

Stakeholder response from Winch Lane Surgery, Haverfordwest.
Received 31/01/2023 via email:

Hi [REDACTED]

Sorry for the delayed reply.

Our feedback from Winch Lane would be that if the surgery dissolves then our workload at the surgery is starting to become unmanageable. We would be acquiring 327 patients with a list size of 15.2k currently. Our list continues to increase and we are unable to recruit new clinicians from April as our building is at capacity with the amount of rooms.

We feel that Solva Surgery would be best to be health board managed so our workload at the surgery does not start to become untenable.

Kind Regards

[REDACTED]
