivering value for money.

AW found through their Phase Two work that 'the health board has effective board and committee arrangements committed to high quality services and staff well-being and has well-developed plans that are now routinely monitored. A number of innovative approaches have been adopted to aid scrutiny and assurance, and although operational arrangements for risk and quality governance have posed some risks, improvement action is now underway'.

AW noted that the board continues to conduct business in an open and transparent way and has maintained good governance arrangements which have been adapted when needed. Other key messages in the report included:

- The health board has well developed plans for continuing its response to COVID-19 and to reset and recover services, whilst also laying the foundations to deliver its longer-term strategic intent;
- Partnerships are working well and there has been good engagement with the public.
- Availability of additional capacity is presenting risks to the health board, but there are now good mechanisms in place to monitor and scrutinise delivery of its plans;
- The health board is committed to delivering high quality services and supporting staff well-being;
- An innovative approach to enable effective scrutiny of strategic risks and outcomes is in place through the interactive Board Assurance Framework and performance dashboard;
- The health board has a well-managed approach to monitoring the implementation of audit and review recommendations;
- Operational risk and quality governance arrangements have posed a risk to receiving the required levels of assurance, but work is now underway to address these.

In respect of managing its financial resources, AW found that 'the health board continues to face significant financial challenges, it has maintained appropriate financial controls and monitoring and reporting is robust. The health board is working hard to achieve financial recovery but is managing a number of risks and delivery is being hindered by operational capacity to develop recurring saving schemes'. Key messages in the report included:

- The health board was unable to meet its financial duties for 2020-21, ending the year with a deficit of £24.9 million;
- The health board is on track to deliver its financial plan for 2021-22 but is managing a number of risks which could have consequences for future years, and it will continue to fail to meet its financial duties due to a planned year-end deficit;

- The health board has robust arrangements in place for monitoring and scrutinising its financial position, supported by comprehensive and transparent reporting.

It was the second consecutive year that the health board has not received any recommendations in respect to its corporate governance and financial management arrangements. The full report can be accessed in the ARAC papers [here](#). This report alluded to the review of quality governance arrangements at Hywel Dda, which did identify that several recommendations be addressed in respect of the effectiveness of quality and safety sub-groups, operational leadership, operational risk registers and operational risk management.

AW also undertook a number of national reports on national programmes that were established in response to COVID-19, among these was their review 'Taking Care of the Carers? How NHS bodies supported staff well-being during the COVID-19 pandemic' which provided a number of recommendations for NHS bodies across Wales that included organisations retaining a strong focus on staff well-being, considering workforce issues in recovery plans, evaluating the effectiveness and impact of the staff well-being offer, enhancing collaborative approaches to supporting staff well-being, providing continued assurance to boards and committees on staff well-being, building on local and national staff engagement arrangements, evaluating the national staff well-being offer and the all-Wales COVID-19 Workforce Risk Assessment Tool. The organisation has taken forward a number of staff well-being initiatives during the year which are outlined in the Performance Report.

Conclusion

At the time of preparing this Governance Statement, the pandemic continues to have an impact on service delivery. 2021/22 has been our most challenging year to date, as we have continued to respond to the pandemic, deal with the backlog of patients that has prevailed, whilst keeping one eye firmly on the future. Whilst we anticipate that COVID-19 will be with us for the foreseeable future, we are looking to respond to the legacy of the pandemic and return as much as possible to 'business as normal'.

As Accountable Officer, based on the review process outlined above, I have reviewed the relevant evidence and assurances in respect of internal control. Taking into account the evidence detailed in this Statement, together with feedback from WG regarding our current escalation status of 'Enhanced Monitoring', from AW via their Structured Assessment and from Internal Audit's assurance assessment, I have concluded that overall, the health board's systems of internal control have not been materially affected and am assured that our internal control and governance systems have operated satisfactorily during 2021/22.

It has been encouraging that we have remained at 'enhanced monitoring' status particularly as the health board's underlying deficit has worsened over the last two financial years following the gaps in delivery of recurrent savings in 2020/21 and 2021/22. We are committed to reducing our status to 'routine monitoring' by addressing this challenge and are in the

process of constructing a clear core plan, focusing on recovery, and will allow us to get back on track with our financial roadmap. For 2022/23 this will be coupled with ensuring that the exceptional economic challenges we face next year are well described and assessed.

A significant review of our COVID-19 response is already underway, which will be transitioned into the new normal through our plans. Value based health care approaches are being taken across the whole organisation. It is our aspiration that a target operating model can be constructed to focus our delivery of services in the most optimum way for our patients and population, with this forming a critical part of our approach to the medium-term outlook. This will align with the design assumptions set out in our strategy and Programme Business Case. The health board aims to submit an IMTP to WG in July 2022 that will reconcile the need for a balanced IMTP against the health board's deficit and the ongoing focus on the recovery of our services.

For the second consecutive year, AW have provided positive feedback on our corporate arrangements for ensuring that resources are used efficiently, effectively, and economically during 2021, with no recommendations made regarding our corporate and financial governance arrangements. AW reported that that we have effective board and committee arrangements and have a number of innovative approaches to aid scrutiny and assurance, in fact commending us on our new interactive Board Assurance Framework and performance dashboard. The full report can be accessed on the AW website [here](#). We are however fully cognisant of the need to build on this excellent work and strengthen our operational governance through the next year.

AW also reported that the health board continues to face significant financial challenges, it has maintained appropriate financial controls and monitoring, and reporting is robust. Gaining financial sustainability is a key ambition for the health board.

During 2021/22, we have proactively identified areas requiring improvement and requested IA undertake targeted reviews to improve our internal control. As expected, these have identified areas of improvement that will be addressed by management action. IA's focus on our governance arrangements included reviews into our financial planning, reporting and monitoring arrangements, our Annual Recovery Plan, performance reporting and monitoring and our risk management arrangements which have provided the board with both substantial and reasonable assurance in these areas.

Despite still being in a pandemic, we have now complied with all the Improvement Notices issued by the HSE and continue to address the Fire Enforcement Notices issued by MWWFRS.

As a board, we have continued to deliver against our strategic objectives and have made substantial developments over the last year. These have included the development of our Board Assurance Framework, the submission of our Programme Business case to WG, opening of the Special Care Baby Unit at Glangwili Hospital, the introduction of our Enhanced Bridging Service, the development of our decarbonisation agenda and the extension of our

work around Value Based Healthcare and the Foundational Economy. During 2022/23, the health board will build upon the work started in 2021/22 around our planning objectives and has developed and re-designed these objectives to move us towards the future we set out in our long-term health and care strategy, 'A Healthier Mid and West Wales'.

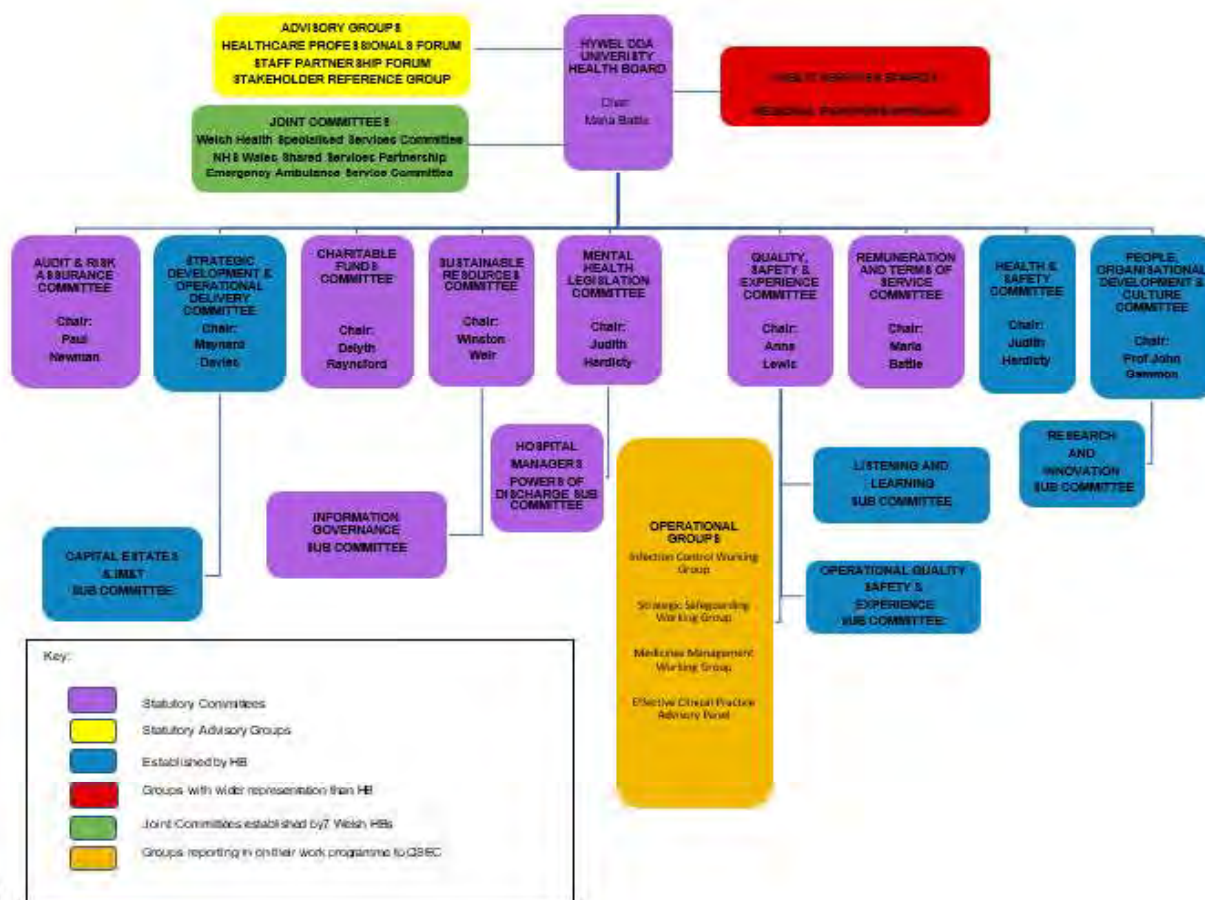

As indicated throughout this statement and the Annual Report, the need to plan and respond to the COVID-19 pandemic has had a significant impact on the organisation, wider NHS and society as a whole. It has required a dynamic response which has presented a number of opportunities in addition to new and unprecedented risks. The need to respond and recover from the pandemic will be with the organisation and wider society for the foreseeable future. I will ensure our Governance Framework continues to consider and respond to this need.

Date:

**Steve Moore,
Chief Executive Officer**

Appendix 1 – Board and Committee structure

Appendix 2 – A summary of key items considered by committees in 2021/22

Audit and Risk Assurance Committee (ARAC)

The role of the Audit Committee is to advise and assure the board, and the Accountable Officer, on whether effective arrangements are in place to support them in their decision taking and in discharging their accountabilities in accordance with the standards of good governance determined for the NHS in Wales. Items considered:

- IA Plans were submitted to each meeting providing details relating to outcomes, key findings and conclusions
- AW reports on current and planned audits
- Internal & External Audit Tracking Reports
- Post Payment Verification Reports
- Counter Fraud Reports
- Annual Accounts, Accountability and Remuneration Reports for 2020/21
- Financial Assurance Reports including single tender actions, special losses and payments
- Audit, Inspectorate and Regulator Tracker Reports
- Clinical Audit Reports
- Board Committee Assurance Reports
- Declarations of Interest Report
- Capital Governance Arrangements Internal Review

Charitable Funds Committee (CFC)

The CFC is charged with providing assurance to the Board in its role as corporate trustees of the charitable funds (CF) held and administered by the health board. It makes and monitors arrangements for the control and management of the board's charitable funds within the budget, priorities and spending criteria determined by the board and consistent with the legislative framework. Items considered:

- CF Sub Committee Update Reports
- CF Risk Reports
- CF Stories
- Approval of CF Expenditure and Decisions made through Chair's Action
- Charities performance Reports
- CF Annual Accounts Reports for 2020/21
- Planning Objective Update Reports

Health and Safety Committee (HSC)

The HSC provides assurance on the arrangements for ensuring the health, safety, welfare and security of all employees and of those who may be affected by work-related activities,

such as patients, members of the public, volunteers, contractors etc. It provides advice on compliance with all aspects of health and safety legislation, as well as advises and assures the board on whether effective arrangements are in place to ensure organisational wide compliance of the health board's health and safety policy, approves and monitors delivery against the Health and Safety Priority Improvement Plan and ensures compliance with the relevant Standards for Health Services in Wales. It also provides assurance on the health board's Emergency Management Plan. Items considered:

- HSE Enforcement
- Health and Safety legislation and audits
- Lifting Operations and Lifting Equipment (LOLER)
- Fire Enforcement
- Fire safety governance
- PREVENT and CONTEST
- Health and safety related risks and performance
- Policies for approval
- Planning Objective Update Reports

Mental Health Legislation Committee (MHLC)

The MHLC assures the board that those functions of the Mental Health Act 1983, as amended, which have been delegated to officers and staff are being carried out correctly; and that the wider operation of the 1983 Act in relation to the health board's area is operating properly, the provisions of the Mental Health (Wales) Measure 2010 are implemented and exercised reasonably, fairly and lawfully, the health board's responsibilities as hospital managers is being discharged effectively and lawfully, and that the health board is compliant with the Mental Health Act Code of Practice for Wales. The MHLC also advises the board of any areas of concern in relation to compliance with mental health legislation and agrees issues to be escalated to the board with recommendations for action. Items considered:

- Staff Story
- Specialist Child and Adolescent Mental Health Services (SCAMHS) admission and pathway
- Mental Health Act Quarterly Reports
- Health Board Response to Department of Health Consultation and Review of the Mental Health Act
- Section 117 Register
- Policies for approval
- Mental Health Review Tribunal (for Wales): use of video conference
- Risk Report
- Healthcare Inspectorate Wales visits to Mental Health and Learning Disabilities Facilities
- Updates from Power of Discharge Sub-Committee

People, Organisational Development and Culture Committee (PODCC)

PODCC was established to replace the 'People' element of the previous People, Planning and Performance Assurance Committee, to receive an assurance on all relevant planning objectives falling in the main under Strategic Objective 1 (Putting people at the heart of everything we do), 2 (Working together to be the best we can be), and 3 (Striving to deliver and develop excellent services). The committee has a focus on education and development of staff, recruitment, retention and talent management, becoming an employer of choice, performance and quality management systems, business intelligence capabilities and improvement training, patient experience, engagement and empowerment, workforce related policies, diversity and inclusion, carers support, regulatory and professional bodies compliance, arrangements to support ongoing transformation and board assurance framework development and research, development and innovation planning/deliver. Items considered:

- Staff Story
- NHS Wales Staff Survey, Nursing Climate Survey and Medical Engagement Scale Survey Outcomes Reports
- Speciality and Associate Specialist Contract Reform Implementation
- Welsh Language Standards Report
- Strategic Equality Plan Annual Report
- Performance Appraisal Development Review Performance Report
- Domiciliary Care Provision Report
- Staff Experience Discovery Report
- Bilingual Skills Policy Compliance
- Black, Asian and Minority Ethnic Advisory Group Update Reports
- Carers Report
- Making a Difference – Customer Service Programme
- Nursing and Midwifery Strategic Framework
- Workforce Dashboard and Performance Reports
- Contractual and legislative changes
- Policies for approval
- Risk Reports
- Planning Objective Update Reports

Quality and Safety Experience Committee (QSEC)

The QSEC is responsible for providing evidence based and timely advice to the Board to assist it in discharging its functions and meeting its responsibilities about the quality and safety of health care and services provided and secured by the health board. It provides assurance to the board in relation to the organisation's arrangements for safeguarding vulnerable people, children and young people and improving the quality and safety of health

care to meet the requirement and standards determined for the NHS in Wales. Items considered:

- Maternity Services
- Nurse Staffing Levels (Wales) Act 2016 Reports
- Quality and Safety Assurance Reports
- Improving Together Report
- Children and Young People Plan for Delivery Report
- Health Board Response to the National Audit of Care at the End of Life (NACEL)
- Accessing Emergency Specialist Spinal Services Report
- Waiting List support Programme Report
- Winter Planning: Managing Urgent and Emergency Care and Quality and Safety Risks Reports
- Cardiac Surgery: Get it Right First Time Review
- Quality Management System Approach Report
- Nursing Assurance Annual Audit 2021 Report
- Clinical Audit Reports
- COVID-19 Update Reports
- Commissioned Services Assurance and Commissioning for Quality Reports
- Stroke Services Nurse Staffing Requirements Report
- Paediatric Services Report
- Long COVID-19 Patient Pathway Report
- AW Review of Quality Governance Arrangements
- National Screening Programmes Report
- Listening and Learning Sub-Committee Update Reports
- Research and Innovation Sub-Committee Update Reports
- Infection Prevention Strategic Steering Group Update Reports
- Strategic Safeguarding Working Group Update Reports
- Effective Clinical Practice Advisory Panel Update Reports
- Medicines Management Optimisation Group Update Reports
- Risk Reports and Deep Dive Reports into Cancer, Stroke, Nosocomial COVID-19 Review, Urgent Primary Care Out of Hours Service, MHLDT Waiting Lists, Paediatrics, Radiology, Epilepsy and Neurology, Llwynhendy Tuberculosis, Cardiac Waiting Lists
- Policies for approval
- Planning Objectives Update Reports

Strategy Development and Organisational Delivery Committee (SDODC)

SDODC was established to replace the 'Planning' and 'Performance' elements of the previous People, Planning and Performance Assurance Committee, to receive an assurance on all relevant planning objectives falling in the main under Strategic Objective 4 (The best health and well-being for our individuals, families and our communities) and Strategic Objective 5 (Safe, sustainable, accessible and kind care). The Committee has a focus on

NHS Delivery Framework requirements, public health, health inequalities and screening services, Transformation Fund, Delivery of the “A Healthier Mid and West Wales” and Bronglais Hospital plan, Transforming MH and Transforming LD plan, integrated locality plans, children’s and young people plan, out-of-hours care, national clinical audits compliance, fragile services plans, care home/domiciliary care market support and development. Items considered:

- Integrated Performance Assurance Reports
- Planned Care Recovery Reports
- Developing the IMTP 2022/23 -2024/25 Reports
- A Healthier Mid and West Wales Programme Business Case Reports
- Stroke Services Redesign Report
- Palliative Care Strategy
- Dementia Strategy
- Regional Partnership Board (RPB) Population Assessment (SSWBA)
- Public Service Boards Well-Being Assessment (WBFGA)
- RPB Market Stability Report
- ARCH Update Reports
- Influenza Season 2021/22 Report
- Winter Plan 2021/22
- Fire Enforcement Business Justification Case for GGH
- Pharmaceutical Needs Assessment Report
- Women and Children Phase 2 Project Update Report
- Contact First/Urgent Primary Care Update Report
- Domiciliary Care Provision Report
- Pentre Awel Update Reports
- Transformation Fund/Plan Report
- Carmarthen Hwb Plan Report
- Discretionary Capital Programme and Capital Governance Update Reports
- Capital, Estates and IM&T Sub-Committee Update Reports
- Risk Reports
- Policies for approval
- Quarterly Annual Plan Monitoring Reports
- Planning Objectives Update Reports

Sustainable Resources Committee (SRC)

SRC was established to replace the previous Finance Committee, to receive an assurance on all relevant planning objectives falling in the main under Strategic Objective 6 (Sustainable use of resources), with a focus on financial plans and delivery of the Route Map to financial recovery, improving value, PROMS/FROMS roll out and impact, carbon reduction and green

health initiatives, foundational economy work, national IT programmes delivery, and budget setting. Items considered:

- Financial Performance and Forecast Reports
- Capital Financial Management Reports
- Financial Outlook 2021/22
- Risks to delivery of the Financial Plan for 2021/22
- Savings Plan 2021/22
- Monthly Monitoring Returns and Commentary Reports
- Draft Annual Accounts 2020/21
- Year End Debrief
- Balance Sheet Analysis Reports
- Opportunities and Savings Plan 2021/22
- Financial Mid and Long Term Planning Reports
- Accountable Officer Letter Report
- Programme Business Case Costings
- Healthcare Contracting Reports
- SMART Medical Equipment investment Report
- Investment in Clinical Equipment Report
- Strategy for Social Value Impact
- Schedule of Costs and Decisions – Field Hospitals
- Value Based Health and Care Update Reports
- Digitalisation of Health Records Interim Business Case
- New Oracle System
- Long Term Agreements – Contract Values, Approach and Development 2021/22
- Strategic and Operational Business Intelligence Report
- Business Case Approval Flowchart
- Social Value and Decarbonisation Reports
- Digital Inclusion
- Cyber Security Report
- Extension of Lightfoot Solutions
- Use of Consultancies Report
- County Resource Allocation and Consumption
- COVID-19 Fixed Term Contract Staff Report
- NWSSP Performance Quarterly Reports
- Commissioning Group Update Report
- Agile Digital Business Group Update Report
- Information Governance Sub-Committee Update Report
- Financial Procedures for approval
- Integrated Performance Assurance Reports
- Ministerial Directions Reports

- 
- Risk Reports
 - Planning Objective Update Reports

Appendix 3 – Ministerial Directions

Ministerial Directions (MDs)	Date/Year of Adoption	Action to demonstrate implementation/response
2021. No.15 - The National Health Service (Cross-Border Healthcare) (Wales) (Amendment) Directions 2021	April 2021	This Ministerial Direction has been enacted.
2021. No.41 – Directions to Local Health Boards as to the Statement of Financial Entitlements (Amendment) Directions 2021	April 2021	This Ministerial Direction has been enacted.
2021. No.59 – The Directions to Local Health Boards and NHS Trusts in Wales on the Delivery of Autism Services 2021	July 2021	This Direction is currently being implemented. There is an Integrated Autism Service (IAS) established which is an integrated health and social care service, and a dedicated Neurodevelopmental Disorder(ASD) service for children and young people. The Regional Partnership Board has also established a Strategic Autism Group.
2021. No.65 – The Primary Care (PfizerBioNTech Vaccine COVID-19 Immunisation Scheme) Directions 2021	July 2021	This Ministerial Direction has been enacted.
2021. No.70 – The Primary Care (Contracted Services: Immunisations) Directions 2021	August 2021	This Ministerial Direction has been enacted.
2021. No.75 – Directions to Local Health Boards as to the Statement of Financial Entitlements (Amendment) (No. 2) Directions 2021	September 2021	This Ministerial Direction has been enacted.
2021. No.77 – The National Health Service (General Medical Services – Recurring Premises Costs during the COVID-19 Pandemic) (Wales) (Revocation) Directions 2021	September 2021	This Ministerial Direction has been enacted.
2021. No.83 – The Pharmaceutical Services (Fees for Applications) (Wales) Directions 2021	October 2021	This Ministerial Direction has been enacted.

2021. No.84 – The Directions to Local Health Boards as to the Personal Dental Services Statement of Financial Entitlements (Amendment) Directions 2021	October 2021	This Ministerial Direction has been enacted.
2021. No.85 – The Directions to Local Health Boards as to the General Dental Services Statement of Financial Entitlements (Amendment) (No.2) Directions 2021	October 2021	This Ministerial Direction has been enacted.
2021. No.88 – The Directions to Local Health Boards as to the General Dental Services Statement of Financial Entitlements (Amendment) (No. 3) Directions 2021	October 2021	This Ministerial Direction has been enacted.

2021. No.93 – Directions to Local Health Boards as to the Statement of Financial Entitlements (Amendment) (No.3) Directions 2021	December 2021	This Ministerial Direction has been enacted.
2021. No.97 – The Primary Care (Contracted Services: Immunisations) (Amendment) Directions 2021	December 2021	Framework exists should Primary Care contractors intend to deliver the vaccine.
2022. No.06 – The Pharmaceutical Services (Clinical Services) (Wales) Directions 2022	March 2022	This Ministerial Direction has been enacted.
2022. No.13 – The Wales Infected Blood Support Scheme (Amendment) Directions 2022	March 2022	N/A- for action by Velindre University NHS Trust.

Part 2 - Remuneration and Staff Report

Remuneration Report

Introduction

The HM Treasury's Government Financial Reporting Manual (FReM) requires that a Remuneration Report shall be prepared by NHS bodies providing information under the headings in SI 2008 No 410 <https://www.legislation.gov.uk/uksi/2008/410/contents> made to the extent that they are relevant. The Remuneration Report contains information about senior manager's remuneration. The definition of "Senior Managers" is:

"those persons in senior positions having authority or responsibility for directing or controlling the major activities of the NHS body. This means those who influence the decisions of the entity as a whole rather than the decisions of individual directorates or departments."

This section of the Accountability Report meets these requirements. The following disclosures are subject to audit:

- Single total figure of remuneration for each director;
- Cash Equivalent transfer Value (CETV) disclosures for each director;
- Payments to past directors, if relevant;
- Payments for loss of office, if relevant;
- Fair pay disclosures (Included in Annual Accounts) note 9.6;
- Exit packages, (Included in Annual Accounts) if relevant note 9.5; and
- Analysis of staff numbers.

The Remuneration and Terms of Service Committee (RTSC)

The RTSC will comment specifically upon:

- Remuneration and terms of service for the Chief Executive, Executive Directors, other Very Senior Managers (VSMs) and others not covered by Agenda for Change; ensuring that the policies on remuneration and terms of service as determined from time to time by WG are applied consistently;
- Objectives for Executive Directors and other VSMs and their performance assessment;
- Performance management systems in place for those in the positions mentioned above and its application;
- Proposals to make additional payments to medical Consultants outside of normal terms and conditions;

- Proposals regarding termination arrangements, ensuring the proper calculation and scrutiny of termination payments in accordance with the relevant WG guidance;
- Consider and ratify Voluntary Early Release scheme applications and severance payments in respect of Executive Director posts, in line with Standing Orders and extant WG guidance. The Committee to be advised also of **all** Voluntary Early Release Scheme applications and severance payments; and
- To approve the health board's honours submission recommendations.

The membership of the RTSC Committee during 2021/22 was as follows:

Name	Position	Role on RTSC
Maria Battle	Chair	Chair
Paul Newman	Independent Member and Chair of Audit and Risk Assurance Committee (ARAC)	Vice Chair
Professor John Gammon	Independent Member and Chair of People, Organisational Development and Culture Committee (PODCC)	Member
Anna Lewis	Independent Member and Chair of Quality, Safety and Experience Assurance Committee (QSEC)	Member

Independent Members' remuneration

Remuneration and tenures of appointment for Independent Members is decided by the WG.

Senior Managers' remuneration

The remuneration of Senior Managers who are paid on the Very Senior Managers Pay Scale is determined by WG, and the health board pays in accordance with these regulations. For the purpose of clarity, these are posts which operate at board level and hold either statutory or non-statutory positions. In accordance with the regulations the health board can award incremental uplift within the pay scale and, should an increase be considered outside the range, a job description is submitted to WG for job evaluation. There are clear guidelines in place with regards to the awarding of additional increments and during the year there have not been any additional payments agreed. No changes to pay have been considered by the Committee outside these arrangements. The health board does not have a system for performance related pay for its Very Senior Managers.

The health board can confirm that it has not made any payment to past Directors as detailed within the guidance.

Annually the RTSC receives a summary performance report of Executive Director objectives and then periodically receives an update on performance against those agreed objectives. In support of the summarised feedback completed performance appraisal documents are also available for Committee scrutiny. No external comparison is made regarding performance.

The health board issues All Wales Executive Director contracts which determine the terms and conditions for all Very Senior Managers. The health board has not deviated from this. In rare circumstances where interim arrangements are to be put in place a decision is made by the Committee with regards to the length of the interim post, whilst substantive appointments can be made.

Any termination payments would be discussed and agreed by the Committee in advance and where appropriate WG approval would be made. During the 2021/22 year, no termination payments were made.

Service contract details for senior managers

Name	Position	Date of Contract	Date of Expiration	Compensation for early termination
Steve Moore	Chief Executive Officer	05/01/2015	N/A	N/A
Lisa Gostling	Executive Director of Workforce and Organisational Development	09/01/2015	N/A	N/A
Phil Kloer	Executive Medical Director/Deputy Chief Executive	25/06/2015	N/A	N/A
Mandy Rayani	Executive Director of Nursing, Quality and Patient Experience	19/06/2017	N/A	N/A
Ros Jervis	Executive Director of Public Health	17/07/2017	01/04/2022	N/A

Joanne Wilson	Board Secretary	01/01/2018	N/A	N/A

Jill Paterson	Director of Primary Care, Community & Long Term Care	19/01/2018	N/A	N/A
---------------	--	------------	-----	-----

Changes to Board membership in 2021/22

During 2021/22, there were the following changes to Board membership:

- Winston Weir, Independent Member (Finance) commenced duties on 1 April 2021
- Cllr Gareth John, Independent Member (Local Authority) commenced duties on 1 April 2021
- Iwan Thomas, Independent Member (Third Sector) commenced duties on 1 May 2021
- Lee Davies, Executive Director of Strategic Development and Operational Planning, commenced in post on 26 April 2021

Single total figure of remuneration

The amount of pension benefits for the year which contributes to the single total figure is calculated similar to the method used to derive pension values for tax purposes, and is based on information received from the NHS BSA Pensions Agency. The value of pension benefit is calculated as follows: (real increase in pension x 20) + (the real increase in any lump sum) – (contributions made by member).

The real increase in pension is not an amount which has been paid to an individual by the health board during the year, it is a calculation which uses information from the pension benefit table. These figures can be influenced by many factors such as changes in a person's salary, whether or not they choose to make additional contributions to the pension scheme from their pay, and other valuation factors affecting the pension scheme as a whole.

Ann Murphy	5 - 10	0	0	0	0	5 - 10

Associate Members are not included in the above tables as they attend Board meetings on an ex-officio basis, and do not have any voting rights.

Remuneration relationship

The details of the remuneration relationship are reported in the Financial Statements in Section 9.6.

Reporting bodies are required to disclose the relationship between the remuneration of the highest-paid Director in their organisation and the median remuneration of the organisation's workforce.

The 2021-22 financial year is the first year that disclosures in respect of:

- the 25th percentile pay ratio and 75th percentile pay ratio are required including the requirements for prior year comparatives
- the percentage change in the remuneration of the highest paid director or minister and the percentage change in the remuneration of the employees of the entity taken as a whole are required.

The banded remuneration of the highest-paid director in the health board in the financial year 2021/22 was £200,000 - £205,000 (2020/21, £195,000 - £200,000). This was 6 times (2020/21: 6 times) the median remuneration of the workforce, which was £31,533 (2020/21, £34,027).

In 2021/22, 29 (2020/21, 24) employees received remuneration in excess of the highest-paid Director. Remuneration for staff ranged from £22,439 to £334,158 (2020/21, £21,879 to £318,973). The staff who received remuneration greater than the highest paid Director are all medical and dental who have assumed additional responsibilities to their standard job plan commitments and in some cases medical managerial roles, necessitating extra payment.

	2021/22	2020/21
Band of Highest paid Director's Total Remuneration £000	200 - 205	195 - 200
Median Total Remuneration £000	32	34
Median Ratio	6.34	5.82
25th percentile pay £000	20	23
25th percentile pay ratio	10.15	8.61
75th percentile pay £000	39	34
75th percentile pay ratio	5.21	5.82

* As disclosed in the health board's Annual Accounts Note 9.6.

Total remuneration includes salary, non-consolidated performance-related pay, and benefits-in-kind. It does not include severance payments, employer pension contributions and the cash equivalent transfer value of pensions.

Staff Report

Staff numbers

As of 31 March 2022, the health board employed 12,750 staff including bank and locum staff; this equated to 9,545.85 Full Time Equivalent (FTE). The numbers (headcount) of female and male Board Members and employees are as follows:

	Female	Male	Total
Board Members	11	11	22
Employees	9,926	2,802	12,728
Total	9,937	2,813	12,750

*Included in the Board Members figures is one additional Director and the Board Secretary (both non-voting) who are members of the Executive Team and attend Board meetings.

	Female		Male		Total	
	FTE	Head count	FTE	Head count	FTE	Head count
Executive Team	6.00	6	5.00	5	11.00	11
Independent Members	5.00	5	6.00	6	11.00	11
Total	11.00	11	11.00	11	22.00	22

Staff composition as at 31 March 2022

	Female		Male		Total	
	FTE	Head count	FTE	Head count	FTE	Head count
Add Prof Scientific and Technic	247.32	300	79.99	96	327.32	396
Additional Clinical Services	1,718.32	2,652	380.05	479	2,098.37	3,131
Administrative and Clerical	1,620.40	1,924	367.63	397	1,988.04	2,321
Allied Health Professionals	497.04	612	153.19	173	650.24	785
Estates and Ancillary	416.12	726	460.82	639	876.95	1,365
Healthcare Scientists	111.86	123	83.80	86	195.66	209
Medical and Dental	187.28	341	419.29	670	606.57	1,011
Nursing and Midwifery Registered	2,561.65	3,259	241.06	273	2,802.71	3,532
Students	0	0	0	0	0	0
Total	7,360.01	9,937	2,185.84	2,813	9,545.85	12,750

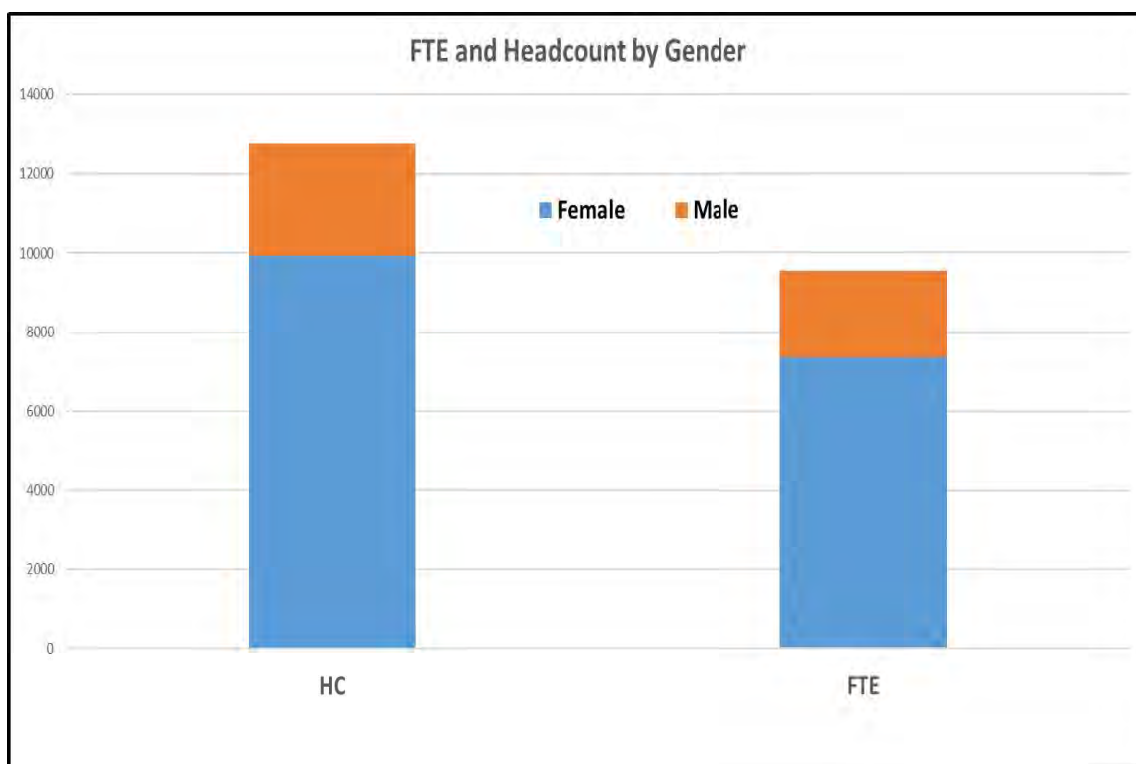

At the end of March 2022, the health board employed 12,750 staff including bank and locum staff; this equated to 9,545.85 FTE. 78% of the workforce was female by FTE and 22% male. The staff covered a wide range of professional, technical and support staff groups. Over 50% (by headcount) were within the Nursing and Midwifery and Additional Clinical Services staff groups. Senior Manager (Band 8a and above) were 1.7% of the workforce - 63% of these by FTE were female and 37% male.

Senior Managers are administrative and clerical staff (Bands 8a to 9)

	Female		Male		Total	
	FTE	Head count	FTE	Head count	FTE	Head count
Band 8a	56.31	58	31.40	32	87.71	90
Band 8b	46.80	47	19.00	19	65.80	66
Band 8c	15.53	16	14.00	14	29.53	30
Band 8d	9.00	9	5.00	5	14.00	14
Band 9	3.00	3	7.85	8	10.85	11
Total	130.65	133	77.25	78	207.90	211

The Board does not have any issue with its staff composition.

Staff sickness data

The following table provides information on the number of days lost due to sickness:

	2021/22	2020/21
Days lost (long term)	172,366	153,993
Days lost (short term)	80,935	59,136
Total days lost	253,301	213,129
Total Staff Years as of 31 March	9,493.62	9,402.23
Average Working Days Lost	13.82	11.83
Total Staff employed as of 31 March (headcount)	12,750	12,476
Total Staff employed in period with no absence (headcount)	3,353	4,542
Percentage of staff with no sick leave	33.13%	45.37%

The health board undoubtedly experienced higher levels of sickness absence throughout 2021/22 than in the years prior to the pandemic. General sickness levels were higher throughout the year – this was particularly noticeable in the summer months when rates are usually lower. However, as the impact of the pandemic began to subside in June/July 2021, general sickness rates actually increased and many staff were demonstrating fatigue.

The cumulative average sickness rate throughout the year was around 6.06% which has included approximately 1.5% impact of COVID-19. In recognition of the impact on well-being

of the workforce, the health board implemented a range of measures to support staff – this is referenced in the Performance Report. In addition, special provisions were introduced as part of an all-Wales initiative in order to provide extended full and half pay for staff impacted with long Covid.

Whilst sickness rates were higher than usual, the rates in Hywel Dda were the lowest of all of the larger health boards in Wales, as was the case prior to the pandemic. The Workforce team supported individuals and managers in managing sickness absence and helping people to stay in or return to work.

Sickness absence rates proved challenging to manage over the year due to the prevalence of COVID-19. The top three reasons for sickness absence in 2021/22 were anxiety/stress/depression/other psychiatric illnesses, musculoskeletal problems and chest and respiratory problems.

Whilst the health board saw generally lower absence rates than other health boards over the year, it did experience some of the highest rates ever recorded in the health board. Work has commenced to identify a 12-month trend reduction target for sickness absence to replace the former national delivery framework target of 4.79%.

Staff policies

One of the health board's planning objectives in 2021/22, was to review our local staff policies and to develop more people-centred and relevant policies that reflect the strategic direction of the health board. The new approach centred on much closer collaboration with staff, Trade Union partners and other stakeholders. During 2021, the Policy Stakeholder Group reviewed all 42 policies and determined a priority order and timeframe for more in-depth review of the initial priority areas. Work commenced on the Retirement Policy, Over and Underpayments Policy and the extension of sick pay flowchart.

On an all-Wales basis, the new *Respect & Resolution Policy* implemented in May 2021 combined and replaced the former Dignity and Respect at Work and Grievance policies. In November 2021, the revised all-Wales *NHS Staff to Raise Concerns Procedure (Whistleblowing)* was ratified by the Health Board.

Equality, diversity and inclusion

The health board believes that all forms of discrimination are wrong and recognises that some groups and individuals are more at risk of experiencing unfair treatment in employment and when accessing public services. We are committed to undertaking any necessary steps to identify and address exclusion, discrimination, harassment, victimisation, marginalisation and exploitation of groups and individuals.

During 2021, the health board undertook a review of its Equality, Diversity and Inclusion Policy led by the Equality, Diversity and Inclusion Task and Finish Group and in consultation with staff networks. The policy aims to support the health board to implement its values and principles, comply with equality and human rights legislation and eliminate discrimination and

harassment. It outlines the steps it will take to address non-compliance and procedures for those who feel that they have been victims of discrimination. An information poster was developed for staff to promote the policy and provide a summary of the contents to support implementation.

We continued to work in close conjunction with representatives of our Black, Asian and Minority Ethnic (BAME) workforce to conduct listening exercises and we also established a specific task and finish group in order to address concerns of bullying and harassment of BAME staff. The task and finish group reported to the BAME Advisory group which was established by the Chair of the health board.

Recruitment activity

Recruiting and retaining an inclusive and diverse workforce and developing talent is crucial to the health board being able to deliver its ambition to be an employer of choice. Recruiting and attracting new people, retaining our existing people and managing and developing talent is essential to delivering our workforce challenges and critical to our success.

During 2021/22, a Buddy Scheme was introduced by the BAME Network Group, offering support to individuals within the medical and dental staff group as they arrive from overseas. Feedback was positive and further promotion of the scheme is planned.

As a learning organisation and in a bid to understand the reasons why some members of our community do not, or feel they cannot, apply to our health board and to understand what is important to them, we reached out to over 25 partner organisations across our three counties to gain intelligence to help inform positive action.

Work was commissioned to raise awareness of gender stereotyping and the gender pay gap, which included working with the local education authority/local Welsh medium schools.

Other work commenced included a targeted recruitment campaign to reach out to over 55,000 households across our 3 counties and the scoping with regional partners on targeted employment/engagement campaigns.

In a bid to ensure that our recruitment is inclusive, training was made available for staff and a guide developed for managers about reasonable adjustments.

The health board achieved Disability Confident Level 2 status and is undertaking a gap analysis for Disability Confident Leader status.

Supporting research, innovation and improvement

Following the first wave of the pandemic, the health board undertook research to understand staff views and feedback of their experience working during the pandemic. This provided us with rich intelligence, not only about our staff's reflections but also about the type of culture they wanted to see across the workplace. As a result, an action plan was developed to take forward a number of priorities:

- Growing inspirational leaders
- Creating spaces and ways of working that enable our people and services to thrive
- Creating the working experience that enable our people and services to thrive
- Putting Well-being at the heart of Hywel Dda
- Building on our Covid team spirit
- Enabling learning and innovation

Work commenced to put the plan into action and ensure that we listen and respond to staff feedback. Some highlights included:

- Securing funding for creating rest areas for staff
- Developing a programme of 'You Said, We Did' feedback for our staff
- Reviewing and evolving our leadership strategy
- Evolving our working environment to support the retention and recruitment of staff, including looking at flexible working options for nursing staff
- Reviewing and evolving the 'well-being offer' and ensuring it is fit for purpose
- Develop people culture plans to co-produce vision with teams
- Embed shared learning opportunities across the health board to ensure that there is dissemination of good ideas and practice

Further staff engagement exercises are planned in 2022/23 to gather further intelligence on their experiences.

Bilingual skills policy

The launch of the health board's Bilingual Skills Policy in March 2020 positively impacted on the Welsh Government's ambition to ensure that the number of people able to enjoy speaking and using Welsh to 1 million by 2050.

The health board's target is to ensure that 50% of its workforce have a skill level which is at foundation level or above within the next 10 years. This target is aligned to the 47% of the Hywel Dda population who confirmed that they were able to speak Welsh in the "Welsh Language Use Survey 2018".

We introduced definitions of the level of Welsh language skill required in our job descriptions. The number of Welsh essential vacancies advertised in 2021/22 has increased from 30 in 2020/21 to 83. As at March 2022, 36.26% of our workforce had a skill level at foundation level or above. This is a positive step forward for the health board in attracting and retaining Welsh speakers, enabling more patients to receive care through the medium of Welsh.

Learning and development

Customer service programme 'Making a Difference'

We designed the "Making a Difference" fully bilingual programme, which will be launched in April 2022. This programme focusses not just on the customer service needs of our

population and colleagues, but the needs of individuals. Designed through evidence-based research, it focuses on our external customers (population, patients, visitors, stakeholders), internal customers (our colleagues, considering how actions impact colleague well-being and patient experience) and ourselves (recognising that how we feel impacts each interaction we have with individuals). It gives staff some time to themselves to reflect on their learning and to rest and take time out. Being able to focus on individual needs, the Making a Difference Programme provides information and signposting to well-being services, staff benefits, community groups (BAME, Enfys, Carers, etc) and provides an opportunity for staff voices to be heard. It will provide information on how they can reach their full potential, identifying development opportunities and how to access additional support.

New induction programme

Moving from the traditional style of Induction, the 'Hywel Dda Welcome' saw a phased approach in its design, with implementation planned from April 2022. The programme begins before individuals join the organisation, with a focus on the full induction period lasting a total of six months. Designed through evidence-based research, Induction will begin from Day 0 (from unconditional offer letter). Learning will continue throughout their onboarding journey, through an automated system, from Day 1 to Month 6.

The 'Hywel Dda Welcome' workshop will focus on some of the key principles of Hywel Dda, such as the Values and Behaviour Framework, A Healthier Mid and West Wales strategy, as well as key information all new employees need to know. A platform was developed to host key information from across Hywel Dda, creating a more accessible online information source. This provides signposting to other departments including Payroll, Pensions, Training, Chaplaincy and Spiritual Care. Learning and Development will then contact new employees at regular intervals to check their onboarding progress, as well as suggesting workshops and training available to attend to broaden their professional development and support them in reaching their potential. Induction will be available in English and Welsh, offering fully bilingual resources.

Lifelong Learning Fund

The launch of the Lifelong Learning Fund enabled staff to access up to a maximum of £100 per person to learn a new skill/craft/hobby. The funds can be used to access any form of learning or self-development, which will support new skills that will help them to recover from the experience of the pandemic and support the restoration of their well-being. The benefits of lifelong learning on health and well-being include boosting self-esteem and confidence and satisfaction from personal achievement, which in turn increases motivation and progression. This initiative is now live, supporting the rest and recovery of our workforce.

Mandatory training

The support offered to increase mandatory training compliance was linked to other learning and development interventions. Departments were supported through use of monthly reports from our electronic staff record system based on department compliance. Staff who apply for study leave or higher awards and have a compliance of less than 100% are advised and supported to increase compliance. A focused role was introduced to drive compliance and offer support.

Leadership development

During 2021/22, delivery of the leadership programme progressed at pace.

Coaching network

Coaching is an invaluable tool for developing people and the health board is certainly embracing the benefits of coaching for leaders and staff across the organisation. The Internal Coaching Network is strongly aligned with the health board's organisational values and reinforces the need to pause, reflect and learn.

The internal coaching network grew, supporting and underpinning Hywel Dda's leadership development, succession planning and talent management provision. The network's vision is to have 100 internal qualified coaches and numbers steadily increased in 2021/22, with further cohorts planned in 2022. Coaching provided by our external and internal coaches exceeded 230 sessions, which shows the organisational demand for this support.

STAR programme

The STAR Programme was created for senior sisters, as leaders who play a pivotal role in upholding standards of care and compassion, quality and performance of service delivery and stewardship of resources. The programme was designed around four modules of leadership development with full support through action learning and coaching. Two cohorts completed the programme in 2021/22. The programme had a fantastic following with participants really feeling part of a leadership community.

New consultant development programme

We launched our new consultant development programme in November 2021, with 16 new consultants from varying sites and specialities across the health board. The programme was created in collaboration with the senior medical body in response to the medical recruitment and retention challenges. This seven-day programme is delivered over a 12-month period, exploring a range of topics including strategy, culture, performance, well-being, research and innovation, education, CPD and more. Participation in this programme will enable new consultants to learn more about the health board as an organisation, while simultaneously establishing themselves as a consultant. Feedback was extremely positive.

Expenditure on consultancy

Consultancy services are a provision for management to receive objective advice and assistance relating to strategy, structure, management or operations of an organisation in pursuant of its purposes and objectives. During the year the health board spent £1,741,293 on consultancy services as follows:

Transforming clinical services	£431,329
Demand capacity modelling/consultancy for agile working	£201,897
VAT/tax advice	£79,986
IT consultancy	£563,005
Estates advice	£147,255
Other service reviews/advice	£317,821

Tax assurance for off-payroll appointees

In response to the WG's review of the tax arrangements of public sector appointees, which highlighted the possibility for artificial arrangements to enable tax avoidance, WG has taken a zero tolerance approach and produced a policy that has been communicated and implemented across the WG. Tax assurance evidence has been sought and scrutinised to ensure it is sufficient from all off-payroll appointees.

During the year, the health board implemented the Tax Status of Workers financial procedure. This was developed in order to formally document the considerations and actions that must be taken by health board employees before entering into contracts involving the services of individuals so that payment for any such services is made by tax compliant means. In particular, the procedure discusses the health board's obligation to determine the employment status of such individuals for tax purposes or whether the contract entered into will be one which falls within the off-payroll working (or "IR35") legislation. This procedure was finalised in conjunction with changes to the Off-payroll Working legislation which took effect from 1 April 2021.

The health board is currently working on enhancing monitoring and record keeping in connection with off-payroll appointees so that it may in future publish usage data.

Exit packages

There have not been any costs associated with redundancy in the last year. Redundancy and other departure costs have been paid in accordance with the provisions of the NHS Voluntary Early Release Scheme (VERS). £2,500 exit costs was paid in 2021/22 in relation to settlement claims, the year of departure (2020/21 £357,287). The exit costs detailed below are accounted for in full in the year of departure on a cash basis as specified in EPN 380 Annex 13C.

Where the health board has agreed voluntary early retirement, the additional costs are met by the health board and not by the NHS pension scheme. Ill-health retirement costs are met by the NHS pension scheme and are not included in the table below. This disclosure reports the number and value of exit packages taken by staff leaving in the year. Note: the expense associated with these departures may have been recognised in part or in full in a previous period.

The health board receives a full business case in respect of each application supported by the line manager. The Executive Director of Finance and Executive Director of Workforce and Organisational Development approve all applications prior to them being processed. Any payments over an agreed threshold are also submitted to WG for approval prior to health board approval. Details of exit packages and severance payments are as follows:

Exit packages cost band (including any special payment element)	2021/22 Number of compulsory redundancies	2021/22 Number of other departures	2021/22 Total number of exit packages	2021/22 Number of departures where special payments have been made	2020/21 Total number of exit packages

Part 3 - Parliamentary Accountability and Audit Report

Regularity of Expenditure

Common with the public sector in general the health board continued to face exceptional challenges in 2021/22 to deal with the on-going impact of the COVID-19 pandemic. Significant funding was again provided from WG to support with delivering the response to COVID-19 and recovery from it. However, the health board has not been able to deliver a balance over three years to meet its financial duty. The expenditure of £84.9m which it has incurred more than its resource limit over that period is deemed to be irregular. The health board will continue to identify efficiency and cost reduction measures in order to mitigate against future cost and service pressures and to establish financial balance in due course.

Fees and Charges

The health board levies charges or fees on its patients in a number of areas. Where the health board makes such charges or fees, it does so in accordance with relevant Welsh Health Circulars and charging guidance. Charges are generally made on a full cost basis. None of the items for which charges are made are by themselves material to the health board, however details of some of the larger items (Dental Fees, Private and Overseas Patient income) are disclosed within Note 4 of the Annual Accounts.

Managing Public Money

This is the required Statement for Public Sector Information Holders. In line with other Welsh NHS bodies, the health board has developed Standing Financial Instructions which enforce the principles outlined in HM Treasury on Managing Public Money. As a result, the health board confirms it has complied with cost allocation and the charging requirements set out in HM Treasury guidance during the year.

Material Remote Contingent Liabilities

Remote contingent liabilities are those liabilities which due to the unlikelihood of a resultant charge against the health board are therefore not recognised as an expense nor as a contingent liability. Detailed below are the remote contingent liabilities as of 31 March 2022:

	2021/22	2020/21
	£000's	£000's
Guarantees	0	0
Indemnities*	1,427	27
Letters of Comfort	0	0
Total	1,427	27

* Indemnities include clinical negligence and personal injury claims against the health board.

WALES

Bwrdd Iechyd Prifysgol
Hywel Dda
University Health Board

HYWEL DDA UNIVERSITY LOCAL HEALTH BOARD

FOREWORD

These accounts have been prepared by the Local Health Board under schedule 9 section 178 Para 3(1) of the National Health Service (Wales) Act 2006 (c.42) in the form in which the Welsh Ministers have, with the approval of the Treasury, directed.

Statutory background

The Local Health Board was established on 1st June 2009 and became operational on 1st October 2009 and comprises the former organisations of Hywel Dda NHS Trust and Carmarthenshire, Ceredigion and Pembrokeshire Local Health Boards.

Performance Management and Financial Results

Welsh Health Circular WHC/2016/054 replaces WHC/2015/014 'Statutory and Administrative Financial Duties of NHS Trusts and Local Health Boards' and further clarifies the statutory financial duties of NHS Wales bodies and is effective for 2021-22. The annual financial duty has been revoked and the statutory breakeven duty has reverted to a three year duty, with the first assessment of this duty in 2016-17.

Local Health Boards in Wales must comply fully with the Treasury's Financial Reporting Manual to the extent that it is applicable to them. As a result, the Primary Statement of in-year income and expenditure is the Statement of Comprehensive Net Expenditure, which shows the net operating cost incurred by the LHB which is funded by the Welsh Government. This funding is allocated on receipt directly to the General Fund in the Statement of Financial Position.

Under the National Health Services Finance (Wales) Act 2014, the annual requirement to achieve balance against Resource Limits has been replaced with a duty to ensure, in a rolling 3 year period, that its aggregate expenditure does not exceed its aggregate approved limits.

The Act came into effect from 1 April 2014 and under the Act the first assessment of the 3 year rolling financial duty took place at the end of 2016-17.

Statement of Comprehensive Net Expenditure for the year ended 31 March 2022

	Note	2021-22 £000	2020-21 £000
Expenditure on Primary Healthcare Services	3.1	204,170	199,452
Expenditure on healthcare from other providers	3.2	250,710	252,310
Expenditure on Hospital and Community Health Services	3.3	708,966	665,902
		1,163,846	1,117,664
Less: Miscellaneous Income	4	(70,370)	(63,335)
LHB net operating costs before interest and other gains and losses		1,093,476	1,054,329
Investment Revenue	5	0	0
Other (Gains) / Losses	6	(28)	(20)
Finance costs	7	(39)	(30)
Net operating costs for the financial year		1,093,409	1,054,279

See note 2 on page 26 for details of performance against Revenue and Capital allocations.

Cash and cash equivalents (and bank overdrafts) at 31 March 2022	1,565	2,313

The notes on pages 8 to 73 form part of these accounts.

Notes to the Accounts

1. Accounting policies

The Minister for Health and Social Services has directed that the financial statements of Local Health Boards (LHB) in Wales shall meet the accounting requirements of the NHS Wales Manual for Accounts. Consequently, the following financial statements have been prepared in accordance with the 2021-22 Manual for Accounts. The accounting policies contained in that manual follow the 2021-22 Financial Reporting Manual (FReM) in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006, except for IFRS 16 Leases, which is deferred until 1 April 2022; to the extent that they are meaningful and appropriate to the NHS in Wales.

Where the LHB Manual for Accounts permits a choice of accounting policy, the accounting policy which is judged to be most appropriate to the particular circumstances of the LHB for the purpose of giving a true and fair view has been selected. The particular policies adopted by the LHB are described below. They have been applied consistently in dealing with items considered material in relation to the accounts.

1.1. Accounting convention

These accounts have been prepared under the historical cost convention modified to account for the revaluation of property, plant and equipment, intangible assets and inventories.

1.2. Acquisitions and discontinued operations

Activities are considered to be 'acquired' only if they are taken on from outside the public sector. Activities are considered to be 'discontinued' only if they cease entirely. They are not considered to be 'discontinued' if they transfer from one public sector body to another.

1.3. Income and funding

The main source of funding for the LHBs are allocations (Welsh Government funding) from the Welsh Government within an approved cash limit, which is credited to the General Fund of the LHB. Welsh Government funding is recognised in the financial period in which the cash is received.

Non-discretionary funding outside the Revenue Resource Limit is allocated to match actual expenditure incurred for the provision of specific pharmaceutical, or ophthalmic services identified by the Welsh Government. Non-discretionary expenditure is disclosed in the accounts and deducted from operating costs charged against the Revenue Resource Limit.

Funding for the acquisition of fixed assets received from the Welsh Government is credited to the General Fund.

Miscellaneous income is income which relates directly to the operating activities of the LHB and is not funded directly by the Welsh Government. This includes payment for services uniquely provided by the LHB for the Welsh Government such as funding provided to agencies and non-activity costs incurred by the LHB in its provider role. Income received from LHBs transacting with other LHBs is always treated as miscellaneous income.

From 2018-19, IFRS 15 Revenue from Contracts with Customers has been applied, as interpreted and adapted for the public sector, in the FReM. It replaces the previous standards IAS 11 Construction Contracts and IAS 18 Revenue and related IFRIC and SIC interpretations. The potential amendments identified as a result of the adoption of IFRS 15 are significantly below materiality levels.

Income is accounted for applying the accruals convention. Income is recognised in the period in which services are provided. Where income had been received from third parties for a specific activity to be delivered in the following financial year, that income will be deferred.

Only non-NHS income may be deferred.

1.4. Employee benefits

1.4.1. Short-term employee benefits

Salaries, wages and employment-related payments are recognised in the period in which the service is received from employees. The cost of leave earned but not taken by employees at the end of the period is recognised in the financial statements to the extent that employees are permitted to carry forward leave into the following period.

1.4.2. Retirement benefit costs

Past and present employees are covered by the provisions of the NHS Pensions Scheme. The scheme is an unfunded, defined benefit scheme that covers NHS employers, General Practices and other bodies, allowed under the direction of the Secretary of State, in England and Wales. The scheme is not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, the scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in the scheme is taken as equal to the contributions payable to the scheme for the accounting period.

The latest NHS Pension Scheme valuation results indicated that an increase in benefit required a 6.3% increase (14.38% to 20.68%) which was implemented from 1 April 2019.

As an organisation within the full funding scope, the joint (in NHS England and NHS Wales) transitional arrangement operated from 2019-20 where employers in the Scheme would continue to pay 14.38% employer contributions under their normal monthly payment process, in Wales the additional 6.3% being funded by Welsh Government directly to the Pension Scheme administrator, the NHS Business Services Authority (BSA the NHS Pensions Agency).

However, NHS Wales' organisations are required to account for **their staff** employer contributions of 20.68% in full and on a gross basis, in their annual accounts. Payments made on their behalf by Welsh Government are accounted for on a notional basis. For detailed information see Other Note within these accounts.

For early retirements other than those due to ill health the additional pension liabilities are not funded by the scheme. The full amount of the liability for the additional costs is charged to expenditure at the time the NHS Wales organisation commits itself to the retirement, regardless of the method of payment.

Where employees are members of the Local Government Superannuation Scheme, which is a defined benefit pension scheme this is disclosed. The scheme assets and liabilities attributable to those employees can be identified and are recognised in the NHS Wales organisation's accounts. The assets are measured at fair value and the liabilities at the present value of the future obligations. The increase in the liability arising from pensionable service earned during the year is recognised within operating expenses. The expected gain during the year from scheme assets is recognised within finance income. The interest cost during the year arising from the unwinding of the discount on the scheme liabilities is recognised within finance costs.

1.4.3. NEST Pension Scheme

An alternative pensions scheme for employees not eligible to join the NHS Pensions scheme has to be offered. The NEST (National Employment Savings Trust) Pension scheme is a defined contribution scheme and therefore the cost to the NHS body of participating in the scheme is equal to the contributions payable to the scheme for the accounting period.

1.5. Other expenses

Other operating expenses for goods or services are recognised when, and to the extent that, they have been received. They are measured at the fair value of the consideration payable.

1.6. Property, plant and equipment

1.6.1. Recognition

Property, plant and equipment is capitalised if:

- it is held for use in delivering services or for administrative purposes;
- it is probable that future economic benefits will flow to, or service potential will be supplied to, the NHS Wales organisation;
- it is expected to be used for more than one financial year;
- the cost of the item can be measured reliably; and
- the item has cost of at least £5,000; or
- Collectively, a number of items have a cost of at least £5,000 and individually have a cost of more than £250, where the assets are functionally interdependent, they had broadly simultaneous purchase dates, are anticipated to have simultaneous disposal dates and are under single managerial control; or
- Items form part of the initial equipping and setting-up cost of a new building, ward or unit, irrespective of their individual or collective cost.

Where a large asset, for example a building, includes a number of components with significantly different asset lives, the components are treated as separate assets and depreciated over their own useful economic lives.

1.6.2. Valuation

All property, plant and equipment are measured initially at cost, representing the cost directly attributable to acquiring or constructing the asset and bringing it to the location and condition necessary for it to be capable of operating in the manner intended by management.

Land and buildings used for services or for administrative purposes are stated in the Statement of Financial Position (SoFP) at their revalued amounts, being the fair value at the date of revaluation less any subsequent accumulated depreciation and impairment losses. Revaluations are performed with sufficient regularity to ensure that carrying amounts are not materially different from those that would be determined at the end of the reporting period. Fair values are determined as follows:

- Land and non-specialised buildings – market value for existing use

- Specialised buildings – depreciated replacement cost

HM Treasury has adopted a standard approach to depreciated replacement cost valuations based on modern equivalent assets and, where it would meet the location requirements of the service being provided, an alternative site can be valued. NHS Wales' organisations have applied these new valuation requirements from 1 April 2009.

Properties in the course of construction for service or administration purposes are carried at cost, less any impairment loss. Cost includes professional fees but not borrowing costs, which are recognised as expenses immediately, as allowed by IAS 23 for assets held at fair value. Assets are revalued and depreciation commences when they are brought into use.

In 2017-18 a formal revaluation exercise was applied to land and properties. The carrying value of existing assets at that date will be written off over their remaining useful lives and new fixtures and equipment are carried at depreciated historic cost as this is not considered to be materially different from fair value.

An increase arising on revaluation is taken to the revaluation reserve except when it reverses an impairment for the same asset previously recognised in expenditure, in which case it is credited to expenditure to the extent of the decrease previously charged there. A revaluation decrease that does not result from a loss of economic value or service potential is recognised as an impairment charged to the revaluation reserve to the extent that there is a balance on the reserve for the asset and, thereafter, to expenditure. Impairment losses that arise from a clear consumption of economic benefit should be taken to expenditure.

References in IAS 36 to the recognition of an impairment loss of a revalued asset being treated as a revaluation decrease to the extent that the impairment does not exceed the amount in the revaluation surplus for the same asset, are adapted such that only those impairment losses that do not result from a clear consumption of economic benefit or reduction of service potential (including as a result of loss or damage resulting from normal business operations) should be taken to the revaluation reserve. Impairment losses that arise from a clear consumption of economic benefit should be taken to the Statement of Comprehensive Net Expenditure (SoCNE).

From 2015-16, IFRS 13 Fair Value Measurement must be complied with in full. However IAS 16 and IAS 38 have been adapted for the public sector context which limits the circumstances under which a valuation is prepared under IFRS 13. Assets which are held for their service potential and are in use should be measured at their current value in existing use. For specialised assets current value in existing use should be interpreted as the present value of the assets remaining service potential, which can be assumed to be at least equal to the cost of replacing that service potential. Where there is no single class of asset that falls within IFRS 13, disclosures should be for material items only.

In accordance with the adaptation of IAS 16 in table 6.2 of the FReM, for non-specialised assets in operational use, current value in existing use is interpreted as market value for existing use which is defined in the RICS Red Book as Existing Use Value (EUV).

Assets which were most recently held for their service potential but are surplus should be valued at current value in existing use, if there are restrictions on the NHS organisation or the asset which would prevent access to the market at the reporting date. If the NHS organisation could access the market then the surplus asset should be used at fair value using IFRS 13. In determining whether such an asset which is not in use is surplus, an assessment should be made on whether there is a clear plan to bring the asset back into use as an operational asset. Where there is a clear plan, the asset is not surplus and the current value in existing use should be maintained. Otherwise the asset should be assessed as being surplus and valued under IFRS13.

Assets which are not held for their service potential should be valued in accordance with IFRS 5 or IAS 40 depending on whether the asset is actively held for sale. Where an asset is not being used to deliver

services and there is no plan to bring it back into use, with no restrictions on sale, and it does not meet the IAS 40 and IFRS 5 criteria, these assets are surplus and are valued at fair value using IFRS 13.

Assets which are not held for their service potential should be valued in accordance with IFRS 5 or IAS 40 depending on whether the asset is actively held for sale. Where an asset is not being used to deliver services and there is no plan to bring it back into use, with no restrictions on sale, and it does not meet the IAS 40 and IFRS 5 criteria, these assets are surplus and are valued at fair value using IFRS 13.

1.6.3. Subsequent expenditure

Where subsequent expenditure enhances an asset beyond its original specification, the directly attributable cost is capitalised. Where subsequent expenditure restores the asset to its original specification, the expenditure is capitalised and any carrying value of the item replaced is written-out and charged to the SoCNE. As highlighted in previous years the NHS in Wales does not have systems in place to ensure that all items being "replaced" can be identified and hence the cost involved to be quantified. The NHS in Wales has thus established a national protocol to ensure it complies with the standard as far as it is able to which is outlined in the capital accounting chapter of the Manual For Accounts. This dictates that to ensure that asset carrying values are not materially overstated. For All Wales Capital Schemes that are completed in a financial year, NHS Wales organisations are required to obtain a revaluation during that year (prior to them being brought into use) and also similar revaluations are needed for all Discretionary Building Schemes completed which have a spend greater than £0.5m. The write downs so identified are then charged to operating expenses.

1.7. Intangible assets

1.7.1. Recognition

Intangible assets are non-monetary assets without physical substance, which are capable of sale separately from the rest of the business or which arise from contractual or other legal rights. They are recognised only when it is probable that future economic benefits will flow to, or service potential be provided to, the NHS Wales organisation; where the cost of the asset can be measured reliably, and where the cost is at least £5,000.

Intangible assets acquired separately are initially recognised at fair value. Software that is integral to the operating of hardware, for example an operating system, is capitalised as part of the relevant item of property, plant and equipment. Software that is not integral to the operation of hardware, for example application software, is capitalised as an intangible asset. Expenditure on research is not capitalised: it is recognised as an operating expense in the period in which it is incurred. Internally-generated assets are recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use.
- the intention to complete the intangible asset and use it.
- the ability to use the intangible asset.
- how the intangible asset will generate probable future economic benefits.
- the availability of adequate technical, financial and other resources to complete the intangible asset and use it.

- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

Measurement

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the criteria above are initially met. Where no internally-generated intangible asset can be recognised, the expenditure is recognised in the period in which it is incurred.

Following initial recognition, intangible assets are carried at fair value by reference to an active market, or, where no active market exists, at amortised replacement cost (modern equivalent assets basis), indexed for relevant price increases, as a proxy for fair value. Internally-developed software is held at historic cost to reflect the opposing effects of increases in development costs and technological advances.

1.8. Depreciation, amortisation and impairments

Freehold land, assets under construction and assets held for sale are not depreciated.

Otherwise, depreciation and amortisation are charged to write off the costs or valuation of property, plant and equipment and intangible non-current assets, less any residual value, over their estimated useful lives, in a manner that reflects the consumption of economic benefits or service potential of the assets. The estimated useful life of an asset is the period over which the NHS Wales Organisation expects to obtain economic benefits or service potential from the asset. This is specific to the NHS Wales organisation and may be shorter than the physical life of the asset itself. Estimated useful lives and residual values are reviewed each year end, with the effect of any changes recognised on a prospective basis. Assets held under finance leases are depreciated over the shorter of the lease term and estimated useful lives.

At each reporting period end, the NHS Wales organisation checks whether there is any indication that any of its tangible or intangible non-current assets have suffered an impairment loss. If there is indication of an impairment loss, the recoverable amount of the asset is estimated to determine whether there has been a loss and, if so, its amount. Intangible assets not yet available for use are tested for impairment annually.

Impairment losses that do not result from a loss of economic value or service potential are taken to the revaluation reserve to the extent that there is a balance on the reserve for the asset and, thereafter, to the SoCNE. Impairment losses that arise from a clear consumption of economic benefit are taken to the SoCNE. The balance on any revaluation reserve (up to the level of the impairment) to which the impairment would have been charged under IAS 36 are transferred to retained earnings.

1.9. Research and Development

Research and development expenditure is charged to operating costs in the year in which it is incurred, except insofar as it relates to a clearly defined project, which can be separated from patient care activity and benefits therefrom can reasonably be regarded as assured. Expenditure so deferred is limited to the value of future benefits expected and is amortised through the SoCNE on a systematic basis over the period expected to benefit from the project.

1.10 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met when

the sale is highly probable, the asset is available for immediate sale in its present condition and management is committed to the sale, which is expected to qualify for recognition as a completed sale, within one year from the date of classification. Non-current assets held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell. Fair value is open market value including alternative uses.

The profit or loss arising on disposal of an asset is the difference between the sale proceeds and the carrying amount and is recognised in the SoCNE. On disposal, the balance for the asset on the revaluation reserve, is transferred to the General Fund.

Property, plant and equipment that is to be scrapped or demolished does not qualify for recognition as held for sale. Instead it is retained as an operational asset and its economic life adjusted. The asset is derecognised when it is scrapped or demolished.

1.11. Leases

Leases are classified as finance leases when substantially all the risks and rewards of ownership are transferred to the lessee. All other leases are classified as operating leases.

1.11.1. The NHS Wales organisation as lessee

Property, plant and equipment held under finance leases are initially recognised, at the inception of the lease, at fair value or, if lower, at the present value of the minimum lease payments, with a matching liability for the lease obligation to the lessor. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the SoCNE.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. Lease incentives are recognised initially as a liability and subsequently as a reduction of rentals on a straight-line basis over the lease term. Contingent rentals are recognised as an expense in the period in which they are incurred.

Where a lease is for land and buildings, the land and building components are separated and individually assessed as to whether they are operating or finance leases.

1.11.2. The NHS Wales organisation as lessor

Amounts due from lessees under finance leases are recorded as receivables at the amount of the NHS Wales organisation net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the NHS Wales organisation's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

1.12. Inventories

Whilst it is accounting convention for inventories to be valued at the lower of cost and net realisable value using the weighted average or "first-in first-out" cost formula, it should be recognised that the NHS is a special case in that inventories are not generally held for the intention of resale and indeed there is no

market readily available where such items could be sold. Inventories are valued at cost and this is considered to be a reasonable approximation to fair value due to the high turnover of stocks. Work-in-progress comprises goods in intermediate stages of production. Partially completed contracts for patient services are not accounted for as work-in-progress.

1.13. Cash and cash equivalents

Cash is cash in hand and deposits with any financial institution repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in 3 months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. In the Statement of Cash flows (SoCF), cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and that form an integral part of the cash management.

1.14. Provisions

Provisions are recognised when the NHS Wales organisation has a present legal or constructive obligation as a result of a past event, it is probable that the NHS Wales organisation will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the expenditure required to settle the obligation at the end of the reporting period, taking into account the risks and uncertainties. Where a provision is measured using the cash flows estimated to settle the obligation, its carrying amount is the present value of those cash flows using the discount rate supplied by HM Treasury.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursements will be received and the amount of the receivable can be measured reliably.

Present obligations arising under onerous contracts are recognised and measured as a provision. An onerous contract is considered to exist where the NHS Wales organisation has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

A restructuring provision is recognised when the NHS Wales organisation has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with ongoing activities of the entity.

1.14.1. Clinical negligence and personal injury costs

The Welsh Risk Pool Services (WRPS) operates a risk pooling scheme which is co-funded by the Welsh Government with the option to access a risk sharing agreement funded by the participative NHS Wales bodies. The risk sharing option was implemented in both 2021-22 and 2020-21. The WRP is hosted by Velindre NHS Trust.

1.14.2. Future Liability Scheme (FLS) - General Medical Practice Indemnity (GMPI)

The FLS is a state backed scheme to provide clinical negligence General Medical Practice Indemnity (GMPI) for providers of GMP services in Wales.

In March 2019, the Minister issued a Direction to Velindre NHS Trust to enable Legal and Risk Services to operate the Scheme. The GMPI is underpinned by new secondary legislation, The NHS (Clinical Negligence Scheme) (Wales) Regulations 2019 which came into force on 1 April 2019.

GMP Service Providers are not direct members of the GMPI FLS, their qualifying liabilities are the subject of an arrangement between them and their relevant LHB, which is a member of the scheme. The qualifying reimbursements to the LHB are not subject to the £25,000 excess.

1.15. Financial Instruments

From 2018-19 IFRS 9 Financial Instruments has applied, as interpreted and adapted for the public sector, in the FReM. The principal impact of IFRS 9 adoption by NHS Wales' organisations, was to change the calculation basis for bad debt provisions, changing from an incurred loss basis to a lifetime expected credit loss (ECL) basis.

All entities applying the FReM recognised the difference between previous carrying amount and the carrying amount at the beginning of the annual reporting period that included the date of initial application in the opening general fund within Taxpayer's equity.

1.16. Financial assets

Financial assets are recognised on the SoFP when the NHS Wales organisation becomes party to the financial instrument contract or, in the case of trade receivables, when the goods or services have been delivered. Financial assets are derecognised when the contractual rights have expired or the asset has been transferred.

The accounting policy choice allowed under IFRS 9 for long term trade receivables, contract assets which do contain a significant financing component (in accordance with IFRS 15), and lease receivables within the scope of IAS 17 has been withdrawn and entities should always recognise a loss allowance at an amount equal to lifetime Expected Credit Losses. All entities applying the FReM should utilise IFRS 9's simplified approach to impairment for relevant assets.

IFRS 9 requirements required a revised approach for the calculation of the bad debt provision, applying the principles of expected credit loss, using the practical expedients within IFRS 9 to construct a provision matrix.

1.16.1. Financial assets are initially recognised at fair value

Financial assets are classified into the following categories: financial assets 'at fair value through SoCNE'; 'held to maturity investments'; 'available for sale' financial assets, and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

1.16.2. Financial assets at fair value through SoCNE

Embedded derivatives that have different risks and characteristics to their host contracts, and contracts with embedded derivatives whose separate value cannot be ascertained, are treated as financial assets at fair value through SoCNE. They are held at fair value, with any resultant gain or loss recognised in the SoCNE. The net gain or loss incorporates any interest earned on the financial asset.

1.16.3 Held to maturity investments

Held to maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity, and there is a positive intention and ability to hold to maturity. After initial recognition, they are held at amortised cost using the effective interest method, less any impairment. Interest is recognised using the effective interest method.

1.16.4. Available for sale financial assets

Available for sale financial assets are non-derivative financial assets that are designated as available for sale or that do not fall within any of the other three financial asset classifications. They are measured at fair value with changes in value taken to the revaluation reserve, with the exception of impairment losses. Accumulated gains or losses are recycled to the SoCNE on de-recognition.

1.16.5. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments which are not quoted in an active market. After initial recognition, they are measured at amortised cost using the effective interest method, less any impairment. Interest is recognised using the effective interest method.

Fair value is determined by reference to quoted market prices where possible, otherwise by valuation techniques.

The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, to the net carrying amount of the financial asset.

At the SOFP date, the NHS Wales organisation assesses whether any financial assets, other than those held at 'fair value through profit and loss' are impaired. Financial assets are impaired and impairment losses recognised if there is objective evidence of impairment as a result of one or more events which occurred after the initial recognition of the asset and which has an impact on the estimated future cash flows of the asset.

For financial assets carried at amortised cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. The loss is recognised in the SoCNE and the carrying amount of the asset is reduced directly, or through a provision of impairment of receivables.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the SoCNE to the extent that the carrying amount of the receivable at the date of the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

1.17. Financial liabilities

Financial liabilities are recognised on the SOFP when the NHS Wales organisation becomes party to the contractual provisions of the financial instrument or, in the case of trade payables, when the goods or services have been received. Financial liabilities are de-recognised when the liability has been discharged, that is, the liability has been paid or has expired.

1.17.1. Financial liabilities are initially recognised at fair value

Financial liabilities are classified as either financial liabilities at fair value through the SoCNE or other financial liabilities.

1.17.2. Financial liabilities at fair value through the SoCNE

Embedded derivatives that have different risks and characteristics to their host contracts, and contracts with embedded derivatives whose separate value cannot be ascertained, are treated as financial liabilities at fair value through profit and loss. They are held at fair value, with any resultant gain or loss recognised in the SoCNE. The net gain or loss incorporates any interest earned on the financial asset.

1.17.3. Other financial liabilities

After initial recognition, all other financial liabilities are measured at amortised cost using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments through the life of the asset, to the net carrying amount of the financial liability. Interest is recognised using the effective interest method.

1.18. Value Added Tax (VAT)

Most of the activities of the NHS Wales organisation are outside the scope of VAT and, in general, output tax does not apply and input tax on purchases is not recoverable. Irrecoverable VAT is charged to the relevant expenditure category or included in the capitalised purchase cost of fixed assets. Where output tax is charged or input VAT is recoverable, the amounts are stated net of VAT.

1.19. Foreign currencies

Transactions denominated in a foreign currency are translated into sterling at the exchange rate ruling on the dates of the transactions. Resulting exchange gains and losses are taken to the SoCNE. At the SoFP date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the reporting date.

1.20. Third party assets

Assets belonging to third parties (such as money held on behalf of patients) are not recognised in the accounts since the NHS Wales organisation has no beneficial interest in them. Details of third party assets are given in the Notes to the accounts.

1.21. Losses and Special Payments

Losses and special payments are items that the Welsh Government would not have contemplated when it agreed funds for the health service or passed legislation. By their nature they are items that ideally should not arise. They are therefore subject to special control procedures compared with the generality of payments. They are divided into different categories, which govern the way each individual case is handled.

Losses and special payments are charged to the relevant functional headings in the SoCNE on an accruals basis, including losses which would have been made good through insurance cover had the NHS Wales organisation not been bearing their own risks (with insurance premiums then being included as normal revenue expenditure). However, the note on losses and special payments is compiled directly from the losses register which is prepared on a cash basis.

The NHS Wales organisation accounts for all losses and special payments gross (including assistance from the WRP).

The NHS Wales organisation accrues or provides for the best estimate of future pay-outs for certain liabilities and discloses all other potential payments as contingent liabilities, unless the probability of the liabilities becoming payable is remote.

All claims for losses and special payments are provided for, where the probability of settlement of an individual claim is over 50%. Where reliable estimates can be made, incidents of clinical negligence against which a claim has not, as yet, been received are provided in the same way. Expected reimbursements from the WRP are included in debtors. For those claims where the probability of settlement is between 5- 50%, the liability is disclosed as a contingent liability.

1.22. Pooled budget

The NHS Wales organisation has entered into pooled budgets with Local Authorities. Under the arrangements funds are pooled in accordance with section 33 of the NHS (Wales) Act 2006 for specific activities defined in the Pooled budget Note.

The pool budget is hosted by one NHS Wales's organisation. Payments for services provided are accounted for as miscellaneous income. The NHS Wales organisation accounts for its share of the assets, liabilities, income and expenditure from the activities of the pooled budget, in accordance with the pooled budget arrangement.

1.23. Critical Accounting Judgements and key sources of estimation uncertainty

In the application of the accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from those estimates. The estimates and underlying assumptions are continually reviewed. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or the period of the revision and future periods if the revision affects both current and future periods.

1.24. Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the SoFP date, that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Significant estimations are made in relation to on-going clinical negligence and personal injury claims. Assumptions as to the likely outcome, the potential liabilities and the timings of these litigation claims are provided by independent legal advisors. Any material changes in liabilities associated with these

claims would be recoverable through the Welsh Risk Pool.

Significant estimations are also made for continuing care costs resulting from claims post 1 April 2003. An assessment of likely outcomes, potential liabilities and timings of these claims are made on a case by case basis. Material changes associated with these claims would be adjusted in the period in which they are revised.

Estimates are also made for contracted primary care services. These estimates are based on the latest payment levels. Changes associated with these liabilities are adjusted in the following reporting period.

The Annual leave accrual is also estimated based on available data at the time of preparing the Accounts.

1.24.1. Provisions

The NHS Wales organisation provides for legal or constructive obligations for clinical negligence, personal injury and defence costs that are of uncertain timing or amount at the balance sheet date on the basis of the best estimate of the expenditure required to settle the obligation.

Claims are funded via the Welsh Risk Pool Services (WRPS) which receives an annual allocation from Welsh Government to cover the cost of reimbursement requests submitted to the bi-monthly WRPS Committee. Following settlement to individual claimants by the NHS Wales organisation, the full cost is recognised in year and matched to income (less a £25K excess) via a WRPS debtor, until reimbursement has been received from the WRPS Committee.

1.24.2. Probable & Certain Cases – Accounting Treatment

A provision for these cases is calculated in accordance with IAS 37. Cases are assessed and divided into four categories according to their probability of settlement;

Remote	Probability of Settlement	0 – 5%
	Accounting Treatment	Contingent Liability.
Possible	Probability of Settlement	6% - 49%
	Accounting Treatment	Defence Fee - Provision
	Contingent Liability for all other estimated expenditure.	
Probable	Probability of Settlement	50% - 94%
	Accounting Treatment	Full Provision
Certain	Probability of Settlement	95% - 100%
	Accounting Treatment	Full Provision

The provision for probable and certain cases is based on case estimates of individual reported claims received by Legal & Risk Services within NHS Wales Shared Services Partnership.

The solicitor will estimate the case value including defence fees, using professional judgement and from obtaining counsel advice. Valuations are then discounted for the future loss elements using individual life expectancies and the Government Actuary's Department actuarial tables (Ogden tables) and Personal Injury Discount Rate of minus 0.25%.

Future liabilities for certain & probable cases with a probability of 95%-100% and 50%- 94% respectively are held as a provision on the balance sheet. Cases typically take a number of years to settle, particularly for high value cases where a period of development is necessary to establish the full extent of the injury caused.

1.25 Discount Rates

Where discount is applied, a disclosure detailing the impact of the discounting on liabilities to be included for the relevant notes. The disclosure should include where possible undiscounted values to demonstrate the impact. An explanation of the source of the discount rate or how the discount rate has been determined to be included.

1.26 Private Finance Initiative (PFI) transactions

HM Treasury has determined that government bodies shall account for infrastructure PFI schemes where the government body controls the use of the infrastructure and the residual interest in the infrastructure at the end of the arrangement as service concession arrangements, following the principles of the requirements of IFRIC 12. The NHS Wales organisation therefore recognises the PFI asset as an item of property, plant and equipment together with a liability to pay for it. The services received under the contract are recorded as operating expenses.

The annual unitary payment is separated into the following component parts, using appropriate estimation techniques where necessary:

- a) Payment for the fair value of services received;
- b) Payment for the PFI asset, including finance costs; and
- c) Payment for the replacement of components of the asset during the contract 'lifecycle replacement'

The Health Board has no PFI schemes.

1.26.1. Services received

The fair value of services received in the year is recorded under the relevant expenditure headings within 'operating expenses'.

1.26.2. PFI asset

The PFI assets are recognised as property, plant and equipment, when they come into use. The assets are measured initially at fair value in accordance with the principles of IAS 17. Subsequently, the assets are measured at fair value, which is kept up to date in accordance with the NHS Wales organisation's approach for each relevant class of asset in accordance with the principles of IAS 16.

1.26.2. PFI liability

A PFI liability is recognised at the same time as the PFI assets are recognised. It is measured initially at the same amount as the fair value of the PFI assets and is subsequently measured as a finance lease liability in accordance with IAS 17.

An annual finance cost is calculated by applying the implicit interest rate in the lease to the opening lease liability for the period, and is charged to 'Finance Costs' within the SoCNE.

The element of the annual unitary payment that is allocated as a finance lease rental is applied to meet the annual finance cost and to repay the lease liability over the contract term.

An element of the annual unitary payment increase due to cumulative indexation is allocated to the finance lease. In accordance with IAS 17, this amount is not included in the minimum lease payments, but is instead treated as contingent rent and is expensed as incurred. In substance, this amount is a finance cost in respect of the liability and the expense is presented as a contingent finance cost in the SoCNE.

1.26.3. Lifecycle replacement

Components of the asset replaced by the operator during the contract ('lifecycle replacement') are capitalised where they meet the NHS Wales organisation's criteria for capital expenditure. They are capitalised at the time they are provided by the operator and are measured initially at their fair value.

The element of the annual unitary payment allocated to lifecycle replacement is pre-determined for each year of the contract from the operator's planned programme of lifecycle replacement. Where the lifecycle component is provided earlier or later than expected, a short-term finance lease liability or prepayment is recognised respectively.

Where the fair value of the lifecycle component is less than the amount determined in the contract, the difference is recognised as an expense when the replacement is provided. If the fair value is greater than the amount determined in the contract, the difference is treated as a 'free' asset and a deferred income balance is recognised. The deferred income is released to the operating income over the shorter of the remaining contract period or the useful economic life of the replacement component.

1.26.4. Assets contributed by the NHS Wales organisation to the operator for use in the scheme

Assets contributed for use in the scheme continue to be recognised as items of property, plant and equipment in the NHS Wales organisation's SoFP.

1.26.5. Other assets contributed by the NHS Wales organisation to the operator

Assets contributed (e.g. cash payments, surplus property) by the NHS Wales organisation to the operator before the asset is brought into use, which are intended to defray the operator's capital costs, are recognised initially as prepayments during the construction phase of the contract. Subsequently, when the asset is made available to the NHS Wales organisation, the prepayment is treated as an initial payment towards the finance lease liability and is set against the carrying value of the liability.

A PFI liability is recognised at the same time as the PFI assets are recognised. It is measured at the present value of the minimum lease payments, discounted using the implicit interest rate. It is subsequently measured as a finance lease liability in accordance with IAS 17.

On initial recognition of the asset, the difference between the fair value of the asset and the initial liability is recognised as deferred income, representing the future service potential to be received by the NHS Wales organisation through the asset being made available to third party users.

1.27. Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the NHS Wales organisation, or a present obligation that is not recognised because it is not probable that a payment will be required to settle the obligation or the amount of the obligation cannot be measured sufficiently reliably. A contingent liability is disclosed unless the possibility of a payment is remote.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the NHS Wales organisation. A contingent asset is disclosed where an inflow of economic benefits is probable.

Where the time value of money is material, contingencies are disclosed at their present value.

Remote contingent liabilities are those that are disclosed under Parliamentary reporting requirements and not under IAS 37 and, where practical, an estimate of their financial effect is required.

1.28. Absorption accounting

Transfers of function are accounted for as either by merger or by absorption accounting dependent upon the treatment prescribed in the FReM. Absorption accounting requires that entities account for their transactions in the period in which they took place with no restatement of performance required.

Where transfer of function is between LHBs the gain or loss resulting from the assets and liabilities transferring is recognised in the SoCNE and is disclosed separately from the operating costs.

1.29. Accounting standards that have been issued but not yet been adopted

The following accounting standards have been issued and or amended by the IASB and IFRIC but have not been adopted because they are not yet required to be adopted by the FReM

IFRS14 Regulatory Deferral Accounts

Applies to first time adopters of IFRS after 1 January 2016. Therefore not applicable.

IFRS 16 Leases is to be effective from 1st April 2022.

IFRS 17 Insurance Contracts, Application required for accounting periods beginning on or after 1 January 2021, but not yet adopted by the FReM: early adoption is not therefore permitted.

1.30. Accounting standards issued that have been adopted early

During 2021-22 there have been no accounting standards that have been adopted early. All early adoption of accounting standards will be led by HM Treasury.

1.31. Charities

Following Treasury's agreement to apply IAS 27 to NHS Charities from 1 April 2013, the NHS Wales

organisation has established that as it is the corporate trustee of the Hywel Dda University LHB NHS Charitable Fund, it is considered for accounting standards compliance to have control of the Hywel Dda University LHB NHS Charitable Fund as a subsidiary and therefore is required to consolidate the results of the Hywel Dda University LHB NHS Charitable Fund within the statutory accounts of the NHS Wales organisation.

The determination of control is an accounting standard test of control and there has been no change to the operation of the Hywel Dda University LHB NHS Charitable Fund or its independence in its management of charitable funds.

However, the NHS Wales organisation has with the agreement of the Welsh Government adopted the IAS 27 (10) exemption to consolidate. Welsh Government as the ultimate parent of the Local Health Boards will disclose the Charitable Accounts of Local Health Boards in the Welsh Government Consolidated Accounts. Details of the transactions with the charity are included in the related parties' notes.

2. Financial Duties Performance

The National Health Service Finance (Wales) Act 2014 came into effect from 1 April 2014. The Act amended the financial duties of Local Health Boards under section 175 of the National Health Service (Wales) Act 2006. From 1 April 2014 section 175 of the National Health Service (Wales) Act places two financial duties on Local Health Boards:

- A duty under section 175 (1) to secure that its expenditure does not exceed the aggregate of the funding allotted to it over a period of 3 financial years
- A duty under section 175 (2A) to prepare a plan in accordance with planning directions issued by the Welsh Ministers, to secure compliance with the duty under section 175 (1) while improving the health of the people for whom it is responsible, and the provision of health care to such people, and for that plan to be submitted to and approved by the Welsh Ministers.

The first assessment of performance against the 3 year statutory duty under section 175 (1) was at the end of 2016-17, being the first 3 year period of assessment.

Welsh Health Circular WHC/2016/054 "Statutory and Financial Duties of Local Health Boards and NHS Trusts" clarifies the statutory financial duties of NHS Wales bodies effective from 2016-17.

2.1 Revenue Resource Performance

	Annual financial performance			
	2019-20 £000	2020-21 £000	2021-22 £000	Total £000
Net operating costs for the year	928,650	1,054,279	1,093,409	3,076,338
Less general ophthalmic services expenditure and other non-cash limited expenditure	1,400	1,889	1,547	4,836
Less revenue consequences of bringing PFI schemes onto SoFP	0	0	0	0
Total operating expenses	930,050	1,056,168	1,094,956	3,081,174
Revenue Resource Allocation	895,107	1,031,258	1,069,956	2,996,321
Under /(over) spend against Allocation	(34,943)	(24,910)	(25,000)	(84,853)

Hywel Dda University LHB has not met its financial duty to break-even against its Revenue Resource Limit over the 3 years 2019-20 to 2021-22.

The Health Board received £16m strategic cash only support in 2021-22.

This cash only support is provided to assist the health board with payments to staff and suppliers, there is no requirement to repay this strategic cash assistance.

2.2 Capital Resource Performance

	2019-20 £000	2020-21 £000	2021-22 £000	Total £000
Gross capital expenditure	41,686	35,483	62,677	139,846
Add: Losses on disposal of donated assets	0	0	0	0
Less NBV of property, plant and equipment and intangible assets disposed	(323)	(455)	(553)	(1,331)
Less capital grants received	0	0	0	0
Less donations received	(1,099)	(637)	(1,073)	(2,809)
Charge against Capital Resource Allocation	40,264	34,391	61,051	135,706
Capital Resource Allocation	40,295	34,451	61,113	135,859
(Over) / Underspend against Capital Resource Allocation	31	60	62	153

Hywel Dda University LHB has met its financial duty to break-even against its Capital Resource Limit over the 3 years 2019-20 to 2021-22.

2.3 Duty to prepare a 3 year integrated plan

Due to the pandemic, the process for the 2020-23 integrated plan was paused, in spring 2020 temporary planning arrangements were implemented.

As a result the extant planning duty for 2021-22 remains the requirement to submit and have approved a 2019-22 integrated plan, as set out in the NHS Wales Planning Framework 2019-22.

The Hywel Dda University Health Board did not submit a 2019-22 integrated plan in accordance with the planning framework.

The LHB **has not** therefore met its statutory duty to have an approved financial plan.

2.4 Creditor payment

The LHB is required to pay 95% of the number of non-NHS bills within 30 days of receipt of goods or a valid invoice (whichever is the later). The LHB has achieved the following results:

	2021-22	2020-21
Total number of non-NHS bills paid	240,786	201,912
Total number of non-NHS bills paid within target	229,189	192,345
Percentage of non-NHS bills paid within target	95.2%	95.3%

The LHB has met the target.

3. Analysis of gross operating costs

3.1 Expenditure on Primary Healthcare Services

	Cash limited £000	Non-cash limited £000	2021-22 Total £000	2020-21 Total £000
General Medical Services	76,935		76,935	74,179
Pharmaceutical Services	20,401	(6,109)	14,292	14,610
General Dental Services	21,738		21,738	19,578
General Ophthalmic Services	1,216	4,562	5,778	5,462
Other Primary Health Care expenditure	6,449		6,449	5,644
Prescribed drugs and appliances	78,978		78,978	79,979
Total	205,717	(1,547)	204,170	199,452

Staff Costs of £14.1m paid by the Health Board are included in General Medical Services

3.2 Expenditure on healthcare from other providers

	2021-22 £000	2020-21 £000
Goods and services from other NHS Wales Health Boards	44,776	41,765
Goods and services from other NHS Wales Trusts	9,497	13,560
Goods and services from Welsh Special Health Authorities	2,363	0
Goods and services from other non Welsh NHS bodies	1,712	2,193
Goods and services from WHSCC / EASC	109,290	102,617
Local Authorities	19,655	31,529
Voluntary organisations	2,735	3,393
NHS Funded Nursing Care	2,888	2,799
Continuing Care	48,638	49,440
Private providers	9,131	4,870
Specific projects funded by the Welsh Government	0	0
Other	25	144
Total	250,710	252,310

3.3 Expenditure on Hospital and Community Health Services

	2021-22 £000	2020-21 £000
Directors' costs	2,392	2,294
Operational Staff costs	520,279	496,799

Exit costs paid in year of departure	Total paid in year	Total paid in year
	2021-22	2020-21
	£	£
Exit costs paid in year	0	312,000
Total	0	312,000

Redundancy and other departure costs have been paid in accordance with the provisions of the NHS Voluntary Early Release Scheme (VERS). Where the LHB has agreed early retirements, the additional costs are met by the LHB and not by the NHS Pensions Scheme. Ill-health retirement costs are met by the NHS Pensions Scheme and are not included in the table.

9.6 Fair Pay disclosures**9.6.1 Remuneration Relationship**

Reporting bodies are required to disclose the relationship between the remuneration of the highest-paid director /employee in their organisation and the 25th percentile, median and 75th percentile remuneration of the organisation's workforce. The 2021-22 financial year is the first year disclosures in respect of the 25th percentile pay ratio and 75th percentile pay ratio are required.

	2021-22 £000 Chief	2021-22 £000 Employee	2021-22 £000 Ratio	2020-21 £000 Chief	2020-21 £000 Employee	2020-21 £000 Ratio
Total pay and benefits	Executive	Employee	Ratio	Executive	Employee	Ratio
25th percentile pay ratio	203	20	10.15	198	23	8.61
Median pay	203	32	6.34	198	34	5.82
75th percentile pay ratio	203	39	5.21	198	34	5.82
Salary component of total pay and benefits						
25th percentile pay ratio	203	20	10.15	198	23	8.61
Median pay	203	32	6.34	198	34	5.82
75th percentile pay ratio	203	39	5.21	198	34	5.82

In 2021-22, 29 (2020-21, 24) employees received remuneration in excess of the highest-paid director.

Remuneration for all staff ranged from £22,439 to £334,158 (2020-21, £21,879 to £318,973).

The all staff range includes directors (including the highest paid director) and excludes pension benefits of all employees.

The Chief Executive is the highest paid Director.

Financial year summary

The median pay of the workforce has remained consistent year on year

9.6.2 Percentage Changes

	2020-21 to 2021-22 %	2019-20 to 2020-21 %
% Change from previous financial year in respect of Chief Executive	%	%
Salary and allowances	2	2
Performance pay and bonuses	0	0
Average % Change from previous financial year in respect of employees takes as a whole		
Salary and allowances	1	7
Performance pay and bonuses	0	0

The NHS and social care financial recognition scheme bonus of £735 payment to reward eligible NHS staff has not been included in the NHS Remuneration Report calculations. This bonus payment is not a contractual payment, but a one off payment to reward eligible staff for their commitment and tireless efforts in the most challenging circumstances.

9.7 Pension costs

Past and present employees are covered by the provisions of the two NHS Pension Schemes. Details of the benefits payable and rules of the Schemes can be found on the NHS Pensions website at www.nhsbsa.nhs.uk/pensions. Both are unfunded defined benefit schemes that cover NHS employers, GP practices and other bodies, allowed under the direction of the Secretary of State for Health and Social Care in England and Wales. They are not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, each scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in each scheme is taken as equal to the contributions payable to that scheme for the accounting period.

In order that the defined benefit obligations recognised in the financial statements do not differ materially from those that would be determined at the reporting date by a formal actuarial valuation, the FReM requires that “the period between formal valuations shall be four years, with approximate assessments in intervening years”. An outline of these follows:

a) Accounting valuation

A valuation of scheme liability is carried out annually by the scheme actuary (currently the Government Actuary's Department) as at the end of the reporting period. This utilises an actuarial assessment for the previous accounting period in conjunction with updated membership and financial data for the current reporting period, and is accepted as providing suitably robust figures for financial reporting purposes. The valuation of the scheme liability as at 31 March 2022, is based on valuation data as 31 March 2021, updated to 31 March 2022 with summary global member and accounting data. In undertaking this actuarial assessment, the methodology prescribed in IAS 19, relevant FReM interpretations, and the discount rate prescribed by HM Treasury have also been used.

The latest assessment of the liabilities of the scheme is contained in the report of the scheme actuary, which forms part of the annual NHS Pension Scheme Accounts. These accounts can be viewed on the NHS Pensions website and are published annually. Copies can also be obtained from The Stationery Office.

b) Full actuarial (funding) valuation

The purpose of this valuation is to assess the level of liability in respect of the benefits due under the schemes (taking into account recent demographic experience), and to recommend contribution rates payable by employees and employers.

The latest actuarial valuation undertaken for the NHS Pension Scheme was completed as at 31 March 2016. The results of this valuation set the employer contribution rate payable from April 2019 to 20.6% of pensionable pay.

The 2016 funding valuation also tested the cost of the Scheme relative to the employer cost cap that was set following the 2012 valuation. There was initially a pause to the cost control element of the 2016 valuations, due to the uncertainty around member benefits caused by the discrimination ruling relating to the McCloud case.

HMT published valuation directions dated 7 October 2021 (see [Amending Directions 2021](#)) that set out the technical detail of how the costs of remedy are included in the 2016 valuation process. Following these directions, the scheme actuary has completed the cost control element of the 2016 valuation for the NHS Pension Scheme, which concludes no changes to benefits or member contributions are required. The 2016 valuation reports can be found on the NHS Pensions website at <https://www.nhsbsa.nhs.uk/nhs-pension-scheme-accounts-and-valuation-reports>.

c) National Employment Savings Trust (NEST)

NEST is a workplace pension scheme, which was set up by legislation and is treated as a trust-based scheme. The Trustee responsible for running the scheme is NEST Corporation. It's a non-departmental public body (NDPB) that operates at arm's length from government and is accountable to Parliament through the Department for Work and Pensions (DWP).

NEST Corporation has agreed a loan with the Department for Work and Pensions (DWP). This has paid for the scheme to be set up and will cover expected shortfalls in scheme costs during the earlier years while membership is growing.

NEST Corporation aims for the scheme to become self-financing while providing consistently low charges to members.

Using qualifying earnings to calculate contributions, currently the legal minimum level of contributions is 8% of a jobholder's qualifying earnings, for employers whose legal duties have started. The employer must pay at least 3% of this.

The earnings band used to calculate minimum contributions under existing legislation is called qualifying earnings. Qualifying earnings are currently those between £6,240 and £50,270 for the 2021-2022 tax year (2020-2021 £6,240 and £50,000).

Restrictions on the annual contribution limits were removed on 1st April 2017.

10. Public Sector Payment Policy - Measure of Compliance

10.1 Prompt payment code - measure of compliance

The Welsh Government requires that Health Boards pay all their trade creditors in accordance with the CBI prompt payment code and Government Accounting rules. The Welsh Government has set as part of the Health Board financial targets a requirement to pay 95% of the number of non-NHS creditors within 30 days of delivery.

The land and buildings were revalued by the Valuation Office Agency with an effective date of 1st April 2017. The valuation has been prepared in accordance with the terms of the latest version of the Royal Institute of Chartered Surveyors' Valuation Standards. LHBs are required to apply the revaluation model set out in IAS 16 and value its capital assets to fair value. Fair value is defined by IAS 16 as the amount for which an asset could be exchanged between knowledgeable, willing parties in an arms length transaction. This has been undertaken on the assumption that the property is sold as part of the continuing enterprise in occupation.

The land and buildings were revalued by the Valuation Office Agency with an effective date of 1st April 2017. The valuation has been prepared in accordance with the terms of the latest version of the Royal Institute of Chartered Surveyors' Valuation Standards. LHB s are required to apply the revaluation model set out in IAS 16 and value its capital assets to fair value. Fair value is defined by IAS 16 as the amount for which an asset could be exchanged between knowledgeable, willing parties in an arms length transaction. This has been undertaken on the assumption that the property is sold as part of the continuing enterprise in occupation.

11. Property, plant and equipment (continued)**Disclosures:****i) Donated Assets**

The LHB has received the following donated assets during the year :

Hywel Dda General Fund Charity (1147683) Plant and Machinery	£205,005
UK Government Department of Health & Social Care Granted Assets	£821,387
Other Contributions	£34,323
Total Donated Assets	£1,060,715

ii) Valuations

The LHBs land and Buildings were revalued by the Valuation Office Agency with an effective date of 1st April 2017. The valuation has been prepared in accordance with the terms of the latest version of the Royal Institute of Chartered Surveyors' Valuation Standards.

The LHB is required to apply the revaluation model set out in IAS 16 and value its capital assets to fair value. Fair value is defined by IAS 16 as the amount for which an asset could be exchanged between knowledgeable, willing parties in an arms length transaction. This has been undertaken on the assumption that the property is sold as part of the continuing enterprise in operation.

iii) Asset Lives

Depreciated as follows:

- Land is not depreciated.
- Buildings as determined by the Valuation Office Agency.
- Equipment 5-15 years.

iv) Compensation

There has been no compensation received from third parties for assets impaired, lost or given up, that is included in the income statement.

v) Write Downs

There have been no write downs.

vi) The LHB does not hold any property where the value is materially different from its open market value.

vii) Assets Held for Sale or sold in the period.

Cardigan Health Centre and Neyland Health Centre were previously held for sale and have been sold in the period.

26. Financial risk management

Financial reporting standard IFRS 7 requires disclosure of the role that financial instruments have had during the period in creating or changing the risks a body faces in undertaking its activities. The LHB is not exposed to the degree of financial risk faced by business entities. Also financial instruments play a much more limited role in creating or changing risk than would be typical of listed companies, to which these standards mainly apply. The LHB has limited powers to invest and financial assets and liabilities are generated by day-to-day operational activities rather than being held to change the risks facing the LHB in undertaking its activities.

Currency risk

The LHB is principally a domestic organisation with the great majority of transactions, assets and liabilities being in the UK and Sterling based. The LHB has no overseas operations. The LHB therefore has low exposure to currency rate fluctuations.

Interest rate risk

LHBs are not permitted to borrow. The LHB therefore has low exposure to interest rate fluctuations.

Credit risk

Because the majority of the LHB's funding derives from funds voted by the Welsh Government the LHB has low exposure to credit risk.

Liquidity risk

The LHB is required to operate within cash limits set by the Welsh Government for the financial year and draws down funds from the Welsh Government as the requirement arises. The LHB is not, therefore, exposed to significant liquidity risks.

27. Movements in working capital

	2021-22 £000	2020-21 £000

	191,408	1,141,934	3,432	21,108

31. Third Party assets

The LHB held £1,391,087 cash at bank and in hand at 31 March 2022 (31st March 2021, £1,425,138) which relates to monies held by the LHB on behalf of patients. Cash held in patient Investment Accounts amounted to £1,017,369 at 31st March 2022 (31st March 2021, £954,366). This has been excluded from the Cash and Cash equivalents figure reported in the accounts.

32. Pooled budgets

The Health Board has entered into a pooled budget with Carmarthenshire County Council on the 1st October 2009. Under the arrangement funds are pooled under section 33 of the NHS (Wales) Act 2006 for the provision of an integrated community joint equipment store. The pool is hosted by Carmarthenshire County Council and a memorandum note to the final accounts will provide details of the joint income and expenditure. The financial operation of the pool is governed by a pooled budget agreement between Carmarthenshire County Council and the Health Board. Payments for services provided by Carmarthenshire County Council in the sum of £408,941 are accounted for as expenditure in the accounts of the Health Board. The Health Board accounts for its share of the assets, liabilities, income and expenditure arising from the activities of the pooled budget, identified in accordance with the pooled budget agreement.

The Health Board has entered into an agreement with Carmarthenshire County Council on the 31st March 2011 under section 33 of the NHS (Wales) Act 2006 for the provision of Carmarthenshire Community Health and Social Care services. The section 33 agreement itself will initially only provide the framework for taking forward future schedules and therefore references all community based health, social care (adults & children) and related housing and public protection services so that if any future developments are considered a separate agreement will not have to be prepared. There are currently no pooled budgets related to this agreement.

The Health Board has entered into a pooled budget with Ceredigion County Council on the 1st April 2009. Under the arrangement funds are pooled under section 33 of the NHS (Wales) Act 2006 for the provision of an integrated community joint equipment store. The pool is hosted by Ceredigion County Council and a memorandum note to the final accounts will provide details of the joint income and expenditure. The financial operation of the pool is governed by a pooled budget agreement between Ceredigion County Council and the Health Board. Payments for services provided by Ceredigion County Council in the sum of £376,000 are accounted for as expenditure in the accounts of the Health Board. The Health Board accounts for its share of the assets, liabilities, income and expenditure arising from the activities of the pooled budget, identified in accordance with the pooled budget agreement.

The Health Board has entered into an agreement with Pembrokeshire County Council on the 31st March 2011 under section 33 of the NHS (Wales) Act 2006 for the provision of an integrated community joint equipment store and from 1st October 2012 the agreement has operated as a pooled fund. The pool is hosted by Pembrokeshire County Council and a memorandum note to the final accounts will provide details of the joint income and expenditure. The financial operation of the pool is governed by a pooled budget agreement between Pembrokeshire County Council and the Health Board. The Health Board accounts for its share of the assets, liabilities, income and expenditure arising from the activities of the pooled budget, identified in accordance with the pooled budget agreement and the sum of £274,792 has been accounted for as expenditure in the accounts of the Health Board.

33. Operating segments

IFRS 8 requires bodies to report information about each of its operating segments.

The Health Board has no operating segments.

34. Other Information**34.1. 6.3% Staff Employer Pension Contributions - Notional Element**

The value of notional transactions is based on estimated costs for the twelve month period 1 April 2021 to 31 March 2022. This has been calculated from actual Welsh Government expenditure for the 6.3% staff employer pension contributions between April 2021 and February 2022 alongside Health Board/Trust/SHA data for March 2022.

Transactions include notional expenditure in relation to the 6.3% paid to NHS BSA by Welsh Government and notional funding to cover that expenditure as follows:

	2021-22 £000
Statement of Comprehensive Net Expenditure for the year ended 31 March 2022	
Expenditure on Primary Healthcare Services	267
Expenditure on Hospital and Community Health Services	20,198

Other includes COVID Therapeutic Medicines (Treatment)

34. Other Information

34.3 Changes to accounting standards not yet effective - IFRS 16 Impact

IFRS 16 Leases supersedes IAS 17 Leases and is effective in the public sector from 1 April 2022. IFRS 16 provides a single lessee accounting model and requires a lessee to recognise right-of-use assets and liabilities for leases with a term more than 12 months unless the underlying value is of low value. The FReM makes two public sector adaptations

- The definition of a contract is expanded to include intra UK government agreements that are not legally enforceable;
- The definition of a contract is expanded to included agreements that have nil consideration.

IFRS 16 gives a narrower definition of a lease than IAS 17 and IFRIC 4 by requiring that assets and liabilities will be recognised initially at the discounted value of minimum lease payments. After initial recognition, right of use assets will be depreciated on a straight line basis and interest recognised on the liabilities. Except where modified for revaluation where material, the cost model will be applied to assets other than peppercorn leases which will be measured on a depreciated replacement cost basis. The right of use asset in a peppercorn lease is accounted for similarly to a donated asset.

As required by the FReM IFRS 16 will be implemented using the accumulated catch up method.

The right of use assets and leasing obligation have been calculated and indicated that the total discounted value of right of use assets and liabilities under IFRS 16 is lower than the value of minimum lease commitments under IAS 17 due to the discount factor applied. The impact of implementation is a

- decrease in expenditure of £12k for 2022/23;
- increase in assets and liabilities of £13,216k.

These figures are calculated before intercompany eliminations are made, these will not have a material impact on the figures.

LHB

1 Expenditure on Hospital and Community Health Services

2 Finance Costs

THE NATIONAL HEALTH SERVICE IN WALES ACCOUNTS DIRECTION GIVEN BY WELSH MINISTERS IN ACCORDANCE WITH SCHEDULE 9 SECTION 178 PARA 3(1) OF THE NATIONAL HEALTH SERVICE (WALES) ACT 2006 (C.42) AND WITH THE APPROVAL OF TREASURY

LOCAL HEALTH BOARDS

1. Welsh Ministers direct that an account shall be prepared for the financial year ended 31 March 2011 and subsequent financial years in respect of the Local Health Boards (LHB)¹, in the form specified in paragraphs [2] to [7] below.

BASIS OF PREPARATION

2. The account of the LHB shall comply with:

(a) the accounting guidance of the Government Financial Reporting Manual (FReM), which is in force for the financial year in which the accounts are being prepared, and has been applied by the Welsh Government and detailed in the NHS Wales LHB Manual for Accounts;

(b) any other specific guidance or disclosures required by the Welsh Government.

FORM AND CONTENT

3. The account of the LHB for the year ended 31 March 2011 and subsequent years shall comprise a statement of comprehensive net expenditure, a statement of financial position, a statement of cash flows and a statement of changes in taxpayers' equity as long as these statements are required by the FReM and applied by the Welsh Assembly Government, including such notes as are necessary to ensure a proper understanding of the accounts.

4. For the financial year ended 31 March 2011 and subsequent years, the account of the LHB shall give a true and fair view of the state of affairs as at the end of the financial year and the operating costs, changes in taxpayers' equity and cash flows during the year.

5. The account shall be signed and dated by the Chief Executive of the LHB.

MISCELLANEOUS

6. The direction shall be reproduced as an appendix to the published accounts.

7. The notes to the accounts shall, inter alia, include details of the accounting policies adopted.

Signed by the authority of Welsh Ministers

Signed : Chris Hurst

Dated :

1. Please see regulation 3 of the 2009 No.1559 (W.154); NATIONAL HEALTH SERVICE, WALES; The Local Health Boards (Transfer of Staff, Property, Rights and Liabilities) (Wales) Order 2009.

The Certificate and independent auditor's report of the Auditor General for Wales to the Senedd

Opinion on financial statements

I certify that I have audited the financial statements of Hywel Dda University Health Board for the year ended 31st March 2022 under Section 61 of the Public Audit (Wales) Act 2004. These comprise the Statement of Comprehensive Net Expenditure, the Statement of Financial Position, the Cash Flow Statement and Statement of Changes in Taxpayers' Equity and related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards as interpreted and adapted by HM Treasury's Financial Reporting Manual.

In my opinion the financial statements:

- give a true and fair view of the state of affairs of Hywel Dda University Health Board as at 31st March 2022 and of its net operating costs for the year then ended;
- have been properly prepared in accordance with UK adopted international accounting standards as interpreted and adapted by HM Treasury's Financial Reporting Manual; and
- have been properly prepared in accordance with the National Health Service (Wales) Act 2006 and directions made there under by Welsh Ministers.

Opinion on regularity

In my opinion, except for the matter described in the *Basis for Qualified Opinion on Regularity* section of my report, in all material respects, the expenditure and income in the financial statements have been applied to the purposes intended by the Senedd and the financial transactions recorded in the financial statements conform to the authorities which govern them.

Basis for Qualified Opinion on regularity

I have qualified my opinion on the regularity of Hywel Dda University Health Board's financial statements because:

- those statements include a provision of £922,586 relating to the Trust's estimated liability arising from the Ministerial Direction dated 18 December 2019 on senior clinicians' pensions. In my view, this expenditure is irregular and material by its nature.
- The Hywel Dda University Health Board has breached its resource limit by spending £84.853 million over the amount that it was authorised to spend in the three-year period 2019-2020 to 2021-2022. This spend constitutes irregular expenditure.

Further detail is set out in my attached report.

Basis of opinions

I conducted my audit in accordance with applicable law and International Standards on Auditing in the UK (ISAs (UK)) and Practice Note 10 'Audit of Financial Statements of Public Sector Entities in the United Kingdom'. My responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of my report. I am independent of the Board in accordance with the ethical requirements that are relevant to my audit of the financial statements in the UK including the Financial Reporting Council's Ethical Standard, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinions.

Conclusions relating to going concern

In auditing the financial statements, I have concluded that the use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work I have performed, I have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the body's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from when the financial statements are authorised for issue.

My responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other Information

The other information comprises the information included in the Annual Report other than the financial statements and my auditor's report thereon. The Chief Executive is responsible for the other information contained within the Annual Report. My opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in my report, I do not express any form of assurance conclusion thereon. My responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If I identify such material inconsistencies or apparent material misstatements, I am required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact.

I have nothing to report in this regard.

Report on other requirements

Opinion on other matters

In my opinion, the part of the Remuneration and Staff Report to be audited has been properly prepared in accordance with the National Health Service (Wales) Act 2006 and directions made there under by Welsh Ministers.

In my opinion, based on the work undertaken in the course of my audit:

- the information given in the Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements and the Governance Statement has been prepared in accordance with Welsh Ministers' guidance;
- the information given in the Performance and Accountability Report for the financial year for which the financial statements are prepared is consistent with the financial statements and the Performance and Accountability Report has been prepared in accordance with Welsh Ministers' guidance.

Matters on which I report by exception

In the light of the knowledge and understanding of the Board and its environment obtained in the course of the audit, I have not identified material misstatements in the Performance and Accountability Report or the Annual Governance Statement.

I have nothing to report in respect of the following matters, which I report to you, if, in my opinion:

- adequate accounting records have not been kept, or returns adequate for my audit have not been received from branches not visited by my team;
- the financial statements and the audited part of the Remuneration Report are not in agreement with the accounting records and returns;
- information specified by HM Treasury or Welsh Ministers regarding remuneration and other transactions is not disclosed; or

- I have not received all the information and explanations I require for my audit.

Responsibilities

Responsibilities of Directors and the Chief Executive for the financial statements

As explained more fully in the Statements of Directors' and Chief Executive's Responsibilities on pages 9 and 10, the Directors and the Chief Executive are responsible for the preparation of financial statements which give a true and fair view and for such internal control as the Directors and Chief Executive determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors and Chief Executive are responsible for assessing the board's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless deemed inappropriate.

Auditor's responsibilities for the audit of the financial statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. I design procedures in line with my responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

My procedures included the following:

- Enquiring of management, the head of internal audit, and those charged with governance, including obtaining and reviewing supporting documentation relating to Hywel Dda University Local Health Board's policies and procedures concerned with:
 - identifying, evaluating and complying with laws and regulations and whether they were aware of any instances of non-compliance;
 - detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud; and
 - the internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations.
- Considering as an audit team how and where fraud might occur in the financial statements and any potential indicators of fraud. As part of this discussion, I identified potential for fraud in the following areas: revenue recognition and posting of unusual journals: and
- Obtaining an understanding of Hywel Dda University Local Health Board's framework of authority as well as other legal and regulatory frameworks that the Hywel Dda University Local Health Board operates in, focusing on those laws and regulations that had a direct effect on the financial statements or that had a fundamental effect on the operations of Hywel Dda University Local Health Board.

In addition to the above, my procedures to respond to identified risks included the following:

- reviewing the financial statement disclosures and testing to supporting documentation to assess compliance with relevant laws and regulations discussed above;
- enquiring of management, the Audit Committee and legal advisors about actual and potential litigation and claims;
- reading minutes of meetings of those charged with governance and the Board; and
- in addressing the risk of fraud through management override of controls, testing the appropriateness of journal entries and other adjustments; assessing whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluating the

business rationale of any significant transactions that are unusual or outside the normal course of business.

I also communicated relevant identified laws and regulations and potential fraud risks to all audit team and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

The extent to which my procedures are capable of detecting irregularities, including fraud, is affected by the inherent difficulty in detecting irregularities, the effectiveness of the Hywel Dda University Local Health Board controls, and the nature, timing and extent of the audit procedures performed.

A further description of the auditor's responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website www.frc.org.uk/auditorsresponsibilities. This description forms part of my auditor's report.

Responsibilities for regularity

The Chief Executive is responsible for ensuring the regularity of financial transactions.

I am required to obtain sufficient evidence to give reasonable assurance that the expenditure and income have been applied to the purposes intended by the Senedd and the financial transactions conform to the authorities which govern them.

Report of the Auditor General to the Senedd

Introduction

Under the Public Audit Wales Act 2004, I am responsible for auditing, certifying and reporting on Hywel Dda University Health Board (the LHB's) financial statements. I am reporting on these financial statements for the year ended 31 March 2022 to draw attention to three key matters for my audit. These are the failure against the first financial duty and consequential qualification of my 'regularity' opinion, the failure of the second financial duty, and the qualification of my 'regularity' opinion relating to expenditure recognised as a result of the ministerial direction on senior clinicians' pensions. I have not qualified my 'true and fair' opinion in respect of any of these matters.

Financial duties

Local Health Boards (LHBs) are required to meet two statutory financial duties – known as the first and second financial duties.

For 2021-22 Hywel Dda University Health Board failed to meet both the first and the second financial duty.

Failure of the first financial duty

The **first financial duty** gives additional flexibility to LHBs by allowing them to balance their income with their expenditure over a three-year rolling period. The three-year period being measured under this duty this year is 2019-20 to 2021-22.

As shown in Note 2.1 to the Financial Statements, the LHB did not manage its revenue expenditure within its resource allocation over this three-year period, exceeding its cumulative revenue resource limit of £2,996.321 million by £84.853 million.

Where an LHB does not balance its books over a rolling three-year period, any expenditure over the resource allocation (i.e. spending limit) for those three years exceeds the LHB's authority to spend and is therefore 'irregular'. In such circumstances, I am required to qualify my 'regularity opinion' irrespective of the value of the excess spend.

Failure of the second financial duty

The **second financial duty** requires LHBs to prepare and have approved by the Welsh Ministers a rolling three-year integrated medium-term plan. This duty is an essential foundation to the delivery of sustainable quality health services. An LHB will be deemed to have met this duty for 2021-22 if it submitted a 2019-20 to 2021-22 plan approved by its Board to the Welsh Ministers who then approved it by the 30 June 2019. This duty is unchanged from 2019-20 because due to the pandemic, the duty to prepare a new three-year plan for the period 2021-22 to 2023-24 was paused, leaving the previous year's duty in place.

As shown in Note 2.3 to the Financial Statements, the LHB did not meet its second financial duty to have an approved three-year integrated medium-term plan in place for the period 2019-20 to 2021-22.

Ministerial direction on senior clinicians' pensions

NHS Pension scheme and pension tax legislation is not devolved to Wales. HM Treasury's changes to the tax arrangements on pension contributions in recent years included the reduction in the Annual Allowance limit from over £200k in 2011-12 to £40k in 2018-19. As a result, in cases where an individual's pension contributions exceed

certain annual and / or lifetime pension contribution allowance limits, then they are taxed at a higher rate on all their contributions, creating a sharp increase in tax liability.

In a Written Statement on 13 November 2019, the Minister for Health and Social Services had noted that NHS Wales bodies were: 'regularly reporting that senior clinical staff are unwilling to take on additional work and sessions due to the potentially punitive tax liability'. In certain circumstances this could lead to additional tax charges in excess of any additional income earned.

On 18 December 2019, the First Minister (mirroring earlier action by the Secretary of State for Health and Social Care for England) issued a Ministerial Direction to the Permanent Secretary to proceed with plans to commit to making payments to clinical staff to restore the value of their pension benefits packages. If NHS clinicians opted to use the 'Scheme Pays' facility to settle annual allowance tax charges arising from their 2019-20 NHS pension savings (i.e. settling the charge by way of reduced annual pension, rather than by making an immediate one-off payment), then their NHS employers would meet the impact of those tax charges on their pension when they retire.

The Ministerial Direction was required because this solution could be viewed by HMRC to constitute tax planning and potentially tax avoidance, hence making the expenditure irregular. Managing Welsh Public Money (which mirrors its English equivalent) specifically states that 'public sector organisations should not engage in... tax evasion, tax avoidance or tax planning'.

A Ministerial Direction does not make regular what would otherwise be irregular, but it does move the accountability for such decisions from the Accounting Officer to the Minister issuing the direction.

The solution applies only to annual allowance tax charges arising from an increase in the benefits accrued in the NHS Pension Scheme during the tax year ended 5 April 2020. For the tax year ended 5 April 2021, the Chancellor increased the thresholds for the tapered annual allowance and, as a result, it is anticipated that the risk to the supply of clinical staff has been mitigated.

The LHB has received sufficient information during the year to calculate and recognise an estimate of the potential costs of compensating senior clinical staff for pension benefits that they would otherwise have lost, by using the 'Scheme Pays' arrangement. As a result, expenditure has been recognised as a provision as shown in note 20 of the financial statements.

All NHS bodies will be held harmless for the impact of the Ministerial Direction, however in my opinion, the transactions included in the LHB's financial statements to recognise this liability are irregular and material by their nature. This is because the payments are contrary to paragraph 5.6.1 of Managing Public Money and constitute a form of tax planning which will leave the Exchequer as a whole worse off. The Minister's direction alone does not regularise the scheme. Furthermore, the arrangements are novel and contentious and potentially precedent setting. As a result, I have qualified my 'regularity' opinion for 2021-22.
